接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

Elevators; Platform lifts; Lifting platforms for persons; Electric motors for elevator doors; Electric door openers for automatic lift doors; Stair lifts; Home lifts; Mechanical escalators; Mechanical moving walkways; Structural parts of elevators, platform lifts, lifting platforms for persons, stair lifts, home lifts, mechanical escalators, mechanical moving walkways.

Class 9:
Apparatus for recording, transmission and reproduction of sound and images; Computers; Interactive controls and remote controls for the control, signal distribution, monitoring and visualisation of technological infrastructure; Electrical and electronic devices for recording visitor streams; Electronic control systems for access authorization; Electrical, electronic and electro-optical sensors; Sensors for controlling motors; Sensors for system control; Motion detectors; Card readers; Chip card management systems mainly consisting of identification cards (magnetic) and readers (data processing); Virtual reality glasses; Augmented reality glasses; All the aforementioned goods relating to elevators, platform lifts, passenger lifts, stair lifts, home lifts, mechanical escalators, mechanical moving walkways, passenger boarding bridges, visual docking guidance systems for airports and aircraft ground support equipment connectable to passenger boarding bridges; Computer software and mobile applications for the control, maintenance, monitoring and optimisation of utilisation, monitoring of

safety functions and detection and reporting of hazardous situations in relation to elevators, platform lifts, lifting platforms for people, stair lifts, home lifts, mechanical escalators, mechanical moving walks, passenger boarding bridges; Computer software and mobile apps for the processing and evaluation of messages in the field of time recording, identification of persons, building automation, lighting control, climate control in relation to elevators, platform lifts, lifting platforms for persons, mechanical escalators, mechanical moving walks, passenger boarding bridges; Computer software and mobile apps for telecommunications services, namely the transmission of voice, data, graphics, sound and video via broadband and wireless networks for elevator monitoring and control, for the provision of information and entertainment in elevator cabins and for enabling emergency calls from elevator cabins; Computer software and mobile apps relating to elevators, platform lifts, passenger lifts, stair lifts, home lifts, mechanical escalators, mechanical moving walkways, passenger boarding bridges and aircraft ground support equipment connectable to passenger boarding bridges; Visual docking Guidance systems [visual devices and software] for airports; computer software and mobile apps to control and maintain visual docking guidance systems for airports; computer software and mobile apps to control and maintain aircraft ground support equipment connectable to passenger boarding bridges.

Class 11:

Air generating equipment; Ventilation and air-conditioning equipment and systems, water supply systems; all the aforementioned goods connectable to passenger boarding bridges and for supporting aircrafts on the ground.

Class 37:

Construction of elevators, platform lifts, passenger lifts, automatic elevator doors, stair lifts, home lifts, mechanical escalators, mechanical moving walkways, passenger boarding bridges; Installation of elevators, platform lifts, passenger lifts, automatic elevator doors, stair lifts, home lifts, mechanical escalators, mechanical moving walkways, passenger boarding bridges; Repair, maintenance and modernization (renovation) of elevators, platform lifts, passenger lifts, automatic elevator doors, stair lifts, home lifts, mechanical

escalators, mechanical moving walkways,
passenger boarding bridges.

Class 42:

Scientific and technological services,
research and related design services and
industrial analysis, industrial research and
industrial designer services; Quality control
and authentication services; Engineering
consultancy; Technological consultancy
services; Consultancy services related to
construction design; Engineering design and
consultancy; Computer software design and
development; Mobile app design and
development; Consultancy services related to
computer systems; Computer software
consultancy services; Mobile app consultancy

Specification: Metal strapping; metal rails; lock casings of metal; collars of metal for fastening pipes; pillars of metal; lock parts of metal; roof components of metal; facade construction components of metal; building materials of metal; metal components for doors; fabricated metal components for building foundations; ducting conduits (non-electric -) of metal; road cones [non-mechanical, non-luminous of metal]; containers of metal [storage, transport]; container of metal for the storage and transportation of goods; metal binding strips used on packaging; metal ceiling panels; access covers (metal -); metal roofing; ropes of metal; hand railings of metal; buildings of metal; nuts, bolts and fasteners, of metal; dispensers, of metal; window openers, non-electric; sash balances of metal for windows; retaining [fixing] devices

of metal; fixing devices of metal; window protection devices of metal; door holding devices of metal; door openers, non-electric; blind pulls of metal; sleeping policemen [fixed] (metal -); road humps [portable] of metal for slowing traffic; spacers of metal; metal speed bumps; road humps of metal for slowing traffic; ties of metal for binding; metal sash locks; metal hardware; wire of common metal; fittings of metal for windows; dome shaped skylight windows (metal -); skylights (windows) of metal for use in buildings; jalousies of metal; metal window frames; armoured windows having metal frames; aluminium windows; windows of metal; casement windows of metal; sheet metal; metal hooks; metal bleachers; stair treads [steps] of metal; grilles of metal; metallic gutters; eaves of metal; guard rails of metal; door fittings, of metal; drawer sliders of metal; crash barriers of metal for roads; sliding rails of metal; scaffolding of metal; window glazing fixtures made of metal; interior metal shutters; shutters of metal; entrances of metal; ceiling installations (metal -); bicycle parking installations of metal; frameworks of metal; soffits (metal -); casings of metal; alloys of metal; padlocks; roof windows of metal; metal handles; clevises of metal; metal window cranks; metal valances; pavements made of metal; building and construction materials and elements of metal; unprocessed and semi-processed materials of metal; welding and soldering materials; common metals and their alloys; common metals, unwrought or semi-wrought; ores of metal; metal mouldings; metal springs; uprights of metal; metal clamps; walls of metal; flat bolts; tent poles of metal; posts of metal; metal panels; metal flooring; metal pegs; metallic slatted shutters; tiles of metal for building; access platforms [scaffolding] of metal; identity plates of metal; platforms of metal; knobs of metal; metal bicycle storage racks; doors, gates, windows and window coverings of metal; shaped metal sections; pulleys [metal hardware]; stays of metal; metal stanchions; metal joists; ramps of metal; nets of metal; metal door trim; metal cladding; washers of metal; metal casters; rollers (metal -) for sliding windows; runners of metal for sliding doors; latches of metal; shutter doors of metal; bars for metal railings; key blanks of metal; ladders and scaffolding, of metal; signs, non-luminous and non-mechanical, of metal; door handles of

metal; metal roll shutters; locks and keys, of metal; metal door viewers [non-magnified]; door flaps of metal; letter-box flaps of metal; framework of metal for building; pantiles of metal; outdoor blinds of metal; partitions of metal; lintels of metal; pipes, tubes and hoses, and fittings therefor, including valves, of metal; screws of metal; insect screens of metal; skirting boards of metal; chains of metal; sash pulleys, not of metal; padlocks, not of metal.

