

香港特別行政區政府知識產權署商標註冊處

Trade Marks Registry, Intellectual Property Department

The Government of the Hong Kong Special Administrative Region

### 接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

### ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

#### 類別 Class 6

[210] 商標申請編號： 302059245

Application No.:

[540] 商標：

Mark:

[550] 商標種類： Ordinary

Mark Type:

一系列商標： Yes

Class(es) No(s).:

[511] 貨品/服務說明 : Class 9:  
Specification: Computer antivirus software; computer software for providing network, Internet, and computer security; computer software for providing online identity protection and parental control; computer software for providing intrusion detection and prevention; computer software for scanning, detecting, and removing viruses, worms, Trojan horses, adware, spyware, and other malware; Internet security software, including computer software for use in the monitoring and control of computer and online activity; computer software for providing online transaction security; fraud protection software; computer optimization software; computer software to prevent, diagnose, and repair computer problems; computer maintenance software; computer software for the back-up, storage, restoration and recovery of data, folders, and files; enterprise security software; fire wall software; privacy control software; content filtering software; cloning software, namely, software for cloning computer hard drives, software for cloning computer operating systems, software for cloning data files, software for reconfiguring personal computers; computer software for the creation of virtual private network; computer utility

software; computer utility software for removal of computer applications and software; utility software for facilitating computer use at remote locations and for facilitating communications among mobile users over networks; computer software, namely, middleware for interfacing client applications and networked or host based databases; computer software for use in updating other computer software; computer software for use in networking applications; computer software for sending and receiving facsimile transmissions from computers; computer software for connecting and managing remote computers, for synchronization of files through e-mail, for providing security to remote computer users, for implementing computer, software and network security measures for remote computer users; computer software for file management and transfer; computer software for telecommuting, namely, for connecting to and use of a remote computer network, a remote computer and mobile devices; computer software for facsimile transmission; computer software for use with a home or remote office for connecting computer network users to global networks; computer software and databases for use in diagnosis, repair and configuration of computers, computer software and computer peripherals; computer software, hardware, firmware and peripherals for network and Internet security data and system protection, and storage, server, client, and application performance management; downloadable software; computer hardware; computer hardware appliances that provide firewall, content filtering, intrusion alert, virus protection, virtual private networking and other security functions and file serving storage management; computer software for use in file, disk and systems management; computer software for use in data storage management and storage area networks; computer software for backing up and restoring computer data; computer software for use in disaster recovery; computer software for use in removable storage media management; computer software for monitoring, identifying, and rectifying file, disk, system, and computer network problems and errors; computer software for use in the field of enterprise information management; computer software for use in the field of online analytical processing (OLAP); computer software for generating reports from databases; computer software for scheduling automated processes; computer software for use in the central management of computer attached to a computer network; computer software for replicating and archiving files from one data store to another; computer software for metering the use of the other computer software; computer software for use in developing data analysis applications and other computer software; computer programs for data communications applications, and for the encryption and authentication of electronic information; computer programs for use in the field of computer system administration, namely, programs for the administration and management of computer programs and electronic data about computer systems; computer programs for managing the software configurations of computer systems and computer networks; computer programs for the sending and receiving of computer software across a computer network to accomplish software distribution and computer programs for installing and upgrading other computer software without manual

user intervention; computer programs for copying data from one electronic storage medium to another electronic storage medium; computer programs for use in teaching and training users in the use of computer software and/or computer hardware; computer programs for remotely monitoring, evaluating, demonstrating and controlling other computer programs or computer processes; computer programs for locking-down one or more computers on a computer network; computer hardware and software for authenticating users and maintaining and managing access to computer data, computer content, electronic communications, and computer networks; embedded software for network monitoring and security; embedded software for authenticating users and maintaining and managing access to computer data, computer content, electronic communications, and computer networks; computer software, namely, content management software which filters, monitors, reports on and controls use of and access to locations on computer systems and networks and on global communication networks; electronic mail and news group filtering software which prevents or shunts delivery of defined categories or origins of electronic mail messages and news postings; protection software which detects electronic inquiries for information from computer systems or of users of computer systems and organizes, monitors, controls and prevents provision of such information; privacy management software which prevents, monitors, certifies, aggregates and reports on the distribution and use of personal identification information on computer systems and networks and on global communications networks; file transfer filtering software which prevents, monitors, reports on or shunts delivery of defined categories, origins, volumes, or timeframes of electronic files; and chat filtering software which prevents, monitors, reports on, analyzes, or shunts delivery of defined categories, senders, recipients, origins, volumes or timeframes of conversations transmitted or stored electronically; computer software; computer software in the field of cryptographic network security and data security functions; computer software for integration of information logic and data between computer networks; computer software for automating a process for authentication of identity using existing databases in connection with the issuance and management of digital certificates used for authentication or encryption of digital communications, or authentication of a digital signature in an electronic transaction or communication, over the Internet and other computer networks; computer software, namely, encryption software to enable secure transmission of digital information, namely, confidential, financial and credit card information over the Internet, as well as over other modes of communication between computing devices; computer software to integrate managed security services, namely, public key infrastructure (PKI) services, digital certificate issuance, verification, management and enterprise software integration, with existing communications networks, software and services; computer software for use in analysis and reporting of firewall log data; computer software platform for bridging Internet and telephony services and enabling users to communicate and transact business faster across multiple networks via wire line

