

香港特別行政區政府知識產權署商標註冊處
Trade Marks Registry, Intellectual Property Department
The Government of the Hong Kong Special Administrative Region

接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

Service:

409 Jardine House, 1 Connaught Place, Central, Hong Kong

[511] 類別編號： 9, 16, 35, 37, 38, 42

Class(es) No(s).:

[511] 貨品／服務說明： Class 9:

Specification:

adaptors, chargers, rechargeable batteries, printer cradles and cases, printer station; barcode readers and scanners, barcode printing machines, barcode reading machines; optical scanners, portable computer terminals, computer interface boards, personal digital assistants, hand held auto identification scanners, radio transceivers, wireless local area network hardware, and telephones; operating software and parts and fittings for all of the aforesaid goods; batteries, battery chargers, power supplies and housings for all of the aforesaid goods; card printing machines (printers); client/server-based communications system comprised of server software and client-device software to allow users and devices to communicate with each other over wired or wireless networks by real time push to talk style voice over IP (Internet Protocol), text messaging, handwritten messaging, picture messaging with integrated editing capabilities, voice messaging, broadcast voice messaging, and e-mail; computer and network management software and hardware for use with payment devices, secure identification and control devices; fixed and portable radio frequency identification devices

and readers; communication systems for providing wireless Internet connectivity, namely, a high speed transceiver, base station, antenna, mounting hardware and software for monitoring and operating the systems; computer and network management software and hardware all for use with the management and monitoring of personal digital assistants, vehicle mounted computers, and electronic personal organizers; computer and network management software and hardware for the management and monitoring of cellular phone devices, VoIP (Voice over Internet Protocol) communication devices used for mobile customer relationship management; computer and network management software and hardware for use with GPS-driven mapping and direction finding; computer and network management software and hardware for use with handheld computers, RFID (Radio-frequency identification) readers, speech-directed devices and speech recognition used for mobile ticketing, payment processing, personal identification collection and verification, dispatching and scheduling, equipment maintenance, break-fix and repair; computer and network management software and hardware for use with payment devices, secure identification and control devices; computer and network management software and hardware for use with transmitting, receiving, viewing, updating and managing data, inventory and material handling, storage and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, and general data collection; computer and network management software and hardware for the management and monitoring of mobile computers; computer application software for cellular or mobile phones; computer cables; computer equipment, scanners, printers, optical character recognition devices and other peripheral computer equipment for processing business forms; computer hardware; computer hardware and communications software for electronic file transfer, remote computer access, and remote network access, all in the fields of wide area and local area networks; computer hardware and data management software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer hardware and handheld computers for end-to-end mobile computing systems for businesses; computer hardware and software for use in establishing, maintaining and managing wide area and local area computer networks and computer network connections, namely, global computer network connections; computer hardware and computer software real-time location system for use in the field of determining the physical location of a variety of objects such as vehicles, inventory, containers, equipment or products, and personnel; computer hardware and software for identifying, locating or tracking assets, equipment or people; computer hardware and software for real-time location systems; computer hardware, namely, hand-held and portable computers; computer operating systems and portable radio receivers and transmitters; computer peripherals for mobile computing and mobile communication devices; computer programs and program manuals all sold as a unit for use in the fields of software development

