

香港特別行政區政府知識產權署商標註冊處

Trade Marks Registry, Intellectual Property Department

The Government of the Hong Kong Special Administrative Region

接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

Specification: A computer platform for the remote management of security cameras, surveillance cameras, access control systems, security-related software, security-related hardware or security-related equipment; a computer platform integrated with security, CCTV or surveillance cameras, consisting of computer software for the controlling and management of security, CCTV or surveillance cameras, and also consisting of computer software for the analysis of video footage from security, CCTV or surveillance cameras and the consequent provision of security-related, marketing-related, operations-related or management-related analytics and data, and also featuring integration with point of sale apparatus; a computer platform integrated with security, CCTV or surveillance cameras, consisting of computer software for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software including motion detection, target tracking, target identification, or facial recognition capabilities, and also consisting of recorders or remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras; a computer platform for the remote management and viewing of security, CCTV or surveillance cameras, via smartphones, tablet computers or portable computers; a computer platform for the remote-controlling of security, CCTV or surveillance cameras, via

smartphones, tablet computers or portable computers; a computer platform for use in conjunction with security, CCTV or surveillance cameras, featuring imaging analytics, target acquisition, target tracking, target feature analysis, target feature interpretation, facial recognition, access control, command-and-control, biometric, and security capabilities; a computer platform for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software having motion detection, target tracking, target identification, or facial recognition capabilities; computer software for the integration of security systems with point of sale apparatus; computer software for the analysis of video footage and the consequent provision of security-related, marketing-related, operations-related, or management-related analytics and data; computer software for the integration of footage from multiple security cameras or surveillance cameras to enable users to view a seamless and comprehensive image of buildings, commercial premises, offices, retail stores, laboratories, hotels, casinos, airports, shopping malls, hospitals, rail stations, vehicles, individual items of property or other assets, and also to enable the deconstruction of the seamless image to allow users to focus on particular sections thereof; cameras; CCTV cameras; 360-degree CCTV cameras; 360-degree surveillance cameras; surveillance cameras; outdoor surveillance cameras; explosion-resistant, weather-resistant, and vandalism-resistant outdoor surveillance cameras; indoor surveillance cameras; explosion-resistant, and vandalism-resistant indoor surveillance cameras; indoor surveillance cameras for mounting on or in walls, for mounting on or in ceilings, or for mounting on or in tables; concealed surveillance cameras; explosion-resistant, weather-resistant, and vandalism-resistant concealed surveillance cameras; concealed surveillance cameras for mounting on or in walls, for mounting on or in ceilings, or for mounting on or in tables; analogue and digital CCTV cameras; explosion-resistant CCTV cameras; internet protocol (IP) cameras; internet protocol (IP) surveillance cameras; explosion-resistant internet protocol (IP) cameras; analogue and digital video cameras; explosion-resistant digital video cameras; cameras with motion detection, target acquisition or image tracking capabilities; electronic recorders of images and video footage from analogue security, CCTV or surveillance cameras; cameras with motion detection or image tracking capabilities; network video recorders (NVRs); recorders and remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras; computer software; computer hardware; media-rich computer application processors; computer hardware platforms; computer middleware; automation systems comprising wireless and wired controllers, controlled devices, and software for security and other monitoring and control applications; facilities management software, namely, software to control building environment, access and security systems; software to control building environmental, access and security systems; control system for the remote observation, management and operation of security systems and surveillance cameras, comprising computers, software, cameras,

