接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

Specification: Fire extinguishing materials; Compositions for
fire extinguishing and prevention; fire
extinguishing chemicals; chemicals for
fighting forest fires; fire suppression
chemicals; fire extinguishing foaming
concentrates; fire extinguishing foaming
surfactants; fire extinguishing fluorochemical
surfactants; chemical compositions for control
of spillage of hazardous waste and for
absorbing spills; chemical agents for
controlling hazardous spills; fireproofing
preparations; fire resistant chemicals; fire
extinguishing compounds; fire extinguishing
preparations; fire extinguishing media,
namely, carbon-dioxide (CO2) filled portables,
fire extinguishing powder, and fire-fighting
foam; fire retarding chemicals, compositions
and preparations; fire protection chemical
compositions in the nature of fire retardant
and suppression, extinguishing chemicals;
chemical preparations for use in the control
and prevention of fires; dry chemicals for
fire extinguishing; dry chemicals for fire
suppression; fireproof seals in the nature of
chemical sealants used for buildings.
Class 9:
Computer software; computer software for use
with the collection of data, for connecting to
a global computer network, for remotely
controlling lighting devices within a
building, for receiving, processing,
transmitting and displaying data, for control,
operation, monitoring and management of
heating, ventilating, air conditioning and

other building environment control equipment and systems and for the collection, management, analysis, storage, transmission and reporting of data in the field of security, safety, health, fire detection and suppression, access control, intrusion, customer care, loss prevention, inventory, business and retail performance, customer traffic, environmental, and energy management and lighting apparatus, systems and devices; computer hardware and software for the connection via the cloud, Internet or wireless networks of apparatus, systems and devices in the nature of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, and systems for inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, point-of-sale transaction analysis, video enabled applications and store execution functions; computer hardware and software for the remote control, remote operation, remote monitoring and remote management via the cloud, Internet, or wireless networks of apparatus, systems and devices in the nature of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, and systems for inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, point-of-sale transaction analysis, video enabled applications and store execution functions; computer operating systems; computer servers; electronic display devices in the nature of video display screens; video cameras; video systems comprising digital video recorders, multiplexed signal processors for display and recording of multiple cameras, and recorded event retrieval systems comprising video recorders, processors and software; closed circuit television systems for security and surveillance, including closed captioned television (CCTV) and surveillance cameras and housings, domes and related parts thereof, digital video recording hardware and software for management of the recordings; encoders and decoders; video surveillance hardware and software, namely, hardware and software for video security, closed circuit television,

digital video surveillance, digital video recording, storage and management, keyboards, encoders/decoders, video analytics, point of sale monitoring and integrated electronic security systems; video surveillance cameras; video surveillance systems; security surveillance apparatus; electric and electronic video surveillance installations; image processing apparatus; lasers for non-medical purposes; thermal imaging apparatus for night vision, not for medical use; fire-extinguishing apparatus; fire detection systems; fire detection devices; fire alarms; smoke alarms; intrusion detection systems and accompanying accessories; intrusion detection systems and accompanying accessories, namely, detection control panels, configuration software, keypad controllers, alarm sensors, electric switches, electric contacts and electric relays, telephone dialing equipment, hardwire and cellular connectors, central intrusion monitoring stations consisting of audio and visual annunciators, namely, sirens, horns, strobes, and lights; computer networking hardware and data communications equipment in the nature of communications servers; burglar alarms and warning equipment; access control devices; access control devices, including computer servers and work stations, security and facilities management software, network software and communication cards, computers, monitors, keyboards, modems and related peripherals, system controllers, door locks, exit requesters, alarm sensors, electric switches, electric contacts, electric relays, security and access cards, card and coders, card readers, pin key pads, biometric recognition apparatus in the nature of a biometric identification apparatus, power supplies, cabinets for the aforementioned items and batteries; panic button alarms; telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; asset management and tracking systems consisting of inventory control systems, theft prevention devices and asset tracking devices and radio frequency identification (rfid), microwave, electromagnetic and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; software for gas and filter selection management; network routers; wireless routers; safety, security, protection and signalling devices;

