

香港特別行政區政府知識產權署商標註冊處  
Trade Marks Registry, Intellectual Property Department  
The Government of the Hong Kong Special Administrative Region

### 接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

### ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

Apparatus for scientific research and laboratories; Laboratory apparatus and instruments; Apparatus and instruments for physics; Chemistry apparatus and instruments; Scientific apparatus and instruments; Automatic dosage apparatus; Dosage dispensers; Dispensing apparatus; Bottle top dispensers; Manual, motorised and automated dosage dispensers, dispensing apparatus, bottle top dispensers; Multiple dispensers; Burettes; Burettes of glass; Bottle topper burettes; Manual, motorised, automated burettes, bottle top burettes; Automated titration apparatus; Titration apparatus; Titration devices; Replacement parts and accessories for automated dosage apparatus, dosage dispensers, dispensing apparatus; Replacement parts and accessories for dispensing devices, in

particular rack holders, table stands and charging stations; Replacement parts and accessories for bottle topper dispensers and bottle topper burettes, in particular dosing drain tubes, valves, bottle adapters, bottle holders, suction pipes, seals, ventilation plugs, dosing hoses, drying pipes, cylinder/piston actuation units, dosing pistons and dosing cylinders; Pipettes; Pipettors; pipeting instruments; Pipetting units, single tube or multiple tube; Piston stroke pipettes; Single-channel or multi-channel hand-held piston-operated pipettes with or without air cushion; Positive displacement pipettes; Pipetting aids, in particular manual, motorised and Automatic; Liquid extraction apparatus, in particular bottle top liquid extraction apparatus; Pipetting robots; Pipetting aids, manual and motorised; Pipette leak tightness testers; Replacement parts and accessories for piston-operated pipettes, in particular single racks, table stands, rack holders, filters, battery packs, power supplies and charging stations; Replacement parts and accessories for pipetting robots, in particular height adapters, Single-channel or multi-channel pipetting modules, also being robotic tips, Cooling and heating elements being fitted parts for pipetting modules, Components for nanodosing; Replacement parts and fittings for pipetting aids, in particular membrane filters, Adapters, Valves, Bellows, Cell pack, Power suppliers; Replacement parts and accessories for pipette leak tightness testers, in particular single-channel or multi-channel pipette adapters, Filters, Power suppliers; Pycnometers; Hydrometers; Dessicators; Laboratoryware, namely laboratory worktops, laboratory apparatuses and instruments; Laboratory items of glass and/or plastic, namely reactor vessels, lids for reactor vessels, stands for reactor vessels, PCR single vessels, PCR vessel strips made of several single vessels, with and without lids, PCR single lids and PCR lid strips, PCR plates, Microtiter plate, Receptacles for PCR vessels, strips and plates, PCR sealing films, deep-well plates; Laboratory items of glass and/or plastic, namely cuvettes, cuvette stands, stirring tools, pipette tips with and without filter, receptacles for pipette tips, dispenser-tips (PD-Tips), reagent containers, containers for samples, Volume measuring containers, measuring flasks with and without stoppers, Graduated cylinders, Mixing

cylinders, Tilt dispensers, bulb pipettes, graduated pipettes, supply bottles, Oxygen tanks, centrifuge tubes, Sedimentation cones, Racks for sedimentation cones, sample tubes; Laboratory items of glass and/or plastic, namely storage boxes [glass ware for laboratory use], dispenser boxes [glass ware for laboratory use], Petri dishes, Vaccination slings, Test tubes, Culture tubes, Centrifuge tubes, PE stoppers, sample tubes, sedimentation tubes, dropping pipettes, Pasteur pipettes, Test tube frames, Pipette bellows, counting chambers, Microscope slides, Slide boxes, staining troughs, spotting tiles, Erlenmeyer flasks, Evaporating dishes, watch glass; Laboratory items of glass and/or plastic, namely mortars, funnels, Filter crucibles, filter flasks, Wash bottles, Hoses, hose connectors, pinch valves, hose spigots, ground joint sleeves, ground sockets, Stoppers, Stirrers, magnetic stir bars, Spatulas, forceps, Measuring scoops, Weighing dishes, storage bottles, wash bottles, dropper bottles, Pulverising mills, Sealing films [laboratory instruments and related equipment]; Software and interfaces for use in laboratory automation, in particular for conducting, evaluating and presenting chemical and biochemical analyses and processes; Software and interfaces for use in laboratory automation, in particular for simulations, virtual reality applications or augmented reality applications; Software and interfaces for use in laboratory automation, in particular for the purpose of operation, control, operating, user communication, presentation, verification, calibration, adjustment, maintenance, repair, in particular for automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, bottle filling machines, pipetting installations, pipetting systems; Software and interfaces for use in laboratory automation, in particular laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; Software for providing and administration of licences, in particular for software of the aforesaid areas of application and in connection with automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, Dosing systems, Filling machines, pipetting installations, pipetting systems, And/or with laboratory apparatus, Laboratory instruments, Consumables, industrial

production facilities, mainly with dispensing technology.

Class(es) No(s) .:

[511] 貨品 / 服務說明 : Class 9:  
Specification: Computer hardware and software; computer  
hardware for telecommunications; computer  
control apparatus for use in wireless  
communications systems; computer controlled  
telecommunications exchange apparatus;  
computer networks and systems; computer  
network hubs, installations, bridges, routers,  
modems, switches and servers; computer  
programs for network management; computer  
software for controlling and managing access  
server applications; computer software for use  
in telecommunications; computer software for

use in communications; computer software for use in accessing the global computer network; computer software for wireless content delivery; computer software for use in database management; data processing system, apparatus and software; data communications hardware and software; data networks; data transmission installations and networks; data packet switching installations and networks; cable installations for the transmission of data; cabling networks incorporating fibre optic cables; electronic industrial network apparatus for high speed data transmission; electronic data interchange apparatus; fibre optic link installations; broadband data interconnecting computer installations; intercommunication installations and systems; local area networks; networks for the interconnection of communication systems; telecommunications apparatus; telecommunications hubs, installations, exchangers, routers, modems, switches and networks.

