

香港特別行政區政府知識產權署商標註冊處
Trade Marks Registry, Intellectual Property Department
The Government of the Hong Kong Special Administrative Region

註冊商標的貨品／服務說明重新分類

商標註冊處處長根據《商標規則》(第 559 章附屬法例)第 59/60 條，為對下列註冊商標的貨品／服務說明重新分類，作出修訂的建議。

根據《商標規則》第 61 條，任何聲稱受擬作出的修訂影響的人，可在本公告公布日期後的三個月內，採用表格第 T6 號提交反對建議的通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 4 日。)反對通知須載有提出反對理由的陳述，該陳述尤須解釋如作出修訂，反對人會如何受有關修訂影響，以及反對人為何認為作出該等修訂會違反《商標條例》(第 559 章)第 58(5)條。

根據《商標規則》第 95 條，提交反對通知的時限不得延展。

RECLASSIFICATION OF SPECIFICATION OF GOODS OR SERVICES OF REGISTERED TRADE MARKS

The Registrar of Trade Marks has made proposals for amendment under rule 59/60 of the Trade Marks Rules (Cap. 559 sub. leg.) for reclassification of the specification in respect of the following registration(s).

Under rule 61 of the Trade Marks Rules, any person claiming to be affected by the proposed amendment may, within 3 months after the date of this publication, file a notice of opposition to the proposals on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 4 July 2003.) The notice of opposition shall include a statement of the grounds of opposition, which statement shall, in particular, explain how the opponent would be affected by the amendments if they were made and why in the opponent's opinion the amendments would be contrary to section 58(5) of the Trade Marks Ordinance (Cap. 559).

It should be noted that under rule 95 of the Trade Marks Rules, extension of time cannot be allowed for filing the notice of opposition.

Original Specification: chemical preparations, adhesives, glue; all for industrial use, adhesives for technical use, adhesives for windshields, adhesives for securing screws, chemical agents for treating electric contacts, chemical preparations for building industry and motor vehicle industry, chemical solvents for oxidations, brake fluids, additives for radiators, unprocessed plastics and synthetic resins, chemical preparations for the production of synthetic foam; assembly foam and assembly paste, all being chemical preparations; chemical fluids for use as leak detectors, rust converters; icing agents, refrigerants, coolants and additives therefor; antifreezing preparations, impregnating agents; vulcanisation preparations; fire extinguishing compositions, fire protecting compositions, flame proofing chemicals; soldering agents, welding chemical agents, welding chemical sprays, fluxes, cutting and drilling agents, hardening

agents, chemical conservation agents for the motor vehicle field, solvents; purifying agents; adhesive removers; all included in Class 1.

Class 2

paints, varnishes, lacquers; colorants; paints for use as coloured signs; preserving agents for wood, mordants, colorants, coating materials, coating agents for the protections against fire and flame, rust protective agents, corrosion protective agents, paints for the protection against rust, sealing agents in the nature of paints and coatings for cavities of motor vehicles, lacquer undercoats, protecting agents for cavities of motor vehicles; copper paste, zinc spray, aluminium spray, all being paints; aluminium-zinc paints, primers for lacquers; solvents; diluting agents for paints, lacquers for securing screws, putty, fillers in the nature of paints, glazier's putty, gap filling compositions, protective agents for metal, pigments, primers; preservatives for the maintenance of furniture; undercoating for vehicle chassis; anti-rust greases for battery poles; all included in Class 2.

Class 3

detergents and bleaching preparations, cleaning preparations, polishing preparations, grease removing agents, abrasive in bonded form, abrasive paper, emery paper, abrasive cloth, rust dissolves, rust removers, dye removers, cleaning agents for motor vehicles, preparations for removing seals, cleaning agents for valves and carburetors; preservatives, protective wax, wax for cavities, cleaning agents for windshields; creams for washing hands, soaps, creams for skin protection; cleaning agents for removing insects; chemical products and preparations for cleaning motor vehicles; all included in Class 3.

Class 6

common metals and their alloys; ironmongery and small items of metal hardware; screws, adjusting screws, disks, washers, distance washers (spacer), securing disks and securing rings, spring washers, springs, hoops, clamping sleeves, nails, cotter pins, holders, pins, nail pins, nuts, safety nuts, metallic rosettes being building materials, wing nuts, toothed disks, rivets, dowels, blind rivets, threaded rods, threaded pins, threaded bolts, threaded linings, threaded inserts, all the aforesaid goods are made of metal; cables and wires (not for electric purposes), cable connectors, cable clips, cable reels and drums, cable holders, cable conduits, grease nipples; plugs, sockets, plug-in couplings, clips, rope clips, carrier clamps; fasteners made of metal, not for electrical

purposes, rails, rails for mounting purposes, rails for attaching purposes, hook claws, straps, assembly fastening straps, tightening straps, uncoupling straps; carrying plates of metal; drainage valves; tube fittings of metal, orifice plates, mounting sets for orifice plates; screw tie plates made of metal, locks, keys, key bushings; metallic shields, metallic license plates, metallic holders for license plates, metallic plates with names and rating, connecting elements and supports of metal; metal supports for gas bottles, connecting joints; quick-release couplings of metal, storing and sorting boxes of metal, tool carriers; fastening for ventilation ducts, valves, hoses, pressure hoses, brake hoses, taps, tubes, tube junctions, tube holders, tube bushings of metal, tube conduits, tube couplings, clamps, hose and tube clamps, clamp holders, reducing nipples made of metal, bushings of metal and distance bushings made of metal, stoppers, stoppers for tubes, all the aforesaid goods are made of metal; hooks, welding rods; loops, hooks, closures, all being attachment parts of metal for fixing tarpaulins; straps for fixing tarpaulins; fastenings for roofing sheets; safety chains of metal, ladders, steps; building hardware of metal, plumbing fittings; building materials of metal, mountings for door and furniture, door knobs of metal; all included in Class 6.