tools, sales management systems, financial systems, agricultural systems, sales training, advertising systems, process control, job control, environmental monitoring, order logging, diagnostics, databasing activities, spreadsheet analysis, word processing, communication systems, repair and maintenance systems, presentation systems, quality control systems; computer programs, namely, software for designing printing and creating bar code labels, tags tickets, cards, or wristbands; computer programs for managing printer operation, maintenance or supplies replenishment; computer programs for operating printers; computer software and computer programs used for transmission, reproducing and receiving of sound, images, video and data over a telecommunications network or system between terminals and for enhancing and facilitating use and access to computer networks and telephone networks; computer software and manuals sold as a unit for the management and control of manufacturing, distribution center and warehouse inventory business operations; computer software for assessing and protecting wireless and wired computer networks, servers, applications and desktops against attack, intrusion and misuse; computer software for computer system an application development, deployment and management; downloadable software for printers; computer software for driving printers to print labels; computer software, namely, software for use in connection with supply chain management and execution; computer software for operating wireless local area networks and for managing input/output operations on handheld computers; computer software for protecting data/information stored on and/or transmitted across wireless and wired networks, servers, applications and desktops against attack, intrusion and misuse; computer software for recording, managing, retrieving and storing customer data, contact information, preferences and customer satisfaction information; computer software for the management and control of manufacturing, distribution center and warehouse inventory management operations; computer software for the management and monitoring of handheld computers; computer software in the field of database and information management; computer software offered as a feature of cellular or mobile phones to browse and access commonly used applications on the phone; computer software to create and process business forms; computer software, namely, communications protocol software for mobile computing and mobile communication devices; computer software that enables and provides two-way wireless voice, images, sound recordings, printed text and data communication connections and the wireless transfer of voice, images, sound recordings, printed text and data information; computer telephony software enabling telephone and communication activities to be performed through a network; computer telephony software for displaying and updating data received from the network; computer utility software for performing computer maintenance work; connector to connect printers and computers; disc drives; electrical connectors; electrical controllers and data processors; electronic user manuals sold therewith; fast communication links for data transfer; fixed and portable radio frequency identification devices and readers; hand held scanners that automatically identify the presence of bar codes

and radio frequency identification tags; handheld and integrated laser scanners; computer and network management software and hardware for the management and monitoring of rugged handheld personal computers; integrated voice and data enabled wide area wireless radio; linear and area imagers and digital cameras; magnetic card and smart card reading devices; memory devices; mobile and fixed computers and monitors for end-to-end mobile computing systems for businesses; mobile or handheld printers for labels and business forms; modem devices; near field communication (NFC) technology-enabled devices, namely, printers; pagers; portable and fixed radio frequency computer and network management software and hardware all for use with the management and monitoring of personal digital assistants, vehicle mounted computers and electronic personal organizers; portable and fixed radio frequency receivers and transmitters; portable and handheld computers for incorporating bar code and radio frequency identification tag scanners and operating software therefore; portable computers with auto identification functionality and operating software therefore; pressure and temperature sensors; printers, namely, mobile printers; printers, print engines and printer modules for testing RFID (Radio-frequency identification) transponders, reading and writing RFID (Radio-frequency identification) data, and creating encoded smart tags and labels by applying RFID (Radio-frequency identification) components; printer components, namely, printheads; thermal printers; radar and radar detectors; radio frequency identification printing and encoding machines; radio-frequency identification (RFID), smart tags and labels featuring embedded microchips, integrated circuits, antennas and transponders for recording, receiving, storing, encoding, updating and transmitting data; readers and tags for real-time location systems; radio transceivers and operating software therefore; computer interface boards, computer cables, electrical connectors, and computer peripherals therefore, all sold as a unit; computer software containing communications protocols for handheld mobile electronic devices; receivers and transmitters; smartphone applications and software to develop smartphone applications for printing labels, receipts, cards, tags and business forms; software for reading bar codes, bar code readers, bar code scanning devices for physical inventory control; software to design, configure, operate and trouble-shoot communications systems; software to design cards; software to design labels and configure label printers; software to manage and drive card printers; software for enabling a general-purpose computer to print and/or read bar codes; software to design, configure, operate and trouble-shoot real-time location system; software to program and manage network printers; telecopier machines; telemetry tag that transmits the location of objects such as vehicles, inventory, containers, equipment or products and personnel; two-way radios; ultra wideband (UWB) radar systems comprising radar; ultra wideband communications systems comprising ultra wideband (UWB) transmitters and receivers; ultra wideband signal generators; voice processing devices; digital dictation machines; digital answer telephone machines; wireless Ethernet bridges; wireless local area network hardware equipment,

