

香港特別行政區政府知識產權署商標註冊處

Trade Marks Registry, Intellectual Property Department

The Government of the Hong Kong Special Administrative Region

接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的 後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

Specification:

Class 9:

Computer software; software for the planning, integration and optimization of Smart City applications; big data management software; operating system software and programs; network operating systems programs; computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface e-commerce software; computer software applications, downloadable; database management software; computer software platforms, recorded or downloadable; application software; downloadable computer software for remote monitoring and analysis; computer software for use in migrating between different computer network operating systems; artificial intelligence software and apparatus; software for the integration of artificial intelligence and machine learning in the field of Big Data; software

applications [apps] for Internet of Things [IoT] enabled devices; artificial intelligence and machine learning software; artificial intelligence software for analysis; predictive maintenance software; interactive software based on artificial intelligence; artificial intelligence software for vehicles and driverless cars; capacitors; embedded operating software; communication software; computer software platforms; Internet of Things [IoT] gateway; computer programs for Internet of Things [IoT] enabled devices; intelligent gateways for real-time data analysis; mobile operating systems; robot operating system [ROS]; environmentally friendly automation systems, namely, embedded operating systems and pc based software, for monitoring specified conditions and controlling respective innovative devices within a designated area; computer software for analyzing data for optimization of equipment performance and power plant production in the wind and solar energy industries, excluding computer software for surveillance or video monitoring for purposes of point-of-sale, business management and marketing data collection and analysis; computer software for energy management and optimization; accumulators; accumulators, electric, for vehicles; accumulator charging apparatus; batteries for electric vehicles; batteries; battery charging devices for motor vehicles; charging stations for electric vehicles; charging apparatus; charging counters; conductor rails for the supply of electrical power to vehicles; conductor wires for the supply of electrical power to vehicles; electric batteries for powering electric vehicles; electric batteries for vehicles; electric battery chargers; installations for data processing; starter batteries for vehicles; vehicle batteries; computing apparatus; monitoring devices for monitoring battery performance characteristics; downloadable applications for use with mobile devices; software and applications for mobile devices; apparatus for managing energy supplies; apparatus for monitoring electrical energy consumption; devices for measuring energy; electric control devices for energy management; energy control devices; computer software for orchestrating storage and consumption of energy; photovoltaic apparatus for converting solar radiation to electrical energy; computer hardware, namely, computer hardware used for

the generation, distribution, and storage of sustainable and renewable energy; computer software for the operational overview and control of devices and the production of analytics for the purpose of managing renewable assets; downloadable cloud-computing software for connecting unlimited devices to a cloud computing platform; computer software for the operational overview and control of devices and the production of analytics for the purpose of managing assets; downloadable cloud-based software; cloud network monitoring software; real-time data processing apparatus; real-Time Collaborative Editing [RTCE] platforms [software] network and communication hubs; test stations for hydrogen generators; automated process control system, namely, micro-processor based hardware and software used to monitor the status of industrial processes, namely power generation, electrical distribution and oil and gas processing; photovoltaic apparatus and installations for generating solar electricity; photovoltaic cells; solar cells; solar collectors for electricity generation; solar-powered rechargeable batteries; solar panels for electricity generation; electrical recharging apparatus; chargers for batteries; apparatus for monitoring electrical components; computer apparatus for computer aided engineering; engineering design software; measuring apparatus for use in electrical engineering; power supply apparatus [batteries]; apparatus for the supply of electricity; apparatus for electricity distribution; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; electric converters; electricity meters; voltage meters; meters for measuring current; power meters; metering instruments; apparatus for remote meter reading; capacitance meters; capacitive voltage transformers; apparatus for communication; communication devices; electrical communications apparatus adapted for use on vehicles; vehicular communication apparatus; central processing units (processors); couplers (data processing equipment); electro-dynamic apparatus for the remote control of signals current rectifiers; inverters [electricity]; meteorological instruments; surveying apparatus and instruments; batteries; electric batteries; electrolyzers; thermostat control apparatus; graphical user interface software; computer software for

