

香港特別行政區政府知識產權署商標註冊處

Trade Marks Registry, Intellectual Property Department

The Government of the Hong Kong Special Administrative Region

接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

[511] 貨品／服務說明：
Specification:

Class 7:

Machines for processing security-print-type printed products, in particular bank notes, identity cards, driving licenses, passports, visas and other travel documents, security labels, checks, traveler's checks, admission tickets, transport tickets, health cards, credit cards and bank cards, in particular for counting, sorting, checking and destroying bank notes; machines for printing security-print-type printed products, in particular bank notes, identity cards, driving licenses, passports, visas and other travel documents, security labels, checks, traveler's checks, admission tickets, transport tickets, health cards, credit cards and bank cards; machines for manufacturing paper for security-print-type printed products, in particular bank notes, identity cards, driving licenses, passports, visas and other travel documents, security labels, checks, traveler's checks, admission tickets, transport tickets, health cards, credit cards and bank cards; packaging machines for packaging security-print-type printed products, in particular bank notes, identity cards, driving licenses, passports, visas and other travel documents, security labels, checks, traveler's checks, admission tickets, transport tickets, health cards, credit cards and bank cards

Class 9:

security-print-type printed products made of plastic, in particular bank notes, security labels, checks, traveler's checks, admission tickets and transport tickets; safeguarding labels, bands, sheets and foils; the above-mentioned goods with electronic components and with or without optical, haptic and/or magnetic security features; security-print-type printed products made of plastic, in particular bank notes, security labels, checks, traveler's checks, admission tickets and transport tickets; safeguarding labels, bands, sheets and foils; the above-mentioned goods with or without electronic components and with optical, haptic and/or magnetic security features; holograms, with or without electronic components and with or without optical, haptic and/or magnetic security features; testing and quality control devices, in particular for bank notes and security-print-type printed products; sensors, in particular for detecting optical, haptic and/or magnetic security features; computer hardware and software; computer programs (downloadable, stored); file servers; computer-adapted peripheral devices; electrical or electronic components, in particular Radio Frequency Identification (RFID) devices and equipment, including readers, marking devices, etching machines for marking purposes and proximity marks for locating and tracking goods and trademarks as well as for access security, identification, authentication, control of inventory or of physical state; computer software and databases, in particular for tracking objects, authentication, inventory management, optimizing delivery processes, for financial transactions and product processes; software for readers and for writing programs for identification systems and authentication systems working with optical and/or Radio Frequency (RF) systems; optical identification and authentication systems; program-bearing machine-readable data carriers of all kinds; all the above-mentioned goods included in class 9

Class 16:

security-print-type printed products, in particular bank notes, identity cards, driving licenses, passports, visas and other travel documents, security labels, checks, traveler's checks, admission tickets, transport tickets and health-insurance cards; unprinted paper with and without electronic components; substrates made of unprinted paper and/or unprinted plastic for the aforesaid printed products; in particular the above-mentioned goods equipped with security features for protection from forgery; security-print-type printed products made of plastic, in particular bank notes, security labels, checks, traveler's checks, admission tickets and transport tickets; safeguarding labels; the above-mentioned goods without electronic components and without optical, haptic and/or magnetic security features; all the above-mentioned goods included in class 16

[511] 類別編號 : 9, 42
Class(es) No(s).:

