註冊商標的貨品／服務說明重新分類

商標註冊處處長根據《商標規則》(第 559 章附屬法例)第 59/60 條，為對下列註冊商標的貨品／服務說明重新分類，作出修訂的建議。

根據《商標規則》第 61 條，任何聲稱受擬作出的修訂影響的人，可在本公告公布日期後的三個月內，採用表格第 T6 號提交反對建議的通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 4 日。)反對通知須載有提出反對理由的陳述，該陳述尤須解釋如作出修訂，反對人會如何受有關修訂影響，以及反對人為何認為作出該等修訂會違反《商標條例》(第 559 章)第 58(5)條。

根據《商標規則》第 95 條，提交反對通知的時限不得延展。

RECLASSIFICATION OF SPECIFICATION OF GOODS OR SERVICES OF REGISTERED TRADE MARKS

The Registrar of Trade Marks has made proposals for amendment under rule 59/60 of the Trade Marks Rules (Cap. 559 sub. leg.) for reclassification of the specification in respect of the following registration(s).

Under rule 61 of the Trade Marks Rules, any person claiming to be affected by the proposed amendment may, within 3 months after the date of this publication, file a notice of opposition to the proposals on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 4 July 2003.) The notice of opposition shall include a statement of the grounds of opposition, which statement shall, in particular, explain how the opponent would be affected by the amendments if they were made and why in the opponent's opinion the amendments would be contrary to section 58(5) of the Trade Marks Ordinance (Cap. 559).

It should be noted that under rule 95 of the Trade Marks Rules, extension of time cannot be allowed for filing the notice of opposition.

rotating and static electric machines; pneumatic, hydraulic, thermal machines; handling machines, baggage machines at airports, machines for the treatment of plastics; machines for the paper-making industry; machines and equipment for civil engineering, building, drilling, soil and sea bed prospecting, concrete mixers, asphalt spreaders, crushing machines, centrifugal machines, compressors, grinding machines, hoppers; drainage machines, crushing rollers, extracting machines, filtering, drilling, asphalt application, mixing machines; sieves (machines or parts of machines); machine tools; welding, heating, brazing, sawing, planing, shearing, drawing, laminating, cabling, shaping assembly machines; parts and fittings for the aforesaid machines; lathes; lifting and handling apparatus; dynamos, alternators, generators, pulleys; roller bridges; winches; cranes; jacks, pneumatic and hydraulic jacks; pneumatic shock absorbers; lubricators; air relief valves; pistons; generators, transmission belts and gears therefor; pumps (machines); pumps (parts of machines, engines or motor); vacuum pumps (machines), vacuum gauges; agricultural implements other than hand-operated; motors for machines and parts and fittings for the motors used for machines, machine coupling (non-electrical) and transmission components (except for land vehicles); incubators for eggs; household appliances for chopping, grinding, pressing and cutting; washing apparatus and cleaning machines; electric kitchen machines; presses (machines for industrial purposes); boiler collectors; taps; regulators (parts of machines); speed governors for machines, engines and motors; feedwater regulators; pressure regulators; tension ratchets (machines); air filters; water filtering machines; pumping equipment; filters (parts of machines or engines), filter presses; non-return valves; clock-making machines and tooling; fittings for engine boilers; generators of electricity; diaphragms for pumps; molds (parts of machines); electric can openers; whisks, electric, for household purposes; propulsion mechanisms for marine applications (other than for land vehicles); spray guns for paint; lifts (other than ski-lifts); elevators (lifts); electric motors; machine boiler scale collectors; all included in Class 7.

