**接納註冊 (全文本)**

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條，接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條，公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條，任何人擬就下列商標的註冊提出反對，須在本公告公布日期起計的三個月內，採用表格第 T6 號提交反對通知。(例如，若果公布日期為 2003 年 4 月 4 日，則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時，將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請，請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

**ACCEPTANCE FOR REGISTRATION (FULL VERSION)**

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=e&agree=0>.

analysis and measurement reports and results, particularly in the form of graphs, charts and maps resulting from performance analysis and performance monitoring signals and/or navigation data or map data, satellite positioning electrical or electronic apparatus, satellite positioning electric or electronic instruments and satellite positioning equipment, digital onboard navigation and attack apparatus and equipment for aircraft, radioelectric and satellite positioning apparatus and equipment; geographic information processing systems, namely satellite systems, GPS; apparatus and equipment for the acquisition, compression, transmission, analysis and restoration of satellite images and aerial photographs; image transmission systems by digital radio link; optical components; spatial optic apparatus and instruments; optical apparatus and instruments for aerial reconnaissance aircraft, apparatus, machinery and devices for aeronautics; guidance, radio-control and automatic pilot equipment and apparatus; hardware and software (recorded programs) for position determination, monitoring and surveillance in specific geographical areas; Monitoring and control hardware and software (stored programs) for position determination, monitoring and surveillance systems in specific geographical areas, computer support training on the operation, performance and security of information and position determination systems, media for the storage of data and user terminals for determination of position, navigation, navigation databases, radar or satellite navigation, radionavigation and for the following applications: mapping information, security and emergency equipment, instruments and apparatus, research (other than for medical use) and lifesaving equipment, instruments and apparatus; Media for the storage of data and user terminals for the determination of position, mapping information, course guidance for land or airborne vehicles, electric or electronic instruments and apparatus for the reception, processing and/or transmission of navigation signals and their elements and component parts; electric and electronic apparatus and instruments for the review, analysis and performance monitoring of navigation data and navigation signals and their parts and components; electric and electronic apparatus and instruments for the measurement, verification, checking, testing and monitoring of positions and the associated navigation data; computer software (recorded programs) for the measurement, verification, checking, testing and monitoring of positions and the associated navigation data; satellite localisation and satellite navigation equipment; telecommunication and radio communication apparatus, telecommunication and radio communication networks, digital telecommunication networks; communication and radio communication networks by wire, cable, fibre optics, radio or satellite; servers of call centres, multiplexers, demultiplexers, apparatus and instruments for controlling and administrating networks; receivers, electronic and radioelectric signal transmission apparatus; satellites for scientific use and satellites designed to receive and transmit radioelectric signals; terminals, communication terminals, fixed or mobile terminals; apparatus for communicating, transmitting, receiving voice, image, data and multimedia data;

internetwork gateways; network infrastructures (basic equipment) and access interfaces to Internet Protocol (IP) networks; equipment and apparatus for the transmission of messages, information, data, sound and images over the airwaves, via cable, via fibre optics, via telephone, via satellite, via terminals, via telecommunication networks and via computer networks; telecommunications and office automation terminals for military applications; Telephony apparatus, mobile telephones, cordless telephones, radio paging apparatus, faxes, personal digital assistants, mobile devices for Internet access, spare parts for the abovementioned goods to allow communications, to conduct secure transactions and business online; software programs in a format exploitable by computer provided on magnetic or optical media or in a downloadable format to be used with the aforementioned products, software programs for secure communications and enabling one to authenticate, check, record and analyse business relationships and transactions via a system of controlled access rights and notifications, satellite telecommunications stations, notably airborne; software, software (recorded programs) for communication and radio communication networks via wire, cable, via fibre optics, via radio or via satellite; software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for voice, image and data; apparatus and software (recorded programs) for securement of access to computer networks and to Internet Protocol (IP) networks; software (recorded programs) for encryption and decryption; software (recorded programs) for encoding and decoding; software (recorded programs) for encryption and decryption; software (recorded programs) for the architecture, administration and securement of access to computer networks and to Internet Protocol (IP) networks, simulation, modelling, testing and experimentation software, servers for modelling simulation, testing and experimentation of civilian and military operations, software (recorded programs) for computers for the development, optimisation and performance analysis of methods and algorithms as well as processors (central processing units) and software modules for the processing and/or generation of navigation signals and/or data pertaining to navigation or cartography; software designed to perform the functions of planning, acquisition, processing and dissemination of intelligence information exclusively in the areas of intelligence and geography, for the purpose of defence and safety, software for digital radio networks giving the user access to voice services and data such as group communications in relay mode, individual calls, short messages and localisation and transmission of data, all these products for digital radio networks; software (recorded programs) for the provision of access to an electronic messaging service; transaction security software for Intranet and Internet data terminals, servers for modelling simulation, testing and experimentation of civilian and military operations, operating stations and terminals for presenting information graphically and textually; secure information processing equipment; computer software; secure telecommunications equipment; electronic handheld devices for the wireless receipt