Class 7:

Feeders for machines; alternators; electronic door openers; lifts, other than ski-lifts; linear actuators; reeling apparatus, mechanical; packing machines; anti-shock pads [parts of machines]; reels [parts of machines]; chains, being engine timing components; roller chains being parts of machines; link chains for driving purposes [other than for land vehicles]; driving chains other than for land vehicles; power transmission chains; conveying chains; door closers, electric; belts for conveyors; manifolds [parts of machines]; manifolds [parts of engines]; control mechanisms for machines, engines or motors; elevator operating apparatus; electric ignition devices [other than for igniting at a distance]; window openers, electric; door openers, electric; curtain drawing devices, electrically operated; window closers, electric; door closers, hydraulic; hydraulic door openers; window openers, hydraulic; window closers, hydraulic; hydraulic door openers and closers [parts of machines]; pneumatic door openers; door closers, pneumatic; window closers, pneumatic; window openers, pneumatic; pneumatic door openers and closers [parts of machines]; elevators [lifts]; generators; current generators; machine couplings and transmissions, except for land vehicles; gear assemblies, other than for land vehicles; electrical generator groups; generating plant; gears for machines; injectors for engines; indexing drives; joining machines; metalworking machines; machines, tools and apparatus for fastening and joining; opening and closing mechanisms; drive mechanisms; transmission control mechanisms; shovels, mechanical; journals [parts of machines]; butterfly shutters; loading ramps; lifting platforms; roller bridges; elevator doors; pulleys; machine wheels; toothed wheels for driving chains; spur wheels [parts of machines]; gear wheels

for machines; moving staircases [escalators]; splines (sliding -) [parts of machines]; splines (square -) [parts of machines]; screening rollers [parts of machines]; power looms; twisting frames being textile machines; automatic looms; power transmissions and gearing for machines [not for land vehicles]; electric drives for elevators; mechanical transmissions [other than for land vehicles]; valves; turbocompressors; cylinder heads for engines; automatic door apparatus [electric]; electronic door closing system; electric motors for use with doors; drives for elevator cabin doors; gear motors other than for land vehicles; pistons [parts of machines or engines]; belts for motors and engines, elevator motors; anti-pollution devices for motors and engines; driving devices for machines; mobile stairs [motorised]; motors, other than for land vehicles.

Class 9:

Electrical distributing busbars; emergency light bars for vehicles; automatic security barriers; batteries; bio-sensors; multi-outlet socket blocks; connection blocks [electric cable]; contact blocks (electric -); electrical power distribution blocks; gauge blocks; marker buoys; marking and signalling buoys; signaling buoys; beacons, luminous; electronically encoded identity wristbands; encoded identification bracelets, magnetic; smart bracelets; cable harnesses; calculators; calibrating apparatus; calorimeters; signal bells; bells [warning devices]; electric door bells; metal bells for alarms; battery chargers; chargers; electronic paper (display devices); encoded key cards; smart cards [integrated circuit cards]; illuminated signs; sign boards [mechanical]; road signs [luminous]; road signs [mechanical]; electronic tags; loudspeakers; cabinets for loudspeakers; speakers for computers; surveying chains; adapter cables (electric -); fiber optic cables; audio cable; jump leads; power cables; ignition cables; electric cables and wires; signal cables for IT, AV and telecommunication; photovoltaic cells; alarm central units; switchboards; pagers; keys (encoded -); electronic key cards; USB flash drives; chips [integrated circuits]; electronic chips; buzzers; safety restraints, other than for vehicle seats and sports equipment; analogue circuits; electrical circuits and circuit boards; intercoms; encryption apparatus; electric couplings; current collectors; road signs, luminous or

mechanical; radio operated door lock controls; electrical controls; thermostat controllers; commutators; computer components and parts; electric and electronic components; computers and computer hardware; condensers [capacitors]; ducts [electricity]; electromagnetic conduits; highway safety cones; traffic cones; portable road hazard warning cones [luminous]; portable road hazard warning cones [mechanical]; connectors [electricity]; optical connectors; radar connectors; telephone connectors; counters; contacts, electric; controllers (regulators); current convertors; covers for electric outlets; electronic databases recorded on computer media; recorded data [magnetic]; data recorded electronically; high definition set-top boxes; decoders; diaphragms [acoustics]; digitisers; diodes; active matrix displays; displays for smartphones; radar displays; audio devices and radio receivers; audio/visual and photographic devices; display devices, television receivers and film and video devices; multiport controllers; electric fence controllers; video monitor controllers; automated car parking control devices; wireless controllers to remotely monitor and control the function and status of security systems; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; wireless communication devices for voice, data, or image transmission; video devices for access door control; navigation, guidance, tracking, targeting and map making devices; safety, security, protection and signalling devices; optical devices, enhancers and correctors; testing and quality control devices; image capturing and developing devices; electronic docking stations; electrodes; electromagnets; luminous safety beacons; fiber optics; generators (signal -); reflective safety vests; wall lights (fittings for -) [switches]; illuminometers; theft prevention installations, electric; electronic communication installations; switchgear [electric]; electrical access control apparatus; signals, luminous or mechanical; electric and electronic video surveillance installations; indicator lights [for telecommunication apparatus]; digital signs; electric signs; telephone intercom apparatus; switches, electric; pressure switches; sensor switches; time switches, automatic; circuit closers; light switches; electric circuit

