Trade Marks Registry, Intellectual Property Department

The Government of the Hong Kong Special Administrative Region

接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

Specification: Alloys of common metal; aluminum; aluminum foil; aluminum wire; balls of steel; boxes of common metal; brackets of metal for building; brass, unwrought or semi-wrought; brazing alloys; rods of metal for brazing; ceiling and floor boards of metal for building purposes; prefabricated buildings of metal; cast iron, unwrought or semi-wrought; cast steel; common metals, unwrought or semi-wrought; industrial packaging containers of metal; copper, unwrought or semi-wrought; crash barriers of metal for roads; fittings of metal for building, namely, metal door fittings, metal pipe fittings and metal joinery fittings for buildings; flanges of metal; foundry moulds of metal; framework of metal for building; gold

solder; indium; ingots of common metal; iron ores; iron, unwrought or semi-wrought; iron wire; joists of metal; lead, unwrought or semi-wrought; linings of metal for building purposes; manhole covers of metal; manifolds of metal for pipelines; materials of metal for funicular railway permanent ways; common metals in powder form; nickel; niobium; prefabricated architectural pillars of metal for buildings; pipe muffs of metal; poles of metal; posts of metal; props of metal being metal beams; railroad ties of metal; rails of metal; railway material of metal; railway sleepers of metal; reinforcing materials of metal for building purposes; sheet piles of metal; metal sheets; plates of metal, namely, steel in the form of plates; silver plated tin alloy; silver solder; sleeves being metal hardware, namely, metal cable junction and metal expanding sleeves for affixing screws; soldering wire of metal; steel alloys; steel pipes; steel sheets; steel strips; steel, unwrought or semi-wrought; steel wire; strap-hinges of metal; tantalum; tin; tinfoil; tinfoil; tinplate; tinplate packings, namely, tin foil packaging trays and tin foil industrial packaging containers; titanium; titanium iron; tombac; trellis of metal; tubes of metal; tungsten; vanadium; rods of metal for welding; wire of common metal; wire of common metal alloys, except fuse wire; wire rope; zirconium; steel bars; cask stands of steel; non-electric steel cables; steel forgings; wire of metal for welding; heavy steel plates; hot-rolled steel sheets and coils; cold-rolled steel sheets and coils; tin-free steel sheets and coils; semi-worked electrical steel sheets; galvanized steel sheets and coils; construction materials of metal, namely, metal soffits and metal pipes; storage tanks of metal; building materials of metal; building materials of metal for base-isolation and vibration-control; seismic brace of metal; anti-seismic devices made of metal; metal vibration dampers for buildings or building parts; fish cages of metal for commercial use; fish farm cages of metal for commercial use.

Class 7:

Air suction machines; bending machines; compressed air machines; compressed air pumps; compressors, namely, electric compressors, gas compressors and air compressors; condensing installations for chemical processing, namely, mechanical condensators and air condensers; pneumatic, hydraulic and thermostatic control

mechanisms for metalworking machines, construction machines and loading-unloading machines; crushing machines for metalworking, construction loading-unloading and chemical processing; cutting machines for metalworking and construction; electric welding machines; drainage machines for construction, namely, oil drain pumps, earth moving machines and earth augers; planing machines for metalworking; electric arc cutting machines; electric arc welding machines; finishing machines for metalworking, namely, honing machines, burnishing machines and lapping machines; gasifiers; AC generators of electricity; DC generators of electricity; galvanizing machines; grinding machines; guides for metalworking machines; power-operated hand-held tools, namely, power drills, buffers and grinders; heat exchangers for chemical processing machines; hemming machines; metalworking machine tool holders; machining centers for metalworking machining; metal drawing machines; metalworking machines; metal surface galvanizing machines; moulding machines for metalworking; moulds being parts of machines; paring machines for metalworking; pneumatic transporters; electric machines for polishing metal surface; punching, mechanical and hydraulic presses for metalworking; presses for chemical processing; rammers; rolling mill cylinders; rolling mills; sewage pulverizers; slide rests being parts of machines; trimming machines for metalworking; vibrator machines for industrial use; waste compacting machines for industrial purpose; industrial waste disposer machines; gas-operated welding machines; electric welding machines; industrial robots for metal working; continuous casting machines; machines for the treatment of metal giving a pickling effect on the surface; machines for tin-plating on the surface of metal; annealing machines for metalworking; electromechanical machines for chemical industry, namely, sintering machines and calcining machines; sorting machines for mining and chemical processing; electric pumps, silt pumps and hydraulic pumps; pneumatic machines, namely, pneumatic hammers, pneumatic conveyors and pneumatic pumps; hydraulic machines and apparatus, namely, hydraulic jacks, hydraulic excavators and hydraulic conveyors; machines for giving a pickling treatment on the surface of metal; industrial fishing machines; fishing machines and instruments; automatic feeding device for

fish farming; machinery for use in relation to fish farming; electricity generators; seismic control devices for buildings; seismic isolation devices for buildings; seismic control dampers for buildings; seismic isolation dampers for buildings; carbon dioxide capture equipment, namely, a capture unit comprised primary of flue gas coolers, absorber towers, regenerator towers, heat exchangers, blowers and pumps that captures carbon dioxide from flue gases of combustion apparatus such as gas turbines and internal combustion engines.

