接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

service modules; satellite altitude control and position control devices; measurement, control, observation and communication apparatus; equipment and instruments for Earth observation as well as encoding and transmission of data via a satellite, satellite altitude and orbit control apparatus and instruments; ground systems for operating and controlling satellites; satellite management programs; satellite control programs; radioelectric transceivers and radio devices; avionics and service modules for satellites, spacecraft and launch vehicles; electronic, electrical and optical satellite and spacecraft modules including assemblies that contain the measuring and communications circuits and the auxiliary launch apparatus in a housing; devices and systems consisting thereof for altitude control and position regulation; satellites for scientific and commercial purposes; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), lifesaving and teaching apparatus and instruments; apparatus for recording, transmission or reproduction of sound and images; magnetic data carriers, acoustic discs; data processing equipment and computers; data carriers; transmitters (telecommunications), electrical cables, fibre optic cables, electronic apparatus and instruments, electronic storage media; data storage media containing flight and navigation instructions for helicopters, rotorcraft and drones; optical or infrared detection equipment and apparatus; thermal imagers; observation instruments and systems comprising thereof; infrared surveillance and tracking equipment and systems comprising thereof, in especially location systems; secure observation and reconnaissance equipment and systems comprising thereof; heliborne surveillance equipment and systems comprising thereof; airborne surveillance equipment and systems comprising thereof, day and/or night surveillance equipment and systems comprising thereof; high precision optical devices; encoders or decoders, digital sound and image data transmitters; telemetry, remote control, radio altimetry and proximity and approach apparatus and instruments for use in the field of aeronautics and space and in aeronautics and space instruments; detection apparatus and instruments, radars, lidars, electro-optical sensors; computer security systems; antennas for radars, satellite transmitters and receivers, converters and transponders; electronic equipment for civilian and military use; electrical and electronic tracking, detection and monitoring and geo-location and geo-localization equipment; electrical and electronic equipment for radio location and radio navigation; radar imagery-based airborne ground surveillance and reconnaissance equipment and systems comprising thereof; sensors for aircrafts without crew; instruments for maritime, land, air and space navigation; guidance and navigation equipment and systems comprising thereof, fixed or portable computer, electronic and telecommunication apparatus and equipment included in this class, computer servers, servers and data storage devices, computer workstations, modems; computers; memories (data storage); display screens; wireless and satellite-based hardware and software for onboard data networks; multi-platform interfaces, including the hardware and software therefor; media for the storage of data and

user terminals for the determination of position, mapping information, course guidance for land, aerial, marine or submarine vehicles; geographic information processing equipment and systems comprising thereof, especially satellite systems, Global Positioning System (GPS); apparatus and equipment for the acquisition, compression, transmission, analysis and restoration of satellite images and aerial photographs; image transmission equipment by digital radio link and systems comprising thereof; optical components and parts; spatial optic apparatus, equipment and instruments; optical apparatus, equipment and instruments for aerial reconnaissance aircraft; guidance, radio-control and automatic pilot equipment and apparatus; hardware and software (recorded and/or stored programs) for position determination, monitoring and surveillance in specific geographical areas; monitoring and control hardware and software (recorded and/or stored programs), position determination, monitoring and surveillance equipment and systems comprising thereof in specific geographical areas, media for the storage of data and user terminals (computer terminals) for determination of position, navigation, navigation databases, radar or satellite navigation, radio navigation and for the following applications: mapping information, security and emergency equipment, instruments and apparatus, research (other than for medical use) and lifesaving equipment, instruments and apparatus; media for the storage of data and user terminals for the determination of position, mapping information, route and/or course guidance for land and airborne vehicles; electrical or electronic instruments and apparatus for the reception, processing and/or transmission of navigation signals and their elements and component parts; electric and electronic apparatus and instruments for the review, analysis and performance monitoring of navigation data and navigation signals and their parts and components; electric and electronic apparatus and instruments for the measurement, verification, checking, testing and monitoring of positions and the associated navigation data; computer software (recorded and/or stored programs) for the measurement, verification, checking, testing and monitoring of positions and the associated navigation data; satellite localization and satellite navigation appliances and equipment comprising them; telecommunication and radio communication apparatus, hardware and software for telecommunication and radio communication networks, hardware and software for digital telecommunication networks; communication and radio communication networks by wire, cable, fiber optics, radio or satellite; servers of call centers, multiplexers, demultiplexers, electrical and electronic apparatus and instruments for controlling and administering networks; receivers (telecommunications), electronic and radioelectric signal transmission apparatus; satellites for scientific use and satellites designed to receive and transmit radio electric signals; computer terminals, communication terminals, fixed or mobile computer terminals or communication terminals; apparatus for communicating, transmitting, receiving voice, image, data and multimedia data; network appliances, in especially gateways, and systems comprising thereof for Internet