[511] 貨品／服務說明 : Class 9:
Specification: Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [supervision], life-saving and teaching apparatus and instruments; electric, electrotechnical, electronic and optoelectronic apparatus, instruments and equipment and systems consisting thereof, included in this class; apparatus, equipment, instruments, components and assemblies consisting thereof for recording, transmission, broadcasting, receiving, reproduction, output, manipulation, editing, processing, formation, damping, distribution, conversion, blocking, equalising, transfer, filtration, measurement, command, monitoring and/or storage of signals, data, sounds, signs, images, text and/or films; antennas being communications apparatus and being components, in particular transmission antennas, receiving antennas, car antennas, car radio antennas, antennas for use on railway vehicles, radio antennas, television antennas, satellite antennas, active and passive antennas, antennas with integrated mechanical, electric, electromechanical or electronic components, antennas for installation inside buildings and/or for outdoor use, disguised antennas, antennas for telecommunications, in particular for mobile communications; phase shifters, in particular for setting of a different radiation angle [downtilt angle] for antennas in mobile communications systems, remote-controlled phase shifters; communications base stations, baseband signal processing devices, transmitter assemblies, receiver assemblies, amplifiers, channel amplifiers, broadband amplifiers, transmitters, receivers, transducers, frequency converters, demodulators, modulators, decoders, encoders, remote radio heads, converters, microwave converters; remote feed power injectors [bias tees], crossover networks, hubs, filters, band-pass filters, duplex filters, repeaters, relay, multiplexers, diplexers, duplexers, triplexers,

transceivers, final amplifiers, splitters; controllers for signal transmission, in particular in mobile communications systems, bypass circuits, converters, including protocol, voltage, electricity, power and/or frequency transducers or converters, coupling and/or decoupling apparatus for feeding in data, signal and/or voltage lines and for decoupling data, signal and/or voltage lines, patch panels, Very High Frequency (VHF) range amplifiers; active and passive apparatus, assemblies and components for cable networks and for satellite and terrestrial receivers/antennas installations for television signals, audio signals and interactive services, in particular Digital Video Broadcasting-Satellite/Terrestrial/Cable, Digital Video Broadcasting-Second Generation Satellite/ Second Generation Terrestrial/Second Generation Cable, Internet Protocol (IP) networks and other kinds of signals and transmission standards, in particular receivers, feed systems, servers for protocol and IP-based architecture for receiving and distributing satellite signals, head-ends and head-end stations for processing of analogue and digital radio and/or TV programmes; Digital Video Broadcasting transcoders, Digital Video Broadcasting transceivers, Digital Video Broadcasting transmodulators, TV and Digital Video Broadcasting converters, TV modulators, power supply units, modems, active branch or distribution circuits, switching matrices; control bus demultiplexers, encoders; input splitters, output collectors [output distribution bars], inserts and modules, equalisers, multiplexers and demultiplexers, coupling and/or decoupling apparatus for feeding in data, signal and/or voltage lines and for decoupling data, signal and/or voltage lines including decoupling apparatus to increase the isolation between electronic components; channel blocking devices and range blocking devices, cable equalisers, analogue-digital switches and apparatus for transmitting signals via voltage and/or power supply lines; voltage surge protectors; computers, communications computers, calculators, data processing apparatus, data processing equipment, peripherals adapted for use with computers; telephone, telephone extension, videophone, mobile telephone, car telephone and fax apparatus and installations, answering machines, intercoms, dialling apparatus, domestic telephone apparatus, intercom installations; monitors being parts of domestic communication and surveillance systems; image scanning apparatus; optical, mechanical, electric, electromechanical, electrotechnical and electronic apparatus for measuring and control technology, in particular including building technology, system control, system monitoring and/or sensor technology, in particular apparatus for installation inside buildings or for outdoor use for transmission, processing, distribution and/or receiving of signals for wired and/or wireless communication, including related control equipment; signal processing apparatus, energy supplying devices, energy supply assemblies, test receivers and antenna measuring apparatus; lasers; systems for sending and receiving of signals transmitted via optical fibres; optical conversion, transmission, broadcasting and receiving equipment; mounting and circuit fittings, namely distributors, couplers, duplexers, shunts, blocks, circulators in

