

香港特別行政區政府知識產權署商標註冊處  
Trade Marks Registry, Intellectual Property Department  
The Government of the Hong Kong Special Administrative Region

### 接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

### ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

[511] 類別編號 : 9, 35, 36, 42  
Class(es) No(s) .:

[511] 貨品 / 服務說明 : Class 42:  
Specification: Research in the reduction of carbon emissions;  
design and development of energy management  
software; development of energy and power  
management systems; calibration [measuring];  
preparation of technical projects, technical  
research and consultancy services in the field  
of carbon offsetting; providing scientific

information, advice and consultancy relating to carbon offsetting; certification services for the energy efficiency of buildings; computer security services in the nature of administering digital certificates; energy auditing; programming of energy management software; design and development of computer software for logistics, supply chain management and e-business portals; programming of software for database management; programming of software for inventory management; design and development of software for inventory management; technological analysis relating to energy and power needs of others; technological consultancy in the fields of energy production and use; technological consulting services in the field of alternative energy generation; energy use and conservation consultancy; design and development of regenerative energy generation systems; consultancy and information services relating to information technology architecture and infrastructure; design and development of computer hardware and software architecture; computer systems integration services; integration of computer systems and networks; development of measuring and testing methods; technical measuring and testing; design of measurement systems; technical advice in connection with energy-saving measures; design and development of energy distribution networks; design and development of data processing software; design and development of software for importing and managing data; data storage via blockchain; data authentication via blockchain; advisory services relating to energy efficiency; advisory services relating to the use of energy; environmental monitoring services; consultancy in the field of energy-saving; design and development of software for control, regulation and monitoring of solar energy systems; computer programming for the energy industry; programming of software for e-commerce platforms; research relating to city and Smart City planning; analytical services relating to computer programmes; computer monitoring service which tracks application software performance, performs periodic maintenance and provides reports and alerts concerning such performance [quality control]; computer monitoring service which tracks hardware performance and processes and sends out historical reports and alerts [quality control]; research in the field of artificial intelligence; engineering services

in the field of reduction of operating costs, fuel blending, waste handling, quality performance of co-products and by-products, and chemical distribution; providing a web site featuring technology that enables users to connect with other people in their neighbourhood or city for any number of user-specified reasons, including providing a service or organizing an event; technical data analysis; computer systems design and analysis; greenhouse gas emission measuring and analysis; providing artificial intelligence computer programs on data networks; platforms for artificial intelligence as software as a service [SaaS]; computer aided scientific and industrial analysis services; design and development of operating system software; computer technical support services, namely, 24/7 service desk or help desk services for IT infrastructure, operating systems, database systems, and web applications; technical consultancy in the field of energy saving and energy efficiency; design of communication systems; design and development of operating software for accessing and using a cloud computing network; design and development of software in the field of mobile applications; development of computer software application solutions; online provision of web-based applications; computer software consultancy; technological consultancy; server hosting; scientific research and development; technological research; technological planning and consulting services in the field of renewable energy resources; meteorological forecasting; industrial analysis, industrial research and industrial design services; conducting research and technical project studies relating to the use of natural energy; cloud computing; cloud hosting provider services; computer programming services; computer programming for data processing and communication systems; providing virtual computer environments through cloud computing; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; consulting in the field of cloud computing networks and applications; consultancy relating to technological services in the field of power and energy supply; design and development of software for database management; design and development of operating software for computer networks and servers; engineering consultancy; engineering