gateways; items of basic equipment for and access interfaces to Internet protocol (IP) networks; appliances and equipment comprising thereof and apparatus for the transmission of messages, information, data, sound and images over the airwaves, via cable, via fiber optics, via telephone, via satellite, via terminals, via telecommunication networks and via computer networks; telecommunications and desktop automation terminals for military applications; telephony apparatus, mobile telephones, cordless telephones, radio paging apparatus and equipment, faxes, PDAs (personal digital assistants), mobile devices for Internet access, spare parts for the abovementioned goods to allow communications and to conduct secure transactions and online business; software programs in a format exploitable by computer provided on magnetic or optical media or in a downloadable format to be used with the aforementioned products, software programs for secure communications and enabling one to authenticate, check, record and analyze business relationships and transactions via a system of controlled access rights and notifications, satellite telecommunications equipment and satellite telecommunications stations comprising thereof, especially in aircraft; software, software (recorded and/or stored programs) for communication and radio communication networks for transmission of data via wire, cable, via fiber optics, via radio or via satellite; software, software (recorded and/or stored programs) for the management, administration, architecture management, configuration and protection of local or remote networks for voice, image and data; apparatus and software (recorded and/or stored programs) for securing of access to computer networks and to Internet protocol (IP) networks; software (recorded and/or stored programs) for encryption and decryption; software (recorded and/or stored programs) for encoding and decoding; software (recorded and/or stored programs) for the architecture, administration and securing of access to computer networks and to Internet protocol (IP) networks; simulation, modeling, testing and experimentation software; servers for modeling simulation, testing and experimentation of civilian and military operations; software (recorded and/or stored programs) for computers for the development, optimization and performance analysis of methods and algorithms as well as processors (central processing units) and software modules for the processing and/or generation of navigation signals and/or data pertaining to navigation or cartography; software designed to perform the functions of planning, acquisition, processing and dissemination of intelligence information and data exclusively in the areas of intelligence and geography, for the purpose of defense and safety, software for digital radio networks giving the user access to voice services and data such as group communications in relay mode, individual calls, short messages and localization and transmission of data, all these products for digital radio networks; software (recorded and/or stored programs) for the provision of access to an electronic messaging service; transaction security software for intranet and Internet data terminals, operating stations and terminals for presenting information graphically and textually; secure