Class 38:

Communication of data by means of telecommunications; communication of voice by means of telecommunications [provided via TDM (Time Division Multiplexing), IP (Internet Protocol), LTE (Long Term Evolution), roaming]; communication via fibre optic networks; communication via multinational telecommunication networks; computer network communication services; data transmission services; digital network telecommunications services; fibre optic network telecommunications services; high bit-rate data transmission services for telecommunication network operators; internet service provider (ISP) services; internet telephony services; internet portal services; leasing satellite transmission capacity; electronic transmission of sounds, images, signals and data; network transmission of sounds, images, signals and data; operation of local area networks; operating of electronic communications networks and systems; operation of telecommunications networks and systems; providing access to electronic communications networks and telecommunications networks; providing high-speed access to databases; providing high-speed access to global computer networks and the internet; providing telecommunication connections to global computer networks and the internet; providing virtual private network (VPN) services; rental of access time to global computer networks and

the internet; rental of local area networks; rental of telecommunications apparatus and installations; telecommunications services; telecommunications routing and junction services; teleconferencing and videoconferencing services; wireless communication services; information, consultancy and advisory services relating to the foregoing.

Class 42:

Cloud computing services; Software as a Service (SaaS); Platform as a Service (PaaS); Infrastructure as a Service (IaaS); information technology (IT) consultancy; telecommunications technology consultancy; computer technology consultancy; computer programming services; computer system integration services; computer network services; computer firewall services; computer security consultancy; telecommunications network security services namely testing and risk assessment of electronic networks; design and development of computer hardware; design, development and maintenance of computer software and computer networks; design and development of telecommunications networks; design and development of wireless computer networks; design and development of virtual private networks (VPN), local area networks (LAN), wide area networks (WAN) and wireless local area networks (WLAN); design and development of advanced internet protocols (IP) and voice-over-internet protocols (VOIP); development of computer software application solutions; remote management of computer software applications for others; rental of web servers; data mining and conversion services; data encryption and decoding services; data recovery services; data security consultancy; technical data analysis services; technical support services for computer hardware, software and network problems; information, consultancy and advisory services relating to the foregoing.

Class 16:  
Printed matters, brochures, printed  
publications, advertising materials, namely  
posters and banners, books, newspapers,

catalogues, lists, pamphlets, leaflets and flyers, periodicals, magazines, instructional and teaching material (excluding apparatus), packaging material, paper and stationery provided that they are included in Class 16; printed reports providing financial data, financial research, financial analysis, financial reports, comparative analysis of companies in similar industries or businesses, customized investment information; all included in Class 16.

Class 35:

Providing information and analysis in the fields of economics and business, namely, industry and sector reports and forecasts, economic reports and forecasts; provision of news, information, research, databases, and analysis in the field of economics via electronic communication networks; business appraisal, business management assistance, business research, commercial information agency, business enquiry, business investigation and provision of business statistical information services; news clipping services; market studies, surveys and research and analysis; economic forecasting; compilation of business information into databases; provision of commercial information; compilation and dissemination of commercial, economic and business information; information, advisory and consultancy services related to the aforesaid; public relations services for corporate and financial purposes; mergers and acquisitions and investor relations; business advice relating to strategic marketing, marketing consultancy services; price and cost evaluation and analysis; price and costs forecasting and analysis for business or commercial purposes.

Class 36:

Debt advisory services; securities brokerage; stock exchange quotations; stock brokerage services; stocks and bonds brokerage; securities underwriting; placement of securities; financial research; financial evaluation (insurance, banking, real estate); financial management; financial consultancy; financial information; financial sponsorship; providing financial information via a web site; financial management of reimbursement payments for others; financing services; financial investment services, instalment loans; investment advice and investment management services, and investment brokerage services, all in fields of financial securities, stocks, bonds, money market funds,

mutual funds, commodities, futures, stock options, and indices of financial securities; unit trust and fund investment, management and administration; capital investment; capital fund investment; private client investment services; financial planning and financial portfolio management services; providing information and analysis in the fields of finance, investment, financial planning and financial investment strategy; financial analysis, namely, monitoring investment value and performance of investments, analyzing investment performance, evaluating asset allocation, risk tolerance, financial alternative plans and investment time frames; providing information by electronic means, by phone and by online means in the field of investment account information and financial research; loan services; lending on mortgage; lending against security; insurance; personal insurance; life insurance; accident and miscellaneous risks insurance; assurance services; reinsurance; actuarial services; insurance brokerage; reinsurance brokerage; insurance underwriting; insurance consultancy; insurance loss control and loss adjustment services; insurance claims examination and administration; insurance research; retirement payment; provident fund and pension fund management; financial administration and investment services; news, information, research, analysis and advisory services in the fields of insurance, insurance products, insurance policies, provident funds, pension funds and retirement schemes; trusteeship/fiduciary; real estate estimation services; real estate valuation services, consultancy services related to real estate, real estate investment services, real estate management services, real estate agency services, real estate renting; rent collection services; consultancy services relating to employee benefits schemes; credit card and debit card services; bill payment services, namely, check writing; bill payment services; cash management account services; financial investment services, namely fixed income investment services; electronic payment services, namely, electronic fund transfer services; providing extended warranties for wireless phones and mobile communications devices; advice in the fields of investment, portfolio management, financial planning, retirement planning and wealth management; providing information in relation to capital markets; charitable fund raising.