Class 9

scientific (other than for medical purposes), electrotechnical, nautical, surveying, acoustic, photographic, cinematographic, optical, weighing, measuring, signalling, regulating, control, protection, surveillance, cut-off, checking (supervision), life-saving, meteorological, control apparatus for motors,

apparatus and instruments for distributing, transforming, accumulating, adjusting or controlling electric current; teaching apparatus and instruments; apparatus for entering, recording, transmission or reproduction of sound or images; magnetic data carriers; phonograph records; automatic vending machines and mechanisms for coin-operated apparatus; cash registers; calculating machines; data processing equipment; fire extinguishers; electrochemical generators; electric accumulators and batteries; fuel cells; electric cryostats (for laboratory use); electric coils; electronic components; semi-conductors; printed circuits; electronic tubes; electrical conductors; communication and energy transmission wires and cables; junction sheaths and sleeves for electric cables and identification threads and sheaths for electric wires; welding apparatus (electric); equipment for cathodic protection; ducts (electricity); switchboards, control and instrumentation panels (electric), high voltage apparatus, circuit breakers, isolating switches, lightning arresters, optoelectronic reducers and reducers (electricity) for all voltages for internal, external sub-stations or shielded sub-stations; medium and low voltage apparatus, transformer panels and sub-station, switches, isolating switches, contacts, circuit breakers, fuses, sockets; transformers; power distributors; switches; junction boxes; transformers units; line isolators (electrical); apparatus for entering, storage, calculation, conversion and transmission of data; computers and peripheral devices; equipment and facilities for communications and telecommunications by wire, cable and radio; radio and television apparatus; tape recorders; record-players; compact disc players; telephones; optical and electro-optical equipment; lasers; masers; pyrometers; calorimeters; thermocouples, counters, taximeters; speed variators and regulators, regulators for vehicles and regulators; speed checking apparatus for vehicles; alarms, warning systems; luminous or mechanical signs; acoustic and optical signalling, sirens, communications and telecommunications equipment; modulators, transmitters, receivers, aerials, wave guides, television and radio broadcasting equipment for general public and professionals; telephone exchanges; interphones; apparatus and instruments relating to infrasound measurements and analyses; rectifiers; amplifiers; radio-guidance equipment; loudspeakers; regulators for voltage, current, power, control and frequency; urban, road and railway signalling apparatus; static and rotating converters; energy converters; resistances, electric; rheostats; condensers (capacitors), magnets; prefabricated ducts (electricity); electric conductors

of all metals; scales; thermostats; diaphragms; relays, remote controlled relays, electric relays, protection relays and auxiliary relays, indicators, transducers and monitoring, analysis, communication and control systems for electric networks and power generation stations and electrical equipment; electrical network control and test systems; electric control panels; electric test apparatus; programmable logic controllers; communication apparatus for industrial use; programmable controllers and peripheral equipment; electrical energy converters; telecommunications equipment on energy transmission lines; electronic printed circuit cards; electronic microcircuits; software for the implementation and operation of microcircuits or electronic cards; control and supervision software for logic control processes; programming, implementation and operating software for the aforesaid apparatus, hardware and software; lighting regulator; electric speed regulators for motors; all included in Class 9.

Class 11

installations, apparatus for lighting, air conditioning, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply; dampers (heating), installations for sanitary purposes, air filters, water filters; cookers, refrigerators; nuclear reactors; gas generators; installations for the treatment of fuels and nuclear moderators; heating machines, taps (faucets); electrical tubes; sockets for electric lights; industrial water boilers; burners; shaped fittings for ovens and/or furnaces; sterilizers, pasteurizers; lighting apparatus for airport runways; filters (parts of domestic or industrial facilities); installations for processing nuclear fuels; all included in Class 11.

Class 12

vehicles; apparatus for locomotion by land, air, water or on rail; ships; electric vehicles; engines and engine parts, spare parts for land vehicles; pneumatic shock absorbers; transmission belts and gears therefor; air pumps (vehicles accessories); transmission shafts for land vehicles; screws (propellers) for ships; screw-propellers; submarines; propulsion mechanisms for land vehicles; military vehicles for transport, tanker trucks; oil tankers; refueling aircrafts; tanker railcars; all included in Class 12.

Class 13

firearms; ammunition and projectiles; explosives, fireworks; signal rockets; all included in Class 13.