Class 9:
Scientific, nautical, measuring, signalling
apparatus and instruments; apparatus and

instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; electronic stability program units for anti-lock brake systems; computer software; computer hardware; parts and fittings for all the aforesaid.

Class 11:

Apparatus for heating, steam generating, refrigerating, drying, ventilating, water supply and sanitary purposes; air conditioning, heating, freezing and refrigeration units, namely, cold wall evaporators, no-frost evaporators, roll-bond evaporators, chest freezer evaporators, air conditioning evaporators, evaporators, freezer shelf units, freezer condensers, waveline condensers, static condensers, dynamic condensers, hot wall condensers, condensers, accumulators, receivers, dryers, heat exchangers, door warmers, shock loops, suction and discharge pipes, compressors, internal oil coolers, oil coolers, oil supply tubes, pumps for refrigeration units in trucks, heater units, oil cooling units; receivers, dryers, accumulators all being parts of air conditioning units in vehicles; heater units for vehicles; parts and fittings for all of the aforesaid.

Class 12:

Vehicles; apparatus for locomotion by land, air or water; structural parts for vehicles; vehicle structural parts, namely, instrument panel beams, radiator closures, engine cradles, space frames, tubes; power steering units, brakes, antilock braking system units, electronic stability program units, fuel lines, vapour lines, oil lines, coolant lines, brake lines including rigid and flexible tubes and hoses and couplings, connectors, fittings and bundles therefor; vehicles parts and accessories, namely, fuel tank units, plastic fuel tanks, filler necks; parts and fittings for all of the aforesaid.

Class 17:

Flexible pipes, tubes and hoses, not of metal; non-metallic rigid and flexible fluid lines and hoses for air, coolant, water, ignition fuel, fuel vapor, oil, brake fluids, transmission fluids, power steering fluids and refrigerant in vehicles; non-metallic couplings and connectors for all of the aforesaid; radiator hoses, heater hoses, air conditioning hoses; parts and fittings for all of the aforesaid.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; engineering services; automotive and marine vehicle research, design and development services; automotive and marine vehicle engineering services; design of automotive parts and marine vehicle parts; design of accessories for automotive and marine vehicles; conducting technical tests and analysis in the automotive and marine vehicle industry; providing virtual computer systems and virtual computer environments through cloud computing for use in connection with automobiles and marine vehicles; hosting an online community website featuring information about automotive and marine vehicles; information and advisory services relating to all of the foregoing.

elements for structural engineering, civil engineering, building and construction; bracings of metal; metal tensioning materials for structural engineering, civil engineering, building and construction; metal tensioning elements for structural engineering, civil engineering, building and construction; metal tendons; metal wire stretchers being tension links; metal prestressing materials for structural engineering, civil engineering, building and construction; metal prestressing elements for structural engineering, civil engineering, building and construction; metal anchoring materials for structural engineering, civil engineering, building and construction; metal anchoring elements for structural engineering, civil engineering, building and construction; anchoring devices of metal; metal anchors; metal anchor plates; metal anchor wedges; metal anchoring blocks; metal expansions for anchors; non-electric metal cables; non-electric metal wires; metal wire strands; metal ropes; metal grids; metal meshes; metal nets; metal rods; metal piles; metal poles; metal pillars; metal beams; metal posts; metal masts; metal bolts; metal drive-heads for cable bolts; metal studs, other than for football boots, clothing or vehicle tyres; metal screws; metal fasteners; metal clips; metal bars; threaded bars of metal; metal shims; metal washers; metal dowels; metal hardware, namely sleeves; metal nuts; metal expansion plugs; metal expansion shells; metal shell plugs; metal nails; metal treenails; metal rings; metal discs; metal hooks; metal pins; metal pipes; metal tubes; metal hoses; metal cladding; sheaths of metal for tendons, anchors, wire strands, piles, nails, rods, bars, bolts and non-electric cables; metal girders; metal lattice girders; spindles of metal for tendons of metal; coupler spindles of metal for tendons of metal; metal scaffolding; metal mouldings; climbing forms of metal for structural engineering, civil engineering, building and construction; armaments of metal for structural engineering, civil engineering, building and construction; metal parapets; bearings of metal for structural engineering, civil engineering, building and construction; drill pipes of metal; drilling rods of metal; drilling scaffolds; connectors and couplings of metal for rods, poles, piles, beams, bars, bolts, screws, pipes, tubes, hoses, cables, ropes, wire strands, wires, anchors, tendons and

prestressing elements; metal cartridges for resins; metal cartridges for cement; metal ladders; metal moveable steps; metal railway sleepers; metal anchor heads; metal pile heads; metal nail heads; metal caps; metal spacers; metal tapes; metal walers; metal walls; metal bushings, other than parts of machines; metal chains; non-electric metal ducts; metal clamps; metal flanges; clevis of metal; clevis pins of metal; retaining devices of metal; boxes of common metal; metal valves, other than parts of machines; non-electric metal cable channels; metal corbels; metal rails; pre-fabricated metal architectural columns; metal mounting brackets; parts and fittings for all the aforesaid goods, included in this class.

