接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條,接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條,公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條,任何人擬就下列商標的註冊提出反對,須在本公告公布日期起計的三個月內,採用表格第 T6 號提交反對通知。(例如,若果公布日期為 2003 年 4 月 4 日,則該三個月的後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時,將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請,請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

Printing machines; Offset printers; Web fed rotary printing machines; Sheet fed rotary printing machines; Screen printing machines; Pad printing machines; Flexographic printing machines; Intaglio printing machines; Printing machines for use on sheet metal; Printing machines for use on cans; Printing machines for use on hollow bodies; Printing machines for corrugated cardboard; Industrial inkjet printing machines Laser marking machines; Laser printing machines; Marking machines; Painting machines; Packing machines; Coating machines, in particular working rotationally, for web-type and separate materials; Digital

printing and marking machines based on electrophotography, magnetography, xerography, ink jet; Exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates; imprinting and marking machines, in particular for the graphics sector, the packaging sector and data processing; Labellers [machines]; Engraving machines; Machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Pallet changing and transfer machines; Stacking machines; Machines for handling sheets and plates of metal; Foodstuff distribution machines; Machines and apparatus for the surface treatment of metals; Hot stamping machines and apparatus; Thermal transfer machines and apparatus; Rotary die-cutters for punching of printed matter or paper or plastics; Sheet metal punches for stamping printed matter or paper or plastics; marking machines for printed matter; Machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; Printing plates; Flexographic printing plates; Accessories, included in class 7, for the aforesaid printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely control apparatus, industrial printing machines; inking apparatus for printing machines, damping units, lacquering units, reel changers, folding apparatus; Machines and

mechanical apparatus for storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Conveyors (machines), belts for conveyors, conveying apparatus for conveying printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or

organic or inorganic materials; Machines and mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Machines and mechanical devices for changing and/or bending and/or punching printing plates and/or flexographic printing plates; Machines and mechanical apparatus for the storing of printing plates for printing machines; Conveying machines, conveyor belts, conveying apparatus for conveying printing plates for printing machines; Machines and mechanical apparatus for cleaning rollers in inking apparatus or damping units and/or cylinders and/or lacquering units and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Machines and mechanical apparatus for storing and/or adjusting rollers in inking apparatus or damping units and/or cylinders and/or lacquering units and/or inkjet printing modules and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser

marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Machines and mechanical apparatus for adjustment, for inking apparatus and/or damping units and/or printer engine cylinders and/or for lacquering units in printer engines and/or in lacquering units and/or for inkjet printing modules and/or laser systems; Parts for inking apparatus and/or damping units and/or inkjet printing modules and/or laser systems and cylinders in tempering machines, included in class 7; Machines and mechanical apparatus for adjusting cutting equipment and/or cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Machines and mechanical apparatus for adjusting registers and/or register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for

corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Machines and mechanical apparatus for quality control of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Machines and mechanical apparatus for adjusting web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating

machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Filters (parts of machines or engines); Separators; Suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith; Filters for cleaning cooling air, for engines; Blowing engines; Fibre separators (machines); Air compressors and air ejectors for machines; Collecting machines for compacting, filling and pressing of particles, dust and fibres separated from machines; Air conveying devices (air conditioning), namely compressors; Air power-operated blowers; Blowing machines; Air compressors; Accessories, included in class 7, for the aforesaid printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, industrial inkjet printing machines, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Accessories, included in class 7, for the aforesaid filters, separators, suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting machines, for compacting, filling and pressing machine-separated particles, dust

and fibres; Machines and mechanical apparatus for producing security labels, securities, banknotes and/or components therefor; Machines and mechanical apparatus for applying security labels and/or components therefor; Machines and mechanical apparatus for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Machines and mechanical apparatus for quality control of machines for producing security labels, securities, banknotes, and/or components therefor; Machines and mechanical apparatus for quality control of machines for applying security labels, and/or components therefor; Machines and mechanical apparatus for quality control in machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Machines and mechanical apparatus for quality control of security labels, securities, banknotes, and/or components therefor; Laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, Labellers (machines), Engraving machines, Machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, Drying machines, Drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Parts for the aforesaid goods and accessories for the aforesaid goods, included in class 07.

filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for producing product security means, authentication features, security features, security labels, securities, banknotes and/or components therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for applying product security means, authentication features, security features, security labels and/or components therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for packaging product security means, authentication features, security features, security labels, securities, banknotes and/or

components therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, in the form of and/or for product security means, authentication features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded) and software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy software (recorded), sales software (recorded), and software for lacquering machines, packaging machines, coating machines, pallet changing and pallet transfer machines, stacking machines, machines for handling sheets, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, marking machines, hot stamping

apparatus, thermal transfer apparatus, photo printing machines, labelling machines, engraving machines, inkjet printing apparatus, laser marking apparatus and laser printing apparatus; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy software (recorded), sales software (recorded), and software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for applying product security means, identification features, security features, security labels and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, consultancy software (recorded), sales software (recorded), and software of and/or for product security means, identification features, security features, security labels, securities, banknotes and/or

components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular

ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines,

coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar

modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or

organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for transporting and/or storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Consultancy software (recorded), sales software (recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulating of devices for the changing and/or transporting and/or storage of printing plates; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for cleaning rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing

machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for storing and/or adjusting rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulating of inking apparatus and/or damping units and/or printer engine

cylinders in printer engines; Consultancy software (recorded), sales software (recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulation of devices for tempering of inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printer engines; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating cutting equipment and/or cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines,

coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulation for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating,

refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), software for data processing devices for pre-press, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; Consultancy software

(recorded), sales software (recorded), software for data processing devices for printing machines, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; Consultancy software (recorded), sales software (recorded) and software for interfaces and/or data transfer for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; Consultancy software (recorded), sales software (recorded), software for interfaces and/or data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-

aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded), sales software (recorded), software for interfaces and/or data transfer, drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for applying product security means, identification features, security features, security labels and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Software (recorded) for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for transporting and/or storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-

colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Software (recorded) for the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and/or regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals,

hot stamping machines and apparatus, thermal transfer machines and apparatus; Electronic data carriers being product security means, identification features, security features, security labels, securities, banknotes; Magnetic data carriers being product security means, identification features, security features, security labels, securities, banknotes; RFID systems (radio frequency identification); Encoded identification chips and cards; Apparatus for the payment of goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or NFC (near field communication) apparatus, including in particular with return of change; Automated teller machines [ATM]; Money-receiving apparatus (cash registers); Money-dispensing and money-receiving apparatus (cash registers); Fittings for the aforesaid apparatus, included in class 9, in particular cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value; Electric apparatus, namely data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; Data processing equipment for personalising recording media; Machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; Cards having an integrated circuit (chip cards), in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; Coded telecommunication cards; Coded and uncoded digital recording media with contactless interfaces; Integrated circuits with characteristic physical properties for protection against forgery; Memories for data processing installations, in particular non-volatile memories (digital storage media); Digital recording media containing memories, in particular non-volatile memories (digital

storage media); Electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation; Software for computer network applications, in particular for internet, intranet and extranet applications; Data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; Software for the encryption and decryption and the signing of data; Operating system software and application software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; Computer programs for the development, management and maintenance of all the aforesaid types of software; Digital recording media featuring the aforesaid software; Electronically and/or optically stored pre-recorded advertising and communications media, included in class 9, in particular films, videos, included in class 9; Inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers; Encoding machines, in particular for the graphics sector, the packaging sector and data processing; Parts for the aforesaid goods and accessories for the aforesaid goods, included in class 09.

