**ACCEPTANCE FOR REGISTRATION (FULL VERSION)**

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.info.gov.hk/pd/egazette/>.

HONG KONG.

7, 9, 16, 37, 42

Class 7:

Material conveying and directory devices as well as parts thereof, especially conveying devices for separating, rejecting and dividing of transported goods according to measurable criteria; Pumps, namely peristaltic pumps as well as parts thereof; wrapping and packaging machines and devices; bag and plastic film sealing machines; electronic meat mincers and bone sawing devices as well as slicing apparatus for food products, especially for bread and meat products; labelling and price marking machines; all included in Class 7.

Class 9:

Gravimetric measuring instruments, weighing devices, weighing systems and weighing scales of all types; mechanical, electrical and electronic parts (including fastening means, weighing pans, draft shield, protection covers, transport cases, weights, load cells (measuring instruments), displays and computer software) for gravimetric measuring instruments, weighing devices and weighing scales; devices for measuring, testing and control as well as parts thereof, namely transducers for weight, force or pressure, vibration, acceleration and thereof derivable values; load cells (measuring instruments), weighing cells, and weigh modules as well as parts thereof; mass comparators; devices for counting, dosing, controlling, classifying, filling and portioning of solids, pulverant materials, pasty materials and liquids; pipettes, automated pipetting machines, pipette tips and pipette accessories; printed circuit boards; transmitter; electrodes, detecting elements; metal and mineral detectors as well as parts thereof; devices for creating and controlling x-radiation (except for medical use), devices for the measurement of adsorbed, reflected, transmitted, attenuated and scattered radiation, devices for the identification of foreign materials within in food products, devices for checking product integrity and control of packaged goods; devices, systems as well as parts thereof for the measurement of the volume, the dimension, the placing and the weight of objects; barcode scanners, hand scanners, electromagnetic scanners, optical scanners, image scanners and scanners for industrial inspection; devices, systems, as well as parts thereof (including computer programmes, data processing devices, electronic controls, displays, sensors, holders, housings, armatures and consumptions materials like e.g. reagents) for measuring, testing, and control of physical, chemical and analytical properties, especially for the measurement of the moisture content analysis, the dry content analysis, the thermal analysis (including the thermogravimetry, the thermo-mechanical analysis, the dynamic-mechanical analysis, the di-electrical analysis, detection of boiling, melting and dripping point), the calorimetry, the

chromatography, the rheology, the photometry, the colorimetry, the coulometry, the refractometry, the titration, the measurement of density, specific weight and concentration, the particle characterisation, the crystallization, the flow measurement, the vortex flow measurement, the infrared-spectroscopy, the potentiometric measurement, the conductometry, the amperometric measurement, the pH measurement, the redox measurement, the measurement of ions, the ion selective measurement, the turbidity measurement, the oxygen measurement, the ozone measurement, the carbon dioxide measurement, the measurement of dissolved gases, the conductivity measurement, the total-organic-content measurement, the tenside measurement; automated plants and devices for laboratory and industrial applications as far as included in class 9; laboratory reactors and laboratory vessels for physical, chemical and biotechnical applications; computer, data storage, computer software, data processing devices, electronic controls, electronic evaluation device for weighing, measuring, testing and control devices and systems as well as for the industrial process control; computer, data storage, computer software, data processing devices, weighing scales and weighing devices for recording, statistical analysis, output and visualisation of gravimetric, physical, chemical and analytical measurement values and non-physical product criteria for quality and charge control; computer, data storage, computer software, data processing devices, weighing scales and weighing devices for safe-guarding of the undertaking of instructions, the back traceability and the compliance with legal requirements; computer, data storage, computer software, data processing devices for unit price management, for inventory management, for merchandising, for promotion, for management of grocery retail department business processes and for operator control; computer, data storage, computer software, data processing devices for function control and diagnosis of devices, systems as well as parts thereof; computer, data storage, computer software, data processing devices, computer networks for workflow management, for device integration, for information sharing and for documentation of work processes; Interface based on source codes for data communication (for software installation, data exchange, remote diagnosis, assistance) with programmable client/server functions for the connection of sensors, measuring devices, laboratory devices and operating terminals to a network; manuals, catalogues and magazines on data media for displaying on viewing screens ; periphery devices used in connection with aforementioned devices and systems for weighing, measuring, testing and control, especially devices for transport and data saving, foot pedals, tweezers, weighing forks, weighing grips, dosing spatulas, driers, remote displays, printers, digital-to-analog converters, devices for data reading, for data input, for data display, for data selection, for data processing, devices for control, including computers and computer programs for saving and processing of weighing, measuring, testing and control data, especially for inventory management, for quality control, for laboratory automation, for recognition of probes, for process testing, control and automation; devices and shieldings for securing the

electromagnetic compatibility; devices, systems as well as parts thereof for the prevention of electrostatic effects; devices, systems as well as parts thereof for anti-theft security; electronic devices being material conveying and directory devices as well as parts thereof, especially conveying devices for separating and dividing of transported goods according to measurable criteria, magnetic flow, especially in connection with weighing devices; coupon issue devices, labelling devices, price marking devices, price calculating devices, cash registers; all included in Class 9.

Class 16:

Manuals, catalogues and magazines on paper; Stationery; teaching and training aids (excluding apparatus); label printing devices; wrapping and packaging materials out of paper or carton, wrapping and packaging materials out of plastic as far as included in this class, packaging out of paper or carton, plastic film for packaging purpose, plastic film [stretchable and adherent] for palletized packaging, packaging pouches [-wrappers, -bags] out of paper or plastic; manually operated labelling and price marking devices; all included in Class 16.

Class 37:

Installation, servicing and repair of measuring instruments for carrying out gravimetric, physical, chemical, analytical measurements and dosings, including performance of function tests on measuring instruments for carrying out gravimetric, physical, chemical, analytical measurements and dosings; Provision of information regarding maintenance of measuring instruments for carrying out gravimetric, physical, chemical, analytical measurements and dosings; Installation, servicing, and repair of devices like dosing devices, coupon issue devices, labelling devices, price marking devices, price calculating devices, cash registers, wrapping and packaging machines and apparatus, bag and plastic film sealing machines, including performance of function tests on such devices and connecting such devices to computer networks; Provision of information regarding maintenance of such devices; all included in Class 37.

Class 42:

Calibration of weights, burettes, pipettes and electrodes; calibration of measuring instruments for carrying out gravimetric, physical, chemical, analytical measurements and dosings; hiring out of measuring instruments for carrying out gravimetric, physical, chemical, analytical measurements and dosings; professional consultancy relating to providing laboratory information for scientific use; Consulting on technical process optimisation; Consulting on validation of technical methods and systems; Consulting on quality testing; Adjustment of measuring instruments for carrying out gravimetric, physical, chemical, analytical measurements and dosings according to instructions of the manufacturer or legal instructions; Quality testing, namely control of testing and controlling equipment; all included in Class 42.