Class 7:

Machine tools; power tools; mechanical tools, other than hand-operated; hydraulic tools, other than hand-operated; pneumatic tools, other than hand-operated; machines, namely wrenches; impact wrenches; hydraulic wrenches; pneumatic wrenches; motors and engines, except for land vehicles; machine coupling and transmission components, except for land vehicles; metalworking machines; machines, mechanical equipment (machines) and mechanical, electric, hydraulic and pneumatic apparatus (machines) for structural engineering, civil engineering, building and construction; mechanical, pneumatic, hydraulic and electric implements (machines), other than hand-operated, for structural engineering, civil engineering, building and construction; pumps, compressors and generators; lifting and hoisting equipment; ground stabilization machines; soil stabilization machines; rock stabilization machines; feeding machines; mixing machines; mechanical presses; hydraulic presses; pressing machines; extrusion machines; galvanizing machines; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for wrapping; industrial robots; machines and industrial robots for testing, inspecting, maintaining and measuring of ropes, cables, pipes, tubes, mesh, nets, structures, buildings, bridges, pipelines, pipes, masts, tunnels, stadiums, chimneys, funnels, fireplaces, towers, domes and facades, and parts thereof; machines and industrial robots for testing, inspecting, maintaining and measuring of elevated flares, silos, bunkers, canals, heating boilers, superheaters, desulfurizer installations,

reactors, tanks, mobile platforms, working platforms, winches, vehicles, trains, aircrafts, robots, industrial installations, apparatus and machines, and parts thereof; machines and industrial robots for testing, inspecting and measuring of computer hardware, products of mechanical engineering and electrical engineering, products for structural engineering, civil engineering, building and construction, and parts thereof; elevators; cranes; winches; mechanical reels; lifting platforms; hydraulic mobile platforms; pneumatic mobile platforms; electric mobile platforms; elevating work platforms; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for treating, processing, pressing and injecting building materials, binding materials, bonding materials, settable materials, anticorrosive materials, waxes, resins, grout, mortar and cement; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for manufacturing, processing, treating, straightening, bending, binding, connecting, fitting, installing, inserting, anchoring, adjusting, stressing and tensioning of supporting elements, prestressing elements, bearing elements, rods, anchors, tendons, beams, wires, cables and strands; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for cutting or rolling of threads on reinforcing elements; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for manufacturing of concrete parts and form works for manufacturing concrete parts; machines for feeding, connecting and installation of tubes and drill rods; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for grouting; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for screwing; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for drilling; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for cutting; machines, namely jacks; electric, pneumatic and hydraulic jacks; machines, namely rams; electric, pneumatic and hydraulic rams; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for cleaning, wrapping and coating of bars, nails, piles, bolts, anchors, cables and prestressing elements; machines and mechanical, electric, hydraulic and pneumatic

apparatus (machines) for clamping tension bars and prestressing elements; draining devices for rock drilling machines (parts of machines); draining devices for grouting machines and apparatus (parts of machines); compressed air machines; machine parts, namely valves; ventilation devices for rock drilling machines (parts of machines); ventilation devices for grouting machines and apparatus (parts of machines); rock drilling machines; machines and mechanical, electric, hydraulic and pneumatic apparatus (machines) for coiling and uncoiling; tubes being fitted parts of machines; drilling rods; parts of machines, namely drilling bits; parts of machines, namely adaptors for drilling rods; hydraulic and pneumatic controls for machines, motors and engines; bushings being parts of machines; dampers being parts of machines; parts and fittings for all the aforesaid goods, included in this class.