Class 9:
Electronic checking (supervision),
controlling, displaying and measuring
apparatus, and consultancy software
(recorded), sales software (recorded), and
software, included in class 9, for printing
machines, offset printing machines, rotary web
printing machines, rotary sheet printing
machines, screen printing machines, pad
printing machines, flexographic printing
machines, gravure printing machines, printing
machines for use on sheet metal, printing
machines for use on cans, printing machines

for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for producing product security means, authentication features, security features, security labels, securities, banknotes and/or components

therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for applying product security means, authentication features, security features, security labels and/or components therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for packaging product security means, authentication features, security features, security labels, securities, banknotes and/or components therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, in the form of and/or for product security means, authentication features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded) and software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking,

perforating, gluing, stapling, tying, bundling, bookbinding; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy software (recorded), sales software (recorded), and software for lacquering machines, packaging machines, coating machines, pallet changing and pallet transfer machines, stacking machines, machines for handling sheets, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, marking machines, hot stamping apparatus, thermal transfer apparatus, photo printing machines, labelling machines, engraving machines, inkjet printing apparatus, laser marking apparatus and laser printing apparatus; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy software (recorded), sales software (recorded), and software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for applying product security means, identification features, security features, security labels and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control

apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, consultancy software (recorded), sales software (recorded), and software of and/or for product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped

therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing

machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and

compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing

machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for transporting and/or storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Consultancy software (recorded), sales software

(recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulating of devices for the changing and/or transporting and/or storage of printing plates; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for cleaning rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for storing and/or adjusting rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing

machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulating of inking apparatus and/or damping units and/or printer engine cylinders in printer engines; Consultancy software (recorded), sales software (recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulation of devices for tempering of inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printer engines; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating cutting equipment and/or cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating registers and register marks in printing

machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulation for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in installations, equipment, apparatus, filters,

separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines,

lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), software for data processing devices for pre-press, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; Consultancy software (recorded), sales software (recorded), software for data processing devices for printing machines, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; Consultancy software (recorded), sales software (recorded) and software for interfaces and/or data transfer for

installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; Consultancy software (recorded), sales software (recorded), software for interfaces and/or data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded), sales software (recorded), software for interfaces and/or data transfer, drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for applying product security means, identification features, security features, security labels and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Software (recorded) for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for transporting and/or

storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Software (recorded) for the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and/or regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing

machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Electronic data carriers being product security means, identification features, security features, security labels, securities, banknotes; Magnetic data carriers being product security means, identification features, security features, security labels, securities, banknotes; RFID systems (radio frequency identification); Encoded identification chips and cards; Apparatus for the payment of goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or NFC (near field communication) apparatus, including in particular with return of change; Automated teller machines [ATM]; Money-receiving apparatus (cash registers); Money-dispensing and money-receiving apparatus (cash registers); Fittings for the aforesaid apparatus, included in class 9, in particular cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value; Electric apparatus, namely data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; Data processing equipment for personalising recording media; Machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and

decrypting, processing and providing data and programs; Cards having an integrated circuit (chip cards), in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; Coded telecommunication cards; Coded and uncoded digital recording media with contactless interfaces; Integrated circuits with characteristic physical properties for protection against forgery; Memories for data processing installations, in particular non-volatile memories (digital storage media); Digital recording media containing memories, in particular non-volatile memories (digital storage media); Electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation; Software for computer network applications, in particular for internet, intranet and extranet applications; Data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; Software for the encryption and decryption and the signing of data; Operating system software and application software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; Computer programs for the development, management and maintenance of all the aforesaid types of software; Digital recording media featuring the aforesaid software; Electronically and/or optically stored pre-recorded advertising and communications media, included in class 9, in particular films, videos, included in class 9; Inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers; Encoding machines, in particular for the graphics sector, the packaging sector and data processing; Parts for the aforesaid goods and accessories for the aforesaid goods, included in class 09.

machines, gravure printing machines, printing

machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for producing product security means, authentication

features, security features, security labels, securities, banknotes and/or components therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for applying product security means, authentication features, security features, security labels and/or components therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, for packaging product security means, authentication features, security features, security labels, securities, banknotes and/or components therefor; Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, included in class 9, in the form of and/or for product security means, authentication features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded) and software for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely for transporting, cutting, punching, folding,

collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy software (recorded), sales software (recorded), and software for lacquering machines, packaging machines, coating machines, pallet changing and pallet transfer machines, stacking machines, machines for handling sheets, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, marking machines, hot stamping apparatus, thermal transfer apparatus, photo printing machines, labelling machines, engraving machines, inkjet printing apparatus, laser marking apparatus and laser printing apparatus; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, consultancy software (recorded), sales software (recorded), and software for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for applying product security means, identification features, security features, security labels and/or components therefor; Electronic regulating apparatus, control

apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controls, consultancy software (recorded), sales software (recorded), and software for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, consultancy software (recorded), sales software (recorded), and software of and/or for product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the

ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; Electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and

instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment

installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; Consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal,

printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for transporting and/or storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal

transfer machines and apparatus; Consultancy software (recorded), sales software (recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulating of devices for the changing and/or transporting and/or storage of printing plates; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for cleaning rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating devices for storing and/or adjusting rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or

multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulating of inking apparatus and/or damping units and/or printer engine cylinders in printer engines; Consultancy software (recorded), sales software (recorded), and software for the remote control, remote operation, remote monitoring, control and/or regulation of devices for tempering of inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printer engines; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating cutting equipment and/or cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely

monitoring, controlling and/or regulating registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulation for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control

and/or regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded), sales software (recorded), and software for remotely controlling, remotely operating, remotely monitoring, controlling and/or regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking

machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; Consultancy software (recorded), sales software (recorded), software for data processing devices for pre-press, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; Consultancy software (recorded), sales software (recorded), software for data processing devices for printing machines, for the printing of printed matter, for the further processing of printed matter, for production control, production planning; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; Consultancy software (recorded),

sales software (recorded) and software for interfaces and/or data transfer for installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; Consultancy software (recorded), sales software (recorded), software for interfaces and/or data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; Consultancy software (recorded), sales software (recorded), software for interfaces and/or data transfer, drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for applying product security means, identification features, security features, security labels and/or components therefor; Consultancy software (recorded), sales software (recorded), and software for interfaces and/or data transfer, for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; Software (recorded) for for remotely controlling, remotely operating,

remotely monitoring, controlling and/or regulating devices for transporting and/or storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Software (recorded) for the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and/or regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or

multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; Electronic data carriers being product security means, identification features, security features, security labels, securities, banknotes; Magnetic data carriers being product security means, identification features, security features, security labels, securities, banknotes; RFID systems (radio frequency identification); Encoded identification chips and cards; Apparatus for the payment of goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or NFC (near field communication) apparatus, including in particular with return of change; Automated teller machines [ATM]; Money-receiving apparatus (cash registers); Money-dispensing and money-receiving apparatus (cash registers); Fittings for the aforesaid apparatus, included in class 9, in particular cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value; Electric apparatus, namely data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; Data processing equipment for personalising recording media; Machine-readable recording media, in

particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; Cards having an integrated circuit (chip cards), in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; Coded telecommunication cards; Coded and uncoded digital recording media with contactless interfaces; Integrated circuits with characteristic physical properties for protection against forgery; Memories for data processing installations, in particular non-volatile memories (digital storage media); Digital recording media containing memories, in particular non-volatile memories (digital storage media); Electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation; Software for computer network applications, in particular for internet, intranet and extranet applications; Data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; Software for the encryption and decryption and the signing of data; Operating system software and application software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; Computer programs for the development, management and maintenance of all the aforesaid types of software; Digital recording media featuring the aforesaid software; Electronically and/or optically stored pre-recorded advertising and communications media, included in class 9, in particular films, videos, included in class 9; Inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers; Encoding machines, in particular for the graphics sector, the packaging sector and data processing; Parts for the aforesaid goods and accessories for the aforesaid goods, included in class 09.

	Specification:	Computer application software for mobile phones, namely, software for monitoring telematics, for collecting, analyzing, managing, and storing business and consumer-behavior data related to consumer, vehicle, and home devices, for providing incentive rewards and points, for providing other rewards to users, for providing discounts;

