香港特別行政區政府知識產權署商標註冊處
Trade Marks Registry, Intellectual Property Department
The Government of the Hong Kong Special Administrative Region

接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期爲 2003 年 4 月 4 日，則該三個月的 後一日爲 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks
Ordinance (Cap. 559), please view e-gazette at http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0.

Class(es) No(s).: 9,35,38,41,42

[511] 貨品／服務說明：
Specification:
Class 9:
Electro photographic printers, copying machines, facsimile machines, scanners and multifunctional products, namely, machines which offer copying, facsimile, printing and scanning functions; Computer operating software for the aforementioned machines.
Class 35:

Online retail store services featuring computer software provided via the Internet and other computer and electronic communication networks; Online retail store services featuring computer software for use on handheld mobile digital electronic devices and other consumer electronics.
Class 38:
Electronic transmission of computer software via the Internet, global computer networks, wireless networks and electronic communication networks; Electronic transmission of data via the Internet, global computer networks, wireless networks and electronic communication networks.
Class 41:
Digital image processing (digital imaging services [editing of images]); Providing education, knowledge and related information on computer hardware and computer software; Educational and instruction services relating to arts, crafts, sports or general knowledge; Providing information on education; Providing electronic publication; Providing images and movies via computer networks.
Class 42:
Rental of computer software; Maintenance, repair and updating of computer software; Providing information concerning computer software, namely, information about software maintenance, repair, updating and development via the Internet and other computer and electronic communication networks; Providing consulting services and technical troubleshooting support in the nature of diagnostic computer hardware and software problems for computer software and for handheld mobile digital electronic devices and other consumer electronics; Providing temporary use of non-downloadable computer software for use in database management and use in electronic storage of data; Providing a website featuring technology that enables Internet users to access and download computer software.

Class 9:
Computer software; computer application software; computer application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for processing financial information; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for implementing and recording financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for settling transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for providing authenticating of parties to a financial transaction; computer and mobile

device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for maintaining ledgers for financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for providing access control to accounts and assets involved in financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for the management of cryptographic security of electronic transmissions across computer networks; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for automating processes for authentication of party identity in connection with the issuance and management of cryptographic keys used for authentication or encryption of digital communications in an electronic transaction or communication over the internet and other computer networks; computer software, namely, encryption software to enable secure transmission of digital information over the internet, as well as over other modes of communication between computing devices; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for authentication and identity management information security; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for allowing users to calculate parameters related to financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for allowing users to perform payment of interest calculations

Class 36:

Financial services; financial services,

namely, assisting others in conducting financial transactions; financial services, namely, transaction tracking in the nature of recording financial information in a ledger and settlement services in the nature of clearing and reconciling financial transactions via a global computer network; currency settlement services, namely, currency transfer services, online real-time currency trading for settling financial transactions; transaction settlement services, namely, settlement services in the nature of clearing and reconciling financial transactions via a global computer network for transactions involving traditional currencies, digital currencies, and digital tokens; financial management, namely, providing access control to accounts and assets involved in financial transactions

Class 38:

Providing user access to computer software and mobile device applications; providing multiple user access to others to computer software and mobile device applications for implementing and recording financial transactions in data networks; providing multiple user access to others to computer software and mobile device applications to provide access control to accounts and assets involved in financial transactions in data networks; providing multiple user access to others to computer software and mobile device applications for settling transactions; providing multiple user access to others to computer software and mobile device applications for providing authenticating of parties to a financial transaction in data networks; providing multiple user access to others to computer software and mobile device applications for maintaining ledgers for financial transactions; providing multiple user access to others to computer software and mobile device applications for providing access control to accounts and assets involved in financial transactions in data networks; providing multiple user access to others to computer software and mobile device applications for the management of cryptographic security of electronic transmissions across computer networks in data networks; providing multiple user access to others to computer software and mobile device applications for automating processes for authentication of party identity in connection with the issuance and management of cryptographic keys used for authentication or

encryption of digital communications in an electronic transaction or communication over the internet and other computer networks in data networks; providing multiple user access to others to computer software and mobile device applications for encrypting and enabling secure transmission of digital information over the internet, as well as over other modes of communication between computing devices in data networks; providing multiple user access to others to computer software and mobile device applications for allowing users to calculate parameters related to financial transactions in data networks
Class 42:
Design and development of computer software; developing computer software for others; software integration services for others, namely, integration of computer software into multiple systems and networks; integration of computer systems and networks, namely, integrating software tools for assisting in the implementation and recordation of financial transactions; provision of non-downloadable software; providing non-downloadable software for processing financial information; providing non-downloadable computer software and mobile device applications for implementing and recording financial transactions; providing cloud-based computer software and mobile device applications for use by others for assisting in the implementation and recordation of financial transactions
Class 45:
Providing authentication of parties to financial transactions in the nature of providing user authentication services in e-commerce transactions

Class 9:
Computer software; computer application software; computer application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for processing financial information; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for implementing and recording financial transactions; computer and mobile device

application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for settling transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for providing authenticating of parties to a financial transaction; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for maintaining ledgers for financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for providing access control to accounts and assets involved in financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for the management of cryptographic security of electronic transmissions across computer networks; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for automating processes for authentication of party identity in connection with the issuance and management of cryptographic keys used for authentication or encryption of digital communications in an electronic transaction or communication over the internet and other computer networks; computer software, namely, encryption software to enable secure transmission of digital information over the internet, as well as over other modes of communication between computing devices; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for authentication and identity management information security; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers,

computing systems, namely, software for allowing users to calculate parameters related to financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for allowing users to perform payment of interest calculations
Class 36:
Financial services; financial services, namely, assisting others in conducting financial transactions; financial services, namely, transaction tracking in the nature of recording financial information in a ledger and settlement services in the nature of clearing and reconciling financial transactions via a global computer network; currency settlement services, namely, currency transfer services, online real-time currency trading for settling financial transactions; transaction settlement services, namely, settlement services in the nature of clearing and reconciling financial transactions via a global computer network for transactions involving traditional currencies, digital currencies, and digital tokens; financial management, namely, providing access control to accounts and assets involved in financial transactions
Class 38:
Providing user access to computer software and mobile device applications; providing multiple user access to others to computer software and mobile device applications for implementing and recording financial transactions in data networks; providing multiple user access to others to computer software and mobile device applications to provide access control to accounts and assets involved in financial transactions in data networks; providing multiple user access to others to computer software and mobile device applications for settling transactions; providing multiple user access to others to computer software and mobile device applications for providing authenticating of parties to a financial transaction in data networks; providing multiple user access to others to computer software and mobile device applications for maintaining ledgers for financial transactions; providing multiple user access to others to computer software and mobile device applications for providing access control to accounts and assets involved in financial transactions in data networks;