information processing equipment; computer software; secure telecommunications appliances and equipment comprising thereof; electronic handheld devices for the wireless receipt and/or transmission of secure data, especially messages, and electrical and electronic apparatus and equipment allowing the user to save or manage personal information; software for the redirection of secure messages, Internet e-mail and/or other data to one or more electronic handheld devices from a database stored in or associated with a personal computer or a server; software for the synchronization of secure data between a remote station or device and a fixed or remote station or device; electrical and electronic apparatus and instruments especially computers, processors (central processing units) of data and software (recorded and/or stored programs) for computers for the development, optimization and performance analysis of methods and algorithms as well as processors (central processing units) and software modules for the processing and/or generation of navigation signals and/or data pertaining to navigation; electrical and/or electronic apparatus, electrical and/or electronic instruments and equipment for displaying reports, analyses and measurement results, in especially in the form of graphics, tables and charts resulting from the analysis of performance and the monitoring of performance of navigation signals and/or data; electrical or electronic apparatus and instruments used for examining and identifying space segments in two dimensions or in three dimensions; computer software (recorded and/or stored programs) used for examining and identifying space segments in two dimensions or in three dimensions; apparatus for monitoring flight parameters, especially navigation and piloting software (recorded and/or stored programs) for helicopters, rotorcraft and drones, communication equipment and systems comprising thereof and communication antennas for aircraft; recording equipment and systems comprising thereof for apparatus for locomotion by land, air or water; autoflight control equipment and systems comprising thereof; test devices (real time systems) for conducting tests on electronic samples and parts, especially on data input, recording, process and display devices and apparatus, data bus, data transmission equipment and systems comprising thereof, analogue-digital and digital-analogue converters, program prototypes, simulators for the simulation of mechanical, electrical and electronic functional processes, linking and chaining modules, data analyzers and changeover switches, selector switches and coordinator switches, interface equipment or programs, in especially analogue, digital and discrete data bus interface equipment or programs; control equipment for test equipment and browsable programs, recorded on data carriers for such control equipment; browsable test programs, recorded on data carriers; instruments and computer hardware and software for the simulation of electronic samples and mechanical, electrical and electronic function processes; electrical and electronic display equipment for preparing and conducting tests on electronic samples and for processing the test results; software, namely databank software for managing tests on electronic samples for checking the configuration of the test system and definition of the test system; computer

hardware and software for establishing test documents; computer hardware and software for the connection of test Internet and/or via local networks; instruments and installations comprising them for testing vehicles and apparatus for locomotion by land, air and water; sensors and communication apparatus and equipment; sighting telescopes for firearms; telescopes, binoculars, telescopic spectacles; protective spectacles, including spectacles for protection against lasers; distance measuring devices, including laser distance measuring devices, digital magnetic compasses; reconnaissance cameras, aerial photography equipment; aerial cameras; periscope systems; stabilized sensor platforms; night vision devices, residual light intensifiers (amplifiers); laser target illuminators; software to assess, monitor and control data security within information technology networks; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; industrial geoproduction system composed of a digital processing chain for producing satellite, aerial or terrestrial images, data in 3D; recording discs; mechanisms for coin-operated apparatus; cash registers, calculating machines, fire-extinguishing apparatus; aerials; tape-recorders; magnetic tape units (for computers); magnetic tapes; videotapes; film cameras; video cameras; compact discs (audio-video); optical compact discs; magnetic disks; optical disks; gramophone records; optical data media; magnetic data media; transmitting sets (telecommunication); software exclusively for the field of satellite imaging and data; apparatus for processing data, in particular via satellite; apparatus for simulating the development of infrastructure; computer apparatus for creating and updating development plans and maps and for observing parcels of agricultural land and optimizing crop development and the monitoring thereof; compact disc players; optical character readers; computer software (recorded programs); games software; computer programs (downloadable software); packaged software for processing and analyzing photographs, such as aerial shots, satellite or terrestrial shots; apparatus for processing data, in particular from satellites; packaged software for stereographic reproduction, for preparing digital terrain models, for modeling in 3D, ortho, orthoimages and thematic maps; computerized files and software packages with geographic, geologic, cartographic and topographic data; computer files and packaged software containing reproductions of terrain and digital maps; equipment for computer databases and for access to computer databases; computer software for processing and analyzing photographs such as aerial and satellite photographs; computer software for stereographic projections, digital land models, orthoimages and thematic maps; computerized files and software for geography, geology and topography; computerized files and software for ground mapping and digital maps; satellite navigation equipment; satellites for scientific purpose, in particular earth observation satellites; apparatus for processing, analysis, reproduction and storage of images, aerial or satellite photograph; computer hardware; computer database equipment; computer database access equipment; data base management software such as for stereographic reproduction, for

storage, preparation, treatment and analysis of drawings, images, photos, charts, aerial and satellite photographs, surface models; data carriers for computer software, computerized files and software packages, all containing or for stereographic reproduction, for storage, preparation, treatment and analysis of surface models, images and photos; data processing apparatus, in particular from satellites; carriers for dark plates (photography), compact disk players; software (recorded programs); optical mirrors (optics); satellite navigation systems; satellites for scientific purposes, in particular earth observation satellites and radar satellites; remote control apparatus; airborne sensors; transmitters (telecommunication); apparatus for processing, analysis, reproduction and storage of satellites images; electric and electronic apparatus to generate digital elevation models; digital elevation models databases (software); computers and computer software for industries, namely, fire and government, relating to operational systems, customer management, asset management systems, geographical information systems, computer aided design, real-time visualization and mobile systems and configuration of the same for usage on appropriate computer hardware.