measuring, detecting and monitoring instruments, indicators and controllers; telecommunications hardware and software for monitoring and alerting remote sensor status via the Internet; calculating machines, data processing equipment and computers; computer hardware and parts, fittings and accessories in the nature of computer peripherals therefor; anti-theft alarms, anti-theft alarm keypads and anti-theft alarm control panels; gas detectors; magnetic and electromagnetic object detectors; transponders; antennas; electronic security and surveillance devices, including plastic labels, markers, and electronic readers, sensors, transmitters, receivers and controllers utilizing radio-frequency identification (rfid), microwave, electromagnetic, radio-frequency and acoustic-magnetic signalling for tracing or tracking of persons, animals, vehicles or goods; electronic apparatus for monitoring and tracking, including detaching devices and deactivators for use with inventory control and anti-theft labels and tags; electronic deactivators and detaching devices, hooks and detaching hooks for use with electronic inventory control and anti-theft tags; sensors; detectors; sensors and detector units for detecting proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion; sensors and detectors for gathering safety and security data, including proximity and carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion, not being for medical use; sensors and detectors for gathering data for transmission to insurance agencies in relation to the status of property, commercial premises and domestic premises, namely, flood detection, flare up, full grease traps, alarm/disarm of security systems, door openings, weather threats, regionalized crime threats, regionalized intrusions, trouble signals from alarm and access control panels (including door forces), presence detection, and the presence of explosive materials; sensors and detectors for gathering, processing and transmitting data using internet of things technology, namely, proximity, carbon monoxide levels, heat, gas,

temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion; data streaming apparatus in the nature of digital media streaming devices; data streaming software; motion sensors; optical beam sensors, namely, detecting, counting and tracking people; infra-red sensors, including remote sensors for use in detecting the presence of gas for industrial purposes, for use in detecting flames and for detecting; sensors for detecting, counting and tracking people; computer software used to operate, control, monitor and manage anti-theft alarms, inventory control systems, theft-prevention devices, people tracking devices and asset tracking devices; communications hardware and software for the remote control, remote operation, remote monitoring and remote management of apparatus, systems and devices; all such control, operation, monitoring and management being cloud-based, via the Internet, or via wireless networks; fire alarm systems comprising fire alarms, fire, heat and smoke detectors and sensors, flame detectors, control panels, repeaters, monitoring modules, initiating devices enabled for operation in a wireless system; electric control panels; touch sensitive control panels for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices and sprinkler systems for fire protection; Ethernet repeaters; initiating devices, namely, fire alarm boxes, Smoke detectors, Heat detectors, Flame detectors, Sprinkler waterflow detectors, and switches indicating actuation of fire suppression systems; thermostats; wireless fire alarm systems comprising fire and smoke detectors, control panels, repeaters, monitoring modules, and initiating devices enabled for operation in a wireless system; carbon monoxide detectors; fire hoses; fire hose nozzles; carbon monoxide alarms; safety equipment, namely, fire escape ladders; fire beaters; fire pumps; fire sprinklers; fire trucks; fire engines; fire extinguishers; fire boats; fire blankets; fireproof clothing, namely, clothing for protection against fire; fire resistant gloves; fireproof garments; fire detection apparatus, namely, network systems, multiplex