the nature of electronic components, connecting cables, coaxial cables, divertors, connectors, pin and socket connectors, plugs, ends, end resistors, sub-racks adapted to hold electrical apparatus, instruments and components, lightning protection and lightning current arresters, attenuators, attenuation selectors, hybrid ring lines, electronic components, namely caps, retrofit sets, network nodes, zero cards, patch cables, connector sockets, connection cables, adapters, adapter plates, surface mount frames, blind plugs, fiber management boxes, fiber switches, building entry points, multiplexers, multi-switches, cable switch boxes, cable fittings, cable sets, couplings, links, connecting sleeves, electrical lines; electrical installation materials, in particular for antenna installation; communications cables, waveguides, in particular optical waveguides, fibre optic cables, and connectors therefor; parts for all of the aforesaid apparatus, instruments, equipment and assemblies; systems consisting of a combination of the aforesaid apparatus, instruments, equipment and/or assemblies; computer software [downloadable]; computer software, recorded; application software, namely applications [apps] for mobile and stationery terminals; all of the aforesaid goods in class 9 being in particular for communications technology, broadband communications technology, broadcast technology, receiver technology, transmission of signals, data, audio, images, films and/or text; light emitting diodes [LED]; control and monitoring equipment for LED lights; external temperature controls for antennas.

Class 42:

Engineering services; technical planning, design and development of antennas being communications apparatus and being components; technical planning, design and development of electric, electrotechnical, electronic and optoelectronic apparatus, instruments and equipment, parts therefor and systems consisting thereof, in particular in the field of communications technology, broadband communications technology, broadcast technology, transmission technology and receiver technology, telecommunications technology and related consultancy in these fields; technical planning, design and development of data transmission networks, mailboxes, e-mail services; rental of electric, electrotechnical, electronic and optoelectronic apparatus, instruments and equipment, parts therefor and systems consisting thereof [with exception of those for telecommunication and as far as listed in class 42]; development, design, creation, updating and rental of computer software; software as a service [SaaS]; technological research; computerized data storage.

Specification:

Class 9:

Apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; calculating machines, data processing equipment, computers; data processing equipment; computer software; computer software platforms; computer software platforms for automated computer machine learning; virtual reality software; artificial intelligence apparatus; adaptive software; integrated software packages downloadable image, audio and audiovisual files; electronic publications (downloadable); computer hardware apparatus; computer software for the automation of products; computer software for the automation of apparatus and equipment; computer software and hardware systems for analysing big data; software for automated decision making; downloadable software via the internet and wireless devices; downloadable software in the field of automated computer machine learning; downloadable software in the nature of a mobile application; downloadable software via the internet and wireless devices for accessing, sending, and receiving information on a global computer network; downloadable software for computers, portable handheld digital electronic communication devices, mobile devices, and wired and wireless communication devices for facilitation of communication and data transmission in the field of automated computer machine learning; downloadable software in the nature of a mobile application for use with computers, portable handheld digital electronic communication devices, mobile devices, and wired and wireless communication devices for facilitation of communication; downloadable software in the nature of a mobile application for automated computer machine learning; downloadable software in the nature of a mobile application for real-time delivery of data, messages, location, photographs, links, text and other data related thereto; downloadable software in the nature of a mobile application for displaying and sharing a user's location and personal preferences and finding, locating, and interacting with other users and places; software for accessing, sending, and receiving information on a global computer network; computer software to enable uploading, downloading, accessing, posting, displaying, tagging, streaming, linking, sharing or otherwise providing electronic media or information via computer and communication networks; computer software for streaming audio-visual media content via a global computer network and to mobile and digital electronic devices; software applications to enable transmission, access, organization, and management of text messaging, instant messaging, online blog journals, text, web links, and images via the Internet and other communications networks; software for accessing information on a global computer network; software for real-time delivery of data, messages, location, photographs, links, audio, video, images, text and other data related thereto; computer software for the collection, editing, organizing, modifying, transmission, storage and sharing of data and information; computer software for use as an application programming interface (API); computer software in the nature of an application programming interface (API) for computer

software which facilitates online services for allowing data retrieval, upload, download, access and management; computer application software for processing electronic payments to and from others that may be downloaded from a global computer network; humanoid robots with artificial intelligence; language translating apparatus; computer software for language learning and translation; computer software platforms for automated computer machine learning in relation to languages; computer software platforms for automated computer machine learning in relation to finance and banking; computer software platforms for automated computer machine learning in relation to health, wellbeing and healthcare.