computer application software for mobile phones, namely, software for monitoring speed, driving time, driving hour, brake activity, and other driving habits, for providing driver scores and feedback, for providing parking reminders, for providing information related to driving to users; downloadable software in the nature of a mobile application for monitoring telematics, for collecting, analyzing, managing, and storing business and consumer-behavior data related to consumer, vehicle, and home devices, for providing incentive rewards and points, for providing other rewards to users, for providing discounts; computer software for the acquisition, analysis, and management and storage of data for use in connection with advertising and marketing services; computer software for data analytics, databases and customer management; for providing information related to car maintenance and mechanical repair services and providers, for providing roadside assistance information, and for sending and receiving electronic messages; downloadable electronic publications in the nature of brochures, booklets, magazines, and articles in the field of business and consumer-behavior data connected to consumer, vehicle, and home devices; telematics devices, namely, wireless internet devices that provide telematics services and have a cellular phone function, and a vehicle diagnostic device, comprising computer hardware and software for use in connection with a vehicle, all enabling collection of business and consumer-behavior data to support database analytics connected to consumer, vehicle, and home devices; kits composed of software development tools.

Class 35:

Arranging and conducting incentive reward programs for business purposes, namely, providing reward services to businesses to incentivize consumer behaviors; providing consumer information services and making referrals in the field of automobile repair services; media and market research and analysis; market research, business research, analysis and collection of market data and statistical information; online and mobile media and marketing services, namely, tracking, monitoring, surveying, interpreting, and measuring business marketing data; consumer research; business data analytics services; information and advisory services relating to the aforementioned services, including the provision of such services on-

line from a computer network or via the internet.

Class 36:

Consulting and information concerning insurance; providing information on insurance matters; providing information on financial risks.

Class 42:

transmitting apparatus; image recognition software; image processors; image intensifiers; residual light image amplifiers; instruments for amplifying images; apparatus for amplifying images; computer programmes for image processing; software for generating virtual images; apparatus for reproduction of images; apparatus for transmission of images; satellite imagery photo-interpretation software; image processing software for in-vehicle cameras; software for processing images, graphics and text; apparatus for broadcasting sound, data or images; cables for the transmission of sounds and images; fibres for the transmission of sounds and images; data and image processing software for making three dimensional models; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; light sensors; light conducting filaments; light emitting diodes; light emitting diode displays; light-emitting electronic pointers; LED [light-emitting diodes]; light detection and ranging [LIDAR] apparatus; light detection and ranging [LIDAR] apparatus for vehicles; light detection and ranging [LIDAR] using structured light; light detection and ranging [LIDAR] by scanning a holographic image; light detection and ranging [LIDAR] by scanning a holographic projection; picture projectors; picture transmission apparatus; three dimensional picture manipulators; apparatus for generating virtual images; head-up displays; head-up displays [HUD] for vehicles; head-mounted displays; near-eye devices; head mounted augmented reality displays; head-up displays for augmented or virtual reality; laser holographic projectors for augmented or virtual reality; (laser) holographic projectors for driver assistance; head mounted 2D monoscopic displays; head mounted 3D stereoscopic displays; head-mounted video display apparatus; LED displays; visual display screens; electroluminescent display panels; visual display units; display panels for vehicles; LCD [liquid crystal display]; liquid crystal on silicon devices; liquid crystal on silicon displays; liquid crystal on silicon spatial light modulators; flat panel displays; LCD [Liquid Crystal Display] monitors; spatial light modulators; phase-only modulators; liquid crystal light modulators; electronic driver display systems for vehicles; colour filters for liquid crystal

displays; vehicle navigation systems featuring interactive displays; OLED (Organic light emitting diode) display panels; thin film transistor-liquid crystal display (TFT-LCD) panels; vehicle autonomous driving systems featuring interactive displays; touchscreen monitors; touchscreen sensors; 3D computer graphics software; silicon carbide diodes; silicon controlled rectifiers; modulators; light modulators; lens; lenses for projectors; diffraction apparatus [microscopy]; optical mirrors; optical enhancers; optical character recognition apparatus [OCR]; virtual reality [VR] motion simulators; virtual and augmented reality software; electronic publications, downloadable, relating to laser holographic projectors; holographic projections of structured light; picture generating units; picture-generating units for head-up displays; picture-generating units for a head-up display for vehicles; laser picture generating units; picture generating units including a laser; dynamic holographic projectors; safety parts and fittings for laser projectors; parts and fittings for all the aforesaid goods.

