Chemicals for use in the manufacture of a wide variety of goods; unprocessed artificial resins; synthetic resins; thermoplastic resins; adhesives for general industrial use; silicones for general industrial use; emulsifiers for use in the manufacture of food, leathers and textiles; nuclear fissionable material such as uranium, plutonium and thorium compounds, nuclear fuel rods silicone additives and intermediates for use in coatings; chemicals and chemical products for all types of water treatment and processing systems; chemicals and chemical products for use in the recovery, refining

and processing of petroleum and gas; chemicals and chemical products for the use in the plastics finishing industries.

類別 Class 7

Electric and wind-powered electric generators; aeronautical and aero plane engines; control mechanisms for machines, engines or motors; cranes; jet engines other than for land vehicles; motors and engines for boats; dishwashers; garbage and waste disposals; motors; engines; starters for motors and engines; laundry washing machines; laundry drying machines; coffee grinders; blenders; bread making machines; vacuum cleaners; vacuum cleaner hoses; compressors, turbo compressors, fuel injectors and turbochargers for machines, motors and engines; wind, steam, gas and hydraulic turbines; axial and centrifugal compressors; reciprocating compressors; screw and vane compressors, pumps, namely machines; turbo-expanders; compressed natural gas refueling equipment including accessories and component parts for all the foregoing such as pumps, valves, filters, casings, rotors, blades, bearings and seals; electric pumps; valves for pumps; electric food blenders; brushes for vacuum cleaners; electric can openers; food processors; electric juice makers and juice extractors; food dehydrators; industrial robots, and component parts of all the foregoing; electronic drivers, turbo-expanders including accessories and component parts thereof such as pumps, valves, filters, castings, rotors, blades, bearing and seals.

類別 Class 9

electronic, nuclear, industrial and laboratory testing, measuring, computing and control instruments, apparatus and parts thereof; telephones; caller id boxes; telephone answering machines; cordless telephones; cordless headset telephones; radios; two-way radios; clock radios; audio and video cassette players and recorders; televisions; television remote controls; VCR players; VCR remote controls; DVD players; DVD remote controls; combination radio and audio cassette players; combination radio and CD players; combination TV and VCR sets; batteries; computers; computer software; electrical arresters; batteries; electrical busways; electrical capacitors; electrical fuses; fiber optics; lighting controls; LEDS; light-emitting diode signals; electrical meters; electrical relays; electrical timers; electrical resistors; electrical sensors; electrical solenoids and electrical limit switches; electrical controllers; programmable logic controllers; electric lighting controls; namely light emitting diodes; electric starters; electric full-voltage manual starters; electric reduced voltage starters; electric push motors; electric terminal blocks; electric motor controls; electric lighting panel boards; electric power panel boards; electrical wiring fixtures; electric energy cells; fuel cells; circuit breakers and disconnects; circuit breaker load centers; circuit closers; circuit interrupters; commutators; contactors; current rectifiers; current limiters; electric contacts; electric collectors; electric connectors; electric controllers; electric inductors; electricity distribution boards and boxes; electricity distribution consoles; electricity switchboards and switchboxes; electric power supplies; transformers; motor control; lighting panel boards; power panel boards; electrical wires, cables, cords and

conductors; lighting arrestors; electrical resistors; voltage regulators; computer mouse pads, and component parts of all the foregoing computer software programs for medical apparatus, instruments, devices their parts and accessories; interactive programs imbedded in software to explain how to use medical equipment, instruments and devices; computer hardware and software for medical apparatus, instruments and devices for displaying, selecting, reviewing, processing, analyzing, filming, reporting and media interchange of medical images; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer software for application and database integration and for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; apparatus for the treatment and monitoring of industrial, commercial and municipal water systems and for the treatment and monitoring of commercial and municipal materials processing systems and for the treatment and monitoring of hydrocarbon and petrochemical processing systems; deionization units, ozone monitors; fluid separation apparatus; lighting ballasts; software for the analysis and interpretation of data relating to electricity and power supplies; software for the calibration of power supplies equipment; electronic motion sensors; sirens; audio speakers; meters for electrical utilities and related software; surveillance cameras. Factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; fuel pumps, fuel distribution equipment, automated fuel station management systems, gas meters, including accessories and component parts for all the foregoing; intrusion and burglar alarm systems; security devices, namely, control panels, electronic intrusion detectors, electronic glass break sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hardwire sirens, audio speakers, access control and alarm monitoring systems; fire and smoke detecting and alarm units; computer card operated access control systems, card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras and remote video monitoring systems for security and surveillance applications; central video monitors; short range, wireless, radio frequency transceivers; power line transceivers; communication control hardware for operating closed circuit camera; communication control hardware, namely, keypad controllers, matrix switchers, multiplexers, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices sold separately or as part of a system for operating closed circuit cameras; personal digital assistant devices configured for use by real estate professionals; communications interface devices for use with personal digital assistant devices; fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; electric switches, electro mechanical locks; magnetic locks; electric keys; handheld electronic hardware for receiving, controlling, storing, manipulating, displaying and transmitting data and for operating electronic