and/or transmission of secure data, particularly messages, and devices allowing the user to save or manage personal information; software for the redirection of secure messages, Internet e-mail and/or other data to one or more electronic handheld devices from a database stored in or associated with a personal computer or a server; software for the synchronization of secure data between a remote station or device and a fixed or remove station or device; electrical and electronic apparatus and instruments namely computers, processors (central processing units) of data and software (recorded programs) for computers for the development, optimisation and performance analysis of methods and algorithms as well as processors (central processing units) and software modules for the processing and/or generation of navigation signals and/or data pertaining to navigation; electrical and/or electronic apparatus, electrical and/or electronic instruments and equipment for displaying reports and analysis and measurement results, in particular in the form of graphics, tables and charts resulting from the analysis of performance and the monitoring of performance of navigation signals and/or data; electrical or electronic apparatus and instruments used for examining and identifying space segments in two dimensions or in three dimensions; computer software (recorded programs) used for examining and identifying space segments in two dimensions or in three dimensions; Apparatus for monitoring flight parameters, particularly navigation and piloting software (recorded programs) for helicopters, rotorcraft and drones, communication systems and antennas for aircraft; recording systems for apparatus for locomotion by land, air or water; autoflight control systems; test devices (real time systems) for conducting tests on electronic samples and parts such as apparatus and particularly on data input, recording, process and display devices, data bus and data bus systems, analog-digital and digital-analog converters, program samplers, simulators for the simulation of mechanical, electrical and electronic functional processes, linking modules data generators, data analyzers and selective switches and coordinators, interfaces such as analog, digital and discrete data bus interfaces; control equipment for test equipment and browsable programs, recorded on data carriers for such control equipment; browsable test programs, recorded on data carriers; instruments and computer hardware and software for the simulation of electronic samples and mechanical, electrical and electronic function processes as well as instruments and computer hardware and software for the simulation of electrical and mechanical functional processes; display equipment for preparing and conducting tests on electronic samples and for processing the test results; software, namely databanks for managing tests on electronic samples for checking the configuration of the test system and definition of the test system; computer hardware and software for establishing test documents; computer hardware and software for the connection of test installations via telecommunication supports and/or via Internet and/or local networks; instruments and installations for testing vehicles and apparatus for locomotion by land, air and water; sensors and communication apparatus of vehicles, apparatus for locomotion by

land, air, water or rail, aircraft of all types, unmanned aerial vehicles, helicopters, rotorcraft and drones and space vehicles.

Class 12:

Vehicles; apparatus for locomotion by land, air, water or rail; Aircraft of all types; unmanned aerial vehicles; helicopters; rotorcraft and drones; space vehicles; including parts and accessories of all aforementioned products.

Class 36:

Insurance; financial affairs; monetary affairs; financial operations, financial affairs, monetary affairs; investment of capital; investment of funds; building management; financial services, namely acquisition by means of contribution, underwriting, of all securities; financial and stock management services for all securities, partnership shares, bonds and other stock market valuations; stock market valuation portfolio administration, management services for the benefit of others.

Class 37:

Construction; repair, particularly of vehicles and apparatus of locomotion by land, air or water including unmanned aerial vehicles, aircraft, drones and drive motors; Installation, repair, servicing and maintenance of electrical and electronic equipment and apparatus, aeronautic equipment, and cryptographic equipment, instruments, apparatus and devices.

Class 38:

Telecommunications, electronic data transmission, transmission of information via computer server; radiophonic communications, computer-assisted transmission of messages and images; emission and reception of data, signals and information processed by telematics, by computer or by telecommunication apparatus and instruments; exchange of computerized data; wireless secure e-mail and data messaging services; electronic messaging services; monitoring, emission and reception of data, signals, images and information, transmission of encrypted messages and images; telecommunication services by satellite; teleinformatics via terminals; telephone communication services; communication via computer terminals, secure mobile telephone services; transmission services by satellite; Data transmission services, data transfer services and telecommunication services for the provision of data online, in particular in the fields of satellite navigation and positioning, media for navigation and positional data; preparation and modification of the access to available data and information; preparation, provision of telecommunication data and information on Internet; secured communication of data and vocal data on behalf of third parties; provision of access to programs on data networks.

Class 41:

Education; training; entertainment. Practical training, instruction and demonstration in the fields of defence, monitoring, communication and security, intelligence and geography, education, organisation and conducting training, practice workshops, seminars, internships, editing and publication of books, printed matter, CD-ROM, and film production, exclusively in the fields of intelligence and geography, for defence and security; publication of books and periodicals on line; publishing.