Class 12:

Spacecraft; vehicles; apparatus for locomotion by land, air, water or rail; aircraft of all types; unmanned aerial vehicles; helicopters; rotorcraft and drones; space vehicles; aeronautic apparatus, machine equipment and appliances; military vehicles for transport in particular by air; military aircraft; parts and accessories of all aforementioned products included in this class.

Class 13:

Sights, other than telescopic sights, for firearms; Sights, other than telescopic sights, for guns [artillery].

Class 16:

Printed matter; instructional and teaching material (except apparatus); photographs; posters; postcards; calendars; aerial and satellite photographs; geographical maps, topographic base maps, geographical images (printed matter), charts, surveys (printed matter).

Class 35:

Compiling of data in databases and legal databases; business administration of correspondence exchange services, especially administration of correspondence for third parties; organization of exhibition and trade fairs for commercial or advertising purposes; commercial and business organizational consultancy in the field of aeronautics; market research; marketing of aircrafts and parts thereof; advertising; business management; business administration; office functions; presentation of goods on communications media for retailing images generated by satellites or goods derived from satellite images (2D or 3D), geographical maps or topographic base maps consisting of images generated by satellites or antennae, digital evaluation models in the form of grids of components coded by elevation and receiver antennae; compilation of information into computer databases, in particular compilation of images generated by satellites or antennae, compilation of high-resolution and very

high resolution digital images generated by satellites; retailing and wholesaling of images generated by satellites, in particular geographical images, geographical maps and topographic base maps consisting of images generated by satellites; on-line presentation of images generated by satellite, in particular geographical images, geographical maps and topographic maps consisting of images generated by satellite or by aerial means with a view to selling same and providing commercial information relating to these products; provision of business information; business consultancy services; business consultancy services relating to internet communications; provision of business information relating to advertising services, namely for industries, fire and government; services of a franchiser, namely installation of software and/or database development (creation) and maintenance of software and/or databases and legal databases.

Class 37:

Building construction; construction and repair of and installation and mounting services for spacecraft and satellites; aircraft and satellite failure assistance (repair); information relating to repair of aircraft and provision of information relating to repair of aircraft, especially relating to repair of aeroplanes; installation of hardware for mechanical, electrical and computer interfaces between a satellite and launching rocket, especially a launch vehicle; installation of satellites on launch vehicles; services for the installation of satellites and spacecraft on launching vehicles, especially mechanical assembly, set-up (installation) of electrical and computer connections (hardware); construction of installations, especially satellites and ground stations and associated equipment; information relating to repair services and the construction of installations and equipment in the aviation sector; construction; repair, especially of vehicles and apparatus of locomotion by land, air or water including unmanned aerial vehicles, aircraft, drones and drive motors; installation, repair, servicing and maintenance of electrical and electronic installations, equipment and apparatus, aeronautic equipment, and cryptographic equipment, instruments, apparatus and devices; dismantling services for these products; maintenance of computer hardware; repair and maintenance in particular in the field of vehicles and of apparatus for locomotion by land, air or water as well as driving motors; maintenance of multiservice companies' telecommunication networks.