locks; electronic access cards and readers and encoders therefore; magnetic access cards and readers and encoders therefore; smart access cards and readers and encoders therefore; proximity cards and readers and encoders therefore; readers and encoders therefore; card lamination apparatus; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, inventory and individuals; infrared sensors; computer software for facilities management and controlling facility access systems and components therefore, namely, control panels, access card readers, and equipment and systems for video imaging, access control, alarm monitoring and security; computer software and hardware for controlling and operating security and access system comprising locks, doors, access devices and security enclosures in the nature of boxes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controllers, control panel housing, switch housing, switches, splitters, coaxial cables, motion detectors, microphones and speakers; computer user interface software and control software for managing security, fire and access systems; electric locks; magnetic data carriers; data processing software and computer hardware; intrusion detection apparatus, namely, a control panel, a remote keypad and a motion detector; control panels, namely, electronic apparatuses adapted to electrically monitor a pre-determined activity and activate a burglar alarm; siren speakers; and electronic siren drivers, namely, tone generators and amplifiers adapted to be used for sirens; computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; sensing and control devices, namely, magnetic contacts, glass break sensors, passive infrared sensors, fire and heat detectors, fire alarms, security and fire alarm control panels, speakers, power supplies, and sirens, for use in home and industrial alarm applications; computer software for facility access control, video imaging and alarm monitoring; software, hardware and instrumentation, namely, video multiplexers, video matrix switchers, sequential video switchers and video motion detectors for use in operating computerized electronic surveillance systems; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; apparatus for detecting presence of explosives and other contraband.

類別 Class 10

Medical diagnostic imaging apparatus for displaying diagnostic images; x-ray and radiological apparatus; x-ray tubes for medical use; computer tomography apparatus, magnetic resonance imaging apparatus, positron emission tomography apparatus and spectroscopic apparatus, all for medical use; ultrasonic medical apparatus; nuclear medical apparatus; radiation therapy apparatus; medical intervention apparatus; medical diagnostic imaging accessories, namely, magnetic gradient coils; fetal pulse and vital signs monitors; bone densitometers; massage instruments and apparatus for home and personal use; sound therapy and aroma therapy instruments and apparatus for home and personal use; and component parts of all the foregoing.

類別 Class 11

Electric light bulbs; luminescent, incandescent and fluorescent lighting lamps and tubes; lamps and lights for vehicles; electric luminaries; electric discharge lamps; electric lights for Christmas trees; electric night lights; flashlights; lights for vehicles; air conditioners; clothes dryers; dehumidifiers; humidifiers; electric fans, ceiling fans, freezers; refrigerators; gas and electric stoves; gas and electric ovens and cook tops; microwave ovens for cooking; ventilation hoods for stoves; ventilating exhaust fans; water heaters; water filtering; water purifiers and electric water softening units; steam and gas turbines and generators; air coolers and heat exchangers; steam condensers; heavy wall reactors; electric gas and cooking appliances, namely, coffee makers and percolators, tea makers, toasters; toaster ovens, electric and gas grills for cooking purposes; sandwich makers; fryers; fry pans; deep fryers; skillets; griddles; food/rice steamers; woks; popcorn makers; ice cream makers, waffle irons and kettles; nuclear reactors; electric cup and bottle warmers; hand held electric dryers; electric lighted make-up mirrors; and component parts of all the foregoing.

