接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

Specification: Machines and machine tools and parts thereof, including automated machines and machine tools and parts thereof; motors, drive systems and hydraulic motors (other than for land vehicles); machine coupling and transmission components (other than for land vehicles); electricity generators and current generators, wind-driven generators; conveyors and transportation equipment as far as contained in class 7; conveyor belts and tapes; control mechanisms for machines, engines or motors; robots; turbochargers; pumps; compressors; mills; floating or non-floating drilling rigs; elevator operating apparatus; electronic and electrical apparatus, devices and instruments including their parts for the generation of energy, in particular current generators, generators of electricity; wind-powered electricity generators; generators for wind turbines; wind turbines; electronic control mechanisms for machines, engines or motors.
Class 9:
Scientific, nautical, surveying, optical, weighing, measuring, analyzing, displaying, signalling and checking (supervision) apparatus, instruments and devices, including parts for all the aforementioned goods; life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electric current and/or voltage, including parts for all the aforementioned goods; data-processing equipment and computers; computer software; microprocessors; lasers, not for medical purposes; chargers for electric batteries; time switches (not for clocks); condensers (capacitors); electric collectors; terminals (electricity); electric cables, lines and wires; accumulator boxes and junction boxes; identification sheaths for electric wires and identification threads for electric wires; cable ducts; inductors (electricity);

magnetic data carriers; semiconductors; electronic and electrical apparatus, devices and instruments including their parts for the distribution and supply of energy; electronic and electrical apparatus, devices and instruments including their parts for the generation of energy by means of photovoltaics; fuel cells; electronic, magnetic and optical data carriers, recording disks, magnetic disks, optical disks; data protection apparatus; computer peripheral devices; current and/or voltage inverters; current and/or voltage rectifiers; power converters; electrical connection parts; junction sleeves for electric cables; electrical transistors, thyristors, diodes; semiconductor power elements; electrical transformers; electrical resistors; distribution boards and distribution boxes; batteries; integrated switching circuits (chips); printed-circuit boards; diagnostic apparatus (not for medical use); anti-interference devices; memories for data processing apparatus; switchgears, in particular control panels and distribution consoles, control buttons and switch cables; commutators; electric relays; modems; electrical ducts; connections for electric lines; electrical measuring and controlling instruments in the form of voltage regulators; sensors; fuses and electrical safety devices included in class 9; circuit breakers; distribution connection panels; voltmeters; electric and electronic installations for (remote) control of automated industrial processes; steering apparatus, automatic, for vehicles; electric current transmission, distribution and control installations and apparatus included in class 9; material for circuits for heavy current (wires, cables); aerial cables for heavy currents; transformers, power switches; sockets, plugs and other contacts (electric connections); solar batteries.

Class 11:

Apparatus for lighting, heating, refrigerating and ventilating purposes, including fans and sanitary installations; ventilating and air-conditioning installations; apparatus for steam generating, cooking, drying, ventilating and water supply purposes; solar collectors; heat pumps; stoves (heating apparatus).

Class 12:

Vehicles; apparatus for locomotion by land, air or water; steering gears for ships; aeronautical apparatus, machines and appliances; driving motors for land vehicles, in particular for rail vehicles.

Class 16:

Paper, cardboard and goods made from these materials included in this class; printed matter; instructional and teaching material (except apparatus); plastic materials for packaging as far as included in this class.

Class 37:

Building and construction; repair services; installation services; maintenance, installation and preservation services in particular for industrial installations; installation, setting up, maintenance and repair of computer hardware and office equipment; maintenance of computer hardware, in particular of computers and computer networks; installation, maintenance, repair and interference suppression of machines and electrical apparatus and systems; installation and maintenance of oil lines; underwater construction;

consultancy of all the aforementioned services.

Class 41:

Education, training and further education in the field of electronics.

Class 42:

Scientific and industrial research; programming for data processing purposes; providing computer programs on data networks, particularly on the Internet and the World Wide Web; providing technical information concerning the use of computers, computer hardware, software, computer databases and computer networks; material testing; industrial design services; packaging design services; quality assessment; underwater research; engineering consultancy in the field of environmental protection, consultancy in the field of energy saving, technical advice in connection with energy-saving measures, technical consultancy in the field of energy conservation and -efficiency; design of computer software in particular in the field of computer security; network engineer services including computer and network security consulting; scientific and industrial research in the field of network technology; updating computer software; performance of chemical analyses; performance of oil field exploration for drilling operations of oil; monitoring of oil wells; production of analyses for oil extraction, drawing up of experts reports about oil presence; physics research; chemical research; physicist services; computer support services, particularly in the field of technical security; computer data recovery; software maintenance; computer systems analyses; research services and development of new products; research in the field of machine construction and engineering; technical surveys; engineering work including engineering consultancy in particular consultancy in the field of technical security; construction drafting; engineering project studies as well as consultancy relating thereto; rental of computer software and of data processing apparatus; development of computer software; engineering services.