access controls, and video display screens; computer software for use in managing electronic devices for use for tracking people, vehicles and objects and receiving reports and text messages related thereto; computer application software for mobile phones used for managing electronic devices used for tracking people, vehicles, and objects and receiving reports and text messages related thereto; computer software and applications (apps) for mobile computer systems; camera hardware systems for IP (Internet protocol) video surveillance; digital video recording software for IP (Internet protocol) video surveillance; network video recording software for IP (Internet Protocol) video surveillance; computer hardware for IP (Internet protocol) video surveillance; automated self-contained electronic surveillance devices that can be deployed to gather evidence or intelligence in remote locations; electric and electronic video surveillance installations; IP (Internet protocol) video servers; servers for web hosting; remotely-controlled video camera containing a TV camera, transmitter, receiver and microphone; apparatus for use in audio-visual communications; apparatus co-operating with computers in connection with sound and images transmission; video transmitters; video players, recorders, transmitters, and receivers for streaming, transmitting, playing and receiving and recording data, image, audio, video and multimedia; portable handheld electronic digital video messengers for recording, storing, transmission or reproduction of visual, audio and data content; application software; computer software applications, downloadable; computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; computer software all for business solutions offered via the Internet; downloadable and non-downloadable computer software for business data integration, processing and analysis; cloud computing infrastructure software; computer software to enable software as a service (SaaS) and platform as a service (PaaS) capabilities; computer software for implementing scalable cloud computer application development, deployment and management infrastructure; computer software for use in customer relationship management (CRM); computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; mobile computing and operating platforms consisting of data transceivers, wireless networks and gateways for collection and management of data; real-time data collection and communication equipment; electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of security, provided via computer and communication networks; automated billing machines and software for processing accounting information; computer software for processing digital images; computer hardware and computer software programs for the integration of text, audio, graphics, still images and moving pictures into an interactive delivery for multimedia applications; computer programs for editing images, sound and video; computer software for organizing and viewing digital images and photographs; computer software to enhance the audio-visual

capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; software for processing images, graphics and text; software of transmission of audio data and video in continuous (streaming); gateway software; computer hardware and computer software for controlling the operation of video and audio devices for viewing, transmitting, playing, receiving and recording data, image, audio, video and multimedia files and content; computer telecommunications software for transmitting and reproducing voice, audio, video, images and data; equipment and software for video-on-demand; real-time video processing apparatus; apparatus for recording, transmission, processing and reproduction of sound, images or data; access control devices; access control units; access control apparatus; access control systems; access control cards (encoded or magnetic); access control and alarm monitoring systems; electronic sensors; electronic readers; electronic readers and controllers for controlling access to premises; entry-phones, video phones and access control devices; smart cards; electronic card readers; proximity switches; control devices; alarms, smoke alarms and gas alarms; anti-theft devices; intruder detection systems; security systems, alarm systems; detectors; remote presence management products, namely, switches, and console, alarm, sensor and power management devices; point of sale terminals; point of sale apparatus; data storage apparatus; data storage media; data storage devices; computer storage devices, namely, external hard drives, blank flash drives and high-speed storage subsystems for storage and back up of electronic and digital data locally and via a telecommunications network; downloadable newsletters, reports and publications in the fields of security and video surveillance; parts and fittings for all the aforesaid goods; video surveillance as a service (VaaS) systems; video surveillance as a service (VaaS) systems featuring security cameras, surveillance cameras, access control systems, security-related software, security-related hardware or security-related equipment, and monitoring of the aforesaid; video surveillance as a service (VaaS) systems featuring a computer platform integrated with security, CCTV or surveillance cameras, consisting of software for the controlling and management of security, CCTV or surveillance cameras, and also consisting of recorders or remotely-located recorders of images, video footage and audio feeds from security, CCTV or surveillance cameras, and monitoring of the aforesaid; video surveillance as a service (VaaS) systems featuring a computer platform integrated with security, CCTV or surveillance cameras, consisting of software for the analysis of video footage from security, CCTV or surveillance cameras and the consequent provision of security-related, marketing-related, operations-related or management-related analytics and data, and also featuring integration with point of sale apparatus, and monitoring of the aforesaid; video surveillance as a service (VaaS) systems featuring a computer platform integrated with security, CCTV or surveillance cameras, consisting of computer software for the management and viewing of live or recorded images, video footage and audio feeds from security, CCTV or surveillance cameras, with such software

including motion detection, target tracking, target identification, or facial recognition capabilities, and monitoring of the aforesaid.