Class 16

paper and cardboard (unprocessed, semi-processed or for stationery); printed matter; drawing pins; bookbinding material; photographs; stationery; printed matter; newspaper; periodicals; books; adhesives for stationery or household purposes; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); printers' type; printing blocks; wrapping paper; rollers (stationery); all included in Class 16.

Class 17

rubber, gutta-percha, gum, balata and asbestos, raw or partly processed mica; gaskets; sheets, plates and sticks made of plastic materials; all being semi-finished; semi-processed plastic goods; stopping and insulating materials; flexible pipes, not of metal; gaskets of metal, seals in various different plastics; packing materials of rubber or plastics; all included in Class 17.

Class 19

building materials (non-metallic); waterproof coverings, prefabricated and not of metal, used for road-building; non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal; storage tanks; signs, not of metal (non-luminous and non-mechanical); signs, urban, road and railway signalling apparatus; prefabricated pipelines, all being non-metallic and for building purpose; refractory materials for the protection of furnaces; bituminous products for building; natural and artificial stones, cements, lime, mortar, plaster and gravel; rolled and profiled pipes for buildings; concrete posts; refractory bricks; gates; all included in Class 19.

Class 24

fabrics for textile use; bed or table covers; cloth, fabric and felt for technical purposes; all included in Class 24.

Class 35

advertising; business management (maintenance and repair) relating to the fields of electro-technology, electronics, mechanics, transmission of electric energy, nuclear engineering, locomotion, electro-chemical, civil engineering, building, drilling, prospecting of land and sea beds; business management, business administration; business operation and management of road, railway, port and airport systems; distribution of prospectuses, samples; newspaper subscriptions services (for others); provision of

business information; accounting; document reproduction; employment agencies; computerized file management; organization of exhibitions for commercial or advertising purposes; transcription, compilation of written communications for business purpose; exploitation or compilation of mathematical or statistical data for business purpose; business management consultancy; all included in Class 35.

Class 36

insurance; real estate appraisal, real estate consultancy; issuing of traveller's checks and letters of credit; apartment house management; clearing (financial) services; securities and real estate property brokerage services; rental, appraisal of real estate property; financing services; all included in Class 36.

Class 37

building construction; servicing, repair, installation and maintenance of apparatus, equipment and machines relating to electro-technology, electronics, mechanics, transmission of electric energy, nuclear engineering, locomotion, railway, electrochemical engineering, civil engineering, building, drilling, prospecting of land and sea beds; turnkey factory construction; rental of building apparatus; construction project inspection; public works; construction of rural works; drilling of wells; rental of building tools and equipment, bulldozes, tree extractors; servicing or cleaning of buildings, premises, flooring; facade cleaning, disinfecting, rat extermination; repair of clothing, retreading or vulcanization of tires; building of roads, bridges, dams or transmission lines; painting, plumbing, heating equipment installation; roofing; shipbuilding; rental of tools or building materials; supervision of infrastructure construction projects for power generation and transport; painting of buildings; all included in Class 37.

Class 38

telecommunications; news agencies and wire services; communications by computer terminals; radio or television broadcasting; all included in Class 38.

Class 39

transport of goods by rail, land and air; packaging, goods handling, storage and delivery of goods; transport and distribution of energy; travel arrangement; delivery of newspapers; transport and distribution of water and electricity; operation of transporters bridges; unloading and loading of baggage and goods; towing of ships, refloating of ships; garage

rental; transport vehicle rental; salvage of ships in distress and of their cargoes; information relating to travel or to the transport of goods; inspection of vehicles or of goods before transport; rescue operations, salvaging services; all included in Class 39.

