Professional consultancy and drawing-up of plans unrelated to business dealings, namely: consultancy in the production and manufacture of installations, especially satellites and ground stations and associated equipment, building construction consultancy, technical projects studies; engineering services; performance of scientific and technical studies, projects and scientific and technical consultancy relating to satellites, spacecraft, launching rockets, especially launch vehicles, and space platforms; preparation of scientific, physical and technical analyses and surveys relating to the production, use and maintenance of satellites, spacecraft, launching rockets, especially launch vehicles, and space platforms; scientific and technical consultation in relation to computers, drawing-up of construction plans; technical consultancy for the provision of technical information and know-how, set-up, design (development) and management of databases and legal databases; computer programming of electronic apparatus and instruments, computers, remote data processing and telematic systems, multimedia hardware; multimedia programming; rental of computers, software, scanners, recorders, printers and peripherals for printers; technical and technological design consultancy and establishing technical and technological project planning not related to the conducting of business; programming of software for electronic apparatus and instruments, for computers, remote processing and telematic systems and multimedia hardware and devices, programming of software for multimedia devices; rental of computers, programs and scanners,

recorders, printers and peripherals for printers; technical consultancy and assistance, especially technical organization and services that were deemed necessary in the consultation, in the field of telecommunications and information technology; technical and technological examination and development of mechanical, electrical and computer interfaces (integration) between a launching rocket, especially a launch vehicle, and a spacecraft or satellite; testing compatibility and integrity of electrical connections; technical or technological consultation or technical consultancy in the fields of telecommunications and data processing; technical consultancy in the field of information technology; computer security services for flight security and flight monitoring services and assistance based on a satellite infrastructure; technical software consultancy in the field of telecommunications; technical information in relation to the aviation sector; scientific, technological or technical studies, development and adaptation of telecommunication networks and radio communication networks; design, development and updating (for third parties) of software (recorded programs) for the management, administration, architecture management, configuration, and protection of local or remote networks for voice, image, data and multimedia data communication, tests, checks, analyses and/or signal monitoring; scientific, technological or technical development, optimization, performance monitoring and testing for methods, algorithms, processing and software modules for the computer-based signals processing; inspections, tests, analyses and/or monitoring of system algorithms for the generation of data pertaining to navigation or cartography; scientific, technological or technical development, optimization, inspections (technical verification) and implementation of technical tests for performance of methods, algorithms, processing and software modules for the generation of data pertaining to navigation or cartography; performance monitoring and inspection; signal checking and verification; scientific and technical development of algorithms and methods for the computer processing of signals; services for the generation and/or delivery of results, especially in the form of analysis reports, graphs, tables and charts; scientific and technological services and research and design relating thereto, in especially scientific and technical development, engineering, technical investigation, technical consultancy, optimization, and improvement; performance of industrial analyses and measurements; scientific and technological services and research and design relating thereto in the field of data processing, data analysis and data conversion; provision of programs in data networks creation (design, development) and updating of database programs; scientific, technical and technological study of user requirements and the evaluation of intelligence system architectures, scientific, technical and technological studies relating to the adaptation, integration, qualification and logistics support built into operations, exclusively in the fields of intelligence and geography, for defense and security; scientific and technological services and research and design services relating thereto, in especially scientific and technical development, engineering,

scientific and technical investigation, scientific and technical consultancy, optimization and improvement, exclusively in the fields of intelligence and geography for defense and security; scientific, technical and technological data processing, scientific, technical and technological data analysis and data conversion services, exclusively in the fields of intelligence and geography, for defense and security; engineering services applied to the design and troubleshooting of digital radio communication networks intended for security forces; design, development and updating (for third parties) of software (recorded and/or stored programs) for position determination, supervision and monitoring in specific geographical areas; design, development and updating (for third parties) of command and monitoring software (recorded and/or stored programs) for position determination, supervision and monitoring in specific geographical areas; scientific evaluation and estimation services provided by engineers for the generation and/or delivery of results, especially in the form of analysis reports, graphs, tables, charts; programming of software in especially on behalf of third parties; programming and maintenance of software, including software platforms for secure end-to-end transactions, the management of customer relations and the processing of affairs and transactions; provision of protection services for corporate communication via electronic networks, in especially for protection against illegal network attacks; scientific, technical and technological consultancy, consultancy services, hotline services and maintenance services concerning computer hardware, software and wireless data networks in all aforementioned fields, scientific, technical and technological advice centers in all aforementioned fields; tests (technical tests), inspections (technical verification), scientific, technical and technological analyses and/or monitoring of navigation signals; scientific, technical and technological development, optimization, performance monitoring and testing for methods, algorithms, processing and software modules for the computer processing of navigation signals; inspections (technical verifications), tests (technical tests), scientific, technical and technological analyses and/or monitoring of system algorithms for the generation of data pertaining to navigation; scientific, technical and technological development, optimization, inspections and tests for performance of methods, algorithms, processing and software modules for the generation of data pertaining to navigation; engineering services in the field of performance monitoring and inspection; engineering services in the field of navigation signal verification; engineering services in the field of developing algorithms and methods for the computer processing of navigation signals; engineering services in the field of developing algorithms and methods for generating data pertaining to navigation; scientific evaluation and estimation for the generation of extrapolated data for navigation; evaluations, assessments and research in the fields of science and technology provided by engineers, in especially scientific, technical and technological development, engineering, scientific, technical and technological investigation, scientific, technical and technological consultancy, optimization, calibration,