interrupters; current breakers; domestic switches [electric]; circuit breakers; hands free kits for phones; lamps for use as warning beacons; warning lamps [beacons]; road warning lanterns; signalling lamps; beacon lamps; optical lamps; road warning lamps; flashing lights [luminous signals]; signal lanterns; lasers; locks (electric) for bicycles; neon lights [signals]; emergency warning lights; warning lights [flashing beacons]; warning lamps for vehicles; traffic-light apparatus [signalling devices]; flashing safety lights; rotating lights [signalling]; metal detectors; microchips; microphones; monitors; terminals [electricity]; masts for aerials; liquid crystal display screens; fibre optic panels; touch panels; digital signage display panels; switch panels [electric]; plugboards; indication panels; electronic display panels; electronic indicator boards; modular sign panels [luminous]; control panels [electricity]; vehicle parking meters; sockets, plugs and other contacts [electric connections]; electrical sockets; push buttons for bells; panic buttons; microphone buttons; multi-function touch buttons; push button panels (electrical -); aiming telescopes; alarm panels; electrical control boards; connection boards [electric]; distribution boards [electricity]; annunciators; illumination regulators; light dimmers [regulators], electric; voltage regulators for electric power; heat regulating apparatus; energy regulators; screens; motion sensor; optical fibre sensors; infrared sensors; ultrasonic sensors; on-off sensors; microwave type intruder sensors; ultrasonic wave type intruder sensors; fire sensors; smoke detectors; motion sensors; sensors and detectors; mechanical dialling locks [electric]; combination locks (metal -) [electric]; combination locks (non-metallic -) [electric]; digital door locks; electric locks; card operated electronic locks; locks [electric] with alarms; electric locks for vehicles; motor vehicle power locks; electronic locks; electronic door locks; metal locks [electric]; mechanical locks [electric, metal]; mechanical locks [electric, non-metallic]; fingerprint door locks; sirens; alarm systems; biometric access control systems; biometric identification systems; biometric voice recognition systems; loudspeaker systems; home cinema systems; access control systems (automatic -); access control systems (electric -); electronic

control systems; voice processing systems; electronic security systems for home network; video surveillance systems; electronic access control system for buildings; electronic entry systems; luminous indicators; scientific research and laboratory apparatus, educational apparatus and simulators; measuring, detecting and monitoring instruments, indicators and controllers; closed circuit television cameras; teleprompters; infrared cameras; motion-activated cameras; rapid scan cameras; security cameras; video cameras adapted for monitoring purposes; remote controls; access control units (automatic -); monitoring units [electric]; camcorders; video telephones; electronic notice boards; video screens; video transmitters; speakerphones; webcams; fluorescent lamp ballast for electric lights; batteries for lighting; accumulators, electric; power adapters; electrical adapters; plug adaptors; electronic power supplies; electronic ballasts for operating discharge lamps; remote alarms [other than anti-theft for vehicles]; sound alarms, other than for vehicles; electric alarms for smoke; burglar alarms; anti-theft alarms [other than for vehicles]; electrical and electronic burglar alarms; electronic burglar alarms; electric alarms for fire; fire alarms in the shape of Christmas tree ornaments; warning alarms [other than for vehicles]; security alarms; safety alarms [other than for vehicles]; baby alarms; electric alarms; gas alarms; alarms for the detection of inflammable gases; personal security alarms; personal alarms; amplifiers; aerial amplifiers; electrical amplifiers; optical enhancers; antennas; antennas and aerials as components; antennas and aerials as communications apparatus; audiovisual apparatus; anti-theft alarm apparatus [other than for vehicles]; security warning apparatus; stereo amplifying apparatus; video amplifying apparatus; electric control apparatus; communications apparatus; automatic control apparatus; access security apparatus (automatic -); projection apparatus; signalling apparatus; infrared remote control apparatus; remote control apparatus for opening and closing doors; remote control apparatus for opening and closing vehicle doors; remote control apparatus for controlling lighting; programmable telecommunication apparatus; fibre optic telecommunications apparatus; telecommunication apparatus; broadcasting equipment; apparatus for the transmission of

images; apparatus and instruments for controlling electricity; data processing equipment and accessories (electrical and mechanical); electrical remote control apparatus; monitoring apparatus, electric; electronic surveillance apparatus; global positioning system [GPS] apparatus; temperature indicators; warning indicating apparatus [other than for vehicles]; computer apparatus for remote meter reading; infrared optical apparatus; traffic guidance apparatus [mechanical]; traffic guidance apparatus [luminous sign]; traffic guidance apparatus [electronic]; remote entry point control apparatus; temperature control apparatus [thermostats] for machines; temperature control apparatus [thermostats] for vehicles; remote control apparatus; access security apparatus (electric -); sound transmitting apparatus; video conferencing apparatus; radios; radio receivers; radiotelegraphy sets; gas detecting apparatus; satellite apparatus; apparatus, instruments and cables for electricity; telephone apparatus; remote control telemetering apparatus; video intercom apparatus; point-to-point communications equipment; computer networking and data communications equipment; communications equipment; lighting control apparatus; mobile apps; gauge rods; alarms and warning equipment: information technology and audiovisual equipment; electronic controls for motors.

Class 19:

Barricades for highways (non-metallic -); barricades, not of metal; non-metal barriers for pedestrian traffic control; crash barriers, not of metal, for roads; hazard warning barriers [non-metallic, fixed structures]; fences, not of metal; non-metal exterior blinds; non-metal window frames; non-metal parking curbs; door frames, not of metal; pillars (non-metallic -); bollards (fixed, non-metallic, non-luminous and non-mechanical -), for roads; concrete bollards; bollards of natural stone; non-metal window sills; delineators [fixed road cones] made of non-metallic materials; road traffic direction devices [non-metallic, non-mechanical, non-luminous]; road humps (non-metallic -) for slowing traffic; road humps (non-metallic -) [portable] for slowing traffic; spacers being building elements made of fibre reinforced cement; non-metal speed bumps; prefabricated building elements (non-metallic -) for on site assembly; prefabricated building components