namely, computer parallel and serial ports, access points for connecting network computer users and computer network switches, electronic controllers, electronic mini-controllers and antennas; wristband printers; computer software and hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment; computer software and hardware that allows viewing, analyzing, filtering and managing data from people, devices, machines and equipment; computer software and hardware that allows remote updating, managing and configuring devices, machines and equipment; computer software and hardware used to build logical workflow from data; computer software and hardware used to transfer information to devices wirelessly and manage wireless devices; downloadable software for tracking physical movement for use with motion-detecting sensors; portable computer terminals.

Class 16:

printer labels; barcode printer labels; business forms; Identification labels and bands processable through printers such as laser printers and used by healthcare professionals; label printing machines; paper laminate wristbands for use in the healthcare industry; printable paper stock, namely, blank or partially printed labels, printing machine ribbons; printed matter and printed publications, namely, brochures, instruction and user manuals, written presentations and training materials for computer software, hardware, real time location systems, and printers; printer supplies, namely blank or partially printed labels (not of textile) and computer printer ribbons; self-adhering labels made of paper and plastic film for use for patient identification and patient care in the health care industry; plastic cards, laminated cards, transfer film, tags, thermal paper (heat sensitive paper); receipt paper; self-adhesive labels; radio frequency identification (RFID) cards.

Class 35:

business consulting services in the field of computer-based printing, computer software and computer products, printers, data security, access control devices, membership cards, gift cards, financial cards and business forms; business consulting services to manufacturers or shipping terminal operators regarding productivity, efficiency, inventory control, operational procedures, and equipment purchases; business development services, namely, assistance in product commercialization for new technologies; business management consulting services and business consulting services; business services, providing business forms to dealerships, resellers and directly to customers; computerized database management services; consultation services related to providing business forms; distributorship services in the field of business forms; business information management services, namely, shipment processing, preparing shipping documents and invoices, business consulting services concerning tracking documents, packages and freight over computer networks, intranet, and internet; online retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software; physical inventory control services; pre-

recorded audio and audio visual works and related merchandise and demonstrations of products via the Internet and other computer and electronic communications networks; retail store services featuring mobile phones, bar code data capture systems, mobile computer and computer hardware and software for each of the foregoing, and including pre-recorded audio and audio visual works and related merchandise and demonstrations of products for the foregoing; pre-recorded audio and audio visual works and related merchandise via the Internet and other computer and electronic communications networks; conducting dealer incentive award programs to promote the sale of printers, printer labels, and supplies.

Class 37:

consultation relating to computer repair; installation, maintenance and repair of electronic equipment, namely, communications equipment and bar code data capture systems; label printer repair services; consultancy services in the nature of advising and assisting with installation, modification and maintenance of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data.

Class 38:

providing access to electronic databases and networks, allowing the user to send, receive and interact with audio, text, digital images, videos, electronic game applications, and social media over a network; providing access to network communications infrastructure to allow the user to receive location based coordinates; technical consulting in the field of data transmission and Radio Frequency Identification systems (RFID); wireless telecommunications services, namely, wireless data messaging services that allow a user to send and receive instant messages, electronic mail and data; wireless telephone services and electronic transmission of data and documents via communications networks and global computer networks; telecommunication access services, namely, providing access to, denying access to electronic databases and networks to affect power levels on wireless telecommunication devices.

