接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請 。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情 。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知 。(例如，若果公布日期爲 2003 年 4 月 4 日，則該三個月的最後一日爲 2003 年 7 月 3 日 。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜 。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人 。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0 檢視電子憲報 。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0.

Metal goods; access platforms and working platforms (prefabricated platforms of metal); metal handrails for walkways; metal barrier apparatus in the nature of posts and guard rails of metal; Building materials of metal, namely, aluminum faced modular panel wall and slab form system for the use in poured-in-place concrete structures; Building materials of metal, namely, metal modular panels and joints used as molds for forming walls, slabs, stairs, columns, windows, and doors in poured-in-place concrete structures; chains of metal; Concrete shoring, form shoring and supporting equipment (supporting structures of metal), namely, metal forms, fittings, parts and accessories for concrete forming equipment and apparatus, all of metal, namely, beams, girders, trusses, stringers, braces, extension legs, strongbacks, stiffbacks, walers, strongback shoes, tie-bolts, clamps, casters, rollers, bolts, nuts, pins, clips, bracing lugs, splices, tieplates, chord fillers, hangars, wall jacks, safety barriers, brace and plumb brackets, wall plumbing devices, catwalks, catwalk brackets, ledgers, knee braces, outriggers, wall forms, pan forms, column forms, beam forms, spandrel forms, tunnel forms and lifting slings; Construction hardware made of metal, namely, connecting and supporting nodes for connecting parts of suspended access systems and work platforms; cover plates of metal; metal fences; Forming and shoring equipment (metal construction materials) for concrete construction; formwork and shoring of metal; metal hoarding panels; Interior and exterior scaffolds of metal; metal ladders; manhole covers of metal; Mast climbers systems consisting of single, twin or multiple vertical masts of metal to which an elevating work platform is coupled; Metal building materials and metal building tools, namely, scaffolding, metal interior and exterior shutters, formwork in the nature of scaffolding; Metal modular scaffolding, and metal components for use therefore, namely standards, braces, ledgers, girders, brackets, base collars, screw jacks, swivel bases and locking pins; metal prefabricated platforms; metal rolling towers; Metal scaffolding; Metal scaffolding and parts therefore; Metal scaffolding and shoring, namely, sectional tubular scaffolding, systems tubular scaffolding, tube and clamp tubular scaffolding and shoring; metal shoring, namely, metal beams and metal panels for use in supporting formwork and beams while building, renovating or repairing structures; structural parts of metal scaffolds, namely, metal rolling towers, metal work platforms and metal work stages; metal seating system comprised of metal bleachers, metal grandstands and metal chair risers; Metal shoring systems, namely beams, panels, bracing frames, and beam mounting fixtures; Metal shoring to provide support for formwork and beams while building, renovating or repairing structures; metal shoring, namely, metal beams and metal panels for use in supporting formwork and beams while building, renovating or repairing structures; modular metal shoring and parts therefore; metal panels and forms

（formwork）for pouring concrete; platform scaffolding of metal for use with staging; Portable metal scaffolding; Prefabricated elevated work platforms of metal; prefabricated metal work platforms; prefabricated metal scaffolding; Prefabricated suspended work platforms of metal; metal roof supports in the nature of metal beams; roofing tiles and panels of metal; scaffold towers of metal; shoring scaffolding of metal and accessories thereto; shores of metal; steel planks; Structural devices of metal, namely, steel girders, steel supports and steel beams for refurbishing underneath bridges; Suspended access system of metal for making supports in the nature of metal ramps and platforms and consisting primarily of structural support devices of metal, namely, steel girders, supports, beams, joists, connecting and support nodes, pins, deck supports, beam clamps, chains, decking, guardrails and toe boards, and parts thereof, for personnel access, event, construction, refurbishing, maintenance and repair purposes; temporary metal flooring; temporary roadway in the nature of metal panels to be placed on roadways under construction; tool boxes of metal; trench sheeting panels of metal; trenching struts of metal; metal trestles.

Class 37:

Building construction and repair; application of coatings and sealers; application of protective coatings; Building construction and repair in the poured-in-place concrete industry; Building construction services; building demolition; Building maintenance and repair; Cleaning of external surfaces of buildings and structures; cleaning, installation, repair and maintenance of storage tanks and containment vessels; Concrete pouring and forming for buildings and other commercial or public concrete structures; construction and repair services, namely, erection of enclosures surrounding scaffolding and shoring used for construction, refinishing and maintenance of structures; Construction consultation; construction consultation in the field of bolting and bolt torqueing; Construction management supervision in the construction of scaffolding; construction of buildings; construction of facilities and structures in the fields of oil and gas, chemicals, power, mining, and wastewater treatment; construction of pipeline booster stations for gas pipelines; construction project management services; Construction services in the field of application of paint, coatings and resins, namely, specialized industrial painting contractor services and application of specialized coatings and resin sealers for large-scale industrial site surface preparations, oil field, gas, shipyard and marine facilities; construction services in the field of industrial facilities insulation services, namely, installation, maintenance and removal of thermal and cryogenic insulating materials at refinery, petrochemical and power-generation facilities, and marine and off-shore facilities; construction services in the field of refractory services, namely, installation, repair, and maintenance of refractory linings in high temperature vessels, particularly fluid catalytic cracking units, reformers, hydro crackers, crude units, thermal reactors, boilers, sulfur recovery units, and industrial furnaces; Construction services, namely excavation, site

preparation, leveling, backfill, grading, soil replacement and sand cushion services; Construction services, namely installation, repair and maintenance of cathodic protection systems; Construction services, namely installation, structural restoration, and repair of industrial structures; construction services, namely, asbestos removal services at refinery, petrochemical and power-generation facilities, and marine and off-shore facilities; Construction services, namely, concrete pouring, forming and shoring for large-scale concrete industrial, commercial or public buildings and structures; construction services, namely, earthwork and site preparation, structural steel installation, installation of piping for industrial purposes, installing mechanical systems, installing electrical systems and instrumentation; construction services, namely, erection, repair and dismantlement of bleachers, stadium and theater seating, staging, barricades, turnstiles and ramps, T.V. towers and chair risers; Construction services, namely, lead removal services at refinery, petrochemical, power-generation facilities, and marine and off-shore facilities; construction services, namely, machinery retrofit and conversion services to incorporate new technology into machinery; construction, maintenance, and renovation of construction project facilities property; consultation relating to painting of buildings; consultation services, namely, consulting to review construction processes from start to finish during pre-construction phase to identify obstacles before a project is actually built to reduce or prevent errors, delays, and cost overruns; Contractor services in the field of application of paint, coatings and resins, namely, application of coatings, paint and resin sealers to marine vessels, hull surfaces, above ground storage tanks, and drilling equipment and risers located on marine equipment; Contractor services, namely, application of protective coatings for preventing corrosion under insulation in petrochemical facilities and chemical plants, application of protective thermal spray coatings; covering, coating, and maintenance of pipelines for oil; custom construction of construction project facilities; demolition services, namely, demolition of refractory linings in high temperature vessels, namely, structures and industrial operating or processing vessels; dismantling and demolishing services; electrical contractor services; electrical repairs, maintenance, and installation of electrical wiring, outlets, light fixtures, and electrical panels; erection and dismantling of construction elements in the nature of shoring; fire proofing of building and structures during construction; fireproofing services during construction, namely, application of fire retardant and resistant coatings and materials to buildings and structures; formwork rental services; general construction contracting; Installation of aluminum faced modular panel wall and slab form system for the use in poured-in-place concrete structures; Installation of building insulation; installation of cladding on buildings, equipment and piping; Installation of building scaffolds, working platforms and building platforms; installation of electric and steam heat control tracing; all of the foregoing in the field of infrastructure for the oil and gas, energy, chemicals, power, mining, and wastewater treatment

industries; installation of electrical and generating machinery; installation of electrical wiring, equipment, and instrumentation; Installation of insulation, cladding and jacketing for boilers, ducting and piping at refinery, petrochemical and power generation facilities, and marine and offshore facilities; Installation of metal modular panels and joints used as molds for forming walls, slabs, stairs, columns, windows, and doors in poured-in-place concrete structures; installation of piping; installation, maintenance and repair of protective coatings for floors; Leasing construction equipment; leasing concrete shoring, form shoring and supporting equipment and apparatus for use in the construction industry; Leasing of forming and shoring equipment for concrete construction; Leasing of safety barriers for edge protection in the construction industry; Leasing of scaffolding; Leasing of self-climbing systems for lifting formwork for concrete construction; mechanical contractor services; painting and applying coatings to industrial and commercial buildings and structures; painting and applying coatings to industrial machinery; painting; pipe laying services; pipeline construction and maintenance; pipeline installation and repair; providing construction services, namely, building and foundation construction, and general construction contracting; remodeling of industrial facilities for the purpose of incorporating new technology therein; removal of rust, paint, and resins from industrial structures and equipment; Rental of concrete forming and shoring equipment; rental of construction elements in the nature of shoring; Rental, assembly, erection and dismantling services for suspended access system and structural support devices; rental, erection and dismantling services for suspended access system and structural support devices; repair and maintenance of building scaffolds, working platforms and building platforms; scaffolding erection and dismantling services; scaffolding installation management services; Scaffolding rental services; Scaffolding services, namely, scaffolding erection, dismantlement and rental; shoring erection and dismantling services; shoring rental services.

