類別 Class 7

Grinding, polishing, sharpening and surface treatment machines and apparatus;  
Operating devices as machine parts for the aforementioned goods; spare parts and  
accessories for all aforementioned machines and plants.

紀錄冊內的貨品或服務現修改如下:

The remaining goods or services on the register now read as follows:

類別 Class 1

Fluxes, chemical substances for soldering and desoldering; cleaning solutions for  
industrial purposes, in particular for cleaning and regenerating oxidised solder  
joints, soldering tips, soldering nozzles, soldering nozzle inserts, soldering grids,  
desoldering strands; Chemicals for adhesive bonding [other than for household or  
writing purposes]; Adhesive powders and tapes for industrial use [other than for  
household or writing purposes].

類別 Class 6

Small iron goods; Welding and soldering materials, soldering wires, soldering pastes,  
soldering materials, soldering metals, soldering preparations consisting of soldering  
metals and fluxes, including flux pins; Metal bars and grids for soldering and  
welding.

類別 Class 7

Production equipment and plants for electrical engineering and electronics and their

parts and accessories; Machines and machine tools for material processing and production, in particular for the processing and production of printed circuit boards assembled with electronic components; Electrical and electronic installations, machines, appliances and apparatus; Soldering machines, soldering apparatus, soldering devices and soldering instruments as well as their parts and accessories and soldering systems consisting of them; Soldering irons, soldering tips, soldering nozzles, soldering nozzle inserts, soldering lamellas, soldering strands as parts of machines or equipment; Soldering pot, soldering baths; electric solder pumps; Overflow, reflow, selective and wave soldering machines and systems made up of them, as well as their parts and accessories; 3D printers, stencil printers and soldering stencils, printing machines for printed circuit boards, gluing machines; Brushes as machine or plant components; Radiators and devices for use in soldering machines and systems, in particular IR radiant heaters, hot-air nozzles and heating plates; Support holder for soldering irons, soldering nozzles and soldering tips; Suction devices, in particular for the suction of welding or soldering fumes; Filter devices, in particular for filtering welding or soldering fumes; Lifting and lowering stations as well as height difference and rotating stations as parts of soldering installations; Cleaning machines, in particular for cleaning printed circuit boards, solder joints on printed circuit boards and electronic components for arrangement on printed circuit boards; Cutting, drilling, milling and punching machines and apparatus; Press-in machine, in particular for pressing electronic components into printed circuit boards; Cooling devices and cooling bodies as parts of machines and plants; conveying machines and conveyor belts, in particular for printed circuit boards and electronic components as parts of machines and plants; hydraulic, pneumatic or mechanical controls; Robots for handling workpieces, in particular electronic components and printed circuit boards; Operating devices as machine parts for the aforementioned goods; spare parts and accessories for all aforementioned machines and plants.

#### 類別 Class 9

Communication equipment and computer hardware for industrial machinery and equipment; Control devices [regulators], electronic controls for machinery and equipment; Industrial controls with integrated software, industrial automation controls; Individually programmable controls; Software, robotic process automation software [RPA] and downloadable computer software for the design and modelling of 3D printed products, mobile application software for smart devices, in particular tablet PCs and smartphones, including individually programmable software; Instruments for measuring, counting, aligning, calibrating, measuring temperatures and physical quantities, other than for medical purposes; Thermocouples and thermometers; Test and quality control equipment, test equipment for electronic components and for assembled printed circuit boards; Replication equipment, scanners; Monitoring instruments and apparatus, diagnostic, investigative and monitoring equipment; Audio, visual and photographic monitoring equipment for monitoring industrial processes, in particular for monitoring a soldering or desoldering process; Sensors and detectors; Printers.

#### 類別 Class 35

Retail trade and wholesale trade services in electrical and electronic manufacturing equipment and installations, as well as material processing machines and machine tools, including their parts and accessories, in particular soldering machines, soldering apparatus, soldering devices and soldering instruments and soldering equipment consisting of them, printers, stencil printers and soldering stencils, printing machines for printed circuit boards, gluing machines, heating, suction and filtering apparatus, cleaning machines, press-in machines, Cooling appliances and cooling bodies, conveyors, conveyor belts, controls, control devices, robots, software, measuring, counting, alignment and calibration instruments, thermocouples and thermometers, testing and quality control devices, replication devices, scanners,

monitoring instruments and apparatus, diagnostic, examination and monitoring devices as well as sensors and detectors, soldering accessories, in particular fluxes, chemical substances for soldering and desoldering, cleaning agents, chemicals for gluing, small hardware, welding and soldering materials.

類別 Class 37

Installation, assembly, maintenance and repair of industrial plants, machinery and plants for process and production engineering; Installation, maintenance and repair of computer network and information technology equipment and electrical and electronic equipment for use in industrial plants, machinery and equipment for process and production engineering; Disassembly work.

類別 Class 42

Scientific and technological services in the field of manufacturing and process optimisation, as well as related technical consultancy; Development, programming and implementation of software and hardware development for products and equipment of mechanical, electrical and electronic engineering, in particular for the printed circuit board industry; Services provided by engineers, in particular for the construction of machines, systems and plants for production and process optimisation in the printed circuit board industry; Research and development services in the fields of mechanics, electrics, software and optics, in particular for manufacturing technology in the printed circuit board industry; Technical drawing [engineering service], construction planning and construction of machines and plants, in particular for production technology in the printed circuit board industry; Testing, authentication and quality control, in particular in the field of industrial production machines and plants, including the performance of technical tests; Preparation of technical-scientific reports relating to the commissioning of production facilities.