Class 35:

Business intelligence services; provision of business intelligence; data processing services; business intelligence analytics; providing business management information in connection with consulting and advisory services in the field of strategic planning; business consultancy and advisory services; business management advisory services; business process management and consulting; analysis of business information; analysis of business statistics; analysis of business management systems; analysis of market research data and statistics; business intelligence services to facilitate the management or operations of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial premises; business information management, namely, electronic reporting of business information; business analytics, namely, business investigations, evaluations, expert appraisals, information and research, trade spend business management; providing business intelligence services in the fields of security, surveillance, entertainment, marketing, or the management and operation of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial premises; outsource service provider in the field of business analytics; business information services relating to the recordal, compilation and exploitation of business data; the provision and compilation of databases and commercial information for business and market research and marketing; billing services; billing services in the fields of security, surveillance, or business information; electronic monitoring of people and of goods (data collection), for marketing or business intelligence purposes; computerised point-of-sale data collection services for retailers; remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; information, advisory and consultancy services relating to all of the aforesaid.

Class 38:

Telecommunications services; telecommunications, namely electronic, digital or wireless transmission of sound, audio, images, video or data; electronic transmission services namely forwarding or distribution (transfer) of data, information, images, video and audio sequences; computer supported transmission of messages and images; streaming of audio, visual and audio-visual material via a global computer network; streaming of audio material on the Internet; streaming of video material on the Internet; streaming of audio or video footage from security or surveillance cameras on the Internet; broadcasting services; telecommunications gateway services; telecommunications services relating to the Internet, email, dedicated web servers, cloud servers; providing access to the Internet; providing telecommunications connections to the Internet; Internet portal services; telecommunications portal services; providing an Internet website portal in the fields of security, surveillance, or business information; providing access to computer databases via global computer networks; transfer of

data by telecommunications; providing access to and leasing access time to computer databases; transmission and distribution of data via a global computer network or the Internet; transmission of sound, video and information from web cams, video cameras or mobile phones, all featuring live or recorded materials; electronic transmission services relating to security or surveillance camera footage; electronic transmission services relating to video, audio or data from security or surveillance cameras; communications services, namely, transmitting streamed sound and audio-visual recordings via the Internet; interactive services for facilitating the recordal of video, audio or data from security or surveillance cameras; providing Internet chat rooms; chat room services; operating chat rooms; providing on-line chat rooms for technical support services or help centres; providing on-line chat rooms for transmission of messages among computer users concerning technical support services or help centres; electronic, digital or wireless transmission services relating to the provision of video and audio footage from security or surveillance cameras through the internet or mobile telephone communication; providing access to a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras; providing video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for marketing or business intelligence purposes; providing data via a global computer network; providing data via wireless networks; providing data through the internet or mobile telephone communication; IP (internet protocol) video stream services; providing video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for the purposes of computerised home or building automation; providing video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for security or surveillance purposes; providing video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for the purposes of home or building environmental access control; information, advisory and consultancy services relating to all of the aforesaid.

Class 41:

Providing of training; providing of training in the fields of security, surveillance, or business information; providing of training in relation to security or surveillance cameras; providing of training in relation to computer hardware, computer software, computer systems or computer platforms related to security, surveillance, or business information; providing pre-recorded non-downloadable video, audio via a global computer network; providing pre-recorded non-downloadable video, audio via wireless networks; providing non-downloadable video, audio through the internet or mobile telephone communication; video entertainment services; provision of video entertainment via an interactive web site; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for entertainment or educational purposes; providing non-downloadable video and audio

footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of providing educational information for use in relation to home or building automation systems; providing non-downloadable video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for entertainment or educational purposes; providing non-downloadable video and audio footage from security or surveillance cameras through the internet or mobile telephone communication, for the purposes of providing educational information for use in relation to home or building automation systems; electronic monitoring of people and of goods (video recording services), for the purposes of providing educational information for use in relation to home or building automation systems; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for marketing or business intelligence purposes; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of computerised home or building automation; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for security or surveillance purposes; providing non-downloadable video and audio footage from security or surveillance cameras presented to mobile communication devices via a global computer network or wireless networks, for the purposes of home or building environmental access control; information, advisory and consultancy services relating to all of the aforesaid.

