ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

measuring, controlling, regulating and diagnostic apparatus for motor vehicles; GPS (Global Positioning System) vehicle navigation systems; mileage recorders for vehicles; parking sensors for vehicles; rearview cameras for vehicles; telecommunication machines and devices for use in assisting in improving safety of car driving; audio equipment; car stereos; car televisions; in-car telephone handset cradles; computers for use in remote monitoring of fuel cell power generators using communication networks; computer programs for fuel saving drive diagnosis devices; electronic control apparatus and instruments for vehicles; electronic display units for vehicles; navigation computers for cars; electric safety monitoring apparatus; vehicle safety apparatus in the nature of an on-board vehicular video surveillance systems; motor vehicle adaptive cruise control devices; motor vehicle cameras and sensors for detecting road lane markers, pedestrians, objects outside of the vehicle, and relative distance thereof from a vehicle; lane departure warning alarm systems for motor vehicles; electronic motor vehicle steering systems for assisting vehicles to stay on course near the center of a lane; protective helmets for automobile races; LCD panels; vehicle-mounted laser radar apparatus; vehicle-mounted millimeter-wave radar apparatus; radar apparatus; sensors [measurement apparatus], other than for medical use; infrared-based detecting devices for detecting positions of objects and human bodies; distance sensors; proximity sensors; position sensors; acoustic sound alarms; alarms; obstacle detecting and warning devices comprised of radar apparatus, camera, electronic display, alarm, and control unit for detecting, displaying and warning of obstacles to automobiles; electronic display units for automobiles having functions of alerting the driver about lane departure; electronic control devices for automobiles in the nature of electronic controls for steering; lane departure warning devices for automobiles comprised of a camera, sensor, electronic display, and alarm for detecting, displaying, and warning of lane departure; electronic control devices for automobiles in the nature of electronic controls for vehicle acceleration and brake force; measuring apparatus for detecting distance between vehicles; measuring apparatus for measuring distance between vehicles having functions of alerting the driver when the distance becomes

a prescribed distance or shorter; electronic control devices for automobiles in the nature of electronic controls for keeping a prescribed distance between vehicles by measuring the distance between vehicles; electronic control devices for automobiles in the nature of electronic controls for throttle angle; electronic control devices for automobiles in the nature of electronic controls for vehicle speed; preceding vehicle detecting devices comprised of a camera, sensor, electronic display, and alarm for detecting, displaying, and warning of presence of the preceding vehicles; electronic display units for automobiles having functions of notifying the driver that the preceding vehicle is outbound; preceding vehicle departure alerting devices comprised of radar apparatus, camera, electronic display, alarm, and control unit for detecting, displaying, and warning that the preceding vehicle is outbound; electronic control devices for automobiles in the nature of electronic controls for lighting; photodetectors using cameras and sensors for the detection of lights from the preceding vehicles, oncoming vehicles and streetlamps; electronic display units for automobiles having functions of warning and notifying the driver of road traffic sign information; computer hardware; electronic machines and devices for use in assisting in improving safety of car driving; electrical communication machines and instruments; telecommunication machines and devices for use in assisting in improving safety of car driving; measuring apparatus and instruments; measuring apparatus and equipment for use in assisting in improving safety of car driving; parts and components for automobiles, namely, speedometer assemblies and parts thereof and cables therefor, speed sensors, combination meters, total counters, tachometer assemblies and parts therefor, oil level gauges, fuel gauge assemblies and receivers therefor, temperature gauge assemblies and receivers therefor, ammeter assemblies, pressure gauge assemblies and receivers therefor, pressure switch assemblies, voltage meter assemblies, clinometers, audio components for automobiles, antennas, cords and mounting hardware therefor, microphones, speakers, grillers and mounting hardware therefor, tape players, radio receivers and mounting hardware therefor, radio receivers combined with tape players, graphic equalisers, audio amplifiers,

batteries, electrical cables, wiring harnesses, electric current rectifiers, voltage regulators, preheating timers, glow plug sensors, electrical fuses, electrical fuse blocks and covers therefor, fuel regulators, air flow meters, electric relays, solenoid assemblies, solenoid valves, automatic control valves, temperature sensors, fluid pressure sensors, fluid level sensors, tachometer input sensors, throttle position sensors, oxygen sensors, knock control sensors, magnetic switch assemblies, signal generators, electric cigarette lighter assemblies and parts therefor, turn signal switch assemblies, electrical switch assemblies and parts thereof, thermostatic valves; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus; controllers for autonomous; controllers for Advanced Driver-Assistance Systems; controllers for engines or motors; controllers for steerings (automatic); controllers for transmissions; stability controllers; front light controllers; controllers for fuel cells; sensors for automotive engines; central gateways; batteries for electronic vehicles; batteries for electronic motorcycle; batteries for electronic bicycles.

Class 12:

Automobiles and structural parts thereof; parts, fittings and accessories for automobiles; electric vehicles; motorized, self-propelled, wheeled personal mobility devices, namely, wheelchairs, scooters, utility carts; chariots; driverless cars; trucks; driverless trucks; buses; driverless buses; headrests for vehicle seats; brackets

(parts of vehicles), hubcaps; engines for automobiles; parts for engines for automobiles; bicycles; motorcycles; vehicles; parts and fittings for vehicles; apparatus for locomotion by land, air or water; air bags [safety devices for automobiles]; ashtrays for automobiles; automobile bodies; automobile chains; automobile chassis; automobile hoods; automobile tires; automobile wheels; brake pads for automobiles; bumpers for automobiles; carpets adapted [shaped] for automobiles; CD (compact discs) holders and pockets adapted for use in automobiles; cigar lighters for automobiles; clips adapted for fastening automobile parts to automobile bodies; shock absorbers for automobiles; steering wheels for automobiles; sun-blinds adapted for automobiles; actuators for land vehicles; aerodynamic fairings for vehicles; air cushion vehicles; air deflectors for vehicles; air pumps being parts of vehicles; air vehicles; alarm devices [for vehicles]; alarm systems for vehicles; alarms for vehicles; anti-dazzle devices for vehicles; anti-lock brake apparatus for vehicles; anti-skid chains for vehicle tyres; appliances for steering vehicles; arm rests for vehicles; automatic braking devices for motor vehicles; axle assemblies for vehicles; axles for leaf spring suspensions in vehicles; axles for vehicles; back support apparatus for vehicles; balance weights for vehicle wheels; bearing shelves for vehicles; bearings for vehicles; body restraint devices for use in vehicles; bodywork facings for vehicles; brackets for mounting lamps on vehicles; brake bands for transmissions in land vehicles; brake components for motor vehicles; bumpers for vehicles; caissons [vehicles]; camshafts for land vehicles; caps for vehicle fuel tanks; carriers for use on vehicles; castors [vehicle wheels]; children's seats for use in vehicles; clutches for land vehicles; coil springs for vehicle suspensions; combustion engines for land vehicles; connecting rods for land vehicles, other than parts of motors and engines; consoles being parts of vehicle interiors; couplings for land vehicles; covers for vehicle seats; covers for vehicle steering wheels; crankcases for land vehicle components, other than for engines; cranks (parts of land vehicles); cup holders for use in vehicles; differentials for land vehicles; direction indicators for vehicles; disc brake rotors for vehicle braking systems; doors for vehicles; drive shafts for land vehicles;