phones, mobile phones, personal computers, Personal Digital Assistants and other personal electronic devices; computer software platform for providing faster Internet connections, website resolution and e-mail deliveries; computer software for identity security; computer software for authentication and identity management information security; computer software for digital information and data access; computer software for detecting identity fraud; computer software and firmware for the management, transmission, and storage of data and information; computer software for use in networking computers; computer software for use in computer emulation; computer software for use in operating electronic mail; computer software for use in operating voice mail and voice messaging; computer software for use in database management; computer software for use in monitoring computers for security purposes; computer software for use with computer servers for controlling and managing server applications; computer telephony software; computer software for use in accessing databases; downloadable electronic publications in the nature of reference, user, technical and instructional manuals and data sheets for use with computer software, hardware, peripherals and firmware and downloadable electronic publications in the nature of manuals, white papers, articles, blogs, instructional materials, teaching materials, newsletters, magazines, newspapers, books, pamphlets in the fields of computer software and computer and on-line security, and technical documentation manuals in the fields of computer hardware and software, digital telecommunications, consumer electronics, and information technologies.

Class 16:

Computer user manuals in the field of computers, computer hardware, computer software, computer peripherals, computer security, computer services, and computer networks; printed matter and publications, namely, books, magazines, newsletters, work books, quick reference guides, technical reference manuals and conference materials in the field of computers, computer hardware, computer software, computer peripherals, and computer networks; labels and holographic labels.

Class 35:

business management services for managed public key infrastructure (PKI) services, namely application and network infrastructure security services

Class 38:

transmittal of anti-virus scanning and other network security software via a global computer network and electronic transmission of electronic mail and data featuring encryption and decryption through the management and filtering of mail sent via global computer network; information and consultancy with regard to aforementioned services; providing on-line forums for transmission of messages among computer users concerning computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer-related equipment, computer security, information technology, electronic commerce technology and global computer network technology, mobile computing, communications networks and devices, and telecommunications

equipment and devices; providing on-line chat rooms for transmission of messages among computer users concerning computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer-related equipment, computer security, information technology, electronic commerce technology and global computer network technology, mobile computing, communications networks and devices, and telecommunications equipment and devices; providing hosted electronic mail and instant messaging services.

Class 42:

Electronic storage of data files for clients to store and retrieve data via a global computer network; electronic document and email archiving services; computer services; network and Internet security services; computer consultation; computer consultation in the field of computer security; computer diagnostic services; computer services, namely, data recovery services; technical support services, namely, troubleshooting of computer hardware and software problems; technical support services, namely, providing back-up computer programs and facilities; computer virus protection services; computer software installation services; computer programming; computer software design for others; technical consultation in the field of computer software installation and maintenance; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; development, updating and maintenance of software for networks and standalone computers in the fields of security, database management, and anti-virus protection and monitoring security systems; providing information in the field of network and Internet security; providing technical information in the field of computer software applications; application service provider services; notification and delivery of software updates; providing information and online database regarding computers, computer hardware, computer software, computer networks, computer-related services, computer data storage management, enterprise computer information storage management, and online analytical processing (OLAP) systems; remote or on-site monitoring of computer systems; monitoring the computer systems of others and providing back-up computer programs and facilities; integration of computer systems and networks; computer services, namely providing information concerning the encryption and authentication of electronic data; technical consultancy services in the fields of digital media, data encryption, computer security, communication security and computer software; encryption and decryption of data for communications; web content categorization and filtering services by creating indexes of web contents available on websites and filtering unwanted electronic transmissions of web contents from websites; development, design, implementation, testing, analysis, and consulting services in the field of security, access, authorization, authentication encryption, and identification systems for computers, computer hardware and computer networks; development, integration and operation of computer systems to support issuance and management of digital certificates; computer services for creation and implementation of procedures and