## Class 42:

Technical studies, development and adaptation of telecommunication networks and radio communication networks; design, development and updating (for third parties) of software (recorded programs) for the management, administration, architecture management, configuration, and protection of local or remote networks for voice, image, data and multimedia data communication, tests, checks, analyses and/or signal monitoring; development, optimisation, performance monitoring and testing for methods, algorithms, processing and software modules for the computer processing of signals; inspections, tests, analyses and/or monitoring of system algorithms for the generation of data pertaining to navigation or cartography; development, optimisation, inspections and tests for performance of methods, algorithms, processing and software modules for the generation of data pertaining to navigation or cartography; services in the field of performance monitoring and inspection; services in the field of signal verification; services in the field of developing algorithms and methods for the computer processing of signals; computer services for the generation and/or delivery of results particularly in the form of analysis reports, graphs, tables and charts; scientific and technological services and research and design relating thereto, such as developing, engineering, investigating, consulting, optimising, and improving; industrial analyses and measurements; scientific and technological services and research and design relating thereto in the field of data processing, data analysis and data conversion; provision of programs in data networks; creation and updating of database programs; technical consultancy services for the study of user requirements and the evaluation of intelligence system architectures, studies relating to the adaptation, integration, qualification and logistics support built into operations, exclusively in the fields of intelligence and geography, for defence and security; scientific and technological services and research and design services relating thereto, such as developing, engineering, investigating, consulting, optimising, and improving, exclusively in the fields of intelligence and geography, for defence and security; data processing, data analysis and data conversion services, exclusively in the fields of intelligence and geography for defence and security; Engineering services applied to the design and troubleshooting of digital radio communication networks intended for security forces; Design, development and updating (for third parties) of software (stored programs) for position determination, supervision and monitoring in specific geographical areas; design, development and updating (for third parties) of command and monitoring software (stored programs) for position determination, supervision and monitoring in specific geographical areas; Scientific evaluation and estimation services provided by engineers for the generation and/or delivery of results particularly in the form of analysis reports, graphs, tables, charts; Programming of software, provision of software platforms guaranteeing users authentication, data integrity, data confidentiality and file acceptance, documents or electronic data via electronic networks,

including the Internet; provision of software platforms for services relating to the encryption and the signature of files, documents or electronic data on behalf of third parties, provision of software platforms for services relating to the secure transfer of files, documents, data or electronic payments via electronic networks, including telephone networks and the Internet; programming and maintenance of software, including software platforms for secure end-to-end transactions, the management of customer relations and the processing of affairs and transactions; data security services relating to provision of protection services for corporate communication via electronic networks; technical support services concerning computer hardware, software and wireless data networks in all aforementioned fields, consulting services in all the aforementioned fields; Tests, inspections, analyses and/or monitoring of navigation signals; development, optimisation, performance monitoring and testing for methods, algorithms, processing and software modules for the computer processing of navigation signals; inspections, tests, analyses and/or monitoring of system algorithms for the generation of data pertaining to navigation; development, optimisation, inspections and tests for performance of methods, algorithms, processing and software modules for the generation of data pertaining to navigation; engineering services in the field of performance monitoring and inspection; engineering services in the field of navigation signal verification; engineering services in the field of developing algorithms and methods for the computer processing of navigation signals; engineering services in the field of developing algorithms and methods for generating data pertaining to navigation; scientific evaluation and estimation services for the generation of extrapolated data for navigation; evaluations, assessments and research in the fields of science and technology provided by engineers, such as development, engineering, investigation, consulting, optimisation, calibration, alignment, testing, enhancement, in respect of antennas, satellite dishes, reflecting and radiant objects, examining and identifying space segments in two dimensions or in three dimensions; measurement, characterization, verification, examination, digitisation by scanning and sampling electromagnetic fields; industrial analyses; evaluations, estimates and research in the technological fields of data processing, data analysis and data conversion provided by engineers; creation (design, development) of database programs; Tests, checks, analyses and/or monitoring of signals associated with vehicles, apparatus for locomotion by land, air or water, particularly helicopters, rotorcraft and drones; development, optimisation, performance monitoring and testing for methods, algorithms, processing and software modules for the computer processing of signals relating to vehicles, apparatus for locomotion by land, air or water, particularly helicopters, rotorcraft and drones; inspections, tests, analyses and/or monitoring of system algorithms for the generation of data; engineering services in the field of performance monitoring and inspection relating to vehicles, apparatus for locomotion by land, air or water, notably helicopters, rotorcraft and drones;

engineering services in the field of signal verification;  
 engineering services in the field of developing algorithms and  
 methods for the computer processing of signals; scientific  
 evaluation and estimation services for the generation and/or  
 delivery of results particularly in the form of analysis reports,  
 graphs, tables and charts; scientific and technological services,  
 and associated research and design, provided by engineers, in the  
 field of data processing, data analysis and data conversion;  
 creation (design, development) and updating of database programs;  
 technical studies, development and adaptation of telecommunication  
 networks and radio communication networks relating to vehicles,  
 apparatus for locomotion by land, air or water, particularly  
 helicopters, rotorcraft and drones; design, development and  
 updating (for third parties) of software (recorded programs) for  
 the management, administration, architecture, configuration, and  
 protection of local or remote networks for voice, image, data and  
 multimedia data communication networks associated with vehicles and  
 apparatus for locomotion by land, air or water, particularly  
 helicopters, rotorcraft and drones; design, development and  
 updating (for third parties) of software (recorded programs) for  
 the design, development, management and securement of access to  
 computer networks and to Internet Protocol (IP) networks,  
 programming and maintenance of computer software for military and  
 aeronautic applications; installation of software for military or  
 aeronautic applications; research and development of new products  
 for military or aeronautic applications; computer processing of  
 positioning and navigation signals and data for simulation and  
 experimentation.