driving chains for land vehicles; driving motors for land vehicles; electric driving motors for land vehicles; electric engines for land vehicles; electric horns for vehicles; electric motors for land vehicles; electric sunroofs for vehicles; elevating tailgates [parts of land vehicles]; engine mounts for land vehicles; fan motors for land vehicles; fenders for water vehicles; filler caps for vehicle fuel tanks; freewheels for land vehicles; friction clutches for land vehicles; gearing for land vehicles; glass panels for land vehicles; golf cars [vehicles]; heat engines for land vehicles; hubs for vehicle wheels; interior fittings for vehicles; intrusion detectors [to prevent theft of, or from vehicles]; jet engines for land vehicles; luggage carriers for vehicles; mud flaps for vehicles; power tailgates (parts of land vehicles); propulsion mechanisms for land vehicles; push scooters [vehicles]; radiator grills of metal for vehicles; reduction gears for land vehicles; refrigerated vehicles; remote control vehicles, other than toys; rims for vehicle wheels; roof boxes for vehicles; safety belts for vehicle seats; shift levers for land vehicles; side view mirrors for vehicles; snow chains for motor vehicles; solid rubber tyres for vehicle wheels; spoilers for automotive vehicles; sprockets for land vehicles; starter pinions for land vehicles; sunroofs for vehicles; suspension parts for vehicles; tipping apparatus for vehicles; torque converters for land vehicles; torsion bars for vehicles; towing apparatus for vehicles; trailer couplings for vehicles; trailers [vehicles]; transmission apparatus for land vehicles; treads for vehicles [roller belts]; turbines for land vehicles; undercarriages for vehicles; upholstery for vehicles; valves for vehicle tires; vehicle bonnet pins; wind deflectors for vehicles; windows for vehicles; vehicles; apparatus for locomotion by land, air or water; parts or accessories for brake for motorcycles; front forks; suspension systems for automobiles; steering systems for automobiles; gears for electric vehicles; parts and accessories for automotive engine; motors for electric vehicles; parts and accessories for motors for electric vehicles; electronic motorcycle; parts and accessories for electronic motorcycle; electronic bicycles; parts and accessories for electronic bicycles; parts and accessories for motors for electric vehicles; electronic controllers for motor vehicle

braking; front collision warning alarm systems for motor vehicles; alarm display devices for automobiles comprised of a camera, electronic display, alarm, and control unit for displaying and warning of road traffic sign information; controllers for suspensions; controllers for braking systems.

Specification:

Class 7:

Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; automatic vending machines; sewing machines; exhaust gas cleaning systems for motor vehicles, catalytic converters for motor vehicles; air cleaners [air filters] for engines; cylinder heads for engines; mufflers for motors and engines; engines other than for land vehicles; exhausts for motors and engines; catalytic converters; silencers for motors and engines; belts for motors and engines; cylinders for motors and engines; fans for motors and engines; filters [parts of machines or engines]; filters for cleaning cooling air, for engines; fuel conversion apparatus for internal combustion engines; igniting devices for internal combustion engines; radiators [cooling] for motors and engines; starters for motors and engines; anti-pollution devices for motors and engines; bearings [parts of machines]; connecting rods for machines, motors and engines; crank shafts; lubricating pumps; machine fly-wheels; exhaust manifold for engines; pistons for engines; pumps [parts of machines, engines or motors]; radiators [cooling] for motors and engines; sparking plugs for internal combustion engines; superchargers; turbocompressors; spark plug cord; radiator cap; thermostatic control valves for machines; camshaft; non-electric prime movers being machines (not for land vehicles); parts for non-electric prime movers (machines) for land vehicles; starters for motors and engines; alternating electrical current motors and direct electrical current motors (not including those for land vehicles but including parts for any alternating electrical current motors and direct electrical current motors); alternating electrical current generators (alternators); direct electrical current generators; lawnmowers; machines elements (parts of machine, not for land vehicles); outboard engines; self-oiling bearings; automobile oil pump; shock absorber; igniting devices for internal combustion engines; road sweeping machines [self-propelled]; automobile maintenance equipment (parts of machinery); carburettors; automobile motor cooling radiator; generators and power generation

device which has cogeneration function; bush cutters (power operated trimmers); power operated sprayers; and parts of prime movers for land vehicles; fans for engines, radiators, radiator caps, and fan belts, all for land vehicles; parts of motor vehicles, included in this class, in particular emission systems; emission treatment systems as part of the drive of motor vehicles; mufflers; emission control systems; individual components of emission control systems such as catalytic converters, exhaust gas filters, diesel particulate filters as well as accessories to the above goods, included in this class, including the required holders and fasteners; filter equipment for engines as part of the drive system of motor vehicles; carburetors and other equipment for controlling the mixture composition of fuel-air mixtures all for combustion engines for land vehicles; exhaust systems; control units for engines; machine parts; glow plugs for diesel engines; air filters for motor vehicle engines; electric motors; electric generators; bushes for automobiles; cooling radiators for automobiles; crankcases of engines for automobiles; exhaust pipes for automobiles; power tools for the repair of automobiles; superchargers for automobiles; vacuum cleaners for cleaning automobile interiors; camshafts for vehicle engines; water pumps for land vehicles; power-operated tools; parts and accessories for engines; dampers for residential.

Class 9:

Simulators for the steering and control of vehicles; telecommunication machines and apparatus; radio communication machines and apparatus; portable radio communication machines and apparatus; vehicular radio communication machines and apparatus; radio machines and apparatus; navigation apparatus for vehicles [on-board computers]; parts and accessories for telecommunication machines and apparatus; personal digital assistants; electronic machines, apparatus and their parts; computers and their peripherals; computer programs; computer programs for operating control of driverless cars; computer programs for driverless cars; computer operating programs, recorded; computer operating programs, recorded in computers installed with automobiles; computer software, recorded; computer software, recorded in computers installed with automobiles; computer software applications, downloadable; computer

hardware; computer hardware installed with automobiles; dashboard cameras; motion sensors; motion recognizing sensors; wireless warning devices by detecting abnormal signals from various sensors and giving warnings; sensors for speed measurements; apparatus for checking the acid content of automobile batteries; audio components for automobiles; electronic time and alarm control systems for automobiles; fire extinguishers for automobiles; electric wire harnesses for automobiles; accumulators (electric) for vehicles; acoustic couplers for vehicles; aerials for vehicles; anti-collision radar for vehicles; anti-collision sensors for vehicles; anti-theft alarm apparatus (other than for vehicles); apparatus for checking the pressure of pneumatic tyres of vehicles; apparatus for checking the temperature of vehicle brakes; apparatus for the automatic control of vehicles; apparatus for the signalization of vehicles; automatic indicators of low pressure in vehicle tires; automatic vehicle speed control apparatus; central door locking apparatus for vehicles; charging stations for electric vehicles; compact disc players for motor vehicles; computer monitors and software for vehicles; computer software for controlling vehicle lighting apparatus; electric door locks for vehicles; electrical measuring, controlling, regulating and diagnostic apparatus for motor vehicles; GPS (Global Positioning System) vehicle navigation systems; mileage recorders for vehicles; parking sensors for vehicles; rearview cameras for vehicles; telecommunication machines and devices for use in assisting in improving safety of car driving; audio equipment; car stereos; car televisions; in-car telephone handset cradles; computers for use in remote monitoring of fuel cell power generators using communication networks; computer programs for fuel saving drive diagnosis devices; electronic control apparatus and instruments for vehicles; electronic display units for vehicles; navigation computers for cars; electric safety monitoring apparatus; vehicle safety apparatus in the nature of an on-board vehicular video surveillance systems; motor vehicle adaptive cruise control devices; motor vehicle cameras and sensors for detecting road lane markers, pedestrians, objects outside of the vehicle, and relative distance thereof from a vehicle; lane departure warning alarm systems for motor vehicles; electronic motor vehicle steering systems for assisting

