### 接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

### ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

Class (es) No (s).:

[511] 貨品/服務說明 :  
Specification:

Class 1:  
Chemical products for industry, science, photography, agriculture and silviculture; artificial resins in a raw condition; plastic materials in a raw condition; fertilizers for soils; extinguishing compositions; preparation for quenching and welding metals; chemical products for preserving foodstuffs; tanning materials; adhesives (tacky materials) for industry; fissile materials (nuclear energy), fuels for atomic piles, uranium, products for stripping gases, propellant gases for aerosols, protective gases for welding, solidified gases for industrial use, hydrogen, helium, methane, nitrogen gas; chemical catalysts; chemical additives for fuels.

Class 4:  
Fuels (including gasolines for engines) and lighting materials; alcohol-based fuels; alcohol used as a fuel, coal balls, combustible briquettes, wood briquettes, fuels, non-chemical fuel additives, gasified fuel mixtures, coal (fuels), gas oil, combustible gases, oil gas, lighting gas, solidified gases (fuels), gasolines, petroleum jelly for industrial use, tar oil, coal oil, lubricating oil, combustible oils, motor oils, kerosene, heating oil, raw or refined petroleum; compositions of fuels, i.e. methane, liquid hydrogen, hydrogen gas; liquefied petroleum gas; industrial oils and fats; lubricants; products for absorbing, spraying and binding dust; natural gas, natural gas for vehicles, electric energy; coal for industrial use.

Class 6:  
Metal fuel tanks, metal containers for pressurized gas, metal central heating pipes. Metal building materials for installations producing renewable energy, steel constructions for producing renewable energy; steel pipes, metal frameworks; metal (building) frames, conduits, metal pipes for building wind turbines and installations for producing renewable energy, metal buildings for producing renewable energy; metal transportable building structures for producing renewable energy; metal anchoring plates, flanges, collars, metal gaskets, metal dowels and pegs for building wind turbines and installations for producing renewable energy; non-electric metal cables and wires, towers, metal posts for transporting electricity stemming from renewable energy.

Class 7:  
Apparatuses and installations for producing electricity (generators), blowers for compressing, sucking up and transporting gases, pumps for heating installations, carbon brushes (electricity), current generators, dynamos, water heaters (portions of machines), pressure regulators (portions of machines), booster compressors, heat exchangers (portions of machines). Wind turbine systems, turbines of wind turbine systems, wind turbine engines and

their parts and accessories, wind power stations, aerogenerators, wind turbine generators, wind turbine towers and masts, blades, blade hubs, rotors, wind turbine cases, yaw rings and yaw rates, rotary devices, orientation rings and gears, components for controlling wind turbine engines, i.e. primary shafts, universal joints, transmission devices; brakes and braking devices, electric gears, wind energy converters; backup power stations.

Class 9:

Measurement and control apparatuses and instruments for applications to water, for treating and purifying both urban and industrial drinking and waste waters; electricity lines, materials for electricity lines (wires, cables), electric batteries, electric cables, indicators of electric losses, electric cells, electric connections, electric line connections, electric relays, electric transformers, electric coils, valve boxes (electricity), connecting box (electricity), distribution box (electricity), junction boxes (electricity), electric cables, electric cable sheaths, printed circuits, integrated circuits, electric collectors, control panels (electricity), electric installations for remote control of industrial operations, switches, electric switching apparatuses, electric condensers, electric conductors, electric monitoring apparatuses, circuit breakers, distribution panels (electricity), apparatuses and instruments for conducting, distributing, transforming, accumulating, regulating or controlling electric current; apparatuses for analyzing gases, liquids and solids, measuring, signaling, monitoring (inspecting) apparatuses and instruments namely used in the fields of electric energy and energy produced by oil, apparatuses for analyzing air, apparatuses and systems for monitoring air pollution; monitoring apparatuses and instruments for the treatment of industrial, domestic, hospital and special waste materials; luminous or mechanical road milestones; apparatuses for recording, transmitting, reproducing sound or images; data processing equipment and computers, computer products, software, software application packages, apparatuses for capturing, counting, collecting, storing, converting, processing, inputting, emitting, transferring, transmitting, exchanging data, information, messages and signals; central processing units for information, data, sounds or images, intercommunications apparatuses, telecommunications apparatuses and peripheral telecommunications apparatuses; telephone or sound broadcasting apparatuses and stations, either free or portable, mobile or hands-free or voice-controlled; telephone earphones, telephone wires, antennas, telephone emitters, telephone transmitters, fax machines, portable or mobile fax machines, terminals for radiotelephones, wireless telephone masts, voice databases, magnetic data carriers, acoustic disks, video tapes, audio tapes, disks, compact disks, computerized games, electronic games designed to be used with a television receiver, video and film recordings, devices for editing cinematographic films, films, exposed films, cameras (cinematographic apparatuses), screens (photographs), projection screens, television sets. Equipment and systems for (remote or on-site) control and monitoring of installations producing electricity from renewable energy, in particular from wind energy; electrical

and electronic portions of wind turbines and installations for producing renewable energy; electricity distribution cabinets, electricity lines; recorded programs (software) notably software for controlling and monitoring wind turbines and installations for producing renewable energy, software for managing production of renewable energy. Photovoltaic cells.