Class 9:

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; electric power supply units; solar panels; apparatus and instruments for capturing, recording, transmitting, receiving, reproducing or processing sound, images or data; recorded and downloadable media; blank digital or analogue recording and storage media; recorded data files; computer software; computers; computer hardware; computer peripherals; monitor screens; touch screens; data processing equipment; calculating devices; electronic chips; computer chips; information technology and audio-visual, multimedia and photographic devices; multiplexers; mobile data apparatus; mobile phones; cameras; video cameras; digital cameras; electronic control apparatus, units and systems; safety, security, protection and signalling devices and equipment; measuring, detecting and monitoring instruments, devices, appliances, indicators and controllers; gauges; gauges with digital readout; stress gauges; quality control devices; testing apparatus, not for medical purposes; diagnostic apparatus, not for medical purposes; sensors; remote control apparatus;

electric cables; data cables; cable connectors; electronic connectors; electric wires; protective and safety clothing for protection against accident or injury; protective shoes; protective helmets; eyeglasses; safety glasses for protecting the eyes; sun glasses; optical, electric and electronic apparatus for use in structural engineering, civil engineering, building and construction; electric cable channels; simulators; optical devices, enhancers and correctors; borescopes; magnets; seismographs; laser scanners; modems; radar apparatus; load cells; parts and fittings for all the aforesaid goods, included in this class.

Class 19:

Non-metallic building materials for structural engineering, civil engineering, building and construction; non-metallic building elements for structural engineering, civil engineering, building and construction; non-metallic building goods for use in structural engineering, civil engineering, building and construction; non-metallic reinforcement materials for structural engineering, civil engineering, building and construction; non-metallic reinforcement elements for structural engineering, civil engineering, building and construction; non-metallic bracing materials for structural engineering, civil engineering, building and construction; non-metallic bracing elements for structural engineering, civil engineering, building and construction; non-metallic tensioning materials for structural engineering, civil engineering, building and construction; non-metallic tensioning elements for structural engineering, civil engineering, building and construction; non-metallic prestressing materials for structural engineering, civil engineering, building and construction; non-metallic prestressing elements for structural engineering, civil engineering, building and construction; non-metallic anchoring materials for structural engineering, civil engineering, building and construction; non-metallic anchoring elements for structural engineering, civil engineering, building and construction; non-metallic fire protection building materials for structural engineering, civil engineering, building and construction; non-metallic explosion protection building materials for structural engineering, civil engineering, building and construction; goods for structural engineering, civil engineering,

building and construction, namely non-metallic sheets, non-metallic plates, non-metallic panels, non-metallic walls, non-metallic mats, non-metallic tendons, non-metallic bracings, non-metallic wire stretchers being tension links, non-metallic anchoring devices, non-metallic anchors, non-metallic anchor heads, non-metallic pile heads, non-metallic nail heads, non-metallic anchor plates, non-metallic anchor wedges and non-metallic anchoring blocks, all the aforesaid being non-metallic building materials; goods for structural engineering, civil engineering, building and construction, namely non-metallic expansions for anchors, non-metallic clamps, non-metallic flanges, non-electric non-metallic cables, non-electric non-metallic wires, non-metallic wire strands, non-metallic fibres, non-metallic ropes, non-metallic rods, non-metallic piles, non-metallic poles, non-metallic pillars, non-metallic beams, non-metallic posts, non-metallic masts and non-metallic walers, all the aforesaid being non-metallic building materials; goods for structural engineering, civil engineering, building and construction, namely non-metallic clevis, non-metallic clevis pins, non-metallic corbels, non-metallic rails, non-metallic bolts, non-metallic screws, non-metallic fasteners, non-metallic bars, non-metallic threaded bars, non-metallic shims, non-metallic washers, non-metallic dowels, non-metallic sleeves, non-metallic caps, non-metallic nuts, non-metallic expansion plugs, non-metallic expansion shells and non-metallic shell plugs, all the aforesaid being non-metallic building materials; goods for structural engineering, civil engineering, building and construction, namely non-metallic nails, non-metallic treenails, non-metallic rings, non-metallic discs, non-metallic hooks, non-metallic pins, non-metallic rigid pipes, non-metallic valves for rigid pipes, non-metallic rigid tubes, non-metallic hoses, non-metallic cladding, non-electric non-metallic ducts, non-metallic spindles for tendons and non-metallic coupler spindles for tendons, all the aforesaid being non-metallic building materials; goods for structural engineering, civil engineering, building and construction, namely non-metallic mouldings, non-metallic climbing forms, non-metallic armaments, non-metallic parapets, non-metallic bearings, non-metallic drill pipes, non-metallic drilling rods and non-metallic drilling scaffolds, all

the aforesaid being non-metallic building materials; goods for structural engineering, civil engineering, building and construction, namely non-metallic grids, non-metallic meshes, non-metallic nets, non-metallic girders, non-metallic lattice girders, non-metallic drive-heads for cable bolts, non-metallic cartridges for resins, non-metallic cartridges for cement, non-metallic mounting brackets and non-metallic clips, all the aforesaid being non-metallic building materials; goods for structural engineering, civil engineering, building and construction, namely non-metallic sheaths being building materials, for tendons, anchors, wire strands, piles, nails, rods, bars, bolts and non-electric cables; goods for structural engineering, civil engineering, building and construction, namely non-metallic connectors and couplings being building materials, for rods, poles, piles, beams, bars, bolts, screws, pipes, tubes, hoses, cables, ropes, wire strands, wires, anchors, tendons and prestressing elements; goods for structural engineering, civil engineering, building and construction, namely semi-finished resin and finished resin building materials; non-metallic scaffolding; transportable buildings, not of metal; non-metallic non-electric cable channels, being building materials; goods for structural engineering, civil engineering, building and construction, namely erosion control mats, erosion control sheeting and erosion control fabric, all the aforesaid being non-metallic building materials; geotextiles; non-metallic railway sleepers; asphalt; pitch; tar; bitumen; grout; grouting compounds; cement; cementitious compounds; concrete; mortar; clay; stone; artificial stone; parts and fittings for all the aforesaid goods, included in this class.

