

香港特別行政區政府知識產權署商標註冊處

Trade Marks Registry, Intellectual Property Department

The Government of the Hong Kong Special Administrative Region

接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

[511] 類別編號 : 37, 42
Class(es) No(s).:

[511] 貨品/服務說明 : Class 37:
Specification: Remote monitoring of operating status of AC motors (alternators) and DC motors including stepping motors and servo motors (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of AC motors (alternators) and DC motors including stepping motors and servo motors and relating to their monitoring results (including information via telecommunication lines); Inspection of AC motors (alternators) and DC motors including stepping motors and servo motors by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of AC motors (alternators) and DC motors including stepping motors and servo motors by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of AC electric generators (alternators) (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of AC electric generators (alternators) and relating to their monitoring results (including

information via telecommunication lines); Inspection of AC electric generators (alternators) by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of AC electric generators (alternators) by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of DC electric generators (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of DC electric generators and relating to their monitoring results (including information via telecommunication lines); Inspection of DC electric generators by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of DC electric generators by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of power conditioners for solar electric power system (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of power conditioners for solar electric power system and relating to their monitoring results (including information via telecommunication lines); Inspection of power conditioners for solar electric power system by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of power conditioners for solar electric power system by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of power conditioners (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of power conditioners and relating to their monitoring results (including information via telecommunication lines); Inspection of power conditioners by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of power conditioners by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electric controllers for electric motor (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electric controllers for electric motor and relating to their monitoring results (including information via telecommunication lines); Inspection of electric controllers for electric motor by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electric controllers for electric motor by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of uninterruptible power supply systems (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of uninterruptible power supply systems and relating to their monitoring results (including information via telecommunication lines); Inspection of uninterruptible power

supply systems by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of uninterruptible power supply systems by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of power supply systems (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of power supply systems and relating to their monitoring results (including information via telecommunication lines); Inspection of power supply systems by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of power supply systems by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electric inverters for solar electric power (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electric inverters for solar electric power and relating to their monitoring results (including information via telecommunication lines); Inspection of electric inverters for solar electric power by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electric inverters for solar electric power by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electric inverters (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electric inverters and relating to their monitoring results (including information via telecommunication lines); Inspection of electric inverters by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electric inverters by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electric converters (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electric converters and relating to their monitoring results (including information via telecommunication lines); Inspection of electric converters by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electric converters by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electric controllers for networks, transporters, machine tools and measuring apparatus (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electric controllers for networks, transporters, machine tools and measuring apparatus and relating to their monitoring results (including information via telecommunication lines); Inspection of electric controllers for networks, transporters, machine tools and measuring apparatus by

means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electric controllers for networks, transporters, machine tools and measuring apparatus by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of control machines and apparatus for power supply system (including monitoring via telecommunication lines); Providing information relating to remote monitoring (including monitoring via telecommunication lines) of operating status of control machines and apparatus for power supply system and relating to their monitoring results (including information via telecommunication lines); Inspection of control machines and apparatus for power supply system by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of control machines and apparatus for power supply system by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of power distribution or control machines and apparatus (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of power distribution or control machines and apparatus and relating to their monitoring results (including information via telecommunication lines); Inspection of power distribution or control machines and apparatus by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of power distribution or control machines and apparatus by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electric rotary converters (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electric rotary converters and relating to their monitoring results (including information via telecommunication lines); Inspection of electric rotary converters by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electric rotary converters by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electric phase modifiers (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electric phase modifiers and relating to their monitoring results (including information via telecommunication lines); Inspection of electric phase modifiers by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electric phase modifiers by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of tap equipments with power supply control systems (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating

status of tap equipments with power supply control systems and relating to their monitoring results (including information via telecommunication lines); Inspection of tap equipments with power supply control systems by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of tap equipments with power supply control systems by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of telecommunication machines and apparatus (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of telecommunication machines and apparatus and relating to their monitoring results (including information via telecommunication lines); Inspection of telecommunication machines and apparatus by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of telecommunication machines and apparatus by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of industrial computers (including monitoring via telecommunication lines); Providing information relating to remote monitoring of industrial computers for electric motor and relating to their monitoring results (including information via telecommunication lines); Inspection of industrial computers by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of industrial computers by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electronic machines, apparatus and their parts (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electronic machines, apparatus and their parts and relating to their monitoring results (including information via telecommunication lines); Inspection of electronic machines, apparatus and their parts by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electronic machines, apparatus and their parts by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of vehicles with power supply systems driven by diesel engine (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of vehicles with power supply systems driven by diesel engine and relating to their monitoring results (including information via telecommunication lines); Inspection of vehicles with power supply systems driven by diesel engine by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of vehicles with power supply systems driven by diesel engine by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of vehicles with