(non-metallic -); non-metal windows; prefabricated garages, not of metal; tree grilles (non-metallic -); external shutters (non-metallic -) for windows; interior non-metal window shutters; shutters, not of metal; double glazing units (non-metallic -); plastic window frames; signs made of plastics [non-luminous and non-mechanical]; signs, non-luminous and non-mechanical, not of metal, for roads; portable signs [non-luminous, non-mechanical, non-metallic] for roads; portable non-metal levees; building materials, not of metal; fencing materials (non-metallic -); non-metal window jambs; fence posts of non-metallic materials; signposts (non-metallic -); glass panels for doors; signalling panels, non-luminous and non-mechanical, not of metal; fencing panels (non-metallic -); door panels, not of metal; modular sign panels of non-metallic materials [non-luminous, non-mechanical]; building panels, not of metal; traffic information panels (non-metallic -) [non-luminous, non-mechanical]; porches, not of metal, for building; slatted shutters (non-metallic -) [outdoor]; pergolas (non-metallic -); security shutters of non-metallic materials; louvre vents (non-metallic -) for buildings; shutters made of non-metallic materials; bollards of artificial stone; revolving doors not of metal; outer doors, not of metal; glass doors; safety doors, not of metal; patio doors [non-metallic frame]; doors, gates, windows and window coverings, not of metal; armored doors, not of metal; folding doors, not of metal; roller doors (non-metallic -) having insulating properties; frames (non-metallic -) for glazed doors; mirror doors; lift-up doors, non-metallic; wooden doors; doors made of plastic for buildings; doors made of glass for buildings; vinyl doors; inner doors, not of metal; insulating doors of non-metallic materials; doors, not of metal; doors (non-metallic -) for use in garages; vertically raisable rolling doors [non-metallic]; sliding doors, not of metal; tiltable doors (non-metallic -) for buildings; transparent doors of glass for buildings; transparent doors (non-metallic -) for buildings; screen doors, not of metal; vinyl patio doors; ramps being structures of non-metallic materials; non-metal window screens; non-luminous and non-mechanical signs, not of metal; roller shutters (non-metallic -); shuttering made of wood; shutter grilles (non-metallic -); portable non-metal traffic barriers; roller blinds for external

use [not of metal or textile]; frames (non-metallic -) for verandas; roller blinds of wood for external use; roller shades [outdoor] of plastic; turnstiles, not of metal; porticos (non-metallic -); stained-glass windows; window glass; preformed building sections (non-metallic -); road signs of non-metallic materials [non-mechanical, non-luminous]; jalousies, not of metal; bicycle parking installations, not of metal; gratings (non-metallic -); structural elements (non-metallic -) for use in building; movable partitions [walls] of non-metallic materials; space dividers [structures], not of metal; boards made of wood particles; timber panels; plywood board.

Class 20:

Fasteners, not of metal, for doors; street furniture, not of metal; lock barrels, not of metal; square set screws of non-metallic materials; wood screws (non-metallic -); self-tapping non-metallic screws; threaded screws of plastic; set screws, not of metal; binding screws, not of metal, for cables; screw nails not of metal; self-tapping non-metallic bolts; socket head shoulder screws, not of metal; holders for use in the securing of window coverings; cable fasteners, connectors and holders; molds of plaster for casting ceramic materials; self-tapping non-metallic plugs; seats of metal; beam supported seating; pulleys of plastics for blinds; benches [furniture]; benches for sports fields; golf course benches; clamps (non-metallic -) for fixing doors; clamps (non-metallic -) for fixing blinds; outdoor furniture; furniture; wooden furniture; mechanisms (non-metallic, non-electric -) for lifting doors; mechanisms (non-metallic, non-electric -) for lifting windows; mechanisms (non-metallic, non-electric -) for opening doors; mechanisms (non-metallic, non-electric -) for opening windows; mechanisms (non-metallic, non-electric -) for locking doors; mechanisms (non-metallic, non-electric -) for locking windows; mechanisms (non-metallic, non-electric -) for rolling windows; window handles (non-metallic -); support rods for curtains; window fittings, not of metal; curtain runners; safety hooks, not of metal; bundle clips of non-metallic materials; cable grips of non-metallic materials; pipe clamps of plastics; furniture for doors [non-metallic]; turn-button fasteners (non-metallic -); non-metallic fasteners for cables; fasteners, non-metallic; non-metallic

fasteners for pipes; concealed fastening devices of non-metallic materials; threaded fasteners made of plastic; architectural fasteners of non-metallic materials; blind bolt fasteners of non-metallic materials; corner cap components, not of metal; connecting elements (non-metallic -) for furniture; door fasteners, not of metal; window fasteners, not of metal; curtain drawing devices, other than electrically operated; window closing devices (non-electric -) of non-metallic materials; curtain suspension devices; window glazing fixtures (non-metallic -); screw threaded fasteners, not of metal; door closers (non-electric -) of non-metallic materials; catches (furniture -), not of metal; window fasteners (non-metallic -); closers (non-electric, non-metallic -) for windows; closers (non-electric, non-metallic -) for doors; combined closures for containers [non-metallic and not for household or kitchen use]; safety locking devices [not of metal, non-electric]; cremone bolts of non-metallic materials for locks; cremone bolts, not of metal for windows; plugs [dowels], not of metal; non-metal recycling bins for commercial use; containers, not of metal [storage, transport]; containers (non-metallic -) in the form of bins; slatted blind connectors; cable connectors (non-electric -) of non-metallic materials; fasteners; sprigs [dowel pins], not of metal; nails, not of metal; pitons, not of metal; fixing nails, not of metal; window casement bolts (non-metallic -); non-metal door bolts; keys (non-metallic -) for opening locks; baskets, non-metallic; bolts, not of metal; shackle bolts, not of metal; screw bolts, not of metal; fixing bolts, not of metal; toggle bolts (non-metallic -); non-metallic tracks for sliding doors; metal bench seats; hinges, not of metal; metal venetian blinds [external].