latency and high bandwidth computing; computer  
hardware for use in providing a secure  
computing environment; computer networking

hardware; computer communication servers; computer hardware for use in providing a secure cloud computing network; computer software for computing; computer software for cloud computing; computer software for computing via a global and local network; computer software for low-latency and high bandwidth computing; computer memory hardware; computer software for providing a secure computing network; computer software for use in providing a secure cloud computing network; computer operating system software; computer system extensions, tools and utilities in the field of application software for connecting personal computers, networks, telecommunications apparatus and global computer network applications; computer hardware and software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of data; computer network adapters; computer network controllers; computer network interface devices; computer network hubs, switches, and routers; microcontrollers for internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing mobile internet of things (IoT) enabled mobile devices; computer hardware and software for the development, maintenance, and use of local and wide area computer networks; computer hardware and software for the development, maintenance, and use of interactive audio-video computer conference systems; computer hardware and software for the receipt, display, and use of broadcast video, audio, and digital data signals; electronic control devices for the interface and control of computers and global computer and telecommunications networks with television and cable broadcasts and equipment; routers; hubs; servers; switches; apparatus for testing and programming integrated circuits; peripheral memory apparatus and devices; semiconductor devices; computer hardware and software for creating, facilitating, and managing remote access to and communication with local area networks (lans), virtual private networks (vpn), wide area networks (wans) and global computer networks; router, switch, hub and server operating software; computer software tools for the facilitation of third party software applications; computer hardware and software for wireless network

communications; downloadable electronic publications in the area of electronics, semiconductors and integrated electronic apparatus and devices, computers, telecommunications, entertainment, telephony, and wired and wireless telecommunications; computer hardware for use in machine vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms and data analysis; Computer software for machine learning, data query, and data analysis; computer software for cognitive computing, deep learning, artificial intelligence; computer software platform for cognitive computing; computer software for graphical representation of data; pattern recognition computer software; computer software for data mining; computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; computer software development kits; computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; downloadable and recorded vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; computer hardware and software for recording, processing, receiving, reproducing, transmitting, modifying, compressing, decompressing, broadcasting, merging and enhancing sound, images, graphics, and data; algorithm software programs for the operation and control of computers; computer hardware and software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of audio and video graphics information; downloadable and recorded computer software for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data for use in fixed, mobile and handheld devices; electronic database featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information recorded on computer media; navigation software for calculating and displaying routes; public transit navigation system featuring interactive digital map displays, interactive instructions and user generated information;

interactive social computer software for the retrieval and display of public transit, navigation, geographic, map and travel information; interactive social computer software to enable the transmission of public transit information, mapping, navigation, traffic, routes and point-of-interest information to telecommunication networks, cellular phones, navigation devices and other mobile and hand-held devices; interactive social computer software that enables the exchange of information among users; computers and computer operated systems for autonomous driving, driver-assisted, connected vehicles, unmanned aerial devices, and drones; computer hardware and software platforms featuring interactive displays, control systems, and control devices, warning systems, connectivity, onboard computers, and GPS for vehicles, connected vehicles, autonomous, and driverless vehicles; multi camera systems for use in vehicles; GPS navigation and guidance, GPS location tracking, GPS map-displaying and route-calculating device, video-recording, and wireless communication network devices for data or image transmission for vehicles; computer software applications for digital virtual agents, predictive systems, machine learning, cognitive process automation, pattern recognition, character recognition, visual computing applications, knowledge virtualisation, robotics, drones, and unmanned vehicles; computer software and hardware applications for automatic vehicle driving control; computer software and hardware applications for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles; Vehicle tracking devices comprised of computer software and computer hardware, sensors, transmitters, receivers and global positioning satellite receivers, all for use in connection with vehicle tracking and vehicle monitoring.

Class 42:

Providing temporary use of on-line non-downloadable software for machine learning, data mining, data query, and data analysis; providing temporary use of on-line non-downloadable software for cognitive computing, deep learning, artificial intelligence; providing temporary use of non-downloadable software for data query and data analysis; providing temporary use of non-downloadable software for data mining; providing temporary use of non-downloadable software for cognitive

computing, deep learning, artificial intelligence; computer services for searching and retrieving information on computer networks for others; computer services, namely, providing temporary use of online non-downloadable software, software application programming interface (API), and software widget for machine learning, data mining, data query, and data analysis; providing online non-downloadable computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; providing online non-downloadable computer software development kits; providing online non-downloadable computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; providing online non-downloadable vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; software as a service (SAAS) services featuring software for use in providing cloud-computing capabilities and information technology (IT) services, computing, and cloud computing; software as a service (SAAS) services featuring software for use in computing via a global and local network; software as a services (SAAS) services feature software development platform for use in connecting applications to enterprise systems and devices; software consulting and providing information on software as service; software as a service (SAAS) services featuring software for use in providing low-latency and high bandwidth computing; computer software services for providing computing capabilities for application developers and content providers; cloud computing featuring software for use in providing low-latency and high bandwidth computing, information technology (IT) services, and computing via a global and local network; computer software services for providing cloud computing capabilities for application developers and content providers; services for enabling applications to be deployed across an online network; computer services for providing analytics, caching, computation and traffic routing; services for providing a secure and trusted computing network; providing computer hardware and software consulting services in the field developing a cloud based environment with integration of applications across various

platforms and connected devices; computer services, namely, creating computer network-based indexes of information, websites, and resources; providing temporary use of non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); providing online non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); software as a service (SAAS); consulting services in the field of computers and wireless computing; computer network management services, namely, monitoring of network systems for technical purposes; hosting of digital content on the internet; computer network monitoring services, namely, providing information on the operation of computer networks; customization of web software, and computer user interface design for others; Development, design, and consulting services for computers; designing and developing standards for others in the design and implementation of computer software, computer hardware and telecommunications equipment; providing customers and technicians with information relating to computer project management; providing online software as a service for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data; providing online non-downloadable software featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information; providing online non-downloadable navigation software for calculating and displaying routes and sharing public transit navigation system, map and travel information; Providing online non-downloadable computer software to enable the sharing of public transit information, mapping, navigation, traffic, routes and point-of-interest information; providing interactive social computer software that enables the exchange of information among users; providing online software as a service for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles.