providing multiple user access to others to computer software and mobile device applications for the management of cryptographic security of electronic transmissions across computer networks in data networks; providing multiple user access to others to computer software and mobile device applications for automating processes for authentication of party identity in connection with the issuance and management of cryptographic keys used for authentication or encryption of digital communications in an electronic transaction or communication over the internet and other computer networks in data networks; providing multiple user access to others to computer software and mobile device applications for encrypting and enabling secure transmission of digital information over the internet, as well as over other modes of communication between computing devices in data networks; providing multiple user access to others to computer software and mobile device applications for allowing users to calculate parameters related to financial transactions in data networks
Class 42:
Design and development of computer software; developing computer software for others; software integration services for others, namely, integration of computer software into multiple systems and networks; integration of computer systems and networks, namely, integrating software tools for assisting in the implementation and recordation of financial transactions; provision of non-downloadable software; providing non-downloadable software for processing financial information; providing non-downloadable computer software and mobile device applications for implementing and recording financial transactions; providing cloud-based computer software and mobile device applications for use by others for assisting in the implementation and recordation of financial transactions
Class 45:
Providing authentication of parties to financial transactions in the nature of providing user authentication services in e-commerce transactions

[511]	**類別編號**： Class(es) No(s).:	9,36,38,42,45
[511]	**貨品／服務說明**： Specification:	Class 9: Computer software; computer application software; computer application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for processing financial information; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers,

computing systems, namely, software for implementing and recording financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for settling transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for providing authenticating of parties to a financial transaction; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for maintaining ledgers for financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for providing access control to accounts and assets involved in financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for the management of cryptographic security of electronic transmissions across computer networks; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for automating processes for authentication of party identity in connection with the issuance and management of cryptographic keys used for authentication or encryption of digital communications in an electronic transaction or communication over the internet and other computer networks; computer software, namely, encryption software to enable secure transmission of digital information over the internet, as well as over other modes of communication between computing devices; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for authentication and identity management information security; computer and mobile

device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for allowing users to calculate parameters related to financial transactions; computer and mobile device application software for mobile phones, portable media players, handheld computers, desktop computers, laptop computers, servers, computing systems, namely, software for allowing users to perform payment of interest calculations

Class 36:

Financial services; financial services, namely, assisting others in conducting financial transactions; financial services, namely, transaction tracking in the nature of recording financial information in a ledger and settlement services in the nature of clearing and reconciling financial transactions via a global computer network; currency settlement services, namely, currency transfer services, online real-time currency trading for settling financial transactions; transaction settlement services, namely, settlement services in the nature of clearing and reconciling financial transactions via a global computer network for transactions involving traditional currencies, digital currencies, and digital tokens; financial management, namely, providing access control to accounts and assets involved in financial transactions

Class 38:

Providing user access to computer software and mobile device applications; providing multiple user access to others to computer software and mobile device applications for implementing and recording financial transactions in data networks; providing multiple user access to others to computer software and mobile device applications to provide access control to accounts and assets involved in financial transactions in data networks; providing multiple user access to others to computer software and mobile device applications for settling transactions; providing multiple user access to others to computer software and mobile device applications for providing authenticating of parties to a financial transaction in data networks; providing multiple user access to others to computer software and mobile device applications for maintaining ledgers for financial transactions; providing multiple user access to others to computer software and mobile

device applications for providing access control to accounts and assets involved in financial transactions in data networks; providing multiple user access to others to computer software and mobile device applications for the management of cryptographic security of electronic transmissions across computer networks in data networks; providing multiple user access to others to computer software and mobile device applications for automating processes for authentication of party identity in connection with the issuance and management of cryptographic keys used for authentication or encryption of digital communications in an electronic transaction or communication over the internet and other computer networks in data networks; providing multiple user access to others to computer software and mobile device applications for encrypting and enabling secure transmission of digital information over the internet, as well as over other modes of communication between computing devices in data networks; providing multiple user access to others to computer software and mobile device applications for allowing users to calculate parameters related to financial transactions in data networks
Class 42:
Design and development of computer software; developing computer software for others; software integration services for others, namely, integration of computer software into multiple systems and networks; integration of computer systems and networks, namely, integrating software tools for assisting in the implementation and recordation of financial transactions; provision of non-downloadable software; providing non-downloadable software for processing financial information; providing non-downloadable computer software and mobile device applications for implementing and recording financial transactions; providing cloud-based computer software and mobile device applications for use by others for assisting in the implementation and recordation of financial transactions
Class 45:
Providing authentication of parties to financial transactions in the nature of providing user authentication services in e-commerce transactions

[511] **貨品／服務說明**：
Specification:

Class 9:
Prerecorded electronic data carriers featuring content for use in the teaching and learning of foreign languages and cross-cultural education; computer software for use in the teaching and learning of foreign languages and cross-cultural education; audiovisual teaching apparatus, namely, apparatus for recording, transmission or reproduction of sound and images and oral foreign language training machines comprising computer hardware, electronic display interfaces and audiovisual receivers for foreign language instruction and cross-cultural education; computer software; teaching materials on digital data carriers; electronic publications, downloadable; printed publications in electronically readable form; electronic forms (downloadable) supplied on-line from databases; downloadable audio recordings, video recordings, music, sounds, images, text, publications, signals, software, information, data and code provided via telecommunications networks, by online delivery and by way of the Internet and the world wide web; electronic books and publications (downloadable) in computer readable form; computer hardware; computer firmware; computer peripherals; software applications for mobile phones, tablet computers, hand held devices and computers; software for testing and assessment in the field of human resources, and electronic instructional manuals provided therewith; computer software used in international trade to automate and manage import and export transactions including web-invoicing; apparatus for coding and decoding signals; apparatus and instruments for recording, receiving, transmitting and/or reproducing data, information, pictures, images, and/or sound; CDs (compact discs); CD-ROM (compact disc - read only memory); DVDs (digital video discs); CDI (compact disc - interactive); USB (Universal Serial Bus) flash drives; magnetic data carriers; recording discs; data processing equipment; data storage programs; teaching apparatus; access control apparatus and devices for managing the accounting and billing of goods and services; apparatus for environmental testing of electronic components; environmental pollution analyzers; encoded identification cards; encoded identification bracelets (magnetic) and labels (magnetic); electronic tags; RF-ID (radio frequency identification tags); barcode labels and tags; internet and computer network threat