playing back information about energy consumption and air quality; computer hardware, namely, computer hardware used for the reduction of carbon emissions; computer hardware, namely, computer hardware used for the reduction of energy consumption; computer hardware, namely, computer hardware used for decarbonisation equipment; computer hardware for use in the reduction of carbon footprint and overall environmental footprint of buildings; computer software for use in the reduction of carbon footprint and overall environmental footprint of buildings; solar panels for the production of electricity; batteries; solar batteries; automatic solar tracking sensors; electric sensors; gas sensors; computers; computer software and display instruments for monitoring energy consumption, temperature, opening of windows, lighting and air quality; computer servers; measuring, detecting, monitoring and controlling devices; integrated computerized system for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information related to technical data and chemical analyses; smart manufacturing system controls; level switches and level indicators for monitoring and controlling liquids in tanks and vessels; pipeline communication systems for transferring data over oil, gas, water and heat distribution pipeline networks, comprised of computer hardware, software, modems and communication cables; computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; environmental monitoring software; apparatus for monitoring gas, fuel, water and heat consumption; apparatus for measuring, monitoring and analyzing fuel, gas and electricity consumption; monitoring apparatus for Internet of Things [IoT] enabled devices; optimisation software; fuel regulating apparatus; environmental control software; computer software for use in carbon capture technologies optimization for monitoring, distribution, storage and usage of carbon; computer software for use in carbon capture data collection and analysis.

[511] 貨品 / 服務說明 : Class 9:
Specification: Cryptocurrency hardware wallets; downloadable computer software for use as a cryptocurrency wallet; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; computer hardware for cryptocurrency mining; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; downloadable computer software for managing and verifying nonfungible token transactions on a blockchain; downloadable computer software for managing nonfungible token transactions on a blockchain; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable computer software for accessing, reading, and tracking information in the field of digital assets, namely, nonfungible tokens on a blockchain; Downloadable digital artwork and images; digital collectibles software using blockchain-based software technology and smart contracts; downloadable digital media, namely, digital collectibles created with blockchain-based software technology; digital materials, namely, non-fungible tokens (NFTs);

digital trading cards; computer software for use as crypto-currency; security tokens; computer software downloaded from the internet; distributed ledger platform software; Computer application software for blockchain-based platforms, namely, software for distributed applications; software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; computer software, namely, software that enables unrelated users to develop, build and operate general purpose electronic data storage and shared computing capacity that is decentralized; downloadable cryptographic keys for receiving and spending cryptocurrency; downloadable computer software for managing digital collectible services, a market for transactions, and a registry using blockchain-based software technology and smart contracts for digital collectibles; computer software for managing and validating cryptocurrency and nonfungible tokens (NFTs) transactions using blockchain-based smart contracts; software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for the management of cryptographic security of electronic transmissions across computer networks; software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; software and hardware for use as a virtual currency wallet; software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; digital currency transaction software for transactions involving cryptocurrency; computer software to facilitate secure transactions via computer and communication networks, in the fields of banking, bitcoin or digital currency transactions; software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; cryptocurrency exchange

software; software for electronic funds transfer; computer software relating to the handling of financial transactions for transacting cryptocurrency; software for providing authentication of parties to a financial transaction; Computer software and hardware for use in providing financial and advisory services in connection with the exchanging, trading, updating, clearing, settlement, custody, investment and processing of digital currencies, commodities, cryptocurrencies or bitcoins; firmware for identifying Near field communication (NFC) tags; near field communication (NFC) technology-enabled readers; pre-recorded optical discs; compact discs containing music, graphics or computer programs; Computer peripherals; Computer bags; Mouse mats; spectacles and sunglasses; accessories of eyewear, spectacles and sunglasses; carrying cases adapted for glasses; binoculars and telescopes; magnifying glasses.

Class 35:

Selling products online, retail or wholesale, via cryptocurrency system, to strengthen customer relationships; sale of products through an online system allowing the traceability of exchanges; online retail stores services for artworks, toys, figurines, stuffed toys, collectibles, gift items, home apparatus and instruments, books, clothing, eyewear, toiletries, tableware and earthenware, jewellery, goods in precious metals or coated therewith, watch and clocks, personal articles, bag, umbrellas, confectionary, sweets, cookies; Providing digital collectible services, namely, operating an online marketplace for transactions and registry services using blockchain-based software technology and smart contracts for digital collectible; providing an online digital asset marketplace for buyers and sellers of crypto-tokens; providing online marketplaces for sellers of goods and/or services; providing a website featuring an online marketplace for selling and trading virtual goods with other user; marketing, advertising and promotion services; arranging and conducting special events for commercial, promotional or advertising purposes; Advertising of financial instruments and financial services relating to the transaction of cryptocurrency; trade show and commercial exhibition services relating to the transaction of cryptocurrency; business advice relating to marketing; media agency services