Class 42:

basic and applied research in the fields of physics, chemistry, engineering, computer programming, information technology and telecommunications; computer programming and database design for others; computer services, namely, designing and implementing for others wireless local area networks, end-to-end mobile computing systems and computer hardware and software systems for capturing, moving, and managing images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer services, namely, providing an interactive site on a global computer network, accessible via computer, land-line and wireless communications devices; computer software design for others; computer software development in the field of mobile point-of-sale transactions; computer software interface design for others; consultation and design services relating to computers in the field of GPS-driven mapping and direction finding; consultation

and design services relating to computers in the field of mobile customer relationship management; consultation and design services relating to computers in the field of mobile ticketing, break-fix and repair; consultation and design services relating to computers used for transmitting, receiving, viewing, updating and managing data, inventory and material handling, store and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, payment processing, personal identification collection and verification, speech recognition, dispatching and scheduling, general data collection and equipment maintenance; consulting services in the field of design, selection, implementation and use of computer hardware and software systems concerning bar code data capture systems, mobile computing and mobile communication devices for others; consulting services in the field of design, selection, implementation, and use of computer hardware and software systems for others; custom design and development of computer hardware, computer software; design and development of digital telecommunications systems for public and private networks; installation of computer software; installation of computer software concerning bar code concerning code data capture systems, mobile computing and mobile communication devices; non-downloadable software services, namely, providing temporary use of non-downloadable software for real-time location system; printer service plans; providing technical information concerning the features and interoperability of the software of third party software providers concerning bar code data capture systems, mobile computing and mobile communication devices; providing temporary use of non-downloadable software for use in management and operation of manufacturing and shipping container depots, logistics centers, rail terminals, intermodal terminals or airports; research and development of new products for others in the field of telecommunications; service rendered by professionals for product support, namely, the provision of technical information and technical consultation in the area of computers and telecommunications; technical consultation services in the field of bar code data capture systems, mobile computer and mobile communication devices and computer software and hardware for each of the foregoing, including installation of computer software for bar code data capture systems, mobile computing and mobile communication devices; technical consulting and custom design of data transmission, reception and management systems, and material handling systems; technical consulting, design and integration services for Radio Frequency Identification systems (RFID); telecommunications network planning; up-dating of computer software for bar code data capture systems; Software as a service (SAAS) services, namely, hosting software that allows real-time exchange of information with and access to information from people, devices, machines and equipment and software applications that interact with that data; computer software development services and computer consulting services for businesses, including but not limited to remote management and/or hosting of computer applications for others; consultancy services for the design, selection, implementation, modification, maintenance and use of computer

software systems; technical advice related to the installation of computer software; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer diagnostic services; consultancy services in the nature of advising and assisting with the implementation, installation, configuration, modification and maintenance of computer software that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data, as well as advising and assisting with the implementation and configuration of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data; Providing a website featuring non-downloadable software for allowing users and software applications to interface with and manage people, devices, machines and equipment and to provide messaging, management and memory storage services; consulting with regard to computer systems, computer network connectivity, and software applications design and deployment; computer software services, namely, development, maintenance, repair, and installation of computer software, and troubleshooting of computer software problems; technical support services in the nature of diagnosing computer software problems; upgrade and updating of computer software; authoring, design and customization of computer software and middleware; providing information in the field of computer software and middleware; computer software consultation in the field of computer software and middleware; support services with regard to computer systems, computer network connectivity hardware and computer, namely, troubleshooting and diagnosing of problems; computer services, namely, providing remote management of remote devices via computer networks for others.

Applicant's Address for Service:
- [511] 類別編號 : 9, 35, 38, 41, 42
Class(es) No(s).:
- [511] 貨品/服務說明 : Class 9:
Scientific and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; data processing equipment; computers; computer software; educational software; curriculum software; teaching aids software; reference software; educational services platform software; evaluation software; multimedia machine; education equipment hardware; portable computers (electronic schoolbags); computer software for providing information on online courses, seminars, interactive classes, educational instruction; electronic publications, namely, magazines in the field of education that are downloadable; downloadable electronic educational materials, namely, text files and image files in the fields of education; computer software for downloading and uploading educational media, course content, assignments, modules, lectures, audio, video, and documents in electronic form; on-line electronic publications (downloadable from the Internet or a computer network or a computer database); computer programs, recorded; computer hardware; magnetic data carriers; CD-Roms; DVDs; voice mail system; automatic answering apparatus for communications apparatus; video conferencing apparatus; data processing equipment; downloadable software applications for mobile devices which provide information relating to courses, seminars and events in the field of education; downloadable electronic publications in the nature of e-books in the fields education in Class 9.
Class 35:
Online business information services; provision of business

