ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

Specification: Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; software; fire-extinguishing apparatus; protective helmets for sports; glasses, sunglasses, sports glasses; games software; fuel pumps for service stations for fueling airplane engines; fuel distribution equipment, namely, metered fuel pumps, electrical fuel level gauges, control valves for regulating the flow of gases and fuel lines; automated fuel station management systems comprising computer operating software, metered fuel pumps, rate control panels, fuel lines and dispensing nozzles for fueling land and marine vehicles and marine vehicles and aircraft; gas meters; on-board and wayside signaling and communication systems, train inspection systems, cross warning systems, switchmachines; GPS (Global Positioning System) - based tracking and monitoring systems for the railroad and transit industries; electrical devices and electrical power distribution products, namely, capacitors, circuit breakers, circuit breaker load centers, circuit closers, circuit interrupters, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supplies, electricity distribution boards

and boxes, electricity distribution consoles, electricity switchboards and switchboxes; computer software for, persons who troubleshoot and maintain programmable controllers, computer software for analyzing blood vessels including cardiac vessels which also provides calculation functions with respect to blood vessels, computer software for use with medical patient monitoring equipment, computer software for receiving, processing, transmitting and displaying data, computer software for use in developing personalized asset allocation programs; computer software for use on-line which enables office equipment dealers to submit applications, manage portfolios and communicate with the company; computer software for use in accessing mortgage and insurance information, computer software for collecting data involving vital medical signs, computer software for use in electrical power systems analyses and instructional manual in electronic format sold as a unit therewith, computer software for use by employees for financial institutions for determining financial investments for clients and in processing the sale of the identified investments, computer software for obtaining information on the flood-hazard status of real property, computer software for the development of graphical user interfaces and data visualization, computer software for use in the calculation of mortgage payments, computer software for regulating and managing vehicle fleet maintenance services, computer software for use in connection with accessing and utilizing commercial computer services, computer software for use by customers to obtain lease portfolio information, computer software for a radiology information system for use by radiologists and radiology departments, computer software for use in the database management of employee and patient information for patient monitoring and archival purposes, computer software installed on and used in connection with PC's and medical monitoring equipment for graphical user interface, computer software for use in sending encrypted and compressed data over paging carrier systems, computer software for providing access to websites where buyers and sellers can conduct business electronically, and computer software for underground navigation namely for navigation of down hole probe assembly for oil drilling and drilling assemblies for routing underground utilities; electronic, nuclear, industrial and laboratory testing, measuring, computing and control instruments and apparatus; electrical goods, electrical power generation and distribution products and electrical voltage and overvoltage surge products, namely, arresters, busways; capacitors; lighting contactors; controllers and input/output devices; fuses; lighting controls; switch boxes, LEDs, namely, light emitting diodes, voltage regulators for electric power, voltage surge protectors, voltage surge suppressors, voltmeters, electrical circuit boards, relays and timers, solenoids and limit switches, full-voltage manual starters, reduced voltage starters, electrical switches and disconnects, circuit board terminal blocks and pumping panels, circuit breakers and disconnects, transformers, electrical lighting and power circuit boards, electrical wires, cables, cords, and conductors, electrical wiring and fixtures, lightning arrestors,