(public relations); demonstration of goods for promotion purposes; organization of exhibitions for commercial or advertising purposes; business assistance services for facilitating the exchange and sale of services and products of third parties via computer and communication networks; business advice and information in the field of blockchain technology; administration of business affairs of on-line retailing and/or retail stores; commercial administration of the licensing of the goods and services of others; commercial licensing of products and services; administrative data processing, collection and systematization of business data relating to the transaction of cryptocurrency; collection, search, compilation, systemisation, analysis, processing, management and verification of business data relating to the transaction of cryptocurrency, including for the purposes of cryptocurrency mining and/or for verifying cryptocurrency transactions via a distributed ledger technology or blockchain; administration of consumer loyalty programs; organisation of customer loyalty programmes; promotional services in the nature of organization, operation, management and supervision of loyalty and incentive schemes; Auctioneering; auctioneering provided on the Internet; brand creation; business planning relating to brands; business strategy services relating to the development of brands; branding and brand development consulting services.

Class 36:

Cryptocurrency payment processing; cryptocurrency trading services; cryptocurrency exchange services; financial consultation in the field of cryptocurrency and nonfungible tokens; providing financial information in the field of cryptocurrency and nonfungible tokens; cryptocurrency and nonfungible token exchange services featuring blockchain technology; issuance of tokens of value; issuance of nonfungible tokens; blockchain-based payment verification services; nonfungible token payment processing; nonfungible token trading services; nonfungible token exchange services; Providing cryptocurrency, namely, providing a virtual currency for use by members of an on-line community via a global computer network; Providing cryptocurrency, namely, a digital currency, incorporating cryptographic protocols, operating through the Internet, and used as a method of collateral for goods and

services; issuing tokens of value; financial services, namely, tracking, tracing, and monitoring digital or crypto assets and creating tokens for digital or crypto assets; issuance and redemption of cryptocurrency, digital currency, electronic cash and electronic money; providing financial services of crypto-currency, being any encrypted version of digital currency, including any digital currency whose characteristics are held in the form of or via a block chain; financial exchange of virtual currency, in the field of nonfungible tokens (NFTs); financial transaction services involving cryptocurrency, nonfungible tokens (NFTs) and blockchain technology; financial exchange services, namely, providing a financial exchange for trading bitcoins; providing exchange markets for trading, clearing, confirmation and financial trading risk management in the field of digitized assets such as bitcoins, cryptocurrency, fiat currencies, collateral for derivatives, derivative contracts, virtual currency, and digital currency; digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payment, exchange and transaction processing services for others; listing and trading of swaps and derivatives on digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; cryptocurrency exchange and transfer services; cryptoasset exchange and transfer services; exchange services for cryptocurrency designed for global trade; providing electronic transfer of a virtual currency; conversion and transferring of assets into digital and crypto-currency; electronic money or virtual or digital assets transfer or settlement services; mobile wallet and e-wallet services (payment services); cryptocurrency payment processing; payment services for cryptocurrency; financial transactions via blockchain; electronic wallet services (payment services); Blockchain-based payment verification services; financial services, namely electronic funds transfer and trading of cryptocurrency and providing information and data about cryptocurrency; providing a website featuring financial information regarding digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token payments; venture capital

services in the field of cryptocurrency; fund investment services, fundraising and financial sponsorship in relation to cryptocurrency; securities and commodities trading services, valuation services and venture capital services, all related to cryptocurrency; financial appraisal services, financial planning services and financial information, data, advice and consultancy services, all related to cryptocurrency; financial sponsorship for cultural and artistic projects; financial sponsorship management.

Class 42:

Technological consulting in the field of cryptocurrency and nonfungible tokens; electronic storage of cryptocurrency and nonfungible tokens for others; providing technology information in the field of cryptocurrency and nonfungible tokens; providing on-line non-downloadable computer software for use as a cryptocurrency wallet; providing user authentication services using blockchain-based software technology for cryptocurrency and nonfungible token transactions; providing a website featuring technology that enables users to generate printable cryptocurrency wallets; providing on-line non-downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; providing temporary use of non-downloadable web-based decentralized applications (DApps) for cryptocurrency trading and payment processing, cloud storage of data, and web browsing; providing user authentication services using blockchain-based software technology for cryptocurrency and nonfungible token transactions; authentication of data in the field of ownership of digital assets, namely, nonfungible tokens using blockchain technology; providing temporary use of on-line non-downloadable software for accessing, reading, and tracking information in the field of digital assets, namely, nonfungible tokens on a blockchain; Scientific and technological services and research and design relating thereto; Computer services; design of computer software for the utilization of blockchain technology; design of computer software to facilitate the transactions of cryptocurrency and nonfungible tokens (NFTs); design and provision of online platform to facilitate the transactions of cryptocurrency and nonfungible tokens (NFTs); Technical consultancy services related to digital currency transactions software for transactions involving

