接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; software; computer programs; computers; data processing apparatus; scientific (other than for medical purposes) apparatus and instruments (included in this class); downloadable electronic publications; magnetic data media; data processing apparatus; pre-recorded and blank discs, pre-recorded and blank audio and video cassettes; pre-recorded and blank compact discs; transmitters, receivers, apparatus for the transmission of electronic signals and radio signals; transponders; navigation apparatus for vehicles; navigational instruments; satellite navigational apparatus;

avionics instruments, apparatus and systems relating thereto; simulators for the steering and control of vehicles; flight simulation software; scientific satellites; satellites for receiving and transmission of radio signals; electric cables, fibre optic cables; fuel dispensing pumps for service stations; sunglasses; satellites for scientific and commercial purposes; aeronautical appliances; scientific apparatus and instruments, namely scientific apparatus and equipment for measuring inertia, based on fibre optic sensors detecting angular speed, solely for space systems, namely satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; software, scientific apparatus and instruments, namely apparatus and equipment for navigation and positioning of space systems, namely satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; data processing apparatus for providing technical information and logistics in connection with space systems, namely satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; measuring, checking (supervision), observation and transmission apparatus; apparatus and instruments for Earth observation, encoding and transmission of data via satellites, altitude and orbit control apparatus and instruments for satellites; ground systems for controlling satellites; radio transceivers; telescope mirrors; infrared cameras; equipment bays for satellites and spacecraft, in particular avionics modules and supply modules; altitude and position control devices for satellites; measuring, control, observation and communications apparatus; apparatus and instruments for Earth observation, and for the encoding and transmission of data by means of satellites, apparatus and instruments for monitoring satellite altitude and satellite orbit; ground systems for operation and control of satellites; satellite management programs; satellite control programs; radioelectric transceivers (transmitters and receivers) and radio apparatus; avionics modules, supply modules and test modules for satellites; spacecraft and carrier rockets; electronic, electric and optical satellite modules and spacecraft modules, including assemblies, containing the measuring circuits, communications circuits and auxiliary launch apparatus in a housing; apparatus and systems for altitude control and position control; scientific apparatus and instruments; audio compact discs; data carriers; transmitters (telecommunication), electric cables, fibre optic cables, electronic apparatus and instruments for civilian and military use namely on-board electronic apparatus and instruments for spacecraft, satellites, launch vehicles, rockets, aircraft, helicopters and electronic equipment for use in ground and control stations of the aforesaid spacecraft, satellites, launch vehicles, rockets, aircraft, helicopters, electronic storage media; data storage media containing flight and navigation instructions for helicopters, rotary-wing aircraft and drones; optical or infrared monitoring installations and apparatus; thermal imaging apparatus; observation instruments and systems consisting thereof; infrared monitoring and tracking apparatus and systems consisting thereof, in particular positioning systems; secure observation and reconnaissance apparatus and systems

consisting thereof; helicopter monitoring apparatus and systems consisting thereof; aerial monitoring apparatus and systems consisting thereof, day/night monitoring apparatus and systems consisting thereof; high-precision optical apparatus; encoders or decoders, digital image and sound data transmitters; telemetry, remote control, radio altimetry and proximity and approach apparatus and instruments for use in the field of aviation and space travel and in instruments for aviation and space travel, detection apparatus and instruments, radar, antenna, sensor and computer security systems; recording apparatus and positioning apparatus, recording instruments and positioning instruments; radars; lidars; electrooptical sensors; computer security systems; radar, antenna and satellite transmitters and receivers, converters and transponders; electric and electronic tracking, discovery, detection, monitoring, geopositioning and geolocation apparatus; electric and electronic apparatus and equipment for radiolocation and radio navigation; airborne ground monitoring and reconnaissance apparatus based on radar images and systems consisting thereof; sensors for unmanned aircraft; instruments for navigation by sea, land, air and in space; guidance and navigation apparatus and systems consisting thereof, stationary or portable computers, electronic and telecommunications apparatus and equipment, included in class 9, computer servers, servers and apparatus for data storage, computer workstations, modems; data memories; screens; wireless and satellite-based hardware and software for onboard data networks; multi-platform interfaces, including hardware and software therefor; data storage media and user terminals for position determination, mapping information and course guidance for land vehicles, aircraft, marine vehicles or submarine vehicles; processing apparatus and systems consisting thereof for geographical data, in particular satellite systems, Global Positioning System (GPS); apparatus and equipment for the acquisition, compression, transmission, analysis and recovery of satellite images and aerial photographs; image transmission apparatus based on a digital radio link and systems consisting thereof; optical parts and components; spatial-optical apparatus, equipment and instruments; optical apparatus, equipment and instruments for aerial reconnaissance vehicles; course guidance, radio remote control and autopilot controller equipment and apparatus; hardware and software (recorded programs) for position determination, monitoring and surveillance in specific geographical areas; monitoring and control hardware and software (recorded programs), position determination, monitoring and surveillance apparatus and systems consisting thereof in specific geographical areas, media for data storage and user terminals (computer terminals) for position determination, navigation, navigation databases, radar or satellite navigation, radio navigation and for the following applications: mapping information, safety and emergency equipment, instruments and apparatus, research (other than for medical use) and life-saving equipment, instruments and apparatus; media for data storage and user terminals for position determination, mapping information, course guidance for land vehicles and aircraft; electric or electronic instruments and

apparatus for receiving, processing and/or transmission of navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for testing, analysis and performance monitoring of navigation data and navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; computer software (recorded programs) for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; satellite positioning and satellite navigation apparatus and equipment consisting thereof; telecommunications and radio communications apparatus, hardware and software for telecommunications and radio communications networks, hardware and software for digital telecommunications networks; communications and radio communications networks via wires, cables, fibre optic technology, radio or satellite; call centre servers, multiplexers and demultiplexers, electric and electronic apparatus and instruments for the control and management of networks; receivers (telecommunications), electronic and radioelectric signal transmission apparatus; satellites for scientific use and satellites for receiving and transmission of radioelectric signals; computer terminals, communications terminals, stationary or portable computer terminals or communications terminals; apparatus for communications, transmission and receiving of data, speech, and image and multimedia data; network apparatus, in particular protocol converters and systems consisting thereof for gateways; basic equipment for and access interfaces to Internet protocol (IP) networks; devices and equipment and apparatus consisting thereof for the transmission of messages, information, data, and sound and images over the airways, and via cables, fibre optic technology, telephones, satellites, terminals, telecommunications networks and computer networks; telecommunications and desktop automation terminals for military applications; telephone apparatus, mobile telephones, cordless telephones, radio paging apparatus and equipment, facsimile machines, PDAs (personal digital assistants), mobile apparatus for Internet access, replacement parts for the aforesaid goods, enabling communications and conducting of secure transactions and online trading; software programs in a computer-usable format, being provided on magnetic or optical storage media or as a downloadable format and being usable with the aforesaid goods; software programs for secure communications, enabling the authentication, checking, recording and analysis of business relationships/transactions by means of a system of controlled access rights and notifications, apparatus for satellite telecommunications and satellite telecommunications stations consisting thereof, in particular in aircraft; software, software (recorded programs) for communications and radio communications networks for data transmission by means of wires, cables, fibre optic technology, radio or satellite; software, software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images and data; apparatus and software

(recorded programs) for securing access to computer and Internet Protocol (IP) networks; software (recorded programs) for encryption and decryption; software (recorded programs) for encoding and decoding; software (recorded programs) for the architecture, management and securing of access to computer networks and Internet Protocol (IP) networks; simulation, modelling, testing and experiment software; servers for modelling simulations of and for tests and experiments relating to civil and military operations; software (recorded programs) for computers for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation data in relation to navigation or cartography; software for the planning, acquisition, processing and dissemination of reconnaissance information and data (intelligence information), solely in the fields of reconnaissance and geography for defence and security purposes, all of the aforesaid goods for digital radio networks; software for digital radio networks, enabling user access to voice services and data, including group communications in relay mode, individual conversations, short messages, and data localisation and transmission, all of the aforesaid goods for digital radio networks; software (recorded programs) for the providing of access to an electronic messaging service; software for transaction security for intranet and Internet data terminals, control stations and terminals for the display of information in graphics and text format; secure data processing apparatus, secure telecommunications apparatus and equipment consisting thereof; handheld electronic devices for wireless receiving and/or transmission of secure data (in particular for messages) and electric and electronic apparatus and equipment enabling users to store or manage personal information; software for forwarding secure messages, Internet e-mails and/or other data to one or more handheld electronic devices from a database stored on a PC or a server or belonging thereto; software for the synchronisation of secure data between a remote station/apparatus and a fixed station/apparatus or a remote station/apparatus; electric and electronic apparatus and instruments, in particular computers and processors (CPUs) for data and computer software (recorded programs) for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation or cartography data; electric and/or electronic apparatus, electric and/or electronic instruments and apparatus for displaying reports, analyses and measurement results, in particular in the form of graphics, charts and diagrams resulting from the performance analysis and monitoring of navigation signals and/or data; electric and electronic apparatus and instruments for the examination and identification of segments of space in two or three dimensions; computer software (recorded programs) for the examination and identification of segments of space in two or three dimensions; apparatus for monitoring flight parameters, in particular navigation and control software (recorded programs) for helicopters, rotary-wing aircraft and drones, communications

apparatus and systems consisting thereof and communications antenna for aircraft; recording apparatus and systems consisting thereof for apparatus for locomotion and propulsion by land, air or water; automatic flight control apparatus and systems consisting thereof; testing apparatus (real-time systems) for conducting tests on electronic samples and parts, in particular data input, recording, processing and display equipment and apparatus, data buses, data transmission apparatus and systems consisting thereof, analogue-digital and digital-analogue converters, program prototypes, simulators for the simulation of mechanical, electric and electronic functional processes, linking and chaining modules, data analysis apparatus, and changeover, panel and selector switches and coordinator switches, interface apparatus or programs, in particular analogue, digital and discrete data bus interface apparatus or programs; control apparatus for testing apparatus and searchable programs for the aforesaid control equipment recorded on data carriers; searchable test programs recorded on data carriers; instruments, and computer hardware and software for the simulation of electronic samples and mechanical, electric and electronic functional processes; electric and electronic display apparatus for the preparation and conducting of tests on electronic samples and processing of the test results; software, in particular database software for the management of tests on electronic samples for monitoring the configuration and definition of the test system; computer hardware and software for generating test documents; computer hardware and software for linking test installations via telecommunications equipment and/or via the Internet and/or via local networks; instruments and installations consisting thereof for the testing of vehicles and apparatus for locomotion and propulsion by land, air and water; sensors and communications apparatus and equipment; sighting telescopes for firearms; telescopes, binoculars, extendable telescopes and binoculars; protective eyewear, in particular eyewear for protection against lasers; distance measuring apparatus, in particular laser distance measuring apparatus, digital magnetic compasses; cameras, in particular reconnaissance cameras, exploratory cameras; equipment for aerial photography; aerial imaging apparatus and aerial cameras; periscope systems; stabilised sensor platforms; night-vision apparatus, residual light amplifiers; laser target illuminators; software for assessing, monitoring and control of data security within an information technology network; industrial geoproduction systems comprising a digital processing chain for producing satellite images, satellite data, aerial photographs, aerial image data, terrestrial data and terrestrial images in 3D (three dimensions); mechanisms for coin-operated apparatus; antenna installations, antenna systems; tape recorders; magnetic tape units for computers; magnetic tapes; videotapes; cinematographic cameras; camcorders; compact discs (audio, video); optical compact discs; magnetic disk storage; optical discs; recording discs; optical data media; magnetic data media; radio apparatus (telecommunications); software, solely for the field of satellite imaging and satellite data; apparatus and equipment for the processing of data, in particular via satellites; apparatus and equipment for the

simulation of infrastructure development; apparatus and equipment for producing and updating development plans and development charts and for observing plots of agricultural land and optimising crop yield trends and monitoring thereof; compact disc players; optical document readers; character readers; readers; computer software (recorded programs); games software; computer programs (downloadable software); software and software packages for the processing and analysis of photographs, in particular aerial photographs, satellite images or terrestrial images; apparatus and equipment for the processing of data, in particular satellite data; software packages for stereographic reproduction, for generating and preparing digital terrain models, for 3D modelling, ortho, orthophotos and thematic maps; computer files and software packages with geographical, geological, cartographical and topographical data; computer files and software packages comprising reproductions of terrain and digital maps; equipment and apparatus for databases and for accessing databases; computer software for stereographic projections, digital terrain models, orthoimages and thematic maps; computer files and software for geography, geology and topography; computer files and software for ground imaging and digital maps; satellite navigation equipment; satellites for scientific purposes, in particular Earth observation satellites; apparatus and equipment for the processing, analysis, reproduction and storage of images, aerial photographs and satellite photographs; computer hardware; database equipment; database access equipment; database management software, in particular for stereographic reproduction, for the storage, preparation, processing and analysis of drawings, images, photos, diagrams, charts, aerial photographs, satellite photographs, surface models and terrain models; data carriers for computer software, computer files, software packages, all containing or being for stereographic reproduction, for the storage, preparation, processing and analysis of surface models and terrain models, images and photos; data processing apparatus and data processing equipment, in particular for satellite data; carriers for dark plates (photography); mirrors (optics); satellite navigation systems; satellites for scientific purposes, in particular Earth observation satellites and radar satellites; remote control apparatus and remote control equipment; airborne sensors; transmitters (telecommunication); apparatus and equipment for the processing, analysis, reproduction and storage of satellite images; electric and electronic apparatus and equipment for generating digital contour line models; databases of digital contour line models; computers and computer software for industry, namely the fire brigade and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; scientific satellites and satellites for receiving and transmission of radio signals; USB flash drives; adapters, chargers; telephone adapters; USB hardware; computer mice; headphones; laser pointers; headsets apparatus for glunt-range transmission of digital voice and data that supports point-to-point and multiple applications