[511] 貨品／服務說明：
Specification: Class 6:
Metal hardware; nuts, bolts, washers (not tap washers) and fasteners, of metal; grips, cables, wires of metal; metal support grips, conduit riser grips, service drop grips, metal slings, pulling grips and swivels, connectors and sleeves therefor, strain relief grips, bus drop grips and springs therefor, cord grips, grip adaptors and hose containment grips for connecting, holding and pulling articles namely cables, pipes, conduits; metal cartridges; cartridges containing exothermic powdered metal weld mix and molds for exothermic reaction welding; reels of metal and metal rolling conductor supports; chains of metal; automatic payout and take-up metal reels for hose and electric cables and cords, non-mechanical, metal drag chains for use in supplying power from a stationary source to a moving machine component; non-mechanical rolling conductor supports made of metal composed of scaffolding and casters for use in supplying power from a stationary source to a moving machine component; metal hardware, namely, installation hardware for outlet boxes, namely, brackets, straps, locknuts, bar hangers and cable clamps; metallic products namely, channel supports, metallic frames, metallic grates, metallic grate retainers, all used for drainage and retention systems; connectors made of metal; welding and soldering materials; welding metals,

welding steels, welding wires; welding materials made of exothermic aluminum and copper oxide; structures of metal; metal utility vaults and parts and fittings therefor; metal utility vaults for access to underground utility, telecommunications, fiber optic and cable lines; metal parts for the aforesaid goods, namely, bases, baffles, tamper shields, pop caps and cover plates; metal mounting brackets for electrical outlet boxes; metal enclosures, cabinets, consoles and boxes for use with electrical, electronic and heat transfer components; metal pipes, tubes and hoses and fittings therefor, including vales of metal; connectors and couplings of metal; couplings of metal for pipes; metal junctions for pipes; metal pipe connectors; metal pipe collars; metal pipe fittings; metal connectors and fittings for connecting pipes to electrical boxes and electrical junction boxes; building and construction materials and elements of metal; piles, poles and anchors of metal; helical piles, anchors, helical anchors, helix anchors, piers and piles for use in metal foundation support systems; metal utility vaults, comprised in whole or in part of steel, for access to underground utility, telecommunications, fiber optic and cable lines; metal and steel pipes and metal and steel piers for use in providing foundation support and stabilization; metal piles; poles of metal for electric lines; electrical conductor cable hangers and ties; cover plates of metal; fixture hangers (metal hardware).

Class 7:

Moving and handling equipment; lifting and hoisting equipment; mechanical reels; power operated reels for hoses; power operated reels for taking up and paying out hydraulic and pneumatic hoses and electrical cable; machine parts for carrying electrical conductors, namely, drag chains and rolling conductor supports for use with electrical cables in supplying electrical power from a stationary supply source to a moving machine part; power-operated portable carriers in the nature of reels (parts of machines) for use with electrical cables supplying electrical power from a power source to movable machine parts; motor-starters; electric brakes; motor couplings.

Class 9:

Electrical and electronic connectors and parts thereof; electrical components, namely, wiring and vacuum tubes; measuring, detecting and monitoring instruments, indicators and controllers; apparatus and equipment for measurements of high voltage networks; voltage dividers; measuring shunts; generator controllers; generator PC controls; chopping gaps used to chop lightning impulses; sphere gaps for voltage calibration; voltage impulse measuring systems consisting primarily of a central processing unit, control computer, software, power supplies, data storage, interfacer calibrator and digitizer; capacitive divider ratio meters; current resistance meters; transformer testers; transformer measurers; current boosters for inductance testing; inductors; voltage discharge detectors; voltage discharge measurement instruments; current comparators; voltage burden instruments used as artificial loads for current and voltage transformer measurements; voltage measurement and analysis instruments; voltage coupling capacitators; voltage cable test terminations; power loss

measurement instruments; transformer turns ratio meters; heat run testers; capacitator dissipator measurement bridges; winding resistance meters; electromagnetic compatibility testers; measuring, counting, alignment and calibrating instruments; electricity measuring instruments; high voltage power supplies and power packs, direct current wire sparkers and parts therefor; high voltage test equipment, namely, megohmmeters, DC (direct current) insulation testers, dielectric and corona test equipment, load cycle testers, high voltage fault locating bridges and impulse-type fault locators; high voltage test equipment, namely, pulse pick-up devices for fault locating, automatic cable testers, alternating current dielectric test equipment for testing the dielectric on wires and cables, electrical wire insulation pin hole counters; high voltage test equipment, namely, multiple wire insulation testers, non-destructive insulation testers, discontinuity enamel wire defect testers, electrical test and fault locating equipment; surge generators for testing high voltage cables, switchgear and capacitors; electrical impulse measurement equipment; current shunts; voltage stepwave generators; high voltage power supplies, cable and transmission line fault locators; cable and wire test sets; circuit breaker test sets; controllers (regulators); electric switches; electrical control panels and controllers for controlling the operation of electric motors; controllers, electric controllers, magnets, electrical switch components, electrical switch-frames, electrical switch-arms, electrical switch-contacts, electrical switch-magnets, electrical resistance-grids, electrical relays, electrical overload-relays, electrical acceleration-relays, electrical limit-switches, electrical master-switches, electrical alternating-current relays, electrical push-button switches, and spare parts for the above-named electrical apparatus; fire pump products namely, fire pump control valves, electric motor fire pump controllers, fire pump controllers with transfer switches, battery chargers for fire pumps, alarm panels for fire pump controller status; electrical transmission apparatus and equipment, cables and wires for electrical transmission, transformers, fuses, lightning arresters, electrical relays, electric switches, electrical conductors, electrical connectors, electrical power distribution equipment, electrical grounding apparatus and equipment and electrical apparatus and instruments and parts and accessories therefor; fastening glands for electrical cables; cable junctions for electric cables; cable junction sleeves for electric cables; parts and fittings for the aforesaid goods; electrical terminals; electrical cable connectors; electrical cable and wires; termination blocks and earthing terminals; electrical switches and junction boxes; electric switches and connectors, electrical wiring devices; electrical power outlets; electrical wiring products, namely, electrical plugs and connectors; electric flush receptacles, wall switches and outlets; attachment plug caps, electric cord-coupling caps, electric couplings, attachment plugs, and motor plugs, straight blade electrical plugs; electrical and hydraulic cord, cable and hose routing system comprising raceways, namely, polymeric composition carriers for containing and protecting electrical and hydraulic cord, cable and hose;

apparatus, instruments and cables for electricity; electrical apparatus, namely, conduit boxes; electric switch housings; motor control housings; flexible electric couplings; junction boxes, plugs and receptacles; explosion-proof electric switches; explosion-proof electric control stations; control centers (switch racks); reducers (electricity); close-up plugs; electric couplings and connectors; cast outlet boxes; cord and cable connectors; electrical boxes containing electrical switch, electrical outlet, electrical cable, conduit, electrical junction, cutout and receptacle, covers and plates for electrical boxes, bar hangers for electrical boxes, and clamps (electrical connections) for electric cable and conduit, electrical switch boxes, electrical outlet boxes and covers therefor, ground clamps (electrical connections); splice boxes, splice connectors; enclosures for utility, telecommunications, fiber optic and cable lines, namely, splice boxes and bases therefor, and parts for underground splice boxes, namely, extensions and lids; electrical connectors; electrical connectors for electrical utilities, commercial, industrial and residential contractors, maintenance and repair companies, as well as the telecommunication and renewable energies markets; electrical outlet covers and housings for electrical equipment, namely, electrical cables, electrical switches, electrical connectors, electrical substations, and electrical load interrupter switches; electrical cable accessories, namely, plugs, network interface devices, conductors, multi-point junctions, fuse mounts and terminal blocks; electrical cable assemblies; pre-wired junction boxes (power system distribution assemblies); electrical transformers (power system supply assemblies); cable connectors; electrical cables; connection cables; electrical wires; power transformers; electrical lighting controls and power controllers; electrical outlets; electrical receptacles; electrical sockets; electrical switches; transformers; voltage surge protectors; lighting surge protectors; lighting transformers; heat sinks for use in electronic components; explosion-proof junction boxes, conduit boxes, electric switch housings, motor control housings, flexible electric couplings, junction boxes, explosion-proof electric switches, explosion-proof electric control stations, reducers (electricity), close-up plugs, electric couplings and connectors, cast outlet boxes, cord and cable connectors, explosion-proof terminal housings, electrical power distribution equipment; electric wiring devices, namely, electrical switches, receptacles, caps for electrical apparatus, electrical connectors, electrical couplings and attachment plugs; convenience outlets; electric motor plugs and electric couplings; adapters; current taps; waterproof covers for caps for electrical apparatus and electrical connectors; information technology devices; point-to-point communication equipment; electrical power, telephone and data communications components, namely, adapters, plugs, jumpers, jacks and connectors; electrical patch cords, jack, balun and connector panels; telephone and data terminals and terminal wall plates; raceways made of plastic for wire and optical fiber containment; cross connect terminal blocks; patch and jumper cords; connectorized wires, cords and cables; cable testers; surge

protectors and parts therefor; wiring devices, namely, receptacles, plugs, adapters and connectors; electric switch devices, namely, limit, locking speed responsive, explosion proof, tamperproof, centrifugal, wobble, reversing and circuit interrupters; circuit testing apparatus namely, continuity testers, polarity testers; junction boxes; electrical grounding devices; power supplies; fault detecting apparatus; electric relays; power substations; motor speed controls; motor direction controls; lifting magnet monitors; crane controls; transformers; conduit fitting; hot metal detectors, hot and cold object back-lighted detectors, optical scanning and position detectors, constant and variable speed non-contacting length measuring gauges; electronic equipment for monitoring and controlling conditions at different locations; equipment for producing transmitting receiving and processing telecommunications and data communication and signals, namely, transmitters, receivers, transceivers, amplifiers, convertors, repeaters, suppressors, modems, multiplexers, station selectors; telecommunications equipment namely, terminal buffers, voice couplers, and frequency transmitters; computer networking and data communication equipment; data communication system comprising transmitter and receiver hardware and software for use in connection with conveyors for collecting and measuring performance and providing control such as safety input for shutting down conveyors; traffic signal electric switches, electrical transmission and substation disconnect electric switches; electrical wiring device primarily for power supply connection for light-emitting diodes lighting and LED video displays; surge arresters for electric power lines and circuits; electrical connection devices with welded wire leads; industrial and commercial electrical lighting control panels; lighting fixtures and lighting control apparatus, namely, communication and control devices for use with lighting fixtures; photoelectric controls and sensors; photoelectric control for varying the intensity of electric lamps; electric power switch packs; electronic sensor devices, namely, occupancy sensors for ceiling mount for use in determining whether a person is inside a room; motion sensors; motion sensors for lighting; dimmers; lighting dimmers; light meters; exposure meters; sensors for use in detecting motion and dimming or brightening lights electric light switches; power supplies for building controls, light sensors, occupancy sensors, power sensors, lighting timers and building control timers; electric light dimmers; electrical controllers; electrical controls for use in dimming ballasts; electronic monitors and meters for use in measuring the amount of energy expended; and electric monitors and meters for use in measuring light intensity, electronic timer switches and control systems for lighting; wireless lighting control system for roadway lighting applications; inverters, cover plates for electric switches and receptacles and electric outlet boxes; enclosures, comprised in whole or in part of steel, for utility, telecommunications, fiber optic and cable lines, namely, splice boxes and bases therefor, and parts, comprised in whole or in part of steel, for underground splice boxes, namely, extensions and lids; wiring devices, namely, electrical plugs, electrical