prevention and security systems; computer security and authentication software for controlling access to and communications with computers; computer software for network and information technology security; computer software for use in protecting the privacy and security of personal computers; data security apparatus; mouse pads; cases and covers for mobile phones and electronic devices; battery chargers; portable chargers for mobile phones and electronic devices.
Class 16:
Printed matter; teaching materials [except apparatus]; printed matter, namely, calendars, posters, flyers, post cards, greeting cards, printed worksheets for use in connection with the teaching and learning of foreign languages and cross-cultural education; printed educational materials for use in connection with the teaching and learning of foreign languages and cross-cultural education; adhesive backed stickers, printed manuals, learning cards and flash cards for use in connection with the teaching and learning of foreign languages and cross-cultural education; printed instructional materials, namely, newspapers, photographs, magazines, books, printed periodicals, newsletters, and brochures for use in connection with the teaching and learning of foreign languages and cross-cultural education; posters; informational flyers for use in connection with the teaching and learning of foreign languages and cross-cultural education; publications; brochures, pamphlets, manuals; labels; cards; writing instruments; stationery; writing pads; appointment books; cheque books; corporate reports; trade journals; computer software manuals and publications; educational printed publications; financial publications; printed insurance reports; guides; bulletins; catalogues; identification cards (other than encoded or magnetic); badges of cardboard or paper; name badges; badge holders made of plastic, paper or cardboard; folders; carrier bags of paper, cardboard and plastic; luggage tags; tags (stationery); diaries; goods made of paper or cardboard.
Class 35:
Advertising; marketing services; publicity; online advertising on a computer network; retail store services and online retail store services; presentation of goods on communication media, for retail purposes; business management; advisory services for

business management; commercial administration of the licensing of goods and services of others; provision of an online marketplace for buyers and sellers of goods and services; systemization of information into computer databases; marketing research services; conducting market surveys; employee administration services; arranging and conducting special events for commercial, promotional or advertising purposes; providing an on-line database providing business intelligence; market research services; human resources consultancy; employment and recruitment services; employment advisory, agency and consultancy services; employment and recruitment advertising; recruitment of personnel; recruitment consultancy services and personnel recruitment services; recruitment and human resources management services; tax consultancy and advisory services (accountancy); tax estimation and preparation; company secretarial services; administration of business affairs; business information and inquiries; accounting; bookkeeping; payroll accounting; business administration; business administration analysis; business administration services relating to insurance; business risk management; company formation; completion of tax returns; economic forecast for business purposes; payroll preparation; payroll processing services [for others]; tax advice; tax estimation and preparation; career counselling (employment advice and information); employment counselling services; human resources consulting services relating to equal employment practices, the labour market and international assignment of personnel; assessment analysis related to business management; recruitment of executive staff; personnel selection using psychological testing; personnel placement, recruitment and selection; business succession planning; transcription of communications [office functions]; telephone answering (for unavailable subscribers); telephone answering (for others); opinion polling services; computer data management; providing business data via a secured access database on the Internet through which documents and images can be viewed, downloaded and printed; loyalty program or incentive scheme redemption services in connection with the supply of benefits of value to customers; provision of commercial information; provision of commercial and business data and statistical

information; computerized data processing; computerized dissemination and retrieval of business information; on-line data processing services; retrieval of business information and data; compilation and analysis of commercial and business information and data; arranging and conducting trade exhibitions, trade fairs and events; organization of trade exhibitions, trade fairs and events; corporate business management services relating to space management; relocation services for businesses, corporations, employees and shops; export and import agency services; import-export clearance agencies; analysis of business information relating to import and/or export shipment; updating of advertising materials; compilation of advertisements for use as web pages on the Internet; provision of sales, business, advertising and promotional information through a global computer network; rental of advertising space; promotions for others; promotional services; sales, business, advertising and promotional information services; procurement services for others (purchasing goods and services for other businesses); retail and wholesale of printed matter, books, magazines, stationery, and instructional and teaching materials; advisory, business management, consultancy, and information services relating to all the aforesaid services; all included in class 35.
Class 41:
Educational services; entertainment services; education services, namely, providing courses of instruction at the primary, secondary and college level and distribution of course material in connection therewith; education services, namely, providing classes, seminars or workshops in the teaching and learning of foreign languages and cross-cultural education; language instruction; publishing services; providing online access to non-downloadable publication via a website; electronic publication of texts and printed matter, other than publicity texts; publication of printed matter; providing electronic publications relating to language training, not downloadable; writing services for blogs; providing information about online education; consultancy services relating to the training of employees; consultation services relating to business education; providing of information relating to continuing education; training services; arranging and conducting of conferences, courses, seminars and workshops (training);

providing electronic publications [not downloadable]; providing electronic publications on-line [not downloadable]; publication of on-line journals, namely, blogs, featuring user-defined content; online (electronic) publication of news; publication of texts (other than publicity texts); publication of texts, books and journals (others than publicity texts); publication of diagrams, images and photographs; providing employment training information; education and training provided on-line from a computer database or the Internet; organisation of exhibitions for cultural or educational purposes; organising charitable fundraising events being the provision of entertainment, sporting and cultural services; design of educational courses, training courses, examinations and qualifications; language interpretation; sign language interpretation; translation services; interpretation services; reporters' services; information relating to sporting or cultural events, current affairs and breaking news provided by satellite television transmission, the Internet or by other electronic means; advisory, consultancy, and information services relating to all the aforesaid services; all included in class 41.
Class 42:
Providing temporary use of non-downloadable computer software; providing temporary use of web-based software; hosting of interactive computer applications; hosting of multimedia applications; hosting multimedia educational content; providing online, non-downloadable software; computer software design; consultancy in the design and development of computer hardware and software; web site design consultancy; design of home pages and websites; Software as a Service (SaaS); cloud computing; software development; scientific research; technical research; electronic data storage; scientific and technological services and research and design relating thereto; industrial analysis and research services; computer service relating to creating indexes of information, sites and resources on computer networks; computer programming; computer integration services; design, drawing and commissioned writing, all for the compilation of web pages on the Internet; creating and maintaining web sites; designing, creating and hosting of bill payment websites; evaluation of performance of computer systems; installation, maintenance and repair of computer software and computer programs;

updating of computer software; computer services relating to recovery of computer data; computer programming relating to encrypted and secure communications; design of communications network and apparatus; design of communications network systems and equipment; application software design; application service provider featuring software for use in deployment, personnel and human resource management; computer security; computer services relating to interconnection of computer hardware and software; computer service relating to creating indexes of information, sites and resources on computer networks; testing and evaluation of occupational health and safety products; temporary electronic storage of information and data; advisory, consultancy, and information services relating to all the aforesaid services; all included in class 42.