systems, stand alone systems, voice communication systems and fire alarm emergency phone systems, comprising, graphical command centers, manual stations, smoke detectors and sensors, flame detectors, heat detectors and sensors, water flow switches, sprinkler supervisory switches, door holders and/or closures, modems, fiber optic line drivers, alarm communicator transmitters and receivers, remote station receivers, audible and visible notification appliances, annunciators, intercoms, cathode ray tube (CRT) monitors and printers, batteries and charges and transient suppressors; fire control devices, apparatus and equipment, namely, fire extinguishing apparatus for use to disperse, water, chemical foam solution or chemical powder, featuring storage tanks for fire-fighting agents, valves and pipes for distributing agents, inductors, generators for high-expansion foam, cannons, nozzles and ejectors; fire extinguishing apparatus; fire extinguishing systems; fire suppression systems and component parts thereof; sprinkler systems for fire protection and fire extinguishing; sprinkler heads for fire sprinklers; detection and control equipment for smoke; detection and control equipment for heat; detection and control equipment for flame; automatic fire extinguishing apparatus; electric alarms for fire; fire break glass units; asbestos safety screens for firemen; safety equipment, namely, fire escape ladders; fire extinguishing apparatus for automobiles; water sprinkling devices for fire control; alarms for the detection of inflammable gases; dispersion systems using chemical powder and/or chemical foam comprised of storage tanks for the fire fighting agents, valving and piping to deliver the agents, proportioning controllers, high expansion foam generators, monitors, nozzles and eductors; flame detection instruments, namely, flame detecting instrument comprised of an infrared flame detector and CCTV (closed circuit television) camera; fire suppression nozzles; equipment for dispersing dry chemicals and foam chemicals for fire fighting, including storage tanks for the fire fighting agents, valving and piping to deliver the agents, proportioning controllers, high expansion foam generators, monitors, nozzles and educators; security cameras; security alarms; security warning apparatus, namely, sensors for detecting body heat, motion and vibrations; security control apparatus in the nature of wireless controllers to remotely

monitor and control the function and status of security systems; personal security alarms; electronic security tags; radio frequency identification (RFID) tags; electronic security and surveillance devices, including electromagnetic tags, acoustomagnetic tags, radio frequency identification (RFID) labels, electromagnetic labels, acoustomagnetic labels, radio frequency identification (RFID) readers, electromagnetic readers, acoustomagnetic readers, radio frequency identification (RFID) sensors, electromagnetic sensors, acoustomagnetic sensors, radio frequency identification (RFID) transmitters, electromagnetic transmitters, acoustomagnetic transmitters, radio frequency identification (RFID) receivers, electromagnetic receivers, acoustomagnetic receivers, electrical controllers for acoustomagnetic sensor detection systems, and electronic controllers for RFID readers; security surveillance apparatus, including hardware for video recorders, disc storage containers, encoders, decoders, and keyboards, and software for digital video recording, storage, management, point of sale monitoring, analytics, and security systems integration; automatic access security apparatus, including comprised of entry door systems comprising touch pads and security doors; software to control building environmental, access and security systems; control panels for security alarms; motion detectors; motion sensing input devices, including motion sensing controls for protecting property; security alarm systems, namely, building security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; wireless security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; anti-theft alarms in the nature of burglar alarms not for vehicles; anti-theft alarm keypads; anti-theft alarm control panels; electronic article surveillance devices, namely, UHF Radio Frequency Identification (RFID) and Acousto-Magnetic (AM) integrated traffic and metal foil detection sensors, transmitters, receivers and electrical controllers; electronic apparatus for monitoring and tracking; electronic apparatus for monitoring and tracking, namely, sensors, cameras and monitors for alarm monitoring systems; intercoms; intercom apparatus in the nature of

