

香港特別行政區政府知識產權署商標註冊處

Trade Marks Registry, Intellectual Property Department

The Government of the Hong Kong Special Administrative Region

接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的 後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions, word processing programs, operating system programs; data encryption services; data decryption services; data migration services; electronic data back-up services; cloud storage services for electronic data; cloud storage services for electronic files; consulting services in the field of cloud computing; computer services, namely, cloud hosting provider services; infrastructure as a service (IAAS) services, namely, hosting servers for use by others; platform-as-a-service (paas), infrastructure-as-a-service (iaas) and software-as-a-service (saas) services featuring computer software platforms for creating web applications, data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions; providing online non-downloadable software for computer operating systems; providing online non-downloadable computer programs for accessing global communication networks; providing online non-downloadable software for downloading, streaming, and playing music, audio, videos, multimedia content, podcasts, and internet radio broadcasts; update, installation and maintenance of computer software; computer services, namely, updating computer software for others via the internet and wireless networks; computer hardware and software testing services; design and development of computer software and software architecture in the field of machine learning, deep learning, and artificial intelligence solutions; software as a service (saas) featuring artificial intelligence, machine learning, and deep learning applications and computer software platforms; software as a service

(saas) featuring software for executing deep learning, machine learning, hierarchical learning, artificial intelligence, automatic speech recognition, and natural language processing programs; hosting of a web site that gives users the ability to upload images; hosting of a web site featuring technology that enables online users to create personal profiles featuring social networking information; computer services, namely, creating virtual communities for registered users to participate in discussions and engage in social, business and community networking; application service provider (ASP), namely, hosting computer software applications of others; application service provider (asp) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, sharing or otherwise providing electronic media or information over communication networks; software as a service (saas) services featuring software for sales management, customer service management, business operations management, financial and finance operations management, remote and field service operations management, project service automation management, marketing campaign planning and management, customer relationship management, enterprise resource management, sales and marketing information management, personnel and project management, facilities management, internet of things management, software development and customization, the analysis, warehousing, processing and management of data, big data management, security and authentication, social media management, peer-to-peer communications, email account management, word processing, and cloud computing for use with all of the foregoing; hosting the software, websites, and other computer applications of others on a virtual private server; intelligent natural language understanding services using cloud-based software technology; user authentication services using single sign-on technology for online software applications; providing temporary use of online, non-downloadable enterprise software for customer relationship management, enterprise risk management, security, datacenter, data warehousing, cloud, hosting, mobile application, artificial intelligence, machine learning, word processing, and multimedia functions; intelligent natural language understanding services using cloud-based software

technology; cloud services, namely, providing on-line non-downloadable operating software for accessing and using a cloud computing network; providing virtual computer systems and virtual computer environments through cloud computing; providing cloud computing services, namely, cloud hosting provider services and cloud computing featuring software for uploading, downloading, integrating, encoding, decoding, formatting, organizing, caching, transferring and streaming of text; providing virtual computer systems, graphics processing units (gpus), and virtual computer environments through cloud computing; providing information in the fields of the development of computer systems, cloud computing environments, networks and software over computer networks, wireless networks and global communications networks; computer services, namely, remote hosting of operating systems and computer applications for others on a virtual private server; rental of computing and data storage facilities of variable capacity; providing, developing, and designing on-line non-downloadable software accessible over a global computer network for managing computer applications; designing and developing electronically stored web pages for online services on the internet; data warehousing; elaboration and maintenance of web sites for third parties; managing web sites for others; rental of web servers; rental of a database server to third parties; displaying the web sites and images of others on a computer server; computer services, namely, hosting and maintaining an on-line web site for others to collaboratively develop software; hosting an on-line community web site featuring a distributed control system for the collaborative development of software; platform as a service (paas) and software as a service (saas) services featuring computer software platforms for the collaborative development of software; design and development of networks and network software and applications; providing temporary use of on-line non-downloadable software development tools; troubleshooting of computer software problems; technical support services, namely, troubleshooting of computer hardware, software, web, database and mobile applications; computer services, namely, providing technical support, information and consultation services, namely, troubleshooting in the nature of diagnosing problems in computer hardware, computer software and

computer operating systems; consulting in the field of information technology; consulting in the field of cloud computing networks and applications; development of software for secure network operations; design and development of computer game software; design and development of virtual reality software; design and development of computer hardware in the field of games, video games, and game content; platform as a service (paas) featuring computer software platforms for use in software development in the field of gaming and graphic design; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, games, game content, digital media, images, music, audio, video and animations; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for purchasing and subscribing to digital media content; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for developing and publishing applications for interactive streaming; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for television (tv) programming; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for management and storage of digital media; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for parental control for enabling access to games, namely, electronic, computer, and video games; computer software consulting services in the field of gaming technology and graphics software; consulting services in the field of software as a service (SAAS); computer software development in the field of mobile applications; platform as a service (paas) featuring computer software platforms for gaming and graphic design; online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; providing customized computer searching services, namely, searching and retrieving information