(wireless headsets for use with mobile telephones); decorative magnets; cases, sheaths and sleeves for touch pads; cases, sheaths and sleeves for telephones, in particular for mobile telephones; sunglasses; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, all of the aforesaid goods for use in the field of helicopters and rotorcraft; apparatus, equipment and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, all of the aforesaid goods for use in the field of helicopters and rotorcraft; apparatus for recording, transmission or reproduction of sound, images or data, all of the aforesaid goods for use in the field of helicopters and rotorcraft; flight control apparatus and flight control equipment for guiding and controlling helicopters and rotorcraft; electronic controllers for guiding and controlling helicopters and rotorcraft; flight regulating systems and flight control systems with fly-by-wire control for helicopters and rotorcraft; fibre optic flight regulating systems and flight control systems for helicopters and rotorcraft; flight regulating systems and flight control systems for guiding, controlling and self-navigation of helicopters and rotorcraft, comprising flight control apparatus and flight control equipment, electric wire cables or fibre optic cables, sensors for collecting flight data, calculating machines, data processing installations, data processing apparatus and computers, flight data software; glass cockpits for helicopters and rotorcraft, namely cockpits comprising apparatus and equipment for flight control and flight regulation and a dashboard with flight instruments, comprising screens for visual display (LCD/LED panels) controlled by flight management systems (computer hardware and computer software) displaying adjustable information for guiding and navigation of helicopters and rotorcraft, for testing and monitoring flight parameters, for testing and monitoring components, parts and onboard equipment for helicopters and rotorcraft; head-up displays (visual field displays) for use in helicopters and rotorcraft, namely transparent electronic display apparatus and screens for providing navigation data, operational data and use data for pilots and co-pilots; flight communication and control instruments and apparatus for providing information regarding the flight situation of the helicopter or rotorcraft for pilots; autopilot controllers for use in helicopters and rotorcraft; apparatus and equipment for testing the flight parameters of helicopters and rotorcraft; navigation apparatus, navigation equipment and navigation instruments for helicopters and rotorcraft; communications equipment and communications apparatus for helicopters and rotorcraft; avionics equipment and avionics apparatus, in particular regulating systems, control systems, observation systems, monitoring systems, communications systems, navigation systems, systems for weather and anti-collision systems for helicopters and rotorcraft; display apparatus and measuring instruments for use in helicopters and rotorcraft; digital displays and digital display apparatus for use in helicopters and rotorcraft; accelerometers, altimeters, radar altimeters, ammeters,

anemometers, barometers, flowmeters, frequency meters, manometers, tachometers (revolution counters), thermometers, torque meters, speedometers, vibration meters, vibration gauges, voltmeters, telemeters, range finders, pressure indicators, fuel gauges, all being for use in helicopters and rotorcraft; oil pressure gauges and oil pressure indicators, oil temperature gauges and oil temperature indicators, fuel pressure gauges and fuel pressure indicators, fuel temperature gauges and fuel temperature indicators, height indicators, position indicators (artificial horizon), airspeed indicators, course deviation indicators, first limit indicators (FLI), directional indicators, horizontal situation indicators (HSI), radio-magnetic indicators (RMI), turn indicators and vertical speed indicators (variometers), all being for use in helicopters and rotorcraft; inertial navigation systems (inertial measurement units) for use in helicopters and rotorcraft; gyroscopes, rate gyroscopes, laser gyroscopes (gyrolasers) for use in helicopters and rotorcraft; compasses, gyrocompasses, magnetic compasses and radio compasses (automatic direction finders) for use in helicopters and rotorcraft; Very High Frequency (VHF) Omni Directional Radio Range (VOR) receivers for use in helicopters and rotorcraft; global positioning systems (GPS) for use in helicopters and rotorcraft; ground-proximity warning systems (GPWS), enhanced ground-proximity warning systems (EGPWS) and terrain awareness and warning systems (TAWS) for use in helicopters and rotorcraft; sensors for use in helicopters and rotorcraft, in particular acceleration measurement sensors, air temperature sensors, alarm sensors, distance sensors, electric sensors, electrooptical sensors, electronic sensors, electronic measurement sensors, fire sensors, fluid level sensors, frost sensors, gas sensors, heat sensors, moisture sensors, crash sensors, impact sensors, infrared sensors, level sensors, load sensors, light sensors, magnetic sensors, movement sensors, noise sensors, optical sensors, piezoelectric sensors, position switches, position transmitters and position sensors, pressure sensors, approach sensors and proximity sensors, smoke sensors, speed sensors, temperature sensors, torque sensors, vibration sensors, sensors for tracking actual and projected disturbances; detectors for use in helicopters and rotorcraft, in particular carbon dioxide detectors, carbon monoxide detectors, fire detectors, heat detectors, leak detectors, immersion detectors, movement detectors, particle detectors, approach detectors, proximity detectors and proximity switches, radar detectors, rotor speed detectors, vibration detectors; transducers for use in helicopters and rotorcraft comprising, in particular, resonant transducers, magnetostrictive transducers, piezoelectric transducers, electrostatic transducers, transducers with variable resistance (variable-resistance transducers), electrooptical transducers, electroacoustic transducers, power transducers, high-frequency transducers, linear transducers, measurement transducers, pressure transducers, torque transducers, ultrasound transducers; power supply units for helicopters and rotorcraft; electric accumulators for helicopters and rotorcraft; electric valves (thermionic), solenoid valves, magnetic valves for use in helicopters and rotorcraft; electric regulators and supply

voltage regulators for helicopters and rotorcraft; commutators, collectors and rectifiers for use in helicopters and rotorcraft; electric inverters for use in helicopters and rotorcraft; electric switches for use in helicopters and rotorcraft; pressure switches for use in helicopters and rotorcraft; electric actuators for use in helicopters and rotorcraft; fuel supply regulators, fuel flow regulators and fuel quantity regulators for use in helicopters and rotorcraft; timers (time recording instruments and time recording apparatus) for use in helicopters and rotorcraft; calculating machines, in particular pocket calculators, first limit calculating machines, in particular first limit pocket calculators, obstacle avoidance calculating machines, in particular obstacle avoidance pocket calculators, navigation calculating machines, in particular navigation pocket calculators, all being for use in the field of helicopters and rotorcraft; calculating machines, in particular pocket calculators for assessing the technical condition and technical state, damage to and use and operating time of helicopters and rotorcraft; data processing apparatus and data processing equipment, data processors, computers, computer hardware and computer peripheral apparatus, all being for use in the field of helicopters and rotorcraft; circuit boards and printed circuits for use in helicopters and rotorcraft; couplers and connecting lines (data processing apparatus) for helicopters and rotorcraft; onboard computers for helicopters and rotorcraft; air data computers for use in helicopters and rotorcraft; symbol generators (display processing computers) for use in helicopters and rotorcraft; computer monitors, screens for optical and visual display, flat panel display screens, touch screens and multi-functional LED screens and multi-functional LCD screens, all being for use in the field of helicopters and rotorcraft; instruments and apparatus for airborne data acquisition for use in helicopters and rotorcraft; flight data recorders for use in helicopters and rotorcraft; digital voice recorders for use in helicopters and rotorcraft; decoders, encoders, signal scramblers and descramblers, electronic encryption and decryption apparatus, all being for use in the field of helicopters and rotorcraft; telecommunications apparatus and telecommunications equipment for use in the field of helicopters and rotorcraft; transponders for use in the field of helicopters and rotorcraft; transmitters for use in the field of helicopters and rotorcraft; transceivers for use in the field of helicopters and rotorcraft; radio transmitters, radio receivers and radio signal tuners for use in the field of helicopters and rotorcraft; antennas, antenna installations and antenna systems and satellite dishes, modems, telephone apparatus and telephone receivers for use in the field of helicopters and rotorcraft; amplifiers for use in the field of helicopters and rotorcraft; headphones, microphones, loudspeakers for use in the field of helicopters and rotorcraft; cameras, camcorders and infrared cameras for use in helicopters and rotorcraft; electronic card readers for use in the field of helicopters and rotorcraft; radars and radar systems for use in the field of helicopters and rotorcraft; alarm installations, alarms and alarm equipment for use in helicopters and rotorcraft; emergency locator transmitters for

helicopters and rotorcraft; computer software for use in the field of aircraft, helicopters and rotorcraft; computer software for flight control of aircraft, helicopters and rotorcraft; computer software for navigation assistance and flight guidance assistance for aircraft, helicopters and rotorcraft; computer software for managing and recording flight data for aircraft, helicopters and rotorcraft; computer software for the design, production, manufacture, testing, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; equipment, apparatus, parts, components and fittings for aircraft, helicopters and rotorcraft; data acquisition software and data processing software for the design, production, manufacture, control, flying, guidance, navigation, monitoring, security, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the regulating of parameters for apparatus used for the design, production, manufacture, control, guidance, flying, navigation, surveying, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the search and remediation (troubleshooting) of faults and malfunctions, damage, mechanical faults and defects and the exchange and replacement of expired and worn parts of aircraft, helicopters and rotorcraft; computer software for displaying malfunctions, faults, failures, breakdowns and abnormalities in aircraft, helicopters and rotorcraft and for suggesting countermeasures for rectifying the aforesaid events; computer software for digital cartography for use in the field of aircraft, helicopters and rotorcraft; computer software for the preparation and creation of flight plans for aircraft, helicopters and rotorcraft; computer software for mission planning for aircraft, helicopters and rotorcraft; computer software for the presentation of flight reports for aircraft, helicopters and rotorcraft; computer software for tracking and locating aircraft, helicopters and rotorcraft; computer software for the identification and authentication of individuals for use in the field of aircraft, helicopters and rotorcraft; computer software for encoding, decoding, encryption, decryption of data for use in the field of aircraft, helicopters and rotorcraft; artificial vision systems and enhanced vision systems, namely computer hardware systems and computer software systems for displaying a realistic three-dimensional representation of the external world and for adding real-time information recorded by sensors installed on helicopters and rotorcraft, to support aircraft, helicopters and rotorcraft during flight and navigation through the enhancement of the situational perception and situation-dependent awareness of the pilot; day/night-vision goggles, residual light amplification goggles for use in helicopters and rotorcraft; maintenance and servicing equipment (maintenance kits) for helicopters and rotorcraft predominantly comprising computer hardware and computer software, sensors, cables and wires, for measuring and analysing vibrations in the main and tail rotors, transmission shafts and other dynamic components and assemblies and providing of computerised tuning (setting) of flight parameters; testing installations and testing stands for aircraft, helicopters and

rotorcraft; testing means for aircraft, helicopters and rotorcraft, electronic equipment and apparatus for helicopters and rotorcraft and flight simulators for helicopters and rotorcraft; flight simulators for aircraft, helicopters and rotorcraft; flight simulation software for aircraft, helicopters and rotorcraft; flight manuals (handbooks) and maintenance and servicing manuals (handbooks) for aircraft, helicopters and rotorcraft in electronic format, being recorded on computer-readable media or being downloadable; electronic publications with regard to aircraft, helicopters and rotorcraft, being recorded on computer-readable media or being downloadable; software for video games; fire extinguishers for use in helicopters and rotorcraft; electric sockets; screens; online management software for the contents of documents relating to aircraft; online adaptation software of documents relating to aircraft; software for scheduled and unscheduled maintenance and servicing of aircraft; software for the management of aircraft repairs; software for flight analysis and aircraft security; software for the maintenance and servicing of aircraft; software in relation to aircraft pilots and flight personnel; flight performance software.

Class 11:

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; forehead lamps; electric pocket torches; lighting apparatus and lighting equipment for helicopters and rotorcraft; heating apparatus and heating equipment for helicopters and rotorcraft; air treatment installations, ventilating apparatus and air conditioning apparatus for helicopters and rotorcraft.

Class 12:

Vehicles, apparatus for locomotion and propulsion by land, air, water or rail; aircraft; spacecraft; carrier rockets (spacecraft); air balloons; vehicle components, included in class 12; aeronautical apparatus; remote control aircraft; screw-propellers; military vehicles for transport, in particular aircraft; seat covers for vehicles; aircraft of all kinds; unmanned aircraft; drones (missiles); spacecraft; apparatus, machine equipment and equipment for aviation and space travel; military aircraft; helicopters and rotorcraft; helicopters and rotorcraft and structural parts therefor, fittings and connectors, dynamic components and equipment, included in class 12; fuselages for helicopters and rotorcraft; tail booms for helicopters and rotorcraft; main rotors and tail rotors for helicopters and rotorcraft; rotor blades for helicopters and rotorcraft; screw-propellers for helicopters and rotorcraft; landing wheels for helicopters and rotorcraft; shock absorbers for helicopters and rotorcraft; windows for helicopters and rotorcraft; glass panels for helicopters and rotorcraft; seats for helicopters and rotorcraft; seat covers for helicopters and rotorcraft; seat cushions and seat padding for helicopter and rotorcraft seats; seat belts for helicopter and rotorcraft seats; restraining belts for helicopter and rotorcraft seats; upholstery for helicopters and rotorcraft; interior linings for helicopters and rotorcraft; joysticks, levers and pedals for controlling helicopters and

rotorcraft (structural parts for helicopters and rotorcraft); petrol tanks and gas tanks, and tank caps and gas caps for helicopters and rotorcraft; protective strips for helicopters and rotorcraft; protective strips for rotor blades for helicopters and rotorcraft; wings and blades for helicopters and rotorcraft; landing gear and undercarriages for helicopters and rotorcraft; brakes for helicopters and rotorcraft; doors for helicopters and rotorcraft; fittings and connectors for all of the aforesaid goods (included in class 12); parts and fittings for all of the aforesaid goods, included in class 12.