Class 40

shoe-making; magnetization, silver-plating, chromium plating, metal casting, stripping finishes, gilding, electroplating, blacksmithing, laminating, metal plating, metal tempering, processing of oil, nickel plating, cadmium plating, refining services; galvanization; cathodic protection; fritting of materials; treatment of plastic materials; electric soldering; vinification, distillation, threshing, fruit crushing, flour milling; all being the processing of agricultural products belonging to others; sawing, planing (saw mill), metal cutting, shaping of materials, polishing services, metal coating (not painting); dyeing of fabrics or clothing; cloth waterproofing; binding of documents; tin-plating; air purification and regeneration; vulcanization (material treatment); photographic printing; all included in Class 40.

Class 41

organising sporting and cultural activities; publishing of books and magazines; lending libraries; production of shows, film production; agencies for artists; rental of films, of phonographic records, of film projection apparatus and of theatre scenery; organization of competitions for education and entertainment purposes; arranging and conducting of colloquiums, conferences and congresses; organization of exhibitions for cultural or educational purposes; all included in Class 41.

Class 42

catering services in relation to the provision of food and drink; providing temporary accommodation; medical and beauty care; veterinary and agricultural services; legal services; scientific and industrial research; computer programming, computer software design; study of technical projects pertaining to all apparatus, equipment and machines relating to the fields of electro-technology, electronics, mechanics, transmission of electric energy, nuclear engineering, locomotion, electrochemical engineering, civil engineering, building, drilling, prospecting of land and sea beds; hydrodynamic studies and testing; engineering services, professional consultancy relating to engineering and engineering drawings (non-business),

material and product testing; laboratory work; engineering drawing (not for construction); technical project studies of turnkey plant projects; geological and oil prospecting; farming equipment, clothing, bedding, and dispensing machines rental; printing; leasing of access time to a computer data base; news reporters services; videotaping; management of the provision of exhibition facilities; engineering evaluations, appraisals, research and reports; engineering, design, production and management of turnkey infrastructure projects for transmission and distribution of energy; oil-well testing; quality control; security consultancy; all included in Class 42.

[511] 建議的新貨品/服務說明:

Proposed New Specification:

Class 1

chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry and pastes made of plastic material; unprocessed artificial and synthetic resins, unprocessed plastics; fertilizers, manures for agriculture; fire extinguishing compositions; metal tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry; fissile substances for nuclear devices; fuel elements for reactors; water and oil purifying chemicals; all included in Class 1.

Class 2

paints and varnishes (except insulators), lacquers (paints); preservatives against rust and against deterioration of wood; colorants; mordants (except for metals and seeds); raw natural resins; metals in foil and powder form for painters, decorators, printers and artists; all included in Class 2.

Class 4

industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; carburants, fuels, motor spirit and illuminants; candles and wicks (lighting); all included in Class 4.

Class 6

foil of tin, lead, aluminium and their alloys; common metals and their alloys; rolled, shaped, worked and semi-worked materials based on tin, lead, aluminium and their alloys; semi-worked materials in copper and aluminium and their alloys; drawn metals, rolled products in the form of steel sheet and/or plate; nickel-silver and alloys of nickel; bronzes; metal building materials; transportable buildings of metal; rails and materials of metal for railway tracks; metal chains; non-electric cables and wires of common metal; non-electric ironmongery; metal hardware for use in

buildings; pipes and tubes of metal; safes; nails and screws; ores; metal storage tanks, containers of metal for storage or transport; valves of metal; casings of metal for use in building; wire of common metal for stationery; wire cloth for stationery; fittings of metal; girders of metal; sintered hard metals; moldings of metal; upright pillars of metal; rolled and profiled pipes of metal for buildings; posts of metal; products made of aluminium and alloys for building; spray painting booths; fire doors of metal, door closers of metal (non-electric); all included in Class 6.