receptacles, electrical inlets, electrical pin and sleeve plugs and receptacles, all designed to withstand harsh environmental and industrial conditions; explosion-proof junction boxes; fittings for electrical enclosures, electrical conduit systems, and cable connectors, namely, electric connectors and metal threaded fasteners that have been specially adapted for electrical enclosures, electricity conduits, and cable connectors; electricity conduit boxes; electric switch housings; housings for electrical motor controllers; flexible electric couplings; explosion-proof electric switches; explosion-proof electric control panels; reducer fittings for electrical enclosures and electricity conduits, namely, small metal hardware specially adapted for electrical enclosures and electricity conduits that enables electricity conduits of different widths to be connected together; electric close-up plugs; sealing fittings for electrical conduit systems, namely, small metal hardware specially adapted for electricity conduits used to prevent the passage of gases, vapors, or flames from one portion of an electrical installation to another through such conduits; unions for electrical conduit systems, namely, small metal hardware specially adapted for electricity conduits used to connect electricity conduits together; electric couplings and connectors; cast electric outlet boxes; electric cord and cable connectors; explosion-proof electrical terminal housings; electrical power distribution equipment, namely, circuit breaker enclosures, disconnect switches and panelboards; computer application software; computer hardware; computer application software and computer hardware for use in connection with mobile phones and other hand-held computing apparatuses that allow wireless connectivity to various electronic devices and that enable applications to be run on such mobile phones and hand-held computing apparatuses; electrical raceways; apparatus and instruments for controlling lighting; lighting controls; light transforming lenses and optics in the nature of optical lenses for focused illumination of medical examination areas; programmable LED drivers for use in lighting fixtures; ground fault circuit interrupter units for indoor and outdoor electrical installations in industrial, residential, and swimming pool areas for sensing ground faults in and cutting off the electrical power supply to such installations; Computer application software and computer hardware for use in connection with mobile devices, phones and other hand-held computing apparatuses that allow wireless connectivity to various electronic devices and that enable applications to be run on such mobile phones, devices and hand-held computing apparatuses; Downloadable home automation software applications for electric and ambient lighting, HVAC (heating, ventilation and air conditioning), climate control and monitoring, power control and monitoring, security, safety, and other home monitoring and control applications; IoT (Internet of Things) and M2M (machine to machine) software for the remote electronic control, tracking, monitoring and management of machines, devices, people, pets and things; Downloadable mobile applications for monitoring, managing and controlling internet of things (IoT) enabled devices; downloadable software and software applications

permitting users to remotely control electronic locks, alarm systems, lights, garage door openers, electric gates, wireless local area network enabled plug outlets, televisions, video streaming devices, digital video recorders and receivers, wireless local area network enabled cameras and other electronic devices; Thermostats that incorporate wireless connectivity; computer software for mobile devices, namely, software for programming and controlling the aforementioned thermostats; Electronic devices, namely, kitchen thermometers, cooking thermometers, electrical switches, digital audio players, and wireless transmitters and receivers; Wired or wireless control system, connected to wired and wireless networks in buildings, software applications; electric wall switches and dimmers, receptacles, occupancy sensors, motion sensors, vacancy sensors, daylight sensors, lighting control panels, room controllers, control interface and network modules; voice-activated, and remotely-activated IP (Internet protocol) cameras, smoke detectors, carbon monoxide detectors, anti-intrusion alarms, burglar alarms, motion detectors, electronic glass break detectors, remote control units, keypads and control panels for security systems and home automation devices, electronic door locks, light systems comprising light sensors and switches, lighting systems, namely, lighting controls; Electrical and electronic circuits, computers, wireless electrical devices and equipment, audio devices, video devices, computer network devices, headsets, speakers, wearable electrical and electronic devices, microphones, speech recognition devices; semiconductors and packages thereof; Internet of things (IoT) enabled devices namely, electrical outlets, sprinkler controllers, water leak sensors, mirrors, cameras, open/close sensors, computer modules, smoke and fire sensors and smoke and fire alarms; IoT (Internet of Things) and M2M (machine to machine) hardware, namely, electronic sensor devices for the remote electronic control, tracking, monitoring and management of machines, devices, people, pets and things; Vehicle locator device programmed to use GPS tracking; Navigational system, comprising electronic transmitters, receivers, circuitry, microprocessors, mobile telephone and computer software; Remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images and videos to remote locations; video cameras; electric and electronic sensors for motion, humidity, temperature, and light; smart home dashboard comprised of computer hardware and software used to control electronics in the home; dual independent electric socket control receptacle, namely, multimedia outlets with dual USB ports and backlight/nightlight; wireless enabled electrical plug outlets; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, electronic locks, security systems, lighting systems, garage door openers, electric gates, televisions, cameras, video streaming devices, video recording and video receiving devices, digital video recorders and other electronic devices; electronic and wireless control panels for security and home automation systems; Electrical wiring devices and wire management computer systems; telecommunications products; household electric

control apparatus for energy saving; downloadable software for use in the data communication, oil and gas, power and utilities, security, electrical, electronic and lighting fields; light engines; LED light engines; lighting controls, lenses and optics; software applications that communicate through wired or wireless network for use with wireless or wired lighting system; relay based lighting control panels, plug load control device; smart ceiling fan controllers.

Class 11:

Lighting and lighting reflectors; electrical lighting fixtures, luminaires, light-emitting diodes lighting, high-intensity discharge lighting, lighting fixtures and parts therefor; electrical lighting fixtures; flood lights; lighting fixtures; electrical lighting fixtures, namely, lampholders and fittings therefor made of plastic or polymer material; electrical lighting fixtures, namely, garden lights and fittings therefor made of plastic or polymer material and parts therefor; ventilation equipment; sanitary installations, water supply and sanitation equipment; filters and valves for water supply; passive air ventilation units for industrial and domestic use; plumbing fittings, namely, enclosures for covering, securing and otherwise protecting exterior plumbing assemblies; enclosures in the nature of fiberglass laminate material for environmental protection of above ground air release valves of water supply system; indoor lighting fixtures; outdoor lighting fixtures; indoor and outdoor lighting fixtures and devices including lamps, flood lights, spot lights, louver lights, tube lights, step lights, walkway lighting, swivel lights, light clusters, high bay lights, landscaping lighting, reflectors, lamp holders, bases, mountings and brackets, mounting spikes and floodlight supports; lighting fixtures and finishes sold as components of lighting fixtures; electric lighting fixtures for outdoor floodlights and hardware sold as a unit; heat sinks for use in heating, cooling and ventilating apparatus; accent lights for indoor use; ceiling light fittings; ceiling lights; downlighters; electric light bulbs; electric lighting fixtures; floodlights; light emitting diodes lighting fixtures for use in display, commercial, industrial, residential, architectural accent lighting applications; LED lighting fixtures; LED light bulbs; LED lighting fixtures for indoor and outdoor lighting applications; LED luminaires; light bulbs; lighting fixtures; electric lamps; lamp bulbs; lamp reflectors; lamps; standard lamps; electric luminaries; luminaries; structural parts of lighting fixtures, namely, recessed lighting housing; recessed lighting fixtures; down lights; retrofit kits for lighting fixtures comprising housing adaptor, light reflector and decorative trim; LED light assemblies for street lights, signs, commercial lighting, automobiles, buildings, and other architectural uses; LED light strips for decorative purposes; LED lighting assemblies for illuminated signs; LED grow light fixture; LED plant grow cultivation light; LED wall mounted lighting; LED lights; light fixtures; lighting accessories; lighting fixtures, light reflectors, lighting accessories; lighting fixtures, light reflectors; lighting accessories, namely, pull cords specially adapted for light fixtures and lamps; and lenses in

the nature of light diffusers and lighting refractors; Wireless or wired lighting system with control functions that communicate through wired or wireless network; Smart ceiling fans; lamp shade holders; indicator lights for emergency light fixtures; LED luminaire for lighting fixture; LED luminaire for backlit mirror light and light fixture; and flat panel lighting apparatus for mirror apparatus or fixture; luminaires with integrated controls; Internet of things (IoT) enabled devices namely, lamps and LED lights; automated lighting installations featuring motion detection, slim design for use on multi-throw switch plates, timers, welcome home and random-away lighting features, and manual control.

