ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

(B) Robots with artificial intelligence; computer software for use in relation to science, information technology, tree search, cloud computing, analytics and data mining, augmented reality; computer programs for use in relation to science, information technology, tree search, cloud computing, analytics and data mining, , augmented reality; computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data; computer application software for use in implementing the Internet of things [IoT]; downloadable computer game programs; computer games programs downloaded via the Internet; parts, fittings and accessories for all the aforesaid.

Class 16:

(A) Printed matter; printed publications; books; magazines; periodicals; research papers; abstracts of the subject matter or content of printed matter, books, articles, and manuals relating to artificial intelligence, machine learning, deep learning, reinforcement learning, games of skill, computer game strategies; newsletters; brochures; manuals; catalogues; calendars; postcards; comics; printed material related to audio-video games, instructional manuals, computer game instruction manuals; computer game strategy articles, books, newsletters, research papers, publications; printed publications relating to computer software, computer programmes; strategy guide books for computer games. (B) Printed publications relating to science, information technology, artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, tree search, high performance computing, distributed computing, cloud computing, analytics and data mining, virtual reality, augmented reality, games of skill, computer game strategies.

Class 28:

(A) Toys, games, playthings; apparatus for games; video game apparatus; arcade video game machines; portable video games; amusement machines, automatic and coin-operated; games; electronic games; Go games; board games; computer game apparatus; handheld computer games; apparatus for games; electronic board games; skill games; games of strategy; electronic educational games; electronic learning games; electronic teaching games; electronic training games; parts, accessories and fittings for all the aforesaid goods.

(B) Toy robots; parts, accessories and fittings for all the aforesaid.

Class 41:

(A) Education; providing of training; entertainment; sporting and cultural activities; entertainment services in the form of video games; entertainment services in the form of on-line interactive computer games; arranging of games; organisation of games; organising of educational games; providing online games; providing online video games; providing of game information; internet games (non-downloadable); on-line computer games; providing online computer games; providing on-line interactive computer games; game services provided on-line from a computer network; online game services through mobile devices; game services provided on-line from a computer network or a mobile phone network; games equipment rental; providing a training (virtual) environment; information relating to electronic computer games; training in computer programming; providing on-line movies and films; providing on-line electronic publications, not downloadable; publication of computer games; publication of electronic articles, research papers, books, journals on-line, not downloadable; providing information to game players about the ranking of their scores of games through the websites; organization of sports competitions; computer education training; education and training services relating to computer games; education services relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; training services relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; entertainment services relating to artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; advice, consultancy and information services in relation to the aforesaid. (B) Providing a training environment; training services provided via simulators; information relating to electronic computer games via the Internet; providing information to game players about the ranking of their scores via websites; education relating to science, information technology, tree search, cloud computing, analytics and data mining, augmented reality; training relating to science, information technology, tree search, cloud computing, analytics and data mining, virtual reality, augmented reality; entertainment relating to science, information technology, tree search, cloud computing, analytics and data mining, augmented reality; advice, consultancy and information services in relation

to the aforesaid.

Class 42:

(A) Scientific and technological services and research and design relating thereto; industrial analysis and research services; research, design and development of computer hardware and software; information technology [IT] consultancy; providing information on computer technology and programming via a web site; Development and testing of computing methods, algorithms and software; computer programming; computer programming consultancy; computer programming for others; computer software programming services; programming of computer animations; computer programming of video and computer games; design and development of computing platforms and training environments for others; research relating to computer programming; computer programming and software design; advisory services relating to computer programming; design, development and programming of computer software; design, development and provision of computer software for use as an application programming interface (API); computer software design; creating and maintaining web sites for others; installation of computer software; maintenance of computer software; updating of computer software; consultancy in the design and development of computer hardware; electronic data storage; hosting computer sites [web sites]; off-site data backup; computer software consultancy; development and testing of computing methods, algorithms and software; development and testing of computing methods, algorithms and software in a virtual space; development and testing of computing methods, algorithms and software for computer games and board games; design of games; design of board games; computer programming for video games; research and consultancy in the fields of artificial intelligence, machine learning, deep learning, reinforcement learning, building neural networks, high performance computing, distributed computing, virtual reality; design, development and analysis of environments for machine learning, deep learning, reinforcement learning; computer software design and development; computer game software design and development; programming of computer game software; developing computer game programmes using artificial neural networks constructed to function as complex processing systems; developing computer (game) programmes using tree search (computing); providing virtual computer environments through cloud computing; hosting of platforms on the Internet; programming of software for Internet platforms; platform as a service (PaaS); providing information on computer technology and programming via a website; advice, consultancy and information services in relation to the aforesaid. (B) Information technology [IT] advice; computer programming advice; computer software programming; design and development of virtual training environments; advice relating to computer programming; advice in the design and development of computer hardware; development and testing of games of strategy; design of games of strategy; research and consultancy in the fields of science, information technology, tree search, cloud computing, analytics and data mining, augmented reality; design, development and analysis of environments in the fields of science, information technology, artificial intelligence,

building neural networks, tree search, high performance computing, distributed computing, cloud computing, analysis and data mining, virtual reality, augmented reality; design and development of computer software for use in creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organising data; design and development of computer application software for use in implementing the Internet of things [IoT]; developing computer game programs using neural networks; developing computer (game) programs using tree search; advice, consultancy and information services in relation to the aforesaid.