vehicles to stay on course near the center of a lane; protective helmets for automobile races; LCD panels; vehicle-mounted laser radar apparatus; vehicle-mounted millimeter-wave radar apparatus; radar apparatus; sensors [measurement apparatus], other than for medical use; infrared-based detecting devices for detecting positions of objects and human bodies; distance sensors; proximity sensors; position sensors; acoustic sound alarms; alarms; obstacle detecting and warning devices comprised of radar apparatus, camera, electronic display, alarm, and control unit for detecting, displaying and warning of obstacles to automobiles; electronic display units for automobiles having functions of alerting the driver about lane departure; electronic control devices for automobiles in the nature of electronic controls for steering; lane departure warning devices for automobiles comprised of a camera, sensor, electronic display, and alarm for detecting, displaying, and warning of lane departure; electronic control devices for automobiles in the nature of electronic controls for vehicle acceleration and brake force; measuring apparatus for detecting distance between vehicles; measuring apparatus for measuring distance between vehicles having functions of alerting the driver when the distance becomes a prescribed distance or shorter; electronic control devices for automobiles in the nature of electronic controls for keeping a prescribed distance between vehicles by measuring the distance between vehicles; electronic control devices for automobiles in the nature of electronic controls for throttle angle; electronic control devices for automobiles in the nature of electronic controls for vehicle speed; preceding vehicle detecting devices comprised of a camera, sensor, electronic display, and alarm for detecting, displaying, and warning of presence of the preceding vehicles; electronic display units for automobiles having functions of notifying the driver that the preceding vehicle is outbound; preceding vehicle departure alerting devices comprised of radar apparatus, camera, electronic display, alarm, and control unit for detecting, displaying, and warning that the preceding vehicle is outbound; electronic control devices for automobiles in the nature of electronic controls for lighting; photodetectors using cameras and sensors for the detection of lights from the preceding vehicles, oncoming

vehicles and streetlamps; electronic display units for automobiles having functions of warning and notifying the driver of road traffic sign information; computer hardware; electronic machines and devices for use in assisting in improving safety of car driving; electrical communication machines and instruments; telecommunication machines and devices for use in assisting in improving safety of car driving; measuring apparatus and instruments; measuring apparatus and equipment for use in assisting in improving safety of car driving; parts and components for automobiles, namely, speedometer assemblies and parts thereof and cables therefor, speed sensors, combination meters, total counters, tachometer assemblies and parts therefor, oil level gauges, fuel gauge assemblies and receivers therefor, temperature gauge assemblies and receivers therefor, ammeter assemblies, pressure gauge assemblies and receivers therefor, pressure switch assemblies, voltage meter assemblies, clinometers, audio components for automobiles, antennas, cords and mounting hardware therefor, microphones, speakers, grillers and mounting hardware therefor, tape players, radio receivers and mounting hardware therefor, radio receivers combined with tape players, graphic equalisers, audio amplifiers, batteries, electrical cables, wiring harnesses, electric current rectifiers, voltage regulators, preheating timers, glow plug sensors, electrical fuses, electrical fuse blocks and covers therefor, fuel regulators, air flow meters, electric relays, solenoid assemblies, solenoid valves, automatic control valves, temperature sensors, fluid pressure sensors, fluid level sensors, tachometer input sensors, throttle position sensors, oxygen sensors, knock control sensors, magnetic switch assemblies, signal generators, electric cigarette lighter assemblies and parts therefor, turn signal switch assemblies, electrical switch assemblies and parts thereof, thermostatic valves; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting,

reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus; controllers for autonomous; controllers for Advanced Driver-Assistance Systems; controllers for engines or motors; controllers for steerings (automatic); controllers for transmissions; stability controllers; front light controllers; controllers for fuel cells; sensors for automotive engines; central gateways; batteries for electronic vehicles; batteries for electronic motorcycle; batteries for electronic bicycles.

Internet access and navigation software for portable personal computers; optical disc players and computer operating system software for optical disc players; computer hardware, computer operating systems and computer software programs for sending and receiving television and global communication network transmissions; telephones and computer programs for controlling the operation thereof; telephones for use in telecommunications over global communication networks and computer programs for controlling the operation thereof; entertainment consoles comprising computer hardware and software developed to provide audio, video and multimedia programs from the Internet, and television programs; electronic pagers and software for electronic paging; handheld computers; handheld computers for playing games and operating system software for use therewith; microcomputers; computer software for word processing, spread sheets, database management, e-mail, scheduling, games, electronic reference materials, financial management, and Internet access and navigation; computer application programs and operating system programs for use with communications servers; computer application programs providing connectivity over wide area networks and local area networks for mobile phones, smart phones, computers, televisions, and video game consoles; computer application software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, and sharing electronic media and information, namely, photographs, videos, graphical images, text and email messages, text documents, music, and audio recordings, all via the internet; computer network operating software and utilities; computer network server software for managing user content on computer networks and global computer networks; computer software development tools for network servers and applications; computer software for developing, managing and operating intranet sites; computer software for inventorying and monitoring computer hardware and software assets and use within an organization; computer software for use by computer network administrators to deploy and manage application software and network server software; computer software for wireless telecommunications for use with wireless devices, namely software for enabling smart phone, portable computers, mobile phones to

connect to wide area networks; operating systems software for use in playing electronic games; security software, namely computer software for managing secure communications over computer networks and global computer networks; computer software for use in browsing, accessing, searching, reviewing, purchasing, downloading, and providing ratings on digital content, namely digital images, television shows, movies, computer games, and gift cards; computer software for use in searching and making purchases in online marketplaces for software applications; computer software for electronic transmission via the Internet and display of digital content, namely digital images, television shows, computer games, movies; computer operating system programs and utilities, namely, computer utility file compression and synchronization programs and backup software; video game machines for use with televisions and computers, and operating system software for use therewith; computer software for viewing, searching and playing pre-recorded audio and Internet radio; computer software and computer programs for database management, data storage and backup, creating virtual reality and mixed reality environments on a computer network, business and social networking, online business and social collaboration between individuals and organizations, remote Internet access, remote technical support, cloud computing, data sharing, data security, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, text messages, emails, digital images and photographs, documents, publications, videos, comments and multimedia content among users, for content management, for online project management, for web conferencing, for creating, offering, hosting and delivering online meetings, demonstrations, audiovisual presentations, and interactive discussions for others, operating system programs; computer software for use in enterprise resource planning (ERP) and customer relationship management (CRM) in the fields of business operations, business management, accounting, marketing, ecommerce; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer operating system software; computer software for playing video games and computer games, computer network security,