Specification: Electronic data processing equipment; computer hardware; integrated circuits; semiconductors; system-on-chip devices; microprocessors; processors [central processing units]; chips [integrated circuits]; application specific integrated circuits; graphics processing units; semiconductor intellectual property cores; instruction set architectures (electronic form); RISC (reduced instruction set computer) -based instruction set architectures (electronic form); microcontrollers; electronic chips; data processors; interfaces for computers; printed circuit boards; electronic circuit boards; telephones; mobile computing devices, including portable computers, laptop computers, notebook computers, subnotebook computers, ultra-mobile computers, tablet computers, Internet tablet computers, personal portable computers, personal digital assistants, personal digital assistants with integrated mobile telephone functionality, mobile telephones, smart phones, handheld computers, GPS navigation devices and personal media players; servers; electronic sensors; smart devices, including smart cards, smart card readers, smart meters, smart remote controllers, smart wrist bands, smart watch phones and smart pens; wearable mobile telecommunication devices; wearable computers; set top boxes; modems; integrated receiver devices; video encoders and transcoders; electronic book readers; data terminals; data processing equipment; apparatus for wireless communications; televisions; smart televisions; horizontal surface computers; mp3 players; mp4 players; electronic security devices; electronic smart lighting devices; electronic energy monitoring devices; electronic automotive devices; electronic data storage

devices; electronic devices that send and receive data in a connected network; computer software; computer software used in and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of integrated circuits, microprocessors, microprocessor cores, semiconductor intellectual property cores, architecture extensions to semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; computer software used in, and for use in the design, development, modelling, simulation, compiling, de-bugging, verification, construction and interfacing of application software and operating system software to run on integrated circuit based devices; microprocessor design file software; computer software used in servers; operating system software; web services software; security and cryptographic software; electronic publications (downloadable or streamable) all relating to electronic equipment, microprocessors, computer hardware, computer software, integrated circuit based devices and internet-of-things devices.

Class 16:

Printed materials all relating to electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC (reduced instruction set computer)-based instruction set architectures; printed materials all relating to processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices and internet-of-things devices; instruction manuals relating to design and development of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC (reduced instruction set computer)-based instruction set architectures; instruction manuals relating to design and development of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, internet-of-things devices, macro cells, microcontrollers, bus interfaces and printed circuit boards; user and development manuals all relating to the design and development of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC (reduced instruction set computer)-based instruction set architectures; user and development manuals all relating to the design and development of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, internet-of-things devices, microprocessor cores, architecture extensions to semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; printed materials concerning the performance and technical

characteristics of electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC (reduced instruction set computer)-based instruction set architectures; printed materials concerning the performance and technical characteristics of processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, internet-of-things devices, microprocessor cores, architecture extensions to semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards
Class 42:

Design and creation of intellectual property and related rights; research, development, design, technical consultancy and technical support services, all relating to electronic equipment, microprocessors, system-on-chip devices, processors [central processing units], chips [integrated circuits], application specific integrated circuits, graphics processing units, semiconductor intellectual property cores, instruction set architectures, RISC (reduced instruction set computer)-based instruction set architectures; research, development, design, technical consultancy and technical support services, all relating to processor-based devices, integrated circuits, computer hardware, computer software, integrated circuit based devices, internet-of-things devices, microprocessor cores, architecture extensions to semiconductor intellectual property cores, macro cells, microcontrollers, bus interfaces and printed circuit boards; research, development, design, technical consultancy and technical support services, all relating to computer software; research, development, design, technical consultancy and technical support services, all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, debugging, verification, construction and interfacing of integrated circuits, microprocessors, microprocessor cores, semiconductor intellectual property cores and architecture extensions to semiconductor intellectual property cores; research, development, design, technical consultancy and technical support services, all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, debugging, verification, construction and interfacing of macro cells, system-on-chip devices, micro-controllers, bus interfaces and printed circuit boards; research, development, design, technical consultancy and technical support services, all relating to computer software used in and for use in the design, development, modelling, simulation, compiling, debugging, verification, construction and interfacing of application software and operating system software to run on integrated circuit based devices; research, development, design, technical consultancy and technical support services, all relating to computer software used in servers, operating system software, web services software, and security and cryptographic software.