Class 19:

Building and construction materials and elements, not of metal; buildings and building structures not of metal; concrete rings and plates; polymer concrete building structures and structural supports, flooring; non-metallic drainage installations; non-metallic building products, namely, concrete rings and plates, utility vaults and utility enclosures, bases, baffles and tamper shields, pop caps and cover plates for utility vaults, cable trenches, all made from reinforced polymer concrete or plastic; fiberglass building structures and materials; plastic or polymer trench system; polymer concrete products namely, hydraulic drop structures, flooring tile and blocks and grout therefor, structural beams and slabs and support stands, and drainage systems consisting of channels and drain outlets; non-metallic products, namely, channel supports, drain outlets, frames, catch basins and grates, all used for drainage and retention systems; underground structures made of polymer concrete, namely, bases for telephone equipment and transformers; fiberglass composite plates and beams for use in construction and as road hole covers and trench covers; fiberglass composite panels for trench shoring; fiberglass composite panels for protecting shallow gas mains; fiberglass composite covers for manholes and vaults; concrete pipes and concrete piers for use in providing foundation support and stabilization; plastic or polymer trench systems.

Class 37:

Class 9:
Scientific, surveying, photographic, cinematographic, optical, measuring, signalling, checking (supervision), and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; data processing equipment, computers; computer software; computer hardware and software for cybersecurity to identify and protect against security threats; computer anti-virus software; anti-spyware software; computer software and computer hardware for detection, blocking, and facilitating removal and remediation of computer viruses, rootkits, bootkits, backdoors, zero-day attacks, data exfiltration, phishing, bots, time bombs, worms, cyber-attacks, malicious attacks, and advanced persistent threats; computer software for preventing malicious attacks on, and unauthorized activities and intrusions in, computers, computer systems, software applications, digital devices; computer software and hardware providing secure networks over virtual computer systems and virtual computer environments; computer firmware and computer software for enhancing industrial automation and for assessing and identifying vulnerabilities and cyber security threats and risks in control system infrastructure, computer control systems, and devices, and for testing the effectiveness of cyber security applications, devices, and systems to achieve optimal network security, all in the field of cyber security vulnerability testing and prevention; computer hardware and

software for interconnecting, managing, securing and operating local and wide area networks and telephony systems; telephones, telephone headsets; wireless communications devices, namely, wireless hardware and software for the transmission of voice, data, audio, and video; call processing software for the transmission of data, video, and voice traffic; downloadable electronic instructional materials, namely, manuals, guides, test materials, and magazines in the fields of network communications, and managing, operating and using local, wide and global networks, and cable television systems; computer software for use in social networking, namely, for use in providing online communications among users and for creating customized on-line web pages featuring user-defined information, personal profiles, and information; electronic devices for recording, organizing, transmitting, and/or reviewing voice, audio, video, and/or data files; consumer electronics, namely, hardware and software for the transmission of voice, data, audio, and/or video; computer network routers; gateway routers in the nature of computer control hardware; telecommunications switches; network access range expanders; Internet video cameras; print servers; communication terminals comprising computer hardware and/or software for providing video, audio, data, video game, and telephone communications and/or transmissions; network storage devices, comprised of computer hardware and/or software; interfaces for interconnecting computers, projectors, stereo systems and game consoles; computer hardware; computer network interface cards; network cables; computer network adapters; computer servers; communications servers; computer hardware containing network security functionality, including firewalls; apparatus for data encryption, and/or interoperability with network security protocols; computer software and hardware for sending, storing, managing, integrating and accessing text and voice messages via telephone, electronic mail, pagers, personal digital assistants, and internal and global computer networks; digital video recorders; set-top boxes; cable television converters; receivers for receiving cable television; hardware and software for the operation of cable television systems, content distribution systems, and communication systems; USB hubs; headphones; earphones; audio speakers; computer storage devices, namely, flash drives; messaging and network security appliances comprising computer hardware and software for detecting, blocking and removing computer viruses and threats, encrypting and authenticating data, preventing data-loss, recovering data, securing networks, and detecting, filtering, analyzing, managing and blocking electronic communications; energy management hardware and software; computer software and networking equipment, namely, network hardware and software for securing, monitoring and managing energy usage by network devices; computer hardware and software for collecting and analyzing data from the building, information technology (IT) installation, energy supply, and energy demand systems; headsets; electrical and scientific apparatus, namely, health care delivery systems comprised of computer hardware, computer software for interconnecting, integrating, securing, managing, monitoring, and operating video conferencing systems,

computer peripherals, video and audio conferencing systems comprised of endpoint devices, power and Ethernet ports, Internet protocol IP phones, video cameras, displays, speakers, microphones, video monitors, and signature pads, all sold as a package; computer hardware and software used with medical monitoring equipment and sensors for receiving, processing, transmitting, and displaying data for remote monitoring of patients' vital signs; computer software for managing medical records; computer software for communicating information among healthcare professionals and others relating to the care of such patients; computer software for use in managing and analyzing data in the fields of disease prevention, diagnosis, treatment, healthcare, and health maintenance; computer hardware; handheld computers; communications software for connecting computers and hand-held computers; software that facilitates video and voice communications between parties; mobile electronic devices, namely, cellular handsets and hand-held computers for audio and video conferencing, utilizing electronic mail, instant messaging and transmitting other digital data; operating system programs; data synchronization programs; computers; computer peripherals; headphones; software for transmitting, storing, managing and securing information, data, documents, voice, video and images; audio and video conferencing software; web conferencing software; software for searching and locating people; computer software for connecting individuals, information, applications, communications tools and audio, video, and multimedia content across computer networks; telecommunications software for sending and receiving text and video messages; computer software that facilitates collaboration among individuals and organizations; computer telephony software; computer network management software; computer software for sharing computer screens, desktops, data, electronic documents and applications; computer hardware and software for use in document management; digital imaging software; computer software for uploading, posting, displaying, editing, organizing, transmitting, sharing and tagging video, images, audio and content; software for accessing the Internet and computer networks.

Class 35:

Business consulting; Business management consulting; Business information; Business strategy services; Business research services; Business management and business operation research services; Outsourcing services [business assistance]; Business process management consultancy; Business process outsourcing services; Outsourcing [business assistance] in the field of information technology; Outsourcing [business assistance] of telephone call centres and data centre operations; Business data analysis; Business consulting in the field of big data; Data processing; Database management; Auditing of legal bills; Business consulting for reviewing business efficiency of legal service providers; Consultancy relating to business efficiency; Supply chain business consulting and management services; Business consultancy services relating to disaster planning and recovery; Office functions; Information, consultancy and advisory services relating to all the foregoing services; reseller services, namely,

distributorship services in the field of computer and data security software; procurement services in the form of purchasing computer hardware and software for others; purchasing, procurement and sourcing services, namely, procuring and sourcing computers, computer hardware, computer software and components for electronic data storage centres for others; consulting services in the field of procuring and sourcing computers, computer hardware, computer software, and components for electronic data storage centres.

Class 37:

Technical support services, namely, installation and troubleshooting of computer hardware in the nature of installing and repairing cyber security hardware and platforms all in the field of cyber security; maintenance and repair of computer hardware.

Class 38:

Telecommunications; transfer and dissemination via computer networks of information and data relating to computer network hardware and software; Internet portal services, namely, providing websites and online portals to enable information technology and networking equipment providers to monitor customer networks; providing information via local and global computer networks in the fields of telecommunications and telephony; broadcasting programs via computer networks; providing telephone conferencing services; electronic voice messaging, namely, the recording and subsequent transmission of voice messages; providing telecommunications services, namely, web conferencing services; Internet telephony services; providing telecommunications facilities and equipment for video conferencing; teleconferencing and video conferencing services; video conferencing services; audio conferencing services; instant messaging; electronic mail and Voice over Internet Protocol (VOIP) communication services; transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; providing access and connections to the Internet, computer networks, computer databases and applications; streaming of audio, data, video, and images on the Internet; on line services, namely, providing information via computer networks in the fields of cable television systems.

Class 41:

Providing of training; entertainment; sporting and cultural activities; training in the use and operation of computer software, hardware, computer networks and platforms all in the field of cyber security; educational services, namely, conferences, training courses, testing, workshops, and distributing course materials in connection therewith, all in the fields of computer networking, broadband networks, computer systems, telecommunication systems, Internet protocol (IP) telephony, cable television systems, network security, and/or network storage.

Class 42:

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; computer software consulting; developing customized software for others;

computer services, namely designing and implementing cyber security and privacy requirements and protocols in information technology systems for others, testing electronic components, testing computer hardware and software, testing storage capacity of computer hard drives, testing of data storage centres for others; technical consulting services in the field of design, implementation, migration and maintenance of computer software in the areas of data warehousing, database management, data integration and data quality; technical consulting services in the field of evaluating, choosing, migrating, and implementing electronic data storage networks; information technology consulting services; maintenance of computer software relating to computer security and prevention of computer risks; planning, design and implementation of computer technologies for others; updating of computer software relating to computer security and prevention of computer risks; software as a service（SAAS）services featuring software for use in detecting, reporting, analyzing and eliminating cyber incidents, namely malware, unauthorized software and network attacks; software as a service（SAAS）services featuring software for use in identification, acquisition, storage, encryption, management, manipulation, analysis and reporting of security breach events of computer and computer network data, metadata, data files, and information; software as a service（SAAS）services featuring software for use in secure cross-enterprise data collaboration, workflow auditing and reporting, data management and sharing, identity management, access control, and data backup and recovery in the field of cyber security; computer consultation in the field of computer security; computer security consultancy in the field of scanning and penetration testing of computers and networks to assess information security vulnerability; Scientific and technological services, namely, research and design in the field of cyber security systems; Computer security consulting services in the field of cyber security; platform as a service（PAAS）featuring computer software platforms used for monitoring industrial network security in the field of cyber security; consulting services in the field of testing and assessing networked devices for cyber security vulnerabilities and risks; computer consultation in the field of cyber security, namely, providing approvals that minimum security levels have been achieved in the field of cyber security vulnerability testing of networked devices; Technical support services, namely, installation, technical administration and troubleshooting of computer software in the field of cyber security; consulting and advisory services in the fields of computer and network security, data security and information technology security; computer, network and data security project management services for others in the field of setting up and configuring local area networks; computer project management services for others in the field of computer hardware, software and network security systems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware, software, and network problems; computer security consultancy in the field of electronic data and networks; computer network and data security services, namely, computer network vulnerability

assessments and penetration testing, computer network security review, computer network security policy assessment, web application security assessments, firewall rule review, domain password audits, social engineering assessments, wireless network security assessments, and payment card industry (PCI) hardware compliance review in the nature of testing and evaluating payment card industry hardware to ensure compliance with industry standards; managed security services, namely, providing technology information in the field of computer, server, and network security information, development of software for application security, data loss prevention, computer network vulnerability management in the nature of scanning and penetration testing of computers and networks to assess information security vulnerability, patch and hotfix management in the nature of updating and maintaining cloud-based computer software through patches and hotfix software updates; security incident investigation, response, and remediation services, namely, monitoring of computer systems for security purposes and responding to computer security incidents by notifying individuals of a changed status or condition of a sensing device in a security system via electronic message alerts; managed security services, namely, network and systems intrusion prevention and detection in the nature of monitoring of computer and network systems for security purposes, monitoring of computer security systems featuring next generation firewalls for security purposes, file integrity monitoring in the nature of monitoring of computer files for security purposes, and social media website threat monitoring for security purposes.
Class 45:
Security services for the physical protection of tangible property and individuals; managed security services, namely, security system monitoring.