Class 7

machine tools, machines for treating and processing metal, wood, plastics and stones and for the mounting of tarpaulins; electrically, hydraulically and/or pneumatically driven tools for treating and processing metal, wood, plastic and stone; glazing machines, machine-driven riveting devices; machine-driven nailing devices; machine-driven tackers; compressors; accumulator-driven tools and machines; electric machines; motors (except motors for land vehicles); couplings and driving belts (except those for land vehicles), gears, angular gears; filters, filters for motor vehicles, air filters, oil filters, all being parts of machines and/or motors; drills, milling heads, drilling machines, drilling screws, impact screw drivers, impact drilling machines, grinding machines, milling machines, polishing machines, cutters, machine-driven saws, cylinder saws, compass saws, chain saws, circular saws, all being parts of machines; machine-driven cutting and grinding devices; grinding device for valves; millers, files, devices for plasma cutting, welding machines; machine-driven stirring machines, core drilling machines, bolt pushing devices; uprights of metal for drilling machines, being parts and/or fittings of machines; heater plugs and spark plugs, spraying guns, atomizer guns, blow-out guns, varnishing

guns (spray coating guns), machine-driven squeezing pistols for cartridges; hammer drills, electric pumps; machine-driven burr removing devices; straightening devices for use in machines; machine-driven thread drills and tools for cutting threads; machine-driven hammers drills and chisel hammers; machine-driven sheet-iron shears, angle grinders; cleaning machines, high-pressure cleaning machines; separating and roughing disks being machines parts for use in machines; pressurization apparatus, pressure and sucking pumps, sucking machines, pneumatically and hydraulically driven filling devices for aerosol cans and sprayers; valves, press switches and value pushers, all being parts of machine; plasma cutting devices, welding devices and spot-welding apparatus; electrical wet pick-up vacuum cleaners and dry vacuum cleaners for industrial use; parts and fittings for all the aforesaid goods; all included in Class 7.

Class 8

hand-operated tools, hand-operated tools for processing metal, wood and plastics; hand tools for fixing machines, apparatus; hand operated tools for mounting tarpaulins; hand operated tools for connecting and undoing electrical contacts; manually operated screwing devices; uprights for drilling machines; manually operated nailers, tongs, bending tongs, riveting tongs, hand operated pistols for riveting, stripping tongs, pressure tongs, crushing tongs, moulding tongs, crimping pliers, punch pliers; folding and edging tools; hand operated tools for removing battery pole clips; pullers for battery terminals; files, saws and saw blades, grinding, cutting and roughing disks; all being hand tools; hand operated grinding devices, grinding stones, grinding brushes, grinding blocks, grinding pins, grinding wheels, grinding devices for valves, cutting devices, screw stocks, scissors, sheet-iron shears, hand-operated body and fender tools for vehicles, welding tongs, spatulas; hand operated squeezing pistols for cartridges; hand operated assembly devices; hand operated suction jacks for panes and window panes; hand operated filling devices for aerosol cans and sprayers; hand operated grinding and adjusting devices for valves; hand operated apparatus for filling air and for venting, plug wrenches, torque limiters, torque screws, socket wrenches, hand operated apparatus for bending tubes and tube cutters, clamping tools, spanners, hand operated drill chuck keys, tweezers, pullers, planes, screw drivers, hand drills, thread cutters and thread formers; shears, garden shears, tree pruning shears, hedge-clippers, tin-and-can openers, screw clamps, cable cutters; hand tools for the assembling of valves of car tyres, hand tools

for the maintenance and mounting for parts for motor vehicles and brakes; hand tools for assembling springs, hand tools for centering couplings, hand operated lifting jacks; unrolling apparatus for tarpaulins; hand operated apparatus and devices for distributing cables, hoses, hand-held machines with a balancing suspension; magnetic holders; punchers; devices principally made of metal for the distribution, the treatment, the processing, the uprolling and unrolling of cables, hoses, films, abrasive paper and emery cloth; vices; thread formers; all the aforesaid goods being hand operated tools; thread formers being hand operated tools for machines; hand-operated cable unrolling equipment; all included in Class 8.

Class 9

computers, personal computers, computer peripheral devices, scanners, readers, bar code readers; data capture devices, visual display units, liquid crystal displays; software recorded on data carriers, CD-ROMs; printed boards, wire carriers; electric cables and lines, electric wires; conductors and connecting devices for all the aforesaid goods; electric sockets and distribution boxes; electric plug contacts, electric plug-in couplings and electric clamps, screwed cable glands; cable coverings and cable clamps; electrical fuses for motor vehicles; battery clips; cable connectors, cable bushings, cable tapes, cable chips, cable grips, cable drums, cable conduits, cable channels for wires; cable shoes; wire and ferrules; electric plugs, electrical earthing tapes (electric cables in form of tapes), anti-interference tapes, loading clips and loading tongs, starter cables, lead poles; electric plugs and couplings for towed vehicles and testing instruments therefor; batteries, accumulators, loading devices for accumulators; maintenance confirmation switches, brake lining wear contacts, testing apparatus for incandescent lamps, voltage testers, spark plug testers, testing devices for anti-freezing apparatus; battery reserve testers, compression gauges, radiator system testers; protective suits for workers, protective suits, protective aprons, safety helmets, breathing masks, protective gloves, protecting glasses, protective screens, welding gloves, electrical heating mirrors for plastic welding, welding electrodes; fire extinguishers; electrical soldering apparatus, adhesion magnets, sensor apparatus and adjusting gauges, measuring apparatus and measuring tapes, pressure measuring devices, measuring tools, measuring slides, angle measuring devices, assembly gauges, wood moisture level measuring devices, compasses, thermometers, water level indicators; apparatus for testing and checking motors; leak

indicator devices; leak indicator ultra-violet lamps; transformers; telephones, radio telephones and intercommunication apparatus; telephone devices, telephone receivers, car telephones, car telefacsimile devices; telephone lines, antennas, adapters, consoles; warning devices, protection apparatus for motor vehicles, warning boards; warning apparatus; alarm apparatus; theft alarm apparatus, electric theft alarm apparatus, electronic locking device for motor vehicles; cable channels, push switches; electrical apparatus for dosing hot melt adhesives; parts and fittings for all the aforesaid goods; all included in Class 9.

Class 20

furniture for office and for use in workshops, rivets and dowels made of plastics; blind rivets made of plastics; screws and screw nuts, bolts, threaded bolts, springs made principally of plastics, clamping, sleeves, cotters, lock nuts, wing nuts, hooks, clips clamps, stoppers and stoppers for tubes (not of glass, metal or rubber), fasteners made of non-metallic materials, washers made of plastics, connecting and supporting elements, cable hoops, cable clamps, collecting holders for cables; cable holders, cable hoses and clips (not electric); hose fasteners made of non-metallic materials; cupboards, drawer cabinets, suspension cabinets, shelves, boxes; storage, storing and ranging boxes; supports, stands, storing boxes, not of metal, work tables, work benches (moveable); tool boxes, carriers for tools and assortments, anchor plates, hinges and mountings for furniture, not made of metal; drawer guides, handles for furniture, wardrobe rods, consoles, flap supports made of non-metallic materials and holders made of non-metallic materials, cans made of nylon, containers, valves, hose reels made of non-metallic materials; ladders and steps made of non-metallic materials; pipe clips and pipe holders made of non-metallic materials; radiator clips made of plastics; all included in Class 20.

