在註冊申請詳情公布後要求修訂貨品 / 服務說明

商標註冊處處長收到下列根據《商標條例》(第 559 章)第 46 條提出的修訂申請要求。

根據《商標規則》(第 559 章附屬法例)第 26 條,任何聲稱受擬作出的修訂影響的人,可在本公告公布的日期後三個月內,採用表格第 T6 號提交異議通知。(例如,若果公布日期為 2003 年 4 月 4 日,則該三個月的最後一日為 2003 年 7 月 4 日。)異議通知須載有提出異議的理由的陳述,該陳述尤須解釋如作出修訂,異議人會如何受有關修訂影響,以及異議人為何認為作出該項修訂會違反《商標條例》第 46 條。異議人須在提交異議通知的同時,將該通知的副本送交有關申請人。

根據《商標規則》第 95 條,提交異議通知的限期不得延展。

REQUESTS FOR AMENDMENT OF SPECIFICATION OF GOODS OR SERVICES AFTER PARTICULARS OF THE APPLICATIONS HAVE BEEN PUBLISHED

The Registrar of Trade Marks has received the following requests for amendment of applications under section 46 of the Trade Marks Ordinance (Cap. 559).

Under rule 26 of the Trade Marks Rules (Cap. 559 sub. leg.), any person claiming to be affected by the proposed amendment may, within 3 months after the date of this publication, file a notice of objection on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 4 July 2003.) The notice of objection shall include a statement of the grounds of objection, which statement shall, in particular, explain how the objector would be affected by the amendment and why in the objector's opinion the amendment would be contrary to section 46 of the Trade Marks Ordinance. The objector shall, at the same time as he files the notice of objection, send a copy of it to the applicant of the application in question.

It should be noted that under rule 95 of the Trade Marks Rules, extension of time cannot be allowed for filing the notice of objection.

申請人擬修訂類別 9,42 的貨品 / 服務說明如下:

The applicant proposes to amend the specification in Class(es) 9,42 to read as follows:

類別 Class 9

3D eyewear; application software; artificial intelligence apparatus; artificial intelligence equipment; artificial intelligence interactive equipment; computer devices and computer software that allow the sharing and transmission of data and information between devices for the purposes of facilitating home and environmental monitoring, control, and automation; Computer devices and software for use to connect and control internet of things (IoT) devices; computer devices, and electronic measuring and control monitoring devices for home and environmental monitoring, control, and automation; computer peripherals for displaying data, video, and virtual reality information and content; computer peripherals for mobile devices for remotely accessing and transmitting data; computer programs for artificial intelligence, machine learning, deep learning, statistical learning, contextual prediction, personalization, business predictive analytics, business predictive modeling and business intelligence; computer software for artificial intelligence, machine learning, deep learning, statistical learning, contextual prediction, personalization, business predictive analytics, business predictive modeling and business intelligence.; computer software for use in big data analysis; data capture apparatus; data collectors; data processing programs; home automation control devices; mobile data communications apparatus; software; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; 3D-imaging and visualization apparatus; apparatus for input, output, storage and/or processing of data; apparatus for recording, transmission or reproduction of sound or images; application programming interface (API) for computer software for developing and creating virtual reality and augmented reality experiences; application, database, web and file servers; artificial intelligence and machine learning software; artificial intelligence device; Artificial intelligence software; artificial intelligence software for driverless cars; artificial intelligence software for healthcare; audiovisual teaching apparatus with artificial intelligence; augmented reality software; augmented reality training

分項名稱 Section Name: 擬修訂已根據《商標規則》(第 559 章附屬法例)第 15 條公布的註冊申請詳情:在註冊申請詳情公布後要求修訂貨品 / 服務
說明 Proposed Amendment after Particulars of the Applications have been Published under rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.):Requests for Amendment of Specification of Goods or Services after Particulars of the Applications have been Published

simulation software in the field of engineering; augmented reality training simulation software in the field of information technology; computer application software for mobile phones and devices, namely, software for display of and interaction with 2D and/or 3D data in augmented reality environments; computer software and application software for use in artificial intelligence apparatus and equipment and humanoid robots with artificial intelligence; computer software and programs for collection and management of big data; design software; downloadable applications for mobile phones; humanoid robots with artificial intelligence; scanners (data processing equipment); scanning software; Sensor; software for gesture recognition; software for gesture-based data entry; software for processing images, graphics, audio, video, and text; software for robotics design; software for the integration of artificial intelligence and machine learning; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; software for use in creating and designing virtual reality and augmented reality software; software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones to provide virtual reality and augmented reality experiences; software, namely, an interpretive interface for facilitating interaction between humans and machines; virtual reality software; wearable activity trackers; machine learning based incoming material quality inspection software and hardware for the manufacturing of fashion, apparel and leather products.