Class 38:

Telecommunication via satellite and satellite constellations; data transmission via satellites and satellite constellations; provision and rental of multiservice companies' telecommunication networks; electronic messaging via the Internet, extranet, intranet; communication services via radio, telephone, telegraph as well as via remote transmission of data, via videotext, especially via terminals, computer peripherals or electronic and/or digital equipment, videophones, picture phones and videoconferencing; data transmission, especially batch transmissions, sending and dispatching of electronic documents, e-mail services; transfer of telephone calls or telecommunications messages; mobile

telecommunication; satellite transmission; radio and TV broadcasting and broadcasting of multimedia programmes (computer editing of texts and/or still or animated images, and/or musical or other sounds) in general for interactive use; communication services via computer networks in general; telecommunication services via satellite and satellite constellations; electronic transfer of messages and data (messaging) via the Internet, extranet, intranet; communication services via radio, telephone, telegraph and via remote transmission of data via interactive videography and especially via terminals, computer peripherals or electronic and/or digital equipment, videophones, picture phones and videoconferencing; data transmission services, especially for batch transmissions, broadcasting, transmission of computerized documents; e-mail services; telephone call transfer or telecommunication services; mobile radio telecommunication services; rental of modems; rental of modem peripherals; rental of access times to a database server; telecommunications, telecommunication services, electronic data transmission, transmission of data via computer server; radio communications services, computer-assisted transmission of messages and images; emission and reception of data, signals and information processed by telematics, by computer or by telecommunication apparatus and instruments; electrical or electronic exchange of computerized data; wireless secure e-mail and data messaging services; electronic messaging services; electrical or electronic monitoring, emission and reception of data, signals, images and information, transmission of encrypted messages and images; telecommunication sent by satellite; teleinformatics via terminals; telephone communication services; communication via computer terminals, secure mobile telephone services; transmission services by satellite; data transmission services, data transfer services and services for the provision of access to data online, in especially in the fields of satellite navigation and positional data, media for navigation and positional data; preparation and management of access to available data and information; computer-based transmission of positioning and navigation signals and data for simulation and experimentation; preparation, provision of telecommunication data and information on Internet; secured communication (transmission) of data and vocal data on behalf of third parties, provision of access to software platforms guaranteeing user authentication, data integrity, data confidentiality and file acceptance, documents or electronic data via electronic networks, including the Internet, and access to said documents or electronic data; provision of access to software platforms for services relating to the encryption and the signature of files, documents or electronic data on behalf of third parties, provision of access to software platforms for services relating to the secure transfer of files, documents, data or electronic payments via electronic networks, including telephone networks and the Internet; provision of access to programs in data networks; telecommunications; providing user access to a global computer network (service providers); computer-aided transmission of messages and images, in particular high-resolution and very high

resolution images and geographical information; satellite transmission of message and images, in particular high-resolution and very high resolution images and geographical information; providing access to databases, in particular to image databases by satellites or aerials, transmission of global digital elevation models data and geographical information; providing telecommunication access services to electronic databases and access services via internet to information retrieval centers, such as for drawings, images, photos, carts, aerial and satellite photographs, surface models in particular rental of access time, organization and management of access authorization; communication services in connection with data transmission in computer networks; arranging access to databases on the Internet in particular providing of access software; (computer based) transmission of data and images, such as for worldwide communication networks (Internet) or for private or user restricted networks (Intranet).

Class 41:

Teaching, training, education and entertainment services; sports and cultural activities; correspondence courses; edition and publication of texts, illustrations, books, newspapers, magazines, publications of all kinds and in all forms, including electronic and digital publications, publications on sound and/or image carriers, multimedia carriers of multimedia programmes (computer editing of texts and/or still or animated images); organization of introductory and further academic events and education in all fields of general interest; seminars, classes and lectures; organization of lectures, especially forums, conventions and conferences; production of radio and television programmes, audiovisual and multimedia programmes (film and recording studios) (computer editing of texts and/or still or animated images, and/or musical or other sounds), for interactive or other use; organization of competitions (events), games, information campaigns and professional consultancy and other events in relation to the aforementioned; production of radio information and entertainment programmes, radio and television entertainment, audiovisual and multimedia programmes (film and recording studios) (computer editing of texts and/or still or animated images, and/or musical or other sounds), for interactive or other use; organization of shows; production of films and rental of films and tapes, including video tapes, and more generally any sound and/or image carriers, and multimedia carriers (interactive discs, digital audio CD-ROMs); lending of books and other publications; games libraries, namely for lending and distribution of games, through services of a franchiser and namely basic staff training for the aforementioned services; editors services, especially editing of texts; preparation of news reports, photographic reporting; translation services; rental of recorders, especially cassette recorders; recording of films on video tapes; education; training; entertainment; practical training, instruction (teaching) and demonstration (teaching demonstration) in the fields of defense, monitoring, communication and security, intelligence and geography; organization and conducting training, practice workshops, seminars, internships (training); editing and publication of books, printed