[511] 建議的新貨品/服務說明:

Proposed New Specification:

Class 1

chemical preparations, adhesives, glue; all for industrial use, adhesives for technical use, adhesives for windshields, adhesives for securing screws, chemical agents for treating electric contacts, chemical preparations for building industry and motor vehicle industry, chemical solvents for oxidations, brake fluids, additives for radiators, unprocessed plastics and synthetic resins, chemical preparations for the production of synthetic foam; assembly foam and assembly paste, all being chemical preparations; chemical fluids for use as leak detectors, rust converters; icing agents, refrigerants, coolants and

additives therefor; antifreezing preparations, impregnating agents; vulcanisation preparations; fire extinguishing compositions, fire protecting compositions, flame proofing chemicals; soldering agents, welding chemical agents, welding chemical sprays, fluxes, cutting and drilling agents, hardening agents, chemical conservation agents for the motor vehicle field, solvents; purifying agents; adhesive removers; putty, glazier's putty; all included in Class 1.

Class 2

paints, varnishes, lacquers; colorants; paints for use as coloured signs; preserving agents for wood, mordants, colorants, coating materials, coating agents for the protections against fire and flame, rust protective agents, corrosion protective agents, paints for the protection against rust, sealing agents in the nature of paints and coatings for cavities of motor vehicles, lacquer undercoats, protecting agents for cavities of motor vehicles; copper paste, zinc spray, aluminium spray, all being paints; aluminium-zinc paints, primers for lacquers; solvents; diluting agents for paints, lacquers for securing screws, fillers in the nature of paints, gap filling compositions, protective agents for metal, pigments, primers; preservatives for the maintenance of furniture; undercoating for vehicle chassis; anti-rust greases for battery poles; all included in Class 2.

Class 3

detergents and bleaching preparations, cleaning preparations, polishing preparations, grease removing agents, abrasive in bonded form, abrasive paper, emery paper, abrasive cloth, rust dissolves, rust removers, dye removers, cleaning agents for motor vehicles, preparations for removing seals, cleaning agents for valves and carburetors; preservatives, protective wax, wax for cavities, cleaning agents for windshields; creams for washing hands, soaps, creams for skin protection; cleaning agents for removing insects; chemical products and preparations for cleaning motor vehicles; all included in Class 3.

Class 6

common metals and their alloys; ironmongery and small items of metal hardware; screws, adjusting screws, disks, washers, distance washers (spacer), securing disks and securing rings, spring washers, springs, hoops, clamping sleeves, nails, cotter pins, holders, pins, nail pins, nuts, safety nuts, metallic rosettes being building materials, wing nuts, toothed disks, rivets, dowels, blind rivets, threaded rods, threaded

pins, threaded bolts, threaded linings, threaded inserts, all the aforesaid goods are made of metal; cables and wires (not for electric purposes), cable connectors, cable clips, cable reels and drums, cable holders, cable conduits, grease nipples; plugs, sockets, plug-in couplings, clips, rope clips, carrier clamps; fasteners made of metal, not for electrical purposes, rails, rails for mounting purposes, rails for attaching purposes, hook claws, straps, assembly fastening straps, tightening straps, uncoupling straps; carrying plates of metal; drainage valves; tube fittings of metal, orifice plates, mounting sets for orifice plates; screw tie plates made of metal, locks, keys, key bushings; metallic shields, metallic license plates, metallic holders for license plates, metallic plates with names and rating, connecting elements and supports of metal; metal supports for gas bottles, connecting joints; quick-release couplings of metal, storing and sorting boxes of metal, tool carriers; fastening for ventilation ducts, valves, hoses, pressure hoses, brake hoses, taps, tubes, tube junctions, tube holders, tube bushings of metal, tube conduits, tube couplings, clamps, hose and tube clamps, clamp holders, reducing nipples made of metal, bushings of metal and distance bushings made of metal, stoppers, stoppers for tubes, all the aforesaid goods are made of metal; hooks, welding rods; loops, hooks, closures, all being attachment parts of metal for fixing tarpaulins; straps for fixing tarpaulins; fastenings for roofing sheets; safety chains of metal, ladders, steps; building hardware of metal, plumbing fittings; building materials of metal, mountings for door and furniture, door knobs of metal; all included in Class 6.

Class 7

machine tools, machines for treating and processing metal, wood, plastics and stones and for the mounting of tarpaulins; electrically, hydraulically and/or pneumatically driven tools for treating and processing metal, wood, plastic and stone; glazing machines, machine-driven riveting devices; machine-driven nailing devices; machine-driven tackers; compressors; accumulator-driven tools and machines; electric machines; motors (except motors for land vehicles); couplings and driving belts (except those for land vehicles), gears, angular gears; filters, filters for motor vehicles, air filters, oil filters, all being parts of machines and/or motors; drills, milling heads, drilling machines, drilling screws, impact screw drivers, impact drilling machines, grinding machines, milling machines, polishing machines, cutters, machine-driven saws, cylinder saws, compass saws, chain saws, circular saws, all being parts of machines; machine-

driven cutting and grinding devices; grinding device for valves; millers, files, devices for plasma cutting, welding machines; machine-driven stirring machines, core drilling machines, bolt pushing devices; uprights of metal for drilling machines, being parts and/or fittings of machines; heater plugs and spark plugs, spraying guns, atomizer guns, blow-out guns, varnishing guns (spray coating guns), machine-driven squeezing pistols for cartridges; hammer drills, electric pumps; machine-driven burr removing devices; straightening devices for use in machines; machine-driven thread drills and tools for cutting threads; machine-driven hammers drills and chisel hammers; machine-driven sheet-iron shears, angle grinders; cleaning machines, high-pressure cleaning machines; separating and roughing disks being machines parts for use in machines; pressurization apparatus, pressure and sucking pumps, sucking machines, pneumatically and hydraulically driven filling devices for aerosol cans and sprayers; valves, press switches and value pushers, all being parts of machine; plasma cutting devices, welding devices and spot-welding apparatus; electrical wet pick-up vacuum cleaners and dry vacuum cleaners for industrial use; parts and fittings for all the aforesaid goods; all included in Class 7.