[511] 貨品／服務說明：
Specification: Class 9:
Electrical and electronic connectors and parts thereof; electrical components, namely, wiring and vacuum tubes; measuring, detecting and monitoring instruments, indicators and controllers; apparatus and equipment for measurements of high voltage networks; voltage dividers; measuring shunts; generator controllers; generator PC controls; chopping gaps used to chop lightning impulses; sphere gaps for voltage calibration; voltage impulse measuring systems consisting primarily of a central processing unit, control computer, software, power supplies, data storage, interfacer calibrator and digitizer; capacitive divider ratio meters; current resistance meters; transformer testers; transformer measurers; current boosters for inductance testing; inductors; voltage discharge detectors; voltage discharge measurement instruments; current comparators; voltage burden instruments used as artificial loads for current and voltage transformer measurements; voltage measurement and analysis instruments; voltage coupling capacitators; voltage cable test terminations; power loss measurement instruments; transformer turns ratio meters; heat run testers; capacitator dissipator measurement bridges; winding resistance meters; electromagnetic compatibility testers; measuring, counting, alignment and calibrating instruments; electricity measuring instruments; high voltage power supplies and power packs, direct current wire sparkers and parts therefor; high voltage test equipment, namely, megohmmeters, DC (direct current) insulation testers, dielectric and corona test equipment, load cycle testers, high voltage fault locating bridges and impulse-type fault locators; high voltage test equipment, namely, pulse pick-up

devices for fault locating, automatic cable testers, alternating current dielectric test equipment for testing the dielectric on wires and cables, electrical wire insulation pin hole counters; high voltage test equipment, namely, multiple wire insulation testers, non-destructive insulation testers, discontinuity enamel wire defect testers, electrical test and fault locating equipment; surge generators for testing high voltage cables, switchgear and capacitors; electrical impulse measurement equipment; current shunts; voltage stepwave generators; high voltage power supplies, cable and transmission line fault locators; cable and wire test sets; circuit breaker test sets; controllers (regulators); electric switches; electrical control panels and controllers for controlling the operation of electric motors; controllers, electric controllers, magnets, electrical switch components, electrical switch-frames, electrical switch-arms, electrical switch-contacts, electrical switch-magnets, electrical resistance-grids, electrical relays, electrical overload-relays, electrical acceleration-relays, electrical limit-switches, electrical master-switches, electrical alternating-current relays, electrical push-button switches, and spare parts for the above-named electrical apparatus; fire pump products namely, fire pump control valves, electric motor fire pump controllers, fire pump controllers with transfer switches, battery chargers for fire pumps, alarm panels for fire pump controller status; electrical transmission apparatus and equipment, cables and wires for electrical transmission, transformers, fuses, lightning arresters, electrical relays, electric switches, electrical conductors, electrical connectors, electrical power distribution equipment, electrical grounding apparatus and equipment and electrical apparatus and instruments and parts and accessories therefor; fastening glands for electrical cables; cable junctions for electric cables; cable junction sleeves for electric cables; parts and fittings for the aforesaid goods; electrical terminals; electrical cable connectors; electrical cable and wires; termination blocks and earthing terminals; electrical switches and junction boxes; electric switches and connectors, electrical wiring devices; electrical power outlets; electrical wiring products, namely, electrical plugs and connectors; electric flush receptacles, wall switches and outlets; attachment plug caps, electric cord-coupling caps, electric couplings, attachment plugs, and motor plugs, straight blade electrical plugs; electrical and hydraulic cord, cable and hose routing system comprising raceways, namely, polymeric composition carriers for containing and protecting electrical and hydraulic cord, cable and hose; apparatus, instruments and cables for electricity; electrical apparatus, namely, conduit boxes; electric switch housings; motor control housings; flexible electric couplings; junction boxes, plugs and receptacles; explosion-proof electric switches; explosion-proof electric control stations; control centers (switch racks); reducers (electricity); close-up plugs; electric couplings and connectors; cast outlet boxes; cord and cable connectors; electrical boxes containing electrical switch, electrical outlet, electrical cable, conduit, electrical junction, cutout and receptacle, covers and plates for electrical boxes, bar hangers for

electrical boxes, and clamps (electrical connections) for electric cable and conduit, electrical switch boxes, electrical outlet boxes and covers therefor, ground clamps (electrical connections); splice boxes, splice connectors; enclosures for utility, telecommunications, fiber optic and cable lines, namely, splice boxes and bases therefor, and parts for underground splice boxes, namely, extensions and lids; electrical connectors; electrical connectors for electrical utilities, commercial, industrial and residential contractors, maintenance and repair companies, as well as the telecommunication and renewable energies markets; electrical outlet covers and housings for electrical equipment, namely, electrical cables, electrical switches, electrical connectors, electrical substations, and electrical load interrupter switches; electrical cable accessories, namely, plugs, network interface devices, conductors, multi-point junctions, fuse mounts and terminal blocks; electrical cable assemblies; pre-wired junction boxes (power system distribution assemblies); electrical transformers (power system supply assemblies); cable connectors; electrical cables; connection cables; electrical wires; power transformers; electrical lighting controls and power controllers; electrical outlets; electrical receptacles; electrical sockets; electrical switches; transformers; voltage surge protectors; lighting surge protectors; lighting transformers; heat sinks for use in electronic components; explosion-proof junction boxes, conduit boxes, electric switch housings, motor control housings, flexible electric couplings, junction boxes, explosion-proof electric switches, explosion-proof electric control stations, reducers (electricity), close-up plugs, electric couplings and connectors, cast outlet boxes, cord and cable connectors, explosion-proof terminal housings, electrical power distribution equipment; electric wiring devices, namely, electrical switches, receptacles, caps for electrical apparatus, electrical connectors, electrical couplings and attachment plugs; convenience outlets; electric motor plugs and electric couplings; adapters; current taps; waterproof covers for caps for electrical apparatus and electrical connectors; information technology devices; point-to-point communication equipment; electrical power, telephone and data communications components, namely, adapters, plugs, jumpers, jacks and connectors; electrical patch cords, jack, balun and connector panels; telephone and data terminals and terminal wall plates; raceways made of plastic for wire and optical fiber containment; cross connect terminal blocks; patch and jumper cords; connectorized wires, cords and cables; cable testers; surge protectors and parts therefor; wiring devices, namely, receptacles, plugs, adapters and connectors; electric switch devices, namely, limit, locking speed responsive, explosion proof, tamperproof, centrifugal, wobble, reversing and circuit interrupters; circuit testing apparatus namely, continuity testers, polarity testers; junction boxes; electrical grounding devices; power supplies; fault detecting apparatus; electric relays; power substations; motor speed controls; motor direction controls; lifting magnet monitors; crane controls; transformers; conduit fitting; hot metal detectors, hot and cold object back-lighted detectors, optical scanning and

position detectors, constant and variable speed non-contacting length measuring gauges; electronic equipment for monitoring and controlling conditions at different locations; equipment for producing transmitting receiving and processing telecommunications and data communication and signals, namely, transmitters, receivers, transceivers, amplifiers, convertors, repeaters, suppressors, modems, multiplexers, station selectors; telecommunications equipment namely, terminal buffers, voice couplers, and frequency transmitters; computer networking and data communication equipment; data communication system comprising transmitter and receiver hardware and software for use in connection with conveyors for collecting and measuring performance and providing control such as safety input for shutting down conveyors; traffic signal electric switches, electrical transmission and substation disconnect electric switches; electrical wiring device primarily for power supply connection for light-emitting diodes lighting and LED video displays; surge arresters for electric power lines and circuits; electrical connection devices with welded wire leads; industrial and commercial electrical lighting control panels; lighting fixtures and lighting control apparatus, namely, communication and control devices for use with lighting fixtures; photoelectric controls and sensors; photoelectric control for varying the intensity of electric lamps; electric power switch packs; electronic sensor devices, namely, occupancy sensors for ceiling mount for use in determining whether a person is inside a room; motion sensors; motion sensors for lighting; dimmers; lighting dimmers; light meters; exposure meters; sensors for use in detecting motion and dimming or brightening lights electric light switches; power supplies for building controls, light sensors, occupancy sensors, power sensors, lighting timers and building control timers; electric light dimmers; electrical controllers; electrical controls for use in dimming ballasts; electronic monitors and meters for use in measuring the amount of energy expended; and electric monitors and meters for use in measuring light intensity, electronic timer switches and control systems for lighting; wireless lighting control system for roadway lighting applications; inverters, cover plates for electric switches and receptacles and electric outlet boxes; enclosures, comprised in whole or in part of steel, for utility, telecommunications, fiber optic and cable lines, namely, splice boxes and bases therefor, and parts, comprised in whole or in part of steel, for underground splice boxes, namely, extensions and lids; wiring devices, namely, electrical plugs, electrical receptacles, electrical inlets, electrical pin and sleeve plugs and receptacles, all designed to withstand harsh environmental and industrial conditions; explosion-proof junction boxes; fittings for electrical enclosures, electrical conduit systems, and cable connectors, namely, electric connectors and metal threaded fasteners that have been specially adapted for electrical enclosures, electricity conduits, and cable connectors; electricity conduit boxes; electric switch housings; housings for electrical motor controllers; flexible electric couplings; explosion-proof electric switches; explosion-proof electric control panels; reducer

