商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; computer hardware consisting of stand-alone voice controlled information devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; computer software used for controlling stand-alone voice controlled information devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; accessories, namely, power adapters and remote controls for the same foregoing smart audio speakers; voice command and recognition software, speech to text conversion software; voice-enabled software applications for personal information management; personal assistant software; home automation and home device integration software; personal vehicle integration software; wireless communication software for voice, audio, video, and data transmission; search engine software; computer software used for controlling stand-alone voice controlled information and personal assistant devices; computer software for personal information management; computer software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, software application marketplaces; computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; computer software for use in providing retail and ordering services for a wide variety of consumer goods; computer software for use to connect and control internet of things (IoT) electronic devices; computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; computer software for use as an application programming interface (API); software

development kits (SDKs) consisting of computer software development tools for the development of voice service delivery and nature language understanding technology across global computer networks, wireless networks, and electronic communications networks; software development kits (SDKs) consisting of computer software for the development, use, and interoperability of application programming interfaces (APIs) that are used by electronic devices, systems, and interchanges that exchange data via communications networks and the internet and that connect with cloud-based data storage and exchange services; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to internet connected consumer electronic devices; application programming interface (API), namely, software facilitating the development of voice service delivery and personal assistant capability tools in connection with consumer electronic devices; computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; computer software development tools; voice-enabled software that provides users the ability to control features of their motor vehicle, namely, locking and unlocking vehicle doors, and starting and turning off the vehicle; voice-enabled software that provides users the ability to check statuses of motor vehicle systems, namely, engine oil life, fuel level, tire pressure and battery charge; voice-enabled software that provides users the ability to access and control vehicle Heating, Ventilation and Air Conditioning (HVAC), media, communication, infotainment and navigation systems; in-vehicle, voice-enabled software that provides users the ability to connect and control smart home connected and internet of things (IoT) electronic devices; software for transmitting vehicle diagnostic and status information via computer and communications networks; software for receiving traffic status information and providing responsive directional guidance information to vehicle operators; software that enables communication between vehicles and connected devices; navigation system,

computer software application for use in connecting entertainment multimedia interface in motor vehicles; navigation systems; vehicle accessories, namely, infotainment systems integrated to handle communications, entertainment and navigation; motor vehicle automation equipment, namely, computer software for operating and controlling cruise controls for motor vehicles, navigation apparatus for vehicles in the nature of on-board computers, navigational instruments for vehicles, computer software and sensors for monitoring and recording vehicle wear and fuel efficiency.

Class 38:

Telecommunications; telecommunications, namely, communication via portable electronic devices, portable media players, portable digital devices, for transmitting, accessing, receiving, uploading, downloading, encoding, decoding, streaming, displaying, storing, caching, and transferring voice, audio, visual images, data, books, photos, videos, text, content, audiovisual works, multimedia works, literary works, files, and other electronic works; streaming of audio, visual and audiovisual material via the internet or other computer or communications network; communications services, namely, transmission of voice, audio, visual images via global communications networks; interactive broadcasting and webcasting services over the internet and telecommunications networks; telecommunication access services; telecommunications services, namely, electronic transmission of streamed and downloadable audio files via computer and communications networks; web casting services; telecommunications services, namely, electronic transmission of streamed and downloaded audio, video and multimedia content files via computer and communications networks; audio broadcasting of spoken word, music, concerts, and radio programs; electronic transmission of information and data; providing access to databases; providing telecommunication connectivity services for the transfer of images, messages, audio, visual, audiovisual, data, media and content to in-vehicle media, communication, infotainment and navigation systems; telecommunications services, namely, transmission of podcasts; telecommunications services, namely, transmission of webcasts; transmission of vehicle diagnostic information via computer and communications networks;

transmission of motor vehicle status information via computer and communications networks; communication services, namely, transmission of voice, audio, visual images and data by computers, digital transmission, satellites, telecommunications networks, wireless communication networks, the Internet, for providing the driver of a vehicle with information, namely, traffic and weather conditions, travel destination information and parking information, as well as safety and convenience services; Satellite transmission of messages and data for navigation by air; Transmission of data, sound and images by satellite; telematic sending of information in the field of in-vehicle communication service for wireless vehicle navigation and tracking; wireless communications services, namely, wireless electronic transmission of data regarding points of interest for vehicles; telecommunication services, namely, electronic transmission of voice messages and data.