Class 11:

Adjustment and safety accessories for water apparatuses, water filtering apparatuses, water intake apparatuses, water softening and purifying apparatuses and instruments, water piping installations, water distribution installations, installations for supplying, purifying, cooling, heating water, water sterilizers, pipe valves, seawater desalting installations, drinking water filters, pressurized water tanks, hydrants, apparatuses and installations for treating water, sewage water purifying plants, apparatuses and installations for treating and upgrading effluents; lighting, heating, steam producing, cooling, drying, ventilating, water distributing apparatuses, heating apparatuses with solid, liquid or gas combustion, electric heating apparatuses, heating boilers, hot water heating installations, non-automatic air eliminators for heating installations, humidifiers, central heating radiators, electric radiators, heating bodies, electric heating filaments, heating installations, water heaters, air-conditioning apparatuses and installations, ventilation apparatuses, heating and air-conditioning installations for vehicles, heat exchangers, air-conditioning apparatuses and installations, ionization apparatuses for treating air, apparatuses and machines for purifying air, apparatuses for deodorizing air, devices for cooling air, air filters for air-conditioning systems, air filtering installations, air heaters, air driers, air sterilizers, hot air apparatuses; refrigerating apparatuses and machines, refrigerating cabinets, chambers and containers, apparatuses and installations for heating and upgrading industrial, domestic, hospital and special waste materials, sludges, and ashes. Heating apparatuses and installations, i.e. solar heating sensors.

Class 12:

Electric vehicles, gas vehicles, earth-, air- or water-borne locomotive apparatus.

Class 16:

Paper and cardboard (either raw, semi-finished or for stationery), printed matters, bookbinding material, photographs, stationery, letterhead paper, business cards, adhesives (tacky materials) for stationery or household use, office requisites (except furniture), plastic materials for packaging, i.e.: bags, sachets, films and sheets, printers' types, letterpress plates; newspapers, periodicals, manuals, magazines.

Class 19:

Non-metal water ducts, industrial concrete for civil engineering structures, for water adduction conduits and for sewer systems; insulating (construction) glass, non-metal buildings, i.e. electric power stations, nuclear power stations, oil installations, drilling wells, pipelines, gas pipelines, non-metal electric line posts; non-metal building materials, non-metal constructions and namely

non-metal transportable constructions, non-metal stiff pipes for the building trade, asphalt, pitch, bitumen, cement, lime, slate, clay, non-metal frames for the building trade, ballast, building timber, bricks, plasters, marble, non-metal stairs, non-metal windows, non-metal doors, non-metal roof covers, non-metal blinds, non-luminous and non-mechanical (non-metal) road milestones, gutters, materials for building and surfacing roadways, pavings with lighting, binders for road maintenance, tar, tarred strips (building industry), non-metal guide rails, glass granules for making roads, sheets and plates in artificial material for making roads, gravel, granulates, non-metal building material for building installations for producing renewable energy, non-metal pipes for the building of installations for producing renewable energy, non-metal transportable constructions, non-metal scaffoldings, masts, non-metal posts for transporting electricity, non-metal anchoring plates.

Class 35:

Advertisement, advertisement in the general public and professional press, business management, business administration, office functions, distribution of leaflets, advice on organizing and managing business relating to the field of energy, business information or inquiries, reproduction of documents, computerized file management, organizing exhibitions for business and advertising purposes; business management assistance, advice on business organization and management, consultancy for business management, business know-how, business information notably in the field of energy, of protection of the environment, of novel energies; import-export agencies in the field of energy; advertising mail, dissemination of advertising matter (handouts, leaflets, printed matter, samples); assistance with managing commercial or industrial companies, information searches in computer files for others; sales promotions for others, economic forecasting in the field of energy; on-line advertising on a computer network, advertising by mailing, broadcast advertising, advertising on television; market research, market study and business appraisals in the field of energy; business advice and information relating to the production, supply, consumption of electric energy or gas, notably by producing a rate simulation of energy consumption; operating (business management) electric, gas power stations for supplying power, commercial estimation of energy consumption. business professional consultancy in the field of producing and distributing renewable energy i.e. : solar, biomass, wind and geothermal energy; price cost analysis, in particular relating to the optimization of the production and distribution of energy; services for promoting renewable energy; business management and supervision of wind turbines and of installations for producing renewable energy; business information services in the field of renewable energy, advice and assistance services for observing regulations for renewable energy producing and distributing installations.