[511] **類別編號**：
Class(es) No(s).:

9,38,42,45

[511] **貨品／服務說明**：
Specification:

Class 9:
Application programming interface (API) for computer software which facilitates online services for social networking, building social networking applications and for allowing data retrieval, upload, download, access and management; Computer software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, sharing or otherwise providing electronic media or information via computer and communication networks; Software for sending electronic message alerts and reminders via the Internet; Software and for sending and receiving electronic messages via the Internet; Downloadable computer software for modifying the appearance and enabling transmission of images, audio visual and video content; Computer software for the collection, editing, organizing, modifying, transmission, storage and sharing of data and information; Computer search engine software
Class 38:
Photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content among internet users; Providing access to computer, electronic and online databases; Telecommunications services, namely, electronic transmission of data, messages, graphics, images, audio, video and information; Providing online forums for communication on topics of general interest; Providing online communications links which transfer mobile device and Internet users to other local and global online locations; Facilitating access to third party websites or to other electronic third party content via a universal login; Providing online chat rooms, email and instant messaging services, and electronic bulletin boards; Audio, text and video broadcasting services over computer or other communication networks, namely, uploading, posting, displaying, modifying, tagging, and electronically transmitting data, information, audio and video; Voice over IP services; Telephony communication services; Providing access to computer databases in the fields of social networking, social introduction and dating
Class 42:

Computer services, namely, creating virtual communities for registered users to organize groups, participate in discussions, get feedback from their peers, and engage in social networking and business collaboration and communication; Computer services, namely, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; Application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, modifying, sharing or otherwise providing electronic media or information over communication networks; Providing online facilities for others featuring technology that enables online users to create personal profiles featuring social and business information and to transfer and share such information among multiple online facilities; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, on computer and communication networks; Providing temporary use of non-downloadable software applications for social networking, creating a virtual community, and transmission of audio, video, photographic images, text, graphics and data; Computer services in the nature of customized online pages featuring user-defined or specified information, personal profiles, audio, video, photographic images, text, graphics and data; Computer services, namely, providing search engines for obtaining data on global computer and communication networks; Software as a service (SAAS) services featuring software for sending electronic message alerts, and sending and receiving electronic messages, and via a global computer network; Platform as a service (PAAS) services featuring technology that allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and engage in social networking and business collaboration and communication; Providing search engines for obtaining data via communications networks; Providing online facilities for others that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Operating search engines; Computer

services, namely, providing interactive online facilities for others featuring technology that allows users to manage their online audio and visual and social networking and business communication and collaboration accounts; Providing online software for modifying the appearance and enabling transmission of audio, video, photographic images, text, graphics and data; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files
Class 45:
Internet based social introduction and networking services; Providing social services and information in the field of personal development, namely, self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community services, and humanitarian activities

[511]	**貨品／服務說明**： Specification:	Class 9: Application programming interface (API) for computer software for image rendering, modeling, and image manipulation and processing; application programming interface (API) for computer software for ray tracing and image rendering, modeling, and image manipulation and processing; application programming interface (API) for use in building software applications; artificial intelligence computers; artificial intelligence supercomputers; computer game software; computer hardware; computer hardware and software for professional designers, engineers, and scientists for advanced graphics processing and visual computing sold as an integral component of computers; computer hardware and software for professional designers, engineers, and scientists for advanced graphics processing and visual computing; computer hardware and software, and communications hardware and software for the operation, control, maintenance, and management of land vehicles, self-driving and autonomous land vehicles and land vehicle components, for land vehicle navigation, for travel and trip planning, for communications and for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous

land vehicles; computer monitors; computer software development tools; computer software for performing computer graphics operations and improving graphical and video display capabilities; computer software for the display of digital media; computers; downloadable computer graphics software development tools for advanced graphics processing, for managing and implementing virtual desktop infrastructures, for virtual desktops and applications, and for virtualization technology software; downloadable computer graphics; downloadable software for management of medical imaging; electronic computer vision accelerators; electronic display interfaces; electronic display screens; electronic game software; electronic publications recorded on computer media, in the nature of books, manuals, magazines e-zines and newsletters featuring information regarding electronic game devices and electronic games; electronic, computer, interactive and video game software; flat panel display screens; graphics processing units (GPUs); graphics software; hardware and software for detecting objects, user gestures and commands; hardware and software for medical imaging apparatus; hardware and software for operating sensor devices; integrated circuit components for graphics and video systems, namely, multimedia accelerators, graphic accelerators and peripheral units; integrated circuits for enhancing graphical and video display; integrated circuits, semiconductors and computer chipsets; integrated circuits; liquid crystal display (LCD) monitors; liquid crystal displays; self-driving and autonomous land vehicle electronic computing platform; self-driving and autonomous land vehicle electronic driving system and equipment; semiconductors; sensors for monitoring physical movements; simulation, modeling and data processing software for use in data visualization, data analysis, data mining, data interpretation, predictive analytics, accessing and editing large-scale data, interactive visual computing, design of information graphics, video streaming, maximizing graphics processing and performance; software; software and computer hardware for machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; software and firmware for enabling electronic devices