Class 13:

Firearms; ammunition and projectiles; explosives; fireworks; rockets (projectiles), remote control projectiles, missiles; signal rockets; visors and sights, other than telescopic sights, for firearms; visors and sights, other than telescopic sights, for cannons and guns (artillery).

Class 14:

Precious metals and their alloys and goods in precious metals or coated therewith, not included in other classes; jewellery, precious stones; horological and chronometric instruments; key rings and chains (trinkets or fobs); pins; key straps, key cords; tie pins; trophies, in particular crystal balls; trophies in precious metals; jewellery boxes and jewellery cases (in precious metals); necklaces; necklets; bracelets; bangles; earrings; rings.

Class 16:

Paper, cardboard and goods made from these materials, not included in other classes, printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks, printing forms; fountain pens and nibs; typewriters and office requisites (except furniture); leaflets; posters; labels, not of textile; flags of paper; postcards; calendars; aerial photographs and satellite images; geographical maps; topographical maps; geographical pictures and images; geographical lists, graphics, diagrams and drawings; geographical surveys and studies; business cards; desk holders for business cards; paper bags, paper sacks and conical paper bags; books; college exercise books, note books, jotters; terrestrial globes; desk mats; passport cases and passport sleeves (covers); (personal) organisers; printed matter, in particular books, manuals (handbooks), magazines, periodicals, illustrated magazines, journals, newspapers, catalogues, pamphlets, all in relation to helicopters and rotorcraft; place mats of plastic.

Class 18:

Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins, hides; trunks and travelling bags; umbrellas and parasols; walking sticks; whips, harness and saddlery; handbags; shopping bags; bags for sports; leather cases, leather trunks; suitcase tags (of leather); luggage tags, luggage stickers; luggage straps; vanity cases, not fitted, make-up cases; luggage, bags; pocket wallets, purses, coin

purses, CD wallets; backpacks; card cases; valises, in particular valises of leather; leather cases for credit cards; cases and sleeves (holders) for business cards; bags and trunks of leather and imitations of leather; briefcases.

Class 21:

Household or kitchen utensils and containers; combs and sponges; brushes (except paintbrushes); brush-making materials; articles for cleaning purposes; steelwool; unworked or semi-worked glass (except glass used in building); glassware, porcelain and earthenware not included in other classes; mugs; cups; bottles; vacuum flasks; signboards, boards.

Class 24:

Textiles and textile goods, not included in other classes; bed covers; table covers; fabric, impervious to gases, for aeronautical balloons; banners; flags, not of paper; furniture coverings of textile; loose covers for furniture; curtains of textile or plastic; fabrics for textile use; printed textile labels; textile fabrics; towels (bath towels, terry towels); blankets (bed blankets, travelling rugs, children's blankets).

Class 25:

Clothing, footwear, headgear; scarves, headscarves; ties; caps (headwear); anoraks, parkas, jackets (clothing); tee-shirts, polo shirts; clothing of leather and imitations of leather; flip-flops; collars.

Class 28:

Games; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; scale model vehicles (except for scale model land vehicles) and parts therefor (included in class 28), in particular models of aircraft and in particular model aeroplanes; toy vehicles (except for toy land vehicles); paragliders; jigsaw puzzles; playing cards; kites; inflatable toys (except for toy land vehicles), in particular aircraft; balloons; balls for sports and games; building blocks (toys); games with building blocks; dominoes and domino games; electronic targets; flying discs (toys); mobiles (toys); plush toys, stuffed animals; swimming pools (toys); radio control toys (except for toy land vehicles), in particular vehicles of all kinds (except for land vehicles); construction sets for scale models; snow globes; teddy bears; toys (except for toy land vehicles); belts, in particular for weightlifting (sporting articles); sticks, in particular golf clubs; bags for sports; discuses for sports; repair tools for lawns (golf equipment and golf accessories); golf gloves; golf bags, with or without wheels; golf balls; hang-gliders, paragliders; skis, in particular for use on snow and water; surfboards; bags especially designed for skis and surfboards; toy vehicles (except for toy land vehicles) with radio control; scale model vehicles of helicopters and rotorcraft.

Class 35:

Advertising; business management; business administration; office functions; commercial and organisational consultancy in the aviation and space travel sector; marketing studies; marketing for aircraft and parts therefor; organisation of exhibitions for commercial or advertising purposes; events for advertising and

sales promotion, sponsorship in the form of advertising; business management for participants in sporting events; organisation and conducting of sporting events for advertising and promotion; advertising and promotion, in particular advertising and promotion of the goods and services of others through sponsorship; input of data into databases and legal databases; business management of services for exchanging of correspondence, in particular management and administration of correspondence, for others; presentation of goods on communications media of all kinds for sale, in particular direct sale of satellite-generated images or products derived from two-dimensional or three-dimensional satellite images, geographical maps or topographical maps consisting of images generated by satellites or antenna systems, digital evaluation models or contour line models in the form of coordinate grids for components encoded by elevation and receiving antennas; input of information into computer databases and computer memories, in particular input of images generated by satellites or antenna systems, input of high-resolution and very high-resolution digital images generated by satellites; retailing and wholesaling of images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites; online presentation of images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites or antenna systems, with a view to the sale of the aforesaid goods and providing of commercial information relating to the aforesaid goods; procurement and providing of business information; business consultancy; business consultancy with regard to Internet communications; procurement and providing of business information with regard to advertising, namely for industries, the fire brigade and government; advertising, business management, business administration and office functions, all being in the field of aircraft, helicopters and rotorcraft; business consultancy in the field of aircraft, helicopters and rotorcraft; inventory control in the field of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; purchasing (procurement services) of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; preparation and management of administrative documents belonging to a fleet of aircraft, helicopters and rotorcraft, for others; business consultancy in the field of aircraft, helicopters and rotorcraft; retailing and wholesaling in connection with the sale of aircraft, helicopters and rotorcraft, replacement parts, fittings, dynamic components and equipment therefor; procurement and providing of websites enabling purchasers of aircraft, helicopters and rotorcraft to check the price and availability of replacement parts, place orders, arrange the return of replacement parts for repair and reconditioning, order technical publications, track orders, view invoices and request information; preparation and conducting of trade fairs and exhibitions for commercial and advertising purposes in the field of aircraft, helicopters and rotorcraft; procurement of charitable financial resources; procurement of information in relation to the

repair of aircraft; procurement of Internet websites offering information relating to the maintenance, servicing (maintenance), repair and reconditioning of helicopters and rotorcraft; procurement of the telecommunications networks of multi-utility companies; computerised processing of position and navigation signals, and data for simulations and experiments; procurement of telecommunications data and telecommunications information on the Internet; procurement of access to software platforms guaranteeing user authentication, data integrity and data privacy, and file acceptance; procurement of software platforms for services in connection with the encryption and signing of files, documents or electronic data, for others; procurement of software platforms for services in connection with the secure transfer of files, documents, data or electronic payments via electronic networks, including telephone networks and the Internet; procurement of access to programs on data networks; procurement of user access to a global computer network, in particular the Internet (service providers); procurement of access to databases and data memories, in particular databases and data memories containing images recorded from satellites or antenna systems; franchising in the form of procurement and provision of know-how and technical design, planning and research information; signal verification; procurement and providing of programs on data networks; scientific, technical and technological data processing; sale of property rights and copyrights.

Class 36:

Insurance; financial affairs; monetary affairs; real estate affairs; real estate transactions; financing services; monetary transactions; financial transactions; leasing, loans (financing), financing of instalment plan purchases; hire purchase financing, credit financing; financial sponsorship; evaluation of patents; evaluation of industrial property rights and copyrights; conducting of financial transactions; capital investments; conducting and arranging of asset investments; apartment house management; financial services, in particular acquisition of securities of all kinds by means of purchasing and assumption, in particular capital issues; financial and asset management for securities of all kinds, company shares, bonds and other stock market quotations; portfolio management and financial portfolio valuation of stock market quotations, management, for others; providing and procurement of data for assisting during the underwriting of agricultural insurance; analysis and research in the field of agricultural risk analysis from an insurance perspective; financial analysis and providing of reports relating thereto; providing and analysis of financial reports; financial market analysis and providing of reports relating thereto; providing of financial and insurance reports; services in the field of financial and monetary affairs; services in connection with insurance contracts of all kinds; services rendered by banks of all kinds or institutions related thereto, including currency exchanges or settlement agencies; services rendered by credit institutions other than banks, including credit cooperatives, financial companies, money lenders; investment companies, holding companies; securities and commodities

brokerage; trusteeships; issuing of travellers' cheques and letters of credit; services rendered by property managers in relation to rental or appraisal or by capital investors; services for insured people, and services in relation to the conclusion of insurance contracts; banking; banking by means of online banking; financial evaluation (insurance, banking, real estate); home banking; savings banks; financial clearing; building contractor services, namely financial preparation for building projects; development of usage concepts for real estate with regard to financial matters (facility management); financial sponsorship; financial sponsoring; financing services; financial consultancy (credit consultancy); financial business liquidation services; mergers and acquisitions, namely financial consultancy during the purchase or sale of companies, and company shares; mutual funds; financial management; fiduciary; investment services; investment consultancy; financial consultancy, financial valuation, financial analysis and fiscal evaluation; gathering, providing and dissemination of financial information in relation to goods indices; information and consultancy in relation to the aforesaid services; credit and insurance services; real estate transactions, including via the Internet; issuance of credit cards; financial services; banking transactions, banking, financial transactions, financial analysis, financial services, financing services, collecting of outstanding payments, lending, leasing, in particular of installations, land, machines, vehicles and apparatus for locomotion and propulsion by land, air, water, rail and in space, in particular aircraft, helicopters and rotorcraft, spacecraft and satellites; real estate affairs, real estate transactions, real estate brokers, assessment and valuation of real estate, real estate consultancy, providing of information relating to real estate, real estate management, rent collection; insurance underwriting, insurance consultancy, insurance information, underwriting of insurance, guarantees; savings banks, pensions, capital investments, savings, pension savings, financial valuation (insurance, banking, real estate), financial information, forming of joint investment funds, placement of funds, monetary transactions, actuarial services, factoring, credit bureaux, stock exchange quotations, stock brokerage services, savings banks, capital investment, services in connection with credit cards, services in connection with debit cards, exchanging money, cheque verification, issuing of travellers' cheques, issuing of bank cheques, depositing of valuables in safes, settlement services (exchange transactions), insurance brokerage, deposits of valuables, issue of tokens of value, issuance of credit cards; issuing of store cards (financial services); fiscal assessment; fiduciary; electronic capital transfer; real estate management; asset management; life insurance, marine transport insurance, accident insurance, fire insurance, health insurance, home insurance, rent guarantee insurance, rental of flats, rental of office space, mortgage banking, banking, financial transactions, monetary transactions, instalment loans, financial sponsoring, loans (financing), financial transactions, direct banking (home banking), capital formation; information, consultancy and assistance in relation to banking, finances and money; online

services in the field of banking, financial affairs, insurance underwriting and real estate affairs via telecommunications networks (including mobile telephones), data transmission networks and data communications networks, in particular the Internet and intranets via electronic websites; real estate insurance; financial affairs in relation to real estate and land; development of usage concepts in relation to real estate and land; facility (financial) management in relation to real estate and land; financial assessment and valuation of real estate and land; online services in the fields of banking, financial affairs, monetary affairs, insurance underwriting and real estate affairs via telecommunications networks (including mobile telephones), telematics and data communications networks in the form of the Internet and intranets via electronic websites; consultancy in relation to capital market trading; providing of the aforesaid services online from a computer database or via the Internet; credit and loans for the financing of aircraft, spacecraft, satellites, helicopters and rotorcraft; financial services in relation to the leasing of aircraft, spacecraft, satellites, helicopters and rotorcraft; insurance in relation to aircraft, spacecraft, satellites, helicopters and rotorcraft; guarantee services for aircraft, spacecraft, satellites, helicopters and rotorcraft; financial sponsorship of events and meetings in the field of aircraft, spacecraft, satellites, helicopters and rotorcraft; charitable services, namely procurement of financial support for developing countries for advancing their autonomy; charitable services, namely organization and development of projects with the aim of improving the life of underprivileged people, impoverished people, people with disabilities and sick people; charitable services, namely organisation and development of projects with the aim of supporting developing countries through advancing and supporting their autonomy; evaluation of industrial property rights and copyrights.