Class 8

hand-operated tools, hand-operated tools for processing metal, wood and plastics; hand tools for fixing machines, apparatus; hand operated tools for mounting tarpaulins; hand operated tools for connecting and undoing electrical contacts; manually operated screwing devices; uprights for drilling machines; manually operated nailers, tongs, bending tongs, riveting tongs, hand operated pistols for riveting, stripping tongs, pressure tongs, crushing tongs, moulding tongs, crimping pliers, punch pliers; folding and edging tools; hand operated tools for removing battery pole clips; pullers for battery terminals; files, saws and saw blades, grinding, cutting and roughing disks; all being hand tools; hand operated grinding devices, grinding stones, grinding brushes, grinding blocks, grinding pins, grinding wheels, grinding devices for valves, cutting devices, screw stocks, scissors, sheet-iron shears, hand-operated body and fender tools for vehicles, welding tongs, spatulas; hand operated squeezing pistols for cartridges; hand operated assembly devices; hand operated suction jacks for panes and window panes; hand operated filling devices for aerosol cans and sprayers; hand operated grinding and adjusting devices for valves; hand operated apparatus for filling air and for venting, plug wrenches, torque limiters, torque screws, socket wrenches, hand operated

apparatus for bending tubes and tube cutters, clamping tools, spanners, hand operated drill chuck keys, tweezers, pullers, planes, screw drivers, hand drills, thread cutters and thread formers; shears, garden shears, tree pruning shears, hedge-clippers, tin-and-can openers, screw clamps, cable cutters; hand tools for the assembling of valves of car tyres, hand tools for the maintenance and mounting for parts for motor vehicles and brakes; hand tools for assembling springs, hand tools for centering couplings, hand operated lifting jacks; unrolling apparatus for tarpaulins; hand operated apparatus and devices for distributing cables, hoses, hand-held machines with a balancing suspension; magnetic holders; punchers; devices principally made of metal for the distribution, the treatment, the processing, the uprolling and unrolling of cables, hoses, films, abrasive paper and emery cloth; vices; thread formers; all the aforesaid goods being hand operated tools; thread formers being hand operated tools for machines; hand-operated cable unrolling equipment; all included in Class 8.

Class 9

computers, personal computers, computer peripheral devices, scanners, readers, bar code readers; data capture devices, visual display units, liquid crystal displays; software recorded on data carriers, CD-ROMs; printed boards, wire carriers; electric cables and lines, electric wires; conductors and connecting devices for all the aforesaid goods; electric sockets and distribution boxes; electric plug contacts, electric plug-in couplings and electric clamps, screwed cable glands; cable coverings and cable clamps; electrical fuses for motor vehicles; battery clips; cable connectors, cable bushings, cable tapes, cable chips, cable grips, cable drums, cable conduits, cable channels for wires; cable shoes; wire and ferrules; electric plugs, electrical earthing tapes (electric cables in form of tapes), anti-interference tapes, loading clips and loading tongs, starter cables, lead poles; electric plugs and couplings for towed vehicles and testing instruments therefor; batteries, accumulators, loading devices for accumulators; maintenance confirmation switches, brake lining wear contacts, testing apparatus for incandescent lamps, voltage testers, spark plug testers, testing devices for anti-freezing apparatus; battery reserve testers, compression gauges, radiator system testers; protective suits for workers, protective suits, protective aprons, safety helmets, breathing masks, protective gloves, protecting glasses, protective screens, welding gloves, electrical heating mirrors for plastic welding, welding electrodes; fire extinguishers; electrical soldering

apparatus, adhesion magnets, sensor apparatus and adjusting gauges, measuring apparatus and measuring tapes, pressure measuring devices, measuring tools, measuring slides, angle measuring devices, assembly gauges, wood moisture level measuring devices, compasses, thermometers, water level indicators; apparatus for testing and checking motors; leak indicator devices; leak indicator ultra-violet lamps; transformers; telephones, radio telephones and intercommunication apparatus; telephone devices, telephone receivers, car telephones, car telefacsimile devices; telephone lines, antennas, adapters, consoles; warning devices, protection apparatus for motor vehicles, warning boards; warning apparatus; alarm apparatus; theft alarm apparatus, electric theft alarm apparatus, electronic locking device for motor vehicles; cable channels, push switches; electrical apparatus for dosing hot melt adhesives; parts and fittings for all the aforesaid goods; all included in Class 9.

Class 20

furniture for office and for use in workshops, rivets and dowels made of plastics; blind rivets made of plastics; screws and screw nuts, bolts, threaded bolts, springs made principally of plastics, clamping, sleeves, cotters, lock nuts, wing nuts, hooks, clips clamps, stoppers and stoppers for tubes (not of glass, metal or rubber), fasteners made of non-metallic materials, washers made of plastics, connecting and supporting elements, cable hoops, cable clamps, collecting holders for cables; cable holders, cable hoses and clips (not electric); hose fasteners made of non-metallic materials; cupboards, drawer cabinets, suspension cabinets, shelves, boxes; storage, storing and ranging boxes; supports, stands, storing boxes, not of metal, work tables, work benches (moveable); tool boxes, carriers for tools and assortments, anchor plates, hinges and mountings for furniture, not made of metal; drawer guides, handles for furniture, wardrobe rods, consoles, flap supports made of non-metallic materials and holders made of non-metallic materials, cans made of nylon, containers, valves, hose reels made of non-metallic materials; ladders and steps made of non-metallic materials; pipe clips and pipe holders made of non-metallic materials; radiator clips made of plastics; all included in Class 20.

- [511] 原來的貨品/服務說明: Class 1
Original Specification: chemical products for industrial use, adhesives for industrial use, glue for industrial use, adhesives for technical and industrial use, adhesives for windscreens (windshields), adhesives for securing screws, chemical agents for treating electric contacts, chemical products for the building industry, chemical products for the motor vehicle field, chemical solvents for oxidations, brake fluids, additives for radiators, unprocessed plastics and synthetic resins, chemical products for the production of synthetic foam; assembly foam and assembly paste, all being chemical preparations; chemical fluids for use as leak detectors, rust converting preparations; freezing agents in sprayers; refrigerants and coolants and additives therefor; antifreezing compounds, impregnating agents; vulcanisation solutions, vulcanisation preparations; fire extinguishing agents, fire protecting agents, flame protecting agents, soldering agents, welding preparations, welding spray, fluxes, cutting agents and drilling muds, hardening preparations, chemical conservation agents for motor vehicles, solvents; purifying agents, adhesive removers, antioxidants; all included in Class 1.
- Class 2

paints, varnishes, lacquers; colorants; paints for the use as coloured signs; preserving agents for wood, mordants, colorants, coating materials, coating agents for the protections against fire and flame, rust protective agents, corrosion protective agents, paints for the protection against rust, sealing agents in the nature of paints and coatings for cavities of motor vehicles, lacquer undercoats, protecting agents for cavities of motor vehicles; copper paste, zinc spray, aluminium spray, all being paints; aluminium-zinc paints, primers for lacquers; solvents; diluting agents for paints, lacquers for securing screws, putty, fillers in the nature of paints, glazier's putty, gap filling compositions, protective agents for metal, pigments, primers; preservatives for the maintenance of furniture; undercoating for vehicle chassis; anti-rust greases for battery poles; all included in Class 2.