Class 36:

Insurance; financial matters; monetary matters; real estate matters; financial analysis; lease, leasing, banking matters,

raising capital, and investing capital, insurance consultancy, financial consultancy, stock exchange list, notably in the field of energy; apartment rentals, office (real estate) rentals, financial transactions, electronic fund transfer, negotiation (financial operations) of contracts dealing with energy fuels. Financial studies and financial advice for setting up and improving wind turbines and installations for producing renewable energy.

Class 37:

Services for cleaning and maintaining piping networks, services for rehabilitating aqueducts or ducts for distributing water, services for building drainage structures, waste water sewers, structures for rain pollution control, protective structures against floods, services for refurbishing pumping stations, improvements brought to existent structures, in order to enhance safety and quality of the water supply, services for building water (drinking water, urban and industrial waste water, rain water) treatment stations; services for completing water ducts and water treatment plants and providing information on these fields, drilling of wells, works for exploiting water resources, installing and repairing irrigation devices; services for building, repairing and maintaining heat installations, electric power installations and stations, nuclear power stations, oil field installations, setting up and maintaining pipelines and gas pipelines, works for exploiting geothermal resources, mining extraction services, civil engineering, mining engineering, exploiting quarries, electrical works, railway electrification services, services for installing and maintaining electrical, heating, air-conditioning system and cooling apparatuses, services for thermal and acoustic insulation (building industry); building works, information on building, engineering and prime constructor duties, contracting authority duties, refurbishing and maintaining buildings, apartments, rehabilitating sites, buildings, warehouses, services for land-use planning; public works, rural works, pollution control works, works for restoring and rehabilitating degraded sites, services for maintenance or cleaning buildings, premises, ground, (face-lifting of frontages); disinfection, rat extermination, insect extermination; services for cleaning edifices, urban edifices, engineering structures, underground structures, road infrastructures, sites, industrial premises (outer surfaces and indoor housework), services for cleaning water ducts, industrial installations, services for high pressure cleaning of underground structures, highway maintenance and cleaning services; building services, building of edifices, buildings, factories, offices, hotels, engineering structures, underground structures, bridges; supervision (management) of building works; installing and repairing warehouses; services for demolishing buildings; assembling scaffoldings; painting, plastering, plumbing works; construction machine rentals; installing and repairing lifts, cleaning and repairing refuse chutes; installing and repairing fire or theft alarm devices; information in the field of repairs; making road coverings, sanding, renovation of motorway surfaces, of road infrastructures, of airport runways; services for cleaning roads; installation, repair, maintenance of telephone sets, of

telecommunications terminals, of telecommunications equipment and hardware, information services concerning installation, repair, and maintenance of telecommunications terminals; installation and repair of air-conditioning apparatuses. Erecting, building, installing, repairing, maintaining, servicing and checking installations for producing renewable energy, systems and machines in the field of renewable energy as well as their parts; information concerning the building of wind turbines and installations for producing renewable energy; supervising works for building wind turbines and installations for producing renewable energy; services for maintaining, servicing, checking, trouble-shooting, reconditioning and inspecting wind turbines and installations for producing renewable energy (via a worldwide network of the Internet, intranet, telephone, satellite, cable or radio wave type); services for home automation installations for operating and managing installations for producing renewable energy; technical information for operators of renewable energy installations.

Class 38:

Telecommunications, news agencies and information agencies, communications services, sound broadcasting, communications by television, by telephone, telegrams, computer communications, communications via computer terminals, telephone services, fax transmission, message transmission, computer-aided message and image transmission, exchange of data, information, messages, signals, and coded images via telephone, computer transmission, electronic messaging, computer electronic mailing systems, sound broadcasting, and mobile telephony, services for transferring calls, returning calls, directory services, voice mail services, information about telecommunications, rental of apparatuses for message transmission, rental of apparatuses for recording, transmitting, reproducing and processing sound or data, rental of telephone and radiotelephone apparatuses and sets, rental of telephone and radiotelephone receivers and transmitters, rental of fax machines, telephone and computer network services, services relating to monitoring, processing, transmitting and receiving data, signals and information processed by a computer or by telecommunications apparatuses and instruments, telecommunications and multimedia services, i.e. services for transmitting voice, data and images via wire, radio wave, satellite, mobile or fixed means; communications services on computer networks and communications services by all broadcasting means and mainly by radio, television, audio and video cassettes, cables, radio wave, satellite, Internet; broadcasting television and radio programs; broadcasting; setting up and developing on-line services on corporate information and telecommunication networks and systems; transmission of dispatches; radio or television broadcasting. telecommunication services for remotely managing wind farms and installations for producing renewable energy, by means of computer terminals and via an electronic, computer, telephone, satellite, radio wave, and cable route; Consultancy in the field of telecommunications.