information in relation to education resources; computerized database management; compilation and systemization of information into computer databases; promoting goods and services of others; providing online employment information and employment services, namely, employee lead generation for employers, recruitment of employees, job listings, and resumes; providing online employment counseling, career placement services, and personnel recruitment; providing online employment placement; providing online resume matching services; providing employee and student assessments and screenings, namely, providing a web site with online video, audio and textual interviewing applications to support recruiting, admissions and general candidate screening processes for recruitment purpose; providing online advertising; promotional sponsorship of academic and skills-building courses; all included in Class 35.

Class 38:

Interactive communication services for information transmission; provision of access to an interactive web site on a global computer network for third parties to post information, respond to requests and place and fulfill orders for products and services in relation to education resources; provision of communication and telecommunication facilities for interactive discussion and communication; provision of telecommunication access and links to a computer database and to the Internet; communication services, namely, providing electronic transmission of information by means of an on-line computer database and an interactive database; provision of on-line electronic bulletin and message boards; provision of on-line access to databases for exchanging data between computer in the field of education resources; telecommunication services relating to the provision of access to an online trading platform for specialists, educators, teachers, students, information technology companies, book publishers, consumers and end-users pertaining to education-related matters; providing online communications links which transfer web site users to other local and global web pages; provision of telecommunication access to online trading platform for the purchase and sale of a wide variety of teaching and learning materials; all included in Class 38.

Class 41:

Educational services, namely, providing online courses, seminars, interactive classes, and peer to peer instruction and grading in the field of primary, secondary, post-secondary and skills education; educational services, namely, providing educational testing, automated educational assessments, secure educational assessments, peer to peer instruction and grading, online education credit and degree evaluation; review of courses for examinations; providing information on overseas education and entrance requirements; providing educational information regarding course reviews, offerings and descriptions at the primary, secondary and post-secondary level; providing training of students for certification in academic and skills disciplines at the primary, secondary and post-secondary level; tutoring at the primary, secondary and post-secondary level; educational services, namely,

obtaining school transcripts on behalf of customers and providing the customer's transcripts to schools; provision of interactive information in the field of education resources online from the computer database on the Internet; provision of teaching and learning electronic materials information from an online searchable database; all included in Class 41.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer programming; updating of computer software; maintenance of computer software; computer system analysis; computer software consultancy; providing authoring and access tools for online content and talk, namely, electronic site authoring (web authoring); providing temporary use of online non-downloadable software for providing educational testing, instruction and grading; hosting of digital content on the internet; all included in class 42.

and archiving software; computer software for data deduplication; database management software; computer software used to read and evaluate content located on global computer networks, databases and/or networks; computer software for application and database integration; search software; computer search engine software; software for searching databases; computer software for creating searchable databases of information and data; computer data warehouse operation and automation software; data center operation and automation software; computer software for data transmission, storage, processing and reproduction; computer software for accessing, querying and analyzing information stored in databases and data warehouses; information and knowledge management software; business intelligence software; computer software that provides real-time, integrated business management intelligence by combining information from various databases; business and big data analytics software; computer software that automates the processing of unstructured, semi-structured and structured information and data stored on computer networks and the Internet; business process insight software; customer relationship management (CRM) software; enterprise resource and risk management software; project management software; records management software; e-commerce software; software development and deployment tools; software development tools for the creation of mobile Internet applications and client interfaces; application testing and delivery software; application and device lifecycle management software; software-defined infrastructure (SDS) software; computer software that provides web-based access to applications and services through a web operating system or portal interface; software to automate and manage utility industry services, operations and billing; software for managing software licenses.