voice evacuation systems comprising intercoms, audio speakers and microphones; nurse call systems, namely, audio/visual signaling and communication systems for use in health care environments, comprising, nurse master stations, bath stations, patient room stations, emergency code terminals, monitors, pagers, intercoms, notification devices, dome lights, and zone lamps; vehicle tracking apparatus; digital signage; mass notification systems, comprised of speakers, signboards, strobes, sirens, pagers, lights, telephones, cell phones and computers for alerting and instructing individuals during emergency and/or disaster situations; telecommunications and data networking hardware, including devices for transporting and aggregating voice, data and video communications across multiple network infrastructures and communications protocols; computer hardware and software systems for tracking equipment and assets using GPS (global positioning system) data on a device on the tracked equipment and assets; asset management and tracking systems comprised of magnetic and electromagnetic object detectors; transponders; antennas; encoded micro particulates, plastic labels, markers, and electronic readers, sensors, transmitters, receivers and controllers utilizing radio-frequency identification (rfid), microwave, electromagnetic, radio-frequency and acoustic-magnetic signaling; electronic devices for assisting emergency personnel with people needing assistance, comprised of sensors for determining status of person and apparatus for sending electronic alerts to emergency personnel; apparatus for monitoring the size, number, flow rate and direction of objects moving through an area; positioning tags in the nature of electronic tags for goods; encoded personnel identity badges; encoded patient bracelets; asset tracking tags in the nature of electronic tags for goods; temperature sensors with radio, low frequency and infrared communication capability; electronic wireless input modules for reading data from personnel and article monitoring devices and systems; computer software for securing access to physical property, assets and buildings; software for gathering intelligence related to inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, operational compliance, point-of-sale transaction analysis, video

enabled applications and store execution functions; computer software for monitoring and controlling systems and devices for the management of motorways and tunnels; flame detection apparatus; flame detectors in the nature of fire and smoke detectors; combustion gas detectors; gas sensors for measuring gas concentration; gas alarms; gas testing instruments; gas detecting apparatus in the nature of gas sensors for measuring gas concentration, including wireless and mobile gas detecting apparatus; gas leak alarm systems comprising sensors and alarms; Programmable Logic Controller (PLC) devices; electric and electronic devices and computer software for the remote monitoring and control of, and electronic and audio interaction with, home and/or residential environmental monitoring, control and automation systems; electric and electronic devices and computer software for the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and/or residential environments; application software for use on computers and hand-held devices to enable the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and/or residential environments; electrical and electronic controls and control, automation and optimization devices, apparatus and systems for buildings, facilities and plants; electrical and electronic controls and control, automation and optimization systems for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display,

threat detection, access, and asset management devices, apparatus and systems; electrical and electronic controls and controls systems for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; on-site and field hardware, software, sensors, monitors, controls, control systems and apparatus for individual and integrated on-site and remote monitoring, control, operation, automation and optimization of, and interaction with, building, facility and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access,

asset management, automation and optimization devices, apparatus and systems; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant devices, monitors, monitoring systems, sensors, controls, control systems, and apparatus for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware and software for wired and wireless networking of building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, asset management, automation and optimization devices, apparatus and systems; system configuration and user interface software; software for use in the creation, configuration, engineering, installation and operation of building, facility, and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; software for recording, tracking, auditing and reporting the performance and compliance of environmental controls systems; application software for enabling the monitoring, control and operation of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access

and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection using a remote computer, smart phone or other mobile device; batteries; galvanic batteries; polymer lithium-ion batteries; rechargeable batteries for electric vehicles and electronic devices; accumulators; electric primary and secondary elements, namely, electric primary and secondary electrical circuits; electric fuel elements, namely, fuel cells; electric batteries, being specially designed as parts or accessories for land, air and water vehicles; chargers and parts therefor, for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; rectifiers and switching apparatus, namely, electrical switches, and battery-regulating electrical switches, electrical cell switches and capacitance meters for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; automobile accessories, namely, starter batteries; machines and apparatus for testing galvanic elements, batteries and electric fuel cells specially designed as parts or accessories for land, air and water vehicles, namely, voltmeters, and for parts for the aforesaid goods; apparatus and instruments for conducting, switching/transforming, accumulating, regulating or controlling electricity, namely electricity conduits, power switches, distribution boxes for electrical power, current transformers; apparatus for monitoring of automotive batteries; conductive grids for batteries; battery components, namely, internal frames for the purpose of providing structural durability; vents and vent covers for batteries; industrial batteries; downloadable mobile application software for use in battery monitoring, diagnostics, safety, and for education relating to battery technology; battery management systems, namely hardware and computer software for monitoring and managing battery charging, output, and performance and for thermal control; actuators; actuators, controls and switches for air ventilation and air conditioning systems and equipment; solenoid valves; control valves (electric); terminal unit valves (electric); terminal unit valve