Class 9:

Computers; handheld computers; memory boards; computer hardware; integrated circuits; integrated circuit memories; integrated circuit chips; chip-sets; semiconductor processors; semiconductor processor chips; semiconductor chips; microprocessors; printed circuit boards; electronic circuit boards; computer motherboards; computer memories; computer operating systems; micro-controllers; data processors; central processing units; semiconductor memory devices; software programmable microprocessors; digital and optical microprocessors; digital and optical data and signal processors; video circuit boards; audio circuit boards; audio-video circuit boards; video graphic accelerators; multimedia accelerators; video processors; video processor circuit boards; processor die packaging and casings; cards, discs, tapes, wires, records, microchips and electronic circuits, all for the recordal and transmission of data; modems; apparatus and instruments, all for processing, storage, retrieval, transmission, display, input, output, compressing, decompressing, modifying, broadcasting and printout of data; computer input and output devices; work stations; data memories; storage devices; security systems for computer hardware and software; set electronic chips; components for computers and printed circuits; voice accelerators; voice, data, image and video accelerators; memory systems for computers; cables and adapters; computer terminals and printers for use therewith; video display units; telecommunications apparatus and instruments; cameras; computer hardware for computing; computer hardware for computing via a global and local network; computer hardware for cloud-computing; computer hardware for low-latency and high bandwidth computing; computer hardware for use in providing a secure computing environment; computer networking hardware; computer communication servers; computer hardware for use in providing a secure cloud computing network; computer software for computing; computer software for cloud computing; computer software for computing via a global and local network; computer software for low-latency and high bandwidth computing; computer memory hardware; computer software for providing a secure computing network; computer software for use in providing a secure cloud computing network; computer operating system software; computer

system extensions, tools and utilities in the field of application software for connecting personal computers, networks, telecommunications apparatus and global computer network applications; computer hardware and software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of data; computer network adapters; computer network controllers; computer network interface devices; computer network hubs, switches, and routers; microcontrollers for internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing mobile internet of things (IoT) enabled mobile devices; computer hardware and software for the development, maintenance, and use of local and wide area computer networks; computer hardware and software for the development, maintenance, and use of interactive audio-video computer conference systems; computer hardware and software for the receipt, display, and use of broadcast video, audio, and digital data signals; electronic control devices for the interface and control of computers and global computer and telecommunications networks with television and cable broadcasts and equipment; routers; hubs; servers; switches; apparatus for testing and programming integrated circuits; peripheral memory apparatus and devices; semiconductor devices; computer hardware and software for creating, facilitating, and managing remote access to and communication with local area networks (lans), virtual private networks (vpn), wide area networks (wans) and global computer networks; router, switch, hub and server operating software; computer software tools for the facilitation of third party software applications; computer hardware and software for wireless network communications; downloadable electronic publications in the area of electronics, semiconductors and integrated electronic apparatus and devices, computers, telecommunications, entertainment, telephony, and wired and wireless telecommunications; computer hardware for use in machine vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms and data analysis; Computer software for machine learning, data query, and data analysis; computer software

for cognitive computing, deep learning, artificial intelligence; computer software platform for cognitive computing; computer software for graphical representation of data; pattern recognition computer software; computer software for data mining; computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; computer software development kits; computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; downloadable and recorded vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; computer hardware and software for recording, processing, receiving, reproducing, transmitting, modifying, compressing, decompressing, broadcasting, merging and enhancing sound, images, graphics, and data; algorithm software programs for the operation and control of computers; computer hardware and software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of audio and video graphics information; downloadable and recorded computer software for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data for use in fixed, mobile and handheld devices; electronic database featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information recorded on computer media; navigation software for calculating and displaying routes; public transit navigation system featuring interactive digital map displays, interactive instructions and user generated information; interactive social computer software for the retrieval and display of public transit, navigation, geographic, map and travel information; interactive social computer software to enable the transmission of public transit information, mapping, navigation, traffic, routes and point-of-interest information to telecommunication networks, cellular phones, navigation devices and other mobile and hand-held devices; interactive social computer software that enables the exchange of information among users; computers

and computer operated systems for autonomous driving, driver-assisted, connected vehicles, unmanned aerial devices, and drones; computer hardware and software platforms featuring interactive displays, control systems, and control devices, warning systems, connectivity, onboard computers, and GPS for vehicles, connected vehicles, autonomous, and driverless vehicles; multi camera systems for use in vehicles; GPS navigation and guidance, GPS location tracking, GPS map-displaying and route-calculating device, video-recording, and wireless communication network devices for data or image transmission for vehicles; computer software applications for digital virtual agents, predictive systems, machine learning, cognitive process automation, pattern recognition, character recognition, visual computing applications, knowledge virtualisation, robotics, drones, and unmanned vehicles; computer software and hardware applications for automatic vehicle driving control; computer software and hardware applications for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles; Vehicle tracking devices comprised of computer software and computer hardware, sensors, transmitters, receivers and global positioning satellite receivers, all for use in connection with vehicle tracking and vehicle monitoring.

Class 42:

Providing temporary use of on-line non-downloadable software for machine learning, data mining, data query, and data analysis; providing temporary use of on-line non-downloadable software for cognitive computing, deep learning, artificial intelligence; providing temporary use of non-downloadable software for data query and data analysis; providing temporary use of non-downloadable software for data mining; providing temporary use of non-downloadable software for cognitive computing, deep learning, artificial intelligence; computer services for searching and retrieving information on computer networks for others; computer services, namely, providing temporary use of online non-downloadable software, software application programming interface (API), and software widget for machine learning, data mining, data query, and data analysis; providing online non-downloadable computer vision software for acquiring, processing, analyzing and understanding digital images and extracting

visual data; providing online non-downloadable computer software development kits; providing online non-downloadable computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; providing online non-downloadable vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; software as a service (SAAS) services featuring software for use in providing cloud-computing capabilities and information technology (IT) services, computing, and cloud computing; software as a service (SAAS) services featuring software for use in computing via a global and local network; software as a services (SAAS) services feature software development platform for use in connecting applications to enterprise systems and devices; software consulting and providing information on software as service; software as a service (SAAS) services featuring software for use in providing low-latency and high bandwidth computing; computer software services for providing computing capabilities for application developers and content providers; cloud computing featuring software for use in providing low-latency and high bandwidth computing, information technology (IT) services, and computing via a global and local network; computer software services for providing cloud computing capabilities for application developers and content providers; services for enabling applications to be deployed across an online network; computer services for providing analytics, caching, computation and traffic routing; services for providing a secure and trusted computing network; providing computer hardware and software consulting services in the field developing a cloud based environment with integration of applications across various platforms and connected devices; computer services, namely, creating computer network-based indexes of information, websites, and resources; providing temporary use of non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); providing online non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); software as a service (SAAS); consulting services in the field of computers and