matter, CD-ROM, and film production, exclusively in the fields of intelligence and geography, for defense and security; publication of books and periodicals on line; publishing services, except printing; computer training on the operation, performance and security of information and position determining systems; arranging and conducting of colloquiums in the field of the exploitation of satellite data and derivative products, arranging and conducting conferences in the field of the exploitation of satellite data and derivative products, arranging and conducting of conventions in the field of the exploitation of satellite data and derivative products, arranging and conducting of seminars in the field of the exploitation of satellite data and derivative products, photography, organization of exhibitions for cultural or educational purposes, photographic reporting, publication of texts other than advertising texts in the field of the exploitation of satellite data and derivative products, electronic publishing of books and periodicals online in the field of the exploitation of satellite data and derivative products, television program production; education, training, entertainment, sporting and cultural activities, information on educational or entertainment events, film production, digital imaging services, publication of books.

Class 42:

Professional consultancy and drawing-up of plans unrelated to business dealings, namely: consultancy in the production and manufacture of installations, especially satellites and ground stations and associated equipment, building construction consultancy, technical projects studies; engineering services; performance of scientific and technical studies, projects and scientific and technical consultancy relating to satellites, spacecraft, launching rockets, especially launch vehicles, and space platforms; preparation of scientific, physical and technical analyses and surveys relating to the production, use and maintenance of satellites, spacecraft, launching rockets, especially launch vehicles, and space platforms; scientific and technical consultation in relation to computers, drawing-up of construction plans; technical consultancy for the provision of technical information and know-how, set-up, design (development) and management of databases and legal databases; computer programming of electronic apparatus and instruments, computers, remote data processing and telematic systems, multimedia hardware; multimedia programming; rental of computers, software, scanners, recorders, printers and peripherals for printers; technical and technological design consultancy and establishing technical and technological project planning not related to the conducting of business; programming of software for electronic apparatus and instruments, for computers, remote processing and telematic systems and multimedia hardware and devices, programming of software for multimedia devices; rental of computers, programs and scanners, recorders, printers and peripherals for printers; technical consultancy and assistance, especially technical organization and services that were deemed necessary in the consultation, in the field of telecommunications and information technology; technical

and technological examination and development of mechanical, electrical and computer interfaces (integration) between a launching rocket, especially a launch vehicle, and a spacecraft or satellite; testing compatibility and integrity of electrical connections; technical or technological consultation or technical consultancy in the fields of telecommunications and data processing; technical consultancy in the field of information technology; computer security services for flight security and flight monitoring services and assistance based on a satellite infrastructure; technical software consultancy in the field of telecommunications; technical information in relation to the aviation sector; scientific, technological or technical studies, development and adaptation of telecommunication networks and radio communication networks; design, development and updating (for third parties) of software (recorded programs) for the management, administration, architecture management, configuration, and protection of local or remote networks for voice, image, data and multimedia data communication, tests, checks, analyses and/or signal monitoring; scientific, technological or technical development, optimization, performance monitoring and testing for methods, algorithms, processing and software modules for the computer-based signals processing; inspections, tests, analyses and/or monitoring of system algorithms for the generation of data pertaining to navigation or cartography; scientific, technological or technical development, optimization, inspections (technical verification) and implementation of technical tests for performance of methods, algorithms, processing and software modules for the generation of data pertaining to navigation or cartography; performance monitoring and inspection; signal checking and verification; scientific and technical development of algorithms and methods for the computer processing of signals; services for the generation and/or delivery of results, especially in the form of analysis reports, graphs, tables and charts; scientific and technological services and research and design relating thereto, in especially scientific and technical development, engineering, technical investigation, technical consultancy, optimization, and improvement; performance of industrial analyses and measurements; scientific and technological services and research and design relating thereto in the field of data processing, data analysis and data conversion; provision of programs in data networks creation (design, development) and updating of database programs; scientific, technical and technological study of user requirements and the evaluation of intelligence system architectures, scientific, technical and technological studies relating to the adaptation, integration, qualification and logistics support built into operations, exclusively in the fields of intelligence and geography, for defense and security; scientific and technological services and research and design services relating thereto, in especially scientific and technical development, engineering, scientific and technical investigation, scientific and technical consultancy, optimization and improvement, exclusively in the fields of intelligence and geography for defense and security; scientific, technical and technological data processing,

