### 接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.info.gov.hk/pd/egazette/> 檢視電子憲報。

### ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.info.gov.hk/pd/egazette/>.

apparatus and instruments; electrotechnical, electronic and mechanical devices, equipment and instruments for the control, accumulation, setting, measurement, signalling, regulation, protection, monitoring, switching and start-up inspection of machines and equipment; status measurement indicators; status monitoring systems for machines and equipment; programmable equipment control; electronic inspection devices, detectors, acoustic filters, electrical loss indicators, ammeters, amplifiers, recorders, variometers, capacitance measurement devices; control panels for vibration signals and for the remote control of machine health; modular instrumentation apparatus; non-destructive testing equipment; screening equipment, signal level detectors; industrial plant protection equipment; event, fault, and disturbance recorders and monitors; lubrication maintenance scheduling systems; instruments for testing, checking and verification of machines and equipment; measuring instruments including audiometers, sound level meters, vibration meters; analyzers of sound and vibration; recording apparatus and instruments; noise generators; ultrasonic and vibrational emitters and receivers; vibration ripple control equipment; signal generating and transmitting apparatus; instruments for measuring sound and vibration, microphones, vibration sensors, impact sensors, noise level meters, transducers and amplifiers, analyzers; calibration systems; modal analysis equipment; sound power source devices; acoustics measuring equipment; frequency, signal and audio analyzers; apparatus for electro-acoustic measurements; vibration excitation controllers and exciters; signal generators and band-pass filters; electronic voltmeters, measuring amplifiers and phase angle meters; frequency meters; switches; voltage surge regulators; voltage regulators; transistors (electronics); range finders; energy consumption evaluation devices and instruments; energy consumption habit evaluation devices and instruments; crack formation testing and analysis apparatus; apparatus for placing and locating radioactive markers; laboratory and portable meter testing equipment; teaching and demonstration apparatus and instruments including auditory trainers; apparatus for sensing, measuring, testing, conditioning, indicating and recording electrical and physical quantities; sensors; pressure, temperature, acceleration, flow and speed transducers, thermocouples, torque meters, scintillation counters, environmental sensors, tachometers and level recorders; electronic and mechanical testing equipment for use in determining tensile strength, compressive strength and torque of machine parts; electronic and mechanical testing equipment for determining whether machine parts operate in compliance with specification and standards with regard to optimal conditions such as temperature, humidity and vibration; proximity switches, vibration detecting switches, infrared imaging switches, precision positioning sensors, displacement sensors, metal passage confirming sensors, double feed detection sensors, press machine stroke and detection sensors, rotation runout sensors, tapping miss detecting sensors, welded portion positioning sensors, non-contact signal couplers, photoelectric sensors, heat expansion measuring gauges; electrical warning installations and status sensors; photoelectric and infrared barriers; electrical signal exchanges; alarm and signalling units; temperature detectors; indicators; alarm devices; order transmitters; alert systems; luminous or mechanical signalling; acoustic and optical signalling; electronic equipment intended to perform remote inspection and remote control of machines, equipment or other structures; remote monitoring and remote control centre equipment for the collection and processing of information in centralized technical management systems; signal transmission apparatus and instruments; remote control apparatus; data acquisition, recording and processing equipment; computerized logging apparatus; apparatus for induction logging, radioactivity logging, acoustic logging, seismic logging, caliper logging and temperature logging; electrical and electronic equipment for acquiring, processing and interpreting metallic seismic data; metering equipment; flowmeters; densitometers; consistometers; automatic report generation; computers, computer peripherals, graphics printers, graphic plotters, computer interfaces, display equipment; electronic data processing apparatus and software for use with all the aforesaid; application software for the management of machine inspection and monitoring systems; microprocessor-based automation systems intended for the inspection and remote control of equipment; computer programs recorded on all data media, and associated software, applications; calculation modules, signal conversion modules, computers and software for use