electricity meters, power meters, grounding resistors, humidity and temperature sensors; building and wood sensors; industrial calibration sensors, push buttons, motor control centers, electrical resistance heating wires and electrical controllers therefore and voltage regulators included in this class; software and software programs for industrial, research, and medical use; apparatus for electrophoresis; chromatography columns and pumps; apparatus for microfabrication; apparatus for bioinformatics systems; apparatus for scintillation; imaging apparatus for radioactive and luminescent emissions; synthesis and purification integrated systems; apparatus manufacturing oligonucleotides; apparatus for microarrays; laser based optical systems for digital imaging; microarray slides; laboratory glassware; vials and microvials; microtitre plates; computer software for hospital operating room management; computer software for critical care information management; industrial process control software; computer software programs and program manuals sold as a unit for use in factory management; graphical user interface based computer programs for controlling machines in industrial automation applications; software for creating graphics displays and editing dynamic data interfaces for realtime graphics applications for industrial and business applications; communications software for connecting computer network users; software for plastic injection molding; software for control, monitoring, simulation, communications, data logging and collection, and factory automation; software to integrate manufacturing machine operations, control processes, provide data for visualization, track problems and generate production reports; packaged software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors; laptop computers, ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, display devices and terminals; computer whiteboards; system boards and processors; call control, operator interface, gage interfaces and data collectors; control and manufacturing applications, namely, statistical process control, data collection, distributed numerical control; manufacturing execution systems and document management; digital signal processing products and systems, namely industrial automation controls and programmable logic controllers; machine tools (control apparatus), namely, an adaptive control product in the nature of an external controller to optimize machine tool cutting performance of rough and semi-rough cuts; distributed and remote input/output hardware devices, input/output modules, interface modules, power supplies and mounting hardware; intrusion and burglar alarm systems; security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glassbreak sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hardwire sirens, audio speakers, electronic drivers, access control and alarm monitoring systems; fire, heat and smoke detecting and alarm units; computer card

operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access door controllers; video intrusion detectors; processing hardware and software that analyzes digital video images to automatically extract, record and report intelligence, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; cameras; closed circuit video systems; closed circuit video system comprising one or more cameras, and a camera housing; short range, wireless, radio frequency transceivers; power line transceivers; communication control hardware for operating closed circuit camera; communication control hardware, namely keypad controllers, matrix switchers, multiplexers, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices sold separately or as part of a system for operating closed circuit cameras; personal digital assistant devices configured for use by real estate professionals; communications interface devices for use with personal digital assistant devices; fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; electrical switches; electro mechanical locks; magnetic locks; handheld electronic hardware for receiving, controlling, storing, manipulating, displaying and transmitting data and for operating electronic locks; electronic access cards and readers and encoders therefore; magnetic access cards and readers and encoders therefore; smart access cards and readers and encoders therefore; proximity cards and readers and encoders therefore; key fobs and readers and encoders therefore; bar code access cards and readers, encoders, card lamination apparatus; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, inventory and individuals; infrared sensors; computer hardware and software for facilities management and controlling facility access systems and components therefore, namely, control panels, access card readers, and equipment and systems for video imaging, video monitoring; digital hard drive recording, network transmission and remote access; networked digital video storage servers, access control and surveillance applications alarm monitoring and security; computer software and hardware for controlling and operating security and access system comprising locks, doors, access, and identification; devices and security enclosures in the nature of boxes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, interface apparatus for

alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controllers, control panel housing, switch housing, transformers switches, splitters, coaxial cables, connectors, motion detectors, microphones and speakers; computer user interface software and control software for managing security, fire and access systems; electric locks; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks; electronic key fobs, readers and encoders; data processing software and computer hardware; power supplies, namely batteries, rectifiers/voltage/current regulators and transformers; control panels, namely, electronic apparatuses adapted to electrically monitor a pre-determined activity and activate a burglar alarm; siren speakers; and electronic siren drivers, namely, tone generators and amplifiers adapted to be used for sirens; computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; apparatus for detecting presence of explosives and other contraband; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; control valves for water conditioning and water filtration equipment; bioreactors for culturing cells; portable analytical instruments namely, a probe with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt density measuring device; deionization units for laboratory use, filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, and closed water systems, pulp and paper processing systems, fuel processing systems, and metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment and monitor the effectiveness of the treatment; computer software for data management in the water treatment and pulp and paper fields; electronic controllers used for processing information in the water treatment and pulp and