Class 11:

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; apparatus for lighting; automobile headlamps; automobile headlights; automobile lights; computer-controlled lighting instruments; computer-controlled lighting apparatus; electric apparatus for lighting; headlamps for automobiles; headlamps for vehicles; headlights; LED lights for automobiles; light emitting diode lights for automobiles; lights and lamps for vehicles; reflectors for vehicles; vehicle lighting and lighting reflectors; vehicle lighting apparatus; internal and external lighting; vehicle lighting installations; illuminators; LED lighting installations; light fittings; light fixtures; lighting; luminaires; holographic headlamps; laser holographic headlamps; holographic projection headlamps; laser headlamps.

Class 35:

Advertising; Business management; Business administration; Office functions; data processing verification; data management; business analysis; business investigations; business management analysis; business research; collection and systemisation of business data; consultancy relating to business analysis; evaluation of business

opportunities; market research; market studies; provision of business and commercial information; provision of information and advice to consumers regarding the selection of products and items to be purchased; trade information; compilation of business information; advice and information concerning commercial business management; advice in the field of business management and marketing; business consultancy; business organisation consultancy; commercial consultancy; consultancy and advisory services for business management; management consultancy services; providing advice and information relating to commercial business management; strategic business consultancy; retail services in relation to computer hardware; retail services in relation to computer software; presentation of goods on communication media, for retail purposes; retail and online retail services connected with the sale of software and application software for mobile devices, computer software platforms, computer hardware, data storage devices, data capture apparatus, data encryption apparatus, encoding and decoding apparatus and instruments, downloadable electronic publications, downloadable digital photos, downloadable image files, multi-media recordings, projectors, projector screens, image projectors, self-acting focussing projectors, laser holographic projectors, laser holographic projection devices for the automotive industry, remote controls for projectors, lasers, laser diodes, laser pointers, super luminescent laser diodes, dry laser imagers, laser installations, other than for medical use; retail and online retail services connected with the sale of mini beam projectors, holographic apparatus, head-mounted holographic displays, holographic projectors, holographic projector of 2D scenes, multiplane holographic projectors, full colour holographic projectors, holographic image formation devices, holographic plates, holographic screens, holographic film, holographic discs, LCD projectors, multimedia projectors, holograms, digital optics, computer generated holograms, kinoforms, phase holograms, phase-only holograms, Fourier holograms, Fourier-transform holograms, Fresnel holograms, dynamic holograms, diffractive structures (optical apparatus), computer generated diffractive structures, waveguide head-up displays, exit pupil expanders, image

processing apparatus, image transmitting apparatus, image recognition software, image processors, image intensifiers, residual light image amplifiers, instruments for amplifying images, apparatus for amplifying images, computer programmes for image processing, software for generating virtual images, apparatus for reproduction of images, apparatus for transmission of images, satellite imagery photo-interpretation software, image processing software for in-vehicle cameras, software for processing images, graphics and text; retail and online retail services connected with the sale of apparatus for broadcasting sound, data or images; retail and online retail services connected with the sale of cables for the transmission of sounds and images, fibres for the transmission of sounds and images, data and image processing software for making three dimensional models, computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; retail and online retail services connected with the sale of light sensors, light conducting filaments, light emitting diodes, light emitting diode displays, light-emitting electronic pointers, LED [light-emitting diodes], light detection and ranging [LIDAR] apparatus, light detection and ranging [LIDAR] apparatus for vehicles, light detection and ranging [LIDAR] using structured light, light detection and ranging [LIDAR] by scanning a holographic image, light detection and ranging [LIDAR] by scanning a holographic projection, picture projectors, picture transmission apparatus, three dimensional picture manipulators, apparatus for generating virtual images, head-up displays, head-up displays [HUD] for vehicles, head-mounted displays, near-eye devices, head mounted augmented reality displays, head-up displays for augmented or virtual reality, laser holographic projectors for augmented or virtual reality, (laser) holographic projectors for driver assistance, head mounted 2D monoscopic displays, head mounted 3D stereoscopic displays, head-mounted video display apparatus, LED displays, visual display screens, electroluminescent display panels, visual display units, display panels for vehicles, LCD [liquid crystal display], liquid crystal on silicon devices, liquid crystal on silicon displays, liquid crystal on silicon spatial light modulators, flat panel