Class 37:

Building construction; building services; construction services; building reinforcing; building demolition; dismantling services; excavation services; grouting services; grout reinforcement for buildings, roads, paths, railways, bridges, pipelines, pipes, tanks, silos, tunnels, mines and structures; drilling services; stressing of concrete; stressing of metal; ground stabilization services; soil stabilization services; rock stabilization services; snow-removal and de-icing services with respect to products for structural engineering, civil engineering, construction

and building, and parts thereof; snow-removal and de-icing services with respect to buildings, roads, paths, railways, bridges, pipelines, pipes, tanks, silos, tunnels, mines and structures; scaffolding; on-site building project management for third parties; building (construction) management services; construction management services; building project management services; construction project management services; building consultancy; construction consultancy; building (construction) supervision; construction supervision; installation, repair, restoration and maintenance services with respect to products of mechanical engineering and electrical engineering, products for structural engineering, civil engineering, construction and building, and parts thereof; installation, repair, restoration and maintenance services with respect to buildings, roads, paths, railways, bridges, pipelines, pipes, tanks, silos, tunnels, mines and structures; installation, repair, restoration and maintenance services with respect to industrial installations, vehicles, trains, apparatus and machines, and parts thereof; installation, repair, restoration and maintenance services with respect to ropes, cables, pipes, tubes, mesh, nets, masts, stadiums, chimneys, funnels, fireplaces, towers, domes, facades, elevated flares, silos, bunkers, canals, heating boilers, superheaters, desulfurizer installations, reactors, tanks, mobile platforms, working platforms, winches, aircrafts, robots, and parts thereof; supervision of installation, repair, restoration and maintenance with respect to products of mechanical engineering and electrical engineering, products for structural engineering, civil engineering, construction and building, and parts thereof; supervision of installation, repair, restoration and maintenance with respect to buildings, roads, paths, railways, bridges, pipelines, pipes, tanks, silos, tunnels, mines and structures; supervision of installation, repair, restoration and maintenance with respect to industrial installations, vehicles, trains, apparatus and machines, and parts thereof; supervision of installation, repair, restoration and maintenance with respect to ropes, cables, pipes, tubes, mesh, nets, masts, stadiums, chimneys, funnels, fireplaces, towers, domes, facades, elevated

flares, silos, bunkers, canals, heating boilers, superheaters, desulfurizer installations, reactors, tanks, mobile platforms, working platforms, winches, aircrafts, robots, and parts thereof; inspection of products of mechanical engineering and electrical engineering, products for structural engineering, civil engineering, construction and building in the course of building construction; inspection of products of mechanical engineering and electrical engineering, products for structural engineering, civil engineering, construction and building prior to maintenance and repair; inspection of buildings, roads, paths, railways, bridges, pipelines, pipes, tanks, silos, tunnels, mines and structures in the course of building construction; inspection of buildings, roads, paths, railways, bridges, pipelines, pipes, tanks, silos, tunnels, mines and structures prior to maintenance and repair; inspection of industrial installations in the course of building construction; inspection of industrial installations, vehicles, trains, apparatus and machines prior to maintenance and repair; inspection of masts, stadiums, chimneys, funnels, fireplaces, towers, domes, facades, elevated flares, silos, bunkers, canals, desulfurizer installations, reactors, tanks, mobile platforms and working platforms in the course of building construction; inspection of ropes, cables, pipes, tubes, mesh, nets, masts, stadiums, chimneys, funnels, fireplaces, towers, domes, facades, elevated flares, silos, bunkers, canals, heating boilers, superheaters, desulfurizer installations, reactors, tanks, mobile platforms, working platforms, winches, aircrafts, robots prior to maintenance and repair; rock and soil blasting; rustproofing; anticorrosion treatment; anti-radiation treatment; application of surface coatings; application of protective surface coatings; lifting of loads in the fields of structural engineering, civil engineering, building and construction; moving of loads in the fields of structural engineering, civil engineering, building and construction; cleaning services; hire, rental and leasing of goods associated with the provision of all the aforesaid services, included in this class; consultancy and information services relating to all the aforesaid services, included in this class.