anti-virus protection, and intrusion detection and prevention; computer graphics and graphical user interface software; computer software for running development programs and application programs in a common development environment; website development software; computer software that provides web-based access to applications and services through a web operating system or portal interface; computer software for developing and operating cloud computer networks and applications; computer software for computer system and application development, deployment and management; hardware for telecommunications for connecting devices via in home phone and electrical wiring, namely, computer networks hubs, computer servers, set-top boxes, computer switches and computer routers designed to provide in-home voice over internet protocol (VOIP) communications; computer and video game systems devices, namely, motion sensors and biometric sensors, cameras, projectors, headphones, and microphones; electronic game equipment, namely, display video screens adapted for video games, peripheral devices, namely, monitor stands, controller stands, glasses, headsets, headphones, microphones, floor mats, keypads, and styluses for communicating with a television or computer for playing electronic games; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; wearable computers, namely smart rings, smartwatches, smart glasses, wearable video display monitors, wireless headsets for use with smartphones, wireless headsets for use with mobile phones, smart bands [measuring instruments], wearable activity trackers, virtual reality and mixed reality glasses and headsets; wearable computer peripherals, namely wireless computer scanners, wireless computer mice, wireless keyboards for mobile telephones, wireless keyboards for computers; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; keyboards, mice, styluses, monitors, scanners, cameras, microphones, projectors, electric cables and cords for mobile devices for remotely accessing and transmitting data; computer display monitors; computer software, namely, software for setting up, operating, configuring, and controlling wearable computer

hardware and wearable computer peripherals; carrying cases and holders for use with virtual reality headsets; eyeglasses; optical devices, namely, eye pieces for helmet mounted displays; optical glasses; optical lenses; spectacles; three-dimensional (3D) spectacles; hologram apparatus, namely hologram projectors, headsets and glasses; holographic apparatus, namely holographic projectors, screens, headsets and glasses, for projecting holographic video, still images, graphics and multimedia files; computer hardware and software for automobiles, namely, computer programs for monitoring automobile performance, for mapping and navigation, for electronic mail and wireless digital messaging, mobile phone communication, cellular phone communication for maintaining personal directories, contact lists, address and telephone number lists; computer software and computer programs for virtualization, networking, collaboration, remote access, creating, offering, hosting, and delivering online conferences, tours, presentations and interactive discussions; computer software, namely, a full line of computer software for business productivity, business IT service management, business computer devices management, business IT security management, business administration and management, accounting, and marketing in the fields of business, and computer software to facilitate e-commerce business transactions via a global computer network; network access server operating software; computer programs for managing communications and data exchange between computers and electronic device; computer and video game systems devices, namely, electronic sensor devices for capturing gesture, facial, voice, and object recognition, cameras, projectors, headphones, and microphones; computer peripherals for mobile devices for remotely accessing and transmitting data; computer peripherals for displaying data and video; electronic and optical communications instruments and components, namely, flat panel display screens, display video screens for video games, and touchscreens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; downloadable computer software and mobile software applications for data storage and backup, database management, virtualization, networking, collaboration, remote access,

remote support, data sharing, data security, access to applications and services through a web operating system or portal interface; downloadable cloud computing software for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access to applications and services through a web operating system or portal interface; computer software for monitoring cloud and application performance; downloadable computer software for use in automating the allocation of data processing and computing tasks between computer hardware resources and in private and public cloud environments; downloadable computer software for security information and event management (SIEM) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats and events; microcontrollers; computer chipsets; microcontrollers and chipsets for the secure transmission of data; computer hardware modules for use with the internet of things (IOT); computer software and telecommunications apparatus to enable a data connection between internet of things (IOT) devices or mobile connected computing devices and the internet or secure networks; software application platform for connecting people, services and devices to the internet; home or industrial process automation software; mobile application software for home or industrial process automation; operating system software for cloud computing services and internet of things (IOT) devices; cloud computing software; application software for cloud computing services; operating software for cloud computing devices and the control and secure management of cloud computing devices; computer software for artificial intelligence (AI) processing; computer chips for artificial intelligence (AI) processing; computers and computer servers for artificial intelligence (AI) processing; computer software development tools, for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and

machine learning; computer software runtime systems, namely, computer software systems comprised of computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, application programming interface (API) software for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, software for implementing a computer programming language, and computer software development tools, for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; integrated circuit modules; integrated circuit cards and components; computer hardware for processing math; computer chips; silicon chips; application data processors; central processing units; software programmable microprocessors; downloadable computer software for collection, storage, analysis and presentation of data for forensic analysis of security events and for security compliance; downloadable computer software for use in data storage and management; downloadable computer software, namely, computer software for real-time analytics and debugging, computer software for user authentication, customer engagement, customer relationship management, computer software for providing messages, push notifications and information in the field of video games; computer software for user data capture, storage, and analysis; computer software for allowing users to perform electronic business transactions via a global computer network; computer software for generating coupon codes, payment processing, payment fraud detection, and computer software for creating, using and managing virtual currency; computer programs for connecting computers to one another and for enabling activities via the internet; computer programs that provide web-based access to applications and services through a web operating system or portal interface; downloadable computer software for use in assessing, monitoring, administration and management of data centers

and data center devices, and public and private cloud computing IT and application systems and resources; downloadable cloud-computing software for managing cloud computing resources; software for creating and managing cloud, high performance computing, cluster or grid computing resources, hybrid operating system environment and computing networks; software interface for accessing cloud, high performance computing, cluster or grid computing resources, hybrid operating system environment and computing networks for workload management by administrators, managers and end-users; software for policy-based governance, workload scheduling, resource and energy monitoring, control, management and provisioning by administrators, managers, and end users in the nature of automated allocation of computing resources, analysis of computing resource availability and status information, installation of software and provisioning operating system changes, power management, software upgrades management, accounting and usage management for reporting and billing, third-party application integration management, workload policy management, and job scheduling for both batch and interactive jobs across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments, and computing networks; software for governance, monitoring, managing, profiling, and indicating available computing and associated resources, namely, for intelligent automation and management of multiple resources, scheduling, operating system provisioning, power management, and computing resource policy implementation that enables administrators, managers, and end users to automate, control, and utilize multiple computing resources across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments and computing networks; software for statistical diagnostic and performance monitoring, namely, analysis of utilization of computing resources, analysis of efficiency of use of computer resources, analysis of optimization of computing resources, analysis of fair sharing of computing resources, analysis of load balancing of computer systems, analysis of hybrid operating system environments, and analysis of power consumption in compute environments by organizations, entities, individuals, classifications of quality of service, queues,

