

香港特別行政區政府知識產權署商標註冊處

Trade Marks Registry, Intellectual Property Department

The Government of the Hong Kong Special Administrative Region

## 更正

關於 2017 年 12 月 15 日公布的香港知識產權公報：

分項“接納註冊(全文本)”，類別 11-15，第 43-44 頁，商標註冊申請編號 304301793 的一系列商標的標示應為“否”。

關於 2018 年 07 月 06 日公布的香港知識產權公報：

分項“接納註冊(全文本)”，類別 6-10，第 149-156 頁，商標註冊申請編號 304375864 的第 9 類貨品說明應為 “Apparatus for recording, transmission or reproduction of data, sound or images; cellular mobile telephones; digital telephones; handheld mobile digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, audio, and audiovisual files, for the sending and receiving of telephone calls, electronic mail, and other digital data, for use as a digital format audio player, handheld computer, personal digital assistant, electronic organizer, electronic notepad, camera, and global positioning system (GPS) electronic navigation device; internet phones; mobile phone sets; mobile phones; mobile phones for use in vehicles; mobile telephones; mobile telecommunications apparatus; multifunctional telephones; phone appliances; portable telephones; smartphones; smartphones in the shape of a watch; telephone apparatus; telephones; video telephones; all of the aforementioned goods primarily marketed for gaming use and / or for gamers; all of the aforementioned goods excluding televisions and future versions or iterations of televisions; application software; armbands with electronics; audio equipment and apparatus; augmented reality and virtual reality game software; augmented reality and virtual reality software and hardware; augmented reality software for use in mobile devices for integrating electronic data with real world environments for use in industrial, manufacturing, enterprise, educational, military, or field service settings; bags, pouches, cases and covers adapted for holding and storing the aforementioned goods; battery chargers; camera lenses; camera mounts; cameras; carriers adapted for mobile phones; cases adapted for mobile phones; cases and

bags for photographic and cinematographic apparatus; cases, housings, and accessories for photographic equipment; cases for smartphones; chargers for electric batteries; computer and video games (software); computer application software for mobile phones, digital eyewear and other electronic mobile wearable devices for use in industrial, manufacturing, enterprise, educational, military or field service setting; computer bags, computer pouches, computer cases, sleeves and covers; computer controls for lighting apparatus; computer displays; computer game software for use on mobile and cellular phones; computer graphics cards; computer graphics tablets; computer hardware; computer hardware for displaying phone calls, data, audio and video; computer hardware for recording, organizing, transmitting, manipulating, reviewing, and receiving phone calls, data, audio and video; computer hardware for telecommunications; computer joysticks; computer keyboards; computer keypads; computer mice; computer mice mats; computer monitors; computer pens; computer peripheral devices; computer peripherals and input devices [data processing equipment] adapted for use with computers, including mice, keyboards, joysticks, trackballs; computer peripherals for displaying phone calls, data, audio and video; computer peripherals for mobile devices for displaying phone calls, data, audio and video; computer peripherals for mobile devices for recording, organizing, transmitting, manipulating, reviewing, and receiving phone calls, data, audio and video; computer peripherals for recording, organizing, transmitting, manipulating, reviewing, and receiving data; computer programs for personal information management; computer software; computer software and peripherals for recording, organizing, transmitting, manipulating, reviewing, and receiving audio and video, data, multimedia content, and phone calls; computer software applications, downloadable; computer software development tools; computer software drivers for the aforesaid computer peripherals; computer software for augmented reality and virtual reality for educational purposes; computer software for controlling the operation of audio and video devices; computer software for enabling image recognition and/or augmented reality technology on electronic mobile devices; computer software for tracking the location of mobile digital electronic devices; computer software for use in accessing the internet or other computer or communications networks; computer software to enable the transmission of