wireless computing; computer network management services, namely, monitoring of network systems for technical purposes; hosting of digital content on the internet; computer network monitoring services, namely, providing information on the operation of computer networks; customization of web software, and computer user interface design for others; Development, design, and consulting services for computers; designing and developing standards for others in the design and implementation of computer software, computer hardware and telecommunications equipment; providing customers and technicians with information relating to computer project management; providing online software as a service for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data; providing online non-downloadable software featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information; providing online non-downloadable navigation software for calculating and displaying routes and sharing public transit navigation system, map and travel information; Providing online non-downloadable computer software to enable the sharing of public transit information, mapping, navigation, traffic, routes and point-of-interest information; providing interactive social computer software that enables the exchange of information among users; providing online software as a service for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles.

[511] 貨品 / 服務說明: Class 9:  
Specification: Apparatus for scientific research and  
laboratories; Laboratory apparatus and  
instruments; Apparatus and instruments for  
physics; Chemistry apparatus and instruments;  
Scientific apparatus and instruments;  
Automatic dosage apparatus; Dosage dispensers;  
Dispensing apparatus; Bottle top dispensers;  
Manual, motorised and automated dosage  
dispensers, dispensing apparatus, bottle top  
dispensers; Multiple dispensers; Burettes;  
Burettes of glass; Bottle topper burettes;  
Manual, motorised, automated burettes, bottle  
top burettes; Automated titration apparatus;  
Titration apparatus; Titration devices;  
Replacement parts and accessories for  
automated dosage apparatus, dosage dispensers,  
dispensing apparatus; Replacement parts and  
accessories for dispensing devices, in

particular rack holders, table stands and charging stations; Replacement parts and accessories for bottle topper dispensers and bottle topper burettes, in particular dosing drain tubes, valves, bottle adapters, bottle holders, suction pipes, seals, ventilation plugs, dosing hoses, drying pipes, cylinder/piston actuation units, dosing pistons and dosing cylinders; Pipettes; Pipettors; pipeting instruments; Pipetting units, single tube or multiple tube; Piston stroke pipettes; Single-channel or multi-channel hand-held piston-operated pipettes with or without air cushion; Positive displacement pipettes; Pipetting aids, in particular manual, motorised and Automatic; Liquid extraction apparatus, in particular bottle top liquid extraction apparatus; Pipetting robots; Pipetting aids, manual and motorised; Pipette leak tightness testers; Replacement parts and accessories for piston-operated pipettes, in particular single racks, table stands, rack holders, filters, battery packs, power supplies and charging stations; Replacement parts and accessories for pipetting robots, in particular height adapters, Single-channel or multi-channel pipetting modules, also being robotic tips, Cooling and heating elements being fitted parts for pipetting modules, Components for nanodosing; Replacement parts and fittings for pipetting aids, in particular membrane filters, Adapters, Valves, Bellows, Cell pack, Power suppliers; Replacement parts and accessories for pipette leak tightness testers, in particular single-channel or multi-channel pipette adapters, Filters, Power suppliers; Pycnometers; Hydrometers; Dessicators; Laboratoryware, namely laboratory worktops, laboratory apparatuses and instruments; Laboratory items of glass and/or plastic, namely reactor vessels, lids for reactor vessels, stands for reactor vessels, PCR single vessels, PCR vessel strips made of several single vessels, with and without lids, PCR single lids and PCR lid strips, PCR plates, Microtiter plate, Receptacles for PCR vessels, strips and plates, PCR sealing films, deep-well plates; Laboratory items of glass and/or plastic, namely cuvettes, cuvette stands, stirring tools, pipette tips with and without filter, receptacles for pipette tips, dispenser-tips (PD-Tips), reagent containers, containers for samples, Volume measuring containers, measuring flasks with and without stoppers, Graduated cylinders, Mixing

cylinders, Tilt dispensers, bulb pipettes, graduated pipettes, supply bottles, Oxygen tanks, centrifuge tubes, Sedimentation cones, Racks for sedimentation cones, sample tubes; Laboratory items of glass and/or plastic, namely storage boxes [glass ware for laboratory use], dispenser boxes [glass ware for laboratory use], Petri dishes, Vaccination slings, Test tubes, Culture tubes, Centrifuge tubes, PE stoppers, sample tubes, sedimentation tubes, dropping pipettes, Pasteur pipettes, Test tube frames, Pipette bellows, counting chambers, Microscope slides, Slide boxes, staining troughs, spotting tiles, Erlenmeyer flasks, Evaporating dishes, watch glass; Laboratory items of glass and/or plastic, namely mortars, funnels, Filter crucibles, filter flasks, Wash bottles, Hoses, hose connectors, pinch valves, hose spigots, ground joint sleeves, ground sockets, Stoppers, Stirrers, magnetic stir bars, Spatulas, forceps, Measuring scoops, Weighing dishes, storage bottles, wash bottles, dropper bottles, Pulverising mills, Sealing films [laboratory instruments and related equipment]; Software and interfaces for use in laboratory automation, in particular for conducting, evaluating and presenting chemical and biochemical analyses and processes; Software and interfaces for use in laboratory automation, in particular for simulations, virtual reality applications or augmented reality applications; Software and interfaces for use in laboratory automation, in particular for the purpose of operation, control, operating, user communication, presentation, verification, calibration, adjustment, maintenance, repair, in particular for automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, dispensing systems, bottle filling machines, pipetting installations, pipetting systems; Software and interfaces for use in laboratory automation, in particular laboratory apparatus, laboratory instruments, consumables, industrial production facilities, mainly with dispensing technology; Software for providing and administration of licences, in particular for software of the aforesaid areas of application and in connection with automated, semi-automated and/or robotic machines and systems, in particular dispensing machines, Dosing systems, Filling machines, pipetting installations, pipetting systems, And/or with laboratory apparatus, Laboratory instruments, Consumables, industrial

production facilities, mainly with dispensing technology.