Class 42:

Design and development of computer hardware and software; design and development of a computerised platform for the remote management of security cameras, surveillance cameras, access control systems and security-related software, hardware or equipment, with notification of related events and alerts; development of computer software application solutions; computer software development in the field of mobile applications; installation and customisation of computer applications software; design and development of web-based applications for video and device management; application service provider (ASP), namely, hosting computer software applications for others; application service provider (ASP), namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of security, surveillance, or business information; Internet-based application service provider, namely, hosting, managing, developing, analysing, and maintaining the computer code, applications, and software for web sites of others; application service provider, namely, hosting, managing, developing, analysing, and maintaining applications, software and web sites of others in the fields of security, surveillance, or business information, with notification of related events and alerts; developing and managing

application software for delivery of multi-media content provided via multiple types of wireless mobile devices in the fields of security, surveillance, or business information, with notification of related events and alerts; application service provider featuring application programming interface (API) software for the remote management of security and surveillance equipment, with notification of related events and alerts; software as a service (SaaS); consulting services in the field of software as a service (SaaS); software as a service (SaaS) services featuring software for the remote management of security and surveillance equipment; software as a service (SaaS) services, namely, hosting software for use by others as a pre-configured and integrated business technology service; software as a service (SaaS) services, namely, hosting software for use by others as pre-configured and integrated technology platforms to solve specific business problems; platform as a service (PaaS) featuring computer software platforms for the remote management of security and surveillance equipment; platform as a service (PaaS) services featuring computer software platforms for use by others as a pre-configured and integrated business technology service; platform as a service (PaaS) services featuring computer software platforms for use by others as pre-configured and integrated technology platforms to solve specific business problems; consulting services in the field of software as a service (SaaS), platform as a service (PaaS), application service provider (ASP) and infrastructure as a service (IaaS) systems; computer services relating to remote management of security and surveillance equipment; providing on-line, non-downloadable, Internet-based software application for billing in the fields of security, surveillance, or business information; electronic storage of video, audio or data from security or surveillance cameras; electronic storage on computer servers of video, audio or data from security or surveillance cameras; electronic storage on cloud computer servers of video, audio or data from security or surveillance cameras; rental of storage space on the Internet; rental of web servers; providing of memory space on the Internet; cloud computing services; cloud computing infrastructure services; rental of web servers and rental of database servers; electronic data storage services; electronic storage of images, video and audio sequences; providing automatic updates to applications and software as a service (SaaS); maintaining and hosting websites of others; updating and maintenance of computer software; installation and repair of computer software; design, updating and rental of computer software; upgrading of computer software; maintenance and upgrading of computer software; computer program updating services; updating of computer software for others; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; providing technology information updates for security systems via the global computer network; technical support services (for computer software and hardware); technical customer support services (for computer software and hardware); technical support services, relating to remote and on-site Information technology (IT) infrastructure management services for monitoring, administration and management of public and private IT and

application systems; technical support services, relating to monitoring of network systems, servers and web and database applications and notification of related events and alerts; providing (hosting) a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for the purposes of computerised home or building automation; providing (hosting) a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for marketing or business intelligence purposes; providing (hosting) a website featuring business information; providing (hosting) a website for entertainment purposes featuring video footage and audio feeds from security, CCTV or surveillance cameras; providing (hosting) a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for entertainment or educational purposes; providing (hosting) a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for the purposes of providing educational information for use in relation to home or building automation systems; providing (hosting) a web site that features live images from security or surveillance cameras; providing (hosting) a web site that features live images from security or surveillance cameras to facilitate the management and operation of retail stores, offices, laboratories, hotels, casinos, airports, shopping malls, or other commercial premises; providing (hosting) a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for security or surveillance purposes; providing (hosting) a website featuring non-downloadable videos, namely, video footage from security or surveillance cameras, for the purposes of home or building environmental access control; providing (hosting) a website featuring information on security, surveillance; information, advisory and consultancy services relating to all of the aforesaid.