類別 Class 12

Motors and engines for land vehicles, locomotives, automobiles, airplanes and boats and parts therefore; locomotives and parts therefore.

類別 Class 35

Operation and management of energy and power operating plants and facilities; Inventory control services; consultation in the field of inventory control services; acquisition integration services; direct marketing advertising for others featuring database marketing; consultation in the field of direct marketing advertising for others featuring database marketing; business reorganization consulting services; business management services of truck and automobile fleet, namely voyage reporting and invoicing via a global computer network; consultation in the field of business management services of truck and automobile fleet; business administration consulting services; operation and management of power plants of others; consultation in the field of operation and management of power plants; on-line services featuring retail and wholesale of general consumer goods and industrial goods; remote tracking, monitoring and location of land vehicles, trailers, cargo containers, rail cars and water vessels, and providing business, inventory, maintenance and pooling reports in connection

therewith; remote monitoring of safety and maintenance records of land vehicles, trailers, cargo containers, rail cars and maritime vessels.

類別 Class 37

Repair, maintenance and installation of machinery, motors, engines, turbines, generators, compressors, locomotives, reactors, electrical equipment, factory automation and control instruments and equipment, electric and gas cooking, heating, refrigerating, washing, drying, air conditioning and ventilating appliances and apparatus, consumer electronic products, electric lighting apparatus and installations, computers, medical equipment and accessories, transit vehicles, off-highway equipment, construction machinery and equipment, telecommunication equipment and accessories, including accessories and component parts of all the foregoing, including remote monitoring and diagnostic assistance for all the foregoing; providing repair, maintenance and installation services for gas and steam turbine power plants and for all types of power generation, transmission and/or distribution plants and facilities including accessories and component parts of all the foregoing, including remote monitoring and diagnostic assistance for all the foregoing; construction equipment leasing; oil and gas pipeline inspection, maintenance and repair services; drilling and pumping of oil and gas; drilling for crude oil; oil well casing, tubing and drill pipe installation; rental of oil and gas well drilling tools; consultancy, advisory and information services relating to all the foregoing services; Installation, maintenance and repair services for compressors, pumps, namely machines, turbo-expanders, fuel pumps and fuel distribution equipment, compressed natural gas refueling equipment, gas turbines, steam turbines, air cooled heat exchangers, steam condensers, heavy wall reactors and tubular reactors including remote monitoring and diagnostic services for all the foregoing; oil and gas pipeline inspection, maintenance and repair services.

類別 Class 39

Leasing of automobiles, aircraft, railcars, marine vessels, cargo containers and shipping containers; consulting services in the field of power distribution; providing information in the field of power distribution; transmission of oil or gas through pipelines; remote monitoring for tracking and tracing the air quality of moving and stationary vehicles.

類別 Class 40

Oil production services; gas production services; oil and gas well treatment services; oil and gas refining services.

類別 Class 42

Research, consultation and advisory services all relating to engineering, design and development problems encountered by utility, industrial and commercial companies, governments and individuals; computer equipment leasing; computer programming services for others; computer software design and analysis services for others; computer consultation services; maintenance and updating of computer software and software

systems for others; installation of computer software; computer systems analysis and design services for others; network analysis and design services for others; computer services, namely, designing, implementing and maintaining web sites and web pages for others; remote product monitoring services of machinery, motors, engines, turbines, generators, compressors, locomotives, reactors, electrical equipment, factory automation and control instruments and equipment, electric and gas cooking, heating, refrigerating, washing, drying, air conditioning and ventilating appliances and apparatus, consumer electronic products, electric lighting apparatus and installations, computers, medical equipment and accessories, transit vehicles, off-highway equipment, telecommunication equipment and accessories, including accessories and component parts of all the foregoing; remote diagnostics of safety and/or maintenance malfunctions in connection with land vehicles, trailers, cargo containers, rail cars and maritime vessels used in connection with the commercial shipment of freight and cargo; custom design of security access systems; design and consulting services in connection with the configuration of systems used in applications supporting fiber optic technology; technical support services, namely, troubleshooting of problems with computer hardware, video and electronic communication hardware, and software; technical consultation services for hardware and software used in connection with security and access systems; technical consultation services for surveillance cameras; custom design services for others in the fields of security systems, access systems, and tangible asset and inventory monitoring systems; engineering services, technical consultation and research services in the oil and gas industries; oil and gas exploration services; geophysical exploration for the oil and gas industries; analysis of oil and gas fields; oil and gas prospecting, namely well logging and testing; oil and gas well testing.

