類別 Class 3

perfumes, perfumery products; fragrances, essential oils; cosmetics, make-up products; beauty care products; body care products; skin care products; hair care products; nail care products; soaps; dentifrices; bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations.

類別 Class 14

jewellery, including fashion jewellery; ornaments for personal use; articles made of precious metals, or decorated, plated and or coated therewith; precious, semi-precious and gem stones; necklaces, earrings, bracelets, wristlets, rings, brooches, charms, medals, belt buckles; horological and chronometric instruments, including watches and clocks.

類別 Class 18

leather and imitations of leather, animal skins, suede and hides, and goods made of these materials and not included in other classes; trunks, bags, cases and boxes; umbrellas, parasols and walking sticks; whips, harness and saddlery; minaudieres; bags and cases for carrying cosmetic articles and/or jewellery; handbags; shoulder bags; carrying bags; waist bags; back packs; fashion bags; casual bags; sports bags; sling bags; dressing cases; vanity cases (not fitted); beauty and make-up cases; toiletry bags; purses; wallets; luggages; suitcases; travelling bags; shopping bags; attaché cases; briefcases; credit card cases; key cases; music cases.

類別 Class 24

textiles and textile goods, not included in other classes; bed and table covers; silk and silk articles; linens and linen articles; towels; handkerchiefs; household linen; apparel fabrics; furnishing fabrics; interior decorating fabrics; fabrics for use in the manufacture of luggage, trunks, bags, cases, boxes and other leather goods, including goods of imitations of leather.

類別 Class 25

clothing, footwear, headgear; fashion accessories, including ties, scarves, shawls, hats, caps, gloves, socks, belts.

Surrendered in respect of the following goods or services for the registration:

類別 Class 1

Chemicals, biochemicals and reagents for use in industry, science and research; chemical preparations, kits and reagents for analysis or diagnosis used for scientific purposes, namely, chemical preparations for cell separation and culture, nucleic acid purification, nucleotides, fluorescent nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules, and markers for DNA/RNA synthesis; reagents for luminescence; reagents for gene expression quantification; reagents for use with the polymerase chain reaction process; reagents for use with the rolling circle amplification process; reagents for cDNA cloning and vectors, modifying and restriction enzymes; reagents for labeling, sequencing and fragment analysis of nucleic acids, proteins and custom synthesis; reagents for recombinant protein expression purification; chromatography media; reagents for electrophoresis, bioinformatics, spectrophotometry and fluorometry; radiochemicals; reagents for scintillating proximity assays; high throughput screening assays for drug development; reagents for high resolution laser fluorescence confocal microscopy; specialty chemicals for industry, science and research; gases and gas mixtures for industrial, research and scientific purposes; chemical preparations and substances for use in the manufacture of pharmaceutical products, diagnostic preparations and substances; chemical test reagents, saline solution and reagent-coated paper all for scientific and laboratory use; fissionable chemical elements; radioactive elements and isotopes for industrial, scientific and research purposes; radioactive sources and standards for use in radiographic techniques; radioactive sources for use in non-destructive testing, purification and sterilizing techniques; radionuclides; chemicals and chemical compositions for use in the treatment of water systems, wastewater treatment systems, cooling water systems, boiler water and steam generating systems, boiler condensate systems, fluid separation systems, water clarification and dewatering in aqueous systems; conditioning systems, gas cleaning systems, industrial process systems, fuels and fuel processing systems, hydrocarbon and gas processing systems, oil and gas processing and petrochemical systems, pulp and papermaking systems, metal and plastic coating systems, metal processing systems, and material handling; chemical gasoline additives and distillate fuel additives; performance additives for fuels used in turbine engines; bags of chemically-treated water-absorbing granular materials for placement into fuel tanks; test kit consisting of reagents used for determining the presence of algae and active organic organisms in diesel fuel; bacteria cultures and nutrients for wastewater and sludge treatment; polymeric chemicals used to disperse particulate matter in steam generating equipment; chemicals and chemical compositions as antifoulants and demulsifiers in coke-making and by-product operations of iron and steel industries.