Class 39:

Services for water adduction, for water distribution, services for

collecting urban or industrial waste water, and sludges; services for distributing electricity, gas, energy from oil; transport services by pipelines, gas pipelines; collecting, transporting, sorting, discharging and storing services for useful materials or industrial and radioactive urban waste materials, solid or liquid waste materials, industrial fats, office paper materials; transport of travelers, transport of goods; services for accompanying travelers, air transport services, aeronautical transport services, charter services, tour operator agency services (except for booking hotels and lodging houses), bus services, car transport, boat transport, boat rentals, trucking, chauffeur/driver services, railway transport, freight brokerage; sea transport brokerage; organization of cruises, journeys; organization of excursions; river transports; rental of garages, parking spaces and vehicles; car park services, taxi services, transit services; information on transportation, bookings for transportation; car park management, car park toll management, motorway network toll management. Distribution of renewable energy. Information on distribution of renewable energy. Operating interconnection stations, renewable energy transformation stations; operating renewable energy transport lines.

Class 40:

Transformation of fuel for producing energy, air purification, treatment of petroleum, natural gas, hydrogen, steam; information on treatment of materials notably in the field of energy. Water production services; water and drinking water treatment services, water purification services, drainage services, services relating to pollution control, to waste water purification, services for handling drinking water stations, pollution control and purification stations of urban or industrial waste water and information on these fields, services relating to pollution control of ground water, services relating to prospection, exploitation and quality management of underground water and services for evaluating and managing water resources; services for transforming raw materials, services for producing electrical, thermal, climatic energy; services for managing climatic and thermal installations, services for treating petroleum, electricity; services for upgrading oil-bearing materials, refinery services; air treatment services, air deodorization services, air purification services, air regeneration services, air cooling services; services for treating waste, refuse, industrial fats (transformation), sludges and ashes from both urban and industrial purification plants, and information on these fields, services for recycling refuse and waste, services for composting refuse and waste, services for preventing pollutions, pollution control services for soils, and services for rehabilitating degraded sites, services for rehabilitating waste water and drinkable water networks, services relating to the upgrading of industrial, domestic, hospital and special waste; services for destroying and incinerating refuse, services for eliminating toxic industrial waste, for eliminating non-toxic domestic, hospital and special waste; services for destroying archives.

Class 42:

Services for monitoring water quality; scientific and industrial research services related to protection of the environment; research centre services, laboratory services in the fields of water, treatment and purification of water; services for chemical analysis, research in chemistry, consultancy concerning safety, professional consultancy, study of technical projects, of engineering works, services for establishing blueprints (unrelated with conducting engineering projects and work (not for building) in the field of water and of water treatment; advice and know-how in the field of water and effluent treatment, services for prospecting oil, and gas, surveys of oil-bearing deposits, services for monitoring oil wells, oil-bearing installations and electrical installations; research centre services, laboratory services in the field of thermal, climatic and acoustic engineering, of electricity production and oil production; advice and know-how in the fields of thermal, climatic and acoustic engineering, of electricity and oil production; geological surveys, geological prospection and research, geological risk prevention services; engineering in the thermal, climatic and acoustic fields; research centre and laboratory services in the fields of treating industrial, domestic, hospital and special waste materials, refuse, sludges and ashes; services for upgrading industrial, domestic, hospital and special waste materials, services for research work in bacteriology, advice and know-how in the field of industrial, domestic, hospital and special waste materials, sludges and ashes of both urban and industrial stations; research centre and laboratory services in the fields of construction, building of edifices, buildings, roads, engineering structures and underground structures; advice and surveys in the field of construction and civil engineering; services relating to the security and surveillance of real estate; computer programming, computer services, i.e. elaborating, designing and updating computer software and application software packages, and technical advice in the field of telecommunications and computer science, computer rental, design of computer and telecommunications systems, studies and research in the field of operating and maintaining computer and telecommunications hardware, rental of access time on an online data bases, services for designing open spaces, architecture services; engineering works i.e. producing technical studies and projects in the fields of power engineering, of renewable energies, i.e.: solar, wind, biomass, geothermal energy; technical advice services concerning the creation, installation, construction, operation, management and supervision of wind turbines and of installations for producing renewable energy; testing of materials; remote monitoring of installations for producing renewable energy, by computers; design and developing computer hardware and software used within the scope of remote control of installations producing renewable energy, programming automation equipment concerning cybernetic activity in the energy sector; consultancy on environment protection the and on environment impacts, advice in construction, engineering works, research and development of new products; expert report (engineering work) i.e. for designing home automation and power installations; research and development services in the field of

renewable energy; services for designing treatment stations;  
 Designing interconnection stations, renewable energy transformation  
 stations; designing renewable energy transport lines.