to share data and communicate with each other; software and firmware for operating system programs; software and hardware that facilitates data transmission, data collection, data analysis, and decision-making; software development kits (SDKs) consisting of software for image rendering, modeling, and image manipulation and processing; software development kits (SDKs) consisting of software for ray tracing and image rendering, modeling, and image manipulation and processing; software development tools; software for 3D-visualization, 3D modeling and 3D rendering; software for advanced graphics processing and visual computing; software for enhancement of graphical and video display; software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; software for image rendering, modeling, and image manipulation and processing; software for machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; software for management, storage and network management of digital media, and enhancement of graphical and video display; software for management, storage and network management of digital media; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for operating and managing integrated circuit components; software for post processing images, graphics and text; software for processing images, graphics, audio, video, and text; software for professional designers, engineers, and scientists for advanced graphics processing and visual computing; software for ray tracing and image rendering, modeling, and image manipulation and processing; software for use as an application programming interface (API); artificial intelligence software; software for use in operating artificial intelligence platforms; software, namely, knowledge-based artificial intelligence platforms, data analytics platforms, and automation platforms; software, namely, an interpretive interface for facilitating interaction between humans and machines; supercomputers; system-on-chip processors; video game software; computers; software; graphics processing units (GPUs) in the nature of computer hardware for enhancing

graphical and video display; computer graphics software for improving display quality; computer graphics firmware for enhancement of graphical and video display; electronic control systems for land motor vehicles; software for controlling the operation of audio and video devices; software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; hyperscale computing software; web-scale computing software; computer hardware and software for managing large scale data centers, data analysis, data storage, and storage system performance analysis
Class 42:
Advanced product research in the field of artificial intelligence; application service provider (ASP) services featuring application programming interface (API) software for image rendering, modeling, and image manipulation and processing; application service provider (ASP) services featuring application programming interface (API) software for ray tracing and image rendering, modeling, and image manipulation and processing; cloud computing services; cloud computing featuring software for use in managing, gathering and organizing data, medical images, and information in the field of medical clinical trials and medical research; cloud-based supercomputing; computer programming services for customers that enable the customers' digital and handheld devices to download and utilize games and entertainment related content; computer software design, computer programming, or maintenance of computer software; consulting services in the field of gaming technology and graphics software; design and development of computer hardware and software; design and development of computer hardware and software in the fields of machine learning, deep learning, and deep neural networks; design and development of computer hardware and software in the fields of machine learning, deep learning, and deep neural networks; design and development of computer hardware and software in the fields of self-driving and autonomous land vehicle electronic computing platforms and systems; design and development of computer software for use with medical technology; design and development of computer software for vehicle simulation; design and development of software for fine-tuning, development, diagnostics for

vehicles, calibration, configuration and diagnostics of electronic systems; design of computer hardware, software and peripherals for others; design, development, customization, integration, support and maintenance of computer software; design, development, customization, integration, support and maintenance of computer software; design, programming or maintenance of artificial intelligence software; designing and developing computer game software and video game software; designing of machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments; development of hardware for use in connection with electronic and interactive multimedia games; electronic and interactive multimedia game development services; electronic storage of data; graphics design services, namely, creating 3D content, 3D product renderings, photorealistic renderings and models; image processing software design; industrial analysis and research services in the field of vehicle technology, vehicle simulations and vehicle test stands; medical and scientific research in the field of medical imaging; providing non-downloadable software for 3D-visualization, 3D modeling and 3D rendering; providing non-downloadable software for autonomous vehicle simulation; providing non-downloadable software for computer graphics; providing non-downloadable software for data management, analytics and pattern and activity recognition; providing non-downloadable software for detecting objects, user gestures and commands; providing non-downloadable software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; providing non-downloadable software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors; providing non-downloadable software for facilitating interaction between humans and machines; providing non-downloadable software for machine learning, deep learning, and deep neural networks; providing non-downloadable software for machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; providing non-downloadable software for object tracking,

motion control and content visualization; providing non-downloadable software for operating sensor devices; providing non-downloadable software for others to use for the development of software for self-driving and autonomous land vehicle electronic computing platforms and systems; providing non-downloadable software for processing images, graphics, audio, video, and text; providing non-downloadable software for streaming multimedia entertainment content; providing non-downloadable software for the operation, control, maintenance, and management of land vehicles, self-driving and autonomous land vehicles and land vehicle components, for land vehicle navigation, for travel and trip planning, for communications and for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous land vehicles; providing non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing non-downloadable software for use as application programming interfaces (API); providing non-downloadable software for use in electronic storage of data; providing non-downloadable software for use in visual, voice, audio, motion, eye and gesture tracking and recognition; providing non-downloadable software for virtual, augmented reality applications and environments; providing non-downloadable cloud computing software for use in managing, gathering and organizing data, medical images, and information in the field of medical clinical trials and medical research; providing non-downloadable cloud-based software for use with a supercomputer; providing non-downloadable software for use in managing, gathering and organizing data, medical images, and information in the field of medical clinical trials and medical research; platform as a service (PAAS) featuring computer software platforms for downloading, storing, viewing, playing and interacting with digital content and computer software applications; platform as a service (PAAS) featuring computer software platforms for downloading, storing, viewing, playing and interacting with digital content, computer and video games and computer software applications; platform as a service (PAAS) featuring computer software platforms for

downloading, storing, viewing, playing and interacting with digital content; platform as a service (PaaS) featuring computer software platforms for natural language processing, machine learning, voice command and recognition, converting speech to text, data analytics, and artificial intelligence; platform as a service (PaaS) featuring knowledge-based artificial intelligence computer software platforms, data analytics software platforms, and automation software platforms; platform as a service (PaaS) featuring software platforms for electronic gaming and graphic design; platform as a service (PAAS) featuring software platforms for transmission of images, audio-visual content, video content and messages; providing application programming interface (API) software for use in transmission of audio, video, images, text, content and data; providing artificial intelligence computer programs on data networks; providing cloud computing services featuring software for use in application development for entertainment, social, financial, business collaborative, gaming, and integration of private and public cloud computing environments; providing computer programs on data networks; providing computer software technical support services, technical information and technical support regarding software patches, upgrades and updates; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; providing online non-downloadable software for image rendering, modeling, and image manipulation and processing; providing online non-downloadable software for machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining and predictive analytics; providing online non-downloadable software for machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; providing online non-downloadable software for ray tracing and image rendering, modeling, and image manipulation and processing; providing personal assistant software; providing social assistant software; providing software technological support services and