Class 7

rotating and static electric machines; pneumatic, hydraulic, thermal machines; handling machines, baggage machines at airports, machines for the treatment of plastics; machines for the paper-making industry; machines and equipment for civil engineering, building, drilling, soil and sea bed prospecting, concrete mixers, asphalt spreaders, crushing machines, centrifugal machines, compressors, grinding machines, hoppers; drainage machines, crushing rollers, extracting machines, filtering, drilling, asphalt application, mixing machines; sieves (machines or parts of machines); machine tools; welding, heating, brazing, sawing, planing, shearing, drawing, laminating, cabling, shaping assembly machines; parts and fittings for the aforesaid machines; lathes; lifting and handling apparatus; dynamos, alternators, generators, pulleys; roller bridges; winches; cranes; jacks, pneumatic and hydraulic jacks; pneumatic shock absorbers; lubricators; air relief valves; pistons; generators, transmission belts and gears therefor; pumps (machines); pumps (parts of machines, engines or motor); vacuum pumps (machines), vacuum gauges; agricultural implements other than hand-operated; motors for machines and parts and fittings for the motors used for machines, machine coupling (non-electrical) and transmission components (except for land vehicles); incubators for eggs; household appliances for chopping, grinding, pressing and cutting; washing apparatus and cleaning machines; electric kitchen machines; presses (machines for industrial purposes); boiler collectors; taps; regulators (parts of machines); speed governors for machines, engines and motors; feedwater regulators; pressure regulators; tension ratchets (machines); air filters; water filtering machines; pumping equipment; filters (parts of machines or engines), filter presses; non-return valves; clock-making machines and tooling; fittings for engine boilers; generators of electricity; diaphragms for pumps; molds (parts of machines); electric can openers; whisks, electric, for household

purposes; propulsion mechanisms for marine applications (other than for land vehicles); spray guns for paint; lifts (other than ski-lifts); elevators (lifts); electric motors; machine boiler scale collectors; all included in Class 7.

Class 9

scientific (other than for medical purposes), electrotechnical, nautical, surveying, acoustic, photographic, cinematographic, optical, weighing, measuring, signalling, regulating, control, protection, surveillance, cut-off, checking (supervision), life-saving, meteorological, control apparatus for motors, apparatus and instruments for distributing, transforming, accumulating, adjusting or controlling electric current; teaching apparatus and instruments; apparatus for entering, recording, transmission or reproduction of sound or images; magnetic data carriers; phonograph records; automatic vending machines and mechanisms for coin-operated apparatus; cash registers; calculating machines; data processing equipment; fire extinguishers; electrochemical generators; electric accumulators and batteries; fuel cells; electric cryostats (for laboratory use); electric coils; electronic components; semi-conductors; printed circuits; electronic tubes; electrical conductors; communication and energy transmission wires and cables; junction sheaths and sleeves for electric cables and identification threads and sheaths for electric wires; welding apparatus (electric); equipment for cathodic protection; ducts (electricity); switchboards, control and instrumentation panels (electric), high voltage apparatus, circuit breakers, isolating switches, lightning arresters, optoelectronic reducers and reducers (electricity) for all voltages for internal, external sub-stations or shielded sub-stations; medium and low voltage apparatus, transformer panels and sub-station, switches, isolating switches, contacts, circuit breakers, fuses, sockets; transformers; power distributors; switches; junction boxes; transformers units; line isolators (electrical); apparatus for entering, storage, calculation, conversion and transmission of data; computers and peripheral devices; equipment and facilities for communications and telecommunications by wire, cable and radio; radio and television apparatus; tape recorders; record-players; compact disc players; telephones; optical and electro-optical equipment; lasers; masers; pyrometers; calorimeters; thermocouples, counters, taximeters; speed variators and regulators, regulators for vehicles and regulators; speed checking apparatus for vehicles; alarms, warning systems; luminous or mechanical signs; acoustic and