cryptocurrency; design, development, and implementation of software for blockchains; software development, programming and implementation in connection with the use of blockchain technology for transacting cryptocurrency; design of digital artwork and images for commercial use; Providing temporary use of on-line non-downloadable software for use in developing, building and operating general purpose electronic data storage and shared computing capacity that is decentralized; technical consulting and advisory services with respect to general purpose electronic storage and computation services that are decentralized and distributed; Providing temporary on-line use of non-downloadable software for use in trading, clearing, confirmation, and financial trading risk management for exchange market transactions in the field of digitized assets such as bitcoins, cryptocurrency, fiat currencies, collateral for derivatives, derivative contracts, virtual currency, or digital currency; Application service provider featuring application programming interface (API) for developers in the field of digitized assets such as bitcoins, cryptocurrency, fiat currencies, collateral for derivatives, derivative contracts, virtual currency, and digital currency for creating, managing, and analyzing data on distributed public ledgers and peer-to-peer payment networks; Providing on-line non-downloadable computer software for use in blockchain technology; Platform as a service (PAAS) featuring computer software platforms for use in developing software in the field of digitized assets such as bitcoins; Software as a service (SAAS) and platform as a service (PAAS) featuring software for use in connection with providing a digital platform for navigating digital art, crypto-collectibles, non-fungible tokens and other application tokens, and non-fungible token marketplaces and auctions; software as a service (SAAS) and platform as a service (PAAS) featuring software for trading, viewing and managing digital art, crypto-collectibles, non-fungible tokens and other application tokens; software as a service (SAAS) featuring software for facilitating audio, video and digital content creation, subscription services and one-time purchases; Cloud computing; authentication and certification of data relating to cryptocurrency and nonfungible tokens (NFTs) via blockchain; authentication services relating to jewellery,

precious metals, precious stones and works of art; user authentication services using technology for e-commerce transactions; web design and web development for the Internet and Intranet; worldwide web related computer services in the nature of web hosting and content creation for web pages; hosting of digital content on the Internet.

Specification:

Class 9:

Software for blockchain, cryptocurrency (cryptographic currency), digital currency and digital assets; Software for encryption; apparatus for input, extraction, transmission and storage of digital files and data; Software for interacting with blockchains; Software for creating blockchains; Computer software for creating, purchasing, negotiating, exchanging, monitoring and storage crypto currency, digital currency and other digital assets; Software for and based on technology for a ledger simultaneously recorded and synchronized on a computer network for transmission of data between connected computer hardware; Software for and based on distributed ledger technology; Software enabling development of software in the field of cryptocurrency (cryptographic currency), digital currency and decentralized applications; Software for clearing transactions (exchange), for settlement services, for clearing settlement of financial assets and for transactions, managing transfer of financial and non-financial securities assets, physical goods, digital rights and digital encryption keys for documents and document files; Software for recording financial and non-financial data and information on a cryptographic ledger or a shared cryptographic ledger; Software for recording and processing data and information in a cryptographic ledger or a shared cryptographic ledger; Computer hardware and software for database management; Data loggers, namely computer hardware and software for data collection and maintenance; Data processing systems; Digital signs; Digital recording media; Electronic databases recorded on computer media; data banks (software);

Software for processing digital files; Downloadable software for use in the field of crypto-crime, cryptocurrency and digital currency; Software for use in connection with technology for transmission of data between computer hardware and connected firmware; Computer hardware, firmware and software for recording and management of financial data and information in a cryptographic ledger or a shared cryptographic ledger; Computer hardware, firmware and software enabling users to perform electronic business transactions via a global computer network.

