Surrendered in respect of the following goods or services for the registration:

類別 Class 9

Computer programs for use in managing mobile device transactions, managing mobile service provider services and collecting, generating and analyzing mobile communications sales and usage statistics; semi-automatic or fully automatic self-service kiosks for payment of bills, pay-as-you-go, insurance, or issue a new contract; software intended for fast and secure content transfer and delivery, fast identification and resolution of mobile phones problems diagnostics, analytics, automated buyback process, customer protection data by erasing old user data, automated distribution of mobile applications to enhance customer experience and boost revenues; electronic communications and memory devices for transferring, storing, editing, managing, synchronizing, preserving and restoring data from computer hardware and computer software storage devices, namely, mobile phones, portable GPS devices, tablets; computer programs for use in collecting, generating, analyzing and reporting of mobile device data; computer software for wiping and forensic wiping of mobile and other devices in the field of the device lifecycle; computer software for proactive monitoring of mobile and other devices' health, performance and battery condition in the field of the device lifecycle; computer software which provides fixes to software issues related to mobile and other devices in the field of the device lifecycle; multiple device wipe and forensics wipe computer software, namely, computer software which enables wiping data from mobile and other devices for multiple devices simultaneously for the purpose of protecting private data and limiting exposure to data leakage in the field of the device lifecycle; device optimization software, namely, computer software which enables optimization of the performance of the devices by

checking and fixing poor performance and device malfunctions in the field of the device lifecycle; computer software for backup and restoration of mobile and other devices content to/from cloud in the field of the device lifecycle; flash and update device software, namely, a computer software which enables the update of the operating system to ensure smooth functioning of mobile devices in field of the device lifecycle; multiple device triage software, namely a computer software which conducts triage repair diagnostics on multiple devices simultaneously to expedite the process of device repair and refurbishment in field of the device lifecycle; multiple flash and update device software, namely computer software which enables the update of the operating system on multiple devices simultaneously to ensure smooth functioning of mobile devices in field of the device lifecycle; multi-channel device diagnostics software, namely, computer software which conducts mobile device diagnostics across a range of delivery channels, including in-store, online and via mobile application to detect and correct mobile device malfunctions in the field of the device lifecycle; tethered and untethered device diagnostics software, namely, computer software for malfunctions and repair diagnostics of devices with wired connection or wireless connection in field of the device lifecycle; tethered and untethered device content transfer software, namely, computer software for transferring consumers' personal content from their old device to their new device, whether with a wired or wireless connection

類別 Class 41

Educational and training services, namely, conducting courses and seminars in the field of mobile life cycle

類別 Class 42

Analysis and triage services of device performance, functionality and battery life; detecting and removing malware; secure transfer of content from one device to another; backup, restore and support services of mobile device content in the field of mobile lifecycle; detection of phone specifications; delivering mobile applications to devices and managing mobile applications via web console; delivering data from mobile application to devices; consulting services in the field of mobile lifecycle; design and development of computer hardware and software in the field of mobile lifecycle; installation, maintenance and updating of computer software in the field of mobile lifecycle

紀錄冊內的貨品或服務現修改如下：

The remaining goods or services on the register now read as follows:

類別 Class 9

Computer software for mobile applications for use in merging, integrating, detecting, copying, examining, analyzing, unlocking, decrypting, decoding, extracting, retrieving, storing, restoring, preserving, editing, managing, synchronizing, distributing, inputting, collecting, transmitting, processing and presenting data and meta data, from computer hardware and computer software storage devices, namely, mobile phones,

portable GPS devices, tablets, and cloud-based services relating to digital intelligence and forensic science; computer software for merging, integrating, detecting, copying, examining, analyzing, unlocking, decrypting, decoding, extracting, retrieving, storing, restoring, preserving, editing, managing, synchronizing, distributing, inputting, collecting, transmitting, processing and presenting data and meta data from computer hardware and computer software storage devices, namely mobile phones, portable GPS devices, and tablets, and cloud-based services relating to digital intelligence and forensic science; computer software which allows the integration of data with other data analysis tools relating to digital intelligence and forensic science; software for scanning and retrieving the usage activity of computer hardware and computer software storage devices, namely, mobile phones, portable GPS devices, tablets; software for unifying and organizing cloud data into a unified format in the field of digital intelligence and forensic science; all-in-one mobile forensic kiosk that enables users to forensically access, extract, decode, collect and monitor data from computer hardware and computer software storage devices namely mobile phones, portable GPS devices, and tablets, and from cloud-based services; an intuitive user interface software, for extracting data, while saving time, ensuring strict access control and data management in the field of digital intelligence and forensic science; kit comprised of custom hardware and/or enhanced phone adapter in the nature of power adaptors, adapter cables in the nature of computer cables and connection cables, individual connectors in the nature of cable connectors and USB cables; all included in class 09.

類別 Class 41

Educational services, namely, training services in the field of digital intelligence and forensic science; training and consultation services in the field of digital investigations and digital-forensics science; all included in class 41.

類別 Class 42

Computer intelligence and forensic services, namely, merging, integrating, detecting, copying, examining, analyzing, unlocking, decrypting, decoding, extracting, retrieving, storing, restoring, preserving, editing, managing, synchronizing, distributing, inputting, collecting, transmitting, processing and presenting data and meta data from computer hardware and computer software storage devices, namely, mobile phones, portable GPS devices, and tablets, and from cloud-based services; consulting services in the field of digital intelligence and forensic investigations; design and development of computer hardware and software in the field of digital intelligence and forensic science; installation, maintenance and updating of computer software in the field of digital intelligence and forensic science; computer software consultancy in the field of digital intelligence and forensic science; consulting services in the nature of data analytics for use in the fields of digital intelligence and forensic science; consulting services in the field of digital investigations capabilities, namely, design, creation, development and establishment of computer forensic labs, development and establishment of testing specifications and procedures, computer

forensic software and equipment for use in computer a forensics lab; providing digital investigations capabilities, namely, design, creation and development of computer forensic lab, development and establishment of testing specifications and procedures, providing forensic software and equipment, all for use in computer forensics labs; consulting services, namely, design, creation, development and establishment of digital investigation operation and organization in the field of digital investigations and forensics science capabilities; consulting services, namely, design, creation, development and establishment of forensic lab in the field of digital investigations and forensics science; development and establishment of testing specifications and procedures, digital-forensic software and equipment for use by the digital investigation operations and organizations; development and establishment of testing specifications and procedures, providing forensic software and equipment, all for use in digital forensics labs; all included in class 42.