scientific, technical and technological data analysis and data conversion services, exclusively in the fields of intelligence and geography, for defense and security; engineering services applied to the design and troubleshooting of digital radio communication networks intended for security forces; design, development and updating (for third parties) of software (recorded and/or stored programs) for position determination, supervision and monitoring in specific geographical areas; design, development and updating (for third parties) of command and monitoring software (recorded and/or stored programs) for position determination, supervision and monitoring in specific geographical areas; scientific evaluation and estimation services provided by engineers for the generation and/or delivery of results, especially in the form of analysis reports, graphs, tables, charts; programming of software in especially on behalf of third parties; programming and maintenance of software, including software platforms for secure end-to-end transactions, the management of customer relations and the processing of affairs and transactions; provision of protection services for corporate communication via electronic networks, in especially for protection against illegal network attacks; scientific, technical and technological consultancy, consultancy services, hotline services and maintenance services concerning computer hardware, software and wireless data networks in all aforementioned fields, scientific, technical and technological advice centers in all aforementioned fields; tests (technical tests), inspections (technical verification), scientific, technical and technological analyses and/or monitoring of navigation signals; scientific, technical and technological development, optimization, performance monitoring and testing for methods, algorithms, processing and software modules for the computer processing of navigation signals; inspections (technical verifications), tests (technical tests), scientific, technical and technological analyses and/or monitoring of system algorithms for the generation of data pertaining to navigation; scientific, technical and technological development, optimization, inspections and tests for performance of methods, algorithms, processing and software modules for the generation of data pertaining to navigation; engineering services in the field of performance monitoring and inspection; engineering services in the field of navigation signal verification; engineering services in the field of developing algorithms and methods for the computer processing of navigation signals; engineering services in the field of developing algorithms and methods for generating data pertaining to navigation; scientific evaluation and estimation for the generation of extrapolated data for navigation; evaluations, assessments and research in the fields of science and technology provided by engineers, in especially scientific, technical and technological development, engineering, scientific, technical and technological investigation, scientific, technical and technological consultancy, optimization, calibration, alignment, testing, enhancement, in respect of antennas, satellite dishes, reflecting and radiant objects, technical examination and identification of space segments in two dimensions or in three dimensions; scientific, technical and technological measurement,