Class 35:

Advertising and marketing; business administration; sales administration; demonstration of goods; marketing; arranging of trade fairs; organization of exhibitions for commercial or advertising purposes; presentation of goods on communication media, for retail purposes; marketing studies; retail services in relation to heating equipment; retail services in relation to lighting; retail services in relation to metal hardware; retail services in relation to wall coverings; retail services in relation to floor coverings; retail services in relation to

audio-visual equipment; wholesale services in relation to lighting; wholesale services in relation to heating equipment; wholesale services in relation to metal hardware; wholesale services in relation to wall coverings; wholesale services in relation to floor coverings; wholesale services in relation to audio-visual equipment; retail services in relation to building materials; advertising, marketing and promotional services.

Class 37:

Telecommunication wiring; construction services; building, construction and demolition; HVAC (heating, ventilation and air conditioning) installation, maintenance and repair; installation of security and safety equipment; installation of data network apparatus; installation of door fittings; installation of burglar alarms; fire alarm installation; installation of wireless telecommunications equipment and wireless local area networks; electric appliance installation and repair; installation of residential security apparatus; installation of radio telephone equipment; installation of lighting apparatus; installation of street furniture; installation of temporary barriers; installation of theft prevention devices; installation of plant; installation of door openers and closers; installation of doors and windows; installation of locks; installation lighting systems; installation of computerised information systems; installation of security systems; installation of solar powered systems; installation access control systems; installation of tents; installation of window frames; installation of glass in conservatories, windows, doors and greenhouses; burglar alarm installation and repair; venetian blind installation and repair; computer hardware and telecommunication apparatus installation, maintenance and repair; alarm, lock and safe installation, maintenance and repair; lift and elevator installation, maintenance and repair; maintenance of electronic apparatus; maintenance of communications equipment; window maintenance; plant maintenance; maintenance of fire alarm installations; maintenance, servicing and repair of power generating apparatus and installations; renovation, repair and maintenance of electrical wiring; repair of alarms; repair of electronic apparatus; repair of lighting apparatus; window repair; repair of curtains;

repair and insulation of window joints; maintenance and repair of electricity generators; maintenance and repair of electronic installations; maintenance and repair of electronic apparatus; maintenance and repair of electronic display panels; maintenance and repair of gas and electricity installations; repair or maintenance of power generators; repair or maintenance of electric lighting apparatus; repair or maintenance of power distribution or control machines and apparatus; repair or maintenance of electronic machines and apparatus; curtain fitting services; electrical installation services; maintenance and repair services relating to door closers; maintenance and repair services relating to automatic door equipment; maintenance and repair services relating to automatic barriers; repair of security locks; sign posting services; services for the installation of alarms; glazing, installation, maintenance and repair of glass, windows and blinds; antenna installation and repair; maintenance and servicing of security alarms; repair or maintenance of mechanical parking systems; repair or maintenance of bicycle parking apparatus.

Class 38:

Providing on-line chat rooms for transmission of messages among computer users; providing chat lines utilising the internet; radio-paging services; voice-activated dialing services; provision of electronic video links; providing telecommunications connections to a global computer network; communications by fiber optic networks; computer communication and internet access; provision of on-line communications services; teleconferencing services; providing voice communication services over the internet; providing voice chat services; providing virtual private network (VPN) services; providing videoconferencing facilities; electronic transmission of mail and messages; communications services; network conferencing services; wireless broadcasting; podcasting; communication services by radio; telecommunication services; broadcasting services; data transmission; message sending; music broadcasting; transmission of sound, picture and data signals; transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the internet; communications services provided over the internet; telecommunication services provided

via internet platforms and portals; providing access to platforms and portals on the internet; telecommunication services provided via platforms and portals on the internet and other media; arranging access to databases on the internet; providing telecommunications connections to databases; provision of telecommunications access to databases and the internet.

Class 41:

Arranging of presentations for cultural purposes; cultural activities; training; arrangement of conferences for educational purposes; conducting courses, seminars and workshops; conducting of seminars and congresses; education and instruction; tuition; organising of entertainment; organisation of teaching activities; organising of sporting activities and of sporting competitions; arranging of award ceremonies; arranging of contests; organization of competitions; arranging of lectures; organisation of conferences, exhibitions and competitions; production of course material distributed at professional lectures; production of course material distributed at management seminars; production of course material distributed at professional seminars; production of course material distributed at management courses; publishing services for books and magazines; publication of manuals; tutoring.

Class 42:

Information technology support services; electronic storage of files and documents; testing, authentication and quality control; configuring computer hardware using software; configuration of computer software; engineering consultancy relating to testing; it consultancy, advisory and information services; quality control; quality checking and testing; inspection of plant and machinery; technical supervision and inspection; creation of control programs for electric operation control and drive modules; software creation; creation of computer programmes for data processing; creating, maintaining, and modernizing computer software; software design and development; design and development of computer hardware; writing of control programs; providing virtual computer environments through cloud computing; providing information about the design and development of computer software, systems and networks; provision of engineering reports; providing virtual computer systems through

cloud computing; providing temporary use of non-downloadable business software; hosting memory space on the internet; hosting of computerized data, files, applications and information; installation, repair and maintenance of computer software; machine condition monitoring; monitoring of audio warning signals; monitoring of telecommunication signals; technical planning and technical project management for the development of lighting equipment; technical planning and consulting in the field of light engineering; design of mechanical, electromechanical and optoelectronic apparatus and instruments; design of office automation equipment; design of information systems relating to management; design of lighting systems; designing of electronic systems; design of telecommunications apparatus and equipment; designing computer software for controlling self-service terminals; design and development of operating software for accessing and using a cloud computing network; design and development of virtual reality software; design and development of computer software for reading, transmitting and organising data; design services relating to the creation of networks; programming of electronic control systems; programming of operating software for accessing and using a cloud computing network; conducting of quality control tests; design of instruments; computer design research; research in the field of computer hardware; research relating to the computerised automation of technical processes; technical research relating to automatic identification systems; computer software research; research relating to the development of computer hardware; research relating to the development of computer software; technical data analysis services; computer software technical support services; safety technological testing services; technical testing services; expert consultancy services in connection with computing equipment; consultancy and information services relating to the design, programming and maintenance of computer software; expert consultancy services in connection with computing networks; computer systems integration services; electronic data storage and data back-up services; testing services for the certification of quality or standards; it programming services; engineering services for the design of machinery; engineering services relating to the design of

communications systems; engineering services relating to the design of electronic systems; technological services relating to computers; development of measuring and testing methods; development of testing methods; development of hardware for multimedia data storing and recalling; development of computer programs recorded on data media (software) designed for use in construction and automated manufacturing (cad/cam); product testing; product quality control testing; conformance testing services; software development, programming and implementation; testing, analysis and monitoring of telecommunication signals; cloud computing; consulting in the field of cloud computing networks and applications; rental of operating software for accessing and using a cloud computing network; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network.