Class(es) No(s) .:
- [511] 貨品 / 服務說明 : Class 9:  
Specification: Downloadable mobile applications for providing financial and monetary transaction services; downloadable mobile applications for providing credit card and debit card services; downloadable mobile applications for providing issuance of credit cards and debit cards; downloadable mobile applications for providing money transfer services; computer software in the form of an application for mobile devices and computers; software applications for use with mobile devices; software for processing electronic payments to and from others; computer software and software applications used in relation to financial services, financial transactions, electronic commerce, electronic payments, foreign currency exchange, trading and brokerage services and investment advisory services.  
Class 35:  
Retail services, retail store services and electronic and online shopping retail services

connected with the sale of wine, home décor, candles, scent, perfume, aromatherapy oils, room perfume, dining ware, glass ware, bedding, bar cart, vases, candle holders, cushion covers, table linen, towels, clothing, footwear and headgear, rugby jersey, marathon jersey, cycling jersey, charging cables, SIM card holders, electronic luggage scale, passport holders, wash pouches, amenity kits, luggage straps, neck cushions, travel adapters, luggage tags, combination lock, bags, trunks valises, suitcases, luggage, vanity cases (empty), baby bags, sling bags for carrying infants, backpacks for carrying babies, backpacks, duffel bags, rucksacks, satchels, camera cases (not fitted), shopping bags, wheeled shopping bags and trolleys, purses, pouches, wallets, organization pouches and wallets, key holders made of leather, card holders made of leather, cosmetic bags (not fitted), cases for manicure sets (not fitted), toiletry bags, jewellery rolls (empty), umbrellas, parasols, clothing for pets, collars and leashes for animals, key chains, charms for key chains, key rings, jewellery, precious stones, precious metals and their alloys, cuff links, tie clips, jewellery cases and boxes, boxes of precious metal, watches, chronometers, clocks, small clocks, watch boxes and cases, watch bands, toys, models, model aircraft, plastic model aircraft, inflatable toy aircraft, balls for games, games and playthings, gymnastic and sporting articles, teddy bears, playing cards; the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise Internet website or by means of telecommunications; online retail services; online retail services of consumer goods; providing information in the nature of price comparison information and comparative ratings and rankings of hotels and other accommodation; promoting the use of charge and credit card accounts of others through the administration of incentive programs; business consulting services in the field of travel and travel planning; promoting and marketing the goods and services of others via electronic communication networks; promotional services in the nature of organization, operation, management and supervision of loyalty and incentive schemes and reward programs for customers; promotion and marketing of transportation, travel and airline services; promotional information and advisory services

provided to members and to subscribers of incentive loyalty schemes and travel reward programs; promotional services provided by airlines in the nature of frequent flyer and bonus programmes for frequent air travellers, including membership privileges, loyalty recognition programmes, club membership and the supply of benefits in connection with transportation and travel; promotional loyalty scheme and frequent user incentive scheme services; management, organisation, operation and supervision of customer loyalty, incentive or promotional schemes.

Class 36:

Insurance; Insurance for travel; insurance for property; insurance for motor cars; health and critical illness insurance; life insurance; information on insurance for travel, property, motor cars, health, critical illness and life; credit, debit and stored value card services; discount card services, reward card services; credit services relating to travel; issuing and redemption of travel vouchers; exchange and redemption of credits from reward programs and from loyalty and incentive schemes; arranging discounts for travel services; arranging of discounts for members of a travel club or program; arranging of discounts for members of travel reward and/or customer loyalty programs; issuing tokens of value in relation to customer loyalty schemes; fund raising; brokerage of carbon offsets; sponsorship of carbon offset programmes; funding of and investment in emissions reduction projects; investment in carbon offset programmes and projects; investment in emissions reduction funds; issuing of payment gift vouchers; issuing of tokens of value in the nature of gift vouchers; issuing of vouchers, issuing of payment gift cards; transfer of payments for others via the internet; financial services in the nature of billing and payment processing services; electronic purchase payment and electronic bill payment services; online banking services and financial services; investments; financial evaluation [insurance, banking, real estate]; financial and asset management services; information and advisory services relating to all the foregoing.

Class 41:

Entertainment services; provision of entertainment, educational, sporting and cultural services on board aircraft including television and radio broadcasting and on-line gaming and provision of movies, audio, video

and games; sporting and cultural activities; information relating to education, entertainment, sporting and cultural events provided on-line from a computer database or the Internet or provided by other means; electronic games services provided from a computer database or by means of the Internet; video and audio rental services; radio and television entertainment services; providing on-line electronic publications; publication of electronic books and journals on-line; publication of texts in electronic format or non-electronic format; education and training services; news programming services for transmission across the Internet or on board aircraft; ticket reservation and booking services for entertainment, sporting and cultural events; electronic library services for the supply of electronic information (including archive information) in the form of electronic texts, audio and/or video information and data, games and amusements; providing digital music (not downloadable) from a computer database or the Internet; club services (entertainment or education); wine tasting services [education]; wine tasting services [entertainment]; Physical fitness instruction and educational services; sports and fitness services; provision of information on fitness training via an online portal; health club services; dietary education services.

## Class 44:

Provision of bathing facilities for hygiene purposes; hairdressing and beauty salons; healthcare services; healthcare services provided on the internet and by remote consultation; healthcare information services; mental health and wellbeing services; aromatherapy services.