Class 3

detergents and bleaching preparations, cleaning preparations, polishing preparations, grease removing agents, abrasive preparations, abrasive paper, emery paper, abrasive cloth, rust dissolvers, rust removers, dye removers, cleaning agents for motor vehicles, preparations for removing seals, cleaning agents for valves and carburettors; preservatives, protective wax, wax for cavities; chemical products and preparations for cleaning motor vehicles; cleaning preparations for removing insects bodies from windscreen, radiator grills, bumpers, head lamps, number plates and spoilers; cleaning agents for windshields (wind-screens); creams for washing hands, soaps, creams for skin protection; all included in Class 3.

Class 6

common metals and their alloys; ironmongery and small items of metal hardware; screws, adjusting screws, disks, washers, distance washers (spacers), securing disks and securing rings, spring washers, springs, hoops, clamping sleeves, nails, cotter pins, holders, pins, nail pins, nuts, safety nuts, rosettes, wing nuts, toothed disks, rivets, dowels, blind rivets, threaded rods, threaded pins, threaded bolts, threaded linings, threaded inserts, all the aforesaid goods made of metal; cables and wires (not for electric purposes), cable connectors, cable clips, cable reels and drums, cable holders, cable conduits, grease nipples; plugs, sockets, plug-in couplings, clips, rope clips, carrier clamps; fasteners made of metal; rails for attaching purposes, hook claws, straps, assembly fastening straps, tightening straps, uncoupling straps; carrying plates; drainage valves; tube fittings of metal, orifice plates, mounting sets for orifice plates; screw

tieplates, locks, keys, key bushings; shields, number plates, holders for licence plates, identification plates, all made of metal; connecting elements and supports of metal; metal supports for gas bottles, connecting joints, mechanical couplings, storing, sorting and ranging boxes made of metal; carriers and boxes for tools and assortments; fastening for ventilation ducts, valves, hoses, pressure hoses, brake hoses, taps, tubes, tube junctions, tube holders, tube connection sleeves, tube conduits, tube couplings, clamps, hose and tube clamps, clamp holders, reducing adapters, reducing nipples, bushings, distance bushings, stoppers and stoppers for tubes, all the aforesaid goods made of metal; hooks, cable shoes, welding rods; loops, hooks, closures, all being attachment parts for fixing tarpaulins; straps for fixing tarpaulins; fastenings for roofing sheets; safety chains, ladders, steps, building hardware, plumbing fittings; building materials; stores of metallic material; all the aforesaid goods made of metal; all included in Class 6.

Class 7

machine tools, machines for treating and processing metal, wood, plastics and stones and for the mounting of tarpaulins; electrically, hydraulically and/or pneumatically driven tools for treating and processing metal, wood, plastic and stone; glazing machines, machine-driven riveting devices; machine-driven nailing devices; machine-driven tackers; compressors; accumulator-driven tools and machines; electric machines; motors (except motors for land vehicles); couplings and driving belts (except those for land vehicles), gears, angular gears; filters, filters for motor vehicles, air filters, oil filters, all being parts of machines and/or motors; drills, milling heads, drilling machines, drilling screws, impact screw drivers, impact drilling machines, grinding machines, milling machines, polishing machines, cutters, machine-driven saws, cylinder saws, compass saws, chain saws, circular saws, all being parts of machines; machine-driven cutting and grinding devices; grinding device for valves; millers, files, devices for plasma cutting, welding machines; machine-driven stirring machines, core drilling machines, bolt pushing devices; uprights of metal for drilling machines, being parts and/or fittings of machines; heater plugs and spark plugs, spraying guns, atomizer guns, blow-out guns, varnishing guns (spray coating guns), machine-driven squeezing pistols for cartridges; hammer drills, electric pumps; machine-driven burr removing devices; straightening devices for use in machines; machine-driven thread drills and tools for cutting threads; machine-driven

hammers drills and chisel hammers; machine-driven sheet-iron shears, angle grinders; cleaning machines, high-pressure cleaning machines; separating and roughing disks being machines parts for use in machines; pressurization apparatus, pressure and sucking pumps, sucking machines, pneumatically and hydraulically driven filling devices for aerosol cans and sprayers; valves, press switches and valve pushers, all being parts of machine; plasma cutting devices, welding devices and spot-welding apparatus; electrical wet pick-up vacuum cleaners and dry vacuum cleaners for industrial use; parts and fittings for all the aforesaid goods; all included in Class 7.

Class 8

hand-operated tools, hand-operated tools for processing metal, wood and plastics; hand tools for fixing machines, apparatus; hand operated tools for mounting tarpaulins; hand operated tools for connecting and undoing electrical contacts; manually operated screwing devices; uprights for drilling machines; manually operated nailers, tongs, bending tongs, riveting tongs, hand operated pistols for riveting, stripping tongs, pressure tongs, crushing tongs, moulding tongs, crimping pliers, punch pliers; folding and edging tools; hand operated tools for removing battery pole clips; pullers for battery terminals; files, saws and saw blades, grinding, cutting and roughing disks; all being hand tools; hand operated grinding devices, grinding stones, grinding brushes, grinding blocks, grinding pins, grinding wheels, grinding devices for valves, cutting devices, screw stocks, scissors, sheet-iron shears, hand-operated body and fender tools for vehicles, welding tongs, spatulas; hand operated squeezing pistols for cartridges; hand operated assembly devices; hand operated suction jacks for panes and window panes; hand operated filling devices for aerosol cans and sprayers; hand operated grinding and adjusting devices for valves; hand operated apparatus for filling air and for venting, plug wrenches, torque limiters, torque screws, socket wrenches, hand operated apparatus for bending tubes and tube cutters, clamping tools, spanners, hand operated drill chuck keys, tweezers, pullers, planes, screw drivers, hand drills, thread cutters and thread formers; shears, garden shears, tree pruning shears, hedge-clippers, tin-and-can opener, screw clamps, cable cutters; hand tools for the assembling of valves of car tyres, hand tools for the maintenance and mounting for parts for motor vehicles and brakes; hand tools for assembling springs, hand tools for centering couplings, hand operated lifting jacks; unrolling apparatus for tarpaulins; hand operated apparatus and devices for distributing cables,

hoses, films, abrasive paper and emery cloth; cutlery; holders for hand-held machines with a balancing suspension; magnetic holders; punchers; devices principally made of metal for the distribution, the treatment, the processing, the uprolling and unrolling of cables, hoses, films, abrasive paper and emery cloth; vices; thread formers; all the aforesaid goods being hand operated tools; all included in Class 8.