Class 45:

Legal administration of licences; opening of security locks; opening of door locks; opening of locks [locksmiths' services]; licensing of patents; licensing of industrial property rights and copyright; licensing of databases; granting of licences to others for the use of industrial property rights and copyright; licensing of technology; licensing of intellectual property; monitoring of burglar and security alarms.

Class 9:

Application-specific integrated circuits (ASICs); Electronic components for device integration of application specific integrated circuit (ASIC) and system-on-a-chip (SOC); Application-specific integrated circuits (ASICs) for critical infrastructure sectors; Application-specific integrated circuits (ASICs) for product functional safety and quality assessment; Integrated circuit cards and components; Integrated circuit modules; RISC (reduced instruction set computer)-based instruction set architectures, namely, computer hardware and semiconductor hardware featuring software instructions designed to function with particular microprocessors; instruction set architectures, namely, computer hardware and semiconductor hardware featuring software instructions designed to function with particular microprocessors; Electrical and electronic components, namely, semiconductors, electronic circuits, microcircuits, microcontrollers, memory circuits for system-on-chip devices; instruments and equipment namely, electronic components for designing, testing and manufacture of system-on-chip devices; downloadable computer software that provides information for use as an aid in testing the functional correctness of the design of semiconductors and computer systems; downloadable software used at each stage of production of a very large scale integration hardware design to detect errors in the design and provide an objective measurement of how well the design has been tested; non-recorded memory cards and downloadable software for the design, production and use of integrated circuits; computers; labels containing electronic records or encoded information; radio frequency identification (RFID) labels; calculators; postmark checking devices (electronic); currency detectors; holograms; facial recognition equipment; blueprint equipment; precision balances; dial indicators; mechanical signs; internal communication devices; microphones; cameras (photography); surveying and mapping instruments; nautical equipment and instruments; speedometers for vehicles; pressure measuring instruments; biochips; circuit testers; industrial electronic induction accelerators; optical glass; telecommunications cables; semiconductors; wafers for integrated circuits; chips (integrated circuits); electric conductors;

collectors, electric; electronic numeric displays; electronic key fobs being remote control apparatus; optical fibers (light conducting filaments); electric apparatus for commutation; lightning conductors; electrolysers; radiological apparatus for industrial purposes; safety goggles; alarms; sunglasses; batteries; X-ray photographs, other than for medical purposes; decorative magnets; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; fire-extinguishing apparatus.

Class 12:

Electric vehicles; self-driving cars; remote control vehicles, other than toys; forklift trucks; bicycle pumps; aerial conveyors; luggage trucks; sleighs (vehicles); automobile tires; repair kits for inner tubes; air vehicles; ships; luggage carriers for vehicles; vehicles; apparatus for locomotion by land, air or water.

Class 20:

Furniture; loading pallets, not of metal; transport pallets, not of metal; containers, not of metal [storage, transport]; loading gauge rods, not of metal, for railway wagons; mirrors (glass mirrors); bamboo; shells; mirrors, picture frames; unworked or semi-worked bone, horn, whalebone or mother-of-pearl; meerschaum; yellow amber.

Class 35:

Outsourcing services in the nature of arranging service contracts for others in the fields of product engineering, semiconductor design, new product development, application development and integration, mobility solutions, system validation, ASIC (application-specific integrated circuit) verification services, product sustainability and maintenance, product functional safety and quality assessment, product re-engineering and

migration, and critical infrastructure; advertising; business management, organization and administration; office functions.

Class 39:

Freighting; packaging of goods; hauling; marine transport; railway transport; air transport; air transportation of goods; vehicle rental; storage; rental of diving suits; water supplying; operating canal locks; parcel delivery; delivery of goods; arranging of transportation for travel tours; transport by pipeline; transport; storage of goods; travel arrangement.

Class 42:

Research, development and design of computer hardware and semiconductor hardware all relating to electronic data processing equipment, sim cards, microprocessors, system-on-chip devices, application specific integrated circuits (ASIC), graphics processing units, semiconductor intellectual property cores, instruction set architectures, integrated circuits, computer hardware, computer software, electronic devices that send and receive data in a connected network, microcontrollers, bus interfaces and printed circuit boards; Research, development and design of computer hardware and semiconductor hardware all relating to electronic data processing equipment, sim cards, microprocessors, system-on-chip devices, application specific integrated circuits (ASIC), graphics processing units, semiconductor intellectual property cores, instruction set architectures, integrated circuits, computer hardware, computer software, electronic devices that send and receive data in a connected network, microcontrollers, bus interfaces and printed circuit boards for critical infrastructure sectors; Research, development and design of computer hardware and semiconductor hardware all relating to electronic data processing equipment, sim cards, microprocessors, system-on-chip devices, application specific integrated circuits (ASIC), graphics processing units, semiconductor intellectual property cores, instruction set architectures, integrated circuits, computer hardware, computer software, electronic devices that send and receive data in a connected network, microcontrollers, bus interfaces and printed circuit boards for product functional quality and assessment; technical consultancy and technical support services, namely, troubleshooting in the nature of diagnosing