alignment, testing, enhancement, in respect of antennas, satellite dishes, reflecting and radiant objects, technical examination and identification of space segments in two dimensions or in three dimensions; scientific, technical and technological measurement, characterization, verification, scientific, technical and technological examination, digitization by scanning and sampling electromagnetic fields; industrial analyses; scientific and technological evaluations, estimates and research in the technological fields of data processing, data analysis and data conversion provided by engineers; creation (design, development) of database programs; performance of technical tests, verification, analyses and/or monitoring of signals associated with vehicles and apparatus for locomotion by land, air and water, especially helicopters, rotorcraft and drones; scientific, technical and technological development, optimization, performance monitoring and testing for methods, algorithms, processing and software modules for the computer processing of signals relating to vehicles and apparatus for locomotion by land, air and water, especially helicopters, rotorcraft and drones; inspections (technical verification), technical tests, technical analyses and/or monitoring of system algorithms for the generation of data; engineering services in the field of performance monitoring and inspection relative to vehicles and apparatus for locomotion by land, air or water, especially helicopters, rotorcraft and drones; engineering services in the field of signal checking and verification; engineering services in the field of developing algorithms and methods for the computer processing of signals; scientific evaluation and estimation for the generation and delivery of results especially in the form of analysis reports, graphs, tables and charts; scientific and technological services, and associated research and design, provided by engineers, in the field of data processing, data analysis and data conversion; scientific, technical and technological studies, development and adaptation of telecommunication networks and radio communication networks relating to vehicles and apparatus for locomotion by land, air or water, especially helicopters, rotorcraft and drones; design, development and updating (for third parties) of software (recorded and/or stored programs) for the management, administration, architecture, configuration, and protection of local or remote networks for voice, image, data and multimedia data communication networks associated with vehicles and apparatus for locomotion by land, air or water, especially helicopters, rotorcraft and drones; design, development and updating (for third parties) of software (recorded and/or stored programs) for the design, development, management and securement of access to computer networks and to Internet protocol (IP) networks, programming and maintenance of computer software for military and aeronautic applications; installation of and development of new products for military or aeronautic applications; network Security services to assess, monitor and control data security within Information technology networks; scientific and technological services, namely providing data generated by earth observation satellites, precision measuring of relief models, physical

measuring (characterization of objects observed from the ground according to spectral signatures, atmospheric influence, geometric and radiometric modeling from on-board cameras); research and design in the field of satellite imaging and the exploitation for related data, namely design of processing methods for observation satellite data, development of processing protocols for exploiting satellite data with a view to producing geographical information and engineering in connection with programming aerial photographs from a network of observation satellites; industrial analysis and research services in the field of satellite imagery and the exploitation of the data relating thereto; research in radar, mapping radar; design and development of computers and software; recovery of databases; environmental protection consultancy; conversion of data and computer programs (other than physical conversion); computer software design; technical project studies; surveying; oil-field surveys; geological surveys; geological research; analysis for oil-field exploitation; land surveying; oil prospecting; urban planning; computer programming; creating and maintaining web sites on behalf of others; geological prospecting; research services in the field of cartographic products, land cover maps and land registers; technical information and inquiry services rendered by engineers relating to the presentation of on-line images generated by satellites, in particular geographical images, geographical maps and topographic base maps composed of images generated via satellite or aerial; technical information and inquiry services rendered by engineers relating to the following products: images generated by satellites, in particular geographical images, geographical maps and topographic base maps consisting of images generated by satellites or aeriels; computer aided services concerning treatment and analysis of aerial or satellite photographs (monochrome or multi-spectral); research services of physicist, engineer or computer scientist in connection with computer-aided services in relation to the processing of aerial photographs, satellite recordings (monochrome or multi-spectral); design of global digital elevation models databases; scientific and technological services, namely providing data generated by earth observation satellites, precise relief measurement, measurement physics (characterization of objects observed on the ground on the basis of their spectral signatures, influence of the atmosphere, geometric and radiometric modeling by on-board cameras); scientific and research applications, studies and projects for developing and validation purposes of geo-data relating to digital elevation models; research and design services in the field of satellite imagery and exploitation of related data, namely design of processing methods for related data, namely design of processing methods for observation satellite data, development of processing protocols for exploiting satellite data with a view to producing geographical information and engineering in connection with programming aerial photographs from a network of observation satellites; industrial analysis and research services based on digital elevation models for applications in processing and orthorectification of other geo-data, mapping, modeling of geo-physical processes on earth, calculation of wave propagation in the

telecommunication industry as well as logistic and safety applications in transportation (aviation, vehicles); crisis intervention planning consultancy; technical consultancy to defense and security related missions; analysis for oil and gas field exploitation; design and development of computers and computer software, computer programming, for industries namely, fire, police, government, relating to operational systems, customer management, asset management systems, geographical information systems, computer aided design, real-time visualization and mobile systems and configuration of the same for usage on appropriate computer hardware.