therewith; software-based virtual instruments; computer software; computer programs, namely, application software, graphical user interfaces, compilers, assemblers, visual development software, application development environments, programming tools and software utilities programs, e-commerce programs, Internet and web-based applications and other programs; program and application development software, programming tools and software utilities programs for use in designing, developing, writing and implementing user-specific applications and general purpose application programs; object-oriented and client/server programming development software, programming tools and software utilities programs; database, server database and database management software; development software, programming tools and software utilities programs for use in designing and implementing programs for access to and for use in connection with local area networks, enterprise networks, intranets, extranets, wide area networks, the Internet and globally interconnected computer networks linked by common or diverse protocols; e-commerce application programs; programming tools for use in developing, maintaining, enhancing, managing and operating computer programs and computer systems, and software utilities programs; and user manuals (in electronic form) sold therewith as a unit; training software, education software downloadable from a global and internal computer network, accessed from a global computer network, on computer disks and on CD-ROMs for use in machine health management by customers; computer programs for data retrieval, management and delivery in the fields of technical knowledge management and customer support; computer programs capable of adapting their behavior according to a user's instruction or response by personalizing and profiling for individual end-users the retrieval, management and delivery of data in technical knowledge management; problem resolution software for use in supporting custom software and application software; modular units of all the aforesaid; all included in Class 9.

Class 41:

Education, instructional and training services in the field of equipment health maintenance including detection, monitoring, diagnosis, prognosis, analysis, reporting, correction and management of machine faults, signal trend analysis, statistical analysis, impact testing, exact wavelet analysis, orbit analysis, assets tracking, internet-based remote monitoring, intelligent equipment health management and database management; education, instructional and training services in connection with installation, maintenance and the use of measuring apparatus, electronic instruments, computers, computer software, computer networks and related technologies; providing educational seminars, workshops, classes and courses, certification of education awards and provision of educational information through global computer networks in relation thereto; organization and hosting of events, symposia, conferences, congresses, exhibitions, user group meetings in relating thereto; all included in Class 41.

Class 42:

Design and development of computer software for others; consulting services in relation to computers, computer software, networking, programming and application development, user interfaces, client/server and remote computing applications, computer systems operations, tools and utilities, process automation, global computer information network, enterprise, wide area and local area network access, and operations and systems management; monitoring, control and management of computer systems; maintenance and support services for computer software, debugging computer software, updating computer software, providing computer reference information and hosting of websites; engineering and research services, consultation and professional services, technical analysis and study services, simulation and quality control services all in relation to machine health and equipment fault detection and monitoring; research, design, and development of new modules, products or product sets for third parties in the field of machine health and equipment fault detection and monitoring; update, upgrade, maintenance, improvement, licensing and leasing of software applied to the field of machine health and equipment fault detection and monitoring; technical study of technical assignments of any equipment, materials and machines; development and application of computerized data analysis software and computer systems; computer services for

modelling, simulation, trending, assessing, interpreting, statistical analysis on equipment operating conditions and mechanical failures; development and management of database systems; computerised analysis of data; computer-assisted assessment of evaluation, assessment and consultation regarding the kind of analysis and data required to measure machine health and optimal operating levels; custom design of equipment health management systems; computer system integration; designing and implementing data information networks; machine quality condition audits; inspection of machinery services by assessing of machine parts deterioration and locating defects; technical consultation and research relating to assessment of compliance with a safety requirements; testing and/or inspection of equipment; rental of measuring apparatus and/or instruments; rental of ultrasonic testing apparatus and/or instruments; rental and/or leasing computers (including central processing units and/or programmed-data-carrying electronic circuits, magnetic disks and tapes and/or other peripheral equipment); configuration and calibration services; software maintenance services; advisory services relating to the selection of computers and instruments; rental and leasing of electronic, signalling, measuring and analytical products; advisory services relating to the selection of electronic, signalling, measuring and analytical products; engineering services; computing services; engineering design services; professional engineering consultancy services; provision of information and professional advice relating to the foregoing services or the subjects to which those services relate; all included in Class 42 .
