

Pressure Point 2003

IT support for Commencement of Cap. 559

- IPD will roll out a computer system TMLR by commencement date of Cap. 559. Processing logic on bring-up for due dates is a possible feature for "stable management".
- Under the draft rules for Cap. 559, IPD provides an inspection of documents function. To take it further, viewing of in/out documents is a possible feature for "stable management".

To come

Technical information on design of IPD e-business model

- April/May 2003 : detailed design information e.g. XML structure, screen design ...
- May 2003 meeting - Focus User Group agenda
(pre-meeting dialogue on wish lists to distill common issues for the May 2003 meeting)