Class 45:

Security services for the protection of property and individuals; security and safety services; remote monitoring of anti-intrusion alarm or security cameras or surveillance cameras; security services for commercial entities; security services for homes, consumers, individuals and domestic applications; control and monitoring of building access and security systems; alarm monitoring services, namely, monitoring of alert devices by remote monitoring centre or remote monitoring devices for the dispatch of security services and notification to third parties; computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of point of sale activity indicating theft, fraud, or other criminal activity; monitoring of premises with digital video cameras for security or surveillance purposes; remote monitoring of premises with digital video cameras for security or surveillance purposes; computerised security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of activity indicating theft, fraud, or other criminal activity; identity verification services; identification verification services, namely, providing authentication of personal identification

information; alarm response and verification services; security consultancy services; video surveillance as a service (VSaaS) services (surveillance services); consulting services in the field of video surveillance as a service (VSaaS); the electronic monitoring of people and of goods, for security or surveillance purposes; the electronic monitoring of people and of goods, for the purposes of home or building environmental access control; electronic monitoring of people and of goods (security monitoring services), for the purposes of computerised home or building automation; information, advisory and consultancy services relating to all of the aforesaid.

Class(es) No(s).:

[511] 貨品/服務說明 :
Specification: Class 9:
Computer hardware and software for cybersecurity to identify and protect against security threats; computer anti-virus software; anti-spyware software; computer software and computer hardware for detection, blocking, and facilitating removal and remediation of computer viruses, rootkits, bootkits, backdoors, zero-day attacks, data exfiltration, phishing, bots, time bombs, worms, cyber-attacks, malicious attacks, and advanced persistent threats; computer software for preventing malicious attacks on, and unauthorized activities and intrusions in, computers, computer systems, software applications, digital devices; computer software and hardware providing secure networks over virtual computer systems and virtual computer environments; computer firmware and computer software for enhancing industrial automation and for assessing and identifying vulnerabilities and cyber security threats and risks in control system infrastructure, computer control systems, and devices, and for testing the effectiveness of cyber security applications, devices, and systems to achieve optimal network security, all in the field of cyber security vulnerability testing and prevention.

Class 37:
Technical support services, namely, installation and troubleshooting of computer hardware in the nature of installing and repairing cyber security hardware and platforms, all in the field of cyber security; Maintenance and repair of computer hardware.

Class 41:
Training in the use and operation of computer software, hardware, computer networks and platforms, all in the field of cyber security.

Class 42:
Design and development of computer hardware and software in the field of cyber security; computer software consulting in the field of cyber security; developing customized software for others in the field of cyber security; computer services, namely, designing and implementing cyber security and privacy requirements and protocols in information technology systems for others in the field of cyber security; information technology consulting services in the field of cyber security; maintenance of computer software relating to computer security and prevention of computer risks in the field of cyber security; planning, design and implementation of computer technologies for others in the field of cyber security; updating of computer software relating to computer security and prevention of computer risks in the field of cyber security; software as a service (SAAS) services featuring software for use in detecting, reporting, analyzing and eliminating cyber incidents, namely, malware, unauthorized software and network attacks; software as a service (SAAS) services featuring software for use in

