接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

air-conditioning, energy consumption, fire safety, access control and energy management systems; software applied to the protection, control, management, surveillance and supervision of electric installations and networks and communication networks; programming, operating and supervision software for automated processes; software for remote configuration functions; communication software; software platform for use in asset optimization, industrial automation, machine diagnostics, and optimization of industrial, manufacturing and infrastructure management processes; software applied to the protection, control, management, surveillance and supervision of electric installations and networks; downloadable cloud computer software for information management, data collection and data analysis in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, manufacturing and infrastructure management processes; downloadable software for information management, data collection and data analysis in the fields of asset optimization, industrial automation, machine diagnostics and optimization of industrial, manufacturing and infrastructure management processes; downloadable software application for information management, data collection and data analysis in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, manufacturing and infrastructure management processes; cloud computing software for use in asset optimization, industrial automation, machine diagnostics, and optimization of industrial, manufacturing and infrastructure management processes; computer software for collecting and distributing data within computer networks, including the internet, and enabling data communication among application programs, consumer devices and industrial devices.

Class 37:

Setting-up (installation) of electric and electronic apparatus, maintenance and repair services; construction, installation, repair and maintenance services for electrical and automated systems installations and equipment; construction, installation and maintenance services for installations and equipment used for research and engineering in the field of electricity, home and building automation and automated systems; construction, installation and maintenance services for monitoring and safety equipment and for installations in the field of electricity, home and building automation and automated systems; installation, maintenance and repair of lighting, heating, cooling, humidifying, ventilation and air-conditioning apparatus and installations for homes and buildings; information and consulting regarding the installation, maintenance and repair of lighting, heating, cooling, humidifying, ventilation and air-conditioning apparatus and installations for homes and buildings; installation and maintenance services for security installations, including via a telecommunications network; installation and maintenance of intelligent systems for buildings and homes; installation and maintenance of home and building automation installations and programmable automations and installations for technical management of homes and buildings; technical services for the installation,

maintenance and repair of computers and computer peripheral equipment; consulting and information on construction; maintenance assessment of the performance and reliability of alarm systems; construction consulting.

Class 42:

Design, development, scientific and technological analysis, scientific and technological consultancy, measurement, scientific and technological monitoring services in the field of management, availability, reliability and optimization of electric power in industrial, tertiary and residential buildings, in infrastructures and data centers, in industrial machines, plants, power grids and processes; design, development, scientific and technological analysis, scientific and technological consultancy, measurement, scientific and technological monitoring services in the fields of energy efficiency and energy sustainability in industrial, tertiary and residential buildings, in infrastructures and data centers, in industrial machines, plants, power grids and processes; design, development, scientific and technological analysis, scientific and technological consultancy, measurement, scientific and technological monitoring services in the field of process management in industrial, tertiary and residential buildings, in infrastructures and data centers, in industrial machines, plants, power grids and processes; design, development, scientific and technological analysis, scientific and technological consultancy, measurement, scientific and technological monitoring services in the fields of security management, access control, video surveillance in industrial, tertiary and residential buildings, in infrastructures and data centers, in industrial machines, plants, power grids and processes; scientific and technological consulting and advisory services in the fields of energy consumption and energy efficiency; scientific and technological consulting and advisory services in the fields of energy measurement, energy consumption, energy distribution and energy efficiency for industrial, tertiary and residential building, infrastructures and data centers, industrial machines, plants, power grid and processes; scientific and technological consulting and advisory services in the fields of energy measurement, energy consumption, energy distribution and energy efficiency for buildings automation and automated systems installations and equipment; computer networking of building and home controls, namely, wireless and wired lighting controls, thermostat and heating controls, rolling shutters and door controls, appliance controls, namely, oven, washer, dryer, refrigerator, dishwasher, building and home audio and video controls; technology planning and consulting in the field of solar energy; design and inspection of fire alarm, detection and suppression systems; integration of computer systems and networks; design and development of wired and wireless computer networks; scientific and technological consultation in the field of enabling users to remotely view, monitor, program, operate and control large and small appliances, electrical systems and security systems in buildings and homes; building and home connectivity services, namely, design and development of wired and wireless computer networks for buildings and homes; Services of engineers, laboratory

work, engineering work (not for construction) in the fields of electrical energy management and building management; research and development work and study of technical projects and new products in the fields of electrical energy management, building management and home automation for environmental protection purposes; information in the field of research and development relating to energy; scientific and technological consulting, expert reports and materials testing in the fields of electrical energy management and building management; monitoring and control services for electrical, home automation and automated systems installations and equipment; building control services (technical control, quality control); quality and compliance certification (quality control); computer programming, software development and database design in the fields of electrical energy management and building management; design, production and management of information and computer technology systems; programming home automation installations as well as programmable automated systems and technical management installations for buildings; scientific and technological monitoring (supervision) of energy consumption; technical studies and advice on energy consumption distribution; technical evaluations and appraisals of energy consumption.