characterization, verification, scientific, technical and technological examination, digitization by scanning and sampling electromagnetic fields; industrial analyses: scientific and technological evaluations, estimates and research in the technological fields of data processing, data analysis and data conversion provided by engineers; creation (design, development) of database programs; performance of technical tests, verification, analyses and/or monitoring of signals associated with vehicles and apparatus for locomotion by land, air and water, especially helicopters, rotorcraft and drones; scientific, technical and technological development, optimization, performance monitoring and testing for methods, algorithms, processing and software modules for the computer processing of signals relating to vehicles and apparatus for locomotion by land, air and water, especially helicopters, rotorcraft and drones; inspections (technical verification), technical tests, technical analyses and/or monitoring of system algorithms for the generation of data; engineering services in the field of performance monitoring and inspection relative to vehicles and apparatus for locomotion by land, air or water, especially helicopters, rotorcraft and drones; engineering services in the field of signal checking and verification; engineering services in the field of developing algorithms and methods for the computer processing of signals; scientific evaluation and estimation for the generation and delivery of results especially in the form of analysis reports, graphs, tables and charts; scientific and technological services, and associated research and design, provided by engineers, in the field of data processing, data analysis and data conversion; scientific, technical and technological studies, development and adaptation of telecommunication networks and radio communication networks relating to vehicles and apparatus for locomotion by land, air or water, especially helicopters, rotorcraft and drones; design, development and updating (for third parties) of software (recorded and/or stored programs) for the management, administration, architecture, configuration, and protection of local or remote networks for voice, image, data and multimedia data communication networks associated with vehicles and apparatus for locomotion by land, air or water, especially helicopters, rotorcraft and drones; design, development and updating (for third parties) of software (recorded and/or stored programs) for the design, development, management and securement of access to computer networks and to Internet protocol (IP) networks, programming and maintenance of computer software for military and aeronautic applications; installation of and development of new products for military or aeronautic applications; network Security services to assess, monitor and control data security within Information technology networks; scientific and technological services, namely providing data generated by earth observation satellites, precision measuring of relief models, physical measuring (characterization of objects observed from the ground according to spectral signatures, atmospheric influence, geometric and radiometric modeling from on-board cameras); research and design in the field of satellite imaging and the exploitation for

related data, namely design of processing methods for observation satellite data, development of processing protocols for exploiting satellite data with a view to producing geographical information and engineering in connection with programming aerial photographs from a network of observation satellites; industrial analysis and research services in the field of satellite imagery and the exploitation of the data relating thereto; research in radar, mapping radar; design and development of computers and software; recovery of databases; environmental protection consultancy; conversion of data and computer programs (other than physical conversion); computer software design; technical project studies; surveying; oil-field surveys; geological surveys; geological research; analysis for oil-field exploitation; land surveying; oil prospecting; urban planning; computer programming; creating and maintaining web sites on behalf of others; geological prospecting; research services in the field of cartographic products, land cover maps and land registers; technical information and inquiry services rendered by engineers relating to the presentation of on-line images generated by satellites, in particular geographical images, geographical maps and topographic base maps composed of images generated via satellite or aerial; technical information and inquiry services rendered by engineers relating to the following products: images generated by satellites, in particular geographical images, geographical maps and topographic base maps consisting of images generated by satellites or aeri-als; computer aided services concerning treatment and analysis of aerial or satellite photographs (monochrome or multi-spectral); research services of physicist, engineer or computer scientist in connection with computer-aided services in relation to the processing of aerial photographs, satellite recordings (monochrome or multi-spectral); design of global digital elevation models databases; scientific and technological services, namely providing data generated by earth observation satellites, precise relief measurement, measurement physics (characterization of objects observed on the ground on the basis of their spectral signatures, influence of the atmosphere, geometric and radiometric modeling by on-board cameras); scientific and research applications, studies and projects for developing and validation purposes of geo-data relating to digital elevation models; research and design services in the field of satellite imagery and exploitation of related data, namely design of processing methods for related data, namely design of processing methods for observation satellite data, development of processing protocols for exploiting satellite data with a view to producing geographical information and engineering in connection with programming aerial photographs from a network of observation satellites; industrial analysis and research services based on digital elevation models for applications in processing and orthorectification of other geo-data, mapping, modeling of geo-physical processes on earth, calculation of wave propagation in the telecommunication industry as well as logistic and safety applications in transportation (aviation, vehicles); crisis intervention planning consultancy; technical consultancy to defense and security related missions; analysis for oil and gas field

exploitation; design and development of computers and computer software, computer programming, for industries namely, fire, police, government, relating to operational systems, customer management, asset management systems, geographical information systems, computer aided design, real-time visualization and mobile systems and configuration of the same for usage on appropriate computer hardware.

Class 45:

Legal counseling; legal services of a franchiser, namely granting of licenses, management of copyright; legal consultancy; flight security guard services; negotiation and exploitation of industrial property rights and copyright, in particular through granting of licenses and know-how licenses for industrial property rights and copyright, sale of industrial property rights and copyright and valuation of industrial property rights and copyright; security services; services to the firefighting services, police.