Class 36:

Deposits of valuables; Digital currency exchange services; E-wallet payment services; Electronic funds transfer; electronic transfer of virtual currencies; Exchanging money; Financial exchange of virtual currency; Financial information; financing services; Financial modelling; Investment of funds; Investment holding; Investment research; Economic and financial research; Issuance of tokens of value; Online banking; staking cryptocurrency.

Class 38:

Telecommunications; Communication services for the electronic transmission of data; Data exchange services (telecommunication), in particular data in databases accessible via telecommunications networks; Telecommunication services for receiving and exchanging information, messages, images and data, in particular blockchains, cryptocurrency (cryptographic currency), digital currency and digital assets; Data transmission services; Digital transmission of data; Data transmission and telecommunication services; Provision of access to databases; Provision of access to e-commerce platforms on the Internet; providing access to computer databases and cryptographic ledgers or shared cryptographic ledgers; Providing computer connections (links) on a global computer network (the Internet); Information and telecommunications links with the aforesaid; transmission of information; Transmission of database information via telecommunication networks; Mobile telephone communication services; Services provided by consultants, information and advisory services in the field of telecommunications and relating to the aforesaid services.

Class 42:

Design and development of computer hardware and computer software; Database design and

development; Cloud computing; computer system design and analysis; Computer programming services for electronic data security; Computer security services, in particular services for computer security protection against illegal access to networks; Design and development of electronic data security systems; Design and development of computer software for creating blockchains and transferring cryptocurrency and digital currency; Design and development of software for the blockchain, cryptocurrency and digital asset industries; Software design and development for blockchains, cryptocurrency, digital currency and digital assets as well as encryption software; Design and development of software on the basis of and for interaction with blockchains and for creating, purchasing, negotiating, exchanging, tracking and storing cryptocurrency, digital currency and other digital assets; Design and development of software for and based on technology for for a ledger simultaneously recorded and synchronized on a computer network for transmission of data between connected computer hardware and enabling development of software in the field of cryptocurrency, digital currency and decentralized applications; Design and development of software for and based on distributed ledger technology; Design and development of software enabling development of software in the field of cryptocurrency, digital currency and decentralized applications; Design and development of software for clearing transactions (exchange), for settlement services, for clearing settlement of financial assets and for transactions, managing transfer of financial and non-financial securities assets, physical goods, digital rights and digital encryption keys for documents and document files; Design and development of software for recording financial and non-financial data and information on a cryptographic ledger or a shared cryptographic ledger, for software for recording and processing of data and information in a cryptographic ledger or a shared cryptographic ledger and for software for database management as well as software for data collection and maintenance; Design and development of computer software for processing digital files, downloadable software for use in the field of crypto-crime, cryptocurrency and digital currency; Design and development of computer software for use

in connection with technologies for transmission of data between computer hardware and connected firmware; Software as a service (SaaS) and platform as a service (PaaS) for the blockchain, cryptocurrency, crypto-crime prevention and digital asset industries; Scientific and technical research; Industrial analysis and research; Analysis and design of computer systems based on blockchains and technology for a ledger simultaneously recorded and synchronized on a computer network; Scientific evaluation, research and analysis and preparation of reports with respect to technical research concerning Internet protocols and decentralized software protocols, cryptographic methods, decentralization and stability of ecosystems on global computer networks (the Internet); Hosting of computer sites (web sites); Hosting software used by others for clearing and settling transactions and financial assets; Hosting and rental of memory space on the Internet; Hosting and rental of memory space for blockchains, cryptocurrency, digital currency and digital assets; Services provided by consultants, information and advisory services with respect to design and development of information and communication technologies and relating to the aforesaid services.

Class(es) No(s) .:

[511] 貨品 / 服務說明 : Class 9:
Specification: Software for blockchain, cryptocurrency (cryptographic currency), digital currency and digital assets; Software for encryption; apparatus for input, extraction, transmission and storage of digital files and data; Software for interacting with blockchains; Software for creating blockchains; Computer software for creating, purchasing, negotiating, exchanging, monitoring and storage crypto currency, digital currency and other digital assets; Software for and based on technology for a ledger simultaneously recorded and synchronized on a computer network for transmission of data between connected computer hardware; Software for and based on distributed ledger technology; Software enabling development of software in the field of cryptocurrency (cryptographic