identification, acquisition, storage, encryption, management, manipulation, analysis and reporting of security breach events of computer and computer network data, metadata, data files, and information in the field of cyber security; software as a service (SAAS) services featuring software for use in secure cross-enterprise data collaboration, workflow auditing and reporting, data management and sharing, identity management, access control, and data backup and recovery in the field of cyber security; computer consultation in the field of computer security; computer security consultancy in the field of scanning and penetration testing of computers and networks to assess information security vulnerability; Scientific and technological services, namely, research and design in the field of cyber security systems; Computer security consulting services in the field of cyber security; platform as a service (PAAS) featuring computer software platforms used for monitoring industrial network security in the field of cyber security; consulting services in the field of testing and assessing networked devices for cyber security vulnerabilities and risks; computer consultation in the field of cyber security, namely, providing approvals that minimum security levels have been achieved in the field of cyber security vulnerability testing of networked devices; technical support services, namely, installation, administration, and troubleshooting of computer software, in the field of cyber security.

[511] 貨品／服務說明： Class 9:

Specification:

Multi-functional electronic devices for growing plants indoor; wireless communication system enabled devices for measuring, displaying, monitoring and uploading information relating to plant growth to the internet; Electronic plant moisture sensor; downloadable software for connecting, operating, and managing networked plant growing device in the internet of things (IoT); computer operating software; electronic software updates, namely, downloadable computer software and associated data files for updating computer software in the fields of the internet of things (IoT), provided via computer and communication networks; computer programmes, recorded; computer operating programs, recorded; computer software, recorded; computer programs, namely, downloadable software; computer software applications, downloadable; computer hardware; computers; integrated circuits; light-emitted diodes [LED]; microprocessors; monitoring apparatus, electric; printed circuits; printed circuit boards; temperature

indicators; thermometers, not for medical purposes; time recording devices, namely, time clocks; water level indicators; wires, electric; all included in class 9.

Class 11:

Light emitting diode (LED) plant grow light; cultivation lamps and parts thereof, namely, high pressure sodium (HPS), metal halide, plasma, and light emitting diode (LED); light-emitted diodes [LED] light apparatus; all included in class 11

Class 21:

Hydroponics grow box for indoor application equipped with lights, hydroponics growing container, sensor and control system; Hydroponics grow box in the nature of a closed environment equipped with lights, exhaust system, hydroponics growing container and odor control system; Hydroponic garden kit for home use comprising growing containers and also including hydroponic fertilizers, seeds, substrate, drain components and instructional materials, sold as a unit. Plant baskets; plant cultivation trays; natural and synthetic fiber coco liners fitted for plant boxes, plant pots, and plant baskets; self-watering planters for flowers and plants; hydroponic garden kit for home use comprising growing containers and also including hydroponic fertilizers, seeds, substrate, drain components, a book and starting class of DVD and CD instructional materials, sold as a unit; indoor terrariums; indoor terrariums for plant; indoor aquaria; tanks in the nature of indoor aquaria; all included in class 21.

Class 9:

Specification:

Apparatus for recording, transmission or reproduction of sound or images; blank magnetic data carriers and recording discs; calculating machines; data processing equipment; computers; computer hardware and software; data processing apparatus; computer hardware; computer servers; network servers; Internet servers; computer networking and computer communications hardware; computer network routers, controllers, switches and wireless access point devices; computer storage hardware; computer storage servers; computer storage area network (SAN) servers; computer network-attached storage (NAS) hardware; computer and computer communications hardware for storage area networks; disk drive backup hardware; disk drives; disk drive arrays and enclosures; redundant array of independent disks (RAID) controllers; host bus adapters; data storage systems comprising computer hardware, computer peripherals and operating system software; integrated IT systems comprising computer, computer storage and networking hardware and software for converged infrastructure; modular IT systems comprising data processing apparatus, data storage modules, computer networking modules, power modules and internal computer cooling modules; computer peripherals; magnetic tape units for computers; blank tapes for storage of computer data; memory chips, namely, computer memories and computer memory hardware; semiconductors, printed circuit boards, integrated circuits;