consultation in the fields of software, development and use of computer hardware; providing temporary use of non-downloadable computer software enabling hardware and electronic devices to communicate with each other; providing temporary use of non-downloadable computer software enabling hardware and electronic devices to communicate with each other; providing temporary use of non-downloadable computer software for computer graphics; providing temporary use of non-downloadable computer software for enhancing computer performance, for operation of integrated circuits, semiconductors, computer chipsets and micro-processors, and for gaming purposes; providing temporary use of non-downloadable electronic game software; providing temporary use of non-downloadable interactive entertainment software; providing temporary use of nondownloadable software enabling hardware and electronic devices to share data and communicate with each other; providing temporary use of non-downloadable cloud-based software for use in the management of medical imaging data; providing temporary use of on-line non-downloadable software for accessing and using a cloud computing network; providing virtual computer systems and virtual computer environments through cloud computing; providing virtual computer systems and virtual computer environments through cloud computing; providing virtual computer systems, graphics processing units (GPUs), and virtual computer environments through cloud computing; providing virtual computer systems, graphics processing units (GPUs), and virtual computer environments through cloud computing; research and design in the field of vehicle technology, vehicle simulation and vehicle testing; scientific and technological services and research and design relating thereto; software as a service (SaaS) featuring computer software for others to use for the development of software for self-driving and autonomous land vehicle electronic computing platforms and systems; software as a service (SaaS) featuring computer software platforms for artificial intelligence; software as a service (SaaS) featuring software in the field of electronic control systems for land motor vehicles; software as a service (SaaS) featuring software in the field of self-driving and autonomous land vehicle and self-driving and autonomous land vehicle component operation, control, maintenance, management and communication; software as a service

(SaaS) featuring software platforms for electronic gaming and graphic design; software as a Service (SaaS) services featuring software for machine learning, deep learning, and deep neural networks; software as a service (SAAS) services featuring software for use in managing, gathering and organizing data, medical images, and information in the field of medical clinical trials and medical research; software development; providing software for integrating electronic data with real world environments for the purpose of capturing, processing, and visualizing modeling and placement of goods of others and visual image markers; providing software platform for software development featuring software development kits (SDKs); technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; scientific and technological services in the nature of system analysis and optimization of hyperscale computer systems; research, analysis, design, and optimization in the nature of upgrading computer software in the nature of cloud computing system computer software; industrial research in the field of system analysis and optimization of hyperscale computer systems and cloud computing systems; computer system design services; computer system analysis; research in the fields of data center hardware, hyperscale and cloud computing hardware systems

Specification:

Class 9:
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; computer programs; software for processing electronic payments to and from others; authentication software; computer software supplied on the Internet; computer software for interactive entertainment, which allows users to customize the viewing, listening, and playing experience by selecting and arranging the display and performance of audio, video and audiovisual

elements; downloadable audio, visual, and audiovisual files and recordings, featuring multimedia entertainment programs and content; online electronic publications (downloadable from the Internet or a computer network or a computer database); instant messaging software; file sharing software; communications software for electronically exchanging data, audio, video, images and graphics via computer, mobile, wireless, and telecommunication networks; computer software in the form of an application for mobile devices and computers; software applications for use with mobile devices; computer software for processing images, graphics, audio, video, and text; downloadable computer software to facilitate the electronic transmission of information, data, documents, voice, and images over the Internet; downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable cloud-computing software; downloadable cloud-based software; downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, informational materials, instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; computer peripherals; notebook computers; laptop computers; portable computers; handheld computers; personal digital assistants; personal media players; mobile telephones; smart phones; digital cameras; batteries, battery chargers; computer workstations; computer servers; computer and telecommunications networking hardware; computer network adaptors, switches, routers and hubs; wireless and wired modems and communication cards and devices; laptop holders, computer bags; fire-extinguishing apparatus; computer hardware and firmware; computer software (including software downloadable from the Internet); automobile navigation system; compact discs; digital music (downloadable from the Internet); telecommunications apparatus; mouse mats; mobile phone handsets; mobile phone accessories; downloadable games, pictures,

motion pictures, movies and music; alarm systems; security cameras; mobile radio and television broadcasting units; television broadcasting equipment; cameras; video cameras; headphones; telephone ear pieces; speakers; Global Positioning System (GPS) apparatus and equipment; computer, electronic and video games programmes and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; set top box; remote control; data storage programs; spectacles and sunglasses; electronic signboards; encoded or magnetic bank credit, debit, cash and identification cards; automatic teller machines, cash dispensers; electronic book readers; toner cartridges, unfilled, for printers and photocopiers; baby monitors; video baby monitors; lens hoods; tablet computers; encoded key cards; 3D spectacles; memory cards for video game machines; all included in Class 9.

Class 35:

Advertising; business management; business administration; office functions; organization, operation and supervision of loyalty and incentive schemes; advertising services provided via the Internet; production of television and radio advertisements; accountancy; auctioneering; organization of trade fairs; opinion polling; data processing; provision of business information; advertising agency services; advertising services provided for others; database management; compilation of information into computer databases; business consulting services; business consulting services in the field of web based events, conferences, training programs, learning programs, and seminars; business consulting services in the field of delivering web-based knowledge; business consulting services in the field of online collaboration and collaboration technologies; business consulting services in the fields of sales and marketing; business project management services; business project management services relating to development, set up, staging, production, recording, monitoring and follow-up for web based events, conferences, training programs, learning programs, and seminars; market research and business consulting services; business consultancy services relating to facilitating the transaction of business via local and global computer networks by locating and providing referrals

for the delivery of a wide variety of business and consumer products and services; dissemination of business information of goods and services of others via local and global computer networks; business consultancy services relating to providing a web site on a global computer network by which third parties can offer and source goods and services, place, determine the status of and fulfill trade leads and orders, enter into contracts and transact business; providing computerized online ordering services; advertising of goods and services of others via local and global computer networks; international import and export agency services; rental of advertising space on communication media; online trading services relating to electronic auctioneering and providing online business evaluation relating thereto; online retail services of consumer products; providing a directory of third party web sites to facilitate business transactions; business consultancy services relating to operating an electronic marketplace for the buyers and sellers of goods and/or services on a global computer network; business assistance relating to facilitating business transaction via local and global computer networks; corporate management consultancy services; marketing and promotion services; publication of publicity materials; marketing of vacant premises; dissemination of advertising materials, updating of advertising materials, compilation of advertisements for use as web pages on the Internet; rental of advertising space; computer data processing; sales, business and promotional information services; telephone answering (for unavailable subscribers); telephone answering (for others); auctioneering provided on the Internet; personnel management; provision of sales, business, advertising and promotional information through a global computer network and via the Internet; presentation of goods on communication media for retail purposes; the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise Internet web site and in a wholesale outlet; the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications; the bringing together, for the benefit of others,