practices for issuance and management of digital certificates; computer related services, namely, managed computer network and Internet security services, namely, public key infrastructure (PKI) verification, authentication, distribution and management, digital certificate issuance, verification and management, and enterprise software integration; computer services, namely, providing search engines for obtaining data on a global computer network; computer consultation regarding computer networks and internal computer networks, security services for computer networks and internal computer networks, namely, installation, design and customization of Internet and network firewall software for others; computer consulting services in the field of security integration, network security, network architecture, encryption technology, and computer security; security verification of computer network firewalls, servers and other network devices from unauthorized access, namely, analyzing global computer information network and internal computer network vulnerability; computer software consultation services for the development of software applications; designing and programming computer controlled communications systems; computer services for providing data access, collection, storage, conversion, retrieval and delivery services; virtual private networks services; application hosting; computer services, namely, providing a computer software platform that bridges Internet and telephony services and enables users to communicate and transact business faster across multiple networks via wire line phones, mobile phones, personal computers, Personal Digital Assistants and other personal electronic devices; providing a computer software platform that provides faster Internet connections, web site resolution, and email delivery; computer services that support the on-boarding, formatting, distribution, translation, and mediation of digital content for distribution via networks; application service provider (ASP) featuring billing and customer relationship management software for wireless service providers; data automation and collection service using proprietary software to evaluate, analyze, and collect service data from communications carriers; data conversion of computer program data or information from communication carriers; application service provider (ASP), namely, hosting computer software applications for others; cross-platform conversion of digital content into other forms of digital content for distribution via networks; providing temporary use of on-line, non-downloadable software for storing, managing, tracking and analyzing data in the field of Radio Frequency ID (RFID) and the Electronic Product Code (EPC); designing, creating or maintaining of computer programs for computer networks using Radio Frequency ID (RFID) and the Electronic Product Code (EPC); hosting of digital content over the Internet for use in wireless communications and with wireless communication equipment and apparatus; research services relating to computer hardware and computer software; computer support services, namely updating computer software; computer consulting services related to computer products and services; providing information in the field of new computer software applications, using computers at remote locations, and other computer and computing technology related issues; application

service provider services, namely, providing on-line, non-downloadable software for computer security testing in the fields of computer and Internet security; scientific and technological services, namely, technology consultation in the fields of computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer security, information technology, electronic commerce technology and global computer network technology, communications networks and devices, consumer electronics, mobile computing, and telecommunications equipment and devices; providing consultation services to help deployment, supervision and management of information technology projects; providing information in the field of information technology relating to communications devices, computers, computer hardware, computer software, computer peripherals, and computer networks; monitoring of computer systems for security purposes; providing security threat management systems, namely, monitoring and tracking of security vulnerabilities and problems in computer software products, the Internet, and computer networks; providing information in the fields of global computer network and local area network security, preventing computer viruses and threats, computer hardware and software applications in security.

Class 45:

providing on-line authentication of users' identities; providing user authentication services in e-commerce transactions

Class 9:

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; computer antivirus software; computer software for providing intrusion detection; software for Internet security; enterprise security software; fire wall software; privacy control software; content filtering software; cloning software, namely, software for cloning computer hard drives, software for cloning computer operating systems, software for cloning data files, software for reconfiguring personal computers; computer software for the creation of virtual private network; computer software and downloadable computer software, namely, utility software; computer utility software for removal of computer applications and software; utility software for facilitating computer use at remote locations and for facilitating communications among mobile users over networks; computer software, namely, middleware for interfacing client applications and networked or host based databases; computer and downloadable computer software for use in updating other computer software; computer software for use in networking applications; computer software for sending and receiving facsimile transmissions from computers; computer software for connecting and managing remote computers, for synchronization of files through e-mail, for providing security to remote computer users, for implementing computer, software and network security measures for remote computer users; computer software for file management and transfer;