Class 42:

Scientific and technological services and research; industrial analysis services; industrial research services; technical consultancy services relating to structural engineering and civil engineering; technical supervision and inspection; technical project planning; technical project management; technical project studies; technological planning services; constructional planning and design; construction planning; construction drafting and consultancy; architectural drafting and consultancy; architectural services; engineering services; structural engineering; civil engineering; development, programming, installation, implementation, updating, maintenance and repair of computer software; software as a service; platform as a service; development of computer hardware; computer programming; IT consultancy, advisory and information services; hosting websites; hosting platforms on the internet; hosting portals on the internet; computer analysis and diagnostics; testing, authentication and quality control; product safety testing; technical testing services; testing of materials; technical testing laboratory services; laboratory services; geological research and prospecting; design services; product research; product development; development of new products and technologies for third parties; design and development of safety concepts; design and development of rescue concepts; design and development of solutions for the access of humans and mobile equipment to structures, buildings, bridges, pipelines, pipes, masts, tunnels, stadiums, chimneys, funnels, fireplaces, towers, domes, facades, elevated flares, silos, bunkers, canals, heating boilers, superheaters, desulfurizer installations, reactors, tanks and industrial installations; design and development of solutions for the movement of humans and mobile equipment in and on structures, buildings, bridges, pipelines, pipes, masts, tunnels, stadiums, chimneys, funnels, fireplaces, towers, domes, facades, elevated flares, silos, bunkers, canals, heating boilers, superheaters, desulfurizer installations, reactors, tanks and industrial installations; measurement services; provision of technical surveys; surveying; technical survey services; quality management (quality control) by engineers and architects; engineering services relating to remote controlling and remote monitoring of products

of mechanical engineering and electrical engineering, and parts thereof; engineering services relating to remote controlling and remote monitoring of products for structural engineering, civil engineering, construction and building, and parts thereof; engineering services relating to remote controlling and remote monitoring of buildings, roads, paths, railways, bridges, pipelines, pipes, tanks, silos, tunnels, mines and structures; engineering services relating to remote controlling and remote monitoring of industrial installations, vehicles, trains, apparatus and machines, and parts thereof; engineering services relating to remote controlling and remote monitoring of ropes, cables, pipes, tubes, mesh, nets, masts, stadiums, chimneys, funnels, fireplaces, towers, domes, facades, elevated flares, silos, bunkers, canals, heating boilers, superheaters, desulfurizer installations, reactors, tanks, mobile platforms, working platforms, winches, aircrafts, robots, and parts thereof; engineering services relating to remote monitoring of blasting activities; remote environmental monitoring of waste dumps; remote environmental monitoring of earth, soil and rock surfaces; remote environmental monitoring of waste dumps; remote environmental monitoring of groundwater; remote environmental monitoring of rivers and waterways; remote environmental monitoring of water pressure and quality; remote environmental monitoring of sewers; remote environmental monitoring of dams; remote environmental monitoring of water courses and reservoirs; remote environmental monitoring of runways and waterways; engineering services relating to remote monitoring of mechanical processes; environmental monitoring services; weather forecasting; mapping services; technological services, namely generating and analyzing of data concerning products of mechanical engineering and electrical engineering, and parts thereof; technological services, namely generating and analyzing of data concerning products for structural engineering, civil engineering, construction and building, and parts thereof; electronic recording of data concerning products of mechanical engineering and electrical engineering, and parts thereof; electronic recording of data concerning products for structural engineering, civil engineering, construction and building, and

parts thereof; electronic storage of data; technical services for the downloading of digital data; providing computer facilities for the electronic storage of digital data; calibration services; technical drawing; technical calculation services; analytical services utilizing radar; hire, rental and leasing of goods associated with the provision of all the aforesaid services, included in this class; consultancy and information services relating to all the aforesaid services, included in this class.

hardware and software for creating, programming, controlling, encoding, scanning, reading and interpreting RFID and NFC chips and tags; computer software for charging smart phones, tablets, and mobile electronic devices; computer software for enabling functionality of safety and testing systems, apparatus and equipment; computer software for enabling functionality of sensors for use in automotive, consumer, industrial and medical applications; computer software for managing computer networks; computer software for tracking; computer software, hardware and chipsets for use with wireless communication apparatuses, consumer electronic devices, smart phones, digital cameras, IP cameras, drones, unmanned aerial vehicles (UAVS) and wearable mobile computers; computer peripherals for processing digital signals, for processing background data and information on computer operating systems, for tracking user activity and location, for enabling activation by speech and touch and for detecting sensory cues and launching applications that correspond to specific sensory cues and computer software, hardware and chipsets for use with these goods; computer software, hardware, and chipsets for streaming music and for synchronizing audio speakers in consumer electronics devices; computer software, namely compilers, linkers, support software to assist in the development of stand-alone programs, and software for assisting in the development of object oriented software applications, database systems; computer software, namely operating systems, board support packages (BSPS), virtualization technology software, hypervisor software, embedded software, applications programming interface (API) software, software libraries used to create other computer software; applications software for automotive, consumer, health care, medical, aerospace, military, cellular and mobile communications, networking, motor control, smart energy, and industrial applications, protocol stacks, configuration software, and optimization software; content filtering software, namely, computer software for controlling content made available to a user; control plane software; data plane software; data processing apparatus and software for enabling, controlling, managing and monitoring all aspects of a paperless payment and/or access system employing RFID (radio frequency