Class 37:

Building construction; repair; installation services; building construction with regard to the field of aviation and space travel, in particular airports and rocket launch areas; repair, maintenance and disassembly, in particular in the field of vehicles and apparatus for locomotion by land, air or water, and of drive motors; maintenance of computer hardware; vehicle service stations (refuelling and maintenance); fuelling of vehicles; in-flight refuelling; maintenance of measuring instruments, tensioning devices, tools and replacement parts; building, construction, assembly, installation and repair of devices for carrier rockets, spacecraft and satellites; building, construction, assembly, installation and repair of carrier rockets, spacecraft and satellites; maintenance assistance, help and support in the event of faults and defects in aircraft, spacecraft and satellites (repair); information in relation to the repair of aircraft; providing information in relation to the repair of aircraft; installation of hardware for mechanical, electric and computer interfaces between a satellite and a launch rocket, in particular carrier rockets; installation of satellites on carrier rockets;

installation of satellites and spacecraft on carrier rockets, in particular mechanical assembly, configuration (installation) of electric and computer connections (hardware); construction and building of installations, in particular satellites and ground stations and equipment relating thereto; information in relation to repair and construction and building of installations and equipment in the aeronautics sector; repair, in particular of vehicles and apparatus for locomotion and propulsion by land, air or water, including unmanned aircraft, aircraft, drones and drive motors; installation, repair, maintenance and servicing (maintenance) of electric and electronic installations, equipment, apparatus and devices, in particular for aeronautics, and of encryption installations, instruments, apparatus and devices; repair, maintenance and servicing (maintenance), in particular in the field of vehicles and apparatus for locomotion by land, air or water, and drive motors; repair, in particular in the field of vehicles and apparatus and parts therefor for locomotion by land, air or water, and drive motors; installation, maintenance, servicing (maintenance), repair and reconditioning of helicopters and rotorcraft, components, structural parts, fittings and connectors, dynamic components and equipment therefor; installation, maintenance, servicing (maintenance), repair and reconditioning of machine coupling and transmission components for helicopters and rotorcraft, motors and engines and drives for helicopters and rotorcraft, main rotors and tail rotors for helicopters and rotorcraft, rotor blades for helicopters and rotorcraft, avionics equipment and apparatus for helicopters and rotorcraft; maintenance, servicing (maintenance), repair, installation and technical updating of a fleet of helicopters and rotorcraft to comply with the requirements of national, foreign, civil and military legislative and regulatory requirements; inspection of helicopters and rotorcraft before maintenance, servicing (maintenance) and repair; adaptation (customization) of helicopters and rotorcraft to customer requests (installation); painting and varnishing of helicopters and rotorcraft; installation, maintenance, servicing (maintenance) and repair of nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, electric systems, apparatus and equipment for recording, transmission or reproduction of sound, images or data, data processing apparatus and equipment, computers, computer hardware, telecommunications machines, apparatus and equipment, all being for use in the field of helicopters and rotorcraft; installation, maintenance, servicing (maintenance), repair and reconditioning of flight simulators for helicopters and rotorcraft; technical support, namely technical consultancy in the field of the maintenance, servicing (maintenance), repair and reconditioning of helicopters and rotorcraft; rental of machines and tools for the maintenance and servicing (maintenance) of helicopters and rotorcraft; information in relation to the repair, maintenance, servicing (maintenance) and reconditioning of helicopters and rotorcraft; providing information relating to the maintenance, servicing (maintenance), repair and reconditioning of

helicopters and rotorcraft through Internet websites; installation, maintenance, servicing (maintenance), repair and reconditioning of equipment and apparatus installed in helicopters and rotorcraft, in particular avionics equipment and avionics apparatus, flight control apparatus, flight instruments, navigation apparatus and navigation instruments, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving apparatus and instruments, electric systems, apparatus and equipment for recording, transmission or reproduction of sound, images or data, data processing apparatus and equipment, computers, computer hardware, machines, apparatus and equipment for telecommunications; planning, scheduling and preparation of appointments and follow-up appointments relating to maintenance, servicing (maintenance), repair and reconditioning and second appointments therefor for aircraft, helicopters and rotorcraft, replacement parts, fittings, dynamic components and equipment, for others; maintenance of the telecommunications networks of multi-utility companies; servicing (maintenance) of the telecommunications networks of multi-utility companies.

Class 38:

Telecommunications; pager and mobile telephone communications, and other electronic communications; communications provided via fibre optic networks; telecommunications via satellite; communications via computer terminals; procurement and providing of telecommunications connections to a global computer network; telephone services; transmission of messages and information; rental of telecommunications apparatus and telecommunications equipment; rental of apparatus and equipment for image transmission; rental of modems; computerised transmission of messages and images; communications via computer terminals, radio and television broadcasting; cellular telephone communication; satellite transmission; rental of access time to computer databases and computer data memories; rental of access time to computers for data processing; telecommunications via satellite and satellite constellations; data transmission via satellites and satellite constellations; providing, and rental of the telecommunications networks of multi-utility companies; electronic message transmission via the Internet, extranets and intranets; communications via radio, telephone, telegraphy, and all other ways of remote data transmission, via videotex, in particular via terminals, computer peripheral apparatus or electronic and/or digital apparatus, video telephones and video conferences; data transmission, in particular in packet-switched operation mode, sending and transmission of electronic documents, electronic mail services; forwarding of telephone calls or telecommunications messages; mobile telephone services; satellite transmission; broadcasting of radio and television programmes and multimedia programmes in general (automatic formatting of texts and/or still or moving images and/or music or other sounds) for interactive or other use; communications via data networks in general; telecommunications via satellites and satellite constellations; electronic transmission of messages and data (messaging) via the Internet, extranets and intranets; communications via radio,

telephone, telegraphy and remote data transmission devices of all kinds via interactive videography and in particular on terminals, computer peripheral apparatus or electronic and/or digital apparatus, via video telephones and video conferences; data transmission, in particular for the transmission, in particular batch transmission, and sending of computerised and computer-readable documents; services in the field of the transmission and forwarding of calls or telecommunications; services in the field of mobile radio; rental of modem peripheral apparatus; rental of access times to database servers; telecommunications, electronic data transmission, data transmission via computer servers; radio communications, computerised transmission of messages and images; sending and receiving of data, signals and information, being processed by telematics apparatus and telematics equipment, computers or telecommunications apparatus, telecommunications equipment and telecommunications instruments; electric and electronic exchange of computerised and computer-readable data; wireless and secure electronic mail services and data transmission; electronic message transmission; electric and electronic sending and receiving of data, signals, images and information, transmission of encrypted messages and images; telecommunications via satellite; communications via computer terminals; services relating to secure communications via radio telephones and mobile telephones; data transmission via satellite; data transmission, data transfer and services for the procurement and providing of online access to data, in particular in the fields of satellite navigation and positioning, media for navigation and position data; telecommunication services in the form of preparation, providing and management of access to available data and information; preparation, and providing of telecommunications data and telecommunications information on the Internet; secure communication (transmission) of data and voice data, for others; providing of access to software platforms guaranteeing user authentication, data integrity and data privacy, and file acceptance; documents or electronic data via electronic networks, including the Internet, and access to the aforesaid documents or electronic data; providing of software platforms for services in connection with the encryption and signing of files, documents or electronic data, for others; providing of software platforms for services in connection with the secure transfer of files, documents, data or electronic payments via electronic networks, including telephone networks and the Internet; providing of access to programs on data networks; providing of user access to a global computer network, in particular the Internet (service providers); computerised transmission of messages and images, in particular high-resolution and very high-resolution images and geographical information; satellite transmission of messages and images, in particular high-resolution and very high-resolution images and geographical information; providing of access to databases and data memories, in particular databases and data memories containing images recorded from satellites or antenna systems; transmission of data from digital contour line models and geographical information; access to electronic databases and data memories and centres for

information retrieval, in particular for drawings, images, photos, charts, maps, lists, aerial photographs, satellite images, surface models, in particular rental of access times, organisation and management of access authorisations; communications in connection with data transmission on computer networks; telecommunication services in the form of setting up and implementation of access to databases and data memories on the Internet, in particular procurement and providing of access software; (computerised) transmission of data and images, in particular for global communications networks (the Internet) or for private or user-restricted networks (intranets); communications by means of computer terminals, radio, television broadcasts, mobile telephone services; telecommunications in the field of aircraft, helicopters and rotorcraft; Internet portals in relation to aircraft, helicopters and rotorcraft; transmission of messages, news and information in relation to aircraft, helicopters and rotorcraft by means of electronic communications networks; procurement and providing of computer databases and computer memories containing data in relation to aircraft, helicopters and rotorcraft.

Class 39:

Transport (except for land transport and road transport); packaging and storage of goods; travel arrangement; air transport; packaging and storage of goods; storage of aircraft and aircraft parts; freighting; vehicle rental (except for land vehicle rental); air traffic management; traffic information; provision of information and advice relating to flight safety; services for the operation of airports, in particular management, administration and organisation of an airport and securing and handling of flight operation; flight consultancy, in particular information regarding flights; arranging of travel tours; recovery and recycling of aircraft and aircraft parts; rental of aircraft and aerial vehicles; positioning and remote control of satellites and spacecraft, in particular launching and suspension of satellites, for others; flight tracking; transport by means of aircraft, helicopters and rotorcraft; stockpiling of aircraft, helicopters and rotorcraft and replacement parts therefor, for others; leasing of aircraft, helicopters and rotorcraft; transportation by means of aircraft, helicopters and rotorcraft in disaster zones for the providing of urgent humanitarian aid for charitable purpose; transportation logistics and shipping in relation to replacement aircraft parts; airport operation, in particular management, administration and organisation of an airport; logistics management in the field of aircraft, helicopters and rotorcraft; planning and coordination of the transport of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; warehousing of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others; warehouse management in the field of replacement parts, fittings, dynamic components and equipment for aircraft, helicopters and rotorcraft, for others.

Class 40:

Treatment of materials; printing; reclamation, recovery, recycling and reuse of aircraft and aircraft parts; editing and processing of

aerial photographs, satellite images, monochrome or multi-spectral photographs, for others; editing and processing of space images; production, custom manufacture and finishing of helicopters and rotorcraft according to the orders and specifications of others; services in the field of recycling and disassembly of the electric and electronic installations, equipment, apparatus and devices, in particular for aeronautics, and of encryption installations, instruments, apparatus and devices.

Class 41:

Education; providing of training; entertainment; sporting and cultural activities; providing of training in the field of aviation and space travel; organisation of aviation and space travel exhibitions for information, providing of training and further training and entertainment purposes; videotape film production; teaching and instruction, education and entertainment; correspondence courses; publication of texts, illustrations, books, newspapers, periodicals, illustrated magazines, magazines, publications in all fields and all forms, comprising electronic and digital publications, publications on sound recording carriers and/or image carriers, multimedia carriers (in particular interactive discs, digital sound CD-ROMs) of multimedia programs (computerised editing of texts and/or still or moving images); organisation of introductory and advanced academic events in all fields of general interest; organisation of further training in all fields of general interest; seminars, study courses and courses; organisation of lectures, forums, congresses and colloquiums; production of radio and television programmes, audiovisual and multimedia programmes (film and recording studios), in particular computerised editing of texts and/or still or moving images and/or music or other sounds and noises, for interactive or other use; organisation of competitions, games and information campaigns and professional or other presentations; production of radio and television information and entertainment programmes, radio and television entertainment, audiovisual and multimedia programmes (film and recording studios), in particular computerised editing of texts and/or still or moving images and/or music or other sounds and noises, for interactive or other use; organisation of shows; production and rental of films and cassettes, including video cassettes, and sound recording or video carriers and multimedia carriers of all kinds in general (in particular interactive discs, digital sound CD-ROMs); rental of books and other publications; games libraries for loaning and distribution of games, in particular electronic games, through franchising, in particular providing of basic training for employees; editing, in particular editing of texts; providing of news reports, photojournalism; translation; rental of recorders, in particular cassette recorders; recording of films on video cassettes and videotapes; practical training, instruction (teaching) and demonstration in the fields of defence, monitoring, communications and security, reconnaissance and geography; organisation and conducting of courses, practical workshops, seminars, training; editing and publication of books, printed matter, CD-ROMs and film productions, solely in the fields of reconnaissance and geography for defence and security purposes;

publication of books and periodicals online; publishing, other than printing; computer courses relating to the operation, performance and security of information and position determining systems; preparation and conducting of colloquiums in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of conferences in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of meetings and congresses in the field of the exploitation of satellite data and products derived therefrom; preparation and conducting of seminars in the field of the exploitation of satellite data and products derived therefrom; photography, organisation of exhibitions for cultural and educational purposes, photojournalism, publication of texts, other than publicity texts, in the field of the exploitation of satellite data and products derived therefrom; electronic publication of books and online magazines in the field of the exploitation of satellite data and products derived therefrom; production of television programmes; education, providing of training, entertainment, sporting activities, cultural activities, information relating to educational and entertainment events, film production, services relating to digital images, publication of books; providing of training for aircraft, helicopter and rotorcraft pilots; providing of training for mechanics, technicians and engineers in the field of aircraft, helicopters and rotorcraft; providing of training by means of flight simulators for aircraft, helicopters and rotorcraft; conducting of courses, conferences, seminars, workshops in the field of aircraft, helicopters and rotorcraft and dissemination of training material in connection therewith; conducting of courses, conferences, seminars, workshops in relation to the management, repair, maintenance, servicing and reconditioning of aircraft, helicopters and rotorcraft and flight security and dissemination of training material in connection therewith; publication of books, magazines, periodicals, newspapers, illustrated magazines, catalogues and pamphlets in relation to aircraft, helicopters and rotorcraft; publication of training and maintenance and servicing manuals (handbooks) in relation to aircraft, helicopters and rotorcraft; online library services, namely procurement and providing of electronic library services for the supply of electronic information in the field of aircraft, helicopters and rotorcraft; providing and procurement of non-downloadable electronic publications in relation to aircraft, helicopters and rotorcraft; production of training videos in relation to aircraft, helicopters and rotorcraft; providing and procurement of websites offering information regarding the training of aircraft pilots, helicopter pilots and rotorcraft pilots, mechanics, technicians and engineers; organisation of air shows and flying demonstrations and exhibitions in relation to aircraft, helicopters and rotorcraft for entertainment, cultural and educational purposes; providing education, training and consultancy and support for underprivileged young people in the field of aircraft, helicopters and rotorcraft for charitable purpose; providing of training for flight personnel; providing of training for maintenance and servicing; operational training; development of