and computing nodes; software for providing a quality of service for submitted jobs and for scheduling guarantees and job reservations for users, groups, classes, accounts, and levels of quality of service; software for command-line and graphical resource and workload simulation, including simulation of simultaneous instances to explore the effects of configurations and policies on clusters, grids, high-performance computing environments, and computing networks; software for dynamic command-line and graphical management of computing resources, namely, management of software licenses within a single computer administrative domain or across multiple heterogeneous computer administrative domains, hybrid operating system environments, file spaces, network-attached storage media, tape drives, processors, memory, disks, network bandwidth, and other hardware resources; software for interface with and collection of end-user commands for job, queue, operating system, power consumption, and system management, for internal diagnostic and logging facilities, and for integration of provisioning managers, billing systems, identity and security managers and databases, and translation of resource manager job submissions; software for peer-to-peer collaboration of multiple instances to provide domain-specific policies and to provide native resource management support; downloadable software development kits (SDK); downloadable computer programs for assisting developers in creating program code for use in internal computer networks and global communication networks; computer software development tools; downloadable computer programs for running development programs and application programs in a common development environment; computer programs for assisting developers in creating program code for use in multiple application program; downloadable software that enables users to share and collaboratively develop software, computer code and user-generated content; computer programs for developing server applications; computer servers; downloadable computer software development tools; downloadable computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; computer software for browsing the internet; downloadable computer search engine software; computer browsing software, namely, software for browsing the global computer

network and private networks; search engine software; graphical user interface software; voice-recognition software; computer search engine software; software for designing business processes in a visual form; software for accessing and integrating data from multiple databases, business software applications, and software as a service (SAAS) services; software for designing and automating workflows within and between business software applications and business software as a service (SAAS) services; graphical user interface software, namely, toolbar software for use with search engine software and websites; downloadable computer software, namely, downloadable computer software featuring software in the field of advertising; downloadable computer software featuring software for managing and controlling product display on websites and on-line retail stores; downloadable computer software featuring software for product merchandising; computer application software for advertisers, marketers, and content providers to reach, engage, and interact with online users for the purposes of promotion or advertising; computer software for the design, execution and management of advertising and marketing campaigns; computer software for generating reports and analytics for advertising and marketing campaigns; data processors; data processing apparatus; memories for data processing equipment; mobile data terminal (MDT); downloadable computer software for creating searchable databases of information and data; computer chipset for use in transmitting data to and from a central processing unit; downloadable enterprise software in the nature of a database for non-transactional data and a search engine for database content; network servers; internet servers; intranet servers; video servers; digital media servers; audio/video servers; servers for web hosting; communications servers; downloadable computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; transceivers for television and global communication network transmissions that transmit them to a television or other display device, and computer operating programs for

use therewith; entertainment system comprising a computer, multiple image display screen and multiple input devices; computer operating system software for use with electronic equipment for playing games; computer programs for managing communications and data exchange between hand held computers and desktop computers; computer software for the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, audio, video and audio-visual content for the facilitation of communications between multiple users via computer networks, communication networks and the Internet; communications software for connecting peer professionals on computer networks or the Internet; computer software for use as an application programming interface (API) for facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant messages and online social networking services; computer communication software which enables multiple users to post messages and memoranda, share files, and synchronize calendars; application programming interface (API) software which facilitates online social networking; electronic devices for communications, namely, telephones, handsets, headsets, speakers, microphones, earphones, webcams and video cameras; headphones; network communication apparatus; mobile phone peripherals; mobile phone accessories; network communication apparatus; electronic communication equipment, apparatus and instruments; electronic user manuals; wearable computers; wearable computer peripherals; apparatus for the manufacture of holograms; computer software for network and information technology security; electronic newspapers (downloadable); computer software for filtering unwanted electronic mail, web messages and on-line pop-up advertisements; electronic databases in the fields of advertising, marketing, market research, and media research; computer components and parts; computer programs for use in offices; software for back-office functions; business software; computer software, namely, a full line of computer software for business and accounting applications; computer software for use in business management, accounting, marketing, and e-commerce; batteries; computer software applications for portable apparatus; computer hardware for cloud computing; computer software for financial risk management;

apparatus and instruments for data communication, satellite communication and telecommunication; computer hardware and computer application software for use in the field of telecommunications; computer software for web hosting; game software and entertainment software for use with mobile devices; video game cartridges; computer video game programs; computer game development software; computer consoles; electronic devices for receiving television and global communication network transmissions and transmitting them to a television or other display device and computer programs for use therewith; entertainment consoles comprising computer hardware and software for providing audio, video, and multimedia output; computer software application for use in group communication, namely, postings, memoranda and instant messaging, file sharing, calendar synchronization, and automated integrations with external service providers; computer software application for use in collaborative work; software for providing news; downloadable mobile and computer application software for mobile phones, mobile devices, personal digital assistants, tablet computers, laptops and electronic reading devices for accessing and organizing information in the fields of beauty, fashion, popular culture, lifestyle, travel, music, art, movies, entertainment, film, news, celebrities, charitable fundraising and global and humanitarian issues; downloadable mobile and computer application software for online shopping; collaboration software platform; downloadable computer software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images, and digital files; downloadable software, namely software for connecting to the cloud to allow for collaboration among users across other software applications; downloadable software, namely software for integrating artificial intelligence and intelligent agents into other software; downloadable software, namely software for allowing real time updates to software applications accessible by multiple parties; downloadable software, namely software for enabling interconnectivity between other software applications and platforms; downloadable software, namely software for transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating,

encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, digital media, images, music, audio, video, movies and animations between multiple users; downloadable computer software for use in connection with developing video analytics applications; computer software for data and video capture, storage and analysis; computer software, namely, security software, user authentication software, password management and protection software for mobile digital electronic devices and computing devices; downloadable computer software for artificial intelligence processing and deep learning; downloadable computer software development libraries, namely, downloadable electronic data files consisting of software development tools for model development and training; downloadable computer software, namely, computer software for general purpose computation, manipulation of collections of data, data transformation, communications, graphics display, acceleration of model development, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; downloadable computer software and software development tools for use in the fields of high performance computing, distributed computing, distributed training with mixed precision, model and pipeline parallelism, redundancy optimization, memory and bandwidth optimization, computational kernel optimization, sparse attention kernels, communication compression, training optimization, training agnostic checkpointing, advanced parameter searching, data loading, performance analysis and debugging, and machine learning; silicon microprocessors; microcontroller units; microcontrollers and chipsets for the secure receipt and transmission of data; microcontrollers and chipsets optimized for use in access control, identification, authentication, security and safety; communications receivers; data exchange units; computer hardware modules for use in security and secure power management for internet connected devices; security processors; security subsystems that include a microprocessor core, memory, cryptographic hardware accelerators, access controls, security state controls, interfacing fabric, and peripherals; hardware-based Roots of Trust (RoTs); computer software for system boot