fittings for electrical enclosures and electricity conduits, namely, small metal hardware specially adapted for electrical enclosures and electricity conduits that enables electricity conduits of different widths to be connected together; electric close-up plugs; sealing fittings for electrical conduit systems, namely, small metal hardware specially adapted for electricity conduits used to prevent the passage of gases, vapors, or flames from one portion of an electrical installation to another through such conduits; unions for electrical conduit systems, namely, small metal hardware specially adapted for electricity conduits used to connect electricity conduits together; electric couplings and connectors; cast electric outlet boxes; electric cord and cable connectors; explosion-proof electrical terminal housings; electrical power distribution equipment, namely, circuit breaker enclosures, disconnect switches and panelboards; computer application software; computer hardware; computer application software and computer hardware for use in connection with mobile phones and other hand-held computing apparatuses that allow wireless connectivity to various electronic devices and that enable applications to be run on such mobile phones and hand-held computing apparatuses; electrical raceways; apparatus and instruments for controlling lighting; lighting controls; light transforming lenses and optics in the nature of optical lenses for focused illumination of medical examination areas; programmable LED drivers for use in lighting fixtures; ground fault circuit interrupter units for indoor and outdoor electrical installations in industrial, residential, and swimming pool areas for sensing ground faults in and cutting off the electrical power supply to such installations; Computer application software and computer hardware for use in connection with mobile devices, phones and other hand-held computing apparatuses that allow wireless connectivity to various electronic devices and that enable applications to be run on such mobile phones, devices and hand-held computing apparatuses; Downloadable home automation software applications for electric and ambient lighting, HVAC (heating, ventilation and air conditioning), climate control and monitoring, power control and monitoring, security, safety, and other home monitoring and control applications; IoT (Internet of Things) and M2M (machine to machine) software for the remote electronic control, tracking, monitoring and management of machines, devices, people, pets and things; Downloadable mobile applications for monitoring, managing and controlling internet of things (IoT) enabled devices; downloadable software and software applications permitting users to remotely control electronic locks, alarm systems, lights, garage door openers, electric gates, wireless local area network enabled plug outlets, televisions, video streaming devices, digital video recorders and receivers, wireless local area network enabled cameras and other electronic devices; Thermostats that incorporate wireless connectivity; computer software for mobile devices, namely, software for programming and controlling the aforementioned thermostats; Electronic devices, namely, kitchen thermometers, cooking thermometers, electrical switches, digital audio players, and wireless transmitters and

receivers; Wired or wireless control system, connected to wired and wireless networks in buildings, software applications; electric wall switches and dimmers, receptacles, occupancy sensors, motion sensors, vacancy sensors, daylight sensors, lighting control panels, room controllers, control interface and network modules; voice-activated, and remotely-activated IP (Internet protocol) cameras, smoke detectors, carbon monoxide detectors, anti-intrusion alarms, burglar alarms, motion detectors, electronic glass break detectors, remote control units, keypads and control panels for security systems and home automation devices, electronic door locks, light systems comprising light sensors and switches, lighting systems, namely, lighting controls; Electrical and electronic circuits, computers, wireless electrical devices and equipment, audio devices, video devices, computer network devices, headsets, speakers, wearable electrical and electronic devices, microphones, speech recognition devices; semiconductors and packages thereof; Internet of things (IoT) enabled devices namely, electrical outlets, sprinkler controllers, water leak sensors, mirrors, cameras, open/close sensors, computer modules, smoke and fire sensors and smoke and fire alarms; IoT (Internet of Things) and M2M (machine to machine) hardware, namely, electronic sensor devices for the remote electronic control, tracking, monitoring and management of machines, devices, people, pets and things; Vehicle locator device programmed to use GPS tracking; Navigational system, comprising electronic transmitters, receivers, circuitry, microprocessors, mobile telephone and computer software; Remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images and videos to remote locations; video cameras; electric and electronic sensors for motion, humidity, temperature, and light; smart home dashboard comprised of computer hardware and software used to control electronics in the home; dual independent electric socket control receptacle, namely, multimedia outlets with dual USB ports and backlight/nightlight; wireless enabled electrical plug outlets; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, electronic locks, security systems, lighting systems, garage door openers, electric gates, televisions, cameras, video streaming devices, video recording and video receiving devices, digital video recorders and other electronic devices; electronic and wireless control panels for security and home automation systems; Electrical wiring devices and wire management computer systems; telecommunications products; household electric control apparatus for energy saving; downloadable software for use in the data communication, oil and gas, power and utilities, security, electrical, electronic and lighting fields; light engines; LED light engines; lighting controls, lenses and optics; software applications that communicate through wired or wireless network for use with wireless or wired lighting system; relay based lighting control panels, plug load control device; smart ceiling fan controllers.

Specification:

Class 9:
(a) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus. (b) Recorded content; Communications equipment, namely, mobile phones; Computer databases; Screen savers; Navigating apparatus [compasses]; Car navigation computers; Navigation apparatus for vehicles [on-board computers]; Compasses [measuring instruments]; Global Positioning System [GPS] apparatus; Satellite navigational apparatus; Opticians' goods; Sunglasses; Frames for spectacles and sunglasses; Cases for spectacles and sunglasses; Cases for sunglasses; Glacier eyeglasses.
Class 14:
(a) Precious metals and their alloys; jewellery, precious and semi-precious stones; horological and chronometric instruments. (b) Precious metals and their alloys and goods in precious metals or coated therewith, not included in other classes; Jewelry, precious stones, in particular amulets, pins, bracelets, rings, brooches, earrings, clip earrings, tiaras, wedding bands, ankle bracelets, neck chains, cuff links, tie pins; Horological and chronometric

instruments, electric clocks, travelling alarm clocks, jewelry watches, desk clocks, sundials, stopwatches, watches, diving watches, desk table clocks, clocks for motor cars, clocks comprising a radio, alarm clocks, watch trinkets, watch bands, watch fobs, cases for clock and watch - making, movements for clocks and watches, clock cases, pendulums, clock dials, clockworks, dials, watch clasps.
Class 18:
(a) Leather and imitations of leather; animal skins and hides; luggage and carrying bags; umbrellas and parasols; walking sticks; whips, harness and saddlery; collars, leashes and clothing for animals. (b) Luggage, bags, wallets and other carriers; Umbrellas and parasols; Saddlery; Worked or semi - worked hides; Coverings of skins [furs]; Cases, of leather or leather boards; Leather cloth; Leather for furniture; Leather for shoes; Leather and imitation leather; Boxes made of leather; Straps for soldiers' equipment; Moleskin [imitation of leather]; Trimmings of leather for furniture.
Class 25:
(a) Clothing, footwear, headgear. (b) Heatgear.
Class 32:
(a) Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages. (b) Beer and brewery products; Non - alcoholic beverages.
Class 43:
(a) Services for providing food and drink. (b) Provision of food and drink; Temporary accommodation; Bar services; Public housing services; Hotels, hostels and boarding houses, holiday and tourist accommodation; Travel agency services for booking accommodation; Rental of temporary accommodation; Provision of temporary furnished accommodation.

[511] 貨品／服務說明： Class 9:
Specification: (A) Software; downloadable computer software and mobile software applications for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, online conferences, meetings, demonstrations, tours, presentations and interactive discussions; website development software; computer programs for connecting computers to one another and for enabling activities via the internet; computer programs that provide web-based access to applications and services through a web operating system or portal interface; computer programs for managing existing systems, software and processes in an information environment; computer software for monitoring cloud and application performance; database management software; (B) computer hardware.
Class 35:
Online marketplace services, namely, operating an online marketplace for buyers and sellers of goods and services; business consulting services related to the use of the internet of things (IoT); computerized online ordering featuring developer tools and cloud computing software and services; database management services; data processing services; business management and consulting services in the field of information technology (IT), cloud computing, and enterprise architecture; providing online business administration of accounts for others in the field of web hosting; digital content management; business project management provided online.
Class 38:
Electronic transmission and streaming of digital media content for others via cloud-based computer networks; streaming of audio, visual and audiovisual material via cloud-based computer networks; video-on-demand transmission services; telecommunications services, namely, transmission of voice, data, images, audio, video, and information via cloud-based communication networks; providing user access to computer software in data networks; providing virtual

private network (VPN) telecommunications services; providing access to remotely hosted operating systems and computer applications through the internet; streaming of software applications; providing access to cloud based computing resources and storage; voice over internet protocol (VOIP) services; providing access to databases; providing private and secure communication in real-time within a computer network; providing telecommunications services relating to interactive discussions.

Class 41:

Education services, namely conducting seminars, classes, workshops, online courses, and conferences in the fields of technology, cloud computing, web services, software as a service (SaaS), platform as a service (PaaS), mobile-backend as a service (MBaaS), artificial intelligence, software development, game development, internet of things, databases, the internet of things (IoT), and mobile computing ; online blog (online publication) featuring information in the fields of technology, cloud computing, web services, software as a service (SaaS), platform as a service (PaaS), mobile-backend as a service (MBaaS), artificial intelligence, software development, game development, internet of things, databases, the internet of things (IoT), and mobile computing; conducting online conferences, meetings and demonstrations.