aids for the providing of training; providing centre facilities for training purposes.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer programming; industrial, scientific and technological services and research and design relating thereto; industrial analysis; testing of computer system installations; computer programming for the creation and recovery of computer data in databases; scientific and technological consultancy, other than commercial; engineering with the aim of providing scientific and technological evaluations, calculations, research and opinions in the field of science and technology; engineering services in the fields of physics and chemistry; technical consultancy, assessment, research, and testing in the field of technology, in particular with regard to transport, environmental protection, energy technology; material testing; providing of weather information, in particular weather forecasting; design and development of computer hardware and software; design of computer graphics; engineering, engineering (technical assessment); software maintenance; mechanical research; research in the field of aviation and space travel; technological services in the field of flight simulation; technical project studies; research and consultancy in the field of technology; research and consultancy in the field of environmental protection; industrial design; interior furnishing; design of interior decor; graphic design; maintenance of computer software; certification and recertification of vehicles (quality, standards); technical flight tests; professional consultancy and drawing up of plans (other than business), namely consultancy for the production, manufacture and finishing of installations, in particular satellites, ground stations and related installations and apparatus, construction consultancy, technical project studies; engineering; conducting of scientific and technical studies, projects and scientific and technical consultancy with regard to satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; preparation and creation of scientific, physical and technical analyses and surveys with regard to the manufacture, use, servicing and maintenance of satellites, spacecraft, launch rockets, in particular carrier rockets and space stations; scientific and technical consultancy and consultations in relation to computers, drawing up of construction plans; technical consultancy relating to the procurement and providing of technical information and know-how, establishing and configuration, design (development) and management of databases and legal databases; computer programming for electronic apparatus, equipment and instruments, computers, systems for remote data processing and telematics systems, multimedia hardware; multimedia programming; rental of computers, software, scanners, recorders, burners, printers, printer peripheral apparatus and modems; technical and technological design consultancy and conducting of technical and technological project planning other than in relation to business management; installation of software and/or database development and

maintenance of software and/or databases and legal databases; programming of software for multimedia apparatus; rental of computers, programs, scanners, recorders, printers and peripheral apparatus for printers; technical consultancy and support, in particular technical organisation and services being necessary for consultancy in the field of telecommunications and information technology; technical and technological testing and development of mechanical, electric and computer interfaces (integration) between a launch rocket, in particular carrier rockets, and a spacecraft or satellites; testing of the compatibility and integrity of electric connections; technical or technological consultancy in the field of telecommunications and data processing; technical consultancy in the field of information technology; computer security services relating to flight security, flight monitoring and flight support based on a satellite infrastructure; technical software consultancy in the field of telecommunications; technical information in relation to the aviation and space travel sector; scientific, technical and technological examination, development and adaptation of telecommunications networks and radio communications networks; design, development and updating (for others) of software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images, data and multimedia data communications, tests, inspections, analyses and/or signal monitoring; scientific, technical and technological development, optimisation (technical consultancy), performance monitoring (evaluation) and testing of methods, algorithms and processing and software modules for computerised signal processing; inspection, testing, analysis and/or monitoring of system algorithms for generating navigation or cartography data; scientific, technical and technological development, optimisation, inspection (technical testing) and conducting of technical tests with regard to the performance of methods, algorithms and processing and software modules for generating navigation or cartography data; performance monitoring and testing; signal testing; scientific and technical development of algorithms and methods for computerised signal processing; scientific and technological services and research and design relating thereto, in particular scientific and technical development, engineering, technical examination, technical consultancy, optimisation and improvement; conducting of industrial analyses and measurements; scientific and technological services and research and design relating thereto in the field of data processing, analysis and conversion; production (design, development) and updating of database programs; scientific, technical and technological studies on user requirements and evaluation of the architectures of information and reconnaissance systems, solely in the fields of reconnaissance and geography for defence and security purposes; scientific, technical and technological studies in relation to adaptation, integration, qualification and build-into operations for logistics support, solely in the fields of reconnaissance and geography for defence and security purposes; scientific and technological services and research and design relating thereto, in particular scientific and

technical development and engineering, solely in the fields of reconnaissance and geography for defence and security purposes; scientific and technical examination, scientific and technical consultancy, optimisation and improvement, solely in the fields of reconnaissance and geography for defence and security purposes; scientific, technical and technological data analysis and data conversion in the field of reconnaissance and geography for defence and security; engineering with regard to the design and troubleshooting of digital radio communications networks for the security forces; design, development and updating (for others) of software (recorded programs) for position determination, surveillance and monitoring in specific geographical areas; design, development and updating (for others) of command and monitoring software (recorded programs) for position determination, surveillance and monitoring in specific geographical areas; engineering with regard to the scientific evaluation, assessment and appraisal of the preparation and/or providing of results, in particular in the form of analytical reports, graphics, charts and diagrams; software programming, in particular for others; software programming and maintenance, including of software platforms for secure end-to-end transactions, management of customer relationships and handling of transactions; providing computer protection and security services for business communications via electronic networks, in particular for protection against illegal network access; scientific, technical and technological consultancy, consultancy, hotlines and maintenance for computer hardware, computer software and wireless data networks in all of the aforesaid fields, scientific, technical and technological consultancy centres in all of the aforesaid fields; testing (technical tests), inspection (technical examination), scientific, technical and technological analysis and/or monitoring of navigation signals; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of navigation signals; inspections (technical examinations), tests (technical tests), scientific, technical and technological analyses and/or monitoring of system algorithms for generating navigation data; scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for generating navigation data; engineering in the field of performance monitoring and testing; engineering in the field of navigation signal testing and verification; engineering in the field of the development of algorithms and methods for computerised navigation signal processing; engineering in the field of the development of algorithms and methods for generating navigation data; scientific evaluation, assessment and appraisal for generating extrapolated data for navigation; engineering with regard to scientific and technological evaluation, assessment, appraisal and research, in particular scientific, technical and technological development, engineering, scientific, technical and technological examination, scientific, technical and technological consultancy, optimisation, calibration, arranging, testing and

improvement of antennas, satellite dishes and reflective and radiating objects, technical examination and identification of segments of space in two or three dimensions; scientific, technical and technological measurement, characterisation and verification, scientific, technical and technological examination, digitalisation through scanning and sampling of electromagnetic fields; scientific and technological engineering evaluations, assessments, appraisals and research in the technological field of data processing, data analysis and data conversion; creation (design, development) of database programs; conducting of technical tests, examinations, verification, analyses and/or monitoring of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water (in particular helicopters, rotary-wing aircraft and drones); scientific, technical and technological development, optimisation, performance monitoring and testing of methods, algorithms and processing and software modules for the computerised processing of signals belonging to vehicles and apparatus for locomotion and propulsion by land, air and water (in particular helicopters, rotary-wing aircraft and drones); inspections (technical examination), technical tests, technical analyses and/or monitoring of system algorithms for generating data; engineering in the field of performance monitoring and testing in relation to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); engineering in the field of signal testing and verification; engineering in the field of the development of algorithms and methods for computerised signal processing; scientific evaluation, assessment and appraisal of the preparation and providing of results, in particular in the form of analytical reports, graphics, charts and diagrams; scientific and technological engineering services and research and design relating thereto in the field of data processing, analysis and conversion; scientific, technical and technological examinations, development and adaptation of telecommunications networks and radio communications networks in relation to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); design, development and updating (for others) of software (recorded programs) for the management, administration, architecture, configuration and protection of local or remote networks for speech, images, data and multimedia data communications networks belonging to vehicles and apparatus for locomotion and propulsion by land, air or water (in particular helicopters, rotary-wing aircraft and drones); design, development and updating (for others) of software (recorded programs) for the design, development, management and securing of access to computer and Internet protocol (IP) networks, programming and maintenance of computer software for military, aviation and space travel applications; research and development of new products for military and aviation applications; network security services for the assessment, monitoring and control of data security within information technology networks; scientific and technological services, namely provision of data generated by Earth observation satellites, precision measurements of terrain models, physical

measurements (characterisation of objects observed from the ground in accordance with spectral signatures, atmospheric influences, geometric and radiometric models from on-board cameras); research and design in the field of imaging methods by means of satellite and the exploitation of related data, namely design of processing methods for observation data from satellites, development of processing protocols for the exploitation of satellite data with the aim of producing geographical information and engineering in connection with the programming of aerial photographs from a network of observation satellites; industrial analysis and research in the field of satellite imagery and the exploitation of related data; radar research, design of radar imaging; design and development of computers and software; regeneration (recovery) of databases; consultancy in the field of environmental protection; conversion of data and computer programs (other than physical conversion); assessment and surveying; examination, assessment and surveying of oil fields; geological assessment and surveying; geological research; analysis of the exploitation of oil fields; land surveying; crude oil exploration; town planning; production and maintenance of websites, for others; geological exploration; research in the field of cartographical products, country coverage maps and land registers; services relating to technical engineering information and queries with regard to the presentation of online images generated by satellites, in particular geographical images, geographical maps and topographical maps consisting of images generated via satellites and antenna systems; technical information and queries with regard to the following products: satellites images, in particular geographical images, geographical maps and topographical maps consisting of images generated by satellites and antenna systems; computerised services relating to the treatment and analysis of aerial photographs or satellite images (monochrome or multi-spectral); physics (research), engineering or information technology services in connection with computerised services in relation to the processing of aerial photographs, satellite images (monochrome or multi-spectral); design of databases for global digital contour line models; science and research applications, studies and projects for developing and validation of geo-data in relation to digital contour line models; industrial analysis and research based on digital contour line models for use in the processing and orthorectification of other geo-data and images, modelling of geophysical processes on Earth, calculating signal dispersion in the telecommunications industry and logistics and security applications in transport (aeronautics, vehicles); technical consultancy services relating to the planning of crisis intervention; technical consultancy relating to defence-relevant and security-relevant applications and missions; analysis of the exploitation of oil fields and gas fields; design and development of computers and computer software, computer programming for industry, namely the fire brigade, police and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer

hardware; industrial and scientific research; meteorological information, in particular weather forecasting; design of software; design of computer images; engineering (technical evaluation and assessment); design, research, development, engineering and testing in the field of aircraft, helicopters and rotorcraft; design and development of computers, computer hardware, avionics, communications systems and navigation systems in the field of aircraft, helicopters and rotorcraft; design and development of flight simulators for aircraft, helicopters and rotorcraft; design, development, installation, maintenance and updating of computer software in the field of aircraft, helicopters and rotorcraft; testing of aircraft, helicopters and rotorcraft, in particular security tests; graphic design of schemes for the painting and varnishing of aircraft, helicopters and rotorcraft; rental of flight simulators for aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft; technical consultancy in the field of aircraft, helicopters and rotorcraft engineering; technical consultancy in the field of avionics for aircraft, helicopters and rotorcraft; computer services relating to provision of integrated software solutions (software), big data solutions (software), software for data capture and data collection (simultaneous, comprehensive and cross-functional recording and collection of relevant data and information from various sources), software for valuable data extraction (precise processing of data and information through observation, monitoring, filtering, reporting and correlation, of procured and retrieved data and simulation data, decision and optimisation assistance), software for collaboration between various knowledge areas (full access to processed data and information for all parties concerned); condition monitoring (evaluation) of aircraft by means of software; engineering consultancy services for the modification of aircraft; technical development of customer service software for aircraft; maintenance of computer software.

Class 45:

Legal services; security services for the protection of property and individuals; personal and social services rendered by others to meet the needs of individuals; exploitation of patents, in particular through the issuing of licences and know-how licences; exploitation of patents; security consultancy; negotiation and exploitation of industrial property rights and copyrights, in particular through the issuing of licences and know-how licences to others; legal consultancy; franchising, namely granting of licences, management of copyrights; security services for the protection of property and individuals, in particular for air traffic and being sky marshals; services rendered by the fire brigade, police and government; consultancy and information in the field of security for aircraft, helicopters and rotorcraft; monitoring of a fleet consisting of aircraft, helicopters and rotorcraft for security purposes; security consultancy with regard to compliance with official regulations in the field of aircraft, helicopters and rotorcraft, namely assessment of legal requirements and obligations and the effects thereof on customers.

Class 9: Postal scales, apparatus for checking franking, bar code readers; recorded computer software for managing dispatching of mail (letters, dispatches, newspapers and parcels), franking thereof and processing of all related documents; apparatus, instruments, units and devices for data, information, signal or message generation,
	Specification:	

calculation, checking, input, storage, conversion, processing, gathering, transmission, switching and reception, computers and peripheral equipment thereof particularly printers; counter equipment for franking applications, namely apparatus for checking franking particularly designed for counter-top use; electronic apparatus used for checking franking (payment and registration) of postal and transportation costs (of private mailing services), for letters and parcels, including via remote control and download, via the Internet and the intranet networks; coin-operated electronic booths for franking letters and parcels (sent by private postal services or by private carriers); recorded computer software ; electric appliances and automatic mail and parcel dispensers ; database management computer software; computer software for synchronizing data between laptop or palmtop computers and host computers; computer operating system computer software; telecommunications computer software used for the electronic transmission of documents and the transmission of facsimiles; telecommunications computer software and apparatus, including modems for connection to databases, computer networks, global computer networks as well as to Internet; computer software for automating and managing business processes; software programs for facsimiles, emails, voice messaging and Internet messaging; computer software for business use; data processing equipment, namely computers, juke boxes for computers, computer peripheral devices, computer keyboards, interfaces for computers, readers [data processing equipment], mouse [data processing equipment]; computer software; palmtop computers; laptop computers; computer programs [downloadable software]; recorded computer programs [programs]; computer programs and image processing computer software for mobile phones; downloadable electronic publications available online from databases or Internet; computer peripheral devices; pre-recorded computer data media; magnetic and optical data media; computer software platforms; downloadable computer software for providing and following up information about the distribution and delivery, coin-operated apparatus.