Class 42:

Research services in the field of artificial intelligence; research and development of computer software; research in the field of computer software and programmes; research, development, design and upgrading of computer software; scientific research and development; technological research and development; research and development in the field of automated computer machine learning; consulting services in the field of automated computer machine learning product design; product testing; product research; product development; product safety testing; product quality evaluation; design and development of products with artificial intelligence; analysis and evaluation of products with artificial intelligence; laboratory services relating to artificial intelligence; providing information in the field of artificial intelligence; technological services relating to the manufacturer of products with artificial intelligence; computer programming services for the development of intelligent devices; software as a service [saas] services, for robotic process automation; software as a service [saas] services featuring software for artificial intelligence and neural networks; software development in the field of artificial intelligence and neural networks; provision of search engines for the Internet for information on topics of general interest, including text, electronic documents, databases, graphics and audio visual information; providing temporary use of non-downloadable software applications; providing temporary use of non-downloadable software applications for creating a virtual community, and transmission of audio, video, photographic images, text, graphics and data; computer services in the nature of customization of web pages featuring user-defined or user-specified information, personal profiles, audio, video, photographic images, text, graphics and data; hosting of digital content on the Internet; hosting an online website for registered users to share information, photos, audio and video content about themselves, their opinions, to get feedback from their peers, to form virtual communities, and to engage in social networking; computer services in relation to file sharing, namely, providing a web site featuring technology enabling users to upload and download electronic files; hosting on-line web facilities for others for managing and sharing on-line content; providing technical information from searchable indexes and databases of information; hosting an interactive website and online non-downloadable software; providing search engines for obtaining data via communications networks; computer services, namely,

creating virtual communities for registered users to participate in discussions and engage in social, business and community networking; computer services in relation to designing, managing and monitoring on-line forums for discussion; computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, linking, sharing or otherwise providing electronic media or information over communication networks; provision of information, consultancy and advisory services relating to the aforesaid.

Class(es) No(s).:

[511] 貨品/服務說明 : Class 9:
Specification: Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; computer software for streaming, broadcasting, transmitting, distributing, reproducing, organizing and sharing music, audio, video, games and other data; smartphones; mobile phones; handheld digital electronic device; portable and handheld electronic devices for transmitting, storing, manipulating, recording, and reviewing text, images, and data via global computer networks, wireless networks, and electronic communications networks; computer hardware and software for providing integrated telephone communication with computerized global information networks; portable electronic devices for receiving and reading text, images and sound through wireless internet access; computer and mobile computers, and mobile communications devices; software for streaming audiovisual and multimedia content to mobile digital electronic devices; downloadable software in the nature of a mobile application for wireless content delivery of multimedia entertainment content including text, data, images, audio, video and audiovisual files; computer software for controlling the operation of audio and video devices and for viewing, searching and/or playing audio, video, television, movies, other digital images, and other multimedia content; computer software for interactive entertainment, which allows users to customize the viewing, listening, and playing experience by selecting and arranging the display and performance of audio, video and audiovisual elements; computer software for purchasing, accessing and viewing movies, TV shows, videos, music, and multimedia content; computer software for use in authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, playing, viewing, storing and organizing text, data, images, and audio and video files; computer software to enable users to view or listen to audio, video, text and multimedia content; computer software for creating and providing user access to searchable databases of information and data; database management software; search engine software; computer software for wireless content delivery; computer software for accessing online information; computer software for online shopping; computer software for facilitating payments and online transactions; computer software that provides retail and ordering services for a wide variety of consumer goods; computer software for use in

disseminating advertising for others; computer software for disseminating information regarding consumer product discounts; computer software for use in sharing information about products, services, and deals; computer software for electronic storage of data; computer software for storing, organizing, editing and sharing photos; game software; internet browser software; downloadable music files; downloadable films and movies featuring fiction and non-fiction stories on a variety of topics provided via a video-on-demand service; downloadable motion pictures and television shows about featuring fiction and non-fiction stories on a variety of topics, and audio and video recordings featuring fiction and non-fiction stories on a variety of topics; downloadable audio and video recordings featuring fiction and non-fiction stories on a variety of topics; downloadable audio files, multimedia files, text files, written documents, audio material, video material and games featuring fiction and non-fiction content on a variety of topics; downloadable fiction books on a variety of topics, downloadable e-books in the field of fiction and non-fiction stories on a variety of topics and audio books in the field of fiction and non-fiction stories on a variety of topics.