actuators (electric); temperature monitors (valves) for central heating radiators; electric or electronic controls for automatically operating valves; directional valves for delivering fire suppression gas as component of an inert gas fire suppression system; computer software, namely automated energy management and fault detection software designed specifically to monitor, measure, analyze, track, collect, record, transmit and store energy and resource consumption data from existing building control systems and building automation systems to enable users to control multiple building control systems and building automation systems to monitor, track, manage, control, conserve and optimize energy and resource usage, and to allow real time viewing and manipulation of energy and resource usage by way of graphic displays on personal computers, servers and wireless devices and to send and receive data and alerts to users of energy and resource usage, and computer manuals and instructions relating thereto; computer software to be installed on devices or equipment to allow integration with building control systems and building automation systems from different vendors, and to transmit and receive data and instructions between the device or equipment and the building control system or building automation system and other software and allowing software to control the building control system or building automation system network and the devices and equipment connected thereunder; computer software, namely application programming interface library for the integration of third party building control systems and building automation systems with other building energy management system software or frameworks.

Class 11:

Apparatus for heating and cooling, namely, thermosiphon cooler hybrid systems for power plants consisting primarily of a thermosiphon cooler; Registers, grilles and diffusers for air distribution systems; manual air volume dampers; control grids and baffles for use with registers, grilles and diffusers for air distribution systems; air conditioning and furnace accessories, namely, baseboard and floor registers, side wall registers, ventilating registers, and diffusers; commercial registers and grilles used in heating and air conditioning systems; dampers; fire dampers; smoke dampers; combination fire/smoke dampers; control dampers; draught

dampers; draught dampers and regulators for preventing the spread of smoke; inlet vane dampers; blast dampers; mixing dampers; damper kits comprising damper bearings, counterweights, chain, chain coupling and chain lock; manual damper regulators and regulator sets comprising chain, pulleys, hooks and screws packaged together; strainers for plumbing drains; air handling devices and equipment; air handling and conditioning system louvres, shutters, grilles and penthouses; fibre glass fans and structure support, all for use with smoke defenders or control devices for measuring air flows; louvres (non-metallic); temperature responsive control apparatus; thermostatic valves; ball valves; radiator valves including thermostatic; water control valves; valves for air conditioners; safety valves for pipes; environmental control apparatus and devices; lighting apparatus, namely, lighting installations for use in fire protection and security lighting; emergency lighting fixtures in the nature of power failure backup safety lighting; emergency lighting apparatus, namely, lighting installations; safety lamps for underground use; security lights for outdoor and indoor use; security lighting incorporating a heat activated sensor or a movement activated sensor.

Class 37:

Installation, maintenance and repair of kitchen hood suppression systems, cctv and security equipment installation, smoke detector installation, fire extinguisher installation, intrusion system, automatic sprinklers installation, emergency lights, access control systems, theft prevention devices and monitoring systems comprising electronic video surveillance cameras with computer hardware and software; Installation, repair and maintenance services of computer hardware and peripherals, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices; Installation, repair and maintenance services of fire protection systems, electrical communications systems, alarm, security, and access control systems, heating systems, ventilating and air conditioning systems, electronic monitoring equipment and apparatus, traffic and transport