[511] 貨品 / 服務說明 :  
Specification: Class 9:  
Application software, computer software,  
computer software platforms, computer programs  
for automating and accessing data and  
information and generating compliance reports  
applying artificial intelligence driven  
technology in the fields of copyright  
protection and intellectual property ("IP")  
management and activities, downloadable  
software using artificial intelligence for  
analytics-based machine learning, data  
automation, data and compliance generation and  
predictive analytics being business data  
analysis, and downloadable machine learning  
software all in the fields of copyright  
protection and intellectual property ("IP")  
management and activities; downloadable  
software for automating, developing,  
deploying, updating, and monitoring the  
performance of machine learning, data science,  
predictive analytics being business data  
analysis, data automation, and artificial  
intelligence applications all in the fields of  
copyright protection and IP management and  
activities; application software, computer  
software, computer software platforms,  
computer programs, computer apparatus and  
instruments for the input, output, collection,  
reception, transmission, search, editing,  
organizing, indexing, modifying, book marking,  
management, storage, retrieval and sharing of  
information; application software, computer  
software, computer software platforms,  
computer programs for database management;  
application software, computer software,  
computer software platforms, computer  
programs, computer apparatus and instruments  
for the uploading, posting, displaying,  
viewing, tagging, blogging, sharing or  
providing of electronic media or information,  
texts, images, graphics, audio and video  
content, for the processing, editing, storage,  
indexing and management of computer files and  
document files, for facilitating streaming,  
synchronizing, and broadcasting of data,  
images, graphics, audio material and video  
material, for facilitating the input, output,  
collection, reception, transmission, search,  
editing, organizing, indexing, modifying, book  
marking, management, storage and sharing of

data, databases and big data; CD-ROMs and optical disks featuring interactive games, motion picture films, sports and television series, game shows, variety shows, animation, and other performance; computer game software recorded on optical disks; sound recording strips; books in electronic form; music recordings; animated cartoons; computer programs; computers and computer hardware components; network communication apparatus; artificial intelligence apparatus; data processing programs; computer software for browsing and/or search of data, or enabling browsing and/or searching on a computer network or the Internet; all included in class 9.

Class 16:

Printed matter; brochures; computer software operating manuals; computer software reference and instruction manuals; computer hardware reference and instruction manuals; all included in class 16.

Class 35:

Online advertising on a computer network; sales promotion for others; commercial administration of the licensing of the goods and services of others; provision of an online marketplace for buyers and sellers of goods and services; search engine optimization for sales promotion; providing commercial information and advice for consumers in the choice of products and services; systemization of information into computer databases; updating and maintenance of data in computer databases; market research conducted using computer databases; computer data entry services; corporate management consultancy services; commercial intermediation services; provision of business statistical information; providing business information via a web site; consultancy, information and advisory services relating to the aforesaid services; all included in class 35.

Class 38:

Providing an online forum for users to discuss and exchange computer software; broadcasting services, including namely, uploading, capturing, posting, showing, playing, streaming, viewing, previewing, displaying, tagging, blogging, sharing, and/or reproducing of data, multimedia content, video, pictures, images, text, photos, games, user-generated content, audio content, and information via software application on the Internet and other communications networks downloadable on mobile, tablet computer, computer and handheld

device; broadcasting services, including namely, uploading, capturing, posting, showing, playing, streaming, viewing, previewing, displaying, tagging, blogging, Sharing, and/or reproducing of movies via software application on the Internet and other communications networks downloadable on mobile, tablet computer, computer and handheld device; sending, collection and transmission services of mail messages, data, electronic media, multimedia content, video, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via software application on the Internet and other communications networks downloadable on mobile, tablet computer, computer and handheld device; electronic communication networks services; telecommunication networks services; broadcasting, transmission and reception of video and audio information by means of cable, wire, fibre, satellite or digital signals; teletext service; video data transmission services; transmission of video and audio information via fixed telecommunications infrastructure made over a closed secure private network utilizing IP protocols; transmission of the video and audio information via any global computer network comprising interconnected networks using standard protocols, which includes without limitation to the World Wide Web and all associated telecommunication networks and technologies; transmission of the video and audio information over the Internet without a multiple system operator being involved in the control or distribution of the content ("OTT") (Over The Top); interactive telecommunication and television broadcast services, video-on-demand subscription services, subscription television broadcasting services; view data services; mobile television broadcasting services, webcasting services; Internet Protocol television broadcasting services; Internet television broadcasting services; OTT (Over The Top) television broadcasting services; providing access to non-downloadable software to enable uploading, downloading, capturing, posting, editing, playing, Streaming, viewing, previewing, displaying, tagging, blogging, sharing, manipulating, distributing, publishing and/or reproducing of data, multimedia content, video, movies, pictures, images, text, photos, games, user-generated content, audio content and information via software application on the

Internet and other communications networks; providing access to non-downloadable software to enable the provision of data, multimedia content, videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via Internet and other communications networks; providing access to enable content providers to track multimedia content; providing access to computer database on the global computer network and handheld device database on the global communications networks for searching and retrieving information, data and resources available on computer and other communications networks; consultancy, information and advisory Services in relation to the foregoing services; providing access to computer database on the global computer network for searching and retrieving information, data, websites and resources available on computer networks; preparation of reports relating to broadcasting, including viewer numbers for television programmes watched via television channels, via the official website, via streaming, simulcast, catch-up, audience awareness of the official website and mobile applications; all included in class 38.

Class 41:

Education and training services in connection with the use of computer software and computer systems; arranging and conducting conferences, courses, seminars, workshops, and webinars; services in relation to the production and distribution of television programmes including but not limited to dramas, situation comedies, variety shows, educational, infotainment and culture programmes as well as motion pictures; production and distribution of television programme services, audio visual or audio programming, television programmes, films, interactive television, interactive entertainment and competition; entertainment and infotainment provided via electronic and digital interactive media; digital video and video film production services; distribution and rental of electronic media, recording disc, audio and video compact disc, laser discs, digital video discs/digital versatile discs (DVD) and tapes containing television programmes; entertainment and education services, provision of online computer games and contest; provision of educational, entertainment, recreation and cultural information relating to education, entertainment, news, games, music, movies, drama, television programmes and performers,

celebrity, training, recreation, sporting, social and cultural activities via the Internet and other communications networks on mobile, tablet computer, computer and handheld device; providing online electronic publications (not downloadable) from the Internet and other communication networks; arranging and organizing musical, educational, sporting and cultural events, exhibitions and competitions; organizing and presentation of live and theatrical performance; arranging and conducting conferences and exhibitions; training for the aforesaid services; educational services, training and instruction services relating to copyright protection and Intellectual Property (IP) management; practical training and demonstration, arranging and organizing of conferences, seminars and training courses, all related to copyright protection and Intellectual Property (IP) management; editing, manipulating and publishing and/or reproducing of data, multimedia content, video, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via software application on the Internet and other communications networks downloadable on mobile, tablet computer, computer and handheld device; distribution of movies via software application on the Internet and other communications networks downloadable on mobile, tablet computer, computer and handheld device; publishing business information, including sales network of products in the movie, TV industry, music industry publication industry; all included in class 41.