identification) and/or NFC (near field communication) technology, including allowing users to recharge their payment accounts remotely; deep packet inspection software; downloadable computer software for developing computer hardware and software for chipsets for wireless devices; enterprise security software for use in gateway and other networking devices to provide network security; firewall software; integrated networking, security, and collaboration software; internet security software; intrusion detection and prevention software; load balancing software; VPN (virtual private network) operating software; integrated circuits, computer hardware and software for signal processing in wireless communication apparatuses, consumer electronics devices, portable media devices, mobile gaming devices, pocket computing devices, and smart phones; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; recording discs; computer network interfaces devices; electronic, electro technical and electromagnetic modules; data processing equipment; data storage apparatus; interfaces for computers; smart cards; smart card integrated circuits; RFID chips and tags; computer hardware and software for creating, programming, controlling, encoding, scanning, reading and interpreting RFID chips and tags; contactless smart cards; dual interface smart cards; dual interface integrated circuits that provide a link between contactless cards and contact cards; writers and readers for wireless transmission to and from transponder chips; electronic apparatus for writing and reading of wireless transmission to and from transponder chips; computer programs for controlling transmission of data to and reading of data from transponder chips; data processing machines for fare determination using transponder chips; encoded smart cards; computer hardware, software and peripheral devices used for access control and authentication purposes; wearable activity trackers; wearable computer peripherals; smartphones; wearable telecommunication apparatus; multicore processors; application specific integrated circuits (ASICs); integrated circuits embedded with software; signal processors; digital signal processors (DSPs); vector processors; vector signal processors; communications processors; network processors used in network and

telecommunications equipment; application-specific hardware accelerators; wireless baseband processors; base stations on a chip, namely wireless base stations on a chip; integrated circuits, namely system basis chips and systems on a chip (SOC); multicore microcontrollers; semiconductor chip sets comprised primarily of semiconductor chips; integrated circuit modules in the form of semiconductor packages and packaging, namely redistributed chip packaging (RCP), and systems-in-package (SiP); radio frequency (RF) power transistors; radio frequency semiconductors; sensors, namely, inertial sensors, pressure sensors, magnetic sensors, touch sensors, all for use in automotive, consumer, and industrial applications; proximity sensors; radar sensors; capacitive sensors; acceleration sensors; gyro sensors; sensors for computer interfaces featuring software, firmware and electronic integrated circuit chips; sensor systems comprised of sensors, computer software, microprocessors, microcontrollers, and logic or wireless protocols for enabling functionality of sensors for use in automotive, consumer, and industrial applications; electronic test instruments for developing and testing microprocessor-based systems; semiconductor memories; semiconductor devices, microcontrollers, integrated circuits, circuit boards, chipsets, all for management of operating frequency, voltage and power, optimization of static and dynamic power, power management, power optimization or power reduction; semiconductors, sensors and software for use in automotive, consumer, aerospace, military, cellular and mobile communications, networking, motor control, smart energy, and industrial applications; semiconductors and software for use in healthcare and medical applications; semiconductors, sensors and software for use in wireless connectivity, battery management, smart grid, smart metering applications, engine control units (ECUs) and tire pressure monitoring systems (TPMS); microcontrollers, firmware, sensors, and radio frequency (RF) and analog circuitry devices for use with energy efficient wireless chargers; printed circuit boards namely evaluation boards and reference design kits consisting of software for semiconductors, sensors and software; semiconductors and software for use in portable medical devices, diagnostic and

patient monitoring devices, therapy devices, and medical imaging devices; computer application software, namely, computer software for use in applications for multimedia, graphics video, audio and numerically intensive computations; computer network switching software; computer convergence network software; computer network collaboration software; quality of service software; network access software; networking software for operation of chipsets; networking software for content processing; computer software, namely, firmware, applications and development tools, for use in network content processing; failover prevention software; stateful packet inspection software; stateful application inspection software; enterprise security software; wireless radio controller software; command line management software; voice over IP software; video over IP software; networking and security software for use with unified threat management equipment, gateways, integrated access devices, routers, switches, controllers, base stations, hubs, and security appliances; utility software for facilitating computer use at remote locations and for facilitating communications among mobile users over networks; computer software for providing security to remote users and for implementing computer, software, and network security measures for remote users; component-based software modeling tool featuring a graphical user interface, automatic code generators and built-in knowledge-base for use in the rapid design, development, implementation, verification and optimization of embedded applications; software for use in developing other software titles; downloadable, searchable electronic publications, namely reference manuals, user guides, application notes and product specifications on the subject of semiconductors, sensors and software; user manuals in electronic format supplied with the foregoing.