services in the field of energy technology; engineering services relating to energy supply systems; provision of information concerning research and technical project studies relating to the use of natural energy; research in the field of energy; platform as a service (PaaS); programming of software for information platforms on the Internet; software as a service [SaaS]; software as a service (SaaS) services featuring computer software for management of data analytics and for operating a digital marketplace connecting unlimited devices to a cloud-based platform; providing temporary use of web based cloud-computing software for connecting unlimited devices to a cloud computing platform; computer engineering; computer-aided engineering design and drawing services; engineering services in the field of environmental technology; computer software research; product research and development; research in the field of environmental conservation; research on building construction or city planning; rental of meters for the recording of energy consumption; design of communications apparatus; design and development of software for the generation, distribution and storage of sustainable and renewable energy; design and development of software for the reduction of carbon emissions; design and development of software for decarbonisation solutions; design and development of software for the reduction of energy consumption; research in the field of renewal energy; technological consulting services in the field of decarbonisation solutions; computer software development services for software used in connection with the management of devices that generate energy and devices that consume energy, the management of weather and energy forecasting, and the management of devices that generate and consume wind and solar energy; computer software consultancy and advisory services for software used in connection with the management of devices that generate energy and devices that consume energy, the management of weather and energy forecasting, and the management of devices that generate and consume wind and solar energy; consultancy and advisory services in the fields of renewable energy systems development, and the project management [design] of energy generation and supply assets; consultancy and advisory services relating to technological services in the field of demand-side energy resources and

assets supply, weather and energy forecasting, and the production of wind and solar energy; website services in the fields of renewable energy and energy asset management, namely hosting of a website containing information in the fields of renewable energy and energy asset management; research and development of new products for others; surveying; meteorological information; rental of web servers; rental of computer software; monitoring of computer systems by remote access; computer software design; Providing temporary use of non-downloadable computer software in the nature of an online platform and online dashboard for analyzing data for optimization of equipment performance and power plant production in the wind and solar energy industries; Platform as a service (PAAS) featuring computer software platforms for analyzing data for optimization of equipment performance and power plant production in the wind and solar energy industries; software as a service (SAAS) services featuring software for analyzing data for optimization of equipment performance and power plant production in the wind and solar energy industries, all of the foregoing excluding computer software for surveillance or video monitoring for purposes of point-of-sale, business management and marketing data collection and analysis; platform as a service (PAAS) featuring computer software platforms for energy management and optimization; software as a service (SAAS) services featuring software for energy management and optimization; computer software consultancy and advisory services for energy management and optimization; platform as a service (PaaS) featuring computer software platforms for management of data analytics and for operating a digital marketplace connecting unlimited devices to a cloud-based platform; computer system analysis; computer system design; computer technology consultancy; electronic data storage; information technology [IT] consultancy; providing information on computer technology and programming via a web site; outsource service providers in the field of information technology; platform as a service [PaaS]; research in the field of environmental protection; provision of scientific information, advice and consultancy in relation to carbon offsetting; technological engineering analysis; computer-aided industrial and scientific analysis; computer aided industrial design, research, testing and

analysis services; digital distributed storage; design and development of systems for data input, output, processing, display and storage; monitoring of erosion, pressure, vibration, corrosion, temperature and sedimentation [environmental monitoring services]; condition monitoring relating to fluids, oils, fuel and gas; electronic monitoring and reporting of pipe systems and tanks using computers and sensors [quality control]; storage system monitoring services [machine condition monitoring]; providing temporary use of non-downloadable cloud-based software for monitoring energy consumption and calculating energy costs; meteorological forecasting services; design, development, maintenance and updating of computer software for process control; certification of data via blockchain; data authentication via blockchain.

[511] 貨品 / 服務說明 :  
Specification: Class 42:  
Application service provider (ASP);  
Application service provider (ASP) featuring  
application programming interface (API)  
software which facilitates online services for  
social networking, developing software  
applications; Application service provider  
(ASP) featuring software for mapping services;  
Application service provider (ASP) featuring  
software for social networking, managing  
social networking content, creating a virtual  
community, and transmission of images, audio-  
visual and video content, photographs, videos,  
data, text, messages, advertisements, media  
advertising communications and information;  
Application service provider (ASP) featuring  
software for use in buying, selling,  
designing, managing, tracking, valuing,  
optimizing, targeting, analyzing, delivery,  
and reporting of online advertising and  
marketing; Application service provider (ASP)  
services featuring software for controlling,  
integrating, operating, connecting, and  
managing voice controlled information devices,  
namely, cloud-connected and voice-controlled  
smart consumer electronic devices and  
electronic personal assistant devices;  
Application service provider (ASP) services  
featuring software to enable or facilitate  
voice over internet protocol (VOIP) calls,  
phone calls, video calls, text messages,  
electronic message, instant message, and  
online social networking services; Application  
service provider (ASP) services, namely,  
hosting computer software applications of  
others; Application service provider, namely,  
providing, hosting, managing, developing, and  
maintaining applications, software, web sites,  
and databases in the fields of wireless  
communication, mobile information access, and  
remote data management for wireless delivery  
of content to handheld computers, laptops and  
mobile electronic devices; Computer software  
consultation; Computer software, application,  
and network consulting services; Computer  
services in the nature of providing customized  
online pages featuring user-defined or  
specified information, personal profiles,  
virtual reality, mixed reality, and augmented  
reality content and data; Computer services,

namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Mapping services; Mobile computer and mobile communications device software consultation; provision of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; provision of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; provision of non-downloadable software for streaming multimedia entertainment content; Online advertising-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; provision of online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; provision of online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking and

transmission of images, audio-visual content, video content and messages; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Providing social assistant software; Providing software for facilitating and arranging for the financing and distribution of fundraising and donations; Providing software for online charitable fundraising services and financial donation services; Providing temporary access to non-downloadable computer software for mapping services; Providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing temporary use of non-downloadable computer software for social and destination mapping; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via

the internet and communication networks; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; Providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing temporary use of non-downloadable software for electronic messaging; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Providing temporary use of non-downloadable software for processing electronic payments; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, social networks, text files, and multimedia files; Providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; Software as a service (SAAS) featuring

computer software for use as an application programming interface (API); Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Technical support services, namely, troubleshooting in the nature of diagnosing computer software problems; Technical support, namely, troubleshooting of computer software problems and mobile computer and mobile communications device software problems; Computer services, namely, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; Computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data on the internet and communication networks; Application service provider (ASP) services; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Providing online sites that give users the ability to upload, modify and share virtual reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share augmented reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share mixed reality content, information, experiences and data; provision of non-downloadable software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; provision of software

for electronic messaging; provision of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; provision of non-downloadable computer software for social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; provision of non-downloadable software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; provision of non-downloadable software for providing a virtual marketplace; provision of non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Providing personal assistant software; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; Maintenance and repair of computer software; provision of non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology via the internet; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Computer services, namely, cloud hosting provider services; provision of online non-downloadable cloud computing software for use in electronic storage of data; provision of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; File sharing services, namely, providing online facilities for others featuring technology enabling users

to upload and download electronic files;  
Hosting of digital content on the internet;  
Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable software applications for providing location-based weather information; Providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; Providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; Providing temporary use of non-downloadable software for organizing images, video, and audio-visual content using metadata tags; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls,

phone calls, video calls, text messages, electronic message and instant message; Providing temporary use of non-downloadable computer software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Data encryption services; Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) featuring computer software for personal information management; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (IoT)

electronic devices; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the Internet; Provision of Internet search engine services; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (ASP), namely, hosting computer software applications through the internet of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Software as a service (SAAS) services, namely, hosting software for use by others for use providing an online database featuring a wide range of general interest information via the internet; Providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Providing internet search engines; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Computer consulting,

computer programming; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; Computer hardware, software, application, and network consulting services; Providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, text files, and multimedia files; Application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; Computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; provision of non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; provision of non-downloadable

computer software for tracking fitness, health and wellness goals and statistics; provision of non-downloadable software for creating personalized fitness training programs; provision of non-downloadable software for providing personal training services, workouts and fitness assessments; computer services, namely providing an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; computer services, namely providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Design and development of computer hardware and software; computer services, namely providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing

temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Development of hardware for use in connection with electronic and interactive multimedia games; Electronic and interactive multimedia game development services; Providing temporary use of non-downloadable software for ordering and/or purchasing goods and services; Providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Providing temporary use of non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Platform as a service (PAAS) featuring computer software platforms for social networking and transmission of images, audio-visual content, video content and messages; Design and development of computer game hardware and software; Design and development of virtual reality hardware and software; Design and development of video game hardware and software; Design and development of augmented reality hardware and software; Computer software development; Design and development of interactive multimedia software; Providing temporary use of non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology and software development via the internet; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; Hosting of digital [virtual reality and augmented reality] content on the internet; Scientific and technological services and research and design relating thereto; computer services, namely providing online facilities for connecting sellers with buyers; Providing technical support services regarding the usage of communications equipment.