Class 42:

Computer software consultancy; design and development of computer software and hardware; installation, maintenance and updating of computer software; computer system design and consultancy related thereto; software customization services; computer software technical support services; information technology support services; software as a service (SaaS); software as a service (SaaS) in the field of artificial intelligence; design and development of artificial intelligence computer software and hardware; research, design, development, maintenance, updating and consultancy services of computer systems and software for copyright protection and Intellectual Property (IP) management, namely, providing software for the input, output, collection, reception, transmission, search, editing, organizing, indexing,

modifying, book marking, management, storage, retrieval and sharing of information in the field of copyright protection and Intellectual Property (IP) management; designing, creating and maintaining websites; hosting computer sites (web sites); computer services provided on-line, by interactive means or via the Internet; providing search engines for the internet; computer programming; computer system software services; conversion of data or documents from physical to electronic media; computer development services for Intranet and web-based portals; software development in the framework of software publishing; scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; analysis and information collection based on machine learning and artificial intelligence to enable copyright protection and IP management and activities; software as a service (SaaS) services featuring software for automating and accessing data and information and generating reports applying artificial intelligence driven technology in the fields of copyright protection and Intellectual Property (IP) management; providing temporary use of online non-downloadable software using artificial intelligence for analytics-based machine learning, data automation, data and compliance generation and predictive analytics being business data analysis, and online, non-downloadable machine learning software all in the fields of copyright protection and Intellectual Property (IP) management; software as a service (SaaS) featuring software for automating, developing, deploying, updating, and monitoring the performance of machine learning, data science, predictive analytics being business data analysis, data automation, and artificial intelligence applications all in the fields of copyright protection and Intellectual Property (IP) management; all included in class 42.

Class 45:

Licensing of intellectual property rights; management and exploitation of copyright and industrial property rights by licensing for others; licensing of software; copyright management, agency services for patent, designs and trademarks, establishment, management and maintenance of intellectual property rights, professional consultations relating to intellectual property rights,

licensing of intellectual property rights, patent exploitation, protection and exploitation of copyright, professional consultations, information and advisory services relating to all the aforesaid services; all included in Class 45.

Specification:

Class 9:

Apparatus for speech recording and replaying;  
Apparatus for the recording, transmission and  
reproduction of sound and images; Augmented  
reality software for use in mobile devices for  
integrating electronic data with real world  
environments for the purpose of locating  
objects, humans, animals, vehicles, creating  
maps, floor plans, navigating; Computer game  
software for use on mobile and cellular  
phones; Computer hardware and computer  
peripherals; Computer hardware and software  
used for the control of voice controlled  
information and communication devices;  
Computer software platforms for identifying,  
classifying and counting of images, texts,  
objects and patterns, for data collection, for  
compiling, processing and editing statistical  
data, for generating reports with the data and  
outputting and managing the reports, for  
accessing, browsing and searching online  
databases, for management of personal  
information and databases, for big data  
analysis, for storing, aggregating,  
controlling, managing and retrieving data from  
large data sets, for the collection,

identification, retrieving, editing, caching, processing, analysis, organizing, structuring, modifying, indexing, formatting, book marking, transmission, storage, management, sharing and access control of data and information, for voice, speech, gesture and command recognition, for conversion of voice, speech and gesture to text, for sending, receiving and backup of digital data, for processing voice, speech and commands and creating responses in the form of text or audio files, for making, recording, analyzing, storing and retrieving measurements of distance, slope, speed, for navigation, for displaying maps and traffic information; Computer software for creating searchable databases of information and data; Computer software for wireless content delivery; Computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Computer software for identifying, classifying and counting of images, texts, objects and patterns, for data collection, for compiling, processing and editing statistical data, for generating reports with the data and outputting and managing the reports, for accessing, browsing and searching online databases, for management of personal information and databases, for big data analysis, for storing, aggregating, controlling, managing and retrieving data from large data sets, for the collection, identification, retrieving, editing, caching, processing, analysis, organizing, structuring, modifying, indexing, formatting, book marking, transmission, storage, management, sharing and access control of data and information, for voice, speech, gesture and command recognition, for conversion of voice, speech and gesture to text, for sending, receiving and backup of digital data, for processing voice, speech and commands and creating responses in the form of text or audio files, for making, recording, analyzing, storing and retrieving measurements of distance, slope, speed, for navigation, for displaying maps and traffic information; Data processing apparatus; Downloadable electronic publications in the nature of electronic magazines, electronic periodicals, electronic books, electronic newsletters in the field of entertainment, sports, culture, office administration, business services, education, information technology, transportation, daily living and career development; Downloadable

software in the nature of a mobile application for identifying, classifying and counting of images, texts, objects and patterns, for data collection, for compiling, processing and editing statistical data, for generating reports with the data and outputting and managing the reports, for accessing, browsing and searching online databases, for management of personal information and databases, for big data analysis, for storing, aggregating, controlling, managing and retrieving data from large data sets, for the collection, identification, retrieving, editing, caching, processing, analysis, organizing, structuring, modifying, indexing, formatting, book marking, transmission, storage, management, sharing and access control of data and information, for voice, speech, gesture and command recognition, for conversion of voice, speech and gesture to text, for sending, receiving and backup of digital data, for processing voice, speech and commands and creating responses in the form of text or audio files, for making, recording, analyzing, storing and retrieving measurements of distance, slope, speed, for navigation, for displaying maps and traffic information; Downloadable multimedia file containing audio and video recordings, graphics, music, movies, electronic games, and e-books relating to big data analysis via the internet and wireless devices; Electronic book reader; Global positioning system (GPS); Humanoid robots with artificial intelligence; Mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; Wireless adapters used to link computers to a telecommunications network.