Class 38:

Providing information in the field of telecommunications and telecommunications information relating to wireless communications and mobile technologies; consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks.

Class 42:

Providing information in the field of

computers, computer software and computer systems; providing information in the field of design and development of computer data networking; providing information in the field of network security and computer security; design for others of integrated circuits, semiconductors, microprocessors, computer hardware and software, and communications software and networks; developing, designing and testing semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software, electro technical and electromagnetic modules and their parts and building elements, data storage apparatuses, interfaces, smart cards, controllers for smart cards, controllers for RFID chips and tags for others; computer software development in the field of mobile applications; design and development of wireless communications systems for transmission and reception of voice, data and video; design and development of battery charging technology; design and development of data networking systems; design and development of network security and computer security systems; design and development of computer hardware and software for the operation and control of drones; design and development of computer hardware and software for the operation and control of robots; design and development of computer hardware and software for the operation and control of automobiles; cloud computing featuring software for transferring, storing converting and displaying medical device data; developing wireless power transfer technology for use in charging vehicles; platform as a service (PAAS) featuring computer software platforms for use in developing, programming, building, and prototyping IOT (internet of things) devices; platform as a service (PAAS) featuring computer software platforms for wireless acquisition, transmission, conversion and storage of medical device data; providing technical information in the fields of semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software; consulting in the field of telecommunications technology; design and development of wireless communications systems for authentication purposes; providing temporary use of online non-downloadable software applications, development platforms,

and development tools that enable software developers to develop, program, build, and prototype software for integrated circuits, chips and data processing equipment; computer programming services; research and design of antennas for scanning, reading and interpreting radio frequency identification (RFID) chips and tags; research and design of NFC (near field communications) apparatus, instruments and equipment; advisory services in relation to all the above.

convergence network software; computer network collaboration software; quality of service software; network access software; networking software for operation of chipsets; networking software for content processing; computer software, namely, firmware, applications and development tools, for use in network content processing; failover prevention software; stateful packet inspection software; stateful application inspection software; enterprise security software; wireless radio controller software; command line management software; voice over IP software; video over IP software; networking and security software for use with unified threat management equipment, gateways, integrated access devices, routers, switches, controllers, base stations, hubs, and security appliances; utility software for facilitating computer use at remote locations and for facilitating communications among mobile users over networks; computer software for providing security to remote users and for implementing computer, software, and network security measures for remote users; component-based software modeling tool featuring a graphical user interface, automatic code generators and built-in knowledge-base for use in the rapid design, development, implementation, verification and optimization of embedded applications; software for use in developing other software titles; downloadable, searchable electronic publications, namely reference manuals, user guides, application notes and product specifications on the subject of semiconductors, sensors and software; user manuals in electronic format supplied with the foregoing.

Class 38:

Providing information in the field of telecommunications and telecommunications information relating to wireless communications and mobile technologies; consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks.

Class 42:

Providing information in the field of computers, computer software and computer systems; providing information in the field of design and development of computer data networking; providing information in the field of network security and computer security; design for others of integrated circuits, semiconductors, microprocessors, computer

hardware and software, and communications software and networks; developing, designing and testing semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software, electro technical and electromagnetic modules and their parts and building elements, data storage apparatuses, interfaces, smart cards, controllers for smart cards, controllers for RFID chips and tags for others; computer software development in the field of mobile applications; design and development of wireless communications systems for transmission and reception of voice, data and video; design and development of battery charging technology; design and development of data networking systems; design and development of network security and computer security systems; design and development of computer hardware and software for the operation and control of drones; design and development of computer hardware and software for the operation and control of robots; design and development of computer hardware and software for the operation and control of automobiles; cloud computing featuring software for transferring, storing converting and displaying medical device data; developing wireless power transfer technology for use in charging vehicles; platform as a service (PAAS) featuring computer software platforms for use in developing, programming, building, and prototyping IOT (internet of things) devices; platform as a service (PAAS) featuring computer software platforms for wireless acquisition, transmission, conversion and storage of medical device data; providing technical information in the fields of semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software; consulting in the field of telecommunications technology; design and development of wireless communications systems for authentication purposes; providing temporary use of online non-downloadable software applications, development platforms, and development tools that enable software developers to develop, program, build, and prototype software for integrated circuits, chips and data processing equipment; computer programming services; research and design of antennas for scanning, reading and interpreting radio frequency identification

(RFID) chips and tags; research and design of NFC (near field communications) apparatus, instruments and equipment; advisory services in relation to all the above.