optical signalling, sirens, communications and telecommunications equipment; modulators, transmitters, receivers, aerials, wave guides, television and radio broadcasting equipment for general public and professionals; telephone exchanges; interphones; apparatus and instruments relating to infrasound measurements and analyses; rectifiers; amplifiers; radio-guidance equipment; loudspeakers; regulators for voltage, current, power, control and frequency; urban, road and railway signalling apparatus; static and rotating converters; energy converters; resistances, electric; rheostats; condensers (capacitors), magnets; prefabricated ducts (electricity); electric conductors of all metals; scales; thermostats; diaphragms; relays, remote controlled relays, electric relays, protection relays and auxiliary relays, indicators, transducers and monitoring, analysis, communication and control systems for electric networks and power generation stations and electrical equipment; electrical network control and test systems; electric control panels; electric test apparatus; programmable logic controllers; communication apparatus for industrial use; programmable controllers and peripheral equipment; electrical energy converters; telecommunications equipment on energy transmission lines; electronic printed circuit cards; electronic microcircuits; software for the implementation and operation of microcircuits or electronic cards; control and supervision software for logic control processes; programming, implementation and operating software for the aforesaid apparatus, hardware and software; lighting regulator; electric speed regulators for motors; all included in Class 9.

Class 11

installations, apparatus for lighting, air conditioning, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply; dampers (heating), installations for sanitary purposes, air filters, water filters; cookers, refrigerators; nuclear reactors; gas generators; installations for the treatment of fuels and nuclear moderators; heating machines, taps (faucets); electrical tubes; sockets for electric lights; industrial water boilers; burners; shaped fittings for ovens and/or furnaces; sterilizers, pasteurizers; lighting apparatus for airport runways; filters (parts of domestic or industrial facilities); installations for processing nuclear fuels; all included in Class 11.

Class 12

vehicles; apparatus for locomotion by land, air, water or on rail; ships; electric vehicles; engines and

engine parts, spare parts for land vehicles; pneumatic shock absorbers; transmission belts and gears therefor; air pumps (vehicles accessories); transmission shafts for land vehicles; screws (propellers) for ships; screw-propellers; submarines; propulsion mechanisms for land vehicles; military vehicles for transport, tanker trucks; oil tankers; refueling aircrafts; tanker railcars; all included in Class 12.

Class 13

firearms; ammunition and projectiles; explosives, fireworks; signal rockets; all included in Class 13.

Class 16

paper and cardboard (unprocessed, semi-processed or for stationery); printed matter; drawing pins; bookbinding material; photographs; stationery; printed matter; newspaper; periodicals; books; adhesives for stationery or household purposes; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); printers' type; printing blocks; wrapping paper; rollers (stationery); all included in Class 16.

Class 17

rubber, gutta-percha, gum, balata and asbestos, raw or partly processed mica; gaskets; sheets, plates and sticks made of plastic materials; all being semi-finished; semi-processed plastic goods; stopping and insulating materials; flexible pipes, not of metal; gaskets of metal, seals in various different plastics; packing materials of rubber or plastics; all included in Class 17.

Class 19

building materials (non-metallic); waterproof coverings, prefabricated and not of metal, used for road-building; non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal; storage tanks; signs, not of metal (non-luminous and non-mechanical); signs, urban, road and railway signalling apparatus; prefabricated pipelines, all being non-metallic and for building purpose; refractory materials for the protection of furnaces; bituminous products for building; natural and artificial stones, cements, lime, mortar, plaster and gravel; rolled and profiled pipes for buildings; concrete posts; refractory bricks; gates; all included in Class 19.

Class 24

fabrics for textile use; bed or table covers; cloth, fabric and felt for technical purposes; all included in

Class 24.

Class 35

advertising; business management (maintenance and repair) relating to the fields of electro-technology, electronics, mechanics, transmission of electric energy, nuclear engineering, locomotion, electro-chemical, civil engineering, building, drilling, prospecting of land and sea beds; business management, business administration; business operation and management of road, railway, port and airport systems; distribution of prospectuses, samples; newspaper subscriptions services (for others); provision of business information; accounting; document reproduction; employment agencies; computerized file management; organization of exhibitions for commercial or advertising purposes; transcription, compilation of written communications for business purpose; exploitation or compilation of mathematical or statistical data for business purpose; business management consultancy; dispensing machines rental; all included in Class 35.