Class 16:

Printed matter; instructional and teaching material (except apparatus); printed matter in the field of computers and information technology; brochures about technological developments, printed reference guides, technical bulletins, data sheets and printed product catalogs in the field of computers and information technology; product operating and service guides for computers and computer peripherals.

Class 35:

Advertising; business management; business administration; office functions; business management consulting services; business consulting services in the field of information technology (IT); business consultation services in the field of business process improvement and outsourcing; business consultation services in the field of enterprise architecture; IT outsourcing services and employment staffing for information technology projects; business process outsourcing; IT business strategic planning services; compilation and systemization of information into computer databases; database management services; online retail store services and ordering services featuring computer hardware, software and peripherals; consulting in the field of marketing optimization; business services, namely, assisting others in the negotiation and development of business partnerships and business

alliances; marketing and promotional program services in the field of information and computer technology; customer relationship management services; electronic commerce services, namely, providing information about products via telecommunication networks for advertising and sales purposes; taxonomy services, namely, classification and organization of data for records management purposes; providing a website featuring an online marketplace for sellers and buyers of computer and IT goods and services; business knowledge management services; business data analysis.

Class 36:

Insurance; financial affairs; monetary affairs; purchase financing and lease financing services; processing, management and administration of employee health and welfare benefit plans; providing credit card transaction processing services for others; providing insurance claim processing services for others; financial analysis and consultation services for the organization and administration of banking and financial operations; financial asset management; billing services.

Class 37:

Building construction; repair; installation services; installation, maintenance and repair of computers and computer, networking and telecommunications hardware.

Class 38:

Telecommunications; telecommunications services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; information transmission via electronic communications networks; providing secure real time electronic communication over a computer network; providing virtual private network services, namely, private and secure electronic communications over a private or public computer network; consulting in the field of communications and telecommunications; providing online chat rooms, bulletin boards and forums for transmission of messages among users in the fields of computers, software, information technology and general interest; streaming of audio and video material on the Internet; voice over Internet protocol (VOIP) services; file sharing services, namely, electronic transmission of data via global computer networks.

Class 41:

Education; providing of training; educational and training services, namely, conducting classes, workshops, seminars and conferences in the field of computers, software, electronic commerce and information technology; online journals, namely, blogs featuring information in the fields of computers, software, electronic commerce and information technology.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer services, software consulting services, cloud computing services and information technology consulting services; computer services; computer systems analysis, planning, integration and design; integration of computer systems and software; integration of

computer systems and networks; computer system administration for others; rental and leasing of computer hardware and computer peripherals; computer consulting services; advice on designing, selecting, and using computer hardware and systems; computer software consultancy; consulting services for others in the selection, implementation and use of computer software; consulting services in the field of software as a service; Internet consulting services; information technology (IT) consulting services; consulting in the field of IT and applications transformation, integration, modernization, migration, design, development, implementation, testing, optimization, operation and management; consulting in the field of cloud computing and big data; consulting in the field of cloud infrastructure; consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of Internet technology and services; consulting in the field of information security, governance and compliance; consulting in the field of computer and information security and IT risk management; consulting in the field of IT mobility and workplace services; consulting in the field of unified communications hardware and software; consulting with respect to the IT aspects of business processes; consulting in the field of IT solutions for customer relationship management, finance and administration, human resources, payroll and document processing; consulting in the field of application delivery management; consulting in the field of converged IT systems; consulting in fields of IT converged and hyper-converged IT infrastructure; technological consulting in the field of utility industry services, operations and billing; consulting in the field of environmental and energy efficiency; scientific and technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture; technical consulting services in the field of datacenter architecture; providing temporary use of online non-downloadable middleware for providing an interface between software applications and operating systems; providing temporary use of on-line non-downloadable cloud computing software for use in database management and electronic storage of data; computer hardware and software design and development; computer programming services; developing driver and operating system software; software application development, modernization and cloud integration; software installation, maintenance and update services; testing the operation and functionality of computers, networks and software; business technology software development and consultation services; computer programming services for others in the field of software configuration management; computer software development in the field of mobile applications; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; computer technical support services; service desk, help desk and troubleshooting services for IT infrastructure, computer hardware, computer software, computer peripherals and computer networks; technical support services, namely, troubleshooting of computer software problems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and