electronic components for computers; computer operating systems; computer operating systems, namely, computer software for operating computer hardware; network access server operating software; computer software for administration of computer networks; downloadable cloud computer software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of data; computer software for creating searchable databases of information and data; computer software for electronic storage of data; computer hardware and software for virtualization; computer software for configuration, provisioning, deployment, control, management and virtualization of computers, computer servers and data storage devices; software for computer network operation, management, automation and virtualization; computer software for software-defined networking; local area network (LAN) operating software; wide area network (WAN) operating software; computer software for connecting disparate computer systems, servers and storage devices; software for cloud infrastructure management and automation; computer software used for running cloud computing based applications; cloud computer software for use in enterprise applications, database management, and electronic storage of data; computer software for monitoring cloud, web and application performance; computer software for information technology (IT) management, IT infrastructure management, remote IT infrastructure management, IT asset management and inventory, IT process automation, IT device lifecycle management, IT security, IT reporting and forecasting, IT infrastructure fault and performance monitoring; computer software for managing IT service desk and IT help desk services; computer software for data protection and data security; computer software for providing security for computers, networks and electronic communications; computer network security software; computer software for monitoring computer network access and activity; computer software for assessing application security; data and document encryption and decryption software; cryptography software; computer user authentication software; software for information security compliance monitoring, reporting and analytics; IT security intelligence and risk management software; data backup, recovery and archiving software; computer software for data deduplication; database management software; computer software used to read and evaluate content located on global computer networks, databases and/or networks; computer software for application and database integration; data search software, namely, software for creating searchable database of data; computer search engine software; software for searching databases; computer software for creating searchable databases of information and data; computer data warehouse operation and automation software; data center operation and automation software; computer software for data transmission, storage, processing and reproduction; computer software for accessing, querying and analyzing information stored in databases and data warehouses; information and knowledge management software for knowledge capture and management; business intelligence software; computer software that provides real-time, integrated business management intelligence by combining

information from various databases; business analytics software for collecting and analyzing data to facilitate business decision making; computer software for use in big data analysis; computer software that automates the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; software for business organization and business process virtualization and management; enterprise resource planning (ERP) software; software for business risk management; project portfolio management (PPM) software; records management software; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; software development tools; computer software for computer system and application development, deployment and management; software development tools for the creation of mobile Internet applications and client interfaces; software development tools, namely, software for testing software applications; product lifecycle management software; software-defined infrastructure software, namely, software for virtualization; computer software that provides web-based access to applications and services through a web operating system or portal interface; software for configuring, quoting and ordering information technology service packages and information technology hardware.

Class 42:

Design and development of computer hardware and software; computer systems analysis; planning, design and implementation of computer technologies for others; computer systems integration services; computer system administration for others; rental and leasing of computer hardware and computer peripherals; computer consulting services; computer consultation services, namely, advice on designing, selecting, and using computer hardware and systems; computer software consultancy; technological consultation in the field of selection, implementation and use of computer software; consulting services in the field of software as a service; Internet consulting services, namely, technical consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of Internet technology and services; information technology (IT) consulting services; consulting in the field of IT and applications transformation, integration, modernization, migration, design, development, implementation, testing, optimization, operation and computer project management; consulting in the field of cloud computing and big data analytics; technical consulting services in the field of cloud infrastructure; technical consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of Internet technology and services; consulting in the field of development of security systems and contingency planning for information systems; consulting in the field of computer security; computer consultation in the field of computer data security; IT consulting in the nature of consulting in the field of IT mobility and workplace services; technological consultation in the technology field of unified communications hardware and software; IT consulting in the nature of consulting with respect to the IT aspects of business processes;