computer software for telecommuting, namely, for connecting to and use of a remote computer network, a remote computer and mobile devices; computer software for use with a home or remote office for connecting computer network users to global networks; computer software and databases for use in diagnosis, repair and configuration of computers, computer software and computer peripherals; computer hardware; computer hardware appliances that provide firewall, content filtering, intrusion alert, virus protection, virtual private networking and other security functions; computer programs for data communications applications, and for the encryption and authentication of electronic information; computer software; computer software in the field of cryptographic network security and data security functions; computer software for integration of information logic and data between computer networks; computer software for automating a process for authentication of identity using existing databases in connection with the issuance and management of digital certificates used for authentication or encryption of digital communications, or authentication of a digital signature in an electronic transaction or communication, over the Internet and other computer networks; computer software, namely, encryption software to enable secure transmission of digital information, namely, confidential, financial and credit card information over the Internet, as well as over other modes of communication between computing devices; computer software to integrate managed security services, namely, public key infrastructure (PKI) services, digital certificate issuance, verification, management and enterprise software integration, with existing communications networks, software and services; computer software for use in analysis and reporting of firewall log data; computer software platform for bridging Internet and telephony services and enabling users to communicate and transact business faster across multiple networks via wire line phones, mobile phones, personal computers, Personal Digital Assistants and other personal electronic devices; computer software platform for providing faster Internet connections, website resolution and e-mail deliveries; computer software for identity security; computer software for authentication and identity management information security; computer software for digital information and data access; computer software for detecting identity fraud; computer software and firmware for the management, transmission, and storage of data and information; computer software for use in networking computers; computer software for use in computer emulation; computer software for use in operating electronic mail; computer software for use in operating voice mail and voice messaging; computer software for use in database management; computer software for use in monitoring computers for security purposes; computer software for use with computer servers for controlling and managing server applications; computer telephony software; computer software for use in accessing databases; downloadable electronic publications in the nature of manuals, white papers, articles, and technical documentation manuals in the fields of computer hardware and software, digital telecommunications, consumer electronics, and information

technologies; computer peripherals for network and Internet security data and system protection, and storage; downloadable electronic publications in the nature of reference, manuals and data sheets for use with computer software, hardware, peripherals and firmware and downloadable electronic publications in the nature of blogs, teaching materials, newsletters, magazines, newspapers, books, pamphlets in the fields of computer software and computer and on-line security.

Class 16:

Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks; computer user manuals in the field of computers, computer hardware, computer software, computer peripherals, computer security, computer services, and computer networks; printed matter and publications, namely, books, magazines, newsletters, work books, quick reference guides, technical reference manuals and conference materials in the field of computers, computer hardware, computer software, computer peripherals, and computer networks; labels and holographic labels.

Class 35:

business management services for managed public key infrastructure (PKI) services, namely application and network infrastructure security services

Class 38:

Telecommunications; providing on-line forums for transmission of messages among computer users concerning computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer-related equipment, computer security, information technology, electronic commerce technology and global computer network technology, mobile computing, communications networks and devices, and telecommunications equipment and devices; providing on-line chat rooms for transmission of messages among computer users concerning computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer-related equipment, computer security, information technology, electronic commerce technology and global computer network technology, mobile computing, communications networks and devices, and telecommunications equipment and devices; transmittal of anti-virus scanning and other network security software via a global computer network and electronic transmission of electronic mail and data featuring encryption and decryption through the management and filtering of mail sent via global computer network; information and consultancy with regard to aforementioned services; providing hosted electronic mail and instant messaging services.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; technical

support services, namely, troubleshooting of computer hardware and software problems; computer software installation services; computer programming; computer software design for others; technical consultation in the field of computer software installation and maintenance; notification and delivery of software updates; development, design, implementation, testing, analysis, and consulting services in the field of security, access, authorization, authentication encryption, and identification systems for computers, computer hardware and computer networks; development, integration and operation of computer systems to support issuance and management of digital certificates; computer services for creation and implementation of procedures and practices for issuance and management of digital certificates; computer related services, namely, managed computer network and Internet security services, namely, public key infrastructure (PKI) verification, authentication, distribution and management, digital certificate issuance, verification and management, and enterprise software integration; computer services, namely, providing search engines for obtaining data on a global computer network; computer consultation regarding computer networks and internal computer networks, security services for computer networks and internal computer networks, namely, installation, design and customization of Internet and network firewall software for others; computer consulting services in the field of security integration, network security, network architecture, encryption technology, and computer security; security verification of computer network firewalls, servers and other network devices from unauthorized access, namely, analyzing global computer information network and internal computer network vulnerability; computer software consultation services for the development of software applications; designing and programming computer controlled communications systems; computer services for providing data access, collection, storage, conversion, retrieval and delivery services; virtual private networks services; application hosting; web hosting; and turnkey e-commerce services being computer services for providing temporary use of non-downloadable software applications for creating and operating ecommerce websites; computer services, namely, providing a computer software platform that bridges Internet and telephony services and enables users to communicate and transact business faster across multiple networks via wire line phones, mobile phones, personal computers, Personal Digital Assistants and other personal electronic devices; providing a computer software platform that provides faster Internet connections, web site resolution, and email delivery; computer services that support the on-boarding, formatting, distribution, translation, and mediation of digital content for distribution via networks; application service provider (ASP) featuring billing and customer relationship management software for wireless service providers; data automation and collection service using proprietary software to evaluate, analyze, and collect service data from communications carriers; data conversion of computer program data or information from communication carriers; application service provider (ASP), namely, hosting computer software applications for others; cross-platform