Class 16:

Mail processing equipment, apparatus and devices particularly franking machines, franking bases and heads, parts and spare parts of franking machines, letter openers, postal machines for post offices and particularly distribution machines for postal applications, counter equipment for franking applications, namely franking machines particularly designed for counter-top use; letter sorting machines, addressing and bar-coding equipment for mail applications, namely machines for addressing and coding; printed matter; envelopes; labels not of textile; wrapping paper; address stamps; sealing machines for offices; manuals ; booklets; bags [envelopes, pouches] of paper or plastics, for packaging.

Class 20:

Office furniture specifically adapted for mail processing equipment, apparatus and devices.

Class 35:

business assistance services for selecting and handling consumer and business addresses through computer networks, business

assistance and consultancy services in the field of mail management, business management assistance and consultancy services in the fields of logistics, transportation, routing of goods, parcels and mail; document reproduction services; compilation of statistics; business assistance services in optimizing parcel and mail dispatch rate and in the management of the expense thereof, said services also being provided online; computerized file management; compilation of information into computer databases, said services also being provided online; business assistance services for the management of their parcel or correspondence dispatching services, said services also being provided online; administrative organization of transportation, delivery, distribution, sorting, routing and storage of goods and parcels ; retail and wholesale of postal scales, of apparatus for checking franking, of bar code readers, of computer software, of machines for processing mail (folding machines, inserting machines), of letter sorting machines, of envelopes, of wrapping paper, of bags [envelopes, pouches] of paper or plastics, for packaging; providing personnel for others for performing mail processing operations.

Class 36:

Financial services, management services of financial accounts for the remote franking of letters and parcels; postal credit reload services, namely, topping up franking credit to enable customers to be certain of having postage credit to use their franking machines at any time; services for processing credit transfers and charging letter and parcel franking expenses; leasing, renting with or without the promise of sale of any equipment, machines, apparatus and devices related to the processing, transportation, delivery of mail, of any factories, of any workshops, offices and premises; management of a portfolio of shares and securities, management of real properties; customs brokerage.

Class 37:

Installation, maintenance and repair services for all machines, equipment, apparatus and devices in connection with mail processing.

Class 38:

Telecommunications, telecommunications via computer networks, providing access to computer telecommunications networks, providing communications by computers grouped on a global (Internet) or private or reserved access (Intranet) telematic network, providing access means to a server for services in the fields of processing, logistics, and transportation of goods, parcels and mail; communications by computer terminals; providing emails, electronic mails, and electronic data transmission, in particular via global (Internet) or private or reserved access (Intranet) telecommunications networks; communications by computer terminals; transmission of information accessible through an access code to databases and to computer or telematic information retrieval centers; providing transmission of data, sounds, images and signals; provision (transmission) of information about the transportation of letters and parcels.

Class 39:

Transport, delivery, distribution and routing of goods, mail and

parcels; packaging and storage of goods, mail and parcels; organization of transportation; freighting services; transport vehicle rental; sorting and storage services for goods, mail and parcels; delivery under any form whatsoever, in particular using transportation to the recipient or to a point of sale or of intermediate deposit, in response to orders, namely through the Internet network, whether computerized or not, including on behalf of the suppliers of goods, through the Internet network or any other computerized, communication or other means, and of their clients, whether individuals or communities; transportation information; physical storage of electronically-stored data or documents; freight brokerage or transport brokerage; renting without the promise of sale of any equipment, machines, apparatus and devices related to the processing, transportation and delivery of mail; follow-up of the dispatching during transportation by electronic determination of the place of destination of the products and goods, in particular of documents, packets and parcels; rental of storage containers; computer aided mail franking services, mail franking services via the Internet network.

Class 42:

Computer software design and development, maintenance of computer software, research and survey (technical studies) services in the field of mail and parcel processing techniques, advice and assistance services for the installation, maintenance and updating of electronic processing systems (computer software) of data used for tracking, following up, locating parcels, mail and pallets throughout processing, transportation and delivery thereof, advice services for the installation of electronic processing systems (computer software) of data used for tracking and locating parcels, mail and pallets throughout transportation and delivery thereof; providing data conversion of computer programs; providing conversion of data or documents from physical to electronic media.

[511] 貨品/服務說明 : Class 7:
Specification: Machines used in metal, timber, rubber and plastics processing; machines for the manufacture, repair and disassembly of land and sea vehicles; machines for the chemical, agricultural, mining, textile, food and beverage, construction and packaging industry; machine tools; Printing machines; printing frames (parts of machines); printing plates; machines used in the manufacture of printing plates; printing plates [not light-sensitive]; pressure casting molds [machine components]; lithographic printing plates for printing machines; Motors and engines (except for land vehicles); components for motors and engines of all types, including electric motors and their components (except for land vehicles); Control units for motors and engines; electric starters for motors and engines; motor driven electric generators; main cylinders; electric motors (except for land vehicles) and pumps (machines); Engine actuators (throttle valves, idle governors, linear actuators, air control valves, air flap actuators, exhaust gas recirculation valves); injection valves, Injection nozzles for engines; fuel pumps; fuel injection systems; spark plugs for combustion engines ; glow plugs for diesel engines ; electric ignition coils; Air filters for engines; Catalytic converters; Chargers [turbochargers]; turbocompressors; Control units for machines; Controlled adjusting devices for vehicle parts such as seats, windows, mirrors, sliding roofs, throttle valves, camshafts; Machine coupling and transmission components, including shift clutches (except for land vehicles); Drive belts (machine components); transmission belts (machine components); V-belts (machine components); V-ribbed belts (machine components); variator belts (machine components); timing belts (machine components); synchronous belts (machine components); nubbed belts (machine components); double-sided timing belts (machine components); flat

belts (machine components); lift belts (machine components); conveyor belts (machine components); Machine components, such as springs, shock absorber pistons, vibration dampers; molded parts made from rubber and rubber-metal bondings for vibration control (machine parts); Engine mounts, hydromounts, torsional vibration dampers, actuators; Valves (machine components); Conveyor belts, parts and accessories for conveyor belts; Passenger conveyors not included in other classes; (Compressed air) spray guns for water, oil, gas, paint and other gaseous or liquid substances; metal fittings (accessories for spray guns or sprayers); Mechanical vehicle jacks; lawn mowers (machines); non-hand-operated agricultural equipment; vending machines; belt tensioners and their parts and accessories.

Class 9:

Scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; Measuring devices and instruments; Electric control and regulating systems including their processors and sensors for the steering and controlling of vehicles, for improved driving safety, driving stability, and cushioning and noise comfort; Electric control and regulating systems including their processors and sensors for regulation and control of brakes, accelerator pedals, transmissions, chassis and suspensions and emissions; voltage regulators for vehicles; Automatic control systems for vehicles; Electrical and electrohydraulic power steering ; Ammeters, voltmeters, ohmmeters, manometers, thermometers, tachometers ; Compasses, acidimeters, water level indicators, scales; thermostats ; Engine management systems, idle speed control devices; data management systems, data processing devices; Measuring, warning and display devices and instruments for distance, axle load monitoring, acceleration, speed, engine speed, torque, turn rate, pressure, fill level, fluid supply (particularly fuel and washer fluid supply), altitude, coolant temperature, charge pressure, power, air quality, air mass, oil level, oil pressure, position, rudder position, temperature, travel, travel distance, wind and water depth; Distance warning and controlling devices and display instruments ; Radar devices; Reversing monitoring equipment; automatic parking assistance systems; Optical, acoustic and haptic drowsiness and speed warning devices and display instruments; Tire pressure gauge, tire inflating equipment; Service indicator, wear indicator, consumption measurement device, maintenance indicator, workshop test equipment; Time recording unit; accident data recorder; Apparatus and instruments for conducting, switching, converting, storing, regulating and monitoring electricity; Electrical fuses, electrical relays, transponders, sensors, actuators; detectors; Pressure switches; electrical controllers; brake fluid tester; Diagnostic apparatus [not for medical purposes]; Monitoring and diagnostic systems for vehicle engines and drive systems; Warning lamps for vehicles; solenoid Valves; Lasers, not for medical purposes; Electric batteries and their components, rechargeable batteries and their components, solar batteries; fuel cells and their components,

chargers for electric batteries; Alarm equipment; burglar alarms, burglary detection equipment; electrical opening and closing control devices for motor vehicles, including control units, controls and electric motors; central locking systems; electronic immobilizers for motor vehicles; Remote control devices; Remote operation systems for central locking systems; Position finding, course tracking and traffic routing devices; Navigation instruments; navigation devices for vehicles; GPS (Global Positioning System) devices; electric/electronic controllers and drives for convertible soft tops, sliding roofs and sun protection devices; data processing devices, computers including electronic calendar, fax machines, monitors, computer I/O (input/output) devices, calculators, saved computer programs and software; Electrical, electronic, opto-electronic and mechanical analog and digital display devices and instruments; Image transmission and reproduction devices; electrical or electronic display devices; display equipment, electronic display modules, electronic display elements, electronic display panels, electronic displays, monitors, screens, LCDs (liquid crystal displays), devices with LCDs (liquid crystal displays), flat screens, video screens and monitors; touch screens; Devices for recording, receiving, transmitting and reproducing analog and/or digital signals, as well as images and sound, antennas, radios, televisions, telephones including video telephones; hands-free equipment for telephones; Rescue equipment, such as life rafts, rescue ladders, rescue nets, rescue tarpaulins, life belts, life buoys, life jackets, fire extinguishing equipment; Contact lenses, spectacles, spectacles cases, glasses, glasses cases, binoculars, magnifying glasses, sunglasses, hazard warning triangles for vehicles; Projectors, film cameras, cameras, photocopiers, electronic translators, electronic pocket translators, exposed film, magnetic, electronic and optical recording media, with the exception of non-exposed film; recording disks including magnetic cards, cards with integrated circuits (smart cards), telephone cards, mechanisms for coin-operated apparatus including automatic cash dispensers, cash machines; cash registers, calculating machines; Photovoltaic elements; photo cells; Presence monitoring devices.

Class 12:

Vehicles; Apparatus for locomotion by land, air or water; parts and accessories for vehicles for transportation by land, air or water; Engines for land vehicles; parts and accessories for vehicles, namely combination display instruments, land vehicle cockpits, instrument panels, center consoles; Tires, inner tubes for tires, wheels, wheel rims, treads for the retreading of tires, hub caps, rim strips, materials and kits for repairing tires and inner tubes not included in other classes; valves for vehicle tires; Chassis and parts thereof; controlled and non-controlled chassis for vehicles; Electronic, hydraulic, electromechanical, electrohydraulic and mechanical brakes for vehicles; parts and accessories for electronic, hydraulic, electromechanical, electrohydraulic and mechanical brakes for vehicles; brake cylinders, brake pads, brake calipers, brake disks, brake linings, brake hoses, all for vehicles; Mechanical and hydraulic controllers

[511] 貨品／服務說明： Class 9:
Specification: (A) Semiconductor components, integrated circuits, semiconductor chips, semiconductor chip sets, circuit board assemblies, computer components, electronic components; all the aforesaid goods being for communications; control software, interface software and communications software; semiconductor component layouts in electronic form; telecommunications apparatus, instruments, equipment and installations; computers, computer peripherals, computer networking and computer configuration systems, all being for use with telecommunications apparatus, instruments and equipment; telecommunications multiplexers, networks, and switchboards; modems; telephones; telephone aerials and aerial installation components; telephone receivers and recorders; navigation and location apparatus and instruments; electronic and computer apparatus and instruments for determining precise geographical locations of aircraft, marine vessels, land vehicles, human beings and animals; electronic and computer apparatus and instruments for surveying, mapping, tracking and navigation, including marine, aviation, land vehicle and human being and animal tracking and navigation; location sensors, software, receivers and transmitters; location systems software and hardware; data carriers pre-recorded with software as aforesaid; computer hardware and software for use in global positioning and wireless navigation and satellite communications; computer software for improving voice signal quality and the intelligibility of speech content used in voice interface systems, command and control systems, radio intercom systems, microphone systems, wireless communications systems and telecommunications systems; microphone systems comprising a microphone unit and digital signal processors; (B) computer hardware and computer software; computer programs; computer firmware; computer hardware and software for electronic advertisement and messaging and location services; mobile computing and operating platforms; mobile computing and operating platforms consisting of computer software, data transceivers, and wireless networks for the collection, reporting and analysis of business data related to location services; computer hardware and software for tracking, monitoring and analyzing shopping activity; software applications for cellular phones, smartphones, PDAs, and mobile web devices; mobile software applications; downloadable electronic game programs; software to enable uploading, posting, showing, displaying, tagging, blogging, sharing or otherwise providing electronic media or information; computer software for wireless content delivery; computer application software for mobile phones; downloadable software in the nature of a mobile application for the transmission of messages among computer users; software and

software applications to enable transmission, access, organization and management of text messaging, instant messaging, online blog journals, text, web links, and images via the Internet and other communications networks; software for accessing information on a global computer network; downloadable software platforms for social networking that may be accessed via the Internet, computers and wireless devices; cellular phones, smartphones, PDAs, and mobile web devices; communications hardware and peripherals; communications software; telecommunications hardware and peripherals; telecommunications software and installations; computers, computer peripherals, computer networking and computer configuration systems; software for recording, manipulating and editing sound and images; software for recording, editing and printing all types of products, images, text, graphics, photographs, including two dimensional and three dimensional designs; software for wireless connectivity; software, apparatus and peripherals for weighing and measuring, including voice and motion-generated command and control software, apparatus and peripherals; Electric and electronic apparatus for use with multi-media entertaining systems; electronic components for wireless and mobile communication systems; telecommunications apparatus, equipment, parts, fittings and electronic components for all the aforesaid goods; communications apparatus, equipment, parts, and fittings; electronic components for all the aforesaid goods.