displays, LCD [Liquid Crystal Display] monitors, spatial light modulators, phase-only modulators, liquid crystal light modulators, electronic driver display systems for vehicles, colour filters for liquid crystal displays, vehicle navigation systems featuring interactive displays, OLED (Organic light emitting diode) display panels, thin film transistor-liquid crystal display (TFT-LCD) panels, vehicle autonomous driving systems featuring interactive displays, touchscreen monitors, touchscreen sensors, 3D computer graphics software, silicon carbide diodes, silicon controlled rectifiers, modulators, light modulators, lens, lenses for projectors, diffraction apparatus [microscopy], optical mirrors, optical enhancers, optical character recognition apparatus [OCR], virtual reality [VR] motion simulators, virtual and augmented reality software, electronic publications, downloadable, relating to laser holographic projectors, holographic projections of structured light, picture generating units, picture-generating units for a head-up displays, picture-generating units for a head-up display for vehicles, laser picture generating units, picture generating units including a laser, dynamic holographic projectors, safety parts and fittings for laser projectors, apparatus for lighting, automobile headlamps, automobile headlights, automobile lights, computer-controlled lighting instruments, computer-controlled lighting apparatus, electric apparatus for lighting, headlamps for automobiles, headlamps for vehicles, headlights, LED lights for automobiles, light emitting diode lights for automobiles, lights and lamps for vehicles, reflectors for vehicles, vehicle lighting and lighting reflectors, vehicle lighting apparatus, internal and external lighting, vehicle lighting installations, illuminators, LED lighting installations, light fittings, light fixtures, lighting, luminaires, holographic headlamps, laser holographic headlamps, holographic projection headlamps, laser headlamps; information, advisory and consultancy services relating to the aforesaid.

Class 38:

Telecommunications; transmission of data; electronic transmission of data; electronic transmission of images; transmission of information by electronic means; computer-aided transmission of images; retransmission of images via satellite; transmission of

messages and images; audiovisual transmission services; wireless electronic transmission of images; satellite transmission of sounds and images; network transmission of sounds, images, signals and data; communication services for the electronic transmission of images; communication between computers; computer communication services; communication using holographic projectors; computer data transmission services; access to computer web content, websites and portals; electronic data exchange; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; provision of telecommunications connections to the internet or computer databases; telecommunication gateway services; transmission of data by laser beam; telecommunication using spatially modulated light; transmission of data using spatially modulated light; telecommunication using holography; telecommunication using holographic projection; telecommunication using structured light; vehicle to vehicle communication using spatially modulated light; vehicle to vehicle communication using holographic projection; information, advisory and consultancy services relating to the aforesaid.

Class 40:

Assembly of products for others; custom 3D printing for others; custom assembly of laser holographic projectors; custom manufacture of laser holographic projectors; custom manufacture of computer software platforms, computer hardware, data storage devices, data capture apparatus, data encryption apparatus, encoding and decoding apparatus and instruments, downloadable publications, downloadable digital photos, downloadable image files, multi-media recordings, projectors, projector screens, image projectors, self-acting focussing projectors, lasers, laser diodes, laser pointers, super luminescent laser diodes, dry laser imagers, laser installations, other than for medical use; custom manufacture of mini beam projectors, holographic apparatus, head-mounted holographic displays, holographic projectors, holographic projector of 2D scenes, multiplane holographic projectors, full colour holographic projectors, holographic image formation devices, holographic plates, holographic screens, holographic films, holographic discs, LCD projectors, multimedia projectors, holograms,