at the user's specific request via the internet; providing temporary use of non-downloadable software for mapping and directions, language translation, and accessing information related to entertainment, travel, finance, news, sports, weather, food and drink, and health and fitness consisting mainly of links to other websites; providing internet search engine services; providing a website featuring a media aggregator and search engine for internet content; providing customized on-line web pages featuring user-defined information, which includes search engines and on-line web links to other web sites; providing temporary use of non-downloadable computer software applications for business related news and information; providing temporary use of non-downloadable computer software applications for non-business related news and information that mainly consists of links to other websites in the fields of entertainment, travel, finance, news, sports, weather, food and drink, maps, language translation, and health and fitness; computer services, namely, providing specific information as requested by customers via the internet; computer network design and computer software design in the field of the telecommunications industry; non-downloadable software for wireless network management; design, development, and implementation of software in the field of white space telecommunications and internet connectivity; research, development, design and upgrading of computer software; research services in the field of white space telecommunications and internet connectivity; design, deployment and management of wireless internet computer networks for others; creating and hosting online communities for business and technology professionals, entrepreneurs, researchers, investors, service providers, academics, students, experimenters, and others who are involved in internet of things business and/or technology; computer services, namely, hosting and maintaining an on-line web site for others for educational purposes in the fields of reading, writing, science, technology, engineering and math for use by teachers and students; testing, analysis, and evaluation of the knowledge, skills and abilities of others for purposes of credentialing in the field of in the field of computers, software development, artificial intelligence, security and information technology, cloud solutions, and electronic

business transactions via a global computer network; research services in the field of information and telecommunications technology; development, maintenance, and updating of a telecommunication network search engine; telecommunications technology consultancy; research in the field of telecommunications technology; computer programming services to create online facilities that will provide telecommunications support; technological research of computer software and hardware; research and development of advanced learning technologies and teaching methods for developing artificial intelligence and machine learning capacities; product research and development; scientific research on the topics of the advancement of artificial intelligence, computing technology, human interactions with technology and digital security, data mining and management, accountability and personal responsibility; charitable services, namely, providing temporary use of non-downloadable computer software for those in need; updating of computer software relating to computer security and prevention of computer risks; providing information in the fields of technology and software development via an on-line website; providing temporary use of non-downloadable computer anti-virus software; application service provider featuring application programming interface (API) software; electronic storage of cryptocurrency for others; providing technology information in the field of cryptocurrency; providing on-line non-downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; providing temporary use of non-downloadable web-based decentralized applications (DApps) for blockchain contracts, cloud storage of data, web browsing, and cryptocurrency trading; computer security services in the nature of administering digital certificates; computer security services in the nature of administering digital keys; providing temporary use of on-line non-downloadable software development tools; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of advertising and marketing; online non-downloadable computer software for security information and event management (SIEM) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats, and events;

artificial intelligence (AI) processing online non-downloadable software; computer diagnostic services; computer programming services; computer consultancy and technical support, all relating to the design and use of computer programs, computers, computer hardware and computer systems; providing temporary use of on-line non-downloadable software for instant messaging, enabling and managing simultaneous, multiple modes of communication over local area networks and the Internet via instant messaging, voice over internet protocol (VOIP), video conferencing, audio conferencing, computer desktop sharing, file transfer, sensing and providing user presence information, and telephony; computer software consultancy which provides technical information; hosting of digital content on the Internet; consulting services in the field of software as a service (SAAS); platform as a service (PAAS) featuring computer software platforms which enable multiple users to post messages and memoranda, instant message, share files and synchronize calendars; online non-downloadable software for microprocessors; online non-downloadable software development kits (SDK); computer disaster recovery planning and data recovery services; hosting of web sites provide business and non-business related news; providing temporary use of non-downloadable computer software featuring news; computer services; computer consultancy and technical support, all relating to the design and use of computer programs, computers, computer hardware and computer systems; platform as a service (PAAS) featuring computer software platforms for use in group communication, namely postings, memoranda and instant messaging, file sharing, calendar synchronization, and automated integrations with external service providers; software as a service (saas) services featuring non-downloadable software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images, and digital files; platform as a service (paas) services featuring non-downloadable computer software platforms for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images, and digital files; software as a service (saas) services featuring non-downloadable computer software used for user data capture, storage and analysis; platform as a service (paas)

featuring non-downloadable computer software platforms used for user data capture, storage and analysis; software as a service (saas) services featuring non-downloadable computer software allowing users to perform electronic business transactions via a global computer network; platform as a service (paas) services featuring non-downloadable computer software platforms allowing users to perform electronic business transactions via a global computer network; software as a service (saas) services featuring non-downloadable computer software used for generating coupon codes, payment processing, payment fraud detection, and creating, using and managing virtual currency; platform as a service (paas) services featuring computer software platforms used for generating coupon codes, payment processing, payment fraud detection, and creating, using and managing virtual currency; providing a website featuring information in the field of transactions involving information, data, images and digital files; hosting of a website featuring technology that enables users access to and information about transactions involving information, data, images, and digital files; computer and information technology consultancy services; providing temporary use of non-downloadable computer software relating to education and training; providing temporary use of non-downloadable computer software relating to health and wellbeing; providing temporary use of non-downloadable computer software for advertising and marketing; providing temporary use of non-downloadable computer software for use in offices and for back-office functions; computer services, namely, providing temporary use of online non-downloadable software for use in the fields of database management, electronic spreadsheets, designing, creating, editing and publishing documents, note taking, email, calendaring, contacts management, presentation graphics, desktop publishing, document management, word processing, instant messaging, Voice over Internet Protocol (VoIP), video conferencing, audio conferencing, application sharing, computer desktop sharing, file transfer, accessing web messaging and shared documents from web sites on the Internet, sensing and providing user presence information, telephony, computer network security, anti-virus protection, and intrusion detection and prevention; computer software consultation; providing information in the fields of the development of computer