electronic data processing equipment, microprocessors, system-on-chip devices, application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, integrated circuits, computer hardware, computer software, electronic devices that send and receive data in a connected network, microcontrollers, bus interfaces and printed circuit board problems and related product functional quality and assessment; development and design of computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of integrated circuits, microprocessors system-on-chip devices, microcontrollers, bus interfaces and printed circuit boards; technical consultancy and technical support services namely, troubleshooting in the nature of diagnosing computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of integrated circuits, microprocessors system-on-chip devices, microcontrollers, bus interfaces and printed circuit board problems; research, development and design of computer software used in servers, operating system software, web services software, and security and cryptographic software; technical consultancy and technical support services, namely, troubleshooting in the nature of diagnosing problems with computer software used in servers, operating system software, web services software, and security and cryptographic software; maintenance and support services, namely, technical advice related to the installation of computer software; software as a service (SAAS) featuring software for accessing and integrating data from databases relating to the design of integrated circuits and application specific integrated circuits (ASIC); software as a service (SAAS) featuring computer software development tools; software as a service (SAAS) featuring software for image analysis, recognition and enhancement; software as a service (SAAS) featuring software to connect, authenticate and manage internet of things electronic devices; Development of new electronic technology for others in the field of system-on-chip devices and integrated circuits and a functional design verification platform for such devices

and circuits and application specific integrated circuits (ASIC); design and development of computer hardware and software directed to system-on-chip devices and integrated circuits and for use by chip designers; engineering services in the field of system-on-chip devices and integrated circuits for others; computer systems analysis and product research and system-on-chip device and integrated circuit analysis, research and engineering services for others; computer software design and development services for others; quality control of goods and services; surveying; chemistry services; genetic screening (scientific); meteorological information; packaging design; architectural services; dress designing; computer technology consultancy; authenticating works of art; graphic design of promotional materials; scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software.

Class 9:

3D eyewear; application software; artificial intelligence apparatus; artificial intelligence equipment; artificial intelligence interactive equipment; computer devices and computer software that allow the sharing and transmission of data and information between devices for the purposes of facilitating home and environmental monitoring, control, and automation; Computer devices and software for use to connect and control internet of things (IoT) devices; computer devices, and electronic measuring and control monitoring devices for home and environmental monitoring, control, and automation; computer peripherals for displaying data, video, and virtual reality information and content; computer peripherals for mobile devices for remotely accessing and transmitting data; computer programs for artificial intelligence, machine learning, deep learning, statistical learning, contextual prediction, personalization, business predictive analytics, business predictive modeling and business intelligence; computer software for artificial intelligence, machine learning, deep learning, statistical learning, contextual prediction, personalization, business predictive analytics, business predictive modeling and business intelligence.; computer software for use in big data analysis; data capture apparatus; data collectors; data processing programs; home automation control devices; mobile data communications apparatus; software; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; 3D-imaging and visualization apparatus; apparatus for input, output, storage and/or processing of data; apparatus for recording, transmission or reproduction of sound or images; application programming interface (API) for computer software for developing and creating virtual reality and augmented reality experiences; application, database, web and file servers; artificial intelligence and machine learning software; artificial intelligence device; Artificial intelligence software; artificial intelligence software for driverless cars; artificial intelligence software for healthcare; audiovisual teaching apparatus with artificial intelligence; augmented reality software; augmented reality training simulation software in the field of

engineering; augmented reality training simulation software in the field of information technology; computer application software for mobile phones and devices, namely, software for display of and interaction with 2D and/or 3D data in augmented reality environments; computer software and application software for use in artificial intelligence apparatus and equipment and humanoid robots with artificial intelligence; computer software and programs for collection and management of big data; design software; downloadable applications for mobile phones; humanoid robots with artificial intelligence; scanners (data processing equipment); scanning software; Sensor; software for gesture recognition; software for gesture-based data entry; software for processing images, graphics, audio, video, and text; software for robotics design; software for the integration of artificial intelligence and machine learning; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; software for use in creating and designing virtual reality and augmented reality software; software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality and augmented reality experiences; software, namely, an interpretive interface for facilitating interaction between humans and machines; virtual reality software; wearable activity trackers.

Class 25:

Clothing; footwear; headgear; headwear; hosiery.

Class 42:

Advanced product research in the field of artificial intelligence; application service provider (ASP) services featuring application programming interface (API) software for artificial intelligence (AI), machine learning, deep learning, statistical learning and data mining to enable contextual prediction, personalization, predictive analytics, predictive modeling and business intelligence services; appraising of designs using artificial intelligence; collaborative computer programming; computer programming and software design; data mining; database design and development; design and updating of software for embedded devices and software maintenance services, computer systems

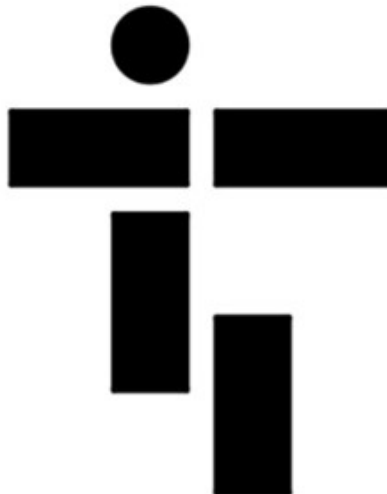

analysis; design of computer databases; design of interior décor; design of products using artificial intelligence; design services; development of new technology in the fields of machine learning, artificial intelligence and robotics; dress designing; product design using artificial intelligence; product quality evaluation; providing computer software that may be downloaded from a global computer network; quality control; research and consultancy services relating to artificial intelligence; research and development services; scientific and technical research, namely, scientific and product research in the fields of artificial intelligence (AI), machine learning and deep learning; scientific research and development in the fields of machine learning, artificial intelligence and robotics; scientific research consulting in the fields of machine learning, artificial intelligence and robotics; software design and development in the fields of augmented reality, artificial intelligence, machine learning, and the internet of things; technical project studies; technical research; technological advisory services relating to machine engineering analysis; analysis of product design; Application service provider (ASP); provision of artificial intelligence software for design; provision of artificial intelligence software for fashion design; provision of artificial intelligence software for manufacturing; provision of artificial intelligence software for personalised garment fit; automotive design; clothing design; cloud computing; computer aided design services; database design; design and development of computer software for use with augmented reality (AR) to understand users' design and fitting preference for clothing; design and development of software; design of clothing; design of clothing accessories; design of clothing, footwear and headgear; design of commercial products; design of communications apparatus; design of computer codes; design of computer database; design of computer languages; design of new products; development of computer software application solutions; evaluation of product design; fashion design; fashion design consultancy; machine learning based incoming material quality inspection software and hardware for the manufacturing of fashion, apparel and leather products; product design; product development consultancy for inventors in the field of robotics; product research and development; professional