Class 35:

Advertising; business management; business administration; office functions; subscription to digital content streaming and transmission services for others; business-to-business subscription sales and management services relating thereto; business administration services for processing sales made on the internet; business research and data analysis services in the field of digital content subscription sales; advertising services, namely, dissemination of advertising for others via an on-line electronic communications network; advertising, marketing, and promotion services; online retail store services and online retail store services featuring downloadable and streamable audio and video recordings, electronic books, audiobooks, music, movies, TV shows, videos and games; online management of databases; providing consumer product information via the internet or other communications networks; providing a web site featuring the ratings, reviews and recommendations on products and services for commercial purposes posted by users; providing a searchable database of management, business and/or commercial information featuring audio, video and audiovisual content through the Internet, telecommunications networks and wireless telecommunications networks.

Class 38:

Telecommunications; communication services, namely, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the internet, information services networks and data networks; video-on-demand transmission; audio and video broadcasting services; Internet broadcasting services; Internet protocol television (IPTV) transmission services; streaming of audio and video material on the Internet; streaming of data; streaming of music, movies, TV shows and games on the Internet; electronic data transmission; electronic transmission and streaming of digital media content for others via

global and local computer networks; transmission of digital files; electronic transmission of digital photo files among Internet users; providing access to online directories, databases, websites, blogs and reference materials; delivery of messages by electronic transmission; electronic transmission of mail and messages; podcasting services; providing internet chatrooms; providing an on-line forum for transmission of messages among computer users and the transmission of photos, videos, text, data, images and other electronic works; electronic bulletin board services; broadcasting services and provision of telecommunication access to films, television programs, audio and audiovisual programs and other digital media content and information, provided via a video-on-demand service; telecommunication services, namely, transmission and streaming of voice, data, images, films, television programs, audio and audiovisual programs and other digital media content and information by means of telecommunications networks, wireless communication networks, and the internet; providing telecommunication connectivity services for the transfer of images, messages, audio, visual, audiovisual and multimedia works among mobile phones, smartphones, portable electronic devices, portable digital devices, tablets, or computers.

Class 41:

Education; providing of training; entertainment; sporting and cultural activities; entertainment services in the nature of providing entertainment programs and content, namely, films, television programs, audio and audiovisual programs and other digital media content, namely, video clips, audio clips, and audiovisual clips and information in the fields of comedy, drama, action, variety, adventure, sports, education, fashion, pop culture, recreation, musicals, current events and entertainment news, documentary and animation, via the Internet, electronic communications networks, computer networks and wireless communications networks; providing an online searchable database featuring audio, video and audiovisual content in the field of entertainment available through the Internet, telecommunications networks and wireless telecommunications networks; entertainment services, namely, distribution of entertainment television and motion picture programming for others by means of digital transmission over the internet; entertainment services, namely, in the nature of live visual and audio performances, namely, musical, variety, news and comedy shows; providing non-downloadable electronic publications in the nature of books, magazines, periodicals, brochures, journals, newsletters, and newspapers in the fields of art, biography, business, children and young adults, comedy, comics, drama, economics, education, entertainment, fashion, fiction, finance, food, geography, hobbies, history, law, lifestyle, literature, medicine, music, nature, non-fiction, novels, parenting, politics, religion, romance, science, science fiction, technology, self-help, spirituality, sports, style, technology, and travel; digital imaging services; provision of non-downloadable videos, films, movies and television shows via a video-on-demand service; film and video rental services; film, movie, TV show and video production and distribution; providing