of a variety of goods, enabling customers to conveniently view and purchase those goods from retail outlets; retail and wholesale of telephones, mobile phone handsets, mobile phone accessories, electronic and telecommunications goods, computer hardware and computer software, batteries, battery chargers, apparatus and instruments for recording, receiving, transmitting and/or reproducing data, information, pictures, images and/or sound, precious metals, jewellery, precious stones, printed matter, stationery, magnetically and non-magnetically encoded cards, furniture, picture frames, household and kitchen utensils, glassware, porcelain and earthenware, textiles, clothing, footwear, headgear, laces and embroidery, buttons, ribbons, pins and needles, artificial flowers, carpets, rugs, games and electronic toys, chemicals used in industry, science, photography and agriculture, paints, varnishes and lacquers, personal hygiene products, soaps, perfumery, cosmetics, hair and body lotions, essential oils, cleaning and bleaching preparations, lubricants, fuels, candles, pharmaceutical, veterinary and sanitary preparations, ironmongery and small items of metal hardware, machines and machine tools, cutlery, razors and hand tools, computers, calculating machines, electrical, photographic, cinematographic and optical apparatus and instruments, spectacles and sun glasses, surgical and medical apparatus and instruments, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, vehicles, firearms, fireworks, silverware, horological and chronometric instruments, musical instruments, magazine, cards, paper and cardboard products, picture, typewriters and office requisites, packaging materials, rubber and plastics for manufacture use, packing and insulating materials, leather and imitations of leather and goods made from these materials, handbags, purses, wallets, leather holders, bags, luggage, umbrellas, mirrors, ropes, string, nets, tents, yarns and threads for textile use, coat hangers, place mats, dressmaker's articles, bed and table covers, playthings and sporting articles, foodstuffs and beverages, meat, fish, poultry, preserved, dried and cooked fruits and vegetables, jams and fruits sauces, eggs, milk and milk products, edible oils and fats, coffee, tea, cocoa, sugar, rice, flour, bread and cakes, condiments, fresh fruit and

vegetables, beer, mineral water, fruit juices and other non-alcoholic drinks, alcoholic beverages, floral products, tobacco, smokers' articles and matches; direct mail advertising; buying and selling agency services for others; selection of goods and procurement of goods for individuals and businesses; ordering services [for others]; department store retailing services; supermarket retailing services; secretarial services; provision of business statistical information; organization of exhibitions for commercial or advertising purposes; business assistance services relating to compilation and rental of mailing lists; business investigation; business administration services for the processing of sales made on the Internet; business referral services and personnel placement; import-export clearance agencies (import-export agency services); agency for newspapers subscriptions; document reproduction; transcription (including stencil-paper writing); rental of office equipment; customer relationship management; business management services relating to electronic commerce; business management and administration services relating to sponsorship programmes; accounting services; charitable services, namely business administration relating to organizing and conducting volunteer programmes and community service projects; rental of sales stands; provision of commercial and business contact information; search engine optimization; web site traffic optimization; pay per click advertising; commercial intermediation services; business management for freelance service providers; negotiation and conclusion of commercial transactions for third parties; updating and maintenance of data in computer databases; business project management services for construction projects; providing business information via a web site; consultancy, information and advisory services relating to the aforesaid services; all included in Class 35.
Class 38:
Telecommunications; telecommunication services, namely, data transmission and reception services via telecommunication networks; providing web-based multimedia teleconferencing, videoconferencing, and online meeting services that allow simultaneous and asynchronous viewing, sharing, editing, and discussion of documents, data, and images by participants via a web browser; providing customers with online

access to online reports regarding the performance, effectiveness, and status of web-based applications, teleconferences, videoconferences, and meetings; providing users with secure remote access via the Internet to private computer networks; providing information in the fields of secured transmission of data and information; consulting services in the fields of secured data and information transmission services; providing online collaboration services (telecommunication services) allowing users to access applications, platforms, jointly-shared documents, data, task lists, and discussion forums; Internet broadcasting services, providing access to an online database of information regarding web-based broadcasting complaint submission platform; provision of telecommunication access and links to computer database and to the Internet; electronic communication services; interactive telecommunications services; telecommunication of information (web pages), computer programs and data; providing telecommunications connections to the Internet or data bases; provision of telecommunication access to world-wide web facilities and structures; communication by computer terminals; communication by fibre optic networks; computer aided transmission of messages, information, data, documents and images; facsimile transmission; message sending; paging services; rental of modems; data communication services by electronic means; rental of telecommunication equipment; electronic message sending, receiving and forwarding services; providing telecommunication services for collection, transmission and delivery of data by electronic means; electronic exchange of voice, data, audio, video, text and graphics accessible via computer and telecommunication networks; instant messaging services; mobile phone communication services; providing telecommunication services for collection, transmission and delivery of mail messages, still picture and/or moving picture information such as characters, messages, music and images, telegrams, information and data by mechanical, electronic, telephone, telex, cable, computer and satellite means; transmission, broadcast and reception of audio, video, still and moving images and data whether in compressed or uncompressed form and whether in real or delayed time; electronic messaging, conferencing and order-transmission

services; video conferencing services; communication by electronic bulletin board that enables users to perform a real-time interactive talk between a computer terminal and an electronic bulletin board containing still picture and moving picture information and voice information such as characters; providing electronic bulletin boards and message boards for transmission of messages; provision of online discussion forums; streaming of audio material on the Internet; streaming of video material on the Internet; television broadcasting services; pay-per-view television transmission services; video broadcasting services, broadcasting and transmission of radio and television programmes; music broadcasting; transmission of music, films, interactive programmes, videos, electronic computer games; transmission of information relating to online shopping and general retail services; video-on-demand transmission services; news agency services; providing access to computer database on the global computer network for searching and retrieving information, data, web sites and resources available on computer networks; providing user access to a computer database containing electronic publications, bulletin boards, database and information accessible via computer; operation of chat rooms (chat room services); multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; providing access to a website on a global computer network by which third parties can offer goods and services, place and fulfill orders, enter into contracts and transact business; providing access to an interactive website on a global computer network for third parties to post information, respond to requests and place and fulfill orders for products, services and business opportunities; communication services, namely, text and numeric digital messaging services; transmission of information by data communications for assisting decision making; transmission of information through video communication systems; web conferencing services; electronic communication services for establishing virtual chatrooms via text messaging; providing electronic bulletin boards for the posting and transmission of messages among and between computer users concerning products, services and business leads and opportunities; providing an online interactive bulletin board for the posting,