consultancy relating to the science of ergonomics; providing information about fashion design services; Quality testing; research and design services; research and design services relating to small scale design robotics; research and development in relation to healthcare products; research and development of new products and technologies; research and development of new products for others; research in the field of artificial intelligence; research in the field of communications technology and computer software; scientific and technological services and research and design services related thereto; scientific research; scientific research and development; scientific research relating to orthopaedic footwear; software development and research in the field of AI design for autonomous mobility; software development and research in the field of AI enhanced 3D head scanning technology and related products development; software development and research in the field of an intelligent inspection system for fashion and textile manufacturing; software development and research in the field of artificial intelligence and 3D modelling for wellbeing; software development and research in the field of artificial intelligence designed functional clothing design for patients with spinal deformities; software development and research in the field of data analytics for product and service design; software development and research in the field of developing an intelligent design system to promote innovation; software development and research in the field of developing personal assistive robots; software development and research in the field of developing personal avatars for well-being; software development and research in the field of fashion design; software development and research in the field of intelligent textile design for interiors and fashion; software development and research in the field of machine learning; software development and research in the field of sustainable design by using evolutionary algorithms for eco-innovation; provision of software for AI assisted bespoke craftsmanship for couture fashion; technical data analysis; technological research; testing, analysis and monitoring of system algorithms for generating telecommunications and navigation data; testing, inspection and research services in the fields of manufacturing; visual design; software as a service [SaaS]; software as a

service [SaaS] featuring computer software platforms for artificial intelligence.

Databases; information display terminals; positioning apparatus; apparatus for global positioning [GPS]; electronic labels; oxygen regulating apparatus not for medical purposes; monitoring apparatus other than for medical use; respiratory monitoring apparatus other than for medical purposes; atmospheric oxygen monitors; travel distance monitors; wireless electronic apparatus for transmission of sound, images or data; wireless electronic apparatus for monitoring and controlling the function of other electronic apparatus; speed indicators; thermometers; personal electronic apparatus for displaying, measuring, recording, organizing, analyzing, manipulating and receiving data, text, images and audio files relating to health, well-being and fitness; receivers used for detecting, storing, processing electronic data emanating from a sensor that records data relating to fitness activity, namely, data relating to time, distance, speed, heart rate and body rhythm, as well as calories burned; bathroom scales; baby scales; audio and video apparatus for monitoring babies; wearable activity sensors; electric or electronic sensors for detecting, measuring, processing, collecting, recording and transmitting general data relating to health, well-being, sleep cycles, respiration rate, heart rate, movement of limbs and activity during sleep; electric or electronic sensors for detecting, processing, measuring, collecting, recording and transmitting variables related to the environment, namely, temperature, air and light quality, as well as surrounding sound during sleep; computer software applications for mobile apparatus used for the recording, organization, transmission, reception and analysis of texts, data, images and audio files in relation to health and well-being; software; computer software applications for portable apparatus for the wireless transmission, reception and processing of data and for the transmission and display of information relating to fitness activity, body mass, blood glucose and weight; computer software and computer software applications for portable apparatus enabling remote monitoring of the environment and control apparatus; computer software and computer software applications for portable apparatus used for collecting and analyzing variables relating to the environment, namely, temperature, quality of air and light as well

as surrounding noise during sleep; universal serial bus [USB] cables; battery chargers; pedometers; apparatus for measuring and controlling consumption and caloric expenditure (calorimeter).

Class 10:

Dental apparatus and instruments; medical imaging apparatus; artificial respiration masks and equipment; hearing aids; mobility and orthopedic materials; physical therapy equipment; feeding aids and bottle teats; health checking and monitoring apparatus, namely blood pressure measuring apparatus, glucometers, thermometers; body mass indicators and body fat monitors for humans (medical apparatus); heart-beat recording devices.

Class 14:

Time measuring instruments; watches; bracelets; watches and bracelets (jewelry) with monitoring functions and data reporting relating to physical fitness, training and activity, namely, data relating to time, distance, pace, angular velocity, weight management, calories burned, and level of activity accumulated; watches and bracelets (jewelry) enabling data to be communicated to personal digital assistants, smart phones, portable apparatus and personal computers via sensors, online Internet sites and other computer and electronic communication networks.

Class 35:

Collection and systematization of information in computer databases; compilation of statistical data relating to medical research; compilation of statistical data for use in scientific research; database management; updating and maintenance of data in computer databases; data processing verification; management and compilation of computer databases; data processing services; data search in computer files for others; advisory services related to data processing; assistance relating to data processing; data retrieval services.

Class 41:

Entertainment and sporting activities; services relating to physical education; consultancy services related to fitness; consulting services concerning physical exercises [fitness]; information services in the field of sports; training services relating to fitness; sports training; strength and endurance training; information services related to sports results; provision of

information relating to physical exercises via an on-line web site; coaching [training]; production of sports events; management and organization of sporting events; management and organization of competitions; arrangement of live sports events.

Class 42:

Software as a service [SaaS]; biological analyses; evaluations, assessments and research in the fields of science and technology provided by engineers; design and development of computers and software; research and development of new products for third parties; technical project studies; development (design), installation, maintenance, updating or rental of software; computer programming; conversion of computer programs and data, other than physical conversion; conversion of data or documents from physical to electronic media; styling (industrial design); data mining; scientific services and research services relating thereto; computer-aided scientific research services; computer-aided scientific analysis services; scientific study services; scientific advisory services; scientific and technological services; scientific testing services; providing scientific research services.

Class 44:

Medical services; medical testing for the diagnosis and treatment of persons; medical assistance; medical guidance counseling relating to stress; provision of medical information in the field of health; collection of medical information; biorhythm consultancy services; advisory services relating to health; medical health assessment services; providing information relating to health.