類別 Class 2

Chemicals and chemical compositions for use in the metal finishing industry as a final aqueous acidic rinse in the conversion coating of steel, aluminum, galvanized and mixed metal coil surfaces to enhance corrosion protection and paint adhesion; chemicals and

chemical compositions for use as corrosion inhibitors in cooling water systems;
resinous coatings for metal and masonry surfaces.

類別 Class 6

Metal locks; metal security enclosures, namely, key cabinets, storage tubes and storage boxes for securing keys; metal lockboxes for residential, vehicular, industrial and real estate sales use; metal key cabinets for locking, tracking and storing keys; metal key safes.

類別 Class 7

Pumps, namely, centrifugal pumps, diaphragm pumps, bellows pumps and process and transfer pumps; fluid control devices, namely, valves, flow meters, pressure switches, sequence timers, regulators, levelers, ejectors, and electrical controls and switches; fluid separation cartridges and parts therefore, including semi-permeable membranes; filter cartridges for various industrial machines for filtration applications including the filtration of coating solutions for the manufacture of magnetic tape and the filtration of petrochemicals, potable water, beer in the brewing industry, and other specialty chemicals; machines for the feeding and application of chemicals for industrial uses; fluid filters, liquid filtering separators, and gas-liquid filtering separators; apparatus in the nature of filters for removing solids, liquids, and vapors from gases.

類別 Class 11

Fluid separation units; fluid concentration units; fluid recycling units; polymeric membrane material for use in the separation of fluids; filter apparatus used for filtering solids from gases and liquids or filtering liquids from gases, and for filtering one immiscible liquid from another; spirally-wound elements or cartridges contained within a tubular plastic sleeve for concentrating products and removing impurities in fluid treatment systems; water conditioning units for residential purposes; reverse osmosis modules and membranes therefore; water purification units and systems consisting of clarifiers, electro deionization systems, condensate polishers, vacuum degasification units, ultra filtration units, ultraviolet sterilizers, ion exchangers, acid and caustic regeneration systems, reverse osmosis systems, forced draft decarbonator units, filters, chemical feed systems and bulk storage units, sold with automatic controls and instruments to monitor operating parameters of the units and systems electrochemical liquid purification units for use in the industrial, commercial and municipal sectors; water filtering units for domestic, commercial and industrial use; waste water purification units; water purifying units for potable water for domestic, commercial and industrial use; media filters and depth filters for removing sediments, iron, sulfur, tastes and odors from water; reverse osmosis water purification; depth filter units and depth filter cartridges for liquid and air filtration for domestic, industrial, and commercial use.

The remaining goods or services on the register now read as follows:

類別 Class 3

Chemicals and chemical compositions for use in cleaning steel, aluminum, galvanized and mixed metal surfaces for general industrial use in the manufacture of metal products; chemicals and chemical compositions for use in industry, namely cleaning agents to remove contaminants from industrial process systems and paint strippers to remove paint from equipment surfaces in paint spray booth operations.

類別 Class 5

Pharmaceutical and veterinary preparations, medicines and substances; diagnostic agents, preparations and substances for medical purposes; contrast media for medical imaging; diagnostic scanning agents for in vivo use; diagnostic imaging agents for magnetic resonance imaging (MRI); radiopharmaceutical products; radioactive substances for use in nuclear medicine; radioactive pharmaceutical preparations and non-radioactive reagents for producing radiopharmaceuticals for in vivo diagnostic or therapeutic use; gases and gas mixtures for medical imaging; chemical compositions used to inhibit cooling water system fouling due to mollusca and microorganism; bacteriacides, fungicides, and algaecides for use in the treatment of aqueous systems used in the preparation of wood pulp, paper, and paper products; compositions for the control of bacteria, fungi, and algae.