conversion of digital content into other forms of digital content for distribution via networks; providing temporary use of on-line, non-downloadable software for storing, managing, tracking and analyzing data in the field of Radio Frequency ID (RFID) and the Electronic Product Code (EPC); designing, creating or maintaining of computer programs for computer networks using Radio Frequency ID (RFID) and the Electronic Product Code (EPC); hosting of digital content over the Internet for use in wireless communications and with wireless communication equipment and apparatus; research services relating to computer hardware and computer software; computer support services, namely updating computer software; computer consulting services related to computer products and services; providing information in the field of new computer software applications, using computers at remote locations, and other computer and computing technology related issues; application service provider services, namely, providing on-line, non-downloadable software for computer security testing in the fields of computer and Internet security; scientific and technological services, namely, technology consultation in the fields of computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer security, information technology, electronic commerce technology and global computer network technology, communications networks and devices, consumer electronics, mobile computing, and telecommunications equipment and devices; providing consultation services to help deployment, supervision and management of information technology projects; providing information in the field of information technology relating to communications devices, computers, computer hardware, computer software, computer peripherals, and computer networks; monitoring of computer systems for security purposes; providing information in the fields of global computer network and local area network security, preventing computer viruses, computer hardware and software applications in security; electronic storage of data files for clients to store and retrieve data via a global computer network; electronic document and email archiving services; computer services, namely, data recovery services; technical support services, namely, providing back-up computer programs and facilities; computer virus protection services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; updating and maintenance of software for networks and standalone computers in the fields of security, database management, and anti-virus protection and monitoring security systems; providing online database regarding computers, computer hardware, computer software, computer networks, computer-related services, computer data storage management, enterprise computer information storage management, and online analytical processing (OLAP) systems; web content categorization and filtering services by creating indexes of web contents available on websites and filtering unwanted electronic transmissions of web contents from websites; computer services; network and Internet security services; computer consultation; computer consultation in the field of computer security; computer diagnostic services; development of

software for networks and standalone computers in the fields of security, database management, and anti-virus protection and monitoring security systems; providing information in the field of network and Internet security; providing technical information in the field of computer software applications; application service provider services; providing information regarding computers, computer hardware, computer software, computer networks, computer-related services, computer data storage management, enterprise computer information management, and online analytical processing (OLAP) systems; remote or on-site monitoring of computer systems; monitoring the computer systems of others and providing back-up computer programs and facilities; integration of computer systems and networks; computer services, namely providing information concerning the encryption and authentication of electronic data; technical consultancy services in the fields of digital media, data encryption, computer security, communication security and computer software; encryption and decryption of data for communications.

Class 45:

providing on-line authentication of users' identities; providing user authentication services in e-commerce transactions

 keys; USB security keys; anti-spyware software; anti-virus  
 software; software for ensuring the security of electronic mail;  
 computer software, namely, encryption software to enable secure  
 transmission of digital information, namely, confidential,  
 financial and credit card information over the Internet, as well as  
 over other modes of communication between computing devices;  
 computer software to integrate managed security services, namely,  
 public key infrastructure (PKI) services, digital certificate  
 issuance, verification, management and enterprise software  
 integration, with existing communications networks, software and  
 services; computer software for use in analysis and reporting of  
 firewall log data; computer software for detecting, blocking, and  
 intercepting malware and other threats to computer hardware and  
 software; computer software for identity security; computer  
 software for authentication and identity management information  
 security; computer software for detecting identity fraud; computer  
 software and firmware for the management, transmission, and storage  
 of data and information; computer software for use in vulnerability  
 scanning of networks, websites and electronic devices.

## Class 42:

Advisory services relating to computer software; computer hardware and software consultancy services; computer programming and software design; research and design services relating to network security software; computer software research; design of computer software for use with wireless networks and devices; development of software for secure network operations; development, design, and implementation services in the field of security, access, authorization, authentication encryption, and identification systems for computers, and computer networks; computer systems analysis in the field of security, access, authorization, authentication encryption, and identification systems for computers and computer networks; design of software for protection of computer network firewalls, servers and other network devices from unauthorized access; design of software for the purpose of scanning, detection and removal of viruses, worms, Trojan horses, adware and spyware or any other type of malware; provision of software as a service for use in scanning networks and websites to detect and identify vulnerabilities and malware; computer security consultancy in the field of scanning and penetration testing of computers and networks to assess information security vulnerability; computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; provision of security services for computer networks, computer access and computerised transactions.