類別 Class 44

Providing imaging, screening, diagnostic treatment and information technology services in the field of healthcare; leasing and rental of medical and dental equipment and accessories; management and operation of medical and dental facilities; consultancy, advisory and information services relating to all the foregoing services.

類別 Class 45

remote monitoring services being safety and security services for gas and steam turbine power plants and for all types of power generation, transmission and/or distribution plants and facilities including accessories and component parts of all the foregoing.

類別 Class 6

metal goods, namely, tool boxes, hooks, fastening anchors for securing pictures and similar objects to walls, locksets, padlocks, tie downs, bolts, nuts, screws, tacks and brads, threaded fasteners, nails, knobs, chains, and staples for construction use.

類別 Class 7

power drill bits; power saw blades; pneumatic tools, namely, socket drivers, nail guns, staple guns, pneumatic screwdrivers and impact wrenches; electric glue guns.

類別 Class 8

hand tools, namely, staple guns and drill bits for hand drills; drywall tools, namely, putty knives, scrapers and taping knives; handheld screwdriver bit sets; pliers; locking pliers; screwdrivers; socket sets; bench vises made of metal; ratcheting screwdrivers; hammers; wrenches; saws; knives, namely hunting knives, fishing knives, pocket knives, utility knives, razor knives, and razor blades; wire strippers; wire cutters; and clamps; socket sets for use as wrenches.

類別 Class 9

surveying tools, namely, surveying chains and levels; respirators other than for artificial respiration; metal measuring tapes; volt meters; protective articles for industrial use, namely, helmets, ear plugs, back supports and knee pads; gloves for industrial use.

類別 Class 20

workbenches and toolboxes not made of metal; shelving.

Surrendered in respect of the following goods or services for the registration:

類別 Class 37

Design and operation of water and wastewater treatment systems; chemical cleaning services for glass-lined reactor vessels used in the chemical and pharmaceutical processing industries; maintenance services for heat transfer systems and condensers; maintenance and repair services in the field of computerized cooling system equipment.

類別 Class 39

Chemical delivery, storage and handling services in the field of water treatment and pulp and paper making systems.

The remaining goods or services on the register now read as follows:

類別 Class 1

Chemicals, biochemicals and reagents for use in industry, science and research; chemical preparations, kits and reagents for analysis or diagnosis used for scientific purposes, namely, chemical preparations for cell separation and culture, nucleic acid purification, nucleotides, fluorescent nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules, and markers for DNA/RNA synthesis; reagents for luminescence; reagents for gene expression quantification; reagents for use with the polymerase chain reaction process; reagents for use with the rolling circle amplification process; reagents for cDNA cloning and vectors, modifying and restriction enzymes; reagents for labeling, sequencing and fragment analysis of nucleic acids, proteins and custom synthesis; reagents for recombinant protein expression purification; chromatography media; reagents for electrophoresis, bioinformatics, spectrophotometry and fluorometry; radiochemicals; reagents for scintillating proximity assays; high through put screening assays for drug development; reagents for high resolution laser fluorescence confocal microscopy; specialty chemicals for industry, science and research; gases and gas mixtures for industrial, research and scientific purposes;

chemical preparations and substances for use in the manufacture of pharmaceutical products, diagnostic preparations and substances; chemical test reagents, saline solution and reagent-coated paper all for scientific and laboratory use; fissionable chemical elements; radioactive elements and isotopes for industrial, scientific and research purposes; radioactive sources and standards for use in radiographic techniques; radioactive sources for use in non-destructive testing, purification and sterilizing techniques; radionuclides; chemicals and chemical compositions for use in the treatment of water systems, wastewater treatment systems, cooling water systems, boiler water and steam generating systems, boiler condensate systems, fluid separation systems, water clarification and dewatering in aqueous systems; conditioning systems, gas cleaning systems, industrial process systems, fuels and fuel processing systems, hydrocarbon and gas processing systems, oil and gas processing and petrochemical systems, pulp and papermaking systems, metal and plastic coating systems, metal processing systems, and material handling; chemical gasoline additives and distillate fuel additives; performance additives for fuels used in turbine engines; bags of chemically-treated water-absorbing granular materials for placement into fuel tanks; test kit consisting of reagents used for determining the presence of algae and active organic organisms in diesel fuel; bacteria cultures and nutrients for wastewater and sludge treatment; polymeric chemicals used to disperse particulate matter in steam generating equipment; chemicals and chemical compositions as antifoulants and demulsifiers in coke-making and by-product operations of iron and steel industries.