類別 Class 9

Software and software programs for industrial, research, and medical use; apparatus for electrophoresis; chromatography columns and pumps; apparatus for microfabrication; apparatus for bioinformatics systems; apparatus for scintillation; imaging apparatus for radioactive and luminescent emissions; synthesis and purification integrated systems; apparatus manufacturing oligonucleotides; apparatus for microarrays; laser based optical systems for digital imaging; microarray slides; laboratory glassware; vials and microvials; microtitre plates; computer software for hospital operating room management; computer software for critical care information management; industrial process control software; computer software programs and program manuals sold as a unit for use in factory management; graphical user interface based computer programs for controlling machines in industrial automation applications; software for creating graphics displays and editing dynamic data interfaces for realtime graphics applications for industrial and business applications; communications software for connecting computer network users; software for plastic injection molding; software for control, monitoring, simulation, communications, data logging and collection, and factory automation; software to integrate manufacturing machine operations, control processes, provide data for visualization, track problems and generate production reports; packaged software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors; laptop computers, ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches

and routers, computer accessories, display devices and terminals; computer whiteboards; system boards and processors; call control, operator interface, gage interfaces and data collectors; control and manufacturing applications, namely, statistical process control, data collection, distributed numerical control; manufacturing execution systems and document management; digital signal processing products and systems, namely industrial automation controls and programmable logic controllers; machine tools, namely, an adaptive control product in the nature of an external controller to optimize machine tool cutting performance of rough and semi-rough cuts; distributed and remote input/output hardware devices, input/output modules, interface modules, power supplies and mounting hardware; digital music players; cellular telephones; intrusion and burglar alarm systems; security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glassbreak sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hardwire sirens, audio speakers, electronic drivers, access control and alarm monitoring systems; fire, heat and smoke detecting and alarm units; computer card operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access door controllers; video intrusion detectors; processing hardware and software that analyzes digital video images to automatically extract, record and report intelligence, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; cameras; closed circuit video systems; closed circuit video system comprising one or more cameras, and a camera housing; short range, wireless, radio frequency transceivers; power line transceivers; communication control hardware for operating closed circuit camera; communication control hardware, namely keypad controllers, matrix switchers, multiplexers, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices sold separately or as part of a system for operating closed circuit cameras; personal digital assistant devices configured for use by real estate professionals; communications interface devices for use with personal digital assistant devices; fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; electrical switches; electro mechanical locks; magnetic locks; electric keys; handheld electronic hardware for receiving, controlling, storing, manipulating, displaying and transmitting data and for operating electronic locks; electronic access cards and readers and encoders therefore; magnetic access cards and readers and encoders therefore; smart access cards and readers and encoders therefore; proximity cards and readers and encoders therefore; key fobs and readers and encoders therefore; bar code access cards and readers, encoders, card lamination apparatus; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, inventory

and individuals; infrared sensors; computer hardware and software for facilities management and controlling facility access systems and components therefore, namely, control panels, access card readers, and equipment and systems for video imaging, video monitoring; digital hard drive recording, network transmission and remote access; networked digital video storage servers, access control and surveillance applications alarm monitoring and security; computer software and hardware for controlling and operating security and access system comprising locks, doors, access, and identification; devices and security enclosures in the nature of boxes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controllers, control panel housing, switch housing, transformers switches, splitters, coaxial cables, connectors, motion detectors, microphones and speakers; computer user interface software and control software for managing security, fire and access systems; electric locks; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks; electronic key fobs, readers and encoders; magnetic data carriers; data processing software and computer hardware; power supplies, namely batteries, rectifiers/voltage/current regulators and transformers; control panels - namely, electronic apparatuses adapted to electrically monitor a pre-determined activity and activate a burglar alarm; siren speakers; and electronic siren drivers - namely, tone generators and amplifiers adapted to be used for sirens; computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; apparatus for detecting presence of explosives and other contraband; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; control valves for water conditioning and water filtration equipment; fluid separation units, namely industrial fluid filters; recycling units, namely, fluid purification units; bioreactors for culturing cells; water treatment equipment, namely, filter cartridges; water treatment equipment for household use, namely, water softeners and water conditioners; portable analytical instruments; namely, a probe with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt

density measuring device; deionization units for laboratory use, filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; disposable cartridge filters for industrial use; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, and closed water systems, pulp and paper processing systems, fuel processing systems, and metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment and monitor the effectiveness of the treatment; computer software for data management in the water treatment and pulp and paper fields; electronic controllers used for processing information in the water treatment and pulp and paper fields; apparatus for use in industrial water systems to measure and control ph and conductivity; apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; electronic test apparatus for use in water treatment; laboratory testing equipment—namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure ph, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water.