Class 9

computers, personal computers, computer peripheral devices, scanners, readers, bar code readers, data capture devices, visual display units, liquid crystal displays; software recorded on data carries, CD-ROMs; printed boards, wire carriers; electric cables and lines, electric wires; conductors and connecting devices for all the aforesaid goods; electric sockets and distribution boxes; electric plug contacts, electric plug-in clamps, electrical switches and safety switches; plug-in couplings and electric clamps, screwed cable glands; cable coverings and cable clamps; electrical fuses for motor vehicles; battery clips; cable connectors, cable bushings, cable tapes, cable chips, cable grips, cable drums, cable conduits, cable channels for wires; cable shoes; wire and ferrule; electric plugs, electrical earthing tapes (electric cables in form of tapes), anti-interference tapes, loading clips and loading tongs, starter cables, lead poles; electric plugs and couplings for towed vehicles and testing instruments therefor; batteries, accumulators, loading devices for accumulators; maintenance confirmation switches, brake lining wear contacts, testing apparatus for incandescent lamps, voltage testers, spark plug testers, testing devices for anti-freezing apparatus; battery reserve testers, compression gauges, radiator system testers; protective suits for workers, protective suits, protective aprons, safety helmets, breathing masks, protective gloves, protecting glasses, protective screens, welding gloves, electrical heating mirrors for plastic welding, welding electrodes; fire extinguishers; electrical soldering apparatus, adhesion magnets, sensor apparatus and adjusting gauges, measuring apparatus and measuring tapes, pressure measuring devices, measuring tools, measuring slides, angle measuring devices, assembly gauges, wood moisture level measuring devices, compasses, thermometers, water level indicators; apparatus for testing and checking motors; leak indicator devices; leak indicator ultra-violet lamps; transformers; telephones, radio telephones and intercommunication apparatus; telephone devices, telephones receivers, car telephones, car telefacsimile devices; telephone lines, antennas, adapters, consoles;

warning devices, protection apparatus for motor vehicles, warning boards; warning apparatus; alarm apparatus; theft alarm apparatus, electric theft alarm apparatus, electronic locking device for motor vehicles; cable channels, push switches; electrical apparatus for dosing hot melt adhesives; parts and fittings for all the aforesaid goods; all included in Class 9.

Class 20

furniture for working and for use in workshops, rivets and dowels made of plastics; blind rivets made of non-metallic materials, screws and screw nuts, bolts, threaded bolts, disks made of non-metallic materials, spring washers made of non-metallic materials, springs made of non-metallic materials, clamping sleeves, cotters, lock nuts, wing nuts, hooks, clips, clamps, bushings made of non-metallic materials, distance bushings made of non-metallic materials, toothed disks made of non-metallic materials, stoppers, grommets and stoppers for tubes (not of glass, metal or rubber), fasteners made of non-metallic materials, washers made of plastics, connecting and supporting elements, clamps, rosettes, bolts, assembly punched tapes, cable hoops, cable clamps, collecting holders for cables; cable holders, cable hoses and clips (not electric); devices and apparatus essentially made of plastics for the distribution, the treatment, the processing, the up-rolling and unrolling of cables, hoses, films, abrasive paper and emery cloth; hose fasteners made of non-metallic materials; cupboards, drawer cabinets, suspension cabinets, shelves, boxes; storage, storing and ranging boxes; supports, stands, work tables, work benches (moveable); tool boxes, carriers for tools and assortments, scaffolding trestles made of non-metallic materials, anchor plates, hinges and mountings for furniture, not made of metal; drawer guides, handles for furniture, wardrobe rods, tubes for cupboards, console, flap supports and holders; signs made of plastics; cans made of nylon, containers, valves, push switches and pushers for valves, hoses made of non-metallic materials, pipe branches made of non-metallic materials, pressure hoses made of non-metallic materials, brake hoses made of non-metallic materials, spouts of containers and canisters; ladders and steps made of non-metallic materials, steps made of non-metallic materials; pipe clips and pipe holders essentially made of non-metallic materials; radiator clips made of plastics; tool cases and bags made of plastic; all included in Class 20.

[511] 建議的新貨品/服務說明:

Proposed New Specification:

Class 1

chemical products for industrial use, adhesives for industrial use, glue for industrial use, adhesives for

technical and industrial use, adhesives for windscreens (windshields), adhesives for securing screws, chemical agents for treating electric contacts, chemical products for the building industry, chemical products for the motor vehicle field, chemical solvents for oxidations, brake fluids, additives for radiators, unprocessed plastics and synthetic resins, chemical products for the production of synthetic foam; assembly foam and assembly paste, all being chemical preparations; chemical fluids for use as leak detectors, rust converting preparations; freezing agents in sprayers; refrigerants and coolants and additives therefor; antifreezing compounds, impregnating agents; vulcanisation solutions, vulcanisation preparations; fire extinguishing agents, fire protecting agents, flame protecting agents, soldering agents, welding preparations, welding spray, fluxes, cutting agents and drilling muds, hardening preparations, chemical conservation agents for motor vehicles, solvents; purifying agents, adhesive removers, antioxidants; putty, glazier's putty; all included in Class 1.

Class 2

paints, varnishes, lacquers; colorants; paints for the use as coloured signs; preserving agents for wood, mordants, colorants, coating materials, coating agents for the protections against fire and flame, rust protective agents, corrosion protective agents, paints for the protection against rust, sealing agents in the nature of paints and coatings for cavities of motor vehicles, lacquer undercoats, protecting agents for cavities of motor vehicles; copper paste, zinc spray, aluminium spray, all being paints; aluminium-zinc paints, primers for lacquers; solvents; diluting agents for paints, lacquers for securing screws, fillers in the nature of paints, gap filling compositions, protective agents for metal, pigments, primers; preservatives for the maintenance of furniture; undercoating for vehicle chassis; anti-rust greases for battery poles; all included in Class 2.

Class 3

detergents and bleaching preparations, cleaning preparations, polishing preparations, grease removing agents, abrasive preparations, abrasive paper, emery paper, abrasive cloth, rust dissolvers, rust removers, dye removers, cleaning agents for motor vehicles, preparations for removing seals, cleaning agents for valves and carburettors; preservatives, protective wax, wax for cavities; chemical products and preparations for cleaning motor vehicles; cleaning preparations for removing insects bodies from windscreen, radiator

grills, bumpers, head lamps, number plates and spoilers; cleaning agents for windshields (wind-screens); creams for washing hands, soaps, creams for skin protection; all included in Class 3.