類別 Class 2

Chemicals and chemical compositions for use in the metal finishing industry as a final aqueous acidic rinse in the conversion coating of steel, aluminum, galvanized and mixed metal coil surfaces to enhance corrosion protection and paint adhesion; chemicals and chemical compositions for use as corrosion inhibitors in cooling water systems; resinous coatings for metal and masonry surfaces.

類別 Class 3

Chemicals and chemical compositions for use in cleaning steel, aluminum, galvanized and mixed metal surfaces for general industrial use in the manufacture of metal products; chemicals and chemical compositions for use in industry, namely, cleaning agents to remove contaminants from industrial process systems and paint strippers to remove paint from equipment surfaces in paint spray booth operations.

類別 Class 5

Pharmaceutical and veterinary preparations, medicines and substances; diagnostic agents, preparations and substances for medical purposes; contrast media for medical imaging; diagnostic scanning agents for in vivo use; diagnostic imaging agents for magnetic resonance imaging (MRI); radiopharmaceutical products; radioactive substances for use in nuclear medicine; radioactive pharmaceutical preparations and non-radioactive reagents for producing radiopharmaceuticals for in vivo diagnostic or therapeutic use; gases and gas mixtures for medical imaging; chemical compositions used to inhibit

cooling water system fouling due to mollusca and microorganism; bacteriacides, fungicides, and algacides for use in the treatment of aqueous systems used in the preparation of wood pulp, paper and paper products; compositions for the control of bacteria, fungi, and algae.

類別 Class 6

Metal locks; metal security enclosures, namely, key cabinets, storage tubes and storage boxes for securing keys; metal lockboxes for residential, vehicular, industrial and real estate sales use; metal key cabinets for locking, tracking and storing keys; metal key safes.

類別 Class 7

Pumps, namely, centrifugal pumps, diaphragm pumps, bellows pumps and process and transfer pumps; fluid control devices, namely, valves, fluid separation cartridges and parts therefore, including semi-permeable membranes; filter cartridges for various industrial machines for filtration applications including the filtration of coating solutions for the manufacture of magnetic tape and the filtration of petrochemicals, portable water, beer in the brewing industry, and other specialty chemicals; machines for the feeding and application of chemicals for industrial use; fluid filters, liquid filtering separators and gas-liquid filtering separators; apparatus in the nature of filters for removing solids, liquids and vapors from gases; apparatus [machines] for filtering water

類別 Class 9

Software and software programs for industrial, research, and medical use; apparatus for electrophoresis; chromatography columns and pumps; apparatus for microfabrication; apparatus for bioinformatics systems; apparatus for scintillation; imaging apparatus for radioactive and luminescent emissions; synthesis and purification integrated systems; apparatus manufacturing oligonucleotides; apparatus for microarrays; laser based optical systems for digital imaging; microarray slides; laboratory glassware; vials and microvials; microtitre plates; computer software for hospital operating room management; computer software for critical care information management; industrial process control software; computer software programs and program manuals sold as a unit for use in factory management; graphical user interface based computer programs for controlling machines in industrial automation applications; software for creating graphics displays and editing dynamic data interfaces for realtime graphics applications for industrial and business applications; communications software for connecting computer network users; software for plastic injection molding; software for control, monitoring, simulation, communications, data logging and collection, and factory automation; software to integrate manufacturing machine operations, control processes, provide data for visualization, track problems and generate production reports; packaged software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors; laptop computers, ethernet cards and cables; computer networking

hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, display devices and terminals; computer whiteboards; system boards and processors; call control, operator interface, gage interfaces and data collectors; control and manufacturing applications, namely, statistical process control, data collection, distributed numerical control; manufacturing execution systems and document management; digital signal processing products and systems, namely industrial automation controls and programmable logic controllers; electric apparatus for controlling the operations of cutting machines to optimize machine tool cutting performance of rough and semi-rough cuts; distributed and remote input/output hardware devices, input/output modules, interface modules, power supplies and mounting hardware; digital music players; cellular telephones; intrusion and burglar alarm systems; security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glassbreak sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hardwire sirens, audio speakers, electronic drivers, access control and alarm monitoring systems; fire, heat and smoke detecting and alarm units; computer card operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access door controllers; video intrusion detectors; processing hardware and software that analyzes digital video images to automatically extract, record and report intelligence, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; cameras; closed circuit video systems; closed circuit video system comprising one or more cameras, and a camera housing; short range, wireless, radio frequency transceivers; power line transceivers; communication control hardware for operating closed circuit camera; communication control hardware, namely keypad controllers, matrix switchers, multiplexers, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices sold separately or as part of a system for operating closed circuit cameras; personal digital assistant devices configured for use by real estate professionals; communications interface devices for use with personal digital assistant devices; fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; electrical switches; electro mechanical locks; magnetic locks; electric keys; handheld electronic hardware for receiving, controlling, storing, manipulating, displaying and transmitting data and for operating electronic locks; electronic access cards and readers and encoders therefore; magnetic access cards and readers and encoders therefore; smart access cards and readers and encoders therefore; proximity cards and readers and encoders therefore; key fobs and readers and encoders therefore; bar code access cards and readers, encoders, card lamination apparatus; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors

used to determine and monitor the location and movement of tangible assets, inventory and individuals; infrared sensors; computer hardware and software for facilities management and controlling facility access systems and components therefore, namely, control panels, access card readers, and equipment and systems for video imaging, video monitoring; digital hard drive recording, network transmission and remote access; networked digital video storage servers, access control and surveillance applications alarm monitoring and security; computer software and hardware for controlling and operating security and access system comprising locks, doors, access, and identification; devices and security enclosures in the nature of boxes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controllers, control panel housing, switch housing, transformers switches, splitters, coaxial cables, connectors, motion detectors, microphones and speakers; computer user interface software and control software for managing security, fire and access systems; electric locks; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks; electronic key fobs, readers and encoders; magnetic data carriers; data processing software and computer hardware; power supplies, namely batteries, rectifiers/voltage/current regulators and transformers; control panels - namely, electronic apparatuses adapted to electrically monitor a pre-determined activity and activate a burglar alarm; siren speakers; and electronic siren drivers - namely, tone generators and amplifiers adapted to be used for sirens; computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; apparatus for detecting presence of explosives and other contraband; waste water purification units; water purifying units for potable water for domestic, commercial and industrial use; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; control valves for water conditioning and water filtration equipment; fluid separation units, namely industrial fluid filters; recycling units, namely, fluid purification units; bioreactors for culturing cells; water treatment equipment, namely, filter cartridges; water treatment equipment for household use, namely, water softeners and water conditioners; media filters and depth filters for removing sediments, iron, sulfur, tastes and odors from

water; reverse osmosis water purification; depth filter units and depth filter cartridges for liquid and air filtration for domestic, industrial, and commercial use; portable analytical instruments; namely, a probe with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt density measuring device; deionization units for laboratory use, filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and life science applications; disposable cartridge filters for industrial use; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, and closed water systems, pulp and paper processing systems, fuel processing systems, and metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment and monitor the effectiveness of the treatment; computer software for data management in the water treatment and pulp and paper fields; electronic controllers used for processing information in the water treatment and pulp and paper fields; apparatus for use in industrial water systems to measure and control ph and conductivity; apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; electronic test apparatus for use in water treatment; laboratory testing equipment—namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure ph, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water.