photographs to mobile telephones; computer software used for uploading, downloading, storing, backing up, recording, organizing, transmitting, receiving, accessing, retrieving, managing, synchronizing and reviewing text, data, email, documents, images, video and audio files, multi-media content, electronic location of mobile digital electronic devices; computer soundcards; computer trackballs; computers; database synchronization software; devices for hands-free use of mobile phones; digital cameras; downloadable audio and video files, movies, ring tones, video games, television programs, pod casts and audio books via the internet and wireless devices; downloadable cloud computer software for use in database management, use in electronic storage of data, use in configuration of hardware; downloadable computer software, namely downloadable computer software for controlling LED lighting; downloadable computer software, namely, downloadable mobile applications for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; downloadable graphics for mobile phones; downloadable ring tones for mobile phones; downloadable software for boosting the speed and performance of game programmes and electronic devices; downloadable software that allows subscribers to utilize voice over Internet protocol (VOIP) communication services; dustproof plugs for jacks of mobile phones; earphones; electronic and computer game programmes in the field of augmented reality and virtual reality; electronic devices used to locate lost articles employing the global positioning system or cellular communication; electronic mail and messaging software; electronic organizers; electronic, scientific, photographic, cinematographic, optical and signaling apparatus and instruments for use in augmented and virtual reality projects; electronically encoded identity wristbands; eyewear cases; galvanic cells; game engine software for video game development and operation; gesture recognition software; Global Positioning System (GPS ) device; graphics amplifiers; handheld computers; hands free devices for mobile-phones; hands free kits for phones; head - mounted display screen devices; headphones; headsets; headsets for mobile telephones; high definition graphic chipsets; holders adapted for mobile phones; image data capture devices; keyboards for mobile phones; keyboards for smart phones; laptop computers; leather cases for mobile phones; LED lighting specially adapted for the illumination of computer hardware, computer peripherals, sound and audio

apparatus and electronic devices, including mobile devices; light emitting diode displays; light-emitting diodes (LED); local mobile telephone installations; local mobile telephone systems; microphones; microprocessor or microcontroller to be incorporated in necklaces; mobile application software for enabling real world views overlaid with digital images, sound, video, and information using a screen, smartphone, tablet computer, digital eyewear, or other mobile electronic wearable devices; mobile communication terminals; mobile data apparatus; mobile data communications apparatus; mobile data instruments; mobile data receivers; mobile phone cases; mobile phone covers; mobile phone straps; mobile tablet computers; mobile telephone batteries; mobile, and handheld computers; motion detectors; motion sensors for computer and video games; mouse [data processing equipment]; mouse pads; noise cancelling apparatus; notebook computers; peripherals for mobile devices; personal digital assistants; phone plugs; photographic and cinematographic equipment; plug adaptors; prescription eyewear; price comparison software; programmable light-emitting diodes [LED] controlled by computer software; protective and carrying bags adapted for holding and storing computer peripheral devices; protective films adapted for smartphones; providing online software for downloading by others that allows subscribers to utilize voice over internet protocol (VOIP) communication services; rechargeable cellular telephone batteries; recognition apparatus incorporating scanners; software to control and improve audio equipment sound quality; speakers (audio equipment); spectacle parts, namely eyewear temple decorative covers; stands adapted for mobile phones; straps for mobile phones; sunglasses; touch sensitive electronic screens with customizable computer graphic use interfaces, graphic icons and interactive graphic screens; tripods for electronic apparatus; tablet computers; universal serial bus hardware; usb cables for cellphones; user interface software; video game computer programs for use with game apparatus not requiring a separate means of display; virtual reality software; wearable computer peripherals; wearable mobile electronic devices; wearable peripherals for mobile devices; webcams; wireless headsets for smartphones; apparatus for cable management for the aforementioned goods; batteries and power supplies for the aforementioned goods; computer software and computer software drivers for the aforementioned goods; packaged or downloaded instruction manuals in electronic format sold as a unit

for the aforesaid goods; parts and spare parts of the aforementioned goods as far as included in this class; stands, covers, cases, holsters, power adaptors, and wired and wireless remote controls for the aforementioned goods.” 。

關於2018年10月26日公布的香港知識產權公報：

分項“接納註冊(全文本)”，類別11-15，第40頁，商標註冊申請編號 304603329的一系列商標的標示應為“Yes” 。

#### ERRATA

In relation to the Hong Kong Intellectual Property Journal published on 15 December, 2017:

Under the section “Acceptance for Registration (Full Version)”, Class 11-15, on pages 43-44, the series mark indication of Trade Mark Application No. 30430179 should read “否” .