Class 42:

(A) Software-as-a-service (SaaS) services; consulting services in the field of software-as-a-service (SaaS) featuring cloud computing technology; cloud computing and data center services for data backup and disaster recovery purposes, namely, electronic storage of data and storage services for archiving electronic data, data storage services in the nature of technical management of virtual infrastructure storage services, database management, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for software-as-a-service (SaaS) services featuring computer software platforms for deploying virtual machines to a cloud computing platform, diagnostics and analysis, syncing, storing, archiving data, analyzing data, database design and development, creating web applications, data storage, data storage and archival of data, electronic media, and digital content and backup; software as a service (SaaS) services featuring software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing computer software; (B) computer services, namely, cloud hosting provider services; computer security services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud resources based on assigned credentials; computer services, namely, integration of private and public cloud computing environments; cloud computing technology, infrastructure-as-a-service (IaaS) cloud computing technology, platform-as-a-service (PaaS), and mobile-backend-as-a-service (MbaaS) cloud computing technology; providing virtual computer systems and virtual computer

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; computer software; fire-extinguishing apparatus; protective helmets for sports; glasses, sunglasses, sports goggles; computer game software; fuel distribution equipment, namely electric fuel-level gauges, control valves for regulating gas flow and fuel lines; automated systems for service-station management comprising operating software for calibrated fuel pumps, flow control panels, fuel lines and pump nozzles for refueling of land

vehicles, marine vehicles and aircraft; gas meters; on-board and roadside signaling and communication systems, train inspection systems, crossing notification systems, apparatus for electric control of switching; Global Positioning System (GPS) tracking and monitoring systems for the transit and railway industries; electrical distribution devices and products, namely capacitors, circuit breakers, circuit-breaker patch boards, circuit closers, contact breakers, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supply systems, distribution boards and branch boxes (electricity), electrical distribution consoles, electrical switchboards and switchboxes; software for persons in charge of troubleshooting and maintenance of programmable controllers, software for cardiac vessel analysis, including heart vessel analysis, also with calculation functions with regard to blood vessels, software for medical patient-monitoring equipment, software for receiving, processing, transmitting and displaying data, software for developing customized programs for asset allocation; software for use on line enabling vendors of office equipment to place orders, to manage portfolios and communicate with the company; software for accessing mortgage and insurance information, software for collecting data concerning vital signs, software for analyzing electrical systems and electronic instruction manuals sold as a unit therewith, software for employees of financial institutions used for assessing customers' financial investments and processing the sale of the identified investments, software for obtaining information on the risk of flooding with regard to real property, software for developing graphic user interfaces and displaying data, software for calculating mortgage payments, software for controlling and managing vehicle fleet maintenance services, software for using and accessing commercial computer services, software used by clients to obtain information regarding lease portfolios, software for a radiology information system for radiologists and radiology departments, software for managing databases containing information on employees and patients for archiving purposes and patient monitoring, software installed on and used with PCs and medical monitoring equipment for graphic user interfaces, software for sending encrypted and compressed data to radio-paging (transport) systems, software for providing access to web sites so that buyers and sellers can carry out business transactions by electronic means, and software for subterranean navigation, namely navigation of the assembly of a depth probe for oil drilling and drilling assemblies so as to route subterranean installations; electronic, nuclear, industrial and laboratory, testing, measuring, calculating and monitoring instruments and apparatus; electrical products, electricity production and distribution products and voltage surge protection products, namely lightning conductors, armored rods; condensers (capacitors); switches for lighting; input/output controls and devices; fuses; controls for lighting; switch boxes, LEDs, namely light-emitting diodes, voltage regulators for electric power, voltage surge protectors, voltage surge limiters,

voltmeters, electrical circuit boards, relays and timers, solenoids and limit switches, manual full-voltage starters, reduced-voltage starters, electric switches and disconnecting switches, splitters for circuit boards and pumping panels, circuit breakers and disconnecting switches, transformers, electric circuit and electric lighting boards, electric wires, cables, cords and conductors, electric wiring and accessories, lightning conductors, electricity meters, wattmeters, grounding resistances, humidity and temperature sensors; industrial calibration sensors, push buttons, engine and motor control centers and their electric controls and voltage regulators included in this class; computer programs and software for medical use, industrial use and for research; electrophoresis apparatus; chromatography columns and pumps; apparatus for particle or laser rays microfabrication; apparatus for bio-informatics systems; scintillation apparatus (photography); imaging apparatus for radioactive and luminescent emissions; integrated synthesis and purification systems; optical laser systems for digital imaging; glassware for laboratories; vials and micro-vials; microtiter plates; software for managing hospital operating rooms; software for intensive care information management; software for industrial operation control; software and manuals in electronic format therefor sold as unit for factory management; graphic interface computer programs for controlling machines in industrial automation applications; software for creating graphic presentations and editing dynamic data interfaces for real-time graphic applications for industrial and commercial use; communication software for connecting computer network users; software for plastic injection molding; software for controlling, monitoring, simulating, communicating, recording and collecting data and for factory automation; software for integration of manufacturing machine operations, process control, supply of data for displaying, problem monitoring and production report generation; software packages for operating and programming grinders in the manufacturing industry; computer hardware for monitoring industrial processes, namely computer monitors; portable computers, Ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, displaying devices and terminals; computer whiteboards; processors and system cards; call controllers, operator interfaces, reference interfaces and data collectors; applications for manufacture and control, namely for statistical process control, data collection, direct digital control; document management systems; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; adaptive control product in the form of an external controller for optimizing rough and semi-rough cutting performance of machine tools; distributed wired and remote input/output electric equipment, input/output modules, interface modules, electricity supplies and assembly equipment; anti-theft and burglar alarm systems; security devices, namely logic programming computers, control panels, electronic burglar detectors, electronic glass-breakage detectors, electronic vibration detectors, magnetic contacts for security systems, electronic switch plates, electronic

motion detectors for alarm systems, electronic motion-sensitive switches, fixed connection sirens, audio loudspeakers, electronic navigation systems, access control and alarm monitoring systems; fire, heat and smoke alarms and detectors; computer cards access control systems; card readers, card encoders and encoded cards for card-operated access control systems; video cameras; video devices for object recognition; video devices for object tracking; video devices for reading license plates; video devices for checking alarms; video devices for facial recognition; video devices for vehicle recognition; video devices for traffic detection; video devices for access door control; video devices for burglar detection; processing hardware or software used for analyzing digital video images for automatically extracting, recording and reporting information automatically, and remote video monitoring systems for security and surveillance applications central video monitors; video recorders; apparatus for shooting and filming; closed-circuit video systems; closed-circuit video systems consisting of one or several cameras and camera housings; wireless, short-range and radiofrequency transceivers; transceivers for electrical lines; communication monitoring equipment for operating closed-circuit cameras; communication monitoring equipment, namely numeric-pad controls, matrix switching devices, multiplexers, digital video recorders, integrated swinging panoramic zoom domes, remote video controllers, receivers, electronic alarms, triggers and management controls and video transmission devices sold separately or as parts of a closed-circuit camera operating system; personal digital assistants (PDAs) configured for use by real estate professionals; communication interfacing devices for personal digital assistants (PDAs); fiber-optic transmission systems, namely fiber-optic transmitters, receivers and transceivers for transmission of video signals, audio signals and data via optical fibers; electric switches; electromechanical locking devices; magnetic cards for locks, access control, presence control, alarms and security systems; portable electronic hardware for reception, control, storage, handling, display and transmission of data and for actuating electronic locks; electronic access cards and readers and encoders thereof; magnetic access cards and readers and encoders thereof; memory access cards and readers and encoders thereof; proximity cards and readers and encoders thereof; electronic keys and readers and encoders thereof; barcode access cards and readers, encoders and laminators thereof; access keypads; radio-frequency tracking tags; tracking and control systems consisting of one or several radio-frequency beacons, detectors and transceivers for determining and checking the location and movements of tangible assets, stocks and individuals; infrared sensors; computer hardware and software for managing infrastructures and monitoring systems for accessing infrastructures and components thereof, namely control boards, access card readers and video imaging, video surveillance, digital hard disk recording, network transmission and remote access equipment and systems; networked digital video storage servers, applications for surveillance and access control, alarm and security monitoring, computer software and hardware for monitoring

and operating access and security systems comprising locking systems, doors, access and identification devices and security cases in the form of boxes for securing keys; surveillance systems sold separately or as components or in the form of sets such as systems comprising one or several surveillance cameras, hidden cameras, closed-circuit television cameras, camera housings, camera stands, lenses, video monitors, video recorders, digital recorders, video recording media, video switches, control panels, numerical pad controls, joysticks, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controls, control panel casings, switch housings, transformers, switches, splitters, coaxial cables, connectors, motion detectors, microphones and loudspeakers; user interface software and control software for management of access, security and fire-extinguishing systems; electric locks; portable electronic communication and computer equipment for data reception, control, storage, handling, display and transmission for operating electronic locking devices; electronic key holders, readers and encoders; data processing computer software and hardware; electric power supplies, namely batteries, rectifiers and/or regulators of current and/or voltage and transformers; control panels, namely electronic apparatus designed for electronically monitoring a predefined activity and for activating an anti-theft alarm; loudspeakers for sirens and electronic siren controls, namely ringer tone generators and amplifiers for sirens; software for controlling communication equipment for operating and controlling closed-circuit cameras; switching devices integrating magnetically triggered blade switches for anti-theft alarm systems and fire alarm systems, in industrial tracking apparatus, revolution counters, security lock systems for equipment cabinets, industrial position-monitoring apparatus, electric cables and pump and valve monitoring apparatus and home security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on individuals, in luggage and freight; electric and electronic checking apparatus for detecting the presence of explosives and/or narcotics on individuals, in luggage and freight; apparatus for detecting the presence of explosives and other contraband; timers or sensitive apparatus for detecting changes in conditions for launching and monitoring regeneration or washing cycles for water treatment equipment; control valves for water treatment and filtering equipment; bioreactors for cell culture; portable analysis instruments, namely a probe with a recorder for data conversion equipped with microprocessors for measuring organic and inorganic products in water; membrane filters for laboratories; silt density measuring devices; deionization devices for laboratories, filters and filter housings for laboratories; liquid separating apparatus for laboratories; membranes for laboratories; liquid flow control devices, namely pumps, valves, flowmeters and regulators for laboratories; ozone monitoring instruments; laboratory equipment, namely porous titration microplates for cellular biology and other applications in life sciences; electronic controls for water treatment and processes, namely apparatus for treatment of