類別 Class 10

Test kits for clinical medical use including test tubes, test plates and indicator charts for evaluating test results; medical apparatus and accessories systems for the dispensing of measured unit doses of pharmaceutical preparations; vials; cannulas; syringes; injectors; cartridges; pre-filled vials containing medical diagnostic reagents; pre-filled cartridges containing chemical solutions for medical use; pre-filled cylinders containing gases and gas mixtures for medical use; infusion pumps for intravenous administration of fluids; needles for medical purposes; implantable radiation therapy devices consisting of encapsulated radioisotope brachytherapy sources; radiation therapy delivery system consisting of radioactive seeds and a bio-absorbable carrier assembly; cardiac output monitors; heat and moisture exchangers; bacteria filters; gas analyzers for medical purposes; anesthesia record keeping and data management systems and patient monitoring systems, namely, gas monitors, pulse oximeters, multiparameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for anesthesia, intensive care and diagnostic applications; anesthesia machines and ventilators; intensive care and anesthesia accessories for single patient

use, namely, gas sampling lines, airway adapters, breathing circuits, spirometry sensors and tubes, tubes, water traps, pulse oximetry sensors, non-invasive blood pressure cuffs, flushing sets, anesthesia masks, carbon dioxide absorbers, temperature probes and nebulizers; central nervous system monitors; gastrointestinal tonometers.

類別 Class 11

Fluid separation units; fluid concentration units; fluid recycling units; polymeric membrane material for use in the separation of fluids; filter apparatus used for filtering solids from gases and liquids or filtering liquids from gases, and for filtering one immiscible liquid from another; spirally-wound elements or cartridges contained within a tubular plastic sleeve for concentrating products and removing impurities in fluid treatment systems; water conditioning units for residential purposes; reverse osmosis modules and membranes therefore; water purification units and systems consisting of clarifiers, electro deionization systems, condensate polishers, vacuum degasification units, ultra filtration units, ultraviolet sterilizers, ion exchangers, acid and caustic regeneration systems, reverse osmosis systems, forced draft decarbonator units, filters, chemical feed systems and bulk storage units, sold with automatic controls and instruments to monitor operating parameters of the units and systems electrochemical liquid purification units for use in the industrial, commercial and municipal sectors.

類別 Class 35

Supply chain management and consulting services in the areas of chemical product and service sourcing and procurement, product inventory and supply management and cost containment; consulting, marketing, cost and pricing analysis relating to electrochemical liquid purification units for use in the industrial sector.

類別 Class 40

Water treatment services, namely, desalination, purification, conditioning, identifying and controlling microbiological organisms, cleaning of ion exchange resins; membrane regeneration services; chemical control system services relating to the feeding of treatment chemicals to industrial water systems; providing information relating to industrial water purification systems to others, over a global computer network.

類別 Class 41

Educational services in the field of medical imaging and diagnostics; holding seminars, conferences, symposiums or workshops relating to the pharmaceutical industry, for medical practitioners and employees of pharmaceutical companies; educational services in the field of life science and biotechnology for scientists and researchers; conducting seminars related to industrial water treatment problems; providing training services for all the aforesaid.

類別 Class 42

Consultancy services relating to chemical research; consultancy services relating to the discovery and evaluation of drugs and compounds having diagnostic properties; technical support services; consultancy services relating to methods for diagnosis using laser based optical systems; high through put screening assays for drug development services; customer synthesis, analytical and diagnostic services; biotechnological services; technical support services for factory automation software, namely, providing maintenance of computer software and providing periodic upgrades of the software; custom design of security access systems; design and consulting services in connection with the configuration of systems used in applications supporting fiber optic technology; technical support services, namely, troubleshooting of problems with computer hardware, video and electronic communication hardware, and software; technical consultation services for hardware and software used in connection with security and access systems; technical consultation services for surveillance cameras; custom design services for others in the fields of security systems, access systems, and tangible asset and inventory monitoring systems; laboratory and testing services for fluid separation and membrane testing; engineering and consulting services in the fields of water treatment, aqueous systems, cooling water systems, industrial boiler water systems, industrial water and process systems, industrial fuel processing system treatment, pulp and papermaking system treatment, and metal and plastic processing system treatment; engineering services and technical support services related to the design and configuration of computer software and hardware systems to be used in the treatment of aqueous systems and in the treatment of pulp and papermaking systems, petroleum and petrochemical processing systems, and metal and plastic finishing operations; advisory services related to all the aforesaid.

類別 Class 44

Consultancy services relating to pharmaceutical research; consultancy services relating to medical and diagnostic imaging; consultancy services relating to diagnostic, prophylactic and therapeutic properties of pharmaceuticals; medical information services; medical imaging services; medical diagnostic services; advisory services related to all the aforesaid.