In relation to the Hong Kong Intellectual Property Journal published on 07 July, 2018:

Under the section “Acceptance for Registration (Full Version)”, Class 6-10, on page 149-156, the specification of goods in Class 9 of Trade Mark Application No. 304375864 should read “Apparatus for recording, transmission or reproduction of data, sound or images; cellular mobile telephones; digital telephones; handheld mobile digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, image, audio, and audiovisual files, for the sending and receiving of telephone calls, electronic mail, and other digital data, for use as a digital format audio player, handheld computer, personal digital assistant, electronic organizer, electronic notepad, camera, and global positioning system (GPS) electronic navigation device; internet phones; mobile phone sets; mobile phones; mobile phones for use in vehicles; mobile telephones; mobile telecommunications apparatus; multifunctional telephones; phone appliances; portable telephones; smartphones; smartphones in the shape of a watch; telephone apparatus; telephones; video telephones; all of the aforementioned goods primarily marketed for gaming use and / or for gamers; all of the aforementioned goods excluding televisions and future versions or iterations of televisions; application software; armbands with electronics; audio equipment and apparatus; augmented reality and virtual reality game software; augmented reality and virtual reality software and hardware; augmented reality software for use in mobile devices for integrating electronic data with real world environments for use in industrial, manufacturing, enterprise, educational, military, or field service

settings; bags, pouches, cases and covers adapted for holding and storing the aforementioned goods; battery chargers; camera lenses; camera mounts; cameras; carriers adapted for mobile phones; cases adapted for mobile phones; cases and bags for photographic and cinematographic apparatus; cases, housings, and accessories for photographic equipment; cases for smartphones; chargers for electric batteries; computer and video games (software); computer application software for mobile phones, digital eyewear and other electronic mobile wearable devices for use in industrial, manufacturing, enterprise, educational, military or field service setting; computer bags, computer pouches, computer cases, sleeves and covers; computer controls for lighting apparatus; computer displays; computer game software for use on mobile and cellular phones; computer graphics cards; computer graphics tablets; computer hardware; computer hardware for displaying phone calls, data, audio and video; computer hardware for recording, organizing, transmitting, manipulating, reviewing, and receiving phone calls, data, audio and video; computer hardware for telecommunications; computer joysticks; computer keyboards; computer keypads; computer mice; computer mice mats; computer monitors; computer pens; computer peripheral devices; computer peripherals and input devices [data processing equipment] adapted for use with computers, including mice, keyboards, joysticks, trackballs; computer peripherals for displaying phone calls, data, audio and video; computer peripherals for mobile devices for displaying phone calls, data, audio and video; computer peripherals for mobile devices for recording, organizing, transmitting, manipulating, reviewing, and receiving phone calls, data, audio and video; computer peripherals for recording, organizing, transmitting, manipulating, reviewing, and receiving data; computer programs for personal information management; computer software; computer software and peripherals for recording, organizing, transmitting, manipulating, reviewing, and receiving audio and video, data, multimedia content, and phone calls; computer software applications, downloadable; computer software development tools; computer software drivers for the aforesaid computer peripherals; computer software for augmented reality and virtual reality for educational purposes; computer software for controlling the operation of audio and video devices; computer software for enabling image recognition and/or augmented reality technology on electronic mobile devices; computer software for tracking the location of mobile digital electronic devices; computer software for use in accessing the internet or other computer or communications networks; computer software to enable the transmission of photographs to mobile telephones; computer software used for uploading, downloading, storing, backing up, recording, organizing, transmitting, receiving, accessing, retrieving, managing, synchronizing and reviewing text, data, email, documents, images, video and audio files, multi-media content, electronic location of mobile digital electronic devices; computer soundcards; computer trackballs; computers; database synchronization software; devices for hands-free use of mobile phones; digital cameras; downloadable audio and video files, movies, ring tones, video games, television programs, pod casts and audio books via the internet and wireless devices; downloadable cloud computer software for use in database