processes; hardware for supporting remote attestation and certificate-based security; computer software for remote attestation and certificate-based security; computer software for use in access control, identification, authentication, security and safety; authenticating application software for cloud computing services; downloadable computer software for parental control of computer and internet usage; downloadable computer software for managing, filtering, and monitoring access to mobile devices, console and portable gaming devices, applications, games software and internet usage; downloadable computer software for remotely managing device and application settings; downloadable computer software for finding and displaying a user's location; downloadable computer software for global positioning system (GPS) tracking devices; downloadable computer software for gathering, analyzing and presenting data on usage of mobile devices, console and portable gaming devices, applications, games software and internet; Global positioning system (GPS); Global positioning system (GPS) apparatus; GPS tracking devices; GPS navigation device; GPS receivers; vehicle mounted GPS sensor for determining the rate of motion for a vehicle; computerized vehicle engine analyzers; electronic speed controllers; downloadable computer software and computer programs for use in database management, electronic spreadsheets, designing, creating, editing and publishing documents, note taking, email, calendaring, scheduling, contact information storage and management, accounting, customer relationship management, project management, presentation graphics, desktop publishing, web publishing, document management, database management, data collection, data analysis, graphics, presentation graphics, word processing, instant messaging, Voice over Internet Protocol (VoIP), video conferencing, audio conferencing, web conferencing and document sharing, application sharing, computer desktop sharing, file transfer, sensing and providing user presence information, telephony, real-time communications featuring instant messaging, audio, video and data exchange, mapping geographical locations, manipulating video, audio and graphics; recorded computer software and computer programs for use in database management, electronic spreadsheets, designing, creating, editing and publishing documents, note taking, email, calendaring,

scheduling, contact information storage and management, accounting, customer relationship management, project management, presentation graphics, desktop publishing, web publishing, document management, database management, data collection, data analysis, graphics, presentation graphics, word processing, instant messaging, Voice over Internet Protocol (VoIP), video conferencing, audio conferencing, web conferencing and document sharing, application sharing, computer desktop sharing, file transfer, sensing and providing user presence information, telephony, real-time communications featuring instant messaging, audio, video and data exchange, mapping geographical locations, manipulating video, audio and graphics; downloadable communications software for managing the exchange of communications and data and information over computer networks, wireless networks, and global communications networks; recorded communications software for managing the exchange of communications and data and information over computer networks, wireless networks, and global communications networks; downloadable computer communications software for use in accessing web sites and exchanging information and data and obtaining services from web sites; recorded computer communications software for use in accessing web sites and exchanging information and data and obtaining services from web sites; downloadable computer software for use in developing web sites, operating electronic mail and providing computer security; recorded computer software for use in developing web sites, operating electronic mail and providing computer security; downloadable computer software for recording, organizing, editing and transmitting information in typed written and voice format; recorded computer software for recording, organizing, editing and transmitting information in typed written and voice format; downloadable computer communications software for accessing web messaging and shared documents from web sites on the Internet; recorded computer communications software for accessing web messaging and shared documents from web sites on the Internet; downloadable computer utility programs; recorded computer utility programs; downloadable computer software development programs; recorded computer software development programs; downloadable computer security and authentication software for controlling access to and communications with

computers; recorded computer security and authentication software for controlling access to and communications with computers; downloadable computer software for computer network security, anti-virus protection, and intrusion detection and prevention; recorded computer software for computer network security, anti-virus protection, and intrusion detection and prevention; downloadable business software applications, namely, software for word processing, inventory management, database management, electronic spreadsheets, designing, creating, editing and publishing documents, note taking, email, calendaring, scheduling, accounting, customer relationship management, presentation graphics, desktop publishing, web publishing, document management, data collection, data analysis, project management, instant messaging, Voice over Internet Protocol (VoIP), video conferencing, audio conferencing, web conferencing and document sharing, application sharing, computer desktop sharing, file transfer, sensing and providing user presence information, telephony, real-time communications featuring instant messaging, audio, video and data exchange, mapping geographical locations, manipulating video, audio and graphics; recorded business software applications, namely, software for word processing, inventory management, database management, electronic spreadsheets, designing, creating, editing and publishing documents, note taking, email, calendaring, scheduling, accounting, customer relationship management, presentation graphics, desktop publishing, web publishing, document management, data collection, data analysis, project management, instant messaging, Voice over Internet Protocol (VoIP), video conferencing, audio conferencing, web conferencing and document sharing, application sharing, computer desktop sharing, file transfer, sensing and providing user presence information, telephony, real-time communications featuring instant messaging, audio, video and data exchange, mapping geographical locations, manipulating video, audio and graphics; computer software for use in the field of education and training; computer software for use in providing information concerning health and wellbeing.

Class 42:
Scientific and technological services and research and design relating thereto;
industrial analysis, industrial research and

industrial design services; quality control and authentication services; design and development of computer hardware and software; provision of temporary use of non-downloadable software; cloud computing services; software as a service (SaaS); platform as a service (PaaS); infrastructure as a service (IaaS); data as a service (DaaS); application service provider (ASP) services; application programming interface (API); hosting and maintaining computer websites; hosting of digital content on computer networks; server hosting; information services relating to computer systems and applications; computer systems and applications consultancy services; technical support services relating to computer software and applications; research and development of computer hardware and software; computer software rental; rental of computer software and programs; computer software design; updating of computer software; rental of application software; software authoring; computer software consultancy; software development in the framework of software publishing; maintenance of computer software; maintenance of software for Internet access; customizing computer software; smartphone software design; installation of computer software; rental of software for Internet access; debugging computer software for others; advisory services relating to computer software; computer services, namely, providing on-line non-downloadable software for database management, data storage and backup, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions, word processing programs, operating system programs; data encryption services; data decryption services; data migration services; electronic data back-up services; cloud storage services for electronic data; cloud storage services for electronic files; consulting services in the field of cloud computing; computer services, namely, cloud hosting provider services;

infrastructure as a service (IAAS) services, namely, hosting servers for use by others; platform-as-a-service (paas), infrastructure-as-a-service (iaas) and software-as-a-service (saas) services featuring computer software platforms for creating web applications, data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions; providing online non-downloadable software for computer operating systems; providing online non-downloadable computer programs for accessing global communication networks; providing online non-downloadable software for downloading, streaming, and playing music, audio, videos, multimedia content, podcasts, and internet radio broadcasts; update, installation and maintenance of computer software; computer services, namely, updating computer software for others via the internet and wireless networks; computer hardware and software testing services; design and development of computer software and software architecture in the field of machine learning, deep learning, and artificial intelligence solutions; software as a service (saas) featuring artificial intelligence, machine learning, and deep learning applications and computer software platforms; software as a service (saas) featuring software for executing deep learning, machine learning, hierarchical learning, artificial intelligence, automatic speech recognition, and natural language processing programs; hosting of a web site that gives users the ability to upload images; hosting of a web site featuring technology that enables online users to create personal profiles featuring social networking information; computer services, namely, creating virtual communities for registered users to participate in discussions and engage in social, business and community networking; application service provider (ASP), namely, hosting computer software applications of others; application service provider (asp)

featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, sharing or otherwise providing electronic media or information over communication networks; software as a service (saas) services featuring software for sales management, customer service management, business operations management, financial and finance operations management, remote and field service operations management, project service automation management, marketing campaign planning and management, customer relationship management, enterprise resource management, sales and marketing information management, personnel and project management, facilities management, internet of things management, software development and customization, the analysis, warehousing, processing and management of data, big data management, security and authentication, social media management, peer-to-peer communications, email account management, word processing, and cloud computing for use with all of the foregoing; hosting the software, websites, and other computer applications of others on a virtual private server; intelligent natural language understanding services using cloud-based software technology; user authentication services using single sign-on technology for online software applications; providing temporary use of online, non-downloadable enterprise software for customer relationship management, enterprise risk management, security, datacenter, data warehousing, cloud, hosting, mobile application, artificial intelligence, machine learning, word processing, and multimedia functions; intelligent natural language understanding services using cloud-based software technology; cloud services, namely, providing on-line non-downloadable operating software for accessing and using a cloud computing network; providing virtual computer systems and virtual computer environments through cloud computing; providing cloud computing services, namely, cloud hosting provider services and cloud computing featuring software for uploading, downloading, integrating, encoding, decoding, formatting, organizing, caching, transferring and streaming of text; providing virtual computer systems, graphics processing units (gpu), and virtual computer environments through cloud computing; providing information in the fields of the development of computer systems, cloud