paper fields; apparatus for use in industrial water systems to measure and control ph and conductivity; apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; electronic test apparatus for use in water treatment; laboratory testing equipment—namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure ph, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water; electronic and electrochemical products, namely, fuel cells; apparatus for converting electronic radiation to electrical energy, namely photovoltaic solar modules, photovoltaic solar hybrid modules, electronic sensors for measuring solar radiation, solar cells; apparatus for converting electronic radiation to electrical energy, namely photovoltaic solar modules, systems, components, and all associated balance of system components, printers, laser printers, ink jet printers, multifunction and all in one printers, parts for all the aforesaid goods; electronic handheld units for the wireless receipt and/or transmission of data that enable the user to keep track of or manage personal information and which may also have the capacity to transmit and receive voice, image and video communication; software for the synchronization of data between a remote station or unit and a fixed or remote station or unit and software which enables and provides one-way and two-way wireless connectivity to data; portable digital electronic devices and software related thereto; handheld electronic devices for the wireless receipt and/or transmission of data; software for the redirection of messages, e-mail, and/or other data from a personal computer or a server to one or more handheld electronic devices; computer software and program for management and operation of wireless; telecommunications devices; computer software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for browsing and navigating through web sites on said networks; computer software for sending and receiving short messages and electronic mail and for filtering non-text information from the data; handheld electronic devices for data, voice, image and video communication; computer game software for mobile handsets; electronic game software for mobile handsets; computer software, software packages; batteries, dry cells, rechargeable batteries, battery chargers, storage batteries, solar cells, fuel cells; carbon, carbon rods for dry batteries, electric apparatus and instruments; wiring apparatus, connectors (electrical), electric cables, electrical conduits, floor ducts especially for housing electric cables, ballast (for discharge lamps), under carpet wiring systems, dimmer switches, circuit breakers, magnetic contactors and starters, circuit protectors, switch gears, electric junction boxes, appliance switches, outlet sockets, plugs (electrical), insulating materials, electric time switches, other wiring devices; signalling apparatus and instruments, video entry phones, intercom systems, electric door chimes, buzzers, fire alarms, gas leakage alarms, burglar alarms, portable emergency buzzers; acoustic machines and apparatus,

radios, cassette tape players/recorders, radio cassette recorders, portable cassette tape players, compact disc players/recorders, mini disc players/recorders, mini disc decks, DVD (digital versatile disc) audio players/recorders, secure digital players/recorders, secure digital card, speakers, tuners, amplifiers, stereo component system, record players, graphic equalizers, clock radios, IC (integrated circuit) recorders, digital sound processors, headphones, earphone, microphones, sing-along cassette players/recorders, compact disc software (recorded), electric megaphones, language laboratories, car audio systems, public address systems, audio mixers, audio equipment cleaners, audio cable, video cable, other acoustic machines; audio-visual machines and apparatus, television receivers, cathode ray tube displays, cathode ray tubes, image pick up tubes, plasma television receivers, plasma displays, LCD (liquid crystal display) television receivers, liquid crystal displays, combined television receiver with video tape recorder, combined television receiver with disc player, antenna, tuners for satellite broadcasting, tuners for television, Internet terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, video CD (compact disc) software, DVD (digital versatile disc) video players/recorders, color video systems for large-scale display, cable television systems, hard disk drivers, video imagers, electric optical display boards, multi purpose electric display systems, closed circuit video equipment systems, DVD (digital versatile disc) software, television cameras, video switchers, non-linear editing systems, editing controller, DVD (digital versatile disc) authoring system, light emitting diode display, other audio-visual machines; optical-disc machines and apparatus; optical disc drives, optical disc recorders, optical disc players, optical disc changers, optical disc cartridges, optical disc mastering systems; communication machines and apparatus, facsimile transceivers, transceivers, telephones, cellular mobile telephones, carry case for cellular mobile telephone, telephone answering machines, private automatic branch switching systems, global positioning system receivers, radio telephones, marine radars, radio paging receivers, mobile communication systems, multi-channel access radio systems, electric traffic information boards, video teleconferencing systems, personal handy-phone systems, local area network systems, AV (audio/visual) codec (encoders/decoders), in-car navigation (route guidance system), electronic system for the collection of road tolls, GPS (Global Positioning System) antenna; checking (supervision) apparatus and instruments, communication and monitoring system for apartment buildings, intruder detection systems, automated system for monitoring and controlling functions within buildings, electric multi-layer security appliances; automatic controlling machines and instruments, electric distribution boards, traffic-signal control apparatus, bus location system, ultrasonic vehicle detectors, information and telecommunications networks for managing road traffic, light dimmers, daylight switches, inverters, programmable controllers, transformers, cubicles, home electricity generation system, power