management, use in electronic storage of data, use in configuration of hardware; downloadable computer software, namely downloadable computer software for controlling LED lighting; downloadable computer software, namely, downloadable mobile applications for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; downloadable graphics for mobile phones; downloadable ring tones for mobile phones; downloadable software for boosting the speed and performance of game programmes and electronic devices; downloadable software that allows subscribers to utilize voice over Internet protocol (VOIP) communication services; dustproof plugs for jacks of mobile phones; earphones; electronic and computer game programmes in the field of augmented reality and virtual reality; electronic devices used to locate lost articles employing the global positioning system or cellular communication; electronic mail and messaging software; electronic organizers; electronic, scientific, photographic, cinematographic, optical and signaling apparatus and instruments for use in augmented and virtual reality projects; electronically encoded identity wristbands; eyewear cases; galvanic cells; game engine software for video game development and operation; gesture recognition software; Global Positioning System (GPS ) device; graphics amplifiers; handheld computers; hands free devices for mobile-phones; hands free kits for phones; head - mounted display screen devices; headphones; headsets; headsets for mobile telephones; high definition graphic chipsets; holders adapted for mobile phones; image data capture devices; keyboards for mobile phones; keyboards for smart phones; laptop computers; leather cases for mobile phones; LED lighting specially adapted for the illumination of computer hardware, computer peripherals, sound and audio apparatus and electronic devices, including mobile devices; light emitting diode displays; light-emitting diodes (LED); local mobile telephone installations; local mobile telephone systems; microphones; microprocessor or microcontroller to be incorporated in necklaces; mobile application software for enabling real world views overlaid with digital images, sound, video, and information using a screen, smartphone, tablet computer, digital eyewear, or other mobile electronic wearable devices; mobile communication terminals; mobile data apparatus; mobile data communications apparatus; mobile data instruments; mobile data receivers; mobile phone cases; mobile phone covers; mobile phone straps; mobile tablet computers; mobile telephone batteries; mobile, and handheld computers; motion detectors; motion sensors for computer and video games; mouse [data processing equipment]; mouse pads; noise cancelling apparatus; notebook computers; peripherals for mobile devices; personal digital assistants; phone plugs; photographic and cinematographic equipment; plug adaptors; prescription eyewear; price comparison software; programmable light-emitting diodes [LED] controlled by computer software; protective and carrying bags adapted for holding and storing computer peripheral devices; protective films adapted for smartphones; providing online software for downloading by others that allows subscribers to utilize voice over internet protocol (VOIP) communication services; rechargeable cellular telephone batteries; recognition apparatus incorporating scanners; software to control and improve audio equipment sound quality; speakers

(audio equipment); spectacle parts, namely eyewear temple decorative covers; stands adapted for mobile phones; straps for mobile phones; sunglasses; touch sensitive electronic screens with customizable computer graphic use interfaces, graphic icons and interactive graphic screens; tripods for electronic apparatus; tablet computers; universal serial bus hardware; usb cables for cellphones; user interface software; video game computer programs for use with game apparatus not requiring a separate means of display; virtual reality software; wearable computer peripherals; wearable mobile electronic devices; wearable peripherals for mobile devices; webcams; wireless headsets for smartphones; apparatus for cable management for the aforementioned goods; batteries and power supplies for the aforementioned goods; computer software and computer software drivers for the aforementioned goods; packaged or downloaded instruction manuals in electronic format sold as a unit for the aforesaid goods; parts and spare parts of the aforementioned goods as far as included in this class; stands, covers, cases, holsters, power adaptors, and wired and wireless remote controls for the aforementioned goods.” .