industrial and commercial water supply systems, boiler water systems, water cooling systems, cooling water systems and closed water-supply systems, systems for paper and pulp treatment, fuel treatment systems and metal treatment systems for analyzing the chemistry of the system, determining the proper treatment program, applying the desired treatment and monitoring the effectiveness of the treatment; data management software in the field of paper, pulp and water treatment; electronic controls for data processing in the field of paper, pulp and water treatment; apparatus for industrial water-supply systems for measuring and checking pH and conductivity; apparatus for supplying an industrial, commercial or municipal water supply system with measured quantities of chemicals; electronic testing apparatus for water treatment; laboratory testing equipment, namely apparatus for testing deposit levels and corrosion speed; mobile laboratory equipped with equipment and instruments for measuring and monitoring pH, conductivity and concentration of chromate in domestic and industrial waters, for carrying out inorganic and microbiological water testing; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation to electrical energy, namely, photovoltaic solar modules, hybrid photovoltaic solar modules, electronic sensors for measuring solar radiation, photo-cells; apparatus for converting electronic radiation to electric energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, ink-jet printers, multi-function and multi-purpose printers, parts of all the aforesaid goods; portable electronic devices for wireless reception and/or transmission of data, enabling users to store or manage personal information and to transmit and receive voice, video and image communications; software for synchronization of data between a remote unit or station and a fixed unit or station, and software providing a one-way and/or two-way wireless connection to data; portable digital electronic apparatus and software related thereto; portable electronic devices for wireless data reception and/or transmission; software for re-orientation of messages, electronic mail and/or other data from a personal computer or a server towards one or several portable electronic devices; computer software and programs for wireless device operation and management; telecommunication devices; software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for navigation on the aforesaid networks websites; software for sending and receiving short messages and electronic mail and for filtering non-text information from data; portable electronic devices for voice, video, data and image communications; computer game software for mobile telephone receivers; electronic game software for mobile telephone receivers; software packages; batteries, dry cells and batteries, rechargeable batteries, battery chargers, storage batteries, solar cells and batteries, fuel cells; carbon electrodes for dry batteries, wiring apparatus, connectors (electric), electric cables, electric ducts, floor ducts specially designed for housing electric cables, ballast (for discharge lamps), under carpet wiring systems, code lighting-

switches, circuit breakers, magnetic contactors and starter switches, circuit protectors, switching devices, electric connecting boxes, device switches, output jacks, plugs (electric), electric timers, other wiring devices; signaling apparatus and instruments, video intercoms, intercom systems, electric door chimes, intercoms, fire alarms, gas-leak alarms, anti-theft alarms, portable emergency intercoms; acoustic machines and apparatus, radios, tape recorders/players, radio cassette recorders, portable tape players, compact disc recorders/players, minidisc recorders/players, minidisc decks consoles, DVD (digital versatile disc) audio recorders/players, secured digital recorders/players, secured digital cards, loudspeakers, tuners, amplifiers, stereo component systems, disc readers, graphic equalizers, alarm clocks, integrated circuit recorders, digital audio processing devices, earphones, headphones, microphones, cassette recorders/players, software for compact discs (prerecorded), electric megaphones, language laboratories, audio systems for cars, public address systems, audio mixers, audio equipment cleaning equipment, namely magnetic head cleaning equipment; audio cables, video cables, other audio machines; audiovisual machines and apparatus, television sets, cathode ray tube display devices, cathode ray tubes, image pick-up tubes, plasma television sets, plasma displays, LCD (liquid crystal display) television sets, liquid crystal display monitors, television sets combined with video tape recorders, television sets combined with disc players, antennas, tuners for satellite broadcasting, television tuners, Internet terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, software for video CD (compact disc), video recorders/players for DVDs, color video systems for large-scale display, cable television systems, hard disk units, video imaging devices, electric optical display boards, multi-purpose electric display systems, closed-circuit video equipment systems, software for DVDs, television cameras, video switches, non-linear editing systems, editing controllers, DVD creation systems, light emitting diodes (LED) displays, other audiovisual machines; optical disc machines and apparatus; optical disc units, optical disc recorders, optical disc players, optical disc changers, optical disc cartridges, optical disc recording systems; communication apparatus and machines, facsimile transceivers, transceivers, telephones, cellular mobile telephones, cases for cellular mobile telephones, telephone answering machines, private auto-switch systems, global positioning system receivers, radiotelephones, marine radars, radio-paging receivers, mobile communication systems, multi-channel access radio systems, electric panels for traffic information, videoconferencing systems, private portable telephone systems, local network systems, AV (audio/visual) codecs (encoder-decoders), navigation systems for cars (road guidance systems), electronic systems for road toll collection, GPS (global positioning system) antennas; checking (supervision) apparatus and instruments, communication and surveillance systems for apartment buildings, intruder detection systems, automated systems for surveillance and control of functions within buildings, electric multi-layer

security apparatus; automatic control machines and instruments, electric distribution boards, road signal control apparatus, bus location systems, ultrasound vehicle detectors, information and telecommunication networks for road traffic management, light dimmers, light switches, inverters, programmable control systems, transformers, cabinets, domestic electricity production systems, power capacitors; data processing equipment; computers and computer peripherals, word processors, software (recorded), image scanners for personal computers, printers, PC (personal computer) cards, computer keyboards, mouse(data processing equipment), CD-ROM (compact disc-read only memory) units, diskette units, card reading/writing systems, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals, personal digital assistants (PDAs), digital versatile disc-random access memory (DVD-RAM) and/or read only memory (ROM) units, computer-aided design (CAD) and/or computer-aided manufacturing (CAM) systems, hard disk units, electronic calculators, uninterrupted power supplies for computers, communication and broadcasting; external storage devices, video cassettes, cleaning heads, D-VHS (data video home systems), other computer peripherals; video tapes, audio cassettes, diskettes, optical discs, mini-discs, DVDs (digital versatile discs), integrated circuit memory cards; weighing and measuring apparatus and instruments, thermoluminescent dosimetry systems, portable x-ray dosimeters, electronic meters, ammeters, electricity consumption meters, grip measuring devices, electric apparatus for measuring leakance, electric insulation meters, thermometers, measuring system processors, electric multi-circuit sector voltage monitors, micro-precision measuring devices, body fat monitors, pacers, audio/video analyzers, oscilloscopes, modulators, voltmeters, distortion meters, other measuring apparatus; sensors, light-sensitive sensors, thermometric sensors, position sensors, angular velocity sensors, rotation sensors, angle sensors, dew point sensors, other sensors; electric components, light emitting diodes, liquid crystals, liquid crystal display modules, magnetrons, diodes, transistors, thermostats, integrated circuits, semi-conductor storage devices, one chip micro-computers, electric condenser, microphones cartridge, gray-scale image processors, thermal printing heads, magnetic heads, permanent magnets, connectors, relays, display components, semi-conductor lasers, charge coupling devices (CCD device), image detectors, film capacitors, over-oxygenation membrane units, electric tuner units, high-frequency units, coin validation units, note validation units, magnetic card reading/writing devices, voltage-controlled oscillators, phase-locking circuit synthesizing modules, wireless communication module units, optical transmission components, printed wiring boards, loudspeaker components, electricity supplies, AC (alternating current) adaptors, focusing magnets, inductors (coils), capacitors for electric apparatus, electric signal filters, transformers, deflection coils, thermistors, varistors, piezoelectric ceramic components, acoustic-optical components, resistances, potentiometers, encoders, printing units, hybrid integrated circuits, switching components, heat-welding wiring boards, transparent touch panels, electroluminescent

components, remote control units, magnetic resistance elements, thermal disconnects; data processing equipment, in particular for financial applications; operating system programs; computer hardware and software, in particular for local and wide-range computer networks development, maintenance and use; systems for reading memory cards and systems for reading stored data including integrated circuit memories and bank card memories; automatic ticket dispensers; accounting machines; encoded cards, including magnetic cards and integrated circuit cards, in particular for financial applications; card readers, printing apparatus, including printing apparatus for data processing systems and financial transaction systems; machines for banking institutions; encoders and decoders; modems; encoded magnetic cards, electronic data carrier cards, encoded magnetic cards readers, electronic data cards reader, electronic encryption systems, computer hardware, computer terminals, software used in financial services, in the banking and telecommunication industries; electric and electronic products, namely calculating machines, pocket planners, alarms; bank cards, including printed bank cards and bank cards with magnetic memory and with integrated circuit memory; bank cards, credit cards, debit cards, including such cards equipped with integrated circuits and microprocessors; memory cards (smart cards); automated teller machines (ATMs); data processing equipment and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the form of integrated circuit cards and card readers containing transponders and other proximity payment devices; mouse pads; machines and machine systems, including parts and accessories for transmission, distribution and control of electricity; induction devices, electrical displacement devices, electricity control and regulation devices, electricity measuring instruments, electrical protection devices, switchboards, switchboard apparatus, wiring devices and supplies; liquid control devices, namely, flowmeters, manostats, sequential timers, electric switches and controls; audio amplifiers for keyboards, external memories for musical instruments; systems for managing data and preserving archives in the field of anesthesia; alarm devices for tire pressure; pressure gauges in vehicle tires; rubber testing machines.