management systems; installation, maintenance, and repair of systems for providing heating, ventilating, air conditioning, refrigeration, energy, lighting, fire alarm, and security access systems for industrial, commercial, governmental facilities; installation, repair and maintenance of refrigeration systems, fire detection systems and alarm systems, security access systems, sprinkler systems, piping, special hazard warning systems, and fixed, portable and passive fire protection systems; building maintenance and repair; fire alarm repair; fire alarm installation; installation of fire detection systems; repair of fire damage; fire extinguisher recharging services; maintenance and servicing of fire alarm installations; technical support and advisory services relating to the installation of fire prevention equipment; providing information relating to the repair or maintenance of fire alarms; information services relating to installation and maintenance of security systems; advisory services relating to the installation of security and safety equipment; construction, repair, installation, maintenance services and inspection in the course of construction of fire protection systems, electrical communications systems, alarm systems, security and access control systems, ventilating and air conditioning systems, pipelines, valves, valve fittings and actuators, traffic and transport management systems, heating, and temperature sensing systems; leasing of building machinery related to construction sites; construction Management services, namely, supervision of construction and renovation of facilities; management consultation in the field of facilities management, namely, managing the maintenance and repair affairs of operations of facilities, facilities management services, namely, facilities management services relating to maintenance, repair, environmental control, safety of buildings, office subdivisions, facilities and equipment of buildings; installation, maintenance and repair services of fire protection and extinguishing apparatus, namely, fire alarm, detection and suppression systems; installation, maintenance and repair of security systems, apparatus and equipment; installation and maintenance of fire protection systems; technical consultation in the field of mechanical building constructions; consulting services in the field of installation and maintenance of alarm

response and verification services; consulting services in the field of installation and maintenance of vehicle security systems and vehicle navigation systems; repair of clothing for protection against fire; repair, installation and maintenance services for anti-theft alarms, anti-theft alarm keypads and anti-theft alarm control panels, magnetic and electromagnetic object detectors, transponders, antennas, encoded micro particulates, electronic article detection equipment; repair, installation and maintenance of radio frequency identification (RFID), electromagnetic, radio frequency and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; repair, installation and maintenance of customer tracking and surveillance apparatus in the nature of camera hardware systems for IP video surveillance, electronic surveillance and tracking apparatus in the nature of video surveillance installations, detachers and deactivators for use with inventory control and anti-theft tags and labels, tag deactivators, including hooks, tag detachers, including hooks; installation, maintenance and repair of electrical and electronic controls and control, automation and optimization devices, apparatus and systems for buildings, facilities and plants; installation, maintenance and repair of electrical and electronic controls and control, automation and optimization systems for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; installation, maintenance and repair of electrical and electronic controls and control systems for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion

detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; maintenance and repair of vehicles for the transportation of persons and goods, including automobiles, trucks, boats and motorcycles; maintenance and repair of parts and accessories for vehicles for the transportation of persons and goods, including without limitation, electric accumulators, batteries, hybrid and electric battery systems, cells and voltaic cells, starter batteries, and their parts, and related products for maintenance, charging and monitoring for vehicles for the transportation of persons and goods; services of installation and maintenance of batteries and filters; battery recharge services; troubleshooting and remote repair of devices for loss prevention, store performance and inventory management; none of the above relates to cleaning of buildings, offices, residential flats, parks, stadiums, cars, structures, ships and vessels.

Class 45:

Security services, namely, alarm response and verification services; monitoring and remote monitoring of alarms, security systems and home automation systems for security purposes; firefighting services; monitoring fire alarms; fire prevention consultation; rental of fire extinguishers; rental of fire alarms; providing information relating to the rental of fire alarms and fire extinguishers; fire detection and suppression services, including responding to fire alarms and providing firefighting services; provision of fire prevention-related advice; consulting services in evaluation of fire scenes; alarm monitoring services; monitoring of security systems; monitoring burglar and security alarms; electronic monitoring services for security purposes in the field of residences, businesses and commercial properties; security guard services; security guarding for facilities; providing information relating to security guard services; alarm response and verification services; monitoring and control of alarm and security systems, of water flow and of home automation systems for security purposes; centralized burglar and fire alarm services, namely, monitoring centralized burglar and fire alarm services; security services in relation to control of building environmental access and security systems in the nature of building energy management