Class 36

insurance; real estate appraisal, real estate consultancy; issuing of traveller's checks and letters of credit; apartment house management; clearing (financial) services; securities and real estate property brokerage services; rental, appraisal of real estate property; financing services; all included in Class 36.

Class 37

building construction; servicing, repair, installation and maintenance of apparatus, equipment and machines relating to electro-technology, electronics, mechanics, transmission of electric energy, nuclear engineering, locomotion, railway, electrochemical engineering, civil engineering, building, drilling, prospecting of land and sea beds; turnkey factory construction; rental of building apparatus; construction project inspection; public works; construction of rural works; drilling of wells; rental of building tools and equipment, bulldozes, tree extractors; servicing or cleaning of buildings, premises, flooring; facade cleaning, disinfecting, rat extermination; repair of clothing, retreading or vulcanization of tires; building of roads, bridges, dams or transmission lines; painting, plumbing, heating equipment installation; roofing; shipbuilding; rental of tools or building materials; supervision of infrastructure construction projects for power generation and transport; painting of buildings; all included in Class 37.

Class 38

telecommunications; news agencies and wire services; communications by computer terminals; radio or television broadcasting; all included in Class 38.

Class 39

transport of goods by rail, land and air; packaging, goods handling, storage and delivery of goods; transport and distribution of energy; travel arrangement; delivery of newspapers; transport and distribution of water and electricity; operation of transporters bridges; unloading and loading of baggage and goods; towing of ships, refloating of ships; garage rental; transport vehicle rental; salvage of ships in distress and of their cargoes; information relating to travel or to the transport of goods; inspection of vehicles or of goods before transport; rescue operations, salvaging services; all included in Class 39.

Class 40

shoe-making; magnetization, silver-plating, chromium plating, metal casting, stripping finishes, gilding, electroplating, blacksmithing, laminating, metal plating, metal tempering, processing of oil, nickel plating, cadmium plating, refining services; galvanization; cathodic protection; fritting of materials; treatment of plastic materials; electric soldering; vinification, distillation, threshing, fruit crushing, flour milling; all being the processing of agricultural products belonging to others; sawing, planing (saw mill), metal cutting, shaping of materials, polishing services, metal coating (not painting); dyeing of fabrics or clothing; cloth waterproofing; binding of documents; tin-plating; air purification and regeneration; vulcanization (material treatment); photographic printing; printing; all included in Class 40.

Class 41

organising sporting and cultural activities; publishing of books and magazines; lending libraries; production of shows, film production; agencies for artists; rental of films, of phonographic records, of film projection apparatus and of theatre scenery; organization of competitions for education and entertainment purposes; arranging and conducting of colloquiums, conferences and congresses; organization of exhibitions for cultural or educational purposes; news reporters services; videotaping; all included in Class 41.

Class 42

legal services; scientific and industrial research; computer programming, computer software design; study of technical projects pertaining to all apparatus, equipment and machines relating to the fields of electro-technology, electronics, mechanics, transmission of electric energy, nuclear engineering, locomotion, electrochemical engineering, civil engineering, building, drilling, prospecting of land and sea beds; hydrodynamic studies and testing; engineering services, professional consultancy relating to engineering and engineering drawings (non-business), material and product testing; laboratory work; engineering drawing (not for construction); technical project studies of turnkey plant projects; geological and oil prospecting; leasing of access time to a computer data base; engineering evaluations, appraisals, research and reports; engineering, design, production and management of turnkey infrastructure projects for transmission and distribution of energy; oil-well testing; quality control; all included in Class 42.

Class 43

catering services in relation to the provision of food and drink; providing temporary accommodation; bedding machines rental; management of the provision of exhibition facilities; all included in Class 43.

Class 44

medical and beauty care; veterinary and agricultural services; farming equipment rental; all included in Class 44.

Class 45

clothing rental; security consultancy; all included in Class 45.