類別 Class 42

Advanced product research in the field of artificial intelligence; application service provider (ASP) services featuring application programming interface (API) software for artificial intelligence (AI), machine learning, deep learning, statistical learning and data mining to enable contextual prediction, personalization, predictive analytics, predictive modeling and business intelligence services; appraising of designs using artificial intelligence; collaborative computer programming; computer programming and software design; data mining; database design and development; design and updating of software for embedded devices and software maintenance services, computer systems analysis; design of computer databases; design of interior décor; design of products using artificial intelligence; design services; development of new technology in the fields of machine learning, artificial intelligence and robotics; dress designing; product design using artificial intelligence; product quality evaluation; providing computer software that may be downloaded from a global computer network; quality control; research and consultancy services relating to artificial intelligence; research and development services; scientific and technical research, namely, scientific and product research in the fields of artificial intelligence (AI), machine learning and deep learning; scientific research and development in the fields of machine learning, artificial intelligence and robotics; scientific research consulting in the fields of machine learning, artificial intelligence and robotics; software design and development in the fields of augmented reality, artificial intelligence, machine learning, and the internet of things; technical project studies; technical research; technological advisory services relating to machine engineering analysis; analysis of product design; Application service provider (ASP); provision of artificial intelligence software for design; provision of artificial intelligence software for fashion design; provision of artificial intelligence software for manufacturing; provision of artificial intelligence software for personalised garment fit; automotive design; clothing design; cloud computing; computer aided design services; database design; design and development of computer software for use with augmented reality (AR) to understand users' design and fitting preference for clothing; design and development of software; design of clothing; design of clothing

分項名稱 Section Name: 擬修訂已根據《商標規則》(第 559 章附屬法例)第 15 條公布的註冊申請詳情:在註冊申請詳情公布後要求修訂貨品 / 服務
說明 Proposed Amendment after Particulars of the Applications have been Published under rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.):Requests for Amendment of Specification of Goods or Services after Particulars of the Applications have been Published

accessories; design of clothing, footwear and headgear; design of commercial products; design of communications apparatus; design of computer codes; design of computer database; design of computer languages; design of new products; development of computer software application solutions; evaluation of product design; fashion design; fashion design consultancy; product design; product development consultancy for inventors in the field of robotics; product research and development; professional consultancy relating to the science of ergonomics; providing information about fashion design services; Quality testing; research and design services; research and design services relating to small scale design robotics; research and development in relation to healthcare products; research and development of new products and technologies; research and development of new products for others; research in the field of artificial intelligence; research in the field of communications technology and computer software; scientific and technological services and research and design services related thereto; scientific research; scientific research and development; scientific research relating to orthopaedic footwear; software development and research in the field of AI design for autonomous mobility; software development and research in the field of AI enhanced 3D head scanning technology and related products development; software development and research in the field of an intelligent inspection system for fashion and textile manufacturing; software development and research in the field of artificial intelligence and 3D modelling for wellbeing; software development and research in the field of artificial intelligence designed functional clothing design for patients with spinal deformities; software development and research in the field of data analytics for product and service design; software development and research in the field of developing an intelligent design system to promote innovation; software development and research in the field of developing personal assistive robots; software development and research in the field of developing personal avatars for well-being; software development and research in the field of fashion design; software development and research in the field of intelligent textile design for interiors and fashion; software development and research in the field of machine learning; software development and research in the field of sustainable design by using evolutionary algorithms for eco-innovation; provision of software for AI assisted bespoke craftsmanship for couture fashion; technical data analysis; technological research; testing, analysis and monitoring of system algorithms for generating telecommunications and navigation data; testing, inspection and research services in the fields of manufacturing; visual design; software as a service [SaaS]; software as a service [SaaS] featuring computer software platforms for artificial intelligence.