computing environments, networks and software over computer networks, wireless networks and global communications networks; computer services, namely, remote hosting of operating systems and computer applications for others on a virtual private server; rental of computing and data storage facilities of variable capacity; providing, developing, and designing on-line non-downloadable software accessible over a global computer network for managing computer applications; designing and developing electronically stored web pages for online services on the internet; data warehousing; elaboration and maintenance of web sites for third parties; managing web sites for others; rental of web servers; rental of a database server to third parties; displaying the web sites and images of others on a computer server; computer services, namely, hosting and maintaining an on-line web site for others to collaboratively develop software; hosting an on-line community web site featuring a distributed control system for the collaborative development of software; platform as a service (paas) and software as a service (saas) services featuring computer software platforms for the collaborative development of software; design and development of networks and network software and applications; providing temporary use of on-line non-downloadable software development tools; troubleshooting of computer software problems; technical support services, namely, troubleshooting of computer hardware, software, web, database and mobile applications; computer services, namely, providing technical support, information and consultation services, namely, troubleshooting in the nature of diagnosing problems in computer hardware, computer software and computer operating systems; consulting in the field of information technology; consulting in the field of cloud computing networks and applications; development of software for secure network operations; design and development of computer game software; design and development of virtual reality software; design and development of computer hardware in the field of games, video games, and game content; platform as a service (paas) featuring computer software platforms for use in software development in the field of gaming and graphic design; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for broadcasting, transmitting,

receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, games, game content, digital media, images, music, audio, video and animations; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for purchasing and subscribing to digital media content; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for developing and publishing applications for interactive streaming; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for television (tv) programming; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for management and storage of digital media; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for parental control for enabling access to games, namely, electronic, computer, and video games; computer software consulting services in the field of gaming technology and graphics software; consulting services in the field of software as a service (SAAS); computer software development in the field of mobile applications; platform as a service (paas) featuring computer software platforms for gaming and graphic design; online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; providing temporary use of non-downloadable software for mapping and directions, language translation, and accessing information related to entertainment, travel, finance, news, sports, weather, food and drink, and health and fitness consisting mainly of links to other websites; providing internet search engine services; providing a website featuring a media aggregator and search engine for internet content; providing customized on-line web pages featuring user-defined information, which includes search engines and on-line web links to other web sites; providing temporary use of non-downloadable computer software

applications for business related news and information; providing temporary use of non-downloadable computer software applications for non-business related news and information that mainly consists of links to other websites in the fields of entertainment, travel, finance, news, sports, weather, food and drink, maps, language translation, and health and fitness; computer services, namely, providing specific information as requested by customers via the internet; computer network design and computer software design in the field of the telecommunications industry; non-downloadable software for wireless network management; design, development, and implementation of software in the field of white space telecommunications and internet connectivity; research, development, design and upgrading of computer software; research services in the field of white space telecommunications and internet connectivity; design, deployment and management of wireless internet computer networks for others; creating and hosting online communities for business and technology professionals, entrepreneurs, researchers, investors, service providers, academics, students, experimenters, and others who are involved in internet of things business and/or technology; computer services, namely, hosting and maintaining an on-line web site for others for educational purposes in the fields of reading, writing, science, technology, engineering and math for use by teachers and students; testing, analysis, and evaluation of the knowledge, skills and abilities of others for purposes of credentialing in the field of in the field of computers, software development, artificial intelligence, security and information technology, cloud solutions, and electronic business transactions via a global computer network; research services in the field of information and telecommunications technology; development, maintenance, and updating of a telecommunication network search engine; telecommunications technology consultancy; research in the field of telecommunications technology; computer programming services to create online facilities that will provide telecommunications support; technological research of computer software and hardware; research and development of advanced learning technologies and teaching methods for developing artificial intelligence and machine learning capacities; product research and development; scientific research on the topics

of the advancement of artificial intelligence, computing technology, human interactions with technology and digital security, data mining and management, accountability and personal responsibility; charitable services, namely, providing temporary use of non-downloadable computer software for those in need; updating of computer software relating to computer security and prevention of computer risks; providing information in the fields of technology and software development via an on-line website; providing temporary use of non-downloadable computer anti-virus software; application service provider featuring application programming interface (API) software; electronic storage of cryptocurrency for others; providing technology information in the field of cryptocurrency; providing on-line non-downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; providing temporary use of non-downloadable web-based decentralized applications (DApps) for blockchain contracts, cloud storage of data, web browsing, and cryptocurrency trading; computer security services in the nature of administering digital certificates; computer security services in the nature of administering digital keys; providing temporary use of on-line non-downloadable software development tools; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of advertising and marketing; online non-downloadable computer software for security information and event management (SIEM) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats, and events; artificial intelligence (AI) processing online non-downloadable software; computer diagnostic services; computer programming services; computer consultancy and technical support, all relating to the design and use of computer programs, computers, computer hardware and computer systems; providing temporary use of on-line non-downloadable software for instant messaging, enabling and managing simultaneous, multiple modes of communication over local area networks and the Internet via instant messaging, voice over internet protocol (VOIP), video conferencing, audio conferencing, computer desktop sharing, file transfer, sensing and providing user presence information, and telephony; computer software

consultancy which provides technical information; hosting of digital content on the Internet; consulting services in the field of software as a service (SAAS); platform as a service (PAAS) featuring computer software platforms which enable multiple users to post messages and memoranda, instant message, share files and synchronize calendars; online non-downloadable software for microprocessors; online non-downloadable software development kits (SDK); computer disaster recovery planning and data recovery services; hosting of web sites provide business and non-business related news; providing temporary use of non-downloadable computer software featuring news; computer services; computer consultancy and technical support, all relating to the design and use of computer programs, computers, computer hardware and computer systems; platform as a service (PAAS) featuring computer software platforms for use in group communication, namely postings, memoranda and instant messaging, file sharing, calendar synchronization, and automated integrations with external service providers; software as a service (saas) services featuring non-downloadable software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images, and digital files; platform as a service (paas) services featuring non-downloadable computer software platforms for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing information, data, images, and digital files; software as a service (saas) services featuring non-downloadable computer software used for user data capture, storage and analysis; platform as a service (paas) featuring non-downloadable computer software platforms used for user data capture, storage and analysis; software as a service (saas) services featuring non-downloadable computer software allowing users to perform electronic business transactions via a global computer network; platform as a service (paas) services featuring non-downloadable computer software platforms allowing users to perform electronic business transactions via a global computer network; software as a service (saas) services featuring non-downloadable computer software used for generating coupon codes, payment processing, payment fraud detection, and creating, using and managing virtual currency; platform as a service (paas) services