Class 6

common metals and their alloys; ironmongery and small items of metal hardware; screws, adjusting screws, disks, washers, distance washers (spacers), securing disks and securing rings, spring washers, springs, hoops, clamping sleeves, nails, cotter pins, holders, pins, nail pins, nuts, safety nuts, rosettes, wing nuts, toothed disks, rivets, dowels, blind rivets, threaded rods, threaded pins, threaded bolts, threaded linings, threaded inserts, all the aforesaid goods made of metal; cables and wires (not for electric purposes), cable connectors, cable clips, cable reels and drums, cable holders, cable conduits, grease nipples; plugs, sockets, plug-in couplings, clips, rope clips, carrier clamps; fasteners made of metal; rails for attaching purposes, hook claws, straps, assembly fastening straps, tightening straps, uncoupling straps; carrying plates; drainage valves; tube fittings of metal, orifice plates, mounting sets for orifice plates; screw tieplates, locks, keys, key bushings; shields, number plates, holders for licence plates, identification plates, all made of metal; connecting elements and supports of metal; metal supports for gas bottles, connecting joints, mechanical couplings, storing, sorting and ranging boxes made of metal; carriers and boxes for tools and assortments; fastening for ventilation ducts, valves, hoses, pressure hoses, brake hoses, taps, tubes, tube junctions, tube holders, tube connection sleeves, tube conduits, tube couplings, clamps, hose and tube clamps, clamp holders, reducing adapters, reducing nipples, bushings, distance bushings, stoppers and stoppers for tubes, all the aforesaid goods made of metal; hooks, cable shoes, welding rods; loops, hooks, closures, all being attachment parts for fixing tarpaulins; straps for fixing tarpaulins; fastenings for roofing sheets; safety chains, ladders, steps, building hardware, plumbing fittings; building materials; stores of metallic material; all the aforesaid goods made of metal; all included in Class 6.

Class 7

machine tools, machines for treating and processing metal, wood, plastics and stones and for the mounting of tarpaulins; electrically, hydraulically and/or pneumatically driven tools for treating and processing metal, wood, plastic and stone; glazing machines, machine-driven riveting devices; machine-driven nailing

devices; machine-driven tackers; compressors; accumulator-driven tools and machines; electric machines; motors (except motors for land vehicles); couplings and driving belts (except those for land vehicles), gears, angular gears; filters, filters for motor vehicles, air filters, oil filters, all being parts of machines and/or motors; drills, milling heads, drilling machines, drilling screws, impact screw drivers, impact drilling machines, grinding machines, milling machines, polishing machines, cutters, machine-driven saws, cylinder saws, compass saws, chain saws, circular saws, all being parts of machines; machine-driven cutting and grinding devices; grinding device for valves; millers, files, devices for plasma cutting, welding machines; machine-driven stirring machines, core drilling machines, bolt pushing devices; uprights of metal for drilling machines, being parts and/or fittings of machines; heater plugs and spark plugs, spraying guns, atomizer guns, blow-out guns, varnishing guns (spray coating guns), machine-driven squeezing pistols for cartridges; hammer drills, electric pumps; machine-driven burr removing devices; straightening devices for use in machines; machine-driven thread drills and tools for cutting threads; machine-driven hammers drills and chisel hammers; machine-driven sheet-iron shears, angle grinders; cleaning machines, high-pressure cleaning machines; separating and roughing disks being machines parts for use in machines; pressurization apparatus, pressure and sucking pumps, sucking machines, pneumatically and hydraulically driven filling devices for aerosol cans and sprayers; valves, press switches and valve pushers, all being parts of machine; plasma cutting devices, welding devices and spot-welding apparatus; electrical wet pick-up vacuum cleaners and dry vacuum cleaners for industrial use; parts and fittings for all the aforesaid goods; all included in Class 7.

Class 8

hand-operated tools, hand-operated tools for processing metal, wood and plastics; hand tools for fixing machines, apparatus; hand operated tools for mounting tarpaulins; hand operated tools for connecting and undoing electrical contacts; manually operated screwing devices; uprights for drilling machines; manually operated nailers, tongs, bending tongs, riveting tongs, hand operated pistols for riveting, stripping tongs, pressure tongs, crushing tongs, moulding tongs, crimping pliers, punch pliers; folding and edging tools; hand operated tools for removing battery pole clips; pullers for battery terminals; files, saws and saw blades, grinding, cutting and roughing disks; all being hand tools; hand operated grinding devices,

grinding stones, grinding brushes, grinding blocks, grinding pins, grinding wheels, grinding devices for valves, cutting devices, screw stocks, scissors, sheet-iron shears, hand-operated body and fender tools for vehicles, welding tongs, spatulas; hand operated squeezing pistols for cartridges; hand operated assembly devices; hand operated suction jacks for panes and window panes; hand operated filling devices for aerosol cans and sprayers; hand operated grinding and adjusting devices for valves; hand operated apparatus for filling air and for venting, plug wrenches, torque limiters, torque screws, socket wrenches, hand operated apparatus for bending tubes and tube cutters, clamping tools, spanners, hand operated drill chuck keys, tweezers, pullers, planes, screw drivers, hand drills, thread cutters and thread formers; shears, garden shears, tree pruning shears, hedge-clippers, tin-and-can opener, screw clamps, cable cutters; hand tools for the assembling of valves of car tyres, hand tools for the maintenance and mounting for parts for motor vehicles and brakes; hand tools for assembling springs, hand tools for centering couplings, hand operated lifting jacks; unrolling apparatus for tarpaulins; hand operated apparatus and devices for distributing cables, hoses, films, abrasive paper and emery cloth; cutlery; holders for hand-held machines with a balancing suspension; magnetic holders; punchers; devices principally made of metal for the distribution, the treatment, the processing, the uprolling and unrolling of cables, hoses, films, abrasive paper and emery cloth; vices; thread formers; all the aforesaid goods being hand operated tools; all included in Class 8.

Class 9

computers, personal computers, computer peripheral devices, scanners, readers, bar code readers, data capture devices, visual display units, liquid crystal displays; software recorded on data carries, CD-ROMs; printed boards, wire carriers; electric cables and lines, electric wires; conductors and connecting devices for all the aforesaid goods; electric sockets and distribution boxes; electric plug contacts, electric plug-in clamps, electrical switches and safety switches; plug-in couplings and electric clamps, screwed cable glands; cable coverings and cable clamps; electrical fuses for motor vehicles; battery clips; cable connectors, cable bushings, cable tapes, cable chips, cable grips, cable drums, cable conduits, cable channels for wires; cable shoes; wire and ferrule; electric plugs, electrical earthing tapes (electric cables in form of tapes), anti-interference tapes, loading clips and loading tongs, starter cables, lead poles; electric plugs and couplings for towed vehicles