Class 38:

Electronic messaging services; electronic transmission services for digital media content for others via global and local computer networks; telecommunications; transfer of data by telecommunications; mobile and fixed telecommunications services; communications services; transmission of text, messages, sound and/or pictures; telecommunication and/or communication and/or broadcast and/or transmission of audio visual content; communication by computer, electronic mail, message sending and receiving services; wireless digital messaging services; information, advisory and consultancy services relating to all the aforesaid.

Class 42:

(A) Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; design and development of telecommunications apparatus, instruments and equipment; advice and consultancy in relation to computer networking applications; design and development of computer hardware and software; (B) design and development of software for recording, manipulating and editing sound and images; design and development of software for recording, editing and printing images, text, graphics and photographs; design and development of software for wireless connectivity; design and development of software, apparatus and peripherals for weighing and measuring; design and development of communications apparatus, instruments and equipment; design and development of multimedia apparatus, instruments and equipment; design and development of sound and image carriers; design and development of hardware and software for image

processing; design and development of software and hardware for navigational apparatus, instruments and equipment; design and development of software and hardware for determining precise geographical locations of aircraft, marine vessels, land vehicles, human beings and animals; design and development of software and hardware for surveying, mapping, tracking and navigation; design and development of location systems software and hardware; design and development of telecommunications software, hardware and peripherals; design, installation, maintenance and updating of software; design of hardware; design and development of peripheral apparatus for computer hardware and software; computer system design; computer programming; design and development of software and hardware for electronic advertisement and messaging and location services; design and development mobile computing and operating platforms; design and development of software and hardware for tracking, monitoring and analyzing shopping activity; design and development of software and hardware for cellular phones, smartphones, PDAs, and mobile web devices; design and development of software and hardware to enable uploading, posting, showing, displaying, tagging, blogging, sharing or otherwise providing electronic media or information; design and development of software and hardware for wireless content delivery; design and development of software for mobile phones; design and development of software applications to enable transmission, access, organization and management of text messaging, instant messaging, online blog journals, text, web links, and images via the Internet and other communications networks; design and development of software for accessing information on a global computer network; design and development of software platforms for social networking that may be accessed via the Internet, computers and wireless devices; advice and consultancy in relation to all of the aforementioned services.

Class 45:

(A) Computer software licensing; licensing of computer software for improving voice signal quality and the intelligibility of speech content, for telecommunications, for voice interface systems, for command and control systems, for radio intercom systems, for microphone systems, and for communications systems; (B) licensing services; licensing of software and hardware; licensing of intellectual property and industrial property; licensing of technology; licensing of communications systems; licensing of wireless communications systems; licensing of telecommunications software; consultancy, information and advisory services relating to all the aforesaid services.

for satellites and spacecraft, in particular avionics modules and supply modules; altitude and position control devices for satellites; measuring, control, observation and communications apparatus; apparatus and instruments for Earth observation, and for the encoding and transmission of data by means of satellites, apparatus and instruments for monitoring satellite altitude and satellite orbit; ground systems for operation and control of satellites; satellite management programs; satellite control programs; radioelectric transceivers (transmitters and receivers) and radio apparatus; avionics modules, supply modules and test modules for satellites; spacecraft and carrier rockets; electronic, electric and optical satellite modules and spacecraft modules, including assemblies, containing the measuring circuits, communications circuits and auxiliary launch apparatus in a housing; apparatus and systems for altitude control and position control; scientific apparatus and instruments; audio compact discs; data carriers; transmitters (telecommunication), electric cables, fibre optic cables, electronic apparatus and instruments for civilian and military use namely on-board electronic apparatus and instruments for spacecraft, satellites, launch vehicles, rockets, aircraft, helicopters and electronic equipment for use in ground and control stations of the aforesaid spacecraft, satellites, launch vehicles, rockets, aircraft, helicopters, electronic storage media; data storage media containing flight and navigation instructions for helicopters, rotary-wing aircraft and drones; optical or infrared monitoring installations and apparatus; thermal imaging apparatus; observation instruments and systems consisting thereof; infrared monitoring and tracking apparatus and systems consisting thereof, in particular positioning systems; secure observation and reconnaissance apparatus and systems consisting thereof; helicopter monitoring apparatus and systems consisting thereof; aerial monitoring apparatus and systems consisting thereof, day/night monitoring apparatus and systems consisting thereof; high-precision optical apparatus; encoders or decoders, digital image and sound data transmitters; telemetry, remote control, radio altimetry and proximity and approach apparatus and instruments for use in the field of aviation and space travel and in instruments for aviation and space travel, detection apparatus and instruments, radar, antenna, sensor and computer security systems; recording apparatus and positioning apparatus, recording instruments and positioning instruments; radars; lidars; electrooptical sensors; computer security systems; radar, antenna and satellite transmitters and receivers, converters and transponders; electric and electronic tracking, discovery, detection, monitoring, geopositioning and geolocation apparatus; electric and electronic apparatus and equipment for radiolocation and radio navigation; airborne ground monitoring and reconnaissance apparatus based on radar images and systems consisting thereof; sensors for unmanned aircraft; instruments for navigation by sea, land, air and in space; guidance and navigation apparatus and systems consisting thereof, stationary or portable computers, electronic and telecommunications apparatus and equipment, included in class 9, computer servers, servers and apparatus for data

storage, computer workstations, modems; data memories; screens; wireless and satellite-based hardware and software for onboard data networks; multi-platform interfaces, including hardware and software therefor; data storage media and user terminals for position determination, mapping information and course guidance for land vehicles, aircraft, marine vehicles or submarine vehicles; processing apparatus and systems consisting thereof for geographical data, in particular satellite systems, Global Positioning System (GPS); apparatus and equipment for the acquisition, compression, transmission, analysis and recovery of satellite images and aerial photographs; image transmission apparatus based on a digital radio link and systems consisting thereof; optical parts and components; spatial-optical apparatus, equipment and instruments; optical apparatus, equipment and instruments for aerial reconnaissance vehicles; course guidance, radio remote control and autopilot controller equipment and apparatus; hardware and software (recorded programs) for position determination, monitoring and surveillance in specific geographical areas; monitoring and control hardware and software (recorded programs), position determination, monitoring and surveillance apparatus and systems consisting thereof in specific geographical areas, media for data storage and user terminals (computer terminals) for position determination, navigation, navigation databases, radar or satellite navigation, radio navigation and for the following applications: mapping information, safety and emergency equipment, instruments and apparatus, research (other than for medical use) and life-saving equipment, instruments and apparatus; media for data storage and user terminals for position determination, mapping information, course guidance for land vehicles and aircraft; electric or electronic instruments and apparatus for receiving, processing and/or transmission of navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for testing, analysis and performance monitoring of navigation data and navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; computer software (recorded programs) for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; satellite positioning and satellite navigation apparatus and equipment consisting thereof; telecommunications and radio communications apparatus, hardware and software for telecommunications and radio communications networks, hardware and software for digital telecommunications networks; communications and radio communications networks via wires, cables, fibre optic technology, radio or satellite; call centre servers, multiplexers and demultiplexers, electric and electronic apparatus and instruments for the control and management of networks; receivers (telecommunications), electronic and radioelectric signal transmission apparatus; satellites for scientific use and satellites for receiving and transmission of radioelectric signals; computer terminals, communications terminals, stationary or

portable computer terminals or communications terminals; apparatus for communications, transmission and receiving of data, speech, and image and multimedia data; network apparatus, in particular protocol converters and systems consisting thereof for gateways; basic equipment for and access interfaces to Internet protocol (IP) networks; devices and equipment and apparatus consisting thereof for the transmission of messages, information, data, and sound and images over the airways, and via cables, fibre optic technology, telephones, satellites, terminals, telecommunications networks and computer networks; telecommunications and desktop automation terminals for military applications; telephone apparatus, mobile telephones, cordless telephones, radio paging apparatus and equipment, facsimile machines, PDAs (personal digital assistants), mobile apparatus for Internet access, replacement parts for the aforesaid goods, enabling communications and conducting of secure transactions and online trading; software programs in a computer-usable format, being provided on magnetic or optical storage media or as a downloadable format and being usable with the aforesaid goods; software programs for secure communications, enabling the authentication, checking, recording and analysis of business relationships/transactions by means of a system of controlled access rights and notifications, apparatus for satellite telecommunications and satellite telecommunications stations consisting thereof, in particular in aircraft; software, software (recorded programs) for communications and radio communications networks for data transmission by means of wires, cables, fibre optic technology, radio or satellite; software, software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images and data; apparatus and software (recorded programs) for securing access to computer and Internet Protocol (IP) networks; software (recorded programs) for encryption and decryption; software (recorded programs) for encoding and decoding; software (recorded programs) for the architecture, management and securing of access to computer networks and Internet Protocol (IP) networks; simulation, modelling, testing and experiment software; servers for modelling simulations of and for tests and experiments relating to civil and military operations; software (recorded programs) for computers for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation data in relation to navigation or cartography; software for the planning, acquisition, processing and dissemination of reconnaissance information and data (intelligence information), solely in the fields of reconnaissance and geography for defence and security purposes, all of the aforesaid goods for digital radio networks; software for digital radio networks, enabling user access to voice services and data, including group communications in relay mode, individual conversations, short messages, and data localisation and transmission, all of the aforesaid goods for digital radio networks; software (recorded programs) for the providing of access to an electronic messaging service; software for transaction

security for intranet and Internet data terminals, control stations and terminals for the display of information in graphics and text format; secure data processing apparatus, secure telecommunications apparatus and equipment consisting thereof; handheld electronic devices for wireless receiving and/or transmission of secure data (in particular for messages) and electric and electronic apparatus and equipment enabling users to store or manage personal information; software for forwarding secure messages, Internet e-mails and/or other data to one or more handheld electronic devices from a database stored on a PC or a server or belonging thereto; software for the synchronisation of secure data between a remote station/apparatus and a fixed station/apparatus or a remote station/apparatus; electric and electronic apparatus and instruments, in particular computers and processors (CPUs) for data and computer software (recorded programs) for the development, optimisation and performance analysis of methods and algorithms, and processors (CPUs) and software modules for the processing and/or generation of navigation signals and/or navigation or cartography data; electric and/or electronic apparatus, electric and/or electronic instruments and apparatus for displaying reports, analyses and measurement results, in particular in the form of graphics, charts and diagrams resulting from the performance analysis and monitoring of navigation signals and/or data; electric and electronic apparatus and instruments for the examination and identification of segments of space in two or three dimensions; computer software (recorded programs) for the examination and identification of segments of space in two or three dimensions; apparatus for monitoring flight parameters, in particular navigation and control software (recorded programs) for helicopters, rotary-wing aircraft and drones, communications apparatus and systems consisting thereof and communications antenna for aircraft; recording apparatus and systems consisting thereof for apparatus for locomotion and propulsion by land, air or water; automatic flight control apparatus and systems consisting thereof; testing apparatus (real-time systems) for conducting tests on electronic samples and parts, in particular data input, recording, processing and display equipment and apparatus, data buses, data transmission apparatus and systems consisting thereof, analogue-digital and digital-analogue converters, program prototypes, simulators for the simulation of mechanical, electric and electronic functional processes, linking and chaining modules, data analysis apparatus, and changeover, panel and selector switches and coordinator switches, interface apparatus or programs, in particular analogue, digital and discrete data bus interface apparatus or programs; control apparatus for testing apparatus and searchable programs for the aforesaid control equipment recorded on data carriers; searchable test programs recorded on data carriers; instruments, and computer hardware and software for the simulation of electronic samples and mechanical, electric and electronic functional processes; electric and electronic display apparatus for the preparation and conducting of tests on electronic samples and processing of the test results; software, in particular database software for the management of tests on electronic samples for

monitoring the configuration and definition of the test system; computer hardware and software for generating test documents; computer hardware and software for linking test installations via telecommunications equipment and/or via the Internet and/or via local networks; instruments and installations consisting thereof for the testing of vehicles and apparatus for locomotion and propulsion by land, air and water; sensors and communications apparatus and equipment; sighting telescopes for firearms; telescopes, binoculars, extendable telescopes and binoculars; protective eyewear, in particular eyewear for protection against lasers; distance measuring apparatus, in particular laser distance measuring apparatus, digital magnetic compasses; cameras, in particular reconnaissance cameras, exploratory cameras; equipment for aerial photography; aerial imaging apparatus and aerial cameras; periscope systems; stabilised sensor platforms; night-vision apparatus, residual light amplifiers; laser target illuminators; software for assessing, monitoring and control of data security within an information technology network; industrial geoproduction systems comprising a digital processing chain for producing satellite images, satellite data, aerial photographs, aerial image data, terrestrial data and terrestrial images in 3D (three dimensions); mechanisms for coin-operated apparatus; antenna installations, antenna systems; tape recorders; magnetic tape units for computers; magnetic tapes; videotapes; cinematographic cameras; camcorders; compact discs (audio, video); optical compact discs; magnetic disk storage; optical discs; recording discs; optical data media; magnetic data media; radio apparatus (telecommunications); software, solely for the field of satellite imaging and satellite data; apparatus and equipment for the processing of data, in particular via satellites; apparatus and equipment for the simulation of infrastructure development; apparatus and equipment for producing and updating development plans and development charts and for observing plots of agricultural land and optimising crop yield trends and monitoring thereof; compact disc players; optical document readers; character readers; readers; computer software (recorded programs); games software; computer programs (downloadable software); software and software packages for the processing and analysis of photographs, in particular aerial photographs, satellite images or terrestrial images; apparatus and equipment for the processing of data, in particular satellite data; software packages for stereographic reproduction, for generating and preparing digital terrain models, for 3D modelling, ortho, orthophotos and thematic maps; computer files and software packages with geographical, geological, cartographical and topographical data; computer files and software packages comprising reproductions of terrain and digital maps; equipment and apparatus for databases and for accessing databases; computer software for stereographic projections, digital terrain models, orthoimages and thematic maps; computer files and software for geography, geology and topography; computer files and software for ground imaging and digital maps; satellite navigation equipment; satellites for scientific purposes, in particular Earth observation satellites; apparatus and equipment for the processing, analysis, reproduction and storage of images,