power supply system (including monitoring via telecommunication lines); Providing information relating to remote monitoring of vehicles with power supply system for electric motor and relating to their monitoring results (including information via telecommunication lines); Inspection of vehicles with power supply system by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of vehicles with power supply system by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); Remote monitoring of operating status of electric equipments in buildings (including monitoring via telecommunication lines); Providing information relating to remote monitoring of operating status of electric equipments in buildings and relating to their monitoring results (including information via telecommunication lines); Inspection of electric equipments in buildings by means of remote monitoring (including inspection via telecommunication lines); Providing information relating to inspection of electric equipments in buildings by means of remote monitoring and relating to their inspection results (including information via telecommunication lines); all the above services are repair or maintenance services; Operation, check or maintenance of building equipment (including these via telecommunication lines); Providing information relating to operation, check or maintenance of building equipment (including information via telecommunication lines); Installation of AC motors (alternators) and DC motors including stepping motors and servo motors; Installation of AC electric generators (alternators); Installation of DC electric generators; Installation of power conditioners for solar electric power system; Installation of power conditioners; Installation of electric controllers for electric motors; Installation of uninterruptible power supply systems; Installation of power supply systems; Installation of electric inverters for solar electric power; Installation of electric inverters; Installation of electric converters; Installation of electric controllers for networks, transporters, machine tools and measuring apparatus; Installation of electric control machines and apparatus for power supply systems; Installation of power distribution or control machines and apparatus; Installation of electric rotary converters; Installation of electric phase modifiers; Installation of tap equipment with power supply control systems; Installation of telecommunication machines and apparatus; Installation of industrial computers; Installation of electronic machines, apparatus and their parts; Machinery installation; Electrical works; Other construction works; Repair or maintenance of AC motors (alternators) and DC motors including stepping motors and servo motors; Repair or maintenance of AC electric generators (alternators); Repair or maintenance of DC electric generators; Repair or maintenance of power conditioners for solar electric power system; Repair or maintenance of power conditioners; Repair or maintenance of electric controllers for electric motors; Repair or maintenance of uninterruptible power supply systems; Repair or maintenance of power supply systems; Repair or maintenance of electric inverters for solar electric power; Repair or maintenance

of electric inverters; Repair or maintenance of electric converters; Repair or maintenance of electric controllers for networks, transporters, machine tools and measuring apparatus; Repair or maintenance of control machines and apparatus for power supply systems; Repair or maintenance of power distribution or control machines and apparatus; Repair or maintenance of electric rotary converters; Repair or maintenance of electric phase modifiers; Repair or maintenance of tap equipment with power supply control systems; Repair or maintenance of telecommunication machines and apparatus; Repair or maintenance of industrial computers; Repair or maintenance of electronic machines, apparatus and their parts; Repair or maintenance of vehicles with power supply systems driven by diesel engine; Repair or maintenance of vehicles with power supply systems; Repair or maintenance of other automobiles and their parts and accessories.

Class 42:

Remote monitoring of usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof (including monitoring via telecommunication lines); Providing information relating to remote monitoring of usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof, and relating to their monitoring results (including information via telecommunication lines); Providing information relating to usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof (including information via telecommunication lines); Testing, research, inspection, evaluation or analysis for usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof (including via telecommunication lines thereof); Providing information relating to testing, research, inspection, evaluation or analysis for usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof, and relating to their results (including information via telecommunication lines); Advisory and consultancy for usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof (including via telecommunication lines thereof); Providing information relating to advisory and consultancy for usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof (including information via telecommunication lines); Measuring of usage of electricity, gas and other energies and electricity generated by power-generating equipments (including measuring via telecommunication lines); Providing information relating to measuring results of usage of electricity, gas and

other energies and electricity generated by power-generating equipments (including information via telecommunication lines); Providing computer programs for monitoring usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof (including computer programs via telecommunication lines); Providing computer programs for monitoring and controlling operating status of generating systems, power supply systems, power distribution or control machines and apparatus, electric rotary converters, electric phase modifiers, telecommunication machines and apparatus, electronic machines and apparatus, and other machinery and apparatus for household and industrial purposes (including computer programs via telecommunication lines); Providing computer programs (including computer programs via telecommunication lines); Providing information relating to providing computer programs (including information via telecommunication lines); Remote monitoring of computer systems (including monitoring via telecommunication lines); Providing information relating to remote monitoring of computer systems and relating to their monitoring results (including information via telecommunication lines); Computer software design, computer programming, or maintenance of computer software used for monitoring of usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof, and relating to their monitoring results (including via telecommunication lines thereof); Computer software design, computer programming, or maintenance of computer software used for monitoring and controlling operating status of generating systems, power supply systems, power distribution or control machines and apparatus, electric rotary converters, electric phase modifiers, telecommunication machines and apparatus, electronic machines and apparatus, and other machinery and apparatus for household and industrial purposes (including these via telecommunication lines); Computer software design, computer programming, or maintenance of computer software (including these via telecommunication lines); Providing information relating to computer software design, computer programming, or maintenance of computer software (including information via telecommunication lines); Rental of storage areas on servers used for sharing, exchanging and managing information relating to usage, using status and energy efficiency of electricity, gas and other energies and electricity generated by power-generating equipments, generating status and generating efficiency thereof (including these via telecommunication lines); Rental of storage areas on website servers (including via telecommunication lines thereof); Providing information relating to rental of storage areas on website servers (including information via telecommunication lines); Designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; Providing information relating to designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; Designing; Providing

information relating to designing; Research on building construction or city planning; Providing information relating to research on building construction or city planning; Testing or research on prevention of pollution; Providing information relating to testing or research on prevention of pollution; Testing or research on electricity; Providing information relating to testing or research on electricity; Testing or research on civil engineering; Providing information relating to testing or research on civil engineering; Testing or research on machines, apparatus and instruments; Providing information relating to testing or research on machines, apparatus and instruments; Rental of computers; Providing information relating to rental of computers; Technical research; Providing information relating to technical research; Providing information relating to energy-saving; Testing, research, inspection, evaluation or analysis of energy-saving; Providing information relating to testing, research, inspection, evaluation or analysis of energy-saving; Advisory and consultancy in the field of energy-saving; Providing information relating to advisory and consultancy in the field of energy-saving; Providing information in the field of science technology.