IT consulting in the fields of customer relationship management, finance and administration, human resources, payroll and document processing; consulting services in the field of computer-based information systems for businesses; computer consultation services in the field of application delivery management; computer consulting in the field of web marketing optimization applications; IT consulting in the field of converged IT systems; IT consulting in the fields of IT converged and hyper-converged IT infrastructure; IT consulting in the field of utility industry services and operations; IT consulting in the environmental and energy efficiency fields; scientific and technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture; technical consulting services in the field of datacenter architecture; providing temporary use of on-line non-downloadable cloud computing software for use in database management and electronic storage of data; computer hardware and software design and development; computer programming services; software application development, modernization and cloud integration; software installation, maintenance and update services; consulting services in the field of testing the operation and functionality of computers, computer networks and software; business technology software development and consultation services; computer programming services for others in the field of software configuration management; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; computer technical support services, namely, help desk services for IT infrastructure, computer hardware, computer software, computer peripherals and computer networks; computer technical support services, namely, service desk services for IT infrastructure, operating systems, and business and web applications; technical support services, namely, troubleshooting of computer software problems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; technical support services, namely, migration of datacenter, server and database applications; technical support services, namely, monitoring of computers, network systems, servers and web and database applications, and notification of related events and alerts; technical support services, namely, remote real-time computer and network monitoring services; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration, and management of public and private cloud computing IT and application systems; consulting services in the field of cloud computing; cloud hosting provider services; hosting software applications for others; cloud hosting of electronic databases; cloud and computer infrastructure hosting services; computer services, namely, providing virtual and non-virtual application servers, web servers, file servers, redundancy servers, and database servers of variable capacity to others; rental of computing and data storage facilities of variable capacity, namely, virtual and non-virtual application servers, web servers, file servers, redundancy servers, and database servers, to third parties; computer infrastructure hosting services, namely,

providing computer hardware, computer software, computer peripherals to others on a subscription or pay-per-use basis; providing virtual computer systems and virtual computer environments through cloud computing; computer services, namely, integration of private and public cloud computing environments; computer services, namely, remote and on-site management of information technology (IT) systems and software applications for others; cloud computing featuring software for use in database management; database development services; rental of space in a computer co-location facility for containerized data centers of others; data mining services; data backup and data restoration services; data migration services; data encryption and decryption services; cloud computing featuring software for use in database management and data warehousing; electronic data storage; Infrastructure-as-a-service in the nature of technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; temporary use of non-downloadable software for computer and network operation, management, automation, virtualization, configuration, provisioning, deployment, and control; temporary use of non-downloadable software for information technology (IT) management, IT infrastructure management, remote IT infrastructure management, IT asset management and inventory, IT process automation, IT device lifecycle management, IT security, IT reporting and forecasting, IT infrastructure fault and performance monitoring, and facilitating IT user service desk and help desk functions; temporary use of non-downloadable software for data protection, data security, and computer application and network security; temporary use of non-downloadable software for information security regulatory compliance; temporary use of non-downloadable software for monitoring computer network access and activity; temporary use of non-downloadable software for data encryption and decryption, cryptography, computer user authentication, and information security compliance monitoring, reporting and analytics; temporary use of non-downloadable software for data backup, recovery, archiving and deduplication; temporary use of non-downloadable software for cloud infrastructure management and automation; temporary use of non-downloadable software for cloud, web and application performance monitoring; temporary use of non-downloadable software for database and database management, data warehouse operation and automation, data center operation and automation, application and database integration, data transmission, storage, processing and reproduction, and for accessing, querying and analyzing information stored in databases and data warehouses; temporary use of non-downloadable software for business intelligence, business process insight, data analytics, information management, knowledge management, customer relationship management, and enterprise resource and risk management; temporary use of non-downloadable software for storing, managing, tracking, and analyzing business data; temporary use of non-downloadable search engine software and software for project and records management; temporary use of non-downloadable software for software

development, deployment, testing, delivery and application lifecycle management; temporary use of non-downloadable software for converged IT systems management; temporary use of non-downloadable software-defined infrastructure software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; temporary use of non-downloadable software in fields of converged and hyper-converged IT infrastructure for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; Software as a Service services, namely, hosting cloud and datacenter infrastructure software for use by others for use in database management; temporary use of non-downloadable software for managing software licenses; electronic storage of digital content, namely, images, text, video and audio data; file sharing services, namely, providing a website featuring technology enabling users to upload and download electronic files; computer network configuration services; computer network design for others.