online radio programming; digital audio, video and multimedia publishing services; entertainment services, namely, providing non-downloadable prerecorded music and audio programs featuring fiction and non-fiction stories on a variety of topics, and information in the field of music, and commentary and articles about music, all on-line via a global computer network; providing information, news and commentary in the field of music and audio; presenting live musical concerts and performances; music production services; music publishing services; providing online video games; providing online non-downloadable game software; multimedia publishing of games; production of video and computer game software; entertainment services, namely, live performances by video game players; entertainment services, namely, providing online videos featuring games being played by others; entertainment services, namely, providing virtual environments in which users can interact for recreational, leisure or entertainment purposes; providing an online website portal for consumers to play on-line computer games and electronic games and share game enhancements and game strategies; providing information online relating to computer games and enhancements for games; publishing of reviews; providing a web site featuring the ratings, reviews and recommendations of users on events and activities in the fields of entertainment and education; providing a website featuring the ratings and reviews of television, movies, videos, music, screenplays, scripts, books and video game content; entertainment information; providing online news, information and commentary in the field of entertainment; online journals, namely, blogs featuring information about entertainment; entertainment services, namely, profiling of musicians, artists and bands by providing non-downloadable video clips of musical performances over a global computer network.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; Software as a service (SAAS) services and software platform as a service (PAAS) services; computer services in relation to providing online facilities enabling the sale of third-party content subscription services; providing temporary use of non-downloadable computer software for online content subscription sales; providing temporary use of non-downloadable computer software for streaming, broadcasting, transmitting, distributing, reproducing, organizing and sharing music, audio, video, games and other data; computer services in relation to providing a website featuring non-downloadable music, radio, movies, TV shows, videos and information about music, albums, artists and songs; providing temporary use of non-downloadable computer software for use in authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, playing, viewing, storing and organizing text, data, images, and audio and video files; providing temporary use of non-downloadable computer software to enable users to view or listen to audio, video, text and multimedia content; providing temporary use of non-downloadable computer software for creating and providing user access to searchable databases of information

and data; providing temporary use of non-downloadable search engine software; providing temporary use of non-downloadable computer software for wireless content delivery; providing temporary use of non-downloadable computer software for accessing online information; providing temporary use of non-downloadable computer software for online shopping; providing temporary use of non-downloadable computer software for facilitating payments and online transactions; providing temporary use of non-downloadable computer software for use in disseminating advertising for others; providing temporary use of non-downloadable computer software for electronic storage of data; providing temporary use of non-downloadable computer software for storing, organizing, editing and sharing photos; providing temporary use of non-downloadable computer software for image and speech recognition; providing temporary use of non-downloadable computer software for home automation; providing temporary use of non-downloadable computer software for purchasing, accessing and viewing movies, TV shows, videos, music, and multimedia content; providing a website featuring technology that creates personalized movie, TV show, video and music channels for listening, viewing, and sharing; software development; providing a web hosting platform featuring temporary use of non-downloadable software allowing the transmitting, showing, uploading, posting, displaying, sharing, streaming, reviewing, and commenting on, film and television programs, audio and audiovisual programs and other digital media content and information; application service provider featuring application programming interface (API) software for the integration of video content into websites and applications; hosting of third party digital content, photos, videos, text, data, images, web sites and other electronic works via the internet or other computer or communications networks; hosting of digital content on global computer networks, wireless networks, and electronic communications networks; providing a website featuring technology that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing temporary use of non-downloadable computer software that enables users to access and download computer software; providing temporary use of online non-downloadable computer software that generates customized recommendations based on user preferences; computer services, namely, cloud hosting provider services; design and development of computer software; providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data.

Class 45:

Legal services; security services for the physical protection of tangible property and individuals; personal and social services rendered by others to meet the needs of individuals; online social networking services in the field of entertainment; social

networking services in the field of entertainment provided via a website and communications networks; providing a social networking website for entertainment purposes; providing online computer databases and online searchable databases in the field of social networking; providing user authentication services in e-commerce transactions.