software problems; technical support services, namely, migration of datacenter, server and database applications; technical support services, namely, monitoring of computers, network systems, servers and web and database applications, and notification of related events and alerts; technical support services, namely remote real-time computer and network monitoring services; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration, and management of public and private cloud computing IT and application systems; information technology (IT) consultancy services; providing website hosting services, website development and customized online web pages for others; cloud computing services; cloud hosting provider services; hosting software applications for others; cloud hosting of electronic databases; web, cloud and computer infrastructure hosting services; providing servers of variable capacity to others; rental of computing and data storage facilities of variable capacity to third parties; infrastructure-as-a-service (IaaS) services, namely, providing computer hardware, computer software, computer peripherals to others on a subscription or pay-per-use basis; client virtualization services; integration of private and public cloud computing environments; remote and on-site management of information technology (IT) systems and software applications for others; cloud computing featuring software for use in database management; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases for others; management of data centers, IT security, cloud computing, workplace technology, computer networks, unified communications and enterprise IT services for others; database services; data center and data warehouse services; database development services; data mining services; data backup and data restoration services; data migration services; data encryption and decryption services; cloud computing featuring software for use in database management and data warehousing; electronic data storage; electronic storage of digital content, namely, images, text, video and audio data; software-as-a-service (SaaS) service; application service provider (ASP) services; platform-as-a-service (PaaS) services; infrastructure-as-a-service (IaaS) services; temporary use of non-downloadable software; temporary use of non-downloadable software for computer and network operation, management, automation, virtualization, configuration, provisioning, deployment, and control; temporary use of non-downloadable software for information technology (IT) management, IT infrastructure management, remote IT infrastructure management, IT asset management and inventory, IT process automation, IT device lifecycle management, IT security, IT reporting and forecasting, IT infrastructure fault and performance monitoring, and IT service desk and help desk functions; IT asset management services; temporary use of non-downloadable software for data protection, data security, and computer application and network security; temporary use of non-downloadable software for information security regulatory compliance; temporary use of non-downloadable software for monitoring computer network access and activity; temporary use

of non-downloadable software for data encryption and decryption, cryptography, computer user authentication, and information security compliance monitoring, reporting and analytics; temporary use of non-downloadable software for data backup, recovery, archiving and deduplication; temporary use of non-downloadable software for cloud infrastructure management and automation; temporary use of non-downloadable software for cloud, web and application performance monitoring; temporary use of non-downloadable software for database and database management, data warehouse operation and automation, data center operation and automation, application and database integration, data transmission, storage, processing and reproduction, and for accessing, querying and analyzing information stored in databases and data warehouses; temporary use of non-downloadable software for business intelligence, business process insight, data analytics, information management, knowledge management, customer relationship management, and enterprise resource and risk management; temporary use of non-downloadable software for storing, managing, tracking, and analyzing business data; temporary use of non-downloadable search engine software and software for project and records management; temporary use of non-downloadable software for software development, deployment, testing, delivery and application lifecycle management; temporary use of non-downloadable software for converged IT systems; temporary use of non-downloadable software-defined infrastructure (SDS) software; temporary use of non-downloadable software in fields of converged and hyper-converged IT infrastructure; Software as a Service services, namely, hosting cloud and datacenter infrastructure software for use by others for use in database management and application development; temporary use of non-downloadable software for automating and managing utility industry services, operations and billing; temporary use of non-downloadable software for managing software licenses.