systems, cloud computing environments, networks and software over computer networks, wireless networks and global communications networks; technical support services, namely, providing technical assistance to others in the field of website management and email management services; providing technical information in the field of website management and email management via computer networks and global communications networks; hosting the websites of others on a computer server for a global computer network; providing customized on-line web pages featuring personal and business information specified and defined by users which includes search engines and online links to other web sites, over computer networks, wireless networks and global communications networks; providing technical information in the field of computer software and cloud computing; providing online non-downloadable software for accessing and using cloud computing networks; providing online non-downloadable software for accessing remotely stored data, files and documents; electronic storage of files, documents and data; electronic mail services, namely, electronic storage of archived e-mails; providing temporary use of online non-downloadable software for parental control of computer and internet usage; providing temporary use of online non-downloadable software for managing, filtering, and monitoring access to mobile devices, console and portable gaming devices, applications, games software and internet usage; providing temporary use of online non-downloadable software for remotely managing device and application settings; providing temporary use of online non-downloadable software for finding and displaying a user's location and global positioning system (GPS) tracking devices; providing temporary use of online non-downloadable software for gathering, analyzing and presenting data on usage of mobile devices, console and portable gaming devices, applications, games software and internet; Software as a Service (SaaS), namely software for connecting to the cloud to allow for collaboration among users across other software applications; Software as a Service (SaaS), namely software for integrating artificial intelligence and intelligent agents into other software; Software as a Service (SaaS), namely software for allowing real time updates to software applications accessible by multiple parties; Software as a Service

(SaaS), namely software for enabling interconnectivity between other software applications and platforms; Software as a Service (SaaS), namely software for transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, digital media, images, music, audio, video, movies and animations between multiple users; online computer services, namely, online scanning, detecting, managing and authenticating security and log in credentials for users of mobile digital electronic devices and computing devices; software as a service (SaaS) services featuring security software, user authentication software, password and log in management and protection software; software as a service (saas) services featuring non-downloadable software for use in connection with developing video analytics applications; platform as a service (paas) services featuring non-downloadable computer software platforms for use in connection with developing video analytics applications; software as a service (saas) services featuring non-downloadable computer software used for data and video capture, storage and analysis; platform as a service (paas) featuring non-downloadable computer software platforms used for data and video capture, storage and analysis; hosting of a website featuring information in the field of development of video analytics software; hosting of a website featuring technology that enables users access to and information about video analytics software; software as a service (saas) services for software development; platform as a service (paas) services for software development; scientific services, namely, scientific research in the field of artificial intelligence, deep learning, model development, and product research and design related thereto; providing temporary use of online non-downloadable computer software tools for software development; providing temporary use of online non-downloadable computer software for artificial intelligence processing and deep learning; providing temporary use of online non-downloadable computer software, namely, computer software for implementing a computer programming language, computer software development tools, and computer software libraries for use in general purpose

computation, manipulation of collections of data, data transformation, communications, graphics display, acceleration of model development, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; providing temporary use of online non-downloadable computer software and software development tools for use in the fields of high performance computing, distributed computing, distributed training with mixed precision, model and pipeline parallelism, redundancy optimization, memory and bandwidth optimization, computational kernel optimization, sparse attention kernels, communication compression, training optimization, training agnostic check pointing, advanced parameter searching, data loading, performance analysis and debugging, and machine learning; software as a service (SAAS) services featuring software for interfacing with deep learning computational frameworks; platform-as-a-service (PAAS), infrastructure-as-a-service (IAAS), software-as-a-service (SAAS) services, and mobile-backend-as-a-service (MBAAS) featuring computer software platforms for deploying virtual machines to a cloud computing platform, diagnostics and analysis, syncing, storing, and archiving data, analyzing data, database design and development, creating web applications, data storage, data storage, and archiving and backup of data, electronic media, and digital content; computer services, namely, creating cloud-based indexes of information; consulting services in the field of cloud computing technology, infrastructure-as-a-service (IAAS) cloud computing technology, software-as-a-service (SaaS) cloud computing technology, platform-as-a-service (PAAS), and mobile-backend-as-a-service (MBAAS) cloud computing technology; mobile-backend as a service (MBAAS); cloud computing services, namely computing resources delivered as a service over a network, including infrastructure as a service (IaaS), platform as a services (PAAS), mobile backend as a service (MBAAS); advisory, information and consultancy services of all of the aforesaid services.