Class 39:

Travel arrangement; providing information, news, and commentary in the field of travel, available vehicle parking, current vehicle traffic, and transportation; providing traffic status information and responsive directional guidance information to vehicle operators; providing navigation and information services, namely, information regarding traffic and traffic congestion; provision of information regarding travel; provision of information to travelers regarding fares, time tables and means of public transport; services of a travel agency, namely, the booking of rental services of cars, boats and other vehicles; all of the aforesaid services also provided via a communications network or a mobile telephone or a wireless navigation device; services of a travel agency, namely, booking of rental cars, boats and other vehicles; all of the aforesaid services also provided via a communications network or a mobile telephone or a wireless navigation device; providing vehicle location and direction information; GPS navigation services, namely, transmitting points of interest to vehicles.

Class 40:

Navigation system component custom manufacturing services.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware

and software; software as a service (SaaS) featuring software for use in connection with digital content subscription service providing search platforms to allow users to request and receive digital media content; software as a service (SaaS) featuring software for distributing, downloading, transmitting, receiving, playing and displaying, storing and organizing text, graphics, images, audio, video, and multimedia content; service provider (asp) services featuring hosting computer software applications of others, application service provider (asp) services featuring computer software and providing online non-downloadable software, namely, computer software for distributing, downloading, transmitting, receiving, playing and displaying, storing and organizing text, graphics, images, audio, video, and multimedia content, voice recognition software, speech to text conversion software, and voice-enabled software applications, and research and design relating thereto; software as a service (SaaS) for controlling voice controlled information devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; platform as a service (PaaS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (PaaS) featuring computer software platforms for personal assistant software; platform as a service (PaaS) featuring computer software platforms for home automation and home device integration software; platform as a service (PaaS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; software as a service (SaaS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; software as a service (SaaS) featuring computer software for personal information management; software as a service (SaaS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; software as a service (SaaS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; online non-

downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; software as a service (SaaS) featuring computer software for use to connect and control internet of things (IoT) electronic devices; software as a service (SaaS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; software as a service (SaaS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; software as a service (SaaS) featuring computer software for use as an application programming interface (API); design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition; technical support and consultation services for developing applications; application service provider (asp) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; provision of internet search engine services; information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; providing information, news, and commentary in the field of science and technology, home decorating, weather; voice-enabled software as a service (SaaS) that provides users the ability to control features of their motor vehicle, namely, locking and unlocking vehicle doors, and starting and turning off the vehicle; voice-enabled software as a service (SaaS) that provides users the ability to check statuses of motor vehicle systems, namely, engine oil life, fuel level, tire pressure and battery charge; voice-enabled software as a service (SaaS) that provides users the ability

to access and control vehicle Heating, Ventilation and Air Conditioning (HVAC), media, communication, infotainment and navigation systems; in-vehicle, voice-enabled software as a service (SaaS) that provides users the ability to connect and control smart home connected and internet of things (IoT) electronic devices; software as a service (SaaS) for transmitting vehicle diagnostic and status information via computer and communications networks; software as a service (SaaS) for receiving traffic status information and providing responsive directional guidance information to vehicle operators; software as a service (SaaS) that enables communication between vehicles and connected devices; development and design of information databases and computer hardware for use with navigation systems, route planners, electronic maps and digital dictionaries; computer software and hardware design; development and design of software for use with navigation systems, route planners, electronic maps and digital dictionaries; remote monitoring of the functioning and use of electrical equipment, namely, Heating, Ventilation and Air Conditioning (HVAC) units; remote monitoring of the functioning and use of electrical equipment, namely, heating and cooling accessories in the nature of heaters and air conditioners; home and business automation services, namely, scheduling to turn on Heating, Ventilation and Air Conditioning (HVAC) units; home and business automation services, namely, scheduling to turn on heating and cooling accessories in the nature of heaters and air conditioners; navigation system component design services; electronic storage of digital data, light files, sound, data, information and image signals, all in particular for navigation systems, route planners and the use of electronic maps.