currency), digital currency and decentralized applications; Software for clearing transactions (exchange), for settlement services, for clearing settlement of financial assets and for transactions, managing transfer of financial and non-financial securities assets, physical goods, digital rights and digital encryption keys for documents and document files; Software for recording financial and non-financial data and information on a cryptographic ledger or a shared cryptographic ledger; Software for recording and processing data and information in a cryptographic ledger or a shared cryptographic ledger; Computer hardware and software for database management; Data loggers, namely computer hardware and software for data collection and maintenance; Data processing systems; Digital signs; Digital recording media; Electronic databases recorded on computer media; data banks (software); Software for processing digital files; Downloadable software for use in the field of crypto-crime, cryptocurrency and digital currency; Software for use in connection with technology for transmission of data between computer hardware and connected firmware; Computer hardware, firmware and software for recording and management of financial data and information in a cryptographic ledger or a shared cryptographic ledger; Computer hardware, firmware and software enabling users to perform electronic business transactions via a global computer network.

Class 36:

Deposits of valuables; Digital currency exchange services; E-wallet payment services; Electronic funds transfer; electronic transfer of virtual currencies; Exchanging money; Financial exchange of virtual currency; Financial information; financing services; Financial modelling; Investment of funds; Investment holding; Investment research; Economic and financial research; Issuance of tokens of value; Online banking; staking cryptocurrency.

Class 38:

Telecommunications; Communication services for the electronic transmission of data; Data exchange services (telecommunication), in particular data in databases accessible via telecommunications networks; Telecommunication services for receiving and exchanging information, messages, images and data, in particular blockchains, cryptocurrency (cryptographic currency), digital currency and

digital assets; Data transmission services; Digital transmission of data; Data transmission and telecommunication services; Provision of access to databases; Provision of access to e-commerce platforms on the Internet; providing access to computer databases and cryptographic ledgers or shared cryptographic ledgers; Providing computer connections (links) on a global computer network (the Internet); Information and telecommunications links with the aforesaid; transmission of information; Transmission of database information via telecommunication networks; Mobile telephone communication services; Services provided by consultants, information and advisory services in the field of telecommunications and relating to the aforesaid services.

Class 42:

Design and development of computer hardware and computer software; Database design and development; Cloud computing; computer system design and analysis; Computer programming services for electronic data security; Computer security services, in particular services for computer security protection against illegal access to networks; Design and development of electronic data security systems; Design and development of computer software for creating blockchains and transferring cryptocurrency and digital currency; Design and development of software for the blockchain, cryptocurrency and digital asset industries; Software design and development for blockchains, cryptocurrency, digital currency and digital assets as well as encryption software; Design and development of software on the basis of and for interaction with blockchains and for creating, purchasing, negotiating, exchanging, tracking and storing cryptocurrency, digital currency and other digital assets; Design and development of software for and based on technology for for a ledger simultaneously recorded and synchronized on a computer network for transmission of data between connected computer hardware and enabling development of software in the field of cryptocurrency, digital currency and decentralized applications; Design and development of software for and based on distributed ledger technology; Design and development of software enabling development of software in the field of cryptocurrency, digital currency and decentralized applications; Design and development of software for clearing

transactions (exchange), for settlement services, for clearing settlement of financial assets and for transactions, managing transfer of financial and non-financial securities assets, physical goods, digital rights and digital encryption keys for documents and document files; Design and development of software for recording financial and non-financial data and information on a cryptographic ledger or a shared cryptographic ledger, for software for recording and processing of data and information in a cryptographic ledger or a shared cryptographic ledger and for software for database management as well as software for data collection and maintenance; Design and development of computer software for processing digital files, downloadable software for use in the field of crypto-crime, cryptocurrency and digital currency; Design and development of computer software for use in connection with technologies for transmission of data between computer hardware and connected firmware; Software as a service (SaaS) and platform as a service (PaaS) for the blockchain, cryptocurrency, crypto-crime prevention and digital asset industries; Scientific and technical research; Industrial analysis and research; Analysis and design of computer systems based on blockchains and technology for a ledger simultaneously recorded and synchronized on a computer network; Scientific evaluation, research and analysis and preparation of reports with respect to technical research concerning Internet protocols and decentralized software protocols, cryptographic methods, decentralization and stability of ecosystems on global computer networks (the Internet); Hosting of computer sites (web sites); Hosting software used by others for clearing and settling transactions and financial assets; Hosting and rental of memory space on the Internet; Hosting and rental of memory space for blockchains, cryptocurrency, digital currency and digital assets; Services provided by consultants, information and advisory services with respect to design and development of information and communication technologies and relating to the aforesaid services.