capacitors; data processing equipment; computer and computer peripheral devices, computers, word processors, computer software (recorded), image scanners for personal computer, printers, PC (personal computer) cards, computer keyboards, mouse (data processing equipment), CD-ROM (compact disc-read only memory) drives, floppy disk drives, card reader/writers, bar code readers, time recorders, handy data terminal, electronic cash registers, point of sales systems, data collection terminals, PDA (personal digital assistants), DVD-RAM/ROM (digital versatile disc-random access memory/read only memory) drive, CAD/CAM (computer aided design/computer aided manufacturing) systems, hard disc drives, electronic calculators, uninterrupted power source for computers / communication / broadcasting; external storage media, video cassette tapes, cleaning tapes, D-VHS (data video home systems), other peripherals for computers; video cassette tapes, audio cassette tapes, floppy discs, optical discs, mini-discs, DVD (digital versatile discs), IC (integrated circuit) memory card; weighing and measuring apparatus and instruments, thermoluminescence dosimetry systems, portable x-ray dosimeters, electronic counters, ammeters, power consumption meters, clamp meters, electric leakage meters, electric insulation meters, thermometers, measurement system processors, multi-circuit type electric power monitor, micro-precision measurements, body fat monitor, step counter, audio/video analyzers, oscilloscopes, modulators, voltmeters, distortion meters, other measuring apparatus; sensors, photo sensor, temperature sensors, position sensors, angular speed sensors, rotation sensors, angle sensors, dew sensors other sensors; electric components, light emitting diodes, liquid crystals, liquid crystal display module, magnetrons, diodes, transistors, thermostats, integrated circuits, LSI (large scale integration), semiconductor memory devices, one-chip microcomputers, electric condenser microphone cartridge, halftone image processors, thermal printing heads, magnetic heads, permanent magnets, connectors, relays, display components, semiconductor lazer, CCD (charge coupled device) image sensor, film capacitor, membrane unit for oxygen enrichment, electric tuner units, high frequency units, coin validating units, bill validating units, magnetic card readers/writers, voltage controlled oscillators, PPL (phase-locked loop) synthesizer modules, wireless communication module unit, optical transmission components, printed wiring boards, speaker components, power supplies, AC (alternating current) adapters, convergence magnets, inductors (coils), capacitors for electrical appliances, filters of electric signals, transformers, deflection yokes, thermistors, varistors, piezoelectric ceramics components, acousto-optic devices, resistors, potentiometers, encoders, printer units, hybrid IC (integrated circuit), switch components, heat seal wiring boards, transparent touch panels, electroluminescence elements, remote control units, magnetic resistive elements, thermal cut-offs (cut-outs), metal cutting machines by arc, gas, or plasma; electric timers; electric pants presses; apparatus for pre-payment, data processing equipment in particular for financial applications; computer operating programs; computer hardware and software, in

particular for the development, maintenance and use of local and wide area computer networks; systems for reading memory cards and systems for reading data in memories including integrated circuit memories and banking card memories; cash dispensing machines; accounting machines; coded cards including magnetic cards and cards including integrated circuits, in particular, for financial applications; apparatus for reading cards, printing apparatus including printing apparatus for data processing systems and financial transaction systems; machines for banking establishments; encoders and decoders; modems; magnetic coded cards, electronic data carrier cards, magnetic coded card readers, electronic data carrier card readers, electronic encryption units, computer hardware, computer terminals, computer software for use in the financial services, banking and telecommunications industries; electrical and electronic goods, namely calculating machines, pocket planners, alarms; banking cards including printed banking cards and banking cards using magnetic memories and integrated circuit memories; banking cards, including such cards having integrated circuits and microprocessors; memory cards; automatic cash dispensers; equipment for data processing and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the nature of integrated circuit cards and card readers containing transponders and other proximity payment devices; mouse pads.