類別 Class 10

Test kits for clinical medical use including test tubes, test plates and indicator charts for evaluating test results; medical apparatus and accessories systems for the dispensing of measured unit doses of pharmaceutical preparations; vials; cannulas; syringes; injectors; cartridges; pre-filled vials containing medical diagnostic reagents; pre-filled cartridges containing chemical solutions for medical use; pre-filled cylinders containing gases and gas mixtures for medical use; infusion pumps for intravenous administration of fluids; needles for medical purposes; implantable radiation therapy devices consisting of encapsulated radioisotope brachytherapy sources; radiation therapy delivery system consisting of radioactive seeds and a bio-absorbable carrier assembly; cardiac output monitors; heat and moisture exchangers; bacteria filters; gas analyzers for medical purposes; anesthesia record keeping and data management systems and patient monitoring systems, namely, gas monitors, pulse oximeters, multiparameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for anesthesia, intensive care and diagnostic applications; anesthesia machines and ventilators; intensive care and anesthesia accessories for single patient use, namely, gas sampling lines, airway adapters, breathing circuits, spirometry sensors and tubes, tubes, water traps, pulse oximetry sensors, non-invasive blood pressure cuffs, flushing sets, anesthesia masks, carbon dioxide absorbers, temperature probes and nebulizers; central nervous system monitors; gastrointestinal tonometers.

類別 Class 35

Supply chain business management and consulting services in the areas of chemical product and service sourcing and procurement, product inventory and supply management and cost containment; consulting, marketing, cost and pricing analysis relating to electrochemical liquid purification units for use in the industrial sector.

類別 Class 37

chemical cleaning services for glass-lined reactor vessels used in the chemical and pharmaceutical processing industries; maintenance services for heat transfer systems and condensers; maintenance and repair services in the field of computerized cooling system equipment.

類別 Class 39

Chemical delivery, storage and handling services in the field of water treatment and pulp and paper making systems.

類別 Class 40

Water treatment services, namely, desalination, purification, conditioning, identifying and controlling microbiological organisms, cleaning of ion exchange resins; membrane regeneration services; chemical control system services relating to the feeding of treatment chemicals to industrial water systems; operation of water and wastewater treatment systems.

類別 Class 41

Educational services in the field of medical imaging and diagnostics; holding seminars, conferences, symposiums or workshops relating to the pharmaceutical industry, for medical practitioners and employees of pharmaceutical companies; educational services in the field of life science and biotechnology for scientists and researchers; conducting seminars related to industrial water treatment problems; providing training services for all the aforesaid.

類別 Class 42

Consultancy services relating to chemical research; consultancy services relating to the discovery and evaluation of drugs and compounds having diagnostic properties; technical support services; consultancy services relating to methods for diagnosis using laser based optical systems; high through put screening assays for drug development services; customer synthesis, analytical and diagnostic services; biotechnological services; technical support services for factory automation software, namely, providing maintenance of computer software and providing periodic upgrades of the software; custom design of security access systems; design and consulting services in connection with the configuration of systems used in applications supporting fiber optic technology; technical support services, namely, troubleshooting of problems with computer hardware, video and electronic communication hardware, and software; technical consultation services for hardware and software used in connection with security and access systems; technical consultation services for surveillance cameras; custom design

services for others in the fields of security systems, access systems, and tangible asset and inventory monitoring systems; laboratory and testing services for fluid separation and membrane testing; engineering and consulting services in the fields of water treatment, aqueous systems, cooling water systems, industrial boiler water systems, industrial water and process systems, industrial fuel processing system treatment, pulp and papermaking system treatment, and metal and plastic processing system treatment; engineering services and technical support services related to the design and configuration of computer software and hardware systems to be used in the treatment of aqueous systems and in the treatment of pulp and papermaking systems, petroleum and petrochemical processing systems, and metal and plastic finishing operations; providing information to others, over a global computer network, relating to industrial water purification systems; advisory services related to all the aforesaid; Design of water and wastewater treatment systems; consultancy services relating to pharmaceutical research.

類別 Class 44

consultancy services relating to medical and diagnostic imaging; consultancy services relating to diagnostic, prophylactic and therapeutic properties of pharmaceuticals; medical information services; medical imaging services; medical diagnostic services; advisory services related to all the aforesaid.