Application service provider (ASP) featuring

software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer software consultation; Computer software, application, and network consulting services; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing search engines for obtaining data via the internet and communications networks;

Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Mapping services; Mobile computer and mobile communications device software consultation; provision of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; provision of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; provision of non-downloadable software for streaming multimedia entertainment content; Online advertising-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; provision of online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; provision of online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text,

content and data; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Providing social assistant software; Providing software for facilitating and arranging for the financing and distribution of fundraising and donations; Providing software for online charitable fundraising services and financial donation services; Providing temporary access to non-downloadable computer software for mapping services; Providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing temporary use of non-downloadable computer software for social and destination mapping; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; Providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing temporary use of non-downloadable software for electronic messaging; Providing

temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Providing temporary use of non-downloadable software for processing electronic payments; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, social networks, text files, and multimedia files; Providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Technical support services, namely, troubleshooting in the nature of diagnosing computer software problems; Technical support, namely, troubleshooting of computer software problems and mobile computer and mobile communications device software problems; Computer services, namely, hosting electronic facilities for

others for organizing and conducting meetings, events and interactive discussions via communication networks; Computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data on the internet and communication networks; Application service provider (ASP) services; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Providing online sites that give users the ability to upload, modify and share virtual reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share augmented reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share mixed reality content, information, experiences and data; provision of non-downloadable software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; provision of software for electronic messaging; provision of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; provision of non-downloadable computer software for social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; provision of non-downloadable software for ordering and/or purchasing goods and services;

Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; provision of non-downloadable software for providing a virtual marketplace; provision of non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Providing personal assistant software; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; Maintenance and repair of computer software; provision of non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology via the internet; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Computer services, namely, cloud hosting provider services; provision of online non-downloadable cloud computing software for use in electronic storage of data; provision of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Hosting of digital content on the internet; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of

interest; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable software applications for providing location-based weather information; Providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; Providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; Providing temporary use of non-downloadable software for organizing images, video, and audio-visual content using metadata tags; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Providing temporary use of non-downloadable computer software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery

of content to handheld computers, laptops and mobile electronic devices; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Data encryption services; Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) featuring computer software for personal information management; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Providing customized computer searching services, namely, searching and retrieving

information at the user's specific request via the internet; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the Internet; Provision of Internet search engine services; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (ASP), namely, hosting computer software applications through the internet of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Software as a service (SAAS) services, namely, hosting software for use by others for use providing an online database featuring a wide range of general interest information via the internet; Providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Providing internet search engines; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Computer consulting, computer programming; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; Computer hardware, software, application, and network consulting services; Providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining

applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, text files, and multimedia files; Application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; Computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; provision of non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; provision of non-downloadable computer software for tracking fitness, health and wellness goals and statistics; provision of non-downloadable software for creating personalized fitness training programs; provision of non-downloadable software for providing personal training services, workouts and fitness assessments; computer services, namely providing an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness

coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; computer services, namely providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Design and development of computer hardware and software; computer services, namely providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Development of hardware for use in connection with electronic and interactive multimedia games; Electronic and interactive multimedia game development services; Providing temporary use of non-downloadable software for ordering and/or purchasing goods and services; Providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Providing temporary use of non-downloadable computer software for

facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Platform as a service (PAAS) featuring computer software platforms for social networking and transmission of images, audio-visual content, video content and messages; Design and development of computer game hardware and software; Design and development of virtual reality hardware and software; Design and development of video game hardware and software; Design and development of augmented reality hardware and software; Computer software development; Design and development of interactive multimedia software; Providing temporary use of non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology and software development via the internet; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; Hosting of digital [virtual reality and augmented reality] content on the internet; Scientific and technological services and research and design relating thereto; computer services, namely providing online facilities for connecting sellers with buyers; Providing technical support services regarding the usage of communications equipment.