promotion, sale and resale of items via a global computer network; providing electronic mail and electronic mail forwarding services; audio and video communication via computers and computer networks, and via a global communications network; providing computer access and leasing access time to online interactive bulletin boards and databases; providing access to electronic bulletin boards for the posting and transmission of messages among and between computer users concerning products, services and business opportunities; providing access to electronic calendar, address book and electronic notebook, via local and global computer networks; providing distant video and/or telephone conferencing access and facilities; providing computer links to third party web sites to facilitate e-commerce and real world business transactions; consultancy, information and advisory services relating to the aforesaid services; all included in Class 38.
Class 41:
Education; providing of training; entertainment; sporting and cultural activities; publication of texts, books and journals (others than publicity texts); publication of diagrams, images and photographs; publication of newspapers, magazines and periodicals; education, training and instruction services relating to telecommunications, computers, computer programs, cloud computing, web site design, e-commerce, business management, financial management and advertising; provision of education, recreation, instruction, tuition and training both interactive and non-interactive; design of educational courses, examinations and qualifications; entertainment provided via electronic and digital interactive media; electronic games services provided by means of the Internet; provision of information relating to education, training, entertainment, recreation, sporting, social and cultural activities; providing online electronic publications (not downloadable); arranging, organizing, hosting and conducting singing competitions; arranging, organizing, hosting and conducting concerts; arranging, organizing, hosting and conducting events and competitions for education or entertainment purposes; arranging, organizing, hosting and conducting game shows and quests; entertainment ticket agency services; information relating to entertainment or education, provided online

from a computer database or the Internet; providing digital music (not downloadable) from the Internet; providing digital music (not downloadable) from MP3 (Moving Picture Experts Group-1 audio layer 3) Internet web sites; entertainment and education services relating to planning, production and distribution of sound, images, digital music, movies, live or recorded audio, visual or audiovisual material for broadcasting on terrestrial cable, satellite channels, the Internet, wireless or wire-link systems and other means of communications; music entertainment services; rental of sound recordings; preparation of entertainment, educational, documentary and news programmes for broadcasting; news reporters' services; information relating to sporting or cultural events, current affairs and breaking news provided by satellite television transmission, the Internet or by other electronic means; television programmes, radio and film production; premium or pay television programming services and television programming services; planning of TV entertainment programs; provision of entertainment information, multimedia content, TV entertainment programs and provision of films online; preparation and production of television programmes; provision of information, data, graphics, sound, music, videos, animation and text for entertainment purpose; game services; provision of club recreation, sporting and gymnasium facilities; band performances; club entertainment, discotheque, fashion show and night club services; club services relating to entertainment, education and cultural services; arranging, conducting and provision of conferences, conventions, congresses, seminars and training workshops; arranging, conducting and provision of conferences, conventions, congresses, seminars and training workshops in relation to telecommunications, computers, computer programs, cloud computing, web site design, e-commerce, business management, financial management and advertising; organizing and conducting exhibitions for cultural or educational purposes, fashion shows, educational shows and cultural shows and performances; art exhibition and gallery services; art gallery services relating to fine arts leasing; training services in relation to occupation health and safety, and environmental conservation; provision of cigar classes, wine

tasting classes; providing education information about research materials and agency thereof; arranging, organizing, planning and management of seminars; animal training; direction in producing broadcasting programs; instructional services relating to operation of machines and equipment, including audiovisual equipment used for the production of broadcasting programs; providing audio and visual studios; providing sports facilities; providing facilities for movies, shows, plays, music or educational training; entertainment booking agencies; rental and leasing of motion pictures; rental and leasing of musical instruments; rental and leasing of television programmes; rental and leasing of television sets; lending libraries; archive library services; subtitling services; sign language interpretation services; providing video games, computer games, sound or images, or movies through telecommunication or computer networks; providing online computer games and contests; rental of pre-recorded video tapes; rental and leasing of game machines; lending of arcade game equipment; lending of pictures; photography; translation; language interpretation; educational and training programs in the field of risk management; educational and training programs relating to certification; provision of education and entertainment news; lottery services; providing online videos, not downloadable; tutoring; consultancy, information and advisory services relating to the aforesaid services; all included in Class 41.
Class 42:
Scientific and technological services and research and design relating thereto, industrial analysis and research services; technical project studies; providing a website featuring technology that enables users to share information and advice; design and development of computer hardware and software; software as a service (SaaS); computer services in connection with transmitting information, data, documents, and images over the Internet; computer services in connection with providing an online access to interactive computer database featuring movies programming, previews, trailers, sports, concerts, celebrity and entertainment news and other related information; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services providing software in the fields of web-based

conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support (technical consultancy) services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer technology advice provided to Internet users by means of a support hotline; computer service relating to creating indexes of information, sites and resources on computer networks; providing internet search engines; design of computers, notebook computers, laptop computers, portable computers and handheld computers; design of personal digital assistants and personal media players; design of mobile telephones and smart phones; design of digital cameras; computer services; computer programming; computer integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software services; computer services in relation to providing direct connection services between computer users for exchanging data; computer software design; computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technical information at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; computer services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and evaluation services; architectural and design services; interior designs of buildings, offices and apartments; computer and computer network information services; provision of computer security risk management programs; computer security information, knowledge, and testing services; quality assurance services; computer services relating to certification of business transactions and preparation of reports therefor; computer security services

for access control to computers, electronic networks and databases; security of data transmission and of transactions via computer networks; consultancy in the field of data security; technological consultancy concerning securing telecommunications; computerized communication network security services; providing information in the fields of Internet, world wide web and computerized communication network security; consulting services in the fields of Internet, world wide web and computerized communication network security services, information security services; authentication services for computer security; computer services in relation to online authentication of electronic signatures; off-site data backup; electronic data storage; providing information on computer technology and programming via a web site; cloud computing; cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; electronic storage of data; providing virtual computer systems and virtual computer environments through cloud computing; rental of entertainment software; cartography services; consultancy, information and advisory services relating to the aforesaid services; all included in Class 42.