aerial photographs and satellite photographs; computer hardware; database equipment; database access equipment; database management software, in particular for stereographic reproduction, for the storage, preparation, processing and analysis of drawings, images, photos, diagrams, charts, aerial photographs, satellite photographs, surface models and terrain models; data carriers for computer software, computer files, software packages, all containing or being for stereographic reproduction, for the storage, preparation, processing and analysis of surface models and terrain models, images and photos; data processing apparatus and data processing equipment, in particular for satellite data; carriers for dark plates (photography); mirrors (optics); satellite navigation systems; satellites for scientific purposes, in particular Earth observation satellites and radar satellites; remote control apparatus and remote control equipment; airborne sensors; transmitters (telecommunication); apparatus and equipment for the processing, analysis, reproduction and storage of satellite images; electric and electronic apparatus and equipment for generating digital contour line models; databases of digital contour line models; computers and computer software for industry, namely the fire brigade and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; scientific satellites and satellites for receiving and transmission of radio signals; USB flash drives; adapters, chargers; telephone adapters; USB hardware; computer mice; headphones; laser pointers; headsets apparatus for glunt-range transmission of digital voice and data that supports point-to-point and multiple applications (wireless headsets for use with mobile telephones); decorative magnets; cases, sheaths and sleeves for touch pads; cases, sheaths and sleeves for telephones, in particular for mobile telephones; sunglasses; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, all of the aforesaid goods for use in the field of helicopters and rotorcraft; apparatus, equipment and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, all of the aforesaid goods for use in the field of helicopters and rotorcraft; apparatus for recording, transmission or reproduction of sound, images or data, all of the aforesaid goods for use in the field of helicopters and rotorcraft; flight control apparatus and flight control equipment for guiding and controlling helicopters and rotorcraft; electronic controllers for guiding and controlling helicopters and rotorcraft; flight regulating systems and flight control systems with fly-by-wire control for helicopters and rotorcraft; fibre optic flight regulating systems and flight control systems for helicopters and rotorcraft; flight regulating systems and flight control systems for guiding, controlling and self-navigation of helicopters and rotorcraft, comprising flight control apparatus and flight control equipment, electric wire cables or fibre optic cables, sensors for

collecting flight data, calculating machines, data processing installations, data processing apparatus and computers, flight data software; glass cockpits for helicopters and rotorcraft, namely cockpits comprising apparatus and equipment for flight control and flight regulation and a dashboard with flight instruments, comprising screens for visual display (LCD/LED panels) controlled by flight management systems (computer hardware and computer software) displaying adjustable information for guiding and navigation of helicopters and rotorcraft, for testing and monitoring flight parameters, for testing and monitoring components, parts and onboard equipment for helicopters and rotorcraft; head-up displays (visual field displays) for use in helicopters and rotorcraft, namely transparent electronic display apparatus and screens for providing navigation data, operational data and use data for pilots and co-pilots; flight communication and control instruments and apparatus for providing information regarding the flight situation of the helicopter or rotorcraft for pilots; autopilot controllers for use in helicopters and rotorcraft; apparatus and equipment for testing the flight parameters of helicopters and rotorcraft; navigation apparatus, navigation equipment and navigation instruments for helicopters and rotorcraft; communications equipment and communications apparatus for helicopters and rotorcraft; avionics equipment and avionics apparatus, in particular regulating systems, control systems, observation systems, monitoring systems, communications systems, navigation systems, systems for weather and anti-collision systems for helicopters and rotorcraft; display apparatus and measuring instruments for use in helicopters and rotorcraft; digital displays and digital display apparatus for use in helicopters and rotorcraft; accelerometers, altimeters, radar altimeters, ammeters, anemometers, barometers, flowmeters, frequency meters, manometers, tachometers (revolution counters), thermometers, torquemeters, speedometers, vibration meters, vibration gauges, voltmeters, telemeters, range finders, pressure indicators, fuel gauges, all being for use in helicopters and rotorcraft; oil pressure gauges and oil pressure indicators, oil temperature gauges and oil temperature indicators, fuel pressure gauges and fuel pressure indicators, fuel temperature gauges and fuel temperature indicators, height indicators, position indicators (artificial horizon), airspeed indicators, course deviation indicators, first limit indicators (FLI), directional indicators, horizontal situation indicators (HSI), radio-magnetic indicators (RMI), turn indicators and vertical speed indicators (variometers), all being for use in helicopters and rotorcraft; inertial navigation systems (inertial measurement units) for use in helicopters and rotorcraft; gyroscopes, rate gyroscopes, laser gyroscopes (gyrolasers) for use in helicopters and rotorcraft; compasses, gyrocompasses, magnetic compasses and radio compasses (automatic direction finders) for use in helicopters and rotorcraft; Very High Frequency (VHF) Omni Directional Radio Range (VOR) receivers for use in helicopters and rotorcraft; global positioning systems (GPS) for use in helicopters and rotorcraft; ground-proximity warning systems (GPWS), enhanced ground-proximity warning systems (EGPWS) and terrain awareness and

warning systems (TAWS) for use in helicopters and rotorcraft; sensors for use in helicopters and rotorcraft, in particular acceleration measurement sensors, air temperature sensors, alarm sensors, distance sensors, electric sensors, electrooptical sensors, electronic sensors, electronic measurement sensors, fire sensors, fluid level sensors, frost sensors, gas sensors, heat sensors, moisture sensors, crash sensors, impact sensors, infrared sensors, level sensors, load sensors, light sensors, magnetic sensors, movement sensors, noise sensors, optical sensors, piezoelectric sensors, position switches, position transmitters and position sensors, pressure sensors, approach sensors and proximity sensors, smoke sensors, speed sensors, temperature sensors, torque sensors, vibration sensors, sensors for tracking actual and projected disturbances; detectors for use in helicopters and rotorcraft, in particular carbon dioxide detectors, carbon monoxide detectors, fire detectors, heat detectors, leak detectors, immersion detectors, movement detectors, particle detectors, approach detectors, proximity detectors and proximity switches, radar detectors, rotor speed detectors, vibration detectors; transducers for use in helicopters and rotorcraft comprising, in particular, resonant transducers, magnetostrictive transducers, piezoelectric transducers, electrostatic transducers, transducers with variable resistance (variable-resistance transducers), electrooptical transducers, electroacoustic transducers, power transducers, high-frequency transducers, linear transducers, measurement transducers, pressure transducers, torque transducers, ultrasound transducers; power supply units for helicopters and rotorcraft; electric accumulators for helicopters and rotorcraft; electric valves (thermionic), solenoid valves, magnetic valves for use in helicopters and rotorcraft; electric regulators and supply voltage regulators for helicopters and rotorcraft; commutators, collectors and rectifiers for use in helicopters and rotorcraft; electric inverters for use in helicopters and rotorcraft; electric switches for use in helicopters and rotorcraft; pressure switches for use in helicopters and rotorcraft; electric actuators for use in helicopters and rotorcraft; fuel supply regulators, fuel flow regulators and fuel quantity regulators for use in helicopters and rotorcraft; timers (time recording instruments and time recording apparatus) for use in helicopters and rotorcraft; calculating machines, in particular pocket calculators, first limit calculating machines, in particular first limit pocket calculators, obstacle avoidance calculating machines, in particular obstacle avoidance pocket calculators, navigation calculating machines, in particular navigation pocket calculators, all being for use in the field of helicopters and rotorcraft; calculating machines, in particular pocket calculators for assessing the technical condition and technical state, damage to and use and operating time of helicopters and rotorcraft; data processing apparatus and data processing equipment, data processors, computers, computer hardware and computer peripheral apparatus, all being for use in the field of helicopters and rotorcraft; circuit boards and printed circuits for use in helicopters and rotorcraft; couplers and connecting lines (data processing apparatus) for helicopters and rotorcraft;

onboard computers for helicopters and rotorcraft; air data computers for use in helicopters and rotorcraft; symbol generators (display processing computers) for use in helicopters and rotorcraft; computer monitors, screens for optical and visual display, flat panel display screens, touch screens and multi-functional LED screens and multi-functional LCD screens, all being for use in the field of helicopters and rotorcraft; instruments and apparatus for airborne data acquisition for use in helicopters and rotorcraft; flight data recorders for use in helicopters and rotorcraft; digital voice recorders for use in helicopters and rotorcraft; decoders, encoders, signal scramblers and descramblers, electronic encryption and decryption apparatus, all being for use in the field of helicopters and rotorcraft; telecommunications apparatus and telecommunications equipment for use in the field of helicopters and rotorcraft; transponders for use in the field of helicopters and rotorcraft; transmitters for use in the field of helicopters and rotorcraft; transceivers for use in the field of helicopters and rotorcraft; radio transmitters, radio receivers and radio signal tuners for use in the field of helicopters and rotorcraft; antennas, antenna installations and antenna systems and satellite dishes, modems, telephone apparatus and telephone receivers for use in the field of helicopters and rotorcraft; amplifiers for use in the field of helicopters and rotorcraft; headphones, microphones, loudspeakers for use in the field of helicopters and rotorcraft; cameras, camcorders and infrared cameras for use in helicopters and rotorcraft; electronic card readers for use in the field of helicopters and rotorcraft; radars and radar systems for use in the field of helicopters and rotorcraft; alarm installations, alarms and alarm equipment for use in helicopters and rotorcraft; emergency locator transmitters for helicopters and rotorcraft; computer software for use in the field of aircraft, helicopters and rotorcraft; computer software for flight control of aircraft, helicopters and rotorcraft; computer software for navigation assistance and flight guidance assistance for aircraft, helicopters and rotorcraft; computer software for managing and recording flight data for aircraft, helicopters and rotorcraft; computer software for the design, production, manufacture, testing, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; equipment, apparatus, parts, components and fittings for aircraft, helicopters and rotorcraft; data acquisition software and data processing software for the design, production, manufacture, control, flying, guidance, navigation, monitoring, security, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the regulating of parameters for apparatus used for the design, production, manufacture, control, guidance, flying, navigation, surveying, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the search and remediation (troubleshooting) of faults and malfunctions, damage, mechanical faults and defects and the exchange and replacement of expired and worn parts of aircraft, helicopters and rotorcraft; computer software for displaying malfunctions, faults, failures, breakdowns and abnormalities in

aircraft, helicopters and rotorcraft and for suggesting countermeasures for rectifying the aforesaid events; computer software for digital cartography for use in the field of aircraft, helicopters and rotorcraft; computer software for the preparation and creation of flight plans for aircraft, helicopters and rotorcraft; computer software for mission planning for aircraft, helicopters and rotorcraft; computer software for the presentation of flight reports for aircraft, helicopters and rotorcraft; computer software for tracking and locating aircraft, helicopters and rotorcraft; computer software for the identification and authentication of individuals for use in the field of aircraft, helicopters and rotorcraft; computer software for encoding, decoding, encryption, decryption of data for use in the field of aircraft, helicopters and rotorcraft; artificial vision systems and enhanced vision systems, namely computer hardware systems and computer software systems for displaying a realistic three-dimensional representation of the external world and for adding real-time information recorded by sensors installed on helicopters and rotorcraft, to support aircraft, helicopters and rotorcraft during flight and navigation through the enhancement of the situational perception and situation-dependent awareness of the pilot; day/night-vision goggles, residual light amplification goggles for use in helicopters and rotorcraft; maintenance and servicing equipment (maintenance kits) for helicopters and rotorcraft predominantly comprising computer hardware and computer software, sensors, cables and wires, for measuring and analysing vibrations in the main and tail rotors, transmission shafts and other dynamic components and assemblies and providing of computerised tuning (setting) of flight parameters; testing installations and testing stands for aircraft, helicopters and rotorcraft; testing means for aircraft, helicopters and rotorcraft, electronic equipment and apparatus for helicopters and rotorcraft and flight simulators for helicopters and rotorcraft; flight simulators for aircraft, helicopters and rotorcraft; flight simulation software for aircraft, helicopters and rotorcraft; flight manuals (handbooks) and maintenance and servicing manuals (handbooks) for aircraft, helicopters and rotorcraft in electronic format, being recorded on computer-readable media or being downloadable; electronic publications with regard to aircraft, helicopters and rotorcraft, being recorded on computer-readable media or being downloadable; software for video games; fire extinguishers for use in helicopters and rotorcraft; electric sockets; screens; online management software for the contents of documents relating to aircraft; online adaptation software of documents relating to aircraft; software for scheduled and unscheduled maintenance and servicing of aircraft; software for the management of aircraft repairs; software for flight analysis and aircraft security; software for the maintenance and servicing of aircraft; software in relation to aircraft pilots and flight personnel; flight performance software.