and testing instruments therefor; batteries, accumulators, loading devices for accumulators; maintenance confirmation switches, brake lining wear contacts, testing apparatus for incandescent lamps, voltage testers, spark plug testers, testing devices for anti-freezing apparatus; battery reserve testers, compression gauges, radiator system testers; protective suits for workers, protective suits, protective aprons, safety helmets, breathing masks, protective gloves, protecting glasses, protective screens, welding gloves, electrical heating mirrors for plastic welding, welding electrodes; fire extinguishers; electrical soldering apparatus, adhesion magnets, sensor apparatus and adjusting gauges, measuring apparatus and measuring tapes, pressure measuring devices, measuring tools, measuring slides, angle measuring devices, assembly gauges, wood moisture level measuring devices, compasses, thermometers, water level indicators; apparatus for testing and checking motors; leak indicator devices; leak indicator ultra-violet lamps; transformers; telephones, radio telephones and intercommunication apparatus; telephone devices, telephones receivers, car telephones, car telefacsimile devices; telephone lines, antennas, adapters, consoles; warning devices, protection apparatus for motor vehicles, warning boards; warning apparatus; alarm apparatus; theft alarm apparatus, electric theft alarm apparatus, electronic locking device for motor vehicles; cable channels, push switches; electrical apparatus for dosing hot melt adhesives; parts and fittings for all the aforesaid goods; all included in Class 9.

Class 20

furniture for working and for use in workshops, rivets and dowels made of plastics; blind rivets made of non-metallic materials, screws and screw nuts, bolts, threaded bolts, disks made of non-metallic materials, spring washers made of non-metallic materials, springs made of non-metallic materials, clamping sleeves, cotters, lock nuts, wing nuts, hooks, clips, clamps, bushings made of non-metallic materials, distance bushings made of non-metallic materials, toothed disks made of non-metallic materials, stoppers, grommets and stoppers for tubes (not of glass, metal or rubber), fasteners made of non-metallic materials, washers made of plastics, connecting and supporting elements, clamps, rosettes, bolts, assembly punched tapes, cable hoops, cable clamps, collecting holders for cables; cable holders, cable hoses and clips (not electric); devices and apparatus essentially made of plastics for the distribution, the treatment, the processing, the up-rolling and unrolling of cables, hoses, films,

abrasive paper and emery cloth; hose fasteners made of non-metallic materials; cupboards, drawer cabinets, suspension cabinets, shelves, boxes; storage, storing and ranging boxes; supports, stands, work tables, work benches (moveable); tool boxes, carriers for tools and assortments, scaffolding trestles made of non-metallic materials, anchor plates, hinges and mountings for furniture, not made of metal; drawer guides, handles for furniture, wardrobe rods, tubes for cupboards, console, flap supports and holders; signs made of plastics; cans made of nylon, containers, valves, push switches and pushers for valves, hoses made of non-metallic materials, pipe branches made of non-metallic materials, pressure hoses made of non-metallic materials, brake hoses made of non-metallic materials, spouts of containers and canisters; ladders and steps made of non-metallic materials, steps made of non-metallic materials; pipe clips and pipe holders essentially made of non-metallic materials; radiator clips made of plastics; tool cases and bags made of plastic; all included in Class 20.

[571] 商標描述: N/A
Mark Description:

[730] 擁有人姓名/名稱、地址: SCHNEIDER ELECTRIC SA
43-45, BOULEVARD FRANKLIN ROOSEVELT, 92500 RUEIL-MALMAISON, FRANCE.
Owner's Name, Address:

[740/ 擁有人送達地址: Owner's Address for Service: MARGOLIS & ASSOCIATES
750] SUITE 1901 PACIFIC PLAZA, 410 DES VOEUX ROAD WEST, HONG KONG.

[511] 原來的類別編號: 6, 9, 11, 37, 42
Original Class No.:

[511] 建議的新類別編號: 6, 9, 11, 37, 40, 42, 43
Proposed New Class No.:

[511] 原來的貨品/服務說明: Class 6
Original Specification: common metals and their alloys; building materials of metal; transportable buildings of metal; railway materials of metal; non-electric cables and wires of metal; pipes of metal; safes; ores; all included in Class 6.

Class 9

scientific, electric, electronic apparatus and instruments for the transport, distribution, transformation, accumulation, regulation, filtering, measuring, signalling, control or operation of electric current, and the electric or electronic components for such apparatus and instruments; rectifiers; semi-conductors; electric relays; condensers; inductors; circuit breakers; switches; contactors; automation products; control panels; static converters; data processing devices; computer hardware and software; supply devices for computers; micro safety systems for computers; uninterruptible power supplies; inverters; batteries; accumulators; supply, filtering, transformation, maintenance and storage apparatus of electric energy; automatic distribution machines and mechanisms for prepayment apparatus; cash registers; calculating machines; computer and data processing equipment; extinguishers; all included in Class 9.

Class 11

lighting, heating, steaming, cooking, freezing, drying, ventilation and water distribution apparatus, bathroom plumbing equipment; all included in Class 11.

Class 37

construction of buildings; public works; rental of construction tools and apparatus; maintenance and cleaning of buildings and premises; repair of furniture, construction instruments and tools; shipbuilding; all included in Class 37.

Class 42

hotel services; engineering services; non-business professional consultancy and preparation of reports in the field of industrial electricity automation; engineering services (other than construction); material testing; laboratory services; printing; computer programming; all included in Class 42.

[511] 建議的新貨品/服務說明:

Proposed New Specification:

Class 6

common metals and their alloys; building materials of metal; transportable buildings of metal; railway materials of metal; non-electric cables and wires of metal; pipes of metal; safes; ores; all included in Class 6.

Class 9

scientific, electric, electronic apparatus and instruments for the transport, distribution, transformation, accumulation, regulation, filtering, measuring, signalling, control or operation of electric current, and the electric or electronic components for

such apparatus and instruments; rectifiers; semi-conductors; electric relays; condensers; inductors; circuit breakers; switches; contactors; automation products; control panels; static converters; data processing devices; computer hardware and software; supply devices for computers; micro safety systems for computers; uninterruptible power supplies; inverters; batteries; accumulators; supply, filtering, transformation, maintenance and storage apparatus of electric energy; automatic distribution machines and mechanisms for prepayment apparatus; cash registers; calculating machines; computer and data processing equipment; extinguishers; all included in Class 9.

Class 11

lighting, heating, steaming, cooking, freezing, drying, ventilation and water distribution apparatus, bathroom plumbing equipment; all included in Class 11.

Class 37

construction of buildings; public works; rental of construction tools and apparatus; maintenance and cleaning of buildings and premises; repair of furniture, construction instruments and tools; shipbuilding; all included in Class 37.

Class 40

printing; all included in Class 40.

Class 42

engineering services; non-business professional consultancy and preparation of reports in the field of industrial electricity automation; engineering services (other than construction); material testing; laboratory services; computer programming; all included in Class 42.

Class 43

hotel services; all included in Class 43.