digital optics, computer generated holograms, kinoforms, phase holograms, phase-only holograms, Fourier holograms, Fourier transform holograms, Fresnel holograms, dynamic holograms, diffractive structures, computer generated diffractive structures, waveguide head-up displays, exit pupil expanders, image processing apparatus, image transmitting apparatus, image recognition software, image processors, image intensifiers, residual light image amplifiers, instruments for amplifying images, apparatus for amplifying images, computer programmes for image processing, software for generating virtual images, apparatus for reproduction of images, apparatus for transmission of images, satellite imagery photo-interpretation software, image processing software for in-vehicle cameras, software for processing images, graphics and text; custom manufacture of apparatus for broadcasting sound, data or images; custom manufacture of cables for the transmission of sounds and images, fibres for the transmission of sounds and images, data and image processing software for making three dimensional models, computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; custom manufacture of light sensors, light conducting filaments, light emitting diodes, light emitting diode displays, light-emitting electronic pointers, LED [light-emitting diodes], light detection and ranging [LIDAR] apparatus, light detection and ranging [LIDAR] apparatus for vehicles, light detection and ranging [LIDAR] using structured light, light detection and ranging [LIDAR] by scanning a holographic image, light detection and ranging [LIDAR] by scanning a holographic projection, picture projectors, picture transmission apparatus, three dimensional picture manipulators, apparatus for generating virtual images, head-up displays, head-up displays [HUD] for vehicles, head-mounted displays, near-eye devices, head mounted augmented reality displays, head-up displays for augmented or virtual reality, laser holographic projectors for augmented or virtual reality, (laser) holographic projectors for driver assistance, head mounted 2D monoscopic displays, head mounted 3D stereoscopic displays, head-mounted video display apparatus, LED displays, visual display screens, electroluminescent display panels, visual display units, display panels

for vehicles, LCD [liquid crystal display], liquid crystal on silicon devices, liquid crystal on silicon displays, liquid crystal on silicon spatial light modulators, flat panel displays, LCD [Liquid Crystal Display] monitors, spatial light modulators, phase-only modulators, liquid crystal light modulators, electronic driver display systems for vehicles, colour filters for liquid crystal displays, vehicle navigation systems featuring interactive displays, OLED (Organic light emitting diode) display panels, thin film transistor-liquid crystal display (TFT-LCD) panels, vehicle autonomous driving systems featuring interactive displays, touchscreen monitors, touchscreen sensors, 3D computer graphics software, silicon carbide diodes, silicon controlled rectifiers, modulators, light modulators, lens, lenses for projectors, diffraction apparatus [microscopy], optical mirrors, optical enhancers, optical character recognition apparatus [OCR], virtual reality [VR] motion simulators, virtual and augmented reality software, electronic publications, downloadable, relating to laser holographic projectors, holographic projections of structured light, picture generating units, picture-generating units for a head-up displays, picture-generating units for a head-up display for vehicles, laser picture generating units, picture generating units including a laser, dynamic holographic projectors, safety parts and fittings for laser projectors, apparatus for lighting, automobile headlamps, automobile headlights, automobile lights, computer-controlled lighting instruments, computer-controlled lighting apparatus, electric apparatus for lighting, headlamps for automobiles, headlamps for vehicles, headlights, LED lights for automobiles, light emitting diode lights for automobiles, lights and lamps for vehicles, reflectors for vehicles, vehicle lighting and lighting reflectors, vehicle lighting apparatus, internal and external lighting, vehicle lighting installations, illuminators, LED lighting installations, light fittings, light fixtures, lighting, luminaires, holographic headlamps, laser holographic headlamps, holographic projection headlamps, laser headlamps.

Class 42:

Scientific and technological services and research and design relating thereto;
Industrial analysis and research services;
Design and development of computer hardware

and software; advisory services relating to computer systems design; computer hardware and software design; consultancy in the field of technological design; design consultation; design of communication systems; design of lighting; design of vehicle parts and components; engineering design and consultancy; product design and development; product research and development; telecommunications engineering; telecommunications engineering consultancy; software as a service (SaaS); platform as a service (PaaS); software research; development of new technology for others; research relating to technology; technical engineering; software engineering; engineering project studies; engineering design services; software as a service (SaaS) featuring software for laser holographic projectors; hardware design; electronic storage of holograms; calculation of holograms; designing and developing algorithms for calculating holograms; design and development of holograms; design and development of hardware for data and multimedia content conversion from and to different protocols; electronic storage of images; scanning of images; encryption of digital images; encoding of digital images; digitalization of sound and images; design and development of image processing software; preparation of design parameters for visual images; conversion of images from physical to electronic media; development and design of digital sound and image carriers; design of three dimensional displays; design and development of data display systems; design and development of virtual reality software; design and development of laser holographic projectors; custom design of laser holographic projectors; engineering of laser holographic projectors; information, advisory and consultancy services relating to the aforesaid.
