[511] 貨品／服務說明： Class 7:

Specification:

Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand operated; incubators for eggs; hand-held tools, other than hand-operated; electric hand-held tools; alternators; generators; centrifugal machines, centrifuges (machines); mixing machines; mills (machines); separators; rotors, belt-pulleys belonging to this class; machines for processing and treatment of thermoplastic materials, thermoset materials and duroplasts for manufacturing semi finished products; tools for injection moulding of thermosets and thermoplasts, belonging to this class; pipes and tubes and flexible pipes (parts of machines); parts and fittings of all the aforementioned goods belonging to this class.

Class 9:

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; electric apparatus and instruments; electronic and electric apparatus belonging to this class; electric and electronic elements and components; commutators; electric apparatus for commutation; alarms; electric accumulators; electromagnetic coils; transformers (electricity); electric switches; switchboxes (electricity); switchboards; low-voltage switch apparatus; switch blocks; electric switching equipment for explosively endangered environments; electric and electronic control panels; inductors (electricity); capacitors, condensers

(capacitors); connectors (electricity); control panels (electricity); electric converters; printed circuits; ferrite cores; ferrite elements; electric coils; sensors belonging to this class; steering devices, control apparatus; coils for elimination of electromagnetic disturbances; electric installations for the remote control of industrial operations; electro-dynamic apparatus for the remote control of signals; electro-dynamic apparatus for the remote control of railway points; automatic steering apparatus for vehicles; remote control apparatus; apparatus for industrial automation; electric monitoring apparatus; counterfeit (false) coin detectors, false coin detectors; electric and electronic apparatus and instruments for the control of motors and engines; control units belonging to this class; precision measuring apparatus; measuring apparatus; electric measuring devices; measuring instruments; counters, meters; electric and electronic measuring apparatus; processors (central processing units); computer peripheral devices; computer programs (downloadable software); computer programmes, recorded; computer software, recorded; scanners (data processing equipment); interfaces for computers; magnetic data media; process control software; industrial computers; industrial monitors; recorded computer or microcontroller programs and recorded programs for integrated logic circuits and for transfer of data or video signals; electronic panels, including omnidirectional electronic panels; omnidirectional display (electric and electronic device); apparatus for the correction of images and films; audiovisual teaching apparatus; electronic notice boards; holograms; projection apparatus; stereoscopes; light-emitting electronic pointers; video screens, electric and electronic screens and displays of all kinds; electric apparatus with screens rotating around their axis with the aid of a motor for displaying images radially around themselves; electric or electronic apparatus using technology for simultaneously displaying images at 360° around themselves, especially omnidirectional displays; apparatus and instruments for deforming, transmitting or processing video signals or digital recordings of images; plastomagnetic materials, nanomagnetic materials based on metals and magnetic materials; nanomaterials belonging to this class; parts and fittings of all the aforementioned goods belonging to this class.

Class 11:

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; ventilation (air-conditioning) installations and apparatus; air conditioning apparatus; air conditioners for vehicles; furnaces, hearths; kilns; sanitary apparatus and installations; air curtains; suction, purification, ventilation and air-conditioning elements belonging to this class; feed pipes and drain pipes for washing machines; conduit pipes and drain pipes and fittings for WC flushing cisterns; WC flushing cisterns; plastic waste traps for sinks and sanitary facilities; parts and fittings of all the aforementioned goods belonging to this class.

Class 12:

Vehicles, apparatus for locomotion by land, air or water; parts of

vehicles, cars, locomotives, fork lift trucks belonging to this class; head-rests for vehicle seats; rotors, belt-pulleys belonging to this class; pedals belonging to this class; transport wheels (parts of vehicles and other apparatus for locomotion by land); wheelbarrows; parts and fittings of all the aforementioned goods belonging to this class.

Class 40:

Treatment of materials; metal treating; processing of thermoplasts and thermosets; tool manufacturing; printing; laser printing.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; architecture; graphic arts designing; industrial design; design of interior decor; urban planning; architectural consultation; engineering; construction drafting; quality control; surveying; material testing; technical project studies; technical supervision; planning of activities related to anti-explosion protection; construction and technological engineering; technological engineering for industry and energetics, buildings and communal infrastructure; air-conditioning design services; designing commercial and industrial buildings; services related to preparation of documents for construction of buildings, belonging to this class; services related to preparation of documents for projects, belonging to this class; research and development for others; mechanical research; research in the field of environmental protection; technical research; development of new production programs; design of technologically advanced and higher-quality products; development and improvement of production technologies and development of new technologies; development and improvement of production technologies with the aim of reducing the use of energy and raw materials in the production process; design of machinery and electrical installations; research and services in the field of mechatronics; research, development and scientific and technological services in the fields of automation and informatization in industry and economy and in the fields of energy efficiency and environmental protection, filtration systems, transport systems, production lines, energy systems, separation, weighing and dosing of raw materials; development of the technology of injection moulding of thermoplasts and thermosets; technical feasibility studies; development of prototypes; industrialisation of prototypes (development); technological organisation of serial production; engineering services from the point of view of management of innovations; measuring services; supervision of heating, refrigerating and lighting systems; supervision and reduction of energy consumption; consultancy in the field of energy-saving; conversion of data or documents from physical to electronic media; duplication of computer programs; creating and maintaining web sites for others; rental of computer software; data conversion of computer programs and data (not physical conversion); recovery of computer data; updating of computer software; computer system design; computer systems analysis; computer programming; consultancy in the field of computer hardware; computer software

consultancy; installation of computer software; maintenance of computer software; integration and control of technology systems; development and design of tools by means of computer simulation; design of software for conducting processes; design of automation of waste sorting lines, conveyor belts, air conditioning; development of computer applications.