featuring computer software platforms used for generating coupon codes, payment processing, payment fraud detection, and creating, using and managing virtual currency; providing a website featuring information in the field of transactions involving information, data, images and digital files; hosting of a website featuring technology that enables users access to and information about transactions involving information, data, images, and digital files; computer and information technology consultancy services; providing temporary use of non-downloadable computer software relating to education and training; providing temporary use of non-downloadable computer software relating to health and wellbeing; providing temporary use of non-downloadable computer software for advertising and marketing; providing temporary use of non-downloadable computer software for use in offices and for back-office functions; computer services, namely, providing temporary use of online non-downloadable software for use in the fields of database management, electronic spreadsheets, designing, creating, editing and publishing documents, note taking, email, calendaring, contacts management, presentation graphics, desktop publishing, document management, word processing, instant messaging, Voice over Internet Protocol (VoIP), video conferencing, audio conferencing, application sharing, computer desktop sharing, file transfer, accessing web messaging and shared documents from web sites on the Internet, sensing and providing user presence information, telephony, computer network security, anti-virus protection, and intrusion detection and prevention; computer software consultation; providing information in the fields of the development of computer systems, cloud computing environments, networks and software over computer networks, wireless networks and global communications networks; technical support services, namely, providing technical assistance to others in the field of website management and email management services; providing technical information in the field of website management and email management via computer networks and global communications networks; hosting the websites of others on a computer server for a global computer network; providing customized on-line web pages featuring personal and business information specified and defined by users which includes search engines and online links to other web sites, over computer

networks, wireless networks and global communications networks; providing technical information in the field of computer software and cloud computing; providing online non-downloadable software for accessing and using cloud computing networks; providing online non-downloadable software for accessing remotely stored data, files and documents; electronic storage of files, documents and data; electronic mail services, namely, electronic storage of archived e-mails; providing temporary use of online non-downloadable software for parental control of computer and internet usage; providing temporary use of online non-downloadable software for managing, filtering, and monitoring access to mobile devices, console and portable gaming devices, applications, games software and internet usage; providing temporary use of online non-downloadable software for remotely managing device and application settings; providing temporary use of online non-downloadable software for finding and displaying a user's location and global positioning system (GPS) tracking devices; providing temporary use of online non-downloadable software for gathering, analyzing and presenting data on usage of mobile devices, console and portable gaming devices, applications, games software and internet; Software as a Service (SaaS), namely software for connecting to the cloud to allow for collaboration among users across other software applications; Software as a Service (SaaS), namely software for integrating artificial intelligence and intelligent agents into other software; Software as a Service (SaaS), namely software for allowing real time updates to software applications accessible by multiple parties; Software as a Service (SaaS), namely software for enabling interconnectivity between other software applications and platforms; Software as a Service (SaaS), namely software for transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, digital media, images, music, audio, video, movies and animations between multiple users; online computer services, namely, online scanning, detecting, managing and authenticating security and log in credentials for users of mobile digital electronic devices and computing devices; software as a service

(SaaS) services featuring security software, user authentication software, password and log in management and protection software; software as a service (saas) services featuring non-downloadable software for use in connection with developing video analytics applications; platform as a service (paas) services featuring non-downloadable computer software platforms for use in connection with developing video analytics applications; software as a service (saas) services featuring non-downloadable computer software used for data and video capture, storage and analysis; platform as a service (paas) featuring non-downloadable computer software platforms used for data and video capture, storage and analysis; hosting of a website featuring information in the field of development of video analytics software; hosting of a website featuring technology that enables users access to and information about video analytics software; software as a service (saas) services for software development; platform as a service (paas) services for software development; scientific services, namely, scientific research in the field of artificial intelligence, deep learning, model development, and product research and design related thereto; providing temporary use of online non-downloadable computer software tools for software development; providing temporary use of online non-downloadable computer software for artificial intelligence processing and deep learning; providing temporary use of online non-downloadable computer software, namely, computer software for implementing a computer programming language, computer software development tools, and computer software libraries for use in general purpose computation, manipulation of collections of data, data transformation, communications, graphics display, acceleration of model development, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; providing temporary use of online non-downloadable computer software and software development tools for use in the fields of high performance computing, distributed computing, distributed training with mixed precision, model and pipeline parallelism, redundancy optimization, memory and bandwidth optimization, computational kernel optimization, sparse attention kernels,

communication compression, training optimization, training agnostic check pointing, advanced parameter searching, data loading, performance analysis and debugging, and machine learning; software as a service (SAAS) services featuring software for interfacing with deep learning computational frameworks; platform-as-a-service (PAAS), infrastructure-as-a-service (IAAS), software-as-a-service (SAAS) services, and mobile-backend-as-a-service (MBAAS) featuring computer software platforms for deploying virtual machines to a cloud computing platform, diagnostics and analysis, syncing, storing, and archiving data, analyzing data, database design and development, creating web applications, data storage, data storage, and archiving and backup of data, electronic media, and digital content; computer services, namely, creating cloud-based indexes of information; consulting services in the field of cloud computing technology, infrastructure-as-a-service (IAAS) cloud computing technology, software-as-a-service (SaaS) cloud computing technology, platform-as-a-service (PAAS), and mobile-backend-as-a-service (MBAAS) cloud computing technology; mobile-backend as a service (MBAAS); cloud computing services, namely computing resources delivered as a service over a network, including infrastructure as a service (IaaS), platform as a services (PAAS), mobile backend as a service (MBAAS); advisory, information and consultancy services of all of the aforesaid services.

Class 45:

Legal services; security services for the physical protection of tangible property and individuals; personal and social services rendered by others to meet the needs of individuals; social networking services; computer software licensing; online social networking services; social networking services via the internet and wireless networks; providing social networking services via an internet website portal; personal services, namely, providing online social networking services; providing social networking services via online computer databases and online searchable databases; social networking services in the fields of entertainment, gaming, and application development; providing information about social networking that involves online gaming, online video games, and online video gaming applications; online social networking

services, namely, facilitating social introductions or interactions among individuals; internet-based social networking services in the fields of entertainment, gaming, and application development; providing information about social networks for users of online gaming, online video games, and online video gaming applications; providing information in the field of personal development (social services), namely, self-improvement, self-fulfillment, and interpersonal communications relating to community, humanitarian, and philanthropic activities; providing information, news, and commentary in the field of social networking; personal concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs, rendered online; online social networking services related to three-dimensional (3D) drawings, images, and digital content; providing information in the field of monitoring of computer systems, networks, websites, and mobile devices for security purposes; security services for the protection of property and individuals; online social networking services in the field of electronic games; Consulting services in the field of maintaining the security and integrity of databases; licensing of intellectual property; Licensing of development kits for computer game software and video game software; consultancy relating to computer software licensing; monitoring of computer systems for security purposes; providing security threat management systems, namely, monitoring and tracking of security vulnerabilities and problems in computer software products, the internet, and computer networks; providing personal development information (social services) via a resource website; providing information relating to on-line dating, personal introduction and social networking; providing a platform for the purpose of social media and social networking; intellectual property monitoring, searching and investigation services; provision of legal information and legal research services; security services; monitoring of home or office security systems; computerised security services for business establishments and domestic establishments; advisory, information and consultancy services of all of the aforesaid services.