services featuring software for controlling,  
integrating, operating, connecting, and

managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer software consultation; Computer software, application, and network consulting services; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Mapping services; Mobile computer and mobile communications device software consultation; provision of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; provision of non-downloadable software for social networking, creating a

virtual community, and transmission of audio, video, images, text and data; provision of non-downloadable software for streaming multimedia entertainment content; Online advertising-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; provision of online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; provision of online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data;

Providing social assistant software; Providing software for facilitating and arranging for the financing and distribution of fundraising and donations; Providing software for online charitable fundraising services and financial donation services; Providing temporary access to non-downloadable computer software for mapping services; Providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing temporary use of non-downloadable computer software for social and destination mapping; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; Providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing temporary use of non-downloadable software for electronic messaging; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Providing temporary use of non-downloadable software for processing electronic payments; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Providing temporary use of non-downloadable software for

viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, social networks, text files, and multimedia files; Providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Technical support services, namely, troubleshooting in the nature of diagnosing computer software problems; Technical support, namely, troubleshooting of computer software problems and mobile computer and mobile communications device software problems; Computer services, namely, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; Computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data on the internet and communication networks; Application service provider (ASP) services; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online

facilities; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Providing online sites that give users the ability to upload, modify and share virtual reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share augmented reality content, information, experiences and data; Providing online sites that give users the ability to upload, modify and share mixed reality content, information, experiences and data; provision of non-downloadable software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; provision of software for electronic messaging; provision of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; provision of non-downloadable computer software for social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; provision of non-downloadable software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; provision of non-downloadable software for providing a virtual marketplace; provision of non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely,

bots, virtual agents and virtual assistants; Providing personal assistant software; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; Maintenance and repair of computer software; provision of non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology via the internet; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Computer services, namely, cloud hosting provider services; provision of online non-downloadable cloud computing software for use in electronic storage of data; provision of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Hosting of digital content on the internet; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable software applications for providing location-based weather information; Providing temporary use of non-downloadable software applications

for providing, linking to, or streaming news or current events information; Providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; Providing temporary use of non-downloadable software for organizing images, video, and audio-visual content using metadata tags; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; Providing temporary use of non-downloadable computer software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Data encryption services; Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for

personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) featuring computer software for personal information management; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (IoT) electronic devices; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the Internet; Provision of Internet search engine services; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and

fashion design; Technological services, namely, data warehousing services; Application service provider (ASP), namely, hosting computer software applications through the internet of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Software as a service (SAAS) services, namely, hosting software for use by others for use providing an online database featuring a wide range of general interest information via the internet; Providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Providing internet search engines; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Computer consulting, computer programming; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; Computer hardware, software, application, and network consulting services; Providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, text files, and multimedia files; Application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Providing technical support services, namely, troubleshooting of computer software problems

regarding the usage of communications equipment; Computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; provision of non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; provision of non-downloadable computer software for tracking fitness, health and wellness goals and statistics; provision of non-downloadable software for creating personalized fitness training programs; provision of non-downloadable software for providing personal training services, workouts and fitness assessments; computer services, namely providing an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; computer services, namely providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services

featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Design and development of computer hardware and software; computer services, namely providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Development of hardware for use in connection with electronic and interactive multimedia games; Electronic and interactive multimedia game development services; Providing temporary use of non-downloadable software for ordering and/or purchasing goods and services; Providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Providing temporary use of non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Platform as a service (PAAS) featuring computer software platforms for social networking and transmission of images, audio-visual content, video content and messages; Design and development of computer game hardware and software; Design and development of virtual reality hardware and software; Design and development of video game hardware and software; Design and development of augmented reality hardware and software; Computer

software development; Design and development of interactive multimedia software; Providing temporary use of non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology and software development via the internet; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; Hosting of digital [virtual reality and augmented reality] content on the internet; Scientific and technological services and research and design relating thereto; computer services, namely providing online facilities for connecting sellers with buyers; Providing technical support services regarding the usage of communications equipment.
